1. That the property described as follows: All property, rights and interests in the accounts identified in Exhibit A set forth below and by reference made a part hereof, together with

(a) Any other property, rights and interests which represent accumulations or accruals to, changes in form of, or substitutions for, any of the property, rights and interests in said identified accounts on October 2, 1950, and which are now held in other accounts being maintained as blocked or otherwise subject to the restrictions of Executive Order 8389, as amended, or regulations, rulings, orders or instructions issued thereunder, and

(b) Any and all rights in, to and under any securities (including, without limitation, bonds, coupons, mortgage participation certificates, shares of stock, scrip and warrants) and any and all declared and unpaid dividends on any shares of stock in any of said accounts,

excepting from the foregoing, however, all lawful liens and setoffs of the respective institutions in the United States with whom the aforesaid accounts are maintained,

is property within the United States;

2. That the property described in subparagraph 1 hereof is owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are organized under the laws of a designated enemy country or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are nationals of a designated enemy country;

and it is hereby determined:

4. That to the extent that the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or other-

wise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on July 12, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Return Order 657]

RAOUL ROLAND RAYMOND SARAZIN AND SOCIETE FRANCAISE HISPANO-SUIZA

Having considered the claims set forth below and having issued a determination allowing the claims, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, be returned after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention To Return Published, and Property

Raoul Roland Raymond Sarazin, Rue du Chateau de la Chasse, Villa "Les Surprises", Saint-Prix, France; Societe Francaise Hispano-Suiza, Rue du Capitaine Guynemer, Bois-Colombes, France; Claim Nos. 12523, 12524, and 5992; April 13, 1950 (15 F. R. 2096); all right, title and interest in and to United States Patent Application Serial No. 284,945 (now United States Letters Patent No. 2,313,206), vested by Vesting Order No. 293 (7 F. R. 9830, November 26, 1942); all right, title and interest in and to United States Patent Application Serial No. 455,908 (now United States Letters Patent No. 2,356,435), vested by Vesting Order No. 1028 (8 F. R. 4205, April 2, 1943); all right, title and interest in and to United States Letters Patent Nos. 2,096,899; 2,127,888; 2,129,241; 2,137,591; 2,154,359; 2,156,484; 2,183,467; 2,225,929; 2,211,076; 2,265,747, vested by Vesting Order No. 666 (8 F. R. 5047, April 17, 1943) to claimant, Raoul Roland Raymond Sarazin.

All interests and rights of the Attorney General in and to the reservations with respect to United States Letters Patent Nos. Re. 20,773; 2,079,227 and 2,202,967, vested by Vesting Order No. 1589 (8 F. R. 10583, July 29, 1943), made in a determination dated June 25, 1947 by The Vested Property Claims Committee, Office of Alien Property (filed with the Federal Register on July 3, 1947, F. R. Doc. 47-6310), said reservations being as follows: all interests and rights (1) in and to all damages and profits directly or indirectly recoverable at law or in equity from the Government of the United States for the infringement of said patents, (2) in and to all damages and profits recoverable at law or in equity from anyone for infringement of said patents on or after July 8, 1943 and prior to the return of said patents and (3) in any and all agreements of any kind or nature whatsoever relating to said patents including all royalties and any monies now or hereafter payable or held with respect to said interest and rights and all damages for breach of said agreements together with the right to sue therefor, to claimant, Raoul Roland Raymond Sarazin, to the extent owned by him immediately prior to vesting of said patents.

All interests and rights of the Attorney General in and to an agreement dated July 2, 1925 by and between Raoul Roland Raymond Sarazin and Societe Francaise Hispano-Suiza, relating among other things, to patents listed herein to Raoul Roland Raymond Sarazin and Societe Francaise Hispano-Suiza to the extent of their respective interests immediately prior to the vesting of said patents.

To Societe Francaise Hispano-Suiza, all interests and rights (including all accrued royalties and other monies payable or held with respect to said interests and rights and all damages for breach of the agreement hereinafer described, together with the right to sue therefor) created in Societe Francaise Hispano-Suiza by virtue of an agreement dated March 11, 1940 (including all modifications thereof and supplements thereto, if any) by and between Societe Francaise Hispano-Suiza and Fairchild Engine and Airplane Corporation, a corporation of Maryland, relating among other things, to United States Letters Patent No. 2,079,227 to the extent owned by Societe Francaise Hispano-Suiza immediately prior to the vesting thereof by Vesting Order No. 1589, including royalties in the amount of $8,860.70.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on July 11, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 51-8296; Filed, July 18, 1951; 8:56 a. m.]

[Return Order 997]

EDUARD BIER

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention To Return Published, and Property

JOSEPH ROBMER

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of the publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Property, and Location

Joseph Robmer, Freiburg-Littenweiler, Baden, Germany; Claim No. 5129; $4,213.43 in the Treasury of the United States. An undivided one-half interest in the real property situated in the Borough of Brooklyn, County of Kings, State of New York, and known as 106, 106½ and 108 Douglass Street, Brooklyn, N. Y. All right, title, interest, estate and claim of any name or nature whatsoever, contingent or otherwise and whether or not matured, of Joseph Robmer in and to any and all obligations secured by certain tax liens, evidenced by tax lien certificates Nos. 61714, 61715, and 61716, on the lot and improvements owned by Joseph Robmer and Oscar Jacobs, known as 106, 106½ and 108 Douglass Street, Brooklyn, New York, including but not limited to any and all collateral for any or all such obligations and the right to enforce and collect such obligations. The tax lien certificates are presently in the custody of the Office of Alien Property, 120 Broadway, New York, N. Y.

Executed at Washington, D. C., on July 11, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 51-8306; Filed, July 18, 1951; 8:50 a. m.]

[Return Order 1019]

ALBERT FRANCOIS THIEUZARD

Having considered the claim set forth below and having issued a Determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, be returned after adequate provision for taxes and conservatory expenses:

Claimant, Claim Number, Notice of Intention To Return Published, and Property

Albert Francois Thieuzard, Paris, France; Claim No. 31759; May 29, 1951 (16 F. R. 5033); property described in Vesting Order No. 666 (8 F. R. 5047, April 17, 1943) relating to United States Letters Patent No. 2,008,457. This return shall not be deemed to include the rights of any licensees under the above patent.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on July 9, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,

[Return Order 1020]

MARTIN-LINDSAY AND HEDWIG BARTH

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention To Return Published, and Property

Martin Lindsay, Trustee, u w of Hedwig Barth, Chicago, Ill.: Claims Nos. 5578 and 5579; May 30, 1951 (16 F. R. 5103); $46,187.81 in the Treasury of the United States. This return is being made for the sole purpose of enabling Martin Lindsay, Trustee, to reconstitute the above-described property as part of the corpus of the trust presently being administered by him under the will of Hedwig Barth, deceased, and under the judicial supervision of the County Court of Milwaukee County, Wisconsin. Reserved from the return and retained expressly in the Attorney General are all the rights and interests in and to the property which were formerly owned by Helene von Bredow, Margrit Taeger and Dorothea Schieckel and the issue, names unknown, of these persons.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on July 9, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

DEPARTMENT OF THE AIR FORCE

The positions excepted from the competitive service under § 6.107 (g) (1) have been transferred from the Air Materiel Command to the Air Research and Development Command. Effective upon publication in the FEDERAL REGISTER, § 6.107 is, therefore, amended as follows:

1. Section 6.107 (g) (1) is revoked.

2. A new subparagraph (2) is added to § 6.107 (h) as follows:

§ 6.107 *Department of the Air Force.* * * *

* * *

(h) *Air Research and Development Command.* * * *

(2) Until June 30, 1952, the positions of Civilian Chief, Engineering Operations; Technical Director, Electronics; Director of Geophysical Research; and Director of Physics, Research Group.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp. E. O. 9973, June 28, 1948, 13 F. R. 3600; 3 CFR, 1948 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] ROBERT RAMSPECK,
Chairman.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUES OF FARMS AND INVESTMENT LIMITS; MICHIGAN

For the purposes of title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units and investment limits for the counties identified below are determined to be as herein set forth. The average values and investment limits heretofore established for said counties, which appear in the tabulations of average values and investment limits under § 311.30, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values and investment limits set forth below for said counties.

MICHIGAN

County	Average value	Investment limit
Arenac	$12,000	$12,000
Bay	17,000	12,000
Berrien	16,000	12,000
Chippewa	10,000	10,000
Clare	12,000	12,000
Delta	10,000	10,000
Gladwin	12,000	12,000
Luce	10,000	10,000
Mackinac	10,000	10,000
Montmorency	10,000	10,000
Newaygo	15,000	12,000
Presque Isle	12,000	12,000
Roscommon	11,000	11,000
Schoolcraft	10,000	10,000
Van Buren	16,000	12,000

(Sec. 41 (1), 60 Stat. 1066; 7 U. S. C. 1015 (1). Applies secs. 3 (a), 44 (b), 60 Stat. 1074, 1069; 7 U. S. C. 1003 (a), 1018 (b))

Issued this 16th day of July 1951.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 51-8319; Filed, July 19, 1951; 8:48 a. m.]

Subchapter E—Account Servicing

PART 361—ROUTINE

SUBPART B—SERVICING FARM OWNERSHIP LOANS

SERVICING INSURED FARM OWNERSHIP LOANS

Subpart B of Part 361, Title 6, Code of Federal Regulations (13 F. R. 9437, 15 F. R. 1969), is supplemented by adding the following new sections:

Sec.
361.26 General.
361.27 Payment in full from borrower's funds, refinancing by a new lender on a noninsured basis, and sale of farm except when holder of insured mortgage finances purchaser.
361.28 Payment in full by refinancing with holder of insured mortgage on a noninsured basis, or by sale of farm outside the program to a person obtaining a noninsured loan from holder of insured mortgage.
361.29 Payment in full by sale (transfer) of farm within the program to new applicant obtaining an insured loan from holder of insured mortgage.
361.30 Subsequent insured farm ownership loans.

AUTHORITY: §§361.26 to 361.30 issued under sec. 41, 60 Stat. 1066; 7 U. S. C. 1015. Statutory provisions interpreted or applied are cited to text in parentheses.

DERIVATION: §§ 361.26 to 361.30 contained in FHA Instruction 451.6.

§ 361.26 *General.* Sections 361.26 to 361.30 prescribe the authorities, policies, and procedures for processing payment in full and refinancing of insured Farm Ownership loans not assigned to the Government, including the authorities, policies, and procedures for processing the sale (transfer) of farms within the program to other insured loan applicants, for processing the sale of farms outside the program, and for processing subsequent insured Farm Ownership loans. The authorities, policies, and procedures set forth in this section are applicable to all types of transactions covered by §§ 361.26 to 361.30, while specific procedures applicable to particular types of transactions are set forth in §§ 361.27 to 361.30.

(a) *Authority.* The Bankhead-Jones Farm Tenant Act, as amended, and the security instrument taken in connection with each insured loan provide that, without the consent of the Government, no final payment of an insured loan will be accepted, nor release of the mortgagee's interest made, in less than five years from the date of the execution of the insured mortgage. It is further provided that the farm or any interest therein may not be sold without the consent of the Government and the holder of the insured mortgage. Subject to the policies and procedures prescribed in §§ 361.26 to 361.30, the State Director is authorized:

(1) To consent on behalf of the Government to payment in full of an insured loan.

(2) To approve the refinancing of an insured loan.

(3) To approve the sale (transfer) of a farm by an insured loan borrower to another insured loan applicant.

(4) To approve the sale of a farm outside the program.

(5) To approve a subsequent insured loan.

(6) To consent on behalf of the Government to the release or satisfaction of the holder's interest in the insured mortgage and the property covered thereby.

(7) To release and satisfy the interest of the United States in the insured mortgage and the property covered thereby.

(b) *Mortgage insurance charges when loan is repaid.* (1) In all cases of final payment or refinancing of the insured loan indebtedness, the borrower will be required to pay the entire annual mortgage insurance charge computed for the year then current, if not already paid. This charge will be one percent of the unpaid principal amount due on the promissory note as of the March 31 preceding the date final payment is made on the note account. For the purpose of computing this charge, the date final payment is made on the note account will be the date the funds for final payment or refinancing of the note account are received by the County Supervisor. In transactions where final payment or refinancing of the note account is accomplished by exchange of promissory notes without funds being paid to the Farmers Home Administration, the date final payment is made on the note account will be considered to be the date the holder of the insured mortgage executes Form FHA–993, "Notice of Receipt of Final Payment on Insured Mortgage Loan."

(2) In addition, when final payment or refinancing is made within five years from the date of the initial insured mortgage, the State Director is authorized to require the borrower to pay an additional charge equal to the mortgage insurance charge for the year in which the loan is paid in full. As a matter of general policy, a borrower who has acted in good faith in carrying out the terms of the mortgage will not be required to pay the additional charge. If the State Director finds that the borrower has complied with the terms of the mortgage and his agreements with the Farmers Home Administration, the borrower will not be required to pay the additional charge. On the other hand, if the State Director finds that he has not been cooperative and has not complied with his agreements, the borrower will be required to pay the additional charge. In all cases of sale of a farm outside the program, when the State Director finds that profit-making is a significant motive, the borrower will be required to pay the additional charge.

(c) *Actions prior to final payment—*(1) *Notice to State Office.* When an insured loan borrower requests permission to pay his insured loan indebtedness in full, or if the proposed transaction involves refinancing, sale (transfer) of the farm to another insured loan applicant, sale of the farm outside the program, or a subsequent insured loan, the County Supervisor will submit to the State Director a full report of the circumstances.

(2) *Consent to final payment.* If the State Director approves the proposed transaction, he will advise the County Supervisor by letter and will send a copy of the letter to the holder of the insured mortgage.

(i) If less than five years have elapsed since the date of the execution of the borrower's insured mortgage and if the State Director determines that the borrower should be required to pay the additional charge as provided in paragraph (b) (2) of this section, the additional charge will be added to any other mortgage insurance charges that the borrower may owe and all such charges will be collected from the borrower on or before the date final payment is made on the note account.

(3) *Consent and release of interest of United States.* When the State Director consents to final payment he will execute Form FHA–366, "Consent and Release of Interest of United States," and will send the Form to the County Supervisor for delivery only after the note account and all mortgage insurance charges have been paid and a satisfaction of the real estate mortgage is received from the holder of the insured mortgage.

(4) *Return of funds in supervised bank account.* Upon approval of the transaction by the State Director, in all cases, except those involving a subsequent insured loan, any Farm Ownership funds remaining in the borrower's supervised bank account will be withdrawn and applied on the borrower's note account as a refund.

(d) *Form of satisfaction from holder of mortgage.* The holder of the insured mortgage, upon receiving full payment of the note account, will execute the customary form of satisfaction or release of the real estate mortgage. Upon request of any holder, the County Supervisor will furnish an appropriate form of satisfaction.

(e) *Recordation of satisfaction and Form FHA–366.* Form FHA–366 will normally be recorded along with the satisfaction executed by the holder. The cost of recording Form FHA–366 will not be borne by the Government, except when State law requires a mortgagee to pay such cost. The cost of recording the satisfaction executed by the holder will be borne by the borrower, except when State law requires the mortgagee to record or file satisfactions and to pay the cost of recording.

(f) *Redemption date.* In all cases where a new mortgage is insured, the one year option period for redemption will begin seven years from the date of the new insured mortgage.

(Secs. 3, 12, 60 Stat. 1074, 1076 as amended, sec. 5, 62 Stat. 535; 7 U. S. C. 1003, 1005b)

§ 361.27 *Payment in full from borrower's funds, refinancing by a new lender on a noninsured basis, and sale of farm except when holder of insured mortgage finances purchaser.* This section applies to all cases where final payment of the insured loan indebtedness is to be derived from (1) the borrower's funds, (2) the proceeds from refinancing with a new lender on a noninsured basis, (3) the proceeds from the sale (transfer) of a farm within the program when a new lender furnishes the funds, and (4) the proceeds from the sale of a farm outside the program when a new lender furnishes the funds. The funds for final payment in such cases will be processed through the Area Finance Office.

(a) *Determining balance of indebtedness and collection.* The County Supervisor will compute the amount necessary to pay the insured loan indebtedness.

(1) Interest on the note account will be calculated to a date 10 days beyond the date on which the collection is received by the County Supervisor. This becomes necessary in order for the holder of the insured mortgage to receive interest to the date of the U. S. Treasury check. Any overpayment will be refunded to the borrower by the Area Finance Office. On any advances made for the account of the borrower from the mortgage insurance fund, interest will be calculated to the date payment of the mortgage insurance account is received by the County Supervisor.

(2) The County Supervisor will collect from the borrower the full amount owed the mortgage insurance account and the balance of principal and interest due on the note account. He will remit the collection to the Area Finance Office.

(3) Since the Government is the collection agent for the mortgagee, the County Supervisor will advise the borrower, purchaser, or new lender, as the case may be, that the remittance for final payment should be made payable to, or endorsed to, the order of the Farmers Home Administration.

(b) *Processing of final payment and Form FHA–993, "Notice of Receipt of Final Payment on Insured Mortgage Loan."* The County Supervisor will send Form FHA–993 to the Area Finance Office together with the final payment. If the collection pays in full (1) the outstanding balance of the mortgage insurance account to the date of the receipt issued to the borrower, and (2) the outstanding balance of the note account to the date of the U. S. Treasury check to be issued to the holder of the insured mortgage, the Area Finance Manager will sign Form FHA–993. The Area Finance Manager will furnish Form FHA–993 to the holder of the insured mortgage and will advise the holder that the borrower has made final payment of the note account. The Area Finance Office will also inform the holder of the unpaid balance of principal and interest on the note account to the date of the U. S. Treasury check and that, upon receipt of the U. S. Treasury check and if the amount is in agreement with the holder's records, the holder should execute the original and one copy of Form FHA–993 and send them to the County Supervisor, together with the canceled promissory note, the original real estate mortgage, and an instrument of satisfaction of the real estate mortgage. Upon receipt of the canceled promissory note, the real estate mortgage, the instrument of satisfaction, and Form FHA–993 from the holder of the insured mortgage, the County Supervisor will deliver the instrument of satisfaction and Form FHA–366 to the borrower, new mortgagee, purchaser, or the recorder of deeds and mortgages, as the case may require. The canceled promissory note and the satisfied real estate mortgage will be delivered to the borrower. Except in the case of sale (transfer) of a farm within the program, any abstracts of title which are the property of the borrower will also be delivered to the borrower.

(c) *Escrow arrangements.* In any case in which the new lender or purchaser insists upon a satisfaction of the mortgage before delivering the funds, he will be advised that he may make his own escrow arrangement provided all amounts owed by the borrower on the note account and on the mortgage insurance account are paid to the County Supervisor, as collection agent for the mortgagee, before or at the time the satisfaction of the insured mortgage and Form FHA–366 are delivered over by the escrow agent. No part of the expense for an escrow arrangement will be paid by the Government.

(Sec. 12, 60 Stat. 1076, 1077 as amended; 7 U. S. C. 1005b)

§ 361.28 *Payment in full by refinancing with holder of insured mortgage on a noninsured basis, or by sale of farm outside the program to person obtaining a noninsured loan from holder of insured mortgage.* This section applies when final payment is to be made (1) by refinancing by the holder of the insured mortgage on a noninsured basis, or (2) by sale of the farm outside the program to a person obtaining a noninsured loan from the holder of the insured mortgage in an amount not less than the outstanding balance due on the insured note account. Final payment of the note account may be accomplished under the provisions of this section by exchanging a noninsured note and mortgage for the insured promissory note and mortgage. Since no funds are involved in final payment of the old note account, only the collection of the mortgage insurance account will be transmitted to the Area Finance Office.

(a) *Collection of mortgage insurance account.* When final payment of the note account of an insured loan borrower is to be accomplished by either of the above methods, the County Supervisor will collect from the borrower the full amount, if any, owed the mortgage insurance account. If there is an unpaid balance of any amount advanced from the mortgage insurance fund, the County Supervisor will compute the interest on such amount to the date payment is received by the County Supervisor.

(b) *Closing actions.* The County Supervisor will furnish Form FHA–993, "Notice of Receipt of Final Payment on Insured Mortgage Loan," to the holder of the insured mortgage and will inform the holder of the outstanding balance of principal and interest on the insured note account and the daily rate of accrual of interest. The County Supervisor will request that, if such amount is in agreement with the holder's records, the holder should insert the date final payment is received (date insured loan refinanced), execute the original and one copy of Form FHA–993 and return them to the County Supervisor, together with the canceled promissory note and the satisfied real estate mortgage. If requested by the holder of the insured mortgage, the County Supervisor will file the instrument of satisfaction of the mortgage for recordation. Form FHA–366 will be delivered to the lender or to the recorder of deeds and mortgages, as the case may require. The canceled promissory note, after cancellation by the State Director of the insurance endorsement thereon, the satisfied real estate mortgage, and any abstracts of title which are the property of the borrower, will be delivered to the borrower.

(Sec. 12, 60 Stat. 1077 as amended; 7 U. S. C. 1005b)

§ 361.29 *Payment in full by sale (transfer) of farm within the program to new applicant obtaining an insured loan from holder of insured mortgage.*

This section applies when an insured Farm Ownership borrower sells his farm to another eligible applicant who obtains an insured loan from the holder of the insured mortgage in an amount not less than the outstanding balance due on the insured note account.

(a) *General.* (1) The transfer of ownership of an insured loan borrower's farm to another eligible applicant will not be made by means of an assumption agreement. Such transaction will be accomplished by refinancing the initial insured loan.

(2) Final payment of the old borrower's note account will be accomplished by exchanging the new borrower's promissory note and mortgage for the promissory note and mortgage of the old borrower and additional funds, if any. Since no funds are involved in the final payment of the old note account, only the collection of the mortgage insurance account will be transmitted to the Area Finance Office.

(3) The insured loan to the new borrower may include funds for any purpose authorized in connection with an initial insured loan.

(b) *Determining balance of indebtedness and collection of mortgage insurance account.* After approval of the proposed transaction by the State Director, the County Supervisor will compute the amount necessary to pay the old borrower's insured loan indebtedness in full. On or before closing the new insured loan, the County Supervisor will collect from the old borrower any amounts owed the mortgage insurance account.

(c) *Loan docket for new applicant.* A loan docket, including an option from the old borrower, will be prepared for the new borrower as in case of an initial insured loan. The new borrower will pay the usual appraisal fee. The loan limitations will apply as in the case of an initial insured loan. Title clearance will be required as for an initial insured loan.

(d) *Mortgage insurance charge and down payment.* The new borrower will be required to pay the initial mortgage insurance charge from the date the insured loan is closed to the next March 31. This charge must be paid by the new borrower even though the old borrower has paid the mortgage insurance charge covering the same period. On or before the date of loan closing, the new borrower will be required to deposit in a supervised bank account a down payment of not less than ten percent of the total investment in the farm.

(e) *Actions prior to closing.* (1) The State Director, rather than the State Field Representative, will execute Forms FHA–358, "Agreement by Applicant for Insured Loan," FHA–359, "Borrower-Insurer-Lender Triple Agreement," and FHA–643, "Farm Development Plan."

(2) When submitting the new Form FHA–359 to the holder of the insured mortgage, the holder will be informed that, upon closing of the insured loan, the new borrower's promissory note will be sent to him to be substituted for the old borrower's promissory note and that a check for the additional advance, if any, will be requested from him at that time.

(f) *Loan closing actions.* The loan will be closed in accordance with instructions received from the representative of the Office of the Solicitor. When additional funds are to be advanced to the new borrower, the loan will be closed before the County Supervisor requests the loan check.

(1) The County Supervisor will calculate the unpaid balance of principal and interest on the old borrower's promissory note as of the date the insured loan to the new borrower is closed. The difference, if any, between such unpaid balance on the old borrower's promissory note and the amount of the new borrower's promissory note will be the amount of funds to be requested from the holder of the insured mortgage.

(2) The County Supervisor will insert the date of loan closing (date final payment received) on Form FHA–993 and will deliver Form FHA–993 and the original of the new borrower's promissory note to the holder of the insured mortgage. The County Supervisor will inform the holder as to the amount of the unpaid balance of principal and interest on the old borrower's promissory note as of the date of loan closing, and will request that, if such amount is in agreement with the holder's records, the holder should execute the original and one copy of Form FHA–993 and return the forms to him, together with the canceled promissory note and mortgage of the old borrower, and an instrument of satisfaction of the mortgage. He will also request the holder to send him a check to the order of the new borrower in the amount of the difference, if any, between the unpaid balance on the old borrower's promissory note and the amount of the new borrower's promissory note.

(3) On the date of loan closing, the County Supervisor will collect from the new borrower the appraisal fee and the initial mortgage insurance charge. Form FHA–366 will be recorded along with the satisfaction of the old borrower's insured mortgage. After cancellation by the State Director of the insurance indorsement on the canceled promissory note, the County Supervisor will deliver to the old borrower the canceled promissory note and the satisfied real estate mortgage. He will also deliver to the old borrower the instrument of satisfaction of the mortgage and Form FHA–366 after they have been recorded.

(Secs. 1, 12, 44, 60 Stat. 1072, 1076 as amended, 1069; 7 U. S. C. 1001, 1005b, 1018)

§ 361.30 *Subsequent insured Farm Ownership loans*—(a) *General.* (1) A subsequent insured Farm Ownership loan may be approved only for the purpose of refinancing an existing insured loan and furnishing additional funds for the borrower provided:

(i) Such additional funds are used to accomplish any one or any combination of the purposes for which direct subsequent Farm Ownership loans may be made in accordance with § 333.2 (a), (b), and (c) of this chapter.

NOTE: Section 333.2 (c) of this chapter is not applicable here; however, an advance of funds for the payment of equity to a transferor may be made in connection with the sale (transfer) of a farm within the program under § 361.27 or § 361.29 of this chapter.

(ii) Loan limitations are complied with as in the case of an initial insured loan.

(2) The subsequent insured Farm Ownership loan may be made by the holder of the initial insured mortgage or by a new mortgagee.

(3) Generally, when a subsequent insured loan is made, the existing insured mortgage will be refinanced, the initial promissory note canceled, and the initial insured mortgage satisfied. This method is necessary, in lieu of taking a supplemental mortgage, in order to avoid the possibility of one of the mortgages being assigned to another lender without the other. Second mortgages cannot be insured.

(i) In any State where local law requires that the initial promissory note and real estate mortgage shall be kept alive in order to protect the lien of the mortgage securing the subsequent loan, the State Director may approve the taking of a supplemental promissory note and mortgage which will consolidate the unpaid balance of principal and interest on the initial insured loan with the additional advance. The initial promissory note and mortgage will not be canceled and satisfied; *Provided, however,* That the supplemental mortgage shall contain a stipulation prohibiting the assignment of the initial promissory note and mortgage without the simultaneous assignment of the supplemental note and mortgage to the same lender. In any State where this method is to be followed, the procedure and forms to be used will supersede the procedure and forms prescribed in this section but will be consistent insofar as possible with this section and still protect the interests of the holder of the insured mortgage and the Government.

(b) *Arrangement with respect to funds for refinancing initial insured loan and providing additional advance.*—(1) *Holder of initial mortgage providing the funds.* In cases where the holder of the initial insured mortgage refinances the existing insured loan and provides the additional loan funds, the transaction will be accomplished without the exchange of funds for payment of the old promissory note. Since no funds are involved in final payment of the old note account, only the collection of the mortgage insurance account will be transmitted to the Area Finance Office. The new promissory note and real estate mortgage will be exchanged for the old promissory note and mortgage and a check for the additional funds.

(2) *New mortgagee providing the funds.* When a mortgagee other than the holder of the initial insured mortgage refinances the existing insured loan and provides the additional loan funds, the funds used for refinancing the existing insured loan will be processed through the Area Finance Office.

(c) *Actions prior to loan closing.* (1) Upon approval of the proposed transaction by the State Director, the County Supervisor will prepare the subsequent insured loan docket. In general, the procedure for making initial insured Farm Development and Farm Enlargement loans will be followed. However, the State Director, rather than the State Field Representative, will execute Forms FHA–358, FHA–359, and FHA–643.

(2) Reappraisals will be required on the same basis as provided for subsequent direct loans. If a reappraisal is required, an additional fee of $20 will be charged.

(3) New forms for the proposed subsequent insured loan will be prepared as in the case of an initial insured loan, except existing Forms FHA–308, "Initial Family Status Report," FHA–317, "Agreement," and, when reappraisals are not required, FHA–596, "Earning Capacity Report," may be used in connection with the subsequent insured loan.

(4) The amount of the initial insured loan to be refinanced will be the unpaid principal balance of the promissory note plus the amount of the unpaid interest accrued to a date estimated for closing the subsequent insured loan. In case a new mortgagee provides the funds, interest will be calculated for an additional 10 days.

(5) When submitting the new Form FHA–359 to the lender, the County Supervisor will inform the lender as follows, as the case may be:

(i) If the subsequent insured loan is to be made by the holder of the insured mortgage, the holder will be informed that, upon closing of the subsequent insured loan, the borrower's new promissory note for the total amount of the unpaid balance of principal and interest on the existing loan, plus the additional advance to be made, will be furnished the holder to be substituted for the borrower's old promissory note and that a check for the additional advance will be requested from the holder at that time; or

(ii) If the subsequent insured loan is to be made by a new mortgagee, the new mortgagee will be informed that the funds for the subsequent insured loan will be requested when the loan is ready for closing.

(6) The entire amount of the new promissory note will bear 3 percent interest regardless of when the initial insured loan was made. The one year option period for redemption of the new real estate mortgage will begin seven years from the date the subsequent insured loan is closed.

(7) If title insurance is available, a new mortgagee's title policy for the full amount of the new promissory note generally will be required since the initial insured mortgage will be satisfied. If the purchase of additional land is involved, a new owner's policy will be required.

(8) The subsequent insured loan will be amortized over the remaining period of the initial insured loan. The number of years over which the subsequent insured loan is amortized will be the greatest number of whole years between the estimated date of closing the subsequent insured loan and the maturity date of the initial insured loan.

(9) If the subsequent insured loan is to be made by a new mortgagee, the County Supervisor, after receipt of closing instructions from the representative of the Office of the Solicitor, will request from the new mortgagee a check payable to the order of the borrower in the total amount of the subsequent insured loan.

(d) *Loan closing actions.* The subsequent insured loan will be closed in accordance with instructions received from the representative of the Office of the Solicitor. When the subsequent insured loan is to be made by the holder of the initial insured mortgage, the loan will be closed before the County Supervisor requests the loan check for the additional advance. When the subsequent insured loan is to be made by a new mortgagee, the loan check will be available in the County Office on the date of loan closing as in the case of an initial insured loan.

(1) *Determining amount of first installment.* The amount of the first installment on the new promissory note will be, as in case of an initial insured loan, an amount agreed upon mutually by the County Supervisor and the borrower. However, in no case will the amount of the first installment to be entered on the new promissory note exceed the amount of the regular annual installment shown on the promissory note.

(2) *Collecting the mortgage insurance charges and reappraisal fee.* On the date the subsequent insured loan is closed, the County Supervisor will collect from the borrower all mortgage insurance charges and the reappraisal fee, if any, as follows:

(i) Any amount owed the mortgage insurance account on the initial insured loan as of the date the subsequent insured loan is closed.

(ii) The initial mortgage insurance charge on the amount of the additional advance for the fraction of the year from the date of closing the subsequent insured loan to the next March 31. The amount of the additional advance will be the difference between the amount of the new promissory note and the unpaid balance of principal and interest on the old promissory note as of the date of closing the subsequent insured loan.

(iii) If a reappraisal was made, an appraisal fee of $20 as in case of an initial insured loan.

(3) *When subsequent insured loan is made by holder of insured mortgage*—(i) *County office actions.* When the subsequent insured loan is to be made by the holder of the initial insured mortgage, the amount of funds to be requested will be the difference between the unpaid balance of principal and interest on the borrower's old promissory note as of the date of closing the subsequent insured loan and the amount of the borrower's new promissory note.

(a) On the date of loan closing, the County Supervisor will insert the date of closing as the date of "final payment received" on Form FHA–993 and will deliver Form FHA–993 and the original of the borrower's new promissory note to the holder.

(b) The County Supervisor will inform the holder as to the amount of the unpaid balance of principal and interest on the borrower's old promissory note as of the date of closing the subsequent insured loan. The County Supervisor will request that if such amount is in agreement with the holder's records, the holder should execute the original and one copy of Form FHA–993 and return the forms to him, together with the canceled promissory note and mortgage for the initial insured loan and an instrument of satisfaction of the initial insured mortgage. He will also request the holder to send him a check payable to the order of the borrower in the amount of the difference between the unpaid balance of principal and interest on the borrower's old promissory note and the amount of the borrower's new promissory note.

(c) The loan check will be deposited in the borrower's supervised bank account.

(d) Upon receipt of the instrument of satisfaction of the initial insured mortgage from the holder, the County Supervisor will record the satisfaction, together with Form FHA–366.

(e) After cancellation by the State Director of the insurance endorsement on the canceled promissory note, the canceled promissory note and the satisfied real estate mortgage will be delivered to the borrower. The instrument of satisfaction and Form FHA–366 will also be delivered to the borrower after they have been recorded.

(4) *When subsequent insured loan is made by a new mortgage*—(i) *County Office actions.* When a subsequent insured loan to be made by a new mortgagee is ready for closing, the County Supervisor will request the new mortgagee to furnish him a check payable to the order of the borrower in the total amount to the subsequent insured loan.

(a) The subsequent insured loan will be closed as in the case of an initial insured loan and the loan check will be deposited in the borrower's supervised bank account.

(b) The borrower will be requested to draw a check to the order of the Farmers Home Administration in the amount of the unpaid balance of principal and interest on the initial promissory note as of the date of loan closing, plus 10 days' additional interest.

(c) The borrower's check will be remitted to the Area Finance Office as final payment of the borrower's initial note account and a receipt will be issued in the usual manner.

(d) Any overpayment of interest will be refunded by the Area Finance Office to the borrower for redeposit in the supervised bank account.

(e) Upon receipt in the County Office of the original and executed copy of Form FHA–993, the canceled promissory note, the real estate mortgage, and the instrument of satisfaction from the holder of the initial insured mortgage, the County Supervisor will record the instrument of satisfaction, together with Form FHA–366.

(f) The County Supervisor will deliver the canceled promissory note and the satisfied real estate mortgage to the borrower. The instrument of satisfaction and Form FHA–366 will also be delivered to the borrower after they have been recorded.

(ii) *Area Finance Office actions.* When the subsequent loan is made by a new mortgagee, if the collection pays in full the outstanding balance of the mortgage insurance account on the initial insured loan to the date of the receipt issued to the borrower and the outstanding balance of the initial note account to the date of the U. S. Treasury check to be issued to the holder of the initial insured mortgage, the Area Finance Manager will sign Form FHA–993 and will send this form to the holder. The Area Finance Manager will advise the holder that the borrower has made final payment of the note account; and that, upon receipt of the U. S. Treasury check, if the amount is in agreement with the holder's records, the holder should execute the original and one copy of Form FHA–993 and send them to the County Supervisor, together with the canceled promissory note, the original real estate mortgage, and an instrument of satisfaction of the real estate mortgage.

(Secs. 1, 12, 44, 48, 60 Stat. 1072, 1076 as amended, 1069, 1070, sec. 5, 62 Stat. 535; 7 U. S. C. 1001, 1005b, 1018, 1022)

Dated: June 28, 1951.

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

Approved: July 16, 1951.

C. J. MCCORMICK.
Acting Secretary of Agriculture.

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[1061 (P. R. 51)–1, Supp. 3]

PART 702—SPECIAL AGRICULTURAL CONSERVATION PROGRAM; PUERTO RICO

SUBPART—1951

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1951 Special Agricultural Conservation Program; Puerto Rico, issued November 1, 1950 (15 F. R. 7420) as amended December 19, 1950 (15 F. R. 9180) and June 15, 1951 (16 F. R. 5864), is further amended as follows:

The following sections are added under the heading "Conservation Practices and Rates of Assistance":

§ 702.132 *Practice 22; constructing and maintaining throughout 1951 individual terraces around coffee trees.* Individual terraces around coffee trees should be constructed as nearly level as possible. Using the tree as an axis, the excavated area should have a radius of at least 3 feet on land having a slope of not more than 45 percent and of at least 2 feet on steeper slopes. The excavated soil should be used to fill in the slope below the trees. No payment will be made for constructing terraces on land having a slope of 2 percent or less. Payment will not be made for more than 450 terraces per acre, nor will payment be made if less than 300 terraces have been constructed per acre. Payment will not be made for this practice if payment has been made by the Insular Government or under any other program.

Maximum assistance. $2 per 100 terraces.

§ 702.133 *Practice 23; constructing and maintaining throughout 1951 individual catch pits on the upper side of coffee trees.* Catch pits must be from 30 to 42 inches long, 12 to 15 inches wide, and not less than 8 inches deep. No payment will be made for the construction of catch pits on land having a slope of 2 percent or less. Catch pits must be constructed outside the maximum limit of the area covered by the branches of the coffee trees, but always at the upper side of the coffee tree. Where the nature of the soil and other local conditions make adherence to the forgoing specifications neither practicable nor desirable, such changes may be made as are approved by the State office. In such case, the applicable payment per 100 catch pits shall be that approved by the State office, but in no event more than $1.75 per 100 catch pits. No payment will be made for more than 450 catch pits per acre, nor will payment be made if less than 300 catch pits have been constructed per acre. No payment will be made for this practice if payment has been made by the Insular Government or under any other program.

Maximum assistance. $1.75 per 100 catch pits.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 17th day of July 1951.

[SEAL] C. J. MCCORMICK.
Acting Secretary of Agriculture.

[F. R. Doc. 51–8412; Filed, July 19, 1951; 9:03 a. m.]

[Amdt. 2]

PART 713—COUNTY AND COMMUNITY COMMITTEES

SUBPART—REGULATIONS PERTAINING TO SELECTION AND FUNCTIONS OF PRODUCTION AND MARKETING ADMINISTRATION COUNTY AND COMMUNITY COMMITTEES

By virtue of the authority vested in the Secretary of Agriculture by the Soil Conservation and Domestic Allotment Act, as amended, the Regulations Pertaining to the Selection and Functions of Production and Marketing Administration County and Community Committees (14 F. R. 5916) are hereby amended by deleting paragraph (c) of § 713.14.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies 49 Stat. 1149, as amended; 16 U. S. C. 590h)

Done at Washington, D. C., this 17th day of July 1951. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 51–8413; Filed, July 19, 1951; 9:03 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 52]

PART 600—DESIGNATION OF CIVIL AIRWAYS

CIVIL AIRWAY ALTERATIONS

The civil airway alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.639 *Blue civil airway No. 39 (Knoxville, Tenn., to U. S.-Canadian Border)* is amended by deleting the last portion which reads: "From the Syracuse, N. Y., radio range station via the intersection of the northwest course of the Syracuse, N. Y., radio range and the southwest course of the Watertown, N. Y., VHF radio range; Watertown, N. Y., VHF radio range station; the intersection of the northeast course of the Watertown, N. Y., VHF radio range and the southwest course of Massena, N. Y., VHF radio range station to the intersection of the northeast course of the Massena, N. Y., VHF radio range and the U. S.-Canadian Border" and by adding in lieu thereof: "From the Syracuse, N. Y., radio range station via the Watertown, N. Y., non-directional radio beacon; the intersection of a line bearing 33° True from the Watertown, N. Y., non-directional radio beacon and a line bearing 234° True from the Massena, N. Y., non-directional radio beacon; Massena, N. Y., non-directional radio beacon; Massena, N. Y., non-directional radio beacon via a direct line between the Massena, N. Y., non-directional radio beacon and the Montreal, Quebec, Canada, radio range station to the U. S.-Canadian Border."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 18, 1951.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 51–8311; Filed, July 19, 1951; 8:45 a. m.]

[Amdt. 56]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

REPORTING POINT ALTERATION

The reporting point alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee Airspace Subcommittee, and is adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 601 is amended as follows:

1. Section 601.4639 is amended to read:

§ 601.4639 *Blue civil airway No. 39 (Knoxville, Tenn., to U. S.-Canadian Border).* No reporting points designated.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. July 18, 1951.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 51–8310; Filed, July 19, 1951; 8:45 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

COMMINUTED TOMATO PRODUCTS CONTAINING ROTTEN TOMATO MATERIAL

Pursuant to section 3 of the Administrative Procedure Act (60 Stat. 237, 238; 5 U. S. C. 1002), the following statement of policy is issued:

§ 3.24 *Notice to packers of comminuted tomato products.* It has long been known that tomato rot may be caused by one or more of the following: Fungus diseases, bacterial diseases, virus diseases, and certain nonparasitic diseases. Only the fungus rots are characterized by the presence of mold filaments. Mold counts on comminuted tomato products are not increased by incorporating within the product tomato rot caused by bacteria, virus, or nonparasitic factors. Although high mold counts on these products reveal that large amounts of rotten material are present, low mold counts do not necessarily demonstrate absence of the type of rot caused by the tomato diseases that are not characterized by mold filaments.

Inspections of canneries engaged in the packing of comminuted tomato products show that most packers effectively trim, sort out, and discard rotten tomatoes from the raw stock. Some packers, however, do not properly eliminate rotten tomato material, and a few packers deliberately use rotten tomatoes in these foods, provided the mold count remains low. Some packers, on occasion, have mixed tomato products having a high mold count with tomato products containing little or no mold, so as to produce a blend with a low mold count.

Packers of comminuted tomato products who rely upon the mold count as the sole or primary control procedure, to the neglect of adequate sorting and trimming, may produce products with low mold counts which contain substantial amounts of rot.

It is the purpose of this announcement to advise all canners of tomato products that:

(a) Although high mold count is conclusive evidence of inclusion of substantial amounts of rot, mold count is not the only way of establishing that comminuted tomato products contain decomposed tomato material.

(b) Where factory observations or other evidence reveals that comminuted tomato products contain rot not caused by mold, such rot, as well as that caused by mold, will be taken into account in applying the provisions of the Federal Food, Drug, and Cosmetic Act against adulteration.

(c) The blending of tomato products adulterated with tomato rot, of whatever kind, with tomato products made from sound tomatoes, or with other sound food, renders the blend adulterated.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: July 16, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 51–8343; Filed, July 19, 1951; 8:55 a. m.]

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

CORRECTIONS

1. In § 141.5 (d), the sentence reading "After 15 minutes titrate the excess iodine using 0.1N $Na_2S_2O_3$ • • •" is corrected to read: "After 15 minutes titrate the excess iodine using 0.01N $Na_2S_2O_3$ • • •."

2. In § 141.26 (h), the references to § 141.5 (c) is corrected to read "§ 141.5 (e)."

3. In § 141.32, the headnote of paragraph (c) is corrected to read: "(c) *N-(1-naphthyl)-ethylenediamine solution.*"

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: JULY 13, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 51–8341; Filed, July 19, 1951; 8:54 a. m.]

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

REVISED STERILITY TESTS AND SAMPLE REQUIREMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq., and 1950 Supp.; 16 F. R. 4963, 5395) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq., and 1950 Supp.; 16 F. R. 4963, 5395, 5471, 5699) are amended as indicated below:

1. Section 141.2 is amended to read as follows:

§ 141.2 *Sodium penicillin, calcium penicillin, potassium penicillin; sterility*—(a) *Culture medium.* In the test for bacteria, use U. S. P. fluid thioglycolate medium I or a dehydrated mixture which, when reconstituted with distilled water, has the same composition as such medium and has growth-promoting, buffering, and oxygen-tension-controlling properties equal to or better than those of such medium. In the preparation of the medium from either the individual ingredients or any dehydrated mixture avoid contamination with calcium. In the test for molds and yeasts use U. S. P. Sabouraud Liquid Medium (Modified).

(b) *Conduct of test for bacteria.* Add not more than 10 milliliters of sterile distilled water, or sterile physiological salt solution, to each immediate container in the sample to be tested. From each of not less than seven immediate containers transfer aseptically the equivalent of approximately 300 milligrams, or the entire contents if the container is packaged to contain less than 300 milligrams, to individual tubes (38 x 200 millimeter size) each containing 75–100 milliliters of thioglycolate medium and sufficient penicillinase to completely inactivate the penicillin used in the test. (Prior to use, the tubes containing the medium with added penicillinase are incubated at 32° C.—35° C. for not less than 24 hours and examined for sterility.) After adding the penicillin to the tubes let them stand at room temperature for 2 hours, with frequent shaking. To one of such tubes add 1.0 milliliter of a 1:1,000 dilution of an 18–24 hour broth culture of M. pyogenes var. aureus (P. C. I.–209P and American Type Culture Collection 6538P). Incubate all tubes at 32° C.—35° C. for 5 days. The batch meets the requirements of the test for bacteria if on the first or second test the control tube and no other tube shows growth, or if the number of tubes (excluding the control tubes) that show growth in three or more consecutive tests is not more than 10 percent (to compen-

sate for contamination that may have been induced during the test) of the total number of samples tested.

(c) *Conduct of test for molds and yeasts.* Add not more than 10 milliliters of sterile distilled water or sterile physiological salt solution to each immediate container in the sample to be tested. From each of not less than four immediate containers transfer aseptically the equivalent of approximately 300 milligrams, or the entire contents if the container is packaged to contain less than 300 milligrams, to individual tubes each containing 75–100 milliliters of U. S. P. Sabouraud Liquid Medium. Incubate all tubes at approximately 25° C. for 5 days. The batch meets the requirements of the test for molds and yeasts if on the first or second test no tube shows growth, or if the number of tubes that show growth in three or more consecutive tests is not more than 10 percent (to compensate for contamination that may have been induced during the test) of the total number of samples tested.

2. Section 141.7 (b) is amended to read as follows:

§ 141.7 *Penicillin in oil and wax.* • • •

(b) *Sterility.* Transfer aseptically directly to the tubes of the medium the entire contents of single-dose containers or the equivalent of approximately 300 milligrams (activity) from each multiple-dose container, and proceed as directed in § 141.2.

3. Section 141.17 (c) is amended to read:

§ 141.17 *Penicillin sufonamide powder.* • • •

(c) *Sterility.* Transfer aseptically directly to the tubes of the medium approximately 0.5 gram from each container tested, and proceed as directed in § 141.2.

4. Section 141.23 (b) is amended to read as follows:

§ 141.23 *Crystalline penicillin and epinephrine in oil.* • • •

(b) *Sterility.* Proceed as directed in § 141.7 (b).

5. Section 141.29 (b) is amended to read as follows:

§ 141.29 *Procaine penicillin for aqueous injection.* • • •

(b) *Sterility.* Use the entire contents of single-dose containers or the equivalent of approximately 300 milligrams (activity) from each multiple-dose container, and proceed as directed in § 141.2, except if it is the aqueous suspension of the drug and does not contain a preservative, incubate all tubes for 14 days.

6. Section 141.32 (a) is amended to read as follows:

§ 141.32 *Procaine penicillin and buffered crystalline penicillin etc.* • • •

(a) *Potency, sterility, moisture, pyrogens, toxicity, pH.* Proceed as directed in § 141.29, except in the sterility test of multiple-dose containers use approximately 400 milligrams (activity) from each container, in lieu of 300 milligrams.

7. Section 141.34 (e) is amended to read as follows:

§ 141.34 *Procaine penicillin and crystalline penicillin in oil.* • • •

(e) *Sterility.* Proceed as directed in § 141.7 (b), except in the case of multiple-dose containers use approximately 400 milligrams (activity) from each container, in lieu of 300 milligrams.

8. Section 141.39 (b) is amended to read as follows:

§ 141.39 *Penicillin and streptomycin etc.* • • •

(b) *Sterility.* Use the entire contents of single-dose containers or the equivalent of approximately 0.5 gram (combined activity) for each multiple-dose container, and proceed as directed in § 141.2, except that no control tube is used in the test for bacteria.

9. Section 141.42 (b) is amended to read as follows:

§ 141.42 *Crystalline penicillin and bacitracin.* • • •

(b) *Sterility.* Proceed as directed in § 141.39 (b).

10. Section 141.45 (b) is amended to read as follows:

§ 141.45 *l-Ephenamine penicillin G etc.* • • •

(b) *Sterility.* Proceed as directed in § 141.29 (b).

11. Section 141.102 is amended to read as follows:

§ 141.102 *Streptomycin sulfate, streptomycin hydrochloride, streptomycin phosphate, streptomycin trihydrochloride calcium chloride; sterility.* Use the entire contents of single-dose containers or the equivalent of approximately 0.5 gram (activity) from each multiple-dose container, and proceed as directed in § 141.2, except that neither penicillinase nor the control tube is used in the test for bacteria.

12. Section 141.108 (c) is amended to read as follows:

§ 141.108 *Dihydrostreptomycin sulfate etc.* • • •

(c) *Sterility.* Proceed as directed in § 141.102.

13. Section 141.201 (b) is amended to read as follows:

§ 141.201 *Aureomycin hydrochloride.* • • •

(b) *Sterility*—(1) *Culture medium.* Prepare fluid thioglycolate medium as described in § 141.2 (a).

(2) *Conduct of test.* Add aseptically to each of two tubes containing approximately 15 milliliters of fluid thioglycolate medium, 1.0 milliliter of a 5,000 micrograms per milliliter dilution in sterile distilled water of the aureomycin. Add 0.1 milliliter of the 5,000 micrograms per milliliter dilution to two additional tubes of thioglycolate medium. Incubate at 32° C.–35° C. for 4 days. If no tube shows growth, the sample is satisfactory.

14. Section 141.301 (b) is amended to read as follows:

§ 141.301 *Chloramphenicol.* • • •

(b) *Sterility.* Proceed as directed in § 141.201 (b).

15. Section 141.401 (b) is amended to read as follows:

§ 141.401 *Bacitracin.* • • •

(b) *Sterility.* Proceed as directed in § 141.102.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

16a. Section 146.24 (d) (2) and (3) are amended to read as follows:

§ 146.24 *Sodium penicillin etc.* • • •

(d) *Request for certification, check tests and assays; samples.* • • •

(2) If such batch is packaged for dispensing, such person shall submit with his request a sample consisting of 10 immediate containers for sterility testing and, for all tests except sterility; one immediate container for each 5,000 immediate containers in the batch but in no case less than or more than the following quantities (excluding the 10 containers submitted for sterility):

(i) If it is not crystalline penicillin, not less than 6 or more than 13 immediate containers;

(ii) If it is crystalline penicillin, other than crystalline penicillin G or crystalline penicillin O, not less than 8 or more than 15 immediate containers;

(iii) If it is crystalline penicillin G or crystalline penicillin O, not less than 10 or more than 17 immediate containers; or

(iv) If it is packaged in containers of less than 100,000 units each for dental use, not less than 20 or more than 100 immediate containers if it is not crystalline penicillin, and not less than 40 or more than 100 immediate containers if it is crystalline penicillin.

Such sample shall be collected by taking single immediate containers before or after labeling, at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(3) If such batch is packaged for repacking or for use in the manufacture of another drug, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility: 6 packages, or in the case of crystalline penicillin 10 packages, containing approximately equal portions of not less than 60 milligrams each.

(ii) For sterility testing: 10 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.24 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (ii), and (iii), (3) (i), and (4) of this section; $1.00 for each immediate container in the sample submitted in accordance with paragraph (d) (2) (iv) of this section; and

17a. Section 146.25 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.25 *Penicillin in oil and wax etc.* • • •

(d) *Request for certification; samples.* • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one package for each 500 packages in the batch, but in no case less than 3 packages, except if it is represented to be free flowing, in which case not less than 4 packages or more than 12 packages.

(*b*) For sterility testing; 10 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The penicillin used in making the batch:

(*a*) For all tests except sterility; 6 packages if it is calcium penicillin or 10 packages if it is crystalline penicillin, each containing approximately equal portions of not less than 60 milligrams.

(*b*) For sterility testing; 10 packages, each containing approximately equal portions of not less than 300 milligrams.

Such samples shall be packaged in accordance with the requirements of § 146.24 (b).

b. Section 146.25 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), and (ii) (*a*), and (iii) of this section; and

18a. Section 146.35 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.35 *Penicillin sulfonamide powder etc.* • • •

(d) *Requests for certification.* • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in the batch, but in no case less than 20 or more than 100 immediate containers, unless each such container is packaged to contain more than 1 gram, in which case the sample shall consist of 1 gram for each 5,000 immediate containers in the batch, but in no case less than 20 grams or more than 100 grams.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers or 1-gram portions at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The penicillin used in making the batch:

(*a*) For all tests except sterility; 5 packages, or in the case of crystalline penicillin 10 packages, each containing approximately equal portions of not less than 60 milligrams.

(*b*) For sterility testing; 10 packages, each containing approximately equal portions of not less than 300 milligrams.

Such samples shall be packaged in accordance with the requirements of § 146.24 (b).

b. Section 146.35 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $1.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) (*a*) and (iii) of this section; and

19a. Section 146.41 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.41 *Crystalline penicillin and epinephrine in oil.* • • •

(d) *Request for certification; samples.* • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one package for each 500 packages in the batch, but in no case less than 5 packages or more than 15 packages.

(*b*) For sterility testing; 10 packages. Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The penicillin used in making the batch:

(*a*) For all tests except sterility; 10 packages, each containing approximately equal portions of not less than 60 milligrams.

(*b*) For sterility testing; 10 packages, each containing approximately equal portions of not less than 300 milligrams.

Such samples shall be packaged in accordance with the requirements of § 146.24 (b).

b. Section 146.41 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii) (*a*), and (iii) of this section; and

20a. Section 146.42 (d) (2) is amended to read as follows:

§ 146.42 *Aluminum penicillin etc.* • • •

(d) • • •

(2) Such person shall submit in connection with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; 6 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain approximately 300 milligrams taken from different parts of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.42 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; and

21a. Section 146.43 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.43 *Aluminum penicillin in oil* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one package for each 500 packages in the batch, but in no case less than 3 packages or more than 12 packages.

(*b*) For sterility testing; 10 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The aluminum penicillin used in making the batch:

(*a*) For all tests except sterility; 6 packages, each containing approximately equal portions of not less than 300 milligrams.

(*b*) For sterility testing; 10 packages, each containing approximately equal portions of not less than 300 milligrams.

Such samples shall be packaged in accordance with the requirements of § 146.42 (b).

b. Section 146.43 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $8.00 for each package in the sample submitted in accordance with paragraph (d) (3) (i) (*a*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) (*a*) and (iii) of this section; and

22a. Section 146.44 (d) (2) is amended to read as follows:

§ 146.44 *Procaine penicillin etc.* • • •

(d) • • •

(2) Such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility: 10 packages.

(ii) For sterility testing: 10 packages.

Each such package shall contain approximately 300 milligrams taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.44 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; and

23a. Section 146.45 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.45 *Procaine penicillin in oil.* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility: one package for each 500 packages in the batch, but in no case less than 3 packages or more than 12 packages.

(*b*) For sterility testing; 10 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The procaine penicillin used in making the batch:

(*a*) For all tests except sterility; 10 packages, each containing approximately equal portions of 300 milligrams.

(*b*) For sterility testing; 10 packages, each containing approximately equal portions of 300 milligrams.

Such samples shall be packaged in accordance with the requirements of § 146.44 (b).

b. Section 146.45 (e) (1) is amended to read as follows:

(e) • • •

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii) (*a*), and (iii) of this section; and

24a. Section 146.47 (d) (3) (i) is amended to read as follows:

§ 146.47 *Procaine penicillin for aqueous injections.* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 or more than 17 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. Section 146.47 (d) (4) is amended to read as follows:

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility; 10 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain not less than approximately 300 milligrams taken from different parts of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

c. Section 146.47 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii), (iii), (iv), and (4) (i) of this section; and

25a. Section 146.48 (d) (2) is amended to read as follows:

§ 146.48 *Ephedrine penicillin etc.* • • •

(d) • • •

(2) Such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; 10 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain approximately 300 milligrams taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.48 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; and

26. In § 146.50 (d) the last sentence is amended to read as follows:

§ 146.50 *Procaine penicillin and buffered crystalline penicillin etc.* • • •

(d) • • • If such batch is packaged for repacking, each portion in the sample required by § 146.47 (d) (4) shall consist of approximately 400 milligrams in lieu of 300 milligrams.

27a. In § 146.52 (a) (3) the last sentence is amended to read as follows:

§ 146.52 *Procaine penicillin and crystalline penicillin in oil.* (a) • • •

(3) • • • In addition to the 10 immediate containers required by § 146.45 (d) (3) (i) (*b*), he shall also submit in connection with his request a sample consisting of not less than 4 packages of the batch of procaine penicillin and crystalline penicillin in oil and a sample of the crystalline penicillin used in making the batch, consisting of 10 packages, each containing approximately equal portions of not less than 60 milligrams, and 10 packages, each containing approximately equal portions of not less than 300 milligrams.

b. Section 146.52 (b) is amended to read as follows:

(b) The fee for the services rendered with respect to each 60-milligram package of crystalline penicillin submitted in accordance with the requirements prescribed therefor by this section shall be $4.00.

28a. Section 146.58 (d) (3) (i) is amended to read as follows:

§ 146.58 *Penicillin and streptomycin etc.* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 12 or more than 19 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. Section 146.58 (d) (4) is amended to read as follows:

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility; 12 approximately equal portions of at least 2 grams.

(ii) For sterility testing; 10 approximately equal portions of at least 0.5 gram.

Each such portion shall be taken from a different part of such batch, and each shall be packaged in a separate container and in accordance with the requirements of paragraph (b) of this section.

c. Section 146.58 (e) (1) is amended to read:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) (*a*), (ii), (iii), (iv), (v), and (4) (i) of this section; and

29a. Section 146.63 (d) (3) (i) is amended to read as follows:

§ 146.63 *Crystalline penicillin and bacitracin.* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 or more than 17 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. Section 146.63 (d) (4) is amended to read as follows:

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility; 10 approximately equal portions of at least 2 grams each.

(ii) For sterility testing; 10 approximately equal portions of at least 0.5 gram each.

Each such portion shall be taken from different parts of such batch, and each shall be packaged in a separate container and in accordance with the requirements of paragraph (b) of this section.

c. Section 146.63 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii), (iii), (iv), and (4) (i) of this section; and

30a. Section 146.64 (d) (2) is amended to read as follows:

§ 146.64 *l-Ephenamine penicillin G.* • • •

(d) • • •

(2) Such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; 10 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain approximately 300 milligrams taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.64 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; and

31a. Section 146.65 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.65 *l-Ephenamine penicillin G in oil.* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one package for each 500 packages in the batch, but in no case less than 3 packages or more than 12 packages.

(*b*) For sterility testing; 10 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The *l*-ephenamine penicillin G used in making the batch:

(*a*) For all tests except sterility; 10 packages, each containing approximately equal portions of not less than 300 milligrams.

(*b*) For sterility testing; 10 packages, each containing approximately equal portions of not less than 300 milligrams.

Each such portion shall be packaged in accordance with the requirements of § 146.64 (b).

b. Section 146.65 (e) (1) is amended to read:

(e) *Fees.* • • •

(1) $4.00 for each package in the sample submitted in accordance with paragraph (d) (3) (i) (*a*), (ii) (*a*), and (iii) of this section; and

32a. Section 146.66 (d) (3) (i) is amended to read as follows:

§ 146.66 *l-Ephenamine penicillin G for aqueous injection.* • • •

(d) • • •

(3) • • •

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 or more than 17 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. Section 146.66 (d) (4) is amended to read as follows:

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility; 10 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain approximately 300 milligrams taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

c. Section 146.66 (e) (1) is amended to read as follows:

(e) Fees. • • •

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii), (iii), (iv), and (4) (i) of this section; and

33a. Section 146.101 (d) (2) and (3) are amended to read as follows:

§ 146.101 *Streptomycin sulfate etc.* • • •

(d) • • •

(2) If such batch is packaged for dispensing, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 5 or more than 12 immediate containers.

(ii) For sterility testing; 10 immediate containers.

Such sample shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(3) If such batch is packaged for repacking or for use as an ingredient in the manufacture of another drug, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; 5 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain approximately 0.5 gram taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.101 (e) (1) is amended to read as follows:

(e) *Fees.* • • •

(1) $10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; and

34a. Section 146.105 (d) (2) is amended to read as follows:

§ 146.105 *Streptomycin for topical use.* • • •

(d) • • •

(2) Such person shall submit in connection with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 50 or more than 100 immediate containers.

(ii) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers, before or after labeling, at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. In § 146.105, paragraph (e) (1) is amended by changing the words "paragraph (d) (2)" to read "paragraph (d) (2) (i)".

35a. Section 146.106 (d) (3) (i) and (ii) are amended to read as follows:

§ 146.106 *Streptomycin sulfate solution etc.* • • •

(d) • • •

(3) • • •

(i) The batch, if packaged for dispensing:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 5 or more than 12 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The batch, if packaged for repacking or for use in the manufacture of another drug:

(*a*) For all tests except sterility; 5 packages.

(*b*) For sterility testing; 10 packages.

Each such package shall contain approximately 2 milliliters taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.106 (c) (1), first clause, is amended to read as follows:

(c) *Fees.* * * *

(1) $10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii) (*a*), and (5) of this section; * * *

38a. Section 146.109 (d) (3) (i) is amended to read as follows:

§ 146.109 *Streptomycin - bacitracin - polymyxin gauze pads.* * * *

(d) * * *

(3) * * *

(i) The batch:

(*a*) For all tests except sterility: one pad for each 5,000 pads in the batch, but in no case less than 30 or more than 100 pads.

(*b*) For sterility testing: 10 pads.

Such samples shall be collected by taking single pads at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. In § 146.109, paragraph (e) (1), first clause, is amended to read as follows:

(e) *Fees.* * * *

(1) $1.00 for each pad in the sample submitted in accordance with paragraph (d) (3) (i) (*a*) of this section; * * *

37a. Section 146.401 (d) (2) and (3) are amended to read as follows:

§ 146.401 *Bacitracin.* * * *

(d) * * *

(2) If such batch is packaged for dispensing, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 6 or more than 13 immediate containers, except if the total potency contained in such immediate containers is less than 100,000 units and a sample of such batch has not been previously submitted under subparagraph (3) or (4) of this paragraph, such person shall submit, in addition to the quantity specified herein, one other container which contains a quantity sufficient to make the total potency of all containers in the sample equal to approximately 100,000 units.

(ii) For sterility testing: 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(3) If such batch is packaged for repacking or for use as an ingredient in the manufacture of another drug, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility; 6 packages.

(ii) For sterility testing; 10 packages.

Each such package shall contain approximately 0.5 gram, taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. Section 146.401 (e) (1) is amended to read as follows:

(e) *Fees.* * * *

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; and

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

This order, which provides for changes in the test procedures for determining the sterility of penicillin, streptomycin, dihydostreptomycin, bacitracin, and preparations of such antibiotics that are represented to be sterile, and for a new test designed to detect the presence of molds and yeasts if they are present in the batch, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay providing for changes in the test procedures for determining the sterility of penicillin, streptomycin, dihydrostreptomycin, bacitracin, and preparations of such antibiotics that are represented to be sterile, and for a new test designed to detect the presence of molds and yeasts if they are present in the batch.

Dated: June 13, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 51-8340; Filed, July 19, 1951; 8:54 a. m.]

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq., and 1950 Supp.) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq., and 1950 Supp.) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.46 *Procaine penicillin in streptomycin sulfate solution, procaine penicillin in dihydrostreptomycin sulfate solution.* (a) *Potency*—(1) *Procaine penicillin content.* Proceed as directed in § 141.1, except paragraph (i) thereof. Its content of procaine penicillin is satisfactory, if it contains not less than 85 percent of the number of units that it is represented to contain.

(2) *Streptomycin sulfate content.* Proceed as directed in § 141.101 (j) and (k).

(3) *Dihydrostreptomycin sulfate content.* Proceed as directed in § 141.108 (a).

(b) *Sterility.* Proceed as directed in § 141.39 (b).

(c) *Toxicity.* Proceed as directed in § 141.103.

(d) *Pyrogens.* Proceed as directed in § 141.104.

(e) *pH.* Proceed as directed in § 141.5 (b), using the undiluted aqueous suspension.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

2. In § 146.24 *Sodium penicillin* * * *, paragraph (b) *Packaging* is amended by changing the words "or physiological salt solution U. S. P." at the end of the second sentence to read "physiological salt solution U. S. P., or an aqueous solution of a suitable local anesthetic.", and is further amended by deleting the last sentence in the paragraph.

3. Part 146 is amended by adding the following new section:

§ 146.67 *Procaine penicillin in streptomycin sulfate solution, procaine penicillin in dihydrostreptomycin sulfate solution (procaine penicillin in crystalline dihydrostreptomycin sulfate solution)*—(a) *Standards of identity, strength, quality, and purity.* Procaine penicillin in streptomycin sulfate solution is procaine penicillin suspended in an aqueous solution of streptomycin sulfate. Procaine penicillin in dihydrostreptomycin sulfate solution is procaine penicillin suspended in an aqueous solution of dihydrostreptomycin sulfate or crystalline dihydrostreptomycin sulfate. Such solution shall contain one or more suitable and harmless buffer substances, preservatives, and suspending or dispersing agents, and it may contain one or more suitable and harmless stabilizing agents. It is so purified that:

(1) Each immediate container or each milliliter shall contain not less than 300,000 units of procaine penicillin and not less than 0.25 gram of streptomycin sulfate or dihydrostreptomycin sulfate;

(2) It is sterile;

(3) It is nonpyrogenic;

(4) It is nontoxic; and

(5) Its pH is not less than 5.0 and not more than 8.0.

The procaine penicillin used conforms to the requirements prescribed by § 146.44 (a). The streptomycin sulfate used conforms to the requirements prescribed by § 146.101 (a). The dihydrostreptomycin sulfate used conforms to the requirements prescribed by § 146.106 (a). Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying such seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. In case it is packaged for dispensing, it shall be in immediate containers of colorless transparent glass closed by a substance through which a hypodermic needle may be introduced and withdrawn without removing the closure or destroying its effectiveness. Each such container shall contain not less than 1 milliliter (unless it is packaged to contain a single dose) and not more than 10 milliliters, and each shall be filled with a volume in excess of that designated, which excess shall be sufficient to permit the withdrawal and administration of the volume indicated, whether administered in either single or multiple doses.

(c) *Labeling.* Each package shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container:

(i) The batch mark;

(ii) The number of units of procaine penicillin and the number of milligrams or grams of streptomycin sulfate or dihydrostreptomycin sulfate in each milliliter of the batch.

(iii) The name and quantity of each preservative used;

(iv) The statement "Expiration date ----," the blank being filled in with the date which is 12 months after the month during which the batch was certified;

(v) The statement "For intramuscular use only"; and

(vi) The statement "For manufacturing use," "For repacking," or "For manufacturing use or repacking," when packaged for repacking or for use as an ingredient in the manufacture of another drug, as the case may be.

(2) On the outside wrapper or container, the statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)."

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing, adequate directions for use and warnings as required by section 502 (f) of the act, including:

(i) Clinical indications;

(ii) Dosage and administration;

(iii) Contraindications; and

(iv) Untoward effects that may accompany administration, including sensitization.

If two or more immediate containers are in such package, the number of such circulars or other labeling shall not be less than the number of such containers.

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the number of units of procaine penicillin and the number of milligrams or grams of streptomycin sulfate or dihydrostreptomycin sulfate in each milliliter of the batch, the batch marks and (unless they were previously submitted) the dates on which the latest assays of the procaine penicillin and streptomycin sulfate or dihydrostreptomycin sulfate used in making such batch were completed, the date on which the latest assay of the drug comprising such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (5) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; potency, sterility, toxicity, pyrogens, pH.

(ii) The procaine penicillin used in making the batch; potency, crystallinity, penicillin K content (unless it is procaine penicillin G), and the penicillin G content if it is procaine penicillin G.

(iii) The streptomycin sulfate or dihydrostreptomycin sulfate used in making the batch; potency, histamine content, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin.

(3) Except as otherwise provided by subparagraph (5) of this paragraph, if such batch is packaged for dispensing, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch:

(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 12 or more than 19 immediate containers.

(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The procaine penicillin used in making the batch; three packages, each containing approximately equal portions of not less than 0.5 gram, packaged in accordance with the requirements of § 146.44 (b).

(iii) The streptomycin sulfate or dihydrostreptomycin sulfate used in making the batch; three packages, each containing approximately equal portions of not less than 0.5 gram, packaged in accordance with the requirements of § 146.101 (b).

(iv) In case of an initial request for certification, each other ingredient used in making the batch; one package of each containing approximately 5 grams.

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of:

(i) For all tests except sterility; 12 approximately equal portions of at least 2 milliliters.

(ii) For sterility testing; 10 approximately equal portions of at least 1 milliliter.

Each such portion shall be taken from different parts of such batch, and each shall be packaged in a separate container and in accordance with the requirements of paragraph (b) of this section.

(5) No result referred to in subparagraph (2) (ii) and (iii) of this paragraph, and no sample referred to in subparagraph (3) (ii) and (iii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) (*a*), (ii), (iii), (iv), and (4) (i) of this section; and

(2) If the Commissioner considers that investigations, other than examination of such immediate containers, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

4. Section 146.106 (c) (1) (iii) and (2) are amended to read as follows:

§ 146.106 *Streptomycin sulfate solution.* * * *

(c) *Labeling.* * * *

(1) * * *

(iii) The statement "Expiration date ----------," the blank being filled in with the date which is 12 months after the month during which the batch was certified, except that the blank may be filled in with the date which is 18 months after the month during which the batch

was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such time period such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section;

• • • • •

(2) On the outside wrapper or container the statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)," unless the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section after having been stored at room temperature.

5a. In § 146.205 *Aureomycin powder* • • •, the first sentence of paragraph (a) *Standards of identity, etc.* is amended to read as follows: "Aureomycin powder is crystalline aureomycin, with or without suitable and harmless buffer substances, preservatives, diluents, colorings, and flavorings."

b. In § 146.205, subparagraph (1) of paragraph (c) *Labeling* is amended by changing the period at the end of subdivision (iii) to a semicolon and by adding the following subdivision:

(iv) If it contains a preservative, the name and quantity of each such ingredient.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

This order, which provides for a change in the packaging requirements for penicillin sodium, calcium, and potassium to permit them to be packaged in combination with a container of a suitable local anesthetic when recommended for other than dental use only; for tests and methods of assay and certification of two new antibiotic preparations, procaine penicillin in streptomycin sulfate solution and procaine penicillin in dihydrostreptomycin sulfate solution; for a change in the expiration date of streptomycin sulfate solution and dihydrostreptomycin sulfate solution from 12 to 18 months, if the person who requests certification has proved that his drug is stable for such period of time; and for addition of suitable and harmless preservatives to aureomycin powder, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay providing for a change in the packaging requirements for penicillin sodium, calcium, and potassium to permit them to be packaged in combination with a container of a suitable local anesthetic when recommended for other than dental use only; for tests and methods of assay and certification of two new antibiotic preparations, procaine penicillin in streptomycin sulfate solution and procaine penicillin in dihydrostreptomycin sulfate solution; for a change in the expiration date of streptomycin sulfate solution and dihydrostreptomycin sulfate solution from 12 to 18 months, if the person who requests certification has proved that his drug is stable for such period of time; and for addition of suitable and harmless preservatives to aureomycin powder.

Dated: July 13, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 51-8338; Filed, July 19, 1951; 8:53 a. m.]

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

STREPTOMYCIN OR DIHYDROSTREPTOMYCIN AND KAOLIN IN GEL; STREPTOMYCIN OR DIHYDROSTREPTOMYCIN OTIC WITH ANTIFUNGAL AGENT

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq. and 1950 Supp.) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq. and 1950 Supp.) are amended as indicated below:

1. Section 141.113 is amended to read as follows:

§ 141.113 *Streptomycin syrup, streptomycin and kaolin in gel, dihydrostreptomycin syrup, dihydrostreptomycin and kaolin in gel; potency.* Proceed as directed in § 141.101, except paragraph (k) thereof, and except if it is dihydrostreptomycin use the dihydrostreptomycin working standard as a standard of comparison. Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams of streptomycin or dihydrostreptomycin per milliliter that it is represented to contain.

2. Part 141 is amended by adding the following new section:

§ 141.115 *Streptomycin otic with antifungal agent, dihydrostreptomycin otic with antifungal agent*—(a) *Potency.* Proceed as directed in § 141.101, except paragraph (k) thereof, and if it is dihydrostreptomycin otic with antifungal agent use the dihydrostreptomycin working standard as a standard of comparison. Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams of streptomycin or dihydrostreptomycin per milliliter that it is represented to contain.

(b) *pH.* Proceed as directed in § 141.5 (b), using the undiluted solution or suspension.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

3a. The headnote and paragraph (a) of § 146.108 are amended to read as follows:

§ 146.108 *Streptomycin sirup, streptomycin and kaolin in gel, dihydrostreptomycin sirup, dihydrostreptomycin and kaolin in gel*—(a) *Standards of identity, strength, quality, and purity.* Streptomycin sirup and dihydrostreptomycin sirup are streptomycin or dihydrostreptomycin dissolved in a suitable and harmless diluent that contains one or more suitable and harmless preservatives. Streptomycin and kaolin in gel and dihydrostreptomycin and kaolin in gel are streptomycin or dihydrostreptomycin dissolved or suspended in a suitable and harmless gel base that contains kaolin and one or more suitable and harmless preservatives and with or without pectin. Its potency is not less than 10 milligrams per milliliter. The streptomycin used conforms to the standards prescribed therefor by § 146.101 (a), except subparagraphs (2), (4), and (6) of that paragraph. The dihydrostreptomycin used conforms to the standards prescribed therefor by § 146.103, except the standards for sterility, pyrogens, and moisture. Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

b. Section 146.108 (c) (1) (ii) is amended to read as follows:

(c) *Labeling.* • • •

(1) • • •

(ii) The number of milligrams of streptomycin or dihydrostreptomycin in each milliliter of the batch;

c. Section 146.108 (c) (1) is amended by deleting the word "and" at the end of subdivision (iii), by changing the period at the end of subdivision (iv) to a semicolon, and by adding the following new subdivision:

(v) If it contains pectin and kaolin, the quantity of each such ingredient used and the name of the gel base.

d. Section 146.108 (c) (3) is amended by changing the word "syrup" to read "drug".

e. Section 146.108 (d) (1) is amended by inserting the words "or dihydrostreptomycin" between the word "streptomycin" and the word "used".

f. Section 146.108 (d) (2) (ii) is amended to read as follows:

(ii) The streptomycin or dihydrostreptomycin used in making the batch; potency, toxicity, histamine content, pH, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin.

g. Section 146.108 (d) (3) (ii), first clause, is amended to read: "The streptomycin or dihydrostreptomycin used in making the batch;".

h. Section 146.108 (e), first sentence, is amended by deleting the words "of streptomycin syrup".

4. Part 146 is amended by adding the following new section:

§ 146.110 *Streptomycin otic with antifungal agent, streptomycin otic with ——, dihydrostreptomycin otic with antifungal agent, dihydrostreptomycin otic with ——* (*the blank being filled in with the common or usual name of the antifungal agent*)—(a) *Standards of identity, strength, quality, and purity.* Streptomycin otic with antifungal agent and dihydrostreptomycin otic with antifungal agent are streptomycin or dihydrostreptomycin and one or more suitable antifungal agents, preservatives, and buffer substances, dissolved or suspended in a suitable and harmless vehicle. Its potency is not less than 2.5 milligrams per milliliter. Its pH is not less than 4.8 and not more than 6.0. The streptomycin used conforms to the standards prescribed therefor by § 146.101 (a), except subparagraphs (2), (4), (5), and (6) of that paragraph. The dihydrostreptomycin used conforms to the standards prescribed therefor by § 146.103 (a), except the standards for sterility, pyrogens, histamine, and moisture. Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be glass, so closed as to be a tight container as defined by the U. S. P., and of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of milligrams of streptomycin or dihydrostreptomycin in each milliliter of the batch.

(iii) The name and quantity of each antifungal agent and preservative used.

(iv) The statement "Expiration date ——," the blank being filled in with the date which is 12 months after the month during which the batch was certified.

(2) On the outside wrapper or container:

(i) The statement "*Caution:* To be dispensed only by or on the prescription of a physician."

(ii) A reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of such drug, or a reference to a brochure or other printed matter containing such directions and precautions, and a statement that such brochure or printed matter will be sent on request.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the streptomycin or dihydrostreptomycin used in making the batch was completed, the potency per milliliter of the batch, the date on which the latest assay of the drug comprising such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; average potency per milliliter, pH.

(ii) The streptomycin or dihydrostreptomycin used in making the batch; potency, toxicity, pH, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin sulfate.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; one immediate container for each 5,000 immediate containers in the batch, but in no case less than 5 or more than 12 immediate containers, collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The streptomycin or dihydrostreptomycin used in making the batch; 5 packages, each containing approximately equal portions of not less than 0.5 gram, packaged in accordance with the requirements of § 146.101 (b).

(iii) In case of an initial request for certification, each other ingredient used in making the batch; 1 package of each containing approximately 5 grams.

(4) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i), (ii), and (iii) of this section.

(2) If the Commissioner considers that investigations, other than examination of such packages, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

This order, which provides for two new antibiotic products, streptomycin or dihydrostreptomycin and kaolin in gel, and streptomycin otic or dihydrostreptomycin otic with antifungal agent, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay providing for tests and methods of assay and certification of the two new antibiotic preparations, streptomycin or dihydrostreptomycin and kaolin in gel and streptomycin otic or dihydrostreptomycin otic with antifungal agent.

Dated: July 16, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq., and 1950 Supp.; 16 F. R. 714, 2471, 4182) are amended as indicated below:

1. Section 146.211 *Aureomycin surgical powder (aureomycin hydrochloride surgical powder)* is amended in the following respects:

a. Paragraph (a), first sentence, is amended to read: "Aureomycin surgical powder is crystalline aureomycin, with or without suitable and harmless diluents, preservatives, and lubricants."

b. Paragraph (c) (1) is amended by deleting the word "and" at the end of subdivision (ii), by changing the period at the end of subdivision (iii) to a semicolon, and by adding the following new subdivision:

(iv) If it contains a preservative, the name and quantity of each such ingredient.

2. Section 146.402 *Bacitracin ointment* is amended in the following respects:

a. Paragraph (a), second sentence, is amended to read: "It may contain a suitable local anesthetic and one or more suitable sulfonamides."

b. Paragraph (c) (1) (iii) is amended to read:

(iii) If the batch contains a local anesthetic or one or more sulfonamides, the name and quantity of each such substance.

c. Paragraph (c) (3) is amended to read:

(3) On the label or labeling, if a local anesthetic and/or sulfonamides are present, after the name "bacitracin ointment," wherever it appears, the words "with ----------," (the blank being filled in with the common or usual names of the local anesthetic and sulfonamides) in juxtaposition with such name.

This order, which provides for the addition of suitable and harmless preservatives to aureomycin surgical powder and for the addition of one or more suitable sulfonamides to bacitracin ointment, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries, and since it would be against public interest to delay providing for the addition of suitable and harmless preservatives to aureomycin surgical powder and for the addition of one or more suitable sulfonamides to bacitracin ointment.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: July 13, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 51-8339; Filed, July 19, 1951; 8:53 a. m.]

TITLE 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 4—CHILD LABOR REGULATIONS, ORDERS AND STATEMENTS OF INTERPRETATION

The Child Labor Regulations of the Secretary of Labor pursuant to the Fair Labor Standards Act of 1938, as amended, have heretofore been codified in the Code of Federal Regulations under Chapter IV of Title 29. Because of changes in administrative organization within the Department of Labor, it has been determined that codification of the Child Labor Regulations in Chapter IV is no longer appropriate, and that codification of these regulations under Subtitle A—Office of the Secretary of Labor, more properly conforms to the structure of the Code.

In order to accomplish the transfer of this material from Chapter IV to Subtitle A—Part 4, the entire body of these regulations is set forth below with the new part and section designations. The following table shows the new designation under Subtitle A Part 4 and the previous designation under Chapter IV:

New	*Old*
Subpart A, §§ 4.1 et seq.	Part 401
Subpart B, §§ 4.21 et seq.	Part 402
Subpart C, §§ 4.31 et seq.	Part 441
Subpart D, §§ 4.41 et seq.	Part 421
Subpart E, §§ 4.51 et seq.	Part 422
Subpart F, §§ 4.81 et seq.	Part 481
Subpart G, §§ 4.101 et seq.	Part 450

In addition to the recodification of this material as described in the foregoing, certain changes in Part 401—Certificates of Age (new Part 4, Subpart A), are being made to reflect the revised Departmental organization established on July 1, 1949, by Labor Department General Order Number 42 and under the Fair Labor Standards Amendments of 1949 (63 Stat. 910; 29 U. S. C. section 201), hereinafter specifically mentioned.

Section 401.1 and the footnote thereto are amended to reflect the amendment of section 3 (l) by the Fair Labor Standards Amendments of 1949, and the delegation by the Secretary of Labor of certain functions under the child labor provisions to the Administrator of the Wage and Hour Division and to the Director of the Bureau of Labor Standards under General Order No. 42. These changes are reflected throughout the revised regulation.

Section 401.3 is amended to permit the issuance of a certificate for agricultural employment directly to the minor to be returned by the employer to the minor upon the termination of his employment. These changes which adapt the certificate to the specific needs of employment in agriculture are necessitated by the restrictive amendment to the child labor agricultural exemption in section 13 (c) of the act effected by the Fair Labor Standards Amendments of 1949. Clarification is made therein where experience has shown it to be necessary.

Section 401.4 is amended to eliminate undue delay experienced in issuance of certificates.

The new § 401.5 reflects administrative changes incidental to General Order No. 42.

Section 401.7 concerning revocation of certificates is revised to conform with the division of responsibility established by General Order No. 42 and is simplified in the light of administrative experience.

Section 401.8 is revised to conform with § 401.7, as revised.

Several minor editorial changes are made throughout the regulation.

The above changes are for the most part editorial or formal in nature and deal with internal administrative organization and procedure and it has therefore been determined that no public procedure relative to these amendments is necessary. The following table indicates the transposition of the section numbers of this part from Part 401 to Subpart A of Part 4.

Old	*New*	*Old*	*New*
401.1	4.1	401.6	4.6
401.2	4.2	401.7	4.7
401.3	4.3	401.8	4.8
401.4	4.4	401.9	4.9
401.5	4.5	401.10	4.10

SUBPART A—CERTIFICATES OF AGE (CHILD LABOR REG. 1)

Sec.
4.1 Definitions.
4.2 Certificates of age, effect.
4.3 Information contained in certificate and disposition of certificate.
4.4 Proof of age.
4.5 Federal certificat of age.
4.6 Acceptance of State certificates.
4.7 Continued acceptability of certificates.
4.8 Revoked certificates.
4.9 Effect on other laws.
4.10 Revision of regulation.

SUBPART B—ACCEPTANCE OF STATE CERTIFICATES

4.21 Designation of States.
4.22 Designation of Territory of Alaska.

SUBPART C—EMPLOYMENT OF MINORS BETWEEN 14 AND 16 YEARS OF AGE (CHILD LABOR REG. 3)

4.31 Determination.
4.32 Effect of this subpart.
4.33 Occupations.
4.34 Periods and conditions of employment.
4.35 Certificates of age; effect.
4.36 Effect on other laws.
4.37 Revision of this subpart.

SUBPART D—PROCEDURE GOVERNING DETERMINATIONS OF HAZARDOUS OCCUPATIONS (CHILD LABOR REG. 5)

4.41 Investigation and conference.
4.42 Public hearing on proposed finding and order.
4.43 Rehearing.
4.44 Finding and order.
4.45 Revision of regulation.

SUBPART E—OCCUPATIONS PARTICULARLY HAZARDOUS FOR THE EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE OR DETRIMENTAL TO THEIR HEALTH OR WELL-BEING

4.51 Occupations in or about plants manufacturing explosives or articles containing explosive components (Order 1).
4.52 Motor-vehicle driver and helper (Order 2).
4.53 Coal-mine occupations (Order 3).
4.54 Logging occupations and occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill (Order 4).
4.55 Occupations involved in the operation of power-driven woodworking machines (Order 5).
4.56 Occupations chart applying to Hazardous Occupations Orders Nos. 4 and 5 (§§ 4.54 and 4.55)
4.57 Occupations involving exposure to radioactive substances (Order 6).
4.58 Occupations involved in the operation of power-driven hoisting apparatus (Order 7).
4.59 Occupations involving the operation of power-driven metal forming, punching, and shearing machines (Order 8).
4.60 Occupations in connection with mining, other than coal (Order 9).

SUBPART F—UTILIZATION OF STATE AGENCIES FOR INVESTIGATIONS AND INSPECTIONS[1]

4.81 Definitions.
4.82 Agreements with State agencies.
4.83 Qualifications of the State agency.
4.84 Submission of plan.
4.85 Additional requirements.
4.86 Audits.
4.87 Transmission of official mail.
4.88 Enforcement.
4.89 Agreements and approved plans.
4.90 Amendments and repeal.

SUBPART G—GENERAL STATEMENTS OF INTERPRETATION OF THE CHILD LABOR PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 1938, AS AMENDED

GENERAL

4.101 Introductory statement.
4.102 General scope of statutory provisions.
4.103 Comparison with wage and hours provisions.

COVERAGE OF SECTION 12 (a)

4.104 General.
4.105 "Producer, manufacturer, or dealer".
4.106 "Ship or deliver for shipment in commerce".
4.107 "Goods".
4.108 "Produced".
4.109 "Establishment situated in the United States".
4.110 "In or about".
4.111 Removal "within 30 days".

COVERAGE OF SECTION 12 (c)

4.112 General.
4.113 Employment "in commerce or in the production of goods for commerce".

JOINT AND SEPARATE APPLICABILITY OF SECTIONS 12 (a) AND 12 (c)

4.114 General.
4.115 Joint applicability.
4.116 Separate applicability.

OPPRESSIVE CHILD LABOR

4.117 General.
4.118 Sixteen year minimum.
4.119 Fourteen year minimum.
4.120 Eighteen year minimum.
4.121 Age certificates.

EXEMPTIONS

4.122 General.
4.123 Agriculture.
4.124 Delivery of newspapers.
4.125 Actors and performers.
4.126 Parental exemption.

ENFORCEMENT

4.127 General.
4.128 Good faith defense.
4.129 Relation to other laws.

[1] The regulations in this subpart are also codified as Part 515 of this title.

SUBPART A—CERTIFICATES OF AGE (CHILD LABOR REG. 1)

AUTHORITY: §§ 4.1 to 4.10 issued under secs. 3, 11, 52 Stat. 1061, 1066, as amended; 29 U. S. C. 203, 211.

§ 4.1 *Definitions.* As used in this subpart:

(a) "Act" means the child-labor provisions of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201–219);

(b) "Wage and Hour Division" means the Wage and Hour Division of the United States Department of Labor;

(c) "Bureau of Labor Standards" means the Bureau of Labor Standards of the United States Department of Labor;

(d) "Oppressive child-labor age" means:

(1) Under the age of 16 years with respect to employment in any occupation;[1]

(2) 16 and under 18 years of age with respect to employment in any occupation found and by order declared by the Secretary of Labor to be particularly hazardous for the employment of minors of such ages or detrimental to their health or well-being.

(e) "A certificate of age" means a certificate as provided in § 4.2 (a) (1) or (2).

(f) "State agency" means any executive department, board, bureau or commission of the State or any division or unit thereof.

§ 4.2 *Certificates of age; effect.* (a) The employment of any minor shall not be deemed to constitute oppressive child labor under the act if his employer shall have on file an unexpired certificate, issued and held in accordance with this subpart, which shall be either:

(1) A Federal certificate of age, issued by a person authorized by the Administrator of the Wage and Hour Division showing that such minor is above the oppressive child-labor age applicable to the occupation in which he is employed, or

(2) A State certificate, which may be in the form of and known as an age, employment, or working certificate or permit, issued by or under the supervision of a State agency in such States as may be designated for this purpose by the Secretary of Labor on recommendation of the Director of the Bureau of Labor Standards showing that such minor is above the oppressive child-labor age applicable to the occupation in which he is employed. Any such certificate shall have the force and effect specified in § 4.6.

(b) The prospective employer of a minor, in order to protect himself from unwitting violation of the act, should obtain a certificate (as specified in paragraphs (a) (1) and (2) of this section) for the minor if there is any reason to believe that the minor's age may be below the applicable minimum for the occupation in which he is to be employed. Such certificate should always be obtained where the minor claims to be only one or two years above the applicable minimum age for the occupation in which he is to be employed. It should also be obtained for every minor claiming to be older than two years above the applicable minimum age if his physical appearance indicates that this may not be true.

§ 4.3 *Information contained in certificate and disposition of certificate.* (a) Except as provided in § 4.6, a certificate of age which shall have the effect specified in § 4.2 shall contain the following information:

(1) Name and address of minor.

(2) Place[2] and date of birth of minor, together with a statement indicating the evidence on which this is based.

(3) Sex of minor.

(4) Signature of minor.

(5) Name and address of minor's parent or person standing in place of parent.[2]

(6) Name and address of employer (if minor is under 18).[3]

(7) Industry of employer (if minor is under 18).[3]

(8) Occupation of minor (if minor is under 18).[3]

(9) Signature of issuing officer.

(10) Date and place of issuance.

(b) A certificate of age for a minor under 18 years of age shall be sent by a person authorized to issue such certificates to the prospective employer of the minor, who shall keep such certificate on file at the place of the minor's employment and who on the termination of the employment of the minor shall return the certificate to the person issuing it, except that a certificate issued for a minor 16 years of age or over for employment in agriculture may be given to the minor. A certificate returned to the issuing officer may be accepted as proof of age for the issuance of any subsequent certificate of age for that minor, without presentation of further proof of age, unless it is found that the proof of age originally submitted was in error. Whenever a certificate of age is issued for a minor 18 or 19 years of age it may be given to the minor by the person issuing the certificate. Every minor 18 or 19 years of age shall, upon entering employment, deliver his certificate of age to his employer for filing and upon the termination of the employment the

[1] Employment of a child by his parent or by a person standing in place of a parent in occupations other than manufacturing or mining or an occupation found and declared by the Secretary of Labor to be particularly hazardous for the employment of children between the ages of sixteen and eighteen years or detrimental to their health or well-being is exempt (section 3 (l)) from the 16-year minimum age standard. The act authorizes the Secretary of Labor to provide by regulation or by order that the employment of employees between the ages of 14 and 16 years in occupations other than manufacturing and mining shall not be deemed to constitute oppressive child labor, if and to the extent that the Secretary of Labor determines that such employment is confined to periods which will not interfere with their schooling and to conditions which will not interfere with their health and well-being.

[2] This information need not appear on the certificate if it is obtained and kept on file by the person issuing the certificate.

[3] This information need not appear on a certificate issued for employment in agriculture.

employer shall return the certificate to the minor.

§ 4.4 *Proof of age.* (a) Except as provided in § 4.6, a certificate of age which shall have the effect specified in § 4.2 shall be issued only upon application of the minor desiring employment or of the prospective employer to the person authorized to issue such certificate and only after acceptable documentary evidence of age has been received, examined, and approved. Such evidence shall consist of one of the following proofs of age, to be required in the order of preference herein designated, as follows:

(1) A birth certificate or attested transcript thereof or a signed statement of the recorded date and place of birth, issued by a registrar of vital statistics or other officer charged with the duty of recording births.

(2) A record of baptism or attested transcript thereof showing the date and place of birth and date and place of baptism of the minor, or a bona fide contemporary record of the date and place of the minor's birth kept in the Bible in which the records of the births in the family of the minor are preserved, or other documentary evidence satisfactory to the Director of the Bureau of Labor Standards or, in case of a Federal certificate of age, to the Administrator of the Wage and Hour Division, such as a passport showing the age of the minor, or a certificate of arrival in the United States issued by the United States immigration office and showing the age of the minor, or a life-insurance policy: *Provided*, That such other documentary evidence has been in existence at least one year prior to the time it is offered as evidence: *And provided further*, That a school record of age or an affidavit of a parent or a person standing in place of a parent, or other written statement of age shall not be accepted except as specified in subparagraph (3) of this paragraph;

(3) The school record or the school-census record of the age of the minor, together with the sworn statement of a parent or person standing in place of a parent as to the age of the minor and also a certificate signed by a physician specifying what in his opinion is the physical age of the minor. Such certificate shall show the height and weight of the minor and other facts concerning his physical development which were revealed by such examination and upon which the opinion of the physician as to the physical age of the minor is based. If the school or school-census record of age is not obtainable, the sworn statement of the parent or person standing in place of a parent as to the date of birth of the minor, together with a physician's certificate of age as hereinbefore specified, may be accepted as evidence of age.

(b) The officer issuing a certificate of age for a minor shall require the evidence of age specified in paragraph (a) (1) of this section in preference to that specified in paragraphs (a) (2) and (3) of this section, and shall not accept the evidence of age permitted by either subsequent paragraph unless he shall receive and file evidence that reasonable efforts have been made to obtain the preferred evidence required by the preceding paragraph or paragraphs before accepting any subsequently named evidence: *Provided*, That to avoid undue delay in the issuance of certificate, evidence specified in paragraph (a) (2) of this section may be accepted, or if such evidence is not available, evidence specified in paragraph (a) (3) of this section may be accepted if a verification of birth has been requested but has not been received from the appropriate bureau of vital statistics.

§ 4.5 *Federal certificates of age.* A Federal certificate of age which shall have the effect specified in § 4.2 shall be issued by a person authorized by the Administrator of the Wage and Hour Division and shall be issued in accordance with the provisions of §§ 4.3 and 4.4.

§ 4.6 *Acceptance of State certificates.* (a) A State in which age, employment, or working certificates or permits are found by the Director of the Bureau of Labor Standards to be issued by or under the supervision of a State agency substantially in accordance with the provisions of §§ 4.3 and 4.4 may be designated by the Secretary of Labor as a State in which certificates so issued shall have the force and effect specified in § 4.2 except as individual certificates may be revoked in accordance with § 4.7 hereof: *Provided*, That any State having a certificate system which does not entirely conform with this subpart may be so designated temporarily by the Secretary of Labor upon the basis of an agreement with an agency of the State pending such improvements in State law and procedure as will bring such State system up to the standard of this subpart.

(b) Certificates requiring conditions or restrictions additional to those required by this subpart shall not be deemed to be inconsistent herewith.

(c) The designation of a State under this section shall have force and effect during the period of time specified therein unless withdrawal of such designation at an earlier date is deemed desirable for the effective administration of the act. No withdrawal or expiration of the designation of a State under this section shall make any certificate invalid if it was issued by or under the supervision of a State agency as herein provided prior to such withdrawal or expiration. (For designation of States under this section see Subpart B of this part.)

§ 4.7 *Continued acceptability of certificates.* Whenever a person duly authorized to make investigations under this act shall obtain substantial evidence that the age of the minor as given on a certificate held by an employer subject to this act is incorrect, he shall inform the employer and the minor of such evidence and of his intention to request through the appropriate channels that action be taken to establish the correct age of the minor and to determine the continued acceptability of the certificate as proof of age under the act. The said authorized person shall request in writing through the appropriate channels that action be taken on the acceptability of the certificate as proof of age under the Fair Labor Standards Act and shall state the evidence of age of the minor which he has obtained and the reasons for such request. A copy of this request shall be sent by the Administrator of the Wage and Hour Division to the Director of the Bureau of Labor Standards for further handling through the State agency responsible for the issuance of certificates, except that in those States where Federal certificates of age are issued, action necessary to establish the correct age of the minor and to revoke the certificate if it is found that the minor is under age shall be taken by the Administrator of the Wage and Hour Division or his designated representative. The Director of the Bureau of Labor Standards shall have final authority in those States in which State certificates are accepted as proof of age under the act for determining the continued acceptability of the certificate, and the Administrator of the Wage and Hour Division shall have final authority for such determination in those States in which Federal certificates of age are issued. When such determination has been made in any case, notice thereof shall be given to the employer and the minor. In those cases involving the continued acceptability of State certificates, the appropriate State agency and the official who issued the certificate shall also be notified.

§ 4.8 *Revoked certificates.* A certificate which has been revoked as proof of age under the act shall be of no force and effect under the act after notice of such revocation.

§ 4.9 *Effect on other laws.* No provision of this subpart shall under any circumstances justify or be construed to permit noncompliance with the provisions of any other Federal law or of any State law or municipal ordinance establishing higher standards than those established under this subpart.

§ 4.10 *Revision of regulation.* Any person wishing a revision of any of §§ 4.1 to 4.9 may submit in writing to the Secretary of Labor a petition setting forth the changes desired and the reasons for proposing them. If, after consideration of the petition, the Secretary of Labor believes that reasonable cause for amendment of the regulation is set forth, he shall either schedule a hearing, with due notice to interested parties, or shall make other provision for affording interested parties an opportunity to present their views, both in support of and in opposition to the proposed changes.

SUBPART B—ACCEPTANCE OF STATE CERTIFICATES

AUTHORITY: §§ 4.21 and 4.22 issued under secs. 3, 11, 52 Stat. 1061, 1066, as amended; 29 U. S. C. 203, 211.

§ 4.21 *Designation of States.* Pursuant to the provisions of Subpart A of this part (Child Labor Regulation No. 1), the following States are hereby designated as States in which State age, employment, or working certificates or permits shall have the same force and effect as

Federal certificates of age under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060 as amended; 29 U. S. C. 201):

Alabama.	Nebraska.
Arizona.	Nevada.
Arkansas.	New Hampshire.
California.	New Jersey.
Colorado.	New Mexico.
Connecticut.	New York.
Delaware.	North Carolina.
District of Columbia.	North Dakota.
Florida.	Ohio.
Georgia.	Oklahoma.
Hawaii.	Oregon.
Illinois.	Pennsylvania.
Indiana.	Puerto Rico.
Iowa.	Rhode Island.
Kansas.	South Dakota.
Kentucky.	Tennessee.
Louisiana.	Utah.
Maine.	Vermont.
Maryland.	Virginia.
Massachusetts.	Washington.
Michigan.	West Virginia.
Minnesota.	Wisconsin.
Missouri.	Wyoming.
Montana.	

§ 4.22 *Designation of Territory of Alaska.* The Territory of Alaska is designated as a State in which any of the following documents shall have the same force and effect as Federal certificates of age issued under Subpart A of this part:

(a) A birth certificate or attested transcript thereof, or a signed statement of the recorded date and place of birth issued by a registrar of vital statistics or other officer charged with the duty of recording births, or

(b) A record of baptism or attested transcript thereof showing the age of the minor, or

(c) A statement based on the census records of the Alaska Native Service and signed by an administrative representative of the Service showing the name, date of birth, and place of birth of the minor.

SUBPART C—EMPLOYMENT OF MINORS BETWEEN 14 AND 16 YEARS OF AGE (CHILD LABOR REG. 3)

AUTHORITY: §§ 4.31 to 4.37 issued under sec. 3, 52 Stat. 1061; 29 U. S. C. 203.

§ 4.31 *Determination.* The employment of minors between 14 and 16 years of age in the occupations, for the periods, and under the conditions hereafter specified does not interfere with their schooling or with their health and well-being and shall not be deemed to be oppressive child labor.

§ 4.32 *Effect of this subpart.* In all occupations covered by this subpart the employment (including suffering or permitting to work) by an employer of minor employees between 14 and 16 years of age for the periods and under the conditions specified in § 4.34 shall not be deemed to be oppressive child labor within the meaning of the Fair Labor Standards Act of 1938.

§ 4.33 *Occupations.* This subpart shall apply to all occupations other than the following:

(a) Manufacturing, mining, or processing occupations, including occupations requiring the performance of any duties in work rooms or work places where goods are manufactured, mined, or otherwise processed;

(b) Occupations which involve the operation or tending of hoisting apparatus or of any power-driven machinery other than office machines;

(c) The operation of motor vehicles or service as helpers on such vehicles;

(d) Public messenger service;

(e) Occupations which the Secretary of Labor may, pursuant to section 3 (1) of the Fair Labor Standards Act and Reorganization Plan No. 2, issued pursuant to the Reorganization Act of 1945, find and declare to be hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being;

(f) Occupations in connection with:

(1) Transportation of persons or property by rail, highway, air, water, pipeline, or other means;

(2) Warehousing and storage;

(3) Communications and public utilities;

(4) Construction (including demolition and repair);

except such office (including ticket office) work, or sales work, in connection with subparagraphs (1), (2), (3), and (4) of this paragraph, as does not involve the performance of any duties on trains, motor vehicles, aircraft, vessels, or other media of transportation or at the actual site of construction operations.

§ 4.34 *Periods and conditions of employment.* Employment in any of the occupations to which this subpart is applicable shall be confined to the following periods:

(a) Outside school hours;

(b) Not more than 40 hours in any one week when school is not in session;

(c) Not more than 18 hours in any one week when school is in session;

(d) Not more than 8 hours in any one day when school is not in session;

(e) Not more than 3 hours in any one day when school is in session;

(f) Between 7 a. m. and 7 p. m. in any one day. This period shall be measured by applicable standard time, except that it shall be measured by applicable daylight saving time whenever such time is adopted as the official time of the community.

§ 4.35 *Certificates of age; effect.* The employment of any minor in any of the occupations to which this subpart is applicable, if confined to the periods specified in § 4.34, shall not be deemed to constitute oppressive child labor within the meaning of the act if the employer shall have on file an unexpired certificate, issued in substantially the same manner as that provided for the issuance of certificates in Subpart A of this part relating to certificates of age, certifying that such minor is of an age between 14 and 16 years.

§ 4.36 *Effect on other laws.* No provision of this subpart shall under any circumstances justify or be construed to permit noncompliance with the wage and hour provisions of the act or with the provisions of any other Federal law or of any State law or municipal ordinance establishing higher standards than those established under this subpart.

§ 4.37 *Revision of this subpart.* Any person wishing a revision of any of the terms of this subpart may submit in writing to the Secretary of Labor a petition setting forth the changes desired and the reasons for proposing them. If, after consideration of the petition, the Secretary of Labor believes that reasonable cause for amendment of the subpart is set forth, he shall either schedule a hearing with due notice to interested parties, or shall make other provision for affording interested parties an opportunity to be heard.

SUBPART D—PROCEDURE GOVERNING DETERMINATIONS OF HAZARDOUS OCCUPATIONS (CHILD LABOR REG. 5)

AUTHORITY: §§ 4.41 to 4.45 issued under sec. 3, 52 Stat. 1061; 29 U. S. C. 203.

§ 4.41 *Investigation and conference.* Preparatory to the making of a finding by the Secretary of Labor that an occupation or a group of occupations is particularly hazardous for the employment of minors between 16 and 18 years of age or is detrimental to their health or well-being, a study shall be made of information obtained by the Director of the Bureau of Labor Standards or submitted to him with respect to the hazardous or detrimental nature of such occupation or occupations. Conferences may be held with representative employers and workers in the industry, experts in industrial health and safety, and others for the purpose of discussing the nature and characteristics of the occupation or occupations under consideration. A public hearing may be held upon reasonable public notice of the time and place thereof whenever such action is deemed by the Director to be expedient for the purpose of obtaining such evidence with respect to the nature and characteristics of such occupation or group of occupations. A transcript of the proceedings of any such hearing shall be made and filed with the Bureau. A report of facts and conclusions with respect to the hazardous or detrimental nature of the occupation or occupations under consideration shall be prepared upon the basis of such information and evidence.

§ 4.42 *Public hearing on proposed finding and order.* A proposed finding and order shall be prepared upon the basis of the report of facts and conclusions with respect to a particular occupation or group of occupations. Before a proposed finding and order is made final, opportunity to be heard, on notice published in the FEDERAL REGISTER, shall be afforded interested parties as well as opportunity to submit briefs and documentary evidence with respect to such finding and order. Copies of the proposed finding and order shall be made available to the public at the office of the Bureau. A transcript of the proceedings, together with all information offered as evidence in writing, shall be filed with the Secretary of Labor for consideration.

§ 4.43 *Rehearing.* If, after such hearing, a substantial change in the pro-

posed finding and order is in the judgment of the Secretary of Labor required, a rehearing shall be held with respect to the proposed finding and order as so changed. Every such rehearing shall be conducted in the manner prescribed for hearings in § 4.42.

§ 4.44 *Finding and order.* A finding and order shall be made by the Secretary of Labor upon the basis of all the information and evidence in the case, including the report of facts and conclusions with respect to the particular occupation or occupations under consideration, and the evidence and briefs received with respect to the proposed finding and order. Every such finding and order shall be published, pursuant to law, in the FEDERAL REGISTER and by such other means as the Secretary of Labor deems reasonably calculated to give interested parties general notice of the making of such order. Such orders shall become effective 30 days after publication in the FEDERAL REGISTER or at such other time as may be provided therein upon good cause found and published therewith, and shall be made available to the public at the office of the Bureau.

§ 4.45 *Revision of regulation.* Any person wishing a revision of any of the terms of this subpart may submit in writing to the Secretary of Labor a petition setting forth the changes desired and the reason for proposing them. If, after consideration of the petition, the Secretary of Labor believes that reasonable cause for amendment of the regulation is set forth, he shall either schedule a hearing, with due notice to interested parties, or shall make other provision for affording interested parties an opportunity to present their views, both in support and in opposition to the proposed changes.

SUBPART E—OCCUPATIONS PARTICULARLY HAZARDOUS FOR THE EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE OR DETRIMENTAL TO THEIR HEALTH OR WELL-BEING

AUTHORITY: §§ 4.51 to 4.60 issued under sec. 3, 52 Stat 1061; 29 U. S. C. 203.

NOTE: The provisions of this subpart declaring certain occupations to be particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being do not apply to employment in agriculture.

§ 4.51 *Occupations in or about plants manufacturing explosives or articles containing explosive components (Order 1)*—(a) *Finding and declaration of fact.* The following occupations in or about plants manufacturing explosives or articles containing explosive components are particularly hazardous for minors between 16 and 18 years of age:

(1) All occupations in or about any plant manufacturing explosives or articles containing explosive components except plants manufacturing small-arms ammunition not exceeding .50 caliber in size, shotgun shells, or blasting caps when manufactured in conjunction with small-arms ammunition.

(2) The following occupations in or about any plant manufacturing small-arms ammunition not exceeding .50 caliber in size, shotgun shells, or blasting caps when manufactured in conjunction with small-arms ammunition:

(i) All occupations involved in the manufacturing, mixing, transporting, or handling of explosive compounds and all other occupations requiring the performance of any duties in the explosives area in which explosive compounds are manufactured or mixed.

(ii) All occupations involved in the manufacturing, transporting, or handling of primers and all other occupations requiring the performance of any duties in the same building in which primers are manufactured.

(iii) All occupations involved in the priming of cartridges and all other occupations requiring the performance of any duties in the same workroom in which rim-fire cartridges are primed.

(iv) All occupations involved in the plate loading of cartridges and in the operation of automatic loading machines.

(v) All occupations involved in the loading, inspecting, packing, and shipping of blasting caps.

(b) *Definitions.* For the purpose of this section:

(1) The term "plant manufacturing explosives or articles containing explosive components" means the land with all buildings and other structures thereon, used in connection with the manufacturing or processing of explosives or articles containing explosive components.

(2) The terms "explosives" and "articles containing explosive components" mean and include ammunition, black powder, blasting caps, fireworks, high explosives, primers, smokeless powder, and all goods classified and defined as explosives by the Interstate Commerce Commission in "Regulations for Transportation by Rail of Explosives, etc." (49 CFR Parts 71–78) as amended, Docket 3666, issued pursuant to the act of March 4, 1921 (41 Stat. 1444, as amended; 18 U. S. C. Sup., 831, 832).

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.52 *Motor-vehicle driver and helper (Order 2).* (a) *Finding and declaration of fact.* The occupations of motor-vehicle driver and helper are particularly hazardous for the employment of minors between 16 and 18 years of age.

(b) *Definitions.* For the purpose of this section:

(1) The term "motor vehicle" shall mean any automobile, truck, truck-tractor, trailer, semitrailer, motorcycle, or similar vehicle propelled or drawn by mechanical power and designed for use as a means of transportation but shall not include any vehicle operated exclusively on rails.

(2) The term "driver" shall mean any individual who, in the course of his employment, drives a motor vehicle at any time.

(3) The term "helper" shall mean any individual other than a driver, whose work in connection with the transportation or delivery of goods includes riding on a motor vehicle.

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.53 *Coal-mine occupations (Order 3).* (a) *Finding and declaration of fact.* All occupations in or about any coal-mine, except the occupation of slate or other refuse picking at a picking table or picking chute in a tipple or breaker and occupations requiring the performance of duties solely in offices or in repair or maintenance shops located in the surface part of any coal-mining plant, are particularly hazardous for the employment of minors between 16 and 18 years of age.

(b) *Definitions.* For the purpose of this section:

(1) The term "coal" shall mean any rank of coal, including lignite, bituminous, and anthracite coals.

(2) The term "all occupations in or about any coal mine" shall mean all types of work performed in any underground working, open-pit, or surface part of any coal-mining plant that contribute to the extraction, grading, cleaning, or other handling of coal.

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.54 *Logging occupations and occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill (Order 4)*—(a) *Finding and declaration of fact.* All occupations in logging and all occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill are particularly hazardous for the employment of minors between 16 and 18 years of age, except the following:

(1) Exceptions applying to logging:

(i) Work in offices or in repair or maintenance shops.

(ii) Work in the construction, operation, repair, or maintenance of living and administrative quarters of logging camps.

(iii) Work in timber cruising, surveying, or logging-engineering parties; work in the repair or maintenance of roads, railroads, or flumes; work in forest protection, such as clearing fire trails or roads, piling and burning slash, maintaining fire-fighting equipment, constructing and maintaining telephone lines, or acting as fire lookout or fire patrolman away from the actual logging operations: *Provided*, That the provisions of this paragraph shall not apply to the felling or bucking of timber, the collecting or transporting of logs, the operation of power-driven machinery, the handling or use of explosives, and work on trestles.

(iv) Peeling of fence posts, pulpwood, chemical wood, excelsior wood, cordwood, or similar products, when not done in conjunction with and at the same time and place as other logging occupations declared hazardous by this section.

(v) Work in the feeding or care of animals.

(2) Exceptions applying to the operation of any permanent sawmill or the operation of any lath mill, shingle mill, or cooperage-stock mill: *Provided*, That these exceptions do not apply to a portable sawmill the lumberyard of which is used only for the temporary storage of green lumber and in connection with which no office or repair or maintenance shop is ordinarily maintained: *And further provided*, That these exceptions do not apply to work which entails entering the sawmill building:

(i) Work in offices or in repair or maintenance shops.

(ii) Straightening, marking, or tallying lumber on the dry chain or the dry drop sorter.

(iii) Pulling lumber from the dry chain.

(iv) Clean-up in the lumberyard.

(v) Piling, handling, or shipping of cooperage stock in yards or storage sheds, other than operating or assisting in the operation of power-driven equipment.

(vi) Clerical work in yards or shipping sheds, such as done by ordermen, tallymen, and shipping clerks.

(b) *Definitions.* As used in this section:

(1) The term "all occupations in logging" shall mean all work performed in connection with the felling of timber; the bucking or converting of timber into logs, poles, piles, ties, bolts, pulpwood, chemical wood, excelsior wood, cordwood, fence posts, or similar products; the collecting, skidding, yarding, loading, transporting and unloading of such products in connection with logging; the constructing, repairing and maintaining of roads, railroads, flumes, or camps used in connection with logging; the moving, installing, rigging, and maintenance of machinery or equipment used in logging; and other work performed in connection with logging. The term shall not apply to work performed in timber culture, timber-stand improvement, or in emergency fire-fighting.

(2) The term "all occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill" shall mean all work performed in or about any such mill in connection with storing of logs and bolts; converting logs or bolts into sawn lumber, laths, shingles, or cooperage stock; storing, drying, and shipping lumber, laths, shingles, cooperage stock, or other products of such mills; and other work performed in connection with the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill. The term shall not include work performed in the planing-mill department or other remanufacturing departments of any sawmill, or in any planing mill or remanufacturing plant not a part of a sawmill.

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.55 *Occupations involved in the operation of power-driven woodworking machines (Order 5)*—(a) *Finding and declaration of fact.* The following occupations involved in the operation of power-driven woodworking machines are particularly hazardous for minors between 16 and 18 years of age:

(1) The occupation of operating power-driven woodworking machines, including supervising or controlling the operation of such machines, feeding material into such machines, and helping the operator to feed material into such machines but not including the placing of material on a moving chain or in a hopper or slide for automatic feeding.

(2) The occupations of setting up, adjusting, repairing, oiling, or cleaning power-driven woodworking machines.

(3) The occupations of off-bearing from circular saws and from guillotine-action veneer clippers.

(b) *Definitions.* As used in this section:

(1) The term "power-driven woodworking machines" shall mean all fixed or portable machines or tools driven by power and used or designed for cutting, shaping, forming, surfacing, nailing, stapling, wire stitching, fastening, or otherwise assembling, pressing, or printing wood or veneer.

(2) The term "off-bearing" shall mean the removal of material or refuse directly from a saw table or from the point of operation. Operations not considered as off-bearing within the intent of this section include (i) the removal of material or refuse from a circular saw or guillotine-action veneer clipper where the material or refuse has been conveyed away from the saw table or point of operation by a gravity chute or by some mechanical means such as a moving belt or expulsion roller, and (ii) the following operations when they do not involve the removal of material or refuse directly from a saw table or from the point of operation: the carrying, moving, or transporting of materials from one machine to another or from one part of a plant to another; the piling, stacking, or arranging of materials for feeding into a machine by another person; and the sorting, tying, bundling, or loading of materials.

(c) *Exemptions.* This section shall not apply to the employment of apprentice pattern makers, cabinet makers, airplane-model makers, ship joiners, and mold-loftsmen in the occupations declared particularly hazardous in paragraph (a) of this section, if such employment is incidental to their apprentice training, is intermittent and for short periods of time and under the direction and supervision of an instructor as a necessary part of such apprentice training, and is carried on in accordance with a written apprenticeship agreement that has been approved by the Federal Committee on Apprenticeship of the Bureau of Apprenticeship, United States Department of Labor, or by a State apprenticeship council or other authority recognized by the Federal Committee on Apprenticeship.

(d) [Reserved]

(e) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.56 *Occupations Chart Applying to Hazardous-Occupations Orders Nos. 4 and 5 (§§ 4.54 and 4.55).* (a) The Fair Labor Standards Act of 1938 establishes a basic minimum age of 16 years for employment and provides that this minimum age shall be raised to 18 in occupations found and declared particularly hazardous in accordance with the terms of the act.

(b) Hazardous-Occupations Order No. 4 (§ 4.54) declares that all occupations in logging and in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill, with certain specific exceptions, are particularly hazardous. This order applies to all work in connection with logging, including work in connection with the logging of saw timber, pulpwood, excelsior wood, chemical wood, fence posts, cordwood, or similar products, with a few occupations specifically excepted. It also applies to all work in the sawmill building and to all work about the sawmill except for a few specific occupations outside the sawmill building.

(c) Hazardous-Occupations Order No. 5 (§ 4.55) declares that occupations involving the operation of power-driven woodworking machines and off-bearing from certain machines are particularly hazardous. This applies to the operation of power-driven woodworking machines in the planing-mill department or other remanufacturing department of a sawmill, also to the operation of power-driven woodworking machines wherever found.

(d) This chart has been prepared to spell out the application of Hazardous-Occupations Orders Nos. 4 and 5 (§§ 4.54 and 4.55) in terms of the specific occupations usually found in industries the orders cover. It lists in separate columns occupations permitted for 16- and 17-year-old minors and occupations not permitted for minors of these ages. All of the occupations enumerated will not be found in all establishments and in some establishments additional occupations not listed may be found. The chart lists occupations in the usually accepted sense, as found in large establishments. It is not intended that it be used for interpreting Orders Nos. 4 and 5 (§§ 4.54 and 4.55, as applied to unusual conditions or to occupations not specifically described in the chart. In case of occupations not listed, or in case of doubt about any occupation, information as to whether the employment of minors under 18 is permitted should be obtained from the Bureau of Labor Standards or from the Wage and Hour and Public Contracts Divisions' regional offices in Boston, New York, Philadelphia, Birmingham, Nashville, Cleveland, Chicago, Kansas City, Dallas, and San Francisco, or from the North Carolina State Department of Labor, Raleigh, N. C., or the Minnesota Department of Labor and Industry, St. Paul, Minn.

(e) The chart is based on Order No. 4 as revised February 2, 1948, and on Order No. 5, as amended October 31, 1945.

HAZARDOUS-OCCUPATIONS ORDER NO. 4

LOGGING OCCUPATIONS

Type of work	Occupation permitted for 16- and 17-year-old persons	Occupation not permitted for 16- and 17-year-old persons
I. Logging engineering	(a) Timber cruising (estimating amount of timber in a tract; map making, etc.). (b) In surveying parties as transit man, rod man, chain man, etc.	
II. Construction and repair or maintenance of railroads, roads, or flumes.	(a) Repair or maintenance work (not construction work) as done by section hands, grade and track crews, laborers, swampers, carpenters, and all other jobs except those listed in opposite column (see (a)).	(a) Any work that involves the construction of railroads, roads, or flumes, and any work that involves the felling or bucking of timber, the collecting or transporting of logs, the operation of power-driven machinery, the handling or use of explosives, and work on trestles.
III. Felling and bucking trees in the woods	None	(a) Faller (cuts down the tree). (b) Bucker (cuts tree into log length). (c) Scaler (measures the amount of lumber in the log). (d) Swamper (laborer, cuts brush, etc.). (e) Limber (cuts limbs from fallen trees). (f) Saw filer (keeps saws and axes filed and ground).
IV. Skidding or yarding logs into place for loading on trucks or train:		
A. Power skidding	None	(a) Rigging slinger (installs equipment for yarding, helps yard logs). (b) Chokesetter (places choker (wire sling) about log to be moved, attaches sling to cable). (c) Chaser (removes the sling after log has been moved). (d) Whistle punk (transmits signals to yarder engineer for starting and stopping yarder engines). (e) Hook tender (foreman of yarding crew). (f) Sniper (rounds off ends of log to be moved). (g) Yarder engineer or skidder leverman (operates the yarder engine used to move logs). (h) Swamper (laborer, cuts away brush, etc.). (i) Fireman (fires the boiler on yarder engine).
B. Tractor skidding	None	(a) Tractor operator or cat skinner—(operates tractors used to move logs). (b) Chokesetter (places choker about log to be moved). (c) Tongs hooker (places tongs on log when tongs are used instead of slings). (d) Swamper (laborer who clears away brush and helps make landing for logs).
C. Animal skidding	None	(a) Loader (loads logs for transportation). (b) Swamper (laborer who clears away brush and helps make landing for logs). (c) Log snaker (drives animals used in skidding logs).
V. Loading logs on truck or train for transportation.	None	(a) Tongs hooker or loader (places tongs or hooks on log to be loaded). (b) Loader engineer or jammer operator (operates loading engine). (c) Top loader (foreman of loading crew). (d) Fireman (fires the boiler on loader). (a) Train crew (engineer, fireman, brakeman).
VI. Transportation of logs by truck, train or wate.	None	(b) Truck driver. (c) Boom-crewman (crew which transports logs by water). (d) Unloader (unloads truck or train). (e) Teamster (drives animals when used for hauling logs). (f) Scaler (measures number of board feet in logs on truck).
VII. Construction, operation, repair, or maintenance of living and administrative quarters of logging camps.	(a) Cook. (b) Cook house crew. (c) Carpenters. (d) Other camp work.	
VIII. Maintenance or repairs of equipment	(a) Any work done in the maintenance or repair shop, except the operation of power-driven woodworking machines (blacksmith, mechanic, carpenter, etc.).	(a) Any maintenance or repair work on equipment in the woods.
IX. Peeling of fence posts, pulpwood, chemical wood, excelsior wood, cord-wood, or similar products.	(a) Peeler, barker, rosser (removes bark from logs) when work is not done in conjunction with and at the same time and place as other jobs declared hazardous.	(a) Peeling when done in conjunction with and at the same time and place as jobs declared hazardous.
X. Miscellaneous work in connection with logging.	(a) Fire patrolman and fire lookout (watch for fires, build fire trails and telephone lines, collect and burn brush). (b) Stableman, hostler (in charge of stables). (c) Office work.	(a) Fire watch (stationed near the logging operation, while work is in progress, to watch for sparks from rigging and machinery).

SAWMILL OCCUPATIONS[1]

I. Log pond and log storage yard	None	(a) Pondman (poles logs into the log slip for moving to log deck). (b) Drag-saw operator (cuts long logs in half). (c) Yardman (rolls logs to log deck).
II. In the sawmill building	None	(a) Scaler (measures logs on log deck and rolls log into position for the head saw). (b) Log deckman or log turner (the scaler's assistant). (c) Head sawyer (operates the head saw). (d) Dogger (operates the log holding mechanism on the head saw log carriage). (e) Block setter (operates mechanism controlling thickness of the cut of head saw). (f) Tail sawyer (removes boards and refuse at rear of head saw). (g) Edger man (operates the edger saw that cuts off bark from side of boards). (h) Edger line-up man or edger spotter (lines up boards for edger man). (i) Edger off-bearer (separates good boards from scrap at rear of edger). (j) Slasher man (operates slasher saw cutting up waste lumber). (k) Trimmer man (operates trimmer saw that cuts lumber to length). (l) Trimmer spotter (lines up boards for trimmer saw). (m) Gang sawyer (operates gang saw that saws large lumber into smaller boards). (n) Gang loader (lines up lumber for the gang sawyer). (o) Gang-saw taller (removes lumber at rear of gang saw). (p) Resaw operator (operates a saw for resawing boards). (q) Resaw line-up (lines up lumber for resaw operator). (r) Resaw taller (removes lumber at rear of resaw). (s) Hog feeder (operates hog mill to grind up scrap lumber). (t) Clean-up man (sweeps sawdust and refuse into refuse conveyors). (u) Saw-filer (sharpens saws in the filing room).

See footnote 1 at end of table.

HAZARDOUS-OCCUPATIONS ORDER NO. 4—Continued

SAWMILL OCCUPATIONS—continued

Type of work	Occupation permitted for 16- and 17-year-old persons	Occupation not permitted for 16- and 17-year-old persons
III. On the green or dry chain, the dry kiln and in the lumberyard.	(a) Grader, tallyman, and puller on dry chain or on dry drop sorter (grader grades and marks lumber on dry chain, tallyman records the amount of each grade of lumber, puller pulls lumber from chain). (b) Shipping clerk, tallyman, orderman, and other clerical work in yards or shipping sheds. (c) Clean-up in yard (cleans up refuse, etc., in lumberyard.)	(a) Grader, tallyman, and puller on the green chain and all other work on the green chain. (b) Lumber stacker, unstacker, loader, and unloader (stacks lumber or lumber products, unstacks lumber, loads or unloads cars). (c) Crane operator (operates a crane for handling lumber). (d) Crane hooker (hooks lumber on the crane for moving). (e) Jitney operator, truck driver, carrier operator (operates a lumber carrier or lumber truck for moving lumber).
IV. In a lath mill, shingle mill, or cooperage-stock mill.	(a) Handling and shipping of cooperage stock in yards or storage sheds, except operating or assisting in the operation of power-driven equipment.	(a) Handling and shipping of laths and shingles. (b) Stock picker (lath mill, picks pieces from conveyor for making into laths). (c) Bolterman (lath mill, operates a small gang saw). (d) Lath-feeder (lath mill, operates lath machines). (e) Lath tier (ties laths into bundles). (f) Shingle packer (shingle mill, packs shingles into bundles). (g) Cut-off sawyer (shingle mill, cuts logs into shingle lengths). (h) Knee bolter (shingle mill, cuts shingle bolts in quarters). (i) Block piler (shingle mill, piles blocks for shingle sawyer). (j) Shingle sawyer (shingle mill, operates shingle saw). (k) Splitter (cooperage-stock mill, splits bolts of cooperage stock). (l) Knee bolter, head turner, equalizer operator, cut-off sawyer, jointer operator, matcher operator, stave-saw operator, etc. (cooperage-stock mill, operate machines of various kinds). (m) Off-bearers, gluers, etc. (cooperage-stock mill, off-bearing from machines and other hand work).
V. Miscellaneous work about a sawmill	(a) Any work done in the repair or maintenance shop, except the operation of power-driven woodworking machines (mechanics, blacksmiths, etc.). (b) Office work.	(a) Millwright and maintenance work in the sawmill. (b) Work in the boiler house or powerhouse. (c) Work in the sawdust storage bins.

HAZARDOUS-OCCUPATIONS ORDER NO. 5

WOODWORKING OCCUPATIONS

Type of work	Occupation permitted for 16- and 17-year-old persons	Occupation not permitted for 16- and 17-year-old persons
I. In the planing mill, box factory, or other remanufacturing department.	(a) Off-bearing or tailing from: (1) Band saws. (2) Circular saws when the material is conveyed away from the saw table by some mechanical means such as an expulsion roller (cleat saw), moving belt, or gravity chute. (3) Planers, molders, or other surfacing machines. (4) Sanding machines. (5) Nailing or wire-stitching machines. (6) Presses, such as glue presses and box-board squeezers. (b) Placing material on a moving chain or in a hopper or slide for automatic feeding of special machines as used in box factories: (1) Band resaw with a chain feed. (2) Automatic nailing machine with hopper, belt, or chain feed. (3) Automatic wire-stitching machines with hopper or chain feed. (4) Box-board squeezers (Linderman machines with chain feed). (c) Operation of any woodworking machine by apprentice patternmakers, cabinet makers, airplane-model makers, ship jointers, and moldloftsmen (see Order No. 5 for conditions of apprenticeship). (d) Carrying or moving materials from one machine to another (hike-away). (e) Arranging materials for another person to feed into machine (table-up). (f) Work in preparation for shipment (tying-up, bundling, wrapping, etc.). (g) Handling or shipping of lumber products. (h) Operating machines or tools that are not woodworking machines such as: (1) Screw driver. (2) Wood-polishing machines. (3) Machines for tightening bolts.	(a) Operating or assisting the operator to feed: (1) Band saws. (2) Circular saws (table saws, swing saws, portable saws, etc.). (3) Surfacing machines (planers, shapers, jointers, molders, matchers, stickers, panel raisers, tenoners, etc.). (4) Lathes. (5) Drills, boring machines, mortisers. (6) Sanding machines (belt sanders, disc sanders, drum sanders, cone sanders, etc.). (7) Nailing and stapling machines, wire stitchers, berry box machines. (8) Veneer presses, other pressing machines. (b) Off-bearing or tailing from: (1) Circular saws, when the material is not conveyed away from the saw table by some mechanical means such as an expulsion roller, moving belt, or gravity chute. (c) Setting-up, adjusting, repairing, oiling, or cleaning machines.
II. In the manufacturing of veneer	(a) Work about the soaking pit. (b) Off-bearing from: (1) Veneer lathe. (2) Guillotine clipper when material is conveyed away from the point of operation by moving belt or gravity chute. (3) Other machines as listed under planing mill, etc. (c) Operating or assisting to operate: (1) Veneer-taping machine. (2) Glue spreader. (3) Veneer drier. (d) Carrying or moving material from one machine to another or otherwise handling or shipping veneer.	(a) Operating or assisting the operator to feed: (1) Veneer lathe. (2) Veneer clipper. (3) Veneer press. (4) Any other woodworking machine as given under planing mill, etc. (b) Off-bearing from a guillotine-action veneer clipper when material is not conveyed away from the point of operation by moving belt or gravity chute. (c) Setting-up, adjusting, repairing, oiling, or cleaning machines.

[1] None of these sawmill occupations are permitted in portable sawmills, that is in sawmills that are readily dismantled and moved from one tract of timber to another. Order No. 4 refers to a portable sawmill as one in which the lumberyard is used only for the temporary storage of green lumber and in connection with which no office or repair or maintenance shop is ordinarily maintained. Further, none of these occupations are permitted in permanent sawmills when the work entails entering the sawmill building.

§ 4.57 *Occupations involving exposure to radioactive substances (Order 6)*—(a) *Finding and declaration of fact.* The following occupations involving exposure to radioactive substances are particularly hazardous and detrimental to health for minors between 16 and 18 years of age: Any work in any workroom in which (1) radium is stored or used in the manufacture of self-luminous compound, (2) self-luminous compound is made, processed, or packaged, (3) self-luminous compound is stored, used, or worked upon, (4) incandescent mantles are made from fabric and solutions containing thorium salts, or are processed or packaged, or (5) other radioactive substances which require precautions in handling are manufactured, stored, or used.

(b) *Definitions.* As used in this section:

(1) The term "self-luminous compound" shall mean any mixture of phos-

phorescent material and radium, mesothorium, or other radioactive element.

(2) The term "workroom" shall include the entire area bounded by walls of solid material and extending from floor to ceiling.

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.58 *Occupations involved in the operation of power-driven hoisting apparatus (Order 7)*—(a) *Finding and declaration of fact.* The following occupations involved in the operation of power-driven hoisting apparatus are particularly hazardous for minors between 16 and 18 years of age:

(1) Work of operating an elevator, crane, derrick, hoist, or high-lift truck, except operating an unattended automatic operation passenger elevator or an electric or air-operated hoist not exceeding one ton capacity.

(2) Work which involves riding on a freight elevator or on a manlift. (Where employees are customarily transported to their work place at the beginning and end of scheduled work periods in a freight elevator operated by an assigned operator, such riding shall not be considered as work within the intent of this paragraph.)

(3) Work of assisting in the operation of a crane, derrick, or hoist performed by crane hookers, crane chasers, hookers-on, riggers, rigger helpers, and like occupations.

(b) *Definitions.* As used in this section:

(1) The term "elevator" shall mean any power-driven hoisting or lowering mechanism equipped with a car or platform which moves in guides in a substantially vertical direction. The term shall include both passenger and freight elevators (including portable elevators or tiering machines), but shall not include dumbwaiters.

(2) The term "crane" shall mean a power-driven machine for lifting and lowering a load and moving it horizontally, in which the hoisting mechanism is an integral part of the machine. The term shall include all types of cranes, such as cantilever gantry, crawler, gantry, hammerhead, ingot-pouring, jib, locomotive, motor-truck, overhead traveling, pillar jib, pintle, portal, semi-gantry, semi-portal, storage bridge, tower, walking jib, and wall cranes.

(3) The term "derrick" shall mean a power-driven apparatus consisting of a mast or equivalent members held at the top by guys or braces, with or without a boom, for use with an hoisting mechanism or operating ropes. The term shall include all types of derricks, such as A-frame, breast, Chicago boom, gin-pole, guy and stiff-leg derrick.

(4) The term "hoist" shall mean a power-driven apparatus for raising or lowering a load by the application of a pulling force that does not include a car or platform running in guides. The term shall include all types of hoists, such as base mounted electric, clevis suspension, hook suspension, monorail, overhead electric, simple drum, and trolley suspension hoists.

(5) The term "high-lift truck" shall mean a power-driven industrial type of truck used for lateral transportation that is equipped with a power-operated lifting device usually in the form of a fork or platform capable of tiering loaded pallets or skids one above the other. Instead of a fork or platform, the lifting device may consist of a ram, scoop, shovel, crane, revolving fork, or other attachments for handling specific loads. The term shall mean and include high-lift trucks known under such names as fork lift, fork trucks, fork-lift trucks, tiering trucks, or stacking trucks, but shall not mean low-lift trucks or low-lift platform trucks that are designed for the transportation of but not the tiering of material.

(6) The term "manlift" shall mean a device intended for the conveyance of persons which consists of platforms or brackets mounted on, or attached to, an endless belt, cable, chain or similar method of suspension; such belt, cable or chain operating in a substantially vertical direction and being supported by and driven through pulleys, sheaves or sprockets at the top and bottom.

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.59 *Occupations involving the operation of power-driven metal forming, punching, and shearing machines (Order 8)*—(a) *Finding and declaration of fact.* The occupation of operator of or helper on the following power-driven metal forming, punching and shearing machines is particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being, and employment in such occupations is therefore prohibited under section 12 of the Fair Labor Standards Act, as amended:

(1) All rolling machines, such as beading, straightening, corrugating, flanging, or bending rolls; and hot or cold rolling mills.

(2) All pressing or punching machines, such as punch presses except those provided with full automatic feed and ejection and with a fixed barrier guard to prevent the hands or fingers of the operator from entering the area between the dies; power presses; and plate punches.

(3) All bending machines, such as apron brakes and press brakes.

(4) All hammering machines, such as drop hammers and power hammers.

(5) All shearing machines, such as guillotine or squaring shears; alligator shears; and rotary shears.

(b) *Definitions.* As used in this section:

(1) The term "operator" shall mean one who operates a forming, punching, or shearing machine by performing such functions as setting up the machine, starting and stopping it, placing the work in the machine and removing the finished work from the machine, and performing other related functions in connection with its operation.

(2) The term "helper" shall mean one who assists in the operation of a forming, punching, or shearing machine by helping place the work in or remove it from the machine.

(3) The term "forming, punching, and shearing machines" shall mean power-driven metal-working machines, other than machine tools, which change the shape of or cut metal by means of tools, such as dies, rolls, or knives which are mounted on rams, plungers, or other moving parts. Types of forming, punching, and shearing machines enumerated in this section are the machines to which the designation is by custom applied.

(c) *Exemptions.* (1) This section shall not apply to the employment of apprentices in the occupations herein declared particularly hazardous: *Provided*, That (i) the apprentice is employed in a craft recognized as an apprenticeable trade, (ii) the work of the apprentice in the occupations herein declared hazardous is incidental to the apprentice training, is intermittent and for short periods of time, and is under the direct and close supervision of a journeyman as a necessary part of such apprentice training, and (iii) the apprentice is registered by the Bureau of Apprenticeship of the United States Department of Labor as employed in accordance with the standards established by that Bureau, or is registered by a State agency as employed in accordance with the standards of the State apprenticeship agency recognized by the Bureau of Apprenticeship, or is employed under a written apprenticeship agreement under conditions which substantially conform to such Federal or State standards as determined by the Secretary of Labor.

(2) In addition to the exemption for apprentices provided in subparagraph (1) of this paragraph, upon application to the Secretary of Labor, an exemption may be granted for minors employed under a written agreement for organized training which provides for at least 4,000 hours of employment in a craft recognized as an apprenticeable trade and under conditions which the Secretary of Labor finds to conform substantially to Federal apprenticeship standards, provided that the work of the minor in the occupations herein declared hazardous is incidental to his training, is intermittent and for short periods of time, and is under the direct and close supervision of a journeyman.

(d) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

§ 4.60 *Occupations in connection with mining, other than coal (Order 9)*—(a) *Finding and declaration of fact.* All occupations in connection with mining, other than coal, are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being and employment in such occupations is therefore prohibited under section 12 of the Fair Labor Standards Act, as amended, except the following:

(1) Work in offices, in the warehouse or supply house, in the change house, in the laboratory, and in repair or maintenance shops not located underground.

(2) Work in the operation and maintenance of living quarters.

(3) Work outside the mine in surveying, in the repair and maintenance of roads, and in general clean-up about the mine property such as clearing brush and digging drainage ditches.

(4) Work of track crews in the building and maintaining of sections of railroad track located in those areas of open-cut metal mines where mining and haulage activities are not being conducted at the time and place that such building and maintenance work is being done.

(5) Work in or about surface placer mining operations other than placer dredging operations and hydraulic placer mining operations.

(6) The following work in metal mills other than in mercury-recovery mills or mills using the cyanide process:

(i) Work involving the operation of jigs, sludge tables, flotation cells, or drier-filters;

(ii) Work of hand-sorting at picking table or picking belt;

(iii) General clean-up work:

Provided, however, That nothing in this section shall be construed as permitting employment of minors in any occupation prohibited by any other hazardous occupations order issued by the Secretary of Labor.

(b) *Definitions.* As used in this section: The term "all occupations in connection with mining, other than coal" shall mean all work performed underground in mines and quarries; on the surface at underground mines and underground quarries; in or about open-cut mines, open quarries, clay pits, and sand and gravel operations; at or about placer mining operations; at or about dredging operations for clay, sand or gravel; at or about bore-hole mining operations; in or about all metal mills, washer plants, or grinding mills reducing the bulk of the extracted minerals; and at or about any other crushing, grinding, screening, sizing, washing or cleaning operations performed upon the extracted minerals except where such operations are performed as a part of a manufacturing process. The term shall not include work performed in subsequent manufacturing or processing operations, such as work performed in smelters, electro-metallurgical plants, refineries, reduction plants, cement mills, plants where quarried stone is cut, sanded and further processed, or plants manufacturing clay, glass or ceramic products. Neither shall the term include work performed in connection with coal mining, in petroleum production, in natural-gas production, nor in dredging operations which are not a part of mining operations, such as dredging for construction or navigation purposes.

(c) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established in this section.

SUBPART F—UTILIZATION OF STATE AGENCIES FOR INVESTIGATIONS AND INSPECTIONS

AUTHORITY: §§ 4.81 to 4.90 issued under sec. 4, 49 Stat. 2038, sec. 11, 52 Stat. 1066; 41 U. S. C. 38, 29 U. S. C. 211.

§ 4.81 *Definitions.* As used in this subpart:

(a) *Acts.* The term "acts" means the Fair Labor Standards Act of 1938 (52 Stat. 1060–1069, as amended; 29 U. S. C. and Sup., 201–219) and the Public Contracts Act (act of June 30, 1936; 49 Stat. 2036; 41 U. S. C. 35–45).

(b) *Administrator.* The term "Administrator" means the Administrator of the Wage and Hour Division of the United States Department of Labor.

(c) *Division.* The term "Division" means the Wage and Hour Division of the United States Department of Labor.

(d) *State.* The term "State" means any State of the United States or the District of Columbia or any Territory or possession of the United States.

(e) *State agency.* The term "State agency" means the agency in the State charged with the administration of labor laws which necessitate inspection of places of employment for (1) enforcement of State child-labor regulations and (2) enforcement of State maximum-hour or State minimum-wage regulations.

(f) *Official forms.* The term "official forms" means forms prescribed by the Administrator or the Secretary of Labor.

§ 4.82 *Agreements with State agencies*—(a) *Purpose.* The Secretary and the Administrator may enter into agreements with State agencies for the utilization of services of State and local agencies and their employees in making investigations and inspections under the acts and for reimbursement therefor, when such State agencies have submitted plans of cooperation for such purposes and such plans have been found to be reasonably appropriate and adequate to carry out the respective functions of the Secretary and the Administrator.

(b) *Certificates of attorneys general.* No such agreement shall become effective and operative until a statement of the Attorney General of the State, or, if the Attorney General is not authorized to make such a statement, the State official who is so authorized, has been received by the Division and the Secretary of Labor certifying that the agreement is valid in the form as executed under the laws of the State.

§ 4.83 *Qualifications of the State agency.* The State agency shall have as its primary function the administration of State labor laws and shall be under the direction of an executive who gives full time to the work of the agency. The agency shall be engaged in inspecting places of employment for (a) enforcement of State child-labor laws and regulations, and (b) enforcement of State maximum-hour or minimum-wage laws and regulations. An administrative division of the State agency shall be designated to make investigations and inspections under the acts; qualified staff, under adequate supervision, shall be specifically assigned for work connected with State and Federal child-labor, maximum-hour and minimum-wage laws and regulations; and provision shall be made to inspect any establishment subject to the acts.

§ 4.84 *Submission of plan.* The State agency shall submit a plan, in quadruplicate, which shall include the following:

(a) A copy of the act establishing the State agency, copies of the laws administered by the State agency, and if there is an act specifically authorizing the State to cooperate with the Division or the Secretary of Labor, or both, a copy of such act.

(b) A description of the organization of the State agency, illustrated by organization charts, showing the delegation of responsibility and lines of authority to be followed within the agency in the enforcement of the act and State labor laws.

(c) A description (1) of the manner in which investigations and inspections under the acts will be coordinated with the investigations and inspections for enforcement of State child-labor, maximum-hour and minimum-wage laws and regulations; (2) of the location of offices of the administrative division designated to make inspections under the acts, with the job titles of employees located in each such office and employees assigned to work in connection with the acts so designated; and (3) of the manner in which the work of inspectors will be supervised.

(d) Provisions for the establishment and maintenance of personnel administration, with respect to personnel engaged in work under the acts for the Division and the Secretary of Labor in accordance with the following standards:

(1) Job classifications based upon an analysis of the duties and responsibilities of positions;

(2) A compensation schedule adjusted to State salary schedules for similar positions: *Provided, however*, That all salaries paid by the State for services rendered in accordance with an agreement entered into pursuant to § 4.82 shall be on the basis of applicable State laws or regulations, or in the absence of such applicable laws or regulations, on the approved and usual scale paid by the State for similar services and shall in no case exceed salaries paid for comparable Federal positions in the competitive classified service. Allowances for necessary traveling expenses shall be on the basis of State laws and regulations governing travel allowances;

(3) Assignment of personnel to Federal work only when their qualifications conform substantially with qualifications of Federal employees engaged in similar work, such assignment to be made only after submission to and approval by the Division and the Secretary of Labor of a statement of the training and experience of each person who will engage in Federal work;

(4) Appointment of new personnel on the basis of merit, either (i) from lists

of eligible persons certified in the order of merit, secured under a merit system through State-wide competitive examinations which prescribe requirements of training and experience in substantial conformity with Federal civil service requirements for similar positions or (ii) from lists taken from Federal registers established through competitive examinations for similar positions, it being understood that such registers may be broken down by States;

(5) Adequate training of staff;

(6) Promotion on the basis of qualifications and performance;

(7) Security of tenure assured satisfactory employees, including right of notice and hearing prior to demotion or dismissal;

(8) Prohibition against employees engaging in political activities other than the exercise of their right to vote and to express privately their opinions on political questions.

(e) A budget which shall show, in detail, estimated expenditures by the State agency on behalf of the Division and the Secretary of Labor for services to be rendered in connection with the administration of the acts and a budget which shall show estimated expenditure for the enforcement of comparable State laws and regulations during the period covered by the agreement; a statement showing funds appropriated to or allocated for meeting the budget for estimated State expenditures; and a statement showing expenditures by the State agency for the enforcement of comparable State laws and regulations during the last fiscal year.

(f) A statement of State requirements in regard to fiscal practices and to appointment of personnel, together with copies of the laws and regulations setting forth such requirements.

(g) A statement from the Attorney General of the State or, if the Attorney General is not authorized to make such a statement, from the State official who is so authorized certifying that the State agency has authority to enter into an agreement with the Division and the Secretary of Labor in accordance with this subpart.

§ 4.85 *Additional requirements.* (a) The State agency shall follow the procedure set forth in the Inspection Manual for the enforcement of the act and such supplements to or provisions thereof as may be issued from time to time by the Division or the Secretary of Labor; use official forms for recording findings; make reports as required; and carry on the work connected with the administration of the acts in conformity with the plans and budget agreed upon and with the instructions and policies of the Division and the Secretary of Labor.

(b) Representatives of the Division and the Secretary of Labor may at any time, upon notifying the State agency, make such inspections and investigations and secure such information as may be necessary for the administration of the acts.

§ 4.86 *Audits.* The accounting records and the supporting data pertaining to expenditures for investigations and inspections under the acts shall be subject to audit by the Division and the Secretary of Labor, annually, or so often as the Administrator and the Secretary of Labor, may require.

§ 4.87 *Transmission of official mail.* Subject to the requirements of law and of the regulations of the Post Office Department, franked self-addressed envelopes may be used for communications from the field staff to a State official designated by the Division and the Secretary of Labor, and for communication from the State agency to the Division or the Secretary of Labor.

§ 4.88 *Enforcement.* All litigation relating to the enforcement of the acts, other than civil actions for the recovery of wages due instituted pursuant to section 16 (b) of the Fair Labor Standards Act of 1938 and all administrative proceedings instituted pursuant to section 5 of the Public Contracts Act shall be undertaken by and be under the direction and control of the Federal Government. Any State agency intending to institute a civil action in behalf of an employee or employees for the recovery of wages due, pursuant to section 16 (b) of the Fair Labor Standards Act of 1938 shall notify the Division and the Secretary of Labor prior to the institution of such action.

§ 4.89 *Agreements and approved plans.* Agreements and approved plans incorporated therein may be amended upon the consent of the parties thereto.

§ 4.90 *Amendments and repeal.* This subpart may be amended or repealed by appropriate joint regulations issued by the Secretary of Labor and the Administrator: *Provided, however,* That no such amendment or repeal shall be effective as to any agreement previously entered into by a State agency without its consent thereto.

SUBPART G—GENERAL STATEMENTS OF INTERPRETATION OF THE CHILD LABOR PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 138, AS AMENDED

AUTHORITY: §§ 4.101 to 4.129 issued under 52 Stat. 1060–1069, as amended; 29 U. S. C. and Sup., 201–219.

GENERAL

§ 4.101 *Introductory statement.* (a) This subpart discusses the meaning and scope of the child labor provisions of the Fair Labor Standards Act, as amended[1] (hereinafter referred to as the act). These provisions seek to protect the safety, health, well-being and opportunities for schooling of youthful workers and authorize the Secretary of Labor to issue legally binding orders or regulations in certain instances and under certain conditions. The child labor provisions are found in sections 3 (l), 11 (b), 12, 13 (c) and (d), 15 (a) (4), 16 (a), and 18 of the act. They are administered and enforced by the Secretary of Labor who has delegated[2] to the Wage and Hour Division the duty of making investigations to obtain compliance, and to the Bureau of Labor Standards the duty of developing standards for the issuance of regulations and orders relating to (1) hazardous occupations, (2) employment of 14- and 15-year-old children, and (3) age certificates.

(b) The interpretations of the Secretary contained in this subpart indicate the construction of the law which will guide him in performing his duties until he is directed otherwise by authoritative rulings of the courts or until he shall subsequently decide that his prior interpretation is incorrect.

§ 4.102 *General scope of statutory provisions.* The most important of the child labor provisions are contained in sections 12 (a), 12 (c), and 3 (l) of the act. Section 12 (a) provides that no producer, manufacturer, or dealer shall ship or deliver for shipment in interstate or foreign commerce any goods produced in an establishment in or about which oppressive child labor was employed within 30 days before removal of the goods. The full text of this subsection is set forth in § 4.104 and its terms are discussed in §§ 4.105 to 4.111, inclusive. Section 12 (c) prohibits any employer from employing oppressive child labor in interstate or foreign commerce or in the production of goods for such commerce. The text and discussion of this provision appear in §§ 4.112 and 4.113. Section 3 (l) of the act, which defines the term "oppressive child labor," is set forth in § 4.117 and its provisions are discussed in §§ 4.118 to 4.121, inclusive. It will further be noted that the act provides various specific exemptions from the foregoing provisions which are set forth and discussed in §§ 4.122 to 4.126, inclusive.

§ 4.103 *Comparison with wage and hours provisions.* A comparison of the child labor provisions with the so-called wage and hours provisions contained in the act discloses some important distinctions which should be mentioned.

(a) The child labor provisions contain no requirements in regard to wages. The wage and hours provisions, on the other hand, provide for minimum rates of pay for straight time and overtime pay at a rate not less than one and one-half times the regular rate of pay for overtime hours worked. Except as provided in certain exemptions contained in the act, these rates are required to be paid all employees subject to the wage and hours provisions, regardless of their age or sex. The fact, therefore, that the employment of a particular child is prohibited by the child labor provisions or that certain shipments or deliveries may be proscribed on account of such employment, does not relieve the employer of the duties imposed by the wage and hours provisions to compensate the child in accordance with those requirements.

(b) There are important differences between the child labor provisions and the wage and hours provisions with respect to their general coverage. As pointed out in § 4.114, two separate and basically different coverage provisions are contained in section 12 relating to child labor. One of these provisions (section 12 (c)), which applies to the employment by an employer of oppressive child labor in commerce or in the production of goods for commerce, is similar to the wage and hours coverage provisions, which include employees engaged in commerce or in the production of goods for commerce. The other provision (section 12 (a)), however, differs fundamentally in its basic concepts of coverage from the wage and hours provisions, as will be explained in §§ 4.104 to 4.111.

(c) Another distinction is that the exemptions provided by the act from the minimum wage and or overtime provisions are more numerous and differ from the exemptions granted from the child labor provisions. There are only four specific child labor exemptions of which only one applies to the minimum wage and overtime pay requirements as well. This is the exemption for employees engaged in the delivery of newspapers to the consumer.[3] With this exception, none of the specific exemptions from the minimum wage and/or overtime pay requirements applies to the child labor provisions. However, it should be noted that the exclusion of certain employers by section 3 (d)[4] of the act applies to the child labor provisions as well as the wage and hours provisions.

COVERAGE OF SECTION 12 (a)

§ 4.104 *General.* Section 12 (a) of the act provides as follows:

> No producer, manufacturer, or dealer shall ship or deliver for shipment in commerce any goods produced in an establishment situated in the United States in or about which within thirty days prior to the removal of such goods therefrom any oppressive child labor has been employed: *Provided,* That any such shipment or delivery for shipment of such goods by a purchaser who acquired them in good faith in reliance on written assurance from the producer, manufacturer, or dealer that the goods were produced in compliance with the requirements of this section, and who acquired such goods for value without notice of any such violation, shall not be deemed prohibited by this subsection: *And provided further,* That a prosecution and conviction of a defendant for the shipment or delivery for shipment of any goods under the conditions herein prohibited shall be a bar to any further prosecution against the same defendant for shipments or deliveries for shipment of any such goods before the beginning of said prosecution.

In determining the applicability of this provision, consideration of the meaning of the terms used is necessary. These terms are discussed in §§ 4.105 to 4.111, inclusive.

§ 4.105 *"Producer, manufacturer, or dealer".* It will be observed that the prohibition of section 12 (a) with respect to certain shipments or deliveries for shipment is confined to those made by producers, manufacturers, and dealers. The terms "producer, manufacturer, or dealer" used in this provision are not expressly defined by the statute. However, in view of the definition of "produced" in section 3 (j), for purposes of this subsection a "producer" is considered to be one who engages in producing, manufacturing, handling or in any other manner working on goods in any State.[5] Since manufacturing is considered a specialized form of production, the word "manufacturer" does not have as broad an application as the word "producer." Manufacturing generally involves the transformation of raw materials or semifinished goods into new or different articles. A person may be considered a "manufacturer" even though his goods are made by hand, as is often true of products made by homeworkers. Moreover, it is immaterial whether manufacturing is his sole or main business. Thus, the term includes retailers who, in addition to retail selling, engage in such manufacturing activities as the making of slip-covers or curtains, the baking of bread, the making of candy, or the making of window frames. The word "dealer" refers to anyone who deals in goods (as defined in section 3 (i) of the act),[6] including persons engaged in buying, selling, trading, distributing, delivering, etc. It includes middlemen, factors, brokers, commission merchants, wholesalers, retailers and the like.

§ 4.106 *"Ship or deliver for shipment in commerce."* (a) Section 12 (a) forbids producers, manufacturers, and dealers to "ship or deliver for shipment in commerce" the goods referred to therein. A producer, manufacturer, or dealer may "ship" goods in commerce either by moving them himself in interstate or foreign commerce or by causing them to so move, as by delivery to a carrier.[7] Thus, a baker "ships" his bread in commerce whether he carries it in his own truck across State lines or sends it by contract or common carrier to his customers in other States. The word "ship" must be applied in its ordinary meaning. For example, it does not apply to the transmission of telegraphic messages.[8]

(b) To "deliver for shipment in commerce" means to surrender the custody of goods to another under such circumstances that the person surrendering the goods knows or has reason to believe that the goods will later be shipped in commerce.[9] Typical is the case of a Detroit manufacturer who delivers his goods in Detroit to a distributor who, as the manufacturer is well aware, will ship the goods into another State. A delivery for shipment in commerce may also be made where raw materials are delivered by their producer to a manufacturer in the same State who converts them into new products which are later shipped across State lines. If the producer in such case is aware or has reason to believe that the finished products will ultimately be sent into another State, his delivery of the raw materials to the manufacturer is a delivery for shipment in commerce. Another example is a paper box manufacturer who ships a carton of boxes to a fresh fruit or vegetable packing shed within the same State, with knowledge or reason to believe that the boxes will there be filled with fruits or vegetables and shipped outside the State. In such case the box manufacturer has delivered the boxes for shipment in commerce.

§ 4.107 *"Goods".*[10] (a) Section 12 (a) prohibits the shipment or delivery for shipment in commerce of "any goods" produced in an establishment which were removed within 30 days of the employment there of oppressive child labor. It should be noted that the statute does not base the prohibition of section 12 (a) upon the percentage of an establishment's output which is shipped in commerce.

(b) The act furnishes its own definition of "goods" in section 3 (i), as follows:

> "Goods" means goods (including ships and marine equipment), wares, products, commodities, merchandise, or articles or subjects of commerce of any character, or any part or ingredient thereof, but does not include goods after their delivery into the actual physical possession of the ultimate consumer thereof other than a producer, manufacturer, or processor thereof.

The term includes such things as foodstuffs, clothing, machinery, printed materials, blueprints and also includes intangibles such as news, ideas, and intelligence. The statute expressly excludes goods after their delivery into the actual physical possession of an ultimate consumer other than a producer,

[1] Pub. No. 718, 75th Cong., 3d sess. (52 Stat. 1060), as amended by the act of June 26, 1940 (Pub. Res. No. 88, 76th Cong., 3d sess.); by Reorganization Plan No. 2 (60 Stat. 1095), effective July 16, 1946; by the Portal-to-Portal Act of 1947, approved May 14, 1947 (61 Stat. 84); and by the Fair Labor Standards Amendments of 1949, approved October 26, 1949 (Pub. Law 393, 81st Cong., 1st sess.). Amendments provided by the Fair Labor Standards Amendments of 1949 are effective as of January 25, 1950. These amendments leave the existing law unchanged except as to provisions specifically amended and the addition of certain new provisions.

[2] General Order No. 42 issued by the Secretary on July 1, 1949.

[3] Section 13 (d) of the act.

[4] Section 3 (d) defines "employer" to include "any person acting directly or indirectly in the interest of an employer in relation to an employee but shall not include the United States or any State or political subdivision of a State, or any labor organization (other than when acting as an employer), or anyone acting in the capacity of officer or agent of such labor organization."

[5] For a discussion of the definition of "produced" as it relates to section 12 (a), see § 4.108.

[6] See § 4.107.

[7] Section 3 (b) of the act defines "commerce" to mean "trade, commerce, transportation, transmission, or communication among the several States or between any State and any place outside thereof."

[8] Western Union Telegraph Co. v. Lenroot, 323 U. S. 490.

[9] Tobin v. Grant, N. D. Calif., 79 F. Sup. 975 which was a suit for injunction by the Secretary of Labor against a manufacturer of books and book covers employing oppressive child labor. The facts showed that the manufactured articles sold by defendant to purchasers in the same State had an ultimate out-of-State destination which was manifest to defendant. The court construed the words "deliver for shipment in commerce" as sufficiently broad to cover this situation even though the purchasers acquired title to the goods.

[10] The term "goods" is discussed in more detail in Part 776 of this title (Interpretative Bulletin on the coverage of the wage and hours provisions) issued by the Administrator of the Wage and Hour Division.

manufacturer, or processor thereof. Accordingly, such a consumer may lawfully ship articles in his possession although they were ineligible for shipment (commonly called "hot goods") before he received them.[11]

§ 4.108 *"Produced".* The word "produced" as used in the act is defined by section 3 (j) to mean:

• • • produced, manufactured, mined, handled, or in any other manner worked on in any State; • • •[12]

(a) The prohibition of section 12 (a) cannot apply to a shipment of goods unless those goods (including any part or ingredient thereof) were actually "produced" in and removed from an establishment where oppressive child labor was employed. This provision is applicable even though the under-age employee does not engage in the production of the goods themselves if somewhere in the establishment in or about which he is employed goods are "produced" which are subsequently shipped or delivered for shipment in commerce. In contrast to this restrictive requirement of section 12 (a), it will be noted that the employees covered under the wage and hours provisions as engaged in the production of goods for commerce are not limited to those in or about establishments where such goods are being produced. If the requisite relationship[13] to production of such goods is present, an employee is covered for wage and hours purposes regardless of whether his work brings him in or near any establishment where the goods are produced.[14]

(b) Since the first word in the definition of "produced" repeats the term being defined, it seems clear that the first word must carry the meaning that it has in everyday language. Goods are commonly spoken of as "produced" if they have been brought into being as a result of the application of work. The words "manufactured" and "mined" in the definition refer to special forms of production. The former term is generally applied to the products of industry where existing raw materials are transformed into new or different articles by the use of industrial methods, either by the aid of machinery or by manual operations. Mining is a type of productive activity involving the taking of materials from the ground, such as coal from a coal mine, oil from oil wells, or stone from quarries. The statute also defines the term "produced" to mean "handled" or "in any other manner worked on."[15] These words relate not only to operations carried on in the course of manufacturing, mining, or production as commonly described, but include as well all kinds of operations which prepare goods for their entry into the stream of commerce, without regard to whether the goods are to be further processed or are so called "finished goods."[16] Accordingly, warehouses, fruit and vegetable packing sheds, distribution yards, grain elevators, etc., where goods are sorted, graded, stored, packed, labeled or otherwise handled or worked on in preparation for their shipment out of the State are producing establishments for purposes of section 12 (a).[17] However, the handling or working on goods, performed by employees of carriers which accomplishes the interstate transit or movement in commerce itself, does not constitute production under the act.[18]

§ 4.109 *"Establishment situated in the United States".* (a) (1) The statute does not expressly define "establishment." Accordingly, the term should be given a meaning which is not only consistent with its ordinary usage, but also designed to accomplish the general purposes of the act. As normally used in business and in Government, the word "establishment" refers to a distinct physical place of business. This is the meaning attributed to the term as it is used in section 13 (a) (2) of the act.[19] Since the establishments covered under section 12 (a) of the act are those in which goods are produced, the term "establishment" there refers to a physical place where goods are produced. Typical producing establishments are industrial plants, mines, quarries, and the like. The producing establishment, however, need not have a permanently fixed location as is the case with a factory or mine. A boat, for instance, where productive activities such as catching or canning fish are carried on, is considered a producing establishment for purposes of section 12 (a).

(2) Frequently, questions arise as to what should be considered a single establishment. No hard and fast rule can be laid down which will fix the area of all establishments. Accordingly, a determination of the area contained in a single establishment must be based upon the facts of each individual situation. Facts which are particularly pertinent in this connection, however, are those which relate to the physical characteristics and the manner of operation and control of the business. Sometimes, an establishment may extend over an area of several square miles as is common with farms, logging enterprises, mines, and quarries. On the other hand, it may be confined to a few square feet. A typical illustration of this is a loft building that houses the workshops of hundreds of independent manufacturing firms. Each of the workshops is, for purposes of this section, a separate establishment.

(3) Similar principles are applicable in determining whether several buildings located on the same premises constitute one establishment or more than one. For example, where several factory buildings are located on the same premises and owned and operated by the same person, they are generally to be considered as a single establishment. On the other hand, factory buildings located on the same premises, but owned and operated by different persons, will not ordinarily be treated as a single establishment. Where the several factories, however, are engaged in a joint productive enterprise, they may constitute a single establishment. This is the case, for example, where a large shipyard contains the plants of a number of subcontractors who are engaged in making parts or equipment for the boats that are built in the yard.

(b) The phrase "situated in the United States" is construed to include any of the 48 States or the District of Columbia or any Territory or possession of the United States.

§ 4.110 *"In or about".* (a) Section 12 (a) excludes from the channels of interstate commerce goods produced in an establishment "in or about" which oppressive child labor has been employed. In a great many situations it is obviously easy to determine whether a minor is employed "in" an establishment. Thus, he is so employed where he performs his occupational duties on the premises of the producing establishment. Furthermore, a minor is also considered as employed in an establishment where he performs most of his duties off the premises but is regularly required to perform certain occupational duties in the establishment, such as loading or unloading a truck, checking in or out, or washing windows. This is true in such cases even though the minor is employed by someone other than the owner or operator of the particular establishment. On the other hand, a minor is not considered to be employed in an establishment other than his employer's merely because such establishment is visited by him for brief periods of time and for the sole purpose of picking up or delivering a message or other small article.

(b) If, in the light of the statements in paragraph (a) of this section, the minor cannot be considered as employed in the establishment, he may, nevertheless, be employed "about" it if he performs his occupational duties sufficiently close in proximity to the actual place of production to fall within the commonly understood meaning of the term "about." This would be true in a situation where the foregoing proximity test is met and the occupation of the minor is directly related to the activities carried on in the producing establishment. In this connection, occupations are considered sufficiently related to the activities carried on in the producing establishment to meet the second test above at least where the requisite relationship to production of goods exists within the meaning of section 3 (j) of the act.[20] By way of example, a driver's helper employed to assist in the distribution of the products of a bottling company who regularly boards the delivery truck immediately outside the premises of the bottling plant is considered employed "in or about" such establishment, without regard to whether he ever enters the plant itself. On the other hand, employees working entirely within one establishment are not considered to be employed "in or about" a wholly different establishment occupying separate premises and operated by another employer. This would be true even though the two establishments are contiguous. But in other situations the distance between the producing establishment and the minor's place of employment may be a decisive factor. Thus, a minor employed in clearing rights-of-way for power lines many miles away from the power plant cannot well be said to be employed "in or about" such establishment. In view of the great variety of establishments and employments, however, no hard and fast rule can be laid down which will once and for all distinguish between employments that are "about" an establishment and those that are not. Therefore, each case must be determined on its own merits. In determining whether a particular employment is "about" an establishment, consideration of the following factors should prove helpful: (1) actual distance between the producing establishment and the minor's place of employment; (2) nature of the establishment; (3) ownership or control of the premises involved; (4) nature of the minor's activities in relation to the establishment's purpose; (5) identity of the minor's employer and the establishment's owner; (6) extent of control by the producing establishment's owner over the minor's employment.

§ 4.111 *Removal "within 30 days."* According to section 12 (a) goods produced in an establishment in or about which oppressive child labor has been employed are barred as "hot goods" from being shipped or delivered for shipment in commerce in the following two situations: First, if they were removed from the establishment while any oppressive child labor was still being employed in or about it; second, if they were removed from an establishment in or about which oppressive child labor was no longer employed but less than 30 days had then elapsed since any such employment of oppressive child labor came to an end. Once any goods have been removed from a producing establishment within the above-mentioned thirty-day period, they are barred at any time thereafter from being shipped or delivered for shipment in commerce so long as they remain "goods" for purposes of the act.[21] Goods are considered removed from an establishment just as soon as they are taken away from the establishment as that term has been defined.[22] The statute does not require that this "removal" from the establishment be made for the purpose or in the course of a shipment or delivery for shipment in commerce. A "removal" within the meaning of the statute also takes place where the goods are removed from the establishment for some other purpose such as storage, the granting of a lien or other security interest, or further processing.

COVERAGE OF SECTION 12 (C)

§ 4.112 *General.* (a) Section 12 (c) of the act provides as follows: "No employer shall employ any oppressive child labor in commerce or in the production of goods for commerce."

(b) This provision, which was added by the Fair Labor Standards Amendments of 1949,[23] broadens child labor coverage to include employment in commerce. Moreover, it establishes a direct prohibition of the employment of oppressive child labor in commerce or in the production of goods for commerce. The legislative history pertaining to this provision leads to the conclusion that Congress intended its application to be generally consistent with that of wage and hours coverage provisions. The application of the provision depends on the existence of two necessary elements: (1) the employment of "oppressive child labor"[24] by some employer and (2) the employment of such oppressive child labor in commerce or in the production of goods for commerce.

§ 4.113 *Employment*[25] *"in commerce or in the production of goods for commerce".* (a) The term "employ" is broadly defined in section 3 (g) of the act to include "to suffer or permit to work." The act expressly provides that the term "employer" includes "any person acting directly or indirectly in the interest of an employer in relation to an employee." The nature of an employer-employee relationship is ordinarily to be determined not solely on the basis of the contractual relationship between the parties but also in the light of all the facts and circumstances. Moreover, the terms "employer" and "employ" as used in the act are broader than the common-law concept of employment and must be interpreted broadly in the light of the mischief to be corrected. Thus, neither the technical relationship between the parties nor the fact that the minor is unsupervised or receives no compensation is controlling in determining whether an employer-employee relationship exists for purposes of section 12 (c) of the act. However, these are matters which should be considered along with all other facts and circumstances surrounding the relationship of the parties in arriving at such determination. The words "suffer or permit to work" include those who suffer by a failure to hinder and those who permit by acquiescence in addition to those who employ by oral or written contract. A typical illustration of employment of oppressive child labor by suffering or permitting an under-aged minor to work is that of an employer who knows that his employee is utilizing the services of such a minor as a helper or substitute in performing his employer's work. If the employer acquiesces in the practice or fails to exercise his power to hinder it, he is himself suffering or permitting the helper to work and is, therefore, employing him, within the meaning of the act. Where employment does exist within the meaning of the act, it must, of course, be in commerce or in the production of goods for commerce in order for section 12 (c) to be applicable.

(b) As previously indicated, the scope of coverage of section 12 (c) of the act is, in general, coextensive with that of the wage and hours provisions. The basis for this conclusion is provided by the similarity in the language used in the respective provisions and by statements appearing in the legislative history concerning the intended effect of the addition of section 12 (c). Accordingly, it may be generally stated that employees considered to be within the scope of the phrases "in commerce or in the production of goods for commerce" for purposes of the wage and hours provisions are also included within the identical phrases used in section 12 (c). To avoid needless repetition, reference is herein made to the full discussion of principles relating to the general coverage of the wage and hours provisions contained in Part 776 (Interpretative Bulletin issued by the Administrator of the Wage and Hour Division) of Chapter V of this title. In this connection, however, it should be borne in mind that lack of coverage under the wage and hours provisions or under section 12 (c) does not necessarily preclude the applicability of section 12 (a) of the act.[26]

---

[11] For a discussion of the exclusionary clause in section 3 (i) of the act, see Powell et al. v. United States Cartridge Co., 70 S. Ct. 755.

[12] The remaining portion of section 3 (j) provides: "• • • and for the purposes of this act an employee shall be deemed to have been engaged in the production of goods if such employee was employed in producing, manufacturing, mining, handling, transporting, or in any other manner working on such goods, or in any closely related process or occupation directly essential to the production thereof, in any State."

[13] See footnote 12.

[14] See Part 776 of this title (Interpretative Bulletin on the coverage of the wage and hours provisions) issued by the Administrator of the Wage and Hour Division. Also, see §§ 4.112 and 4.113.

[15] For a more complete discussion of these words, see § 776.16 of Part 776 (bulletin on coverage of the wage and hours provisions) of Chapter V of this title.

[16] In Western Union Telegraph Co. v. Lenroot, 323 U. S. 490, the Supreme Court stated that these words bring within the statutory definition "every step in putting the subject of commerce in a state to enter commerce," including "all steps, whether manufacture or not, which lead to readiness for putting goods into the stream of commerce," and "every kind of incidental operation preparatory to putting goods into the stream of commerce."

[17] Lenroot v. Kemp and Lenroot v. Hazlehurst Mercantile Co., 153 F. 2d 153 (C. A. 5), where the court directed issuance of injunctions to restrain violations of the child labor provisions by operators of vegetable packing sheds at which they bought, then washed, sorted, crated, and packed cabbage and tomatoes for shipment in interstate commerce.

[18] Western Union Telegraph Co. v. Lenroot, 323 U. S. 490.

[19] A. H. Phillips, Inc. v. Walling, 324 U. S. 490. See Part 779 (bulletin on the retail and service establishment exemption from the wage and hours provisions) of Chapter V of this title.

[20] See Part 776 (bulletin on coverage of the wage and hours provisions) of this title.

[21] However, section 12 (a) contains a provision relieving innocent purchasers from liability thereunder provided certain conditions are met. For a discussion of this provision, see § 4.125.

Also, section 15 (a) (1) relieves any common carrier from liability under the act for the transportation in commerce in the regular course of its business of any goods not produced by such common carrier.

[22] For a discussion of the meaning of "establishment," see § 4.109.

[23] Pub. Law 393, 81st Cong., 1st sess. (63 Stat. 910). These amendments became effective on January 25, 1950.

[24] "Oppressive child labor" is discussed in §§ 4.117 to 4.121, inclusive.

[25] For a more detailed discussion, see Part 787 (bulletin on employment issued by the Administrator of the Wage and Hour Division) of this title.

[26] See § 4.116.

JOINT AND SEPARATE APPLICABILITY OF SECTIONS 12 (A) AND 12 (C)

§ 4.114 *General.* It should be noted that section 12 (a) does not directly outlaw the employment of oppressive child labor. Instead, it prohibits the shipment or delivery for shipment in interstate or foreign commerce of goods produced in an establishment where oppressive child labor has been employed within 30 days before removal of the goods. Section 12 (c), on the other hand, is a direct prohibition against the employment of oppressive child labor in commerce, or in the production of goods for commerce. Morever, the two subsections provide different methods for determining the employees who are covered thereby. Thus, subsection (a) may be said to apply to young workers on an "establishment" basis. If the standards for child labor are not observed in the employment of minors in or about an establishment where goods are produced and from which such goods are removed within the statutory 30-day period, it becomes unlawful for any producer, manufacturer, or dealer (other than an innocent purchaser who is in compliance with the requirements for a good faith defense as provided in the subsection) to ship or deliver those goods for shipment in commerce. It is not necessary for the minor himself to have been employed by the producer of such goods or in their production in order for the ban to apply. On the other hand, whether the employment of a particular minor below the applicable age standard will subject his employer to the prohibition of subsection (c) is dependent upon the minor himself being employed in commerce or in the production of goods for commerce, within the meaning of the act. If such a minor is so employed by his employer and is not specifically exempt from the child labor provisions then his employment under such circumstances constitutes a violation of section 12 (c) regardless of where he may be employed or what his employer may do. Moreover, a violation of section 12 (c) occurs under the foregoing circumstances without regard to whether there is a "removal" of goods or a shipment or delivery for shipment in commerce.

§ 4.115 *Joint applicability.* The child labor coverage provisions contained in sections 12 (a) and 12 (c) of the act may be jointly applicable in certain situations. For example, a manufacturer of women's dresses who ships them in interstate commerce, employs a minor under 16 years of age who gathers and bundles scraps of material in the cutting room of the plant. Since the employment of the minor under such circumstances constitutes oppressive child labor and involves the production of goods for commerce, the direct prohibition of section 12 (c) is applicable to the case. In addition, section 12 (a) also applies to the manufacturer if the dresses are removed from the establishment during the course of the minor's employment or within 30 days thereafter. To illustrate further, suppose that a transportation company employs a 17-year-old boy as helper on a truck used for hauling materials between railroads and the plants of its customers who are engaged in producing goods for shipment in commerce. The employment of the minor as helper on a truck is oppressive child labor because such occupation has been declared particularly hazardous by the Secretary for children between 16 and 18 years of age. Since his occupation involves the transportation of goods which are moving in interstate commerce, his employment in such occupation by the transportation company is, therefore, directly prohibited by the terms of section 12 (c). If the minor's duties in this case should, for example, include loading and unloading the truck at the establishments of the customers of his employer, then the provisions of section 12 (a) might be applicable with respect to such customers. This would be true where any goods which they produce and ship in commerce are removed from the producing establishment within 30 days after the minor's employment there.

§ 4.116 *Separate applicability.* There are situations where section 12 (c) does not apply because the minor himself is not considered employed in commerce or in the production of goods for commerce. This does not exclude the possibility of coverage under the provisions of section 12 (a), however. Thus, the employment of a minor by a local window-cleaning company to wash the windows of a factory producing goods for shipment in commerce is not subject to section 12 (c) because the work performed by the minor is not closely related and directly essential to production. However, the prohibition contained in section 12 (a) would apply in such a situation to shipments from the factory of goods removed within the statutory 30-day period provided, of course, the minor was below the applicable age minimum. In those cases where oppressive child labor is employed in commerce but not in or about a producing establishment, coverage exists under section 12 (c) but not under the provisions of section 12 (a). The employment of telegraph messengers under 16 years of age would normally involve this type of situation.[27] There may also be cases where oppressive child labor is employed in occupations closely related and directly essential to the production of goods in a separate establishment and therefore covered by section 12 (c) but due to the fact that none of the goods produced in the establishment where the minors work are ever shipped or delivered for shipment in commerce either in the same form or as a part or ingredient of other goods, coverage of section 12 (a) is lacking. An illustration of this type of situation would be the employment of a minor under the applicable age minimum in a plant engaged in the production of electricity which is sold and consumed exclusively within the same State and some of which is used by establishments in the production of goods for commerce.

OPPRESSIVE CHILD LABOR

§ 4.117 *General.* (a) Section 3 (l) of the act defines "oppressive child labor" as follows:

"Oppressive child labor" means a condition of employment under which (1) any employee under the age of sixteen years is employed by an employer (other than a parent or a person standing in place a parent employing his own child or a child in his custody under the age of sixteen years in an occupation other than manufacturing or mining or an occupation found by the Secretary of Labor to be particularly hazardous for the employment of children between the ages of sixteen and eighteen years or detrimental to their health or well-being) in any occupation, or (2) any employee between the ages of sixteen and eighteen years is employed by an employer in any occupation which the Secretary of Labor shall find and by order declare to be particularly hazardous for the employment of children between such ages or detrimental to their health or well-being, but oppressive child labor shall not be deemed to exist by virtue of the employment in any occupation of any person with respect to whom the employer shall have on file an unexpired certificate issued and held pursuant to regulations of the Secretary of Labor certifying that such person is above the oppressive child labor age. The Secretary of Labor shall provide by regulation or by order that the employment of employees between the ages of fourteen and sixteen years in occupations other than manufacturing and mining shall not be deemed to constitute oppressive child labor if and to the extent that the Secretary of Labor determines that such employment is confined to periods which will not interfere with their schooling and to conditions which will not interfere with their health and well-being.

(b) It will be noted that the term includes generally the employment of young workers under the age of 16 years in any occupation. In addition, the term includes employment of minors 16 and 17 years of age by an employer in any occupation which the Secretary finds and declares to be particularly hazardous for the employment of children of such ages or detrimental to their health or well-being. Authority is also given the Secretary to issue orders or regulations permitting the employment of children 14 and 15 years of age in nonmanufacturing and nonmining occupations where he determines that such employment is confined to periods which will not interfere with their schooling and to conditions which will not interfere with their health and well-being. The subsection further provides for the issuance of age certificates pursuant to regulations of the Secretary which will protect an employer from unwitting employment of oppressive child labor.

§ 4.118 *Sixteen-year minimum.* The act sets a 16-year age minimum for employment in manufacturing or mining occupations. Furthermore, this age minimum is applicable to employment in all other occupations unless otherwise provided by regulation or order issued by the Secretary.

§ 4.119 *Fourteen-year minimum.* With respect to employment in occupations other than manufacturing and mining, the Secretary is authorized to

[27] In Western Union Telegraph Co. v. Lenroot, 323 U. S. 490, the court held section 12 (a) inapplicable to Western Union on the grounds that the company does not "produce" or "ship" goods within the meaning of that subsection.

issue regulations or orders lowering the age minimum to 14 years where he finds that such employment is confined to periods which will not interfere with the minors' schooling and to conditions which will not interfere with their health and well-being. Pursuant to this authority, the Secretary permits the employment of 14- and 15-year-old children in a limited number of occupations where the work is performed outside school hours and is confined to other specified limits. Under the provisions of Child Labor Regulation No. 3, as amended,[28] employment of minors in this age group is not permitted in the following occupations: (a) Manufacturing, mining, or processing occupations; (b) occupations requiring the performance of any duties in a work room or work place where goods are manufactured, mined or otherwise processed; (c) occupations involving the operation or tending of hoisting apparatus or of any power-driven machinery other than office machines; (d) public messenger service; (e) occupations declared to be particularly hazardous or detrimental to health or well-being by the Secretary; or (f) occupations (except office or sales work) in connection with (1) transportation of persons or property by rail, highway, air, water, pipeline, or other means; (2) warehousing and storage; (3) communications and public utilities; and (4) construction (including demolition and repair). The exception permitting office and sales work performed in connection with the occupations specified in (f) above does not apply if such work is performed on trains or any other media of transportation or at the actual site of construction operations. Employment of fourteen- and fifteen-year-olds in all occupations other than the foregoing is permitted by the Regulation, if the following conditions are observed: (1) employment only outside school hours and between the hours of 7 a. m. and 7 p. m.; (2) employment for not more than 3 hours a day nor more than 18 hours a week when school is in session; and, (3) employment for not more than 8 hours a day nor more than 40 hours a week when school is not in session. The employment of minors under 14 years of age is not permissible, under any circumstances if the employment is covered by the child labor provisions and not specifically exempt.

§ 4.120 *Eighteen-year minimum.* To protect young workers from hazardous employment, the act provides for a minimum age of 18 years in occupations found and declared by the Secretary to be particularly hazardous or detrimental to health or well-being for minors 16 and 17 years of age. Hazardous-occupations orders are the means through which occupations are declared to be particularly hazardous for minors. They are issued after public hearing and advice from committees composed of representatives of employers and employees of the industry and the public and in accordance with procedure established in Child Labor Regulation No. 5.[29] The effect of these orders is to raise the minimum age for employment to 18 years in the occupations covered. Seven orders[30] have thus far been issued under the act and are now in effect. In general, they cover:

No. 1. Occupations in or about plants manufacturing explosives or articles containing explosive components.

No. 2. Occupations of motor-vehicle driver and helper.

No. 3. Coal-mine occupations.

No. 4. Logging occupations and occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill.

No. 5. Occupations involved in the operation of power-driven woodworking machines.

No. 6. Occupations involving exposure to radioactive substances.

No. 7. Occupations involved in the operation of power-driven hoisting apparatus.

§ 4.121 *Age certificates.* (a) To protect an employer from unwitting violation of the minimum age standards, it is provided in section 3 (l) (2) of the act that "oppressive child labor shall not be deemed to exist by virtue of the employment in any occupation of any person with respect to whom the employer shall have on file an unexpired certificate issued and held pursuant to regulations of the Secretary of Labor certifying that such person is above the oppressive child labor age." An age certificate is a statement of a minor's age issued under regulations of the Secretary (Child Labor Regulation No. 1),[31] based on the best available documentary evidence of age, and carrying the signatures of the minor and the issuing officer. Its purpose is to furnish an employer with reliable proof of the age of a minor employee in order that he may, as specifically provided by the act, protect himself against unintentional violation of the child labor provisions. Pursuant to the regulations of the Secretary, State employment or age certificates are accepted as proof of age in 44 States, the District of Columbia, Hawaii, and Puerto Rico, and Federal certificates of age in Idaho, Mississippi, South Carolina and Texas. If there is a possibility that the minor whom he intends to employ is below the applicable age minimum for the occupation in which he is to be employed, the employer should obtain an age certificate for him.

(b) It should be noted that the age certificate furnishes protection to the employer as provided by the act only if it shows the minor to be above the minimum age applicable thereunder to the occupation in which he is employed. Thus, a State certificate which shows a minor's age to be above the minimum required by State law for the occupation in which he is employed does not protect his employer for purposes of the Fair Labor Standards Act unless the age shown on such certificate is also above the minimum provided under that act for such occupation.

EXEMPTIONS

§ 4.122 *General.* Specific exemptions from the child labor requirements of the act are provided for (a) employment of children in agriculture outside of school hours for the school district where they live while so employed; (b) employment of employees engaged in the delivery of newspapers to the consumer; (c) employment of children as actors or performers in motion pictures or in theatrical, radio, or television productions; and (d) employment by a parent or a person standing in a parent's place of his own child or a child in his custody under the age of sixteen years in any occupation other than the following: (1) Manufacturing, (2) mining, (3) an occupation found by the Secretary to be particularly hazardous for the employment of children between the ages of sixteen and eighteen years or detrimental to their health or well-being. In his interpretations of these provisions, the Secretary will be guided by the principle that such exemptions should be narrowly construed and their application limited to those employees who are plainly and unmistakably within their terms. Thus, the fact that a child's occupation involves the performance of work which is considered exempt from the child labor provisions will not relieve his employer from the requirements of section 12 (c) or the producer, manufacturer, or dealer from the requirements of section 12 (a) if, during the course of his employment, the child spends any part of his time doing work which is covered but not so exempt.

§ 4.123 *Agriculture.* (a) Section 13 (c) of the act provides an exemption from the child labor provisions for "any employee employed in agriculture outside of school hours for the school district where such employee is living while he is so employed." This is the only exemption from the child labor provisions relating to agriculture or the products of agriculture. The various agricultural exemptions provided by sections 7 (b) (3), 7 (c), 13 (a) (6), 13 (a) (10) and 13 (b) (5) from all or part of the minimum wage and overtime pay requirements are not applicable to the child labor provisions. This exemption, it will be noted, is limited to periods outside of school hours in contrast to the complete exemption for employment in "agriculture" under the wage and hours provisions. Under the original act, the exemption became operative whenever the applicable State law did not require the minor to attend school. The legislative history clearly indicates that in amending this provision, Congress sought to establish a clearer and simpler test for permissive employment which could be applied without the necessity of exploring State legal requirements regarding school attendance in the particular State. It recognized that the original provision fell short of achieving the objective of permitting agricultural work only so long as it did not infringe upon the opportunity of children for education. By recasting the exemption on an "outside of school hours" basis, Congress intended to provide a test which could be more effectively applied toward carrying out this purpose.

(b) The applicability of the exemption to employment in agriculture as defined

[28] Subpart C of this part.

[29] Subpart D of this part.

[30] Subpart E of this part.

[31] Subpart A of this part.

in section 3 (f) [32] of the act depends in general upon whether such employment conflicts with school hours for the locality where the child lives. Since the phrase "school hours" is not defined in the act, it must be given the meaning that it has in ordinary speech. Moreover, it will be noted that the statute speaks of school hours "for the school district" rather than for the individual child. Thus, the provision does not depend for its application upon the individual student's requirements for attendance at school. For example, if an individual student is excused from his studies for a day or a part of a day by the superintendent or the school board, the exemption would not apply if school was in session then. "Outside of school hours" generally may be said to refer to such periods as before or after school hours, holidays, summer vacation, Sundays, or any other days on which the school for the district in which the minor lives does not assemble. Since "school hours for the school district" do not apply to minors who have graduated from high school, the entire year would be considered "outside of school hours" and, therefore, their employment in agriculture would be permitted at any time.

(c) Attention is directed to the fact that by virtue of the parental exemption provided in section 3 (l) of the act, children under 16 years of age are permitted to work for their parents on their parents' farms at any time provided they are not employed in a manufacturing or mining occupation.

(d) The orders (Subpart E of this part) declaring certain occupations to be particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being do not apply to employment in agriculture, pending study as to the hazardous or detrimental nature of occupations in agriculture.[33]

§ 4.124 *Delivery of newspapers.* Section 13 (d) of the act provides an exemption from the child labor as well as the wage and hours provisions for employees engaged in the delivery of newspapers to the consumer. This provision applies to carriers engaged in making deliveries to the homes of subscribers or other consumers of newspapers (including shopping news). It also includes employees engaged in the street sale or delivery of newspapers to the consumer. However, employees engaged in hauling newspapers to drop stations, distributing centers, newsstands, etc., do not come within the exemption because they do not deliver to the consumer.

§ 4.125 *Actors and performers.* Section 13 (c) of the act provides an exemption from the child labor provisions for "any child employed as an actor or performer in motion pictures or theatrical productions, or in radio or television productions." The term "performer" used in this provision is obviously more inclusive than the term "actor." In regulations issued pursuant to section 7 (d) (3) of the act, the Administrator of the Wage and Hour Division has defined a "performer" on radio and television programs for purposes of that section.[34] The Secretary will follow this definition in determining whether a child is employed as a "* * * performer * * * in radio or television productions" for purposes of this exemption. Moreover, in many situations the definition will be helpful in determining whether a child qualifies as a "* * * performer in motion pictures or theatrical productions * * *" within the meaning of the exemption.

§ 4.126 *Parental exemption.* By the parenthetical phrase included in section 3 (l) (1) of the act, a parent or a person standing in place of a parent may employ his own child or a child in his custody under the age of 16 years in any occupation other than the following: (a) Manufacturing; (b) mining; (c) an occupation found by the Secretary to be particularly hazardous or detrimental to health or well-being for children between the ages of 16 and 18 years. This exemption may apply only in those cases where the child is exclusively employed by his parent or a person standing in his parents' place. Thus, where a child assists his father in performing work for the latter's employer and the child is considered to be employed both by his father and his father's employer, the parental exemption would not be applicable. The words "parent" or a "person standing place of a parent" include natural parents, or any other person, where the relationship between that person and a child is such that the person may be said to stand in place of a parent. For example, one who takes a child into his home and treats it as a member of his own family, educating and supporting the child as if it were his own, is generally said to stand to the child in place of a parent. It should further be noted that occupations found by the Secretary to be hazardous or detrimental to health or well-being for children between 16 and 18 years of age, as well as manufacturing and mining occupations, are specifically excluded from the scope of the exemption.

ENFORCEMENT

§ 4.127 *General.* Section 15 (a) (4) of the act makes any violation of the provisions of sections 12 (a) or 12 (c) unlawful. Any such unlawful act or practice may be enjoined by the United States District Courts under section 17 upon court action, filed by the Secretary pursuant to section 12 (b) and, if willful will subject the offender to the criminal penalties provided in section 16 (a) of the act.[35]

§ 4.128 *Good faith defense.* A provision is contained in section 12 (a) of the act relieving any purchaser from liability thereunder who ships or delivers for shipment in commerce goods which he acquired in good faith in reliance on written assurance from the producer, manufacturer, or dealer that the goods were produced in compliance with section 12, and which he acquired for value without notice of any violation.[36]

§ 4.129 *Relation to other laws.* Section 18 provides, in part, that "no provision of this act relating to the employment of child labor shall justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established under this act." The child labor requirements of the Fair Labor Standards Act, as amended, must be complied with as to the employment of minors within their general coverage and not excepted from their operation by special provision of the act itself regardless of any State, local, or other Federal law that may be applicable to the same employment. Furthermore, any administrative action pursuant to other laws, such as the issuance of a work permit to a minor or the referral by an employment agency of a minor to an employer does not necessarily relieve a person of liability under this act. Where such other legislation is applicable and does not contravene the requirements of the Fair Labor Standards Act, however, nothing in the act, the regulations or the interpretations announced by the Secretary should be taken to override or nullify the provisions of these laws. Although compliance with other applicable legislation does not constitute compliance with the act unless the requirements of the act are thereby met, compliance with the act, on the other hand, does not relieve any person of liability under other laws that establish higher child labor standards than those prescribed by or pursuant to the act. Moreover, such laws, if at all applicable, continue to apply to the employment of all minors who either are not within the general coverage of the child labor provisions of the act or who are specifically excepted from their requirements.

Signed at Washington, D. C., this 16th day of July 1951.

MAURICE J. TOBIN,
Secretary of Labor.

[F. R. Doc. 51-8366; Filed, July 19, 1951; 8:56 a. m.]

---

[32] "Agriculture" as defined in section 3 (f) includes "farming in all its branches and among other things includes the cultivation and tillage of the soil, dairying, the production, cultivation, growing, and harvesting of any agricultural or horticultural commodities (including commodities defined as agricultural commodities in section 15 (g) of the Agricultural Marketing Act, as amended), the raising of livestock, bees, fur-bearing animals, or poultry, and any practices (including any forestry, or lumbering operations) performed by a farmer or on a farm as an incident to or in conjunction with such farming operations, including preparation for market, delivery to storage or to market or to carriers for transportation to market."

[33] See note, Subpart E of this part.

[34] Section 550.2 (b) of this title provides:

(b) The term "performer" shall mean a person who performs a distinctive, personalized service as a part of an actual broadcast or telecast including an actor, singer, dancer, musician, comedian, or any person who entertains, affords amusement to, or occupies the interest of a radio or television audience by acting, singing, dancing, reading, narrating, performing feats of skill, or announcing, or describing or relating facts, events and other matters of interest, and who actively participates in such capacity in the actual presentation of a radio or television program. It shall not include such persons as script writers, stand-ins, or directors who are neither seen nor heard by the radio or television audience; nor shall it include persons who participate in the broadcast or telecast purely as technicians such as engineers, electricians and stage hands;

[35] Section 16 (a) provides:

Any person who willfully violates any of the provisions of section 15 shall upon conviction thereof be subject to a fine of not more than $10,000, or to imprisonment for not more than six months, or both. No person shall be imprisoned under this subsection except for an offense committed after the conviction of such person for a prior offense under this subsection.

[36] For a complete discussion of this subject see Part 789 of this title, General Statement on the Provisions of section 12 (a) and section 15 (a) (1) of the Fair Labor Standards Act, as amended, relating to Written Assurances.

Chapter V—Wage and Hour Division, Department of Labor

PART 526—INDUSTRIES OF A SEASONAL NATURE

CANE SUGAR INDUSTRY IN LOUISIANA

In the matter of the application to include the extraction and processing of calcium aconitate within that portion of the cane sugar industry which is located in Louisiana and which has been determined to be of a seasonal nature pursuant to section 7 (b) (3) of the Fair Labor Standards Act.

On June 30, 1951, notice was published in the FEDERAL REGISTER (16 F. R. 6403) that the authorized representative of the Administrator of the Wage and Hour Division designated to hear and consider this matter had granted a petition to amend the seasonal industry determination for that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana so as to include within such industry the extraction and processing of calcium aconitate from "B" molasses.

The notice provided that any person aggrieved by the said determination could, within 15 days after the date of publication of the notice in the FEDERAL REGISTER, file a petition with the Administrator requesting that he review the action of the authorized representative upon the record of the hearing. No petition for review has been filed and in accordance with § 526.7 of the regulations contained in this part, the findings and determination of the authorized representative have become final. Accordingly, effective August 20, 1951, the seasonal industry determination of November 16, 1939 (4 F. R. 4615) for that portion of the cane sugar processing and milling branch of the cane sugar industry which is located in Louisiana, as amended July 13, 1944 (9 F. R. 8175) and as further amended September 7, 1945 (10 F. R. 11643) will apply to the extraction and processing of calcium aconitate from "B" molasses, in accordance with the findings and determination of the authorized representative of the Administrator, which were set out in the notice of opportunity to petition for review of June 30, 1951 (16 F. R. 6403).

Signed at Washington, D. C. this 17th day of July 1951.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 51-8365; Filed, July 19, 1951; 8:56 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 17]

COOPERATIVE REFUGES

ADDITION TO BATCHTOWN WILDLIFE REFUGE

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 237), the act of August 14, 1946 (60 Stat. 1080), and the regulations issued pursuant thereto (50 CFR Parts 18 and 22), notice is hereby given that the Director of the Fish and Wildlife Service intends to take the following action:

By virtue of Public Land Order No. 380 (12 F. R. 4597, 5487) certain lands were made available to the Department of the Interior for administration by the Fish and Wildlife Service as wildlife refuges and management areas. As a result of studies by the field representatives of the Illinois Department of Conservation and the Fish and Wildlife Service, and as a measure required for the protection of migratory birds and other wildlife, it is proposed to add certain lands to the area designated as Batchtown Wildlife Refuge on October 6, 1947 (12 F. R. 6597), and to prohibit hunting and trapping thereon, which additional lands comprise all of the Federally owned lands in Illinois, in sections 30 and 31, T. 10 S., R. 2 W., and sections 13, 14, 24, 25 and 36, including the offshore islands adjacent thereto in T. 10 S., R. 3 W., 4th principal meridian, in Calhoun County, Illinois. When these lands are added to the Batchtown Wildlife Refuge, they will be administered under the regulations contained in Part 22 of Title 50, Wildlife, Code of Federal Regulations.

The foregoing description is to be effective beginning September 1, 1951, and to continue in effect until further notice.

Interested persons are hereby given an opportunity to submit their views, data, or arguments with respect to this designation in writing to Albert M. Day, Director, Fish and Wildlife Service, Washington, D. C.

O. H. JOHNSON,
Acting Director.

JULY 13, 1951.

[F. R. Doc. 51-8312; Filed, July 19, 1951; 8:45 a. m.]

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

HUGH W. FORD LIVESTOCK COMMISSION CO.

PROPOSED POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Hugh W. Ford Livestock Commission Company, LaJunta, Colorado, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 17th day of July 1951.

[SEAL] H. E. REED,
Director, Livestock Branch,
Production and Marketing Administration.

[F. R. Doc. 51-8415; Filed, July 19, 1951; 9:03 a. m.]

[7 CFR Part 934]

[Docket No. Ao 23-A 16]

HANDLING OF MILK IN LOWELL-LAWRENCE, MASS., MARKETING AREA

RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER AS AMENDED.

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Andover, Massachusetts, on April 11, 1951, and April 14, 1951 (16 F. R. 2517)

upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area. Interested parties may file written exception to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in the FEDERAL REGISTER. Exception should be filed in quadruplicate.

The material issues presented on the record of the hearing were whether:

1. The marketing area should be extended to include the city of Haverhill and the towns of Groveland, Merrimac, and West Newberry, Massachusetts.

2. Certain changes should be made in sequence of assignment with reference to milk received from country plants in consumer packages for Class I use.

3. Any changes made in the basis of determining the Class II price and the butterfat differential under the Boston order should be incorporated in the Lowell-Lawrence order.

4. The present city plant price for Class II milk should be revised.

5. A method for computing a composite wage index for use in the Class I formula should be provided.

6. Present location differentials paid to nearby producers should be eliminated.

7. Required payments on outside milk should be eliminated under certain circumstances.

8. Disposition from one city plant to another city plant shall be considered as a disposition of Class I milk for purposes of determining the volume of Class I disposition in the marketing area.

9. The requirement that milk moved by buyer-handlers to other plants be classified as Class I should be revised.

10. Credits should be granted for payments made by handlers to the Boston pool in computation of the pool handlers' obligation.

11. The pooling provisions should be revised to exclude from the current pool computation milk of any nonpool handler in noncompliance with reference to the payment and reporting provisions.

12. Certain other nonsubstantive changes should be made to delete obsolete language and to make language of the Lowell-Lawrence order conform with that of the Boston and other secondary market orders.

Findings and conclusions. From the evidence introduced at the hearing and the record thereof with respect to the aforementioned issues, it is hereby found and concluded that:

1. The present limits of the Lowell-Lawrence marketing area should be extended to include the city of Haverhill and the towns of Groveland, Merrimac, and West Newbury, all in the State of Massachusetts. This area, constituting what is commonly referred to as the Haverhill market lies adjacent to the present northeastern boundary of the Lowell-Lawrence marketing area and is supplied by dairy farmers from the same general supply area as Lowell and Lawrence. At the present time the Haverhill market operates as an individual handler pool under prices established by the Massachusetts State Milk Control Board. The utilization of the several handlers in the market varies substantially resulting, under the individual handler pool, in wide discrepancies in producer prices. The market has very limited facilities for handling surplus milk with the result that the bulk of the local surplus is handled through the New England Milk Producers' Association plant at Andover, largely as outside milk under the Lowell-Lawrence order. While certain Haverhill distributors, who would be handlers under the proposed extension, contend that there is no relationship between the two markets and that they have no surplus disposal problem, the record shows that these particular handlers actually operate on a short supply basis, depending on Lowell-Lawrence handlers for supplementary supplies as needed to their their market requirements.

The proposal to include the Haverhill marketing area as a part of the Lowell-Lawrence marketing area was made by the New England Milk Producers' Association whose membership includes a majority of the producers in the Haverhill market. The extension of the marketing area would have little effect on present Lowell-Lawrence producers since the high average utilization of Haverhill handlers will tend to offset the cost of any location differentials which would be required to be paid to nearby Haverhill producers. While class prices in the two markets presently maintain a very close relationship, Haverhill producers will be assured of uniform prices, and greater market stability under a market-wide pool. By inclusion in the same market pool, transfers from Haverhill plants to Lowell-Lawrence pool plants would be permitted as receipts from regulated plants rather than as outside milk which can be received by Lowell-Lawrence handlers at the present time only as Class II milk or at a credit representing the Class II price.

(2) The proposal to amend the assignment provisions to provide that receipts of fluid milk products, other than cream and skim milk, at a city plant from a country plant, in containers of 8 quarts or less, be assigned to Class I ahead of receipts at the city plant direct from producers should not be adopted. Under the present provisions receipts from a country pool plant of another handler are assigned after receipts of producer milk and outside milk at the city plant. Manchester Dairy System, Inc., operator of a country plant, contends that this assignment sequence places an unreasonable burden on them in that it results in a Class II assignment to some milk which they dispose of in the form of fluid milk products in bottled form as Class I milk to city handlers, who in turn dispose of such milk as Class I milk direct to consumers in the marketing area.

Manchester Dairy System, Inc. does a substantial business with certain city handlers in the form of homogenized milk, fluid milk products in paper containers, and other Class I specialty items. Because these city handlers receive more milk at the city plants direct from producers than they dispose of in Class I, exclusive of purchases from Manchester Dairy System, Inc., some of the milk so purchased from Manchester is ultimately classified as Class II. Accordingly, there results numerous adjustments in billings between the cooperative and its customers, revisions in handlers' reports, and audit adjustment billings to the cooperative which must be passed on to city plant handlers.

The order provisions place no restrictions on Manchester Dairy System, Inc. with reference to resale prices. The homogenizing and bottling which they do for certain city plant handlers represents a service for which Manchester charges these city plant handlers. The proposal made by Manchester Dairies deals primarily with the question of the assignment sequence for milk received from country plants. The present assignment provisions are designed to discourage city plants from receiving Class I milk from country plants when milk is available at the city plant. A special treatment for Manchester Dairy System in its capacity as a country plant would obstruct this principle. To the extent that the problems of Manchester Dairy System relate to the difference between the city and country Class II prices, they are further considered under the discussion on the proposal to raise the Class II price.

(3) The proposal to make such changes in the Class II pricing provisions as are necessary to maintain the present relationship between the Lowell-Lawrence and Boston Class II prices should be adopted. The present basis of Class II pricing was established in recognition of the necessity of maintaining a direct relationship with prices under the Boston order and of having the Lowell-Lawrence Class II price move with the price of milk for similar use in the Boston market. For the same reasons that the present relationship was established it is essential that any changes made in the Boston Class II pricing be reflected in the Lowell-Lawrence Class II pricing. Similarly the basis for determining the butterfat differential in the Lowell-Lawrence market has been the same as that used in other Federal orders effective in the New England regions. Accordingly, in the computation of the butterfat differential the weight per can of 40 percent cream should be considered 33 pounds, rather than the 33.48 pounds presently used. Certain producers interests proposed that in the computation of the butterfat differential the 1.5 cents transportation allowance be deleted. They contend that the factor represents a freight adjustment and since in the secondary markets the bulk of the milk is received at the city plants no allowance is justified. However, there is also a substantial portion of the total producer milk received at country plants. There appear to be certain advantages to maintaining one butterfat differential for all locations but whether it should be determined with or without

the 1.5 cent factor is not clear from this record.

The evidence in the record on this point is not conclusive. Accordingly no further changes can be considered on the basis of this record.

(4) The proposal for a 32-cent increase in the price of Class II milk delivered direct to city plants and utilized in the manufacture of products other than nonfat dry milk solids, condensed milk, and casein should not be adopted. Proponents claim that they are at a disadvantage in marketing Class II milk in the form of milk at city points because other handlers have Class II milk delivered directly to their city plants at a Class II price which is not as high as the country plant Class II prices plus the cost of shipping milk. The Class II price has been established at a level at both country and city points which should insure the acceptance of Class II milk by handlers even though a part of such milk must be disposed of in manufactured dairy products. If the proposed increase of 32 cents in the city plant price were adopted and did result in more country plant milk being shipped to the city for disposition as Class II the outlets for Class II milk from city plants would be thereby diminished. Since the record indicates that adequate facilities are available at country locations for the disposition of Class II milk it is not necessary for country plant handlers to incur the expense of shipping surplus milk to the city.

The country plant differentials which are established under the order represent the costs of shipping milk in carloads from country plants to the marketing area. Direct receipts from producers at city plants are ordinarily made in 40-quart cans loaded in a refrigerated truck. Therefore, unless the present country plant differentials are too high in relation to actual transportation costs it is unlikely that direct receipts at city plants can be accomplished from distant locations at less than country plant price plus carload shipping cost to the city plant. If a substantial volume of producer milk were moving directly to city plants for Class II use consideration should be given to whether the present country plant differentials are high and to whether some downward adjustment in these allowances would be warranted. However, the question of country plant differentials applicable to class prices and the blend price was not an issue at the hearing and therefore that issue cannot be considered at this time.

(5) The order should provide for the computation of a composite wage rate index which would be similar to the farm wage rate index which has been utilized in the calculation of the Class I formula price since the adoption of that formula April 1, 1948. The United States Department of Agriculture is no longer collecting information from which the monthly composite wage rates were computed and that series has been discontinued. Therefore, it is necessary to compute an equivalent composite farm wage rate. Farm wage rates are recorded quarterly by the United States Department of Agriculture as rates per month with board and room, per month with house, per week with board and room, per week without room or board, and per day without board or room. These rates should be expressed as a simple average monthly composite rate by converting the weekly rates to a monthly equivalent by multiplying by 4.33 weeks and by converting the daily rate to a monthly basis by using 26 working days per month. The simple average monthly composite farm wage rates for each of the four States used in the Class I formula should be combined according to the weights expressed in the order. In order to express this weighted average farm wage rate as an index on the same basis as that used in converting the previously published monthly composite farm wage rate to an index number for computation of the formula price, it is necessary to divide the milkshed average composite wage rate figure by 0.6394. This factor is determined from the average relationship of the milkshed average wage rate figure derived from the currently published data to this series which was previously published and used in the computation of the formula price.

(6) No change should be made at this time in the location differentials required to be paid to nearby producers. Certain producers representatives proposed that § 934.64 of the order, which sets forth the conditions for and the amount of location differentials to be paid, be deleted. However, in support of their proposal they presented no material facts different from those considered in establishing the present location differentials.

(7) No change should be made in the present order provisions with reference to the equalization payments required on outside milk. Proponents proposed that the order be amended to provide that the outside milk definition be amended to exclude outside milk received when an emergency has been declared under the Boston order. It does not necessarily follow that an emergency will exist in the secondary markets at any time that there is an emergency in the Boston market. If a provision of the nature proposed were desirable it should take the form of an independent determination with specific reference to the Lowell-Lawrence market.

(8) The order presently provides that any city plant meeting the basic qualifications for pooling shall be a pool plant in only those months in which at least 10 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk in the marketing area. Since different treatment is prescribed for pool and nonpool handlers it is essential that a handler be in a position to readily determine his status as a pool handler. Since the final classification of milk transferred between handlers is dependent on the actual utilization and source of all receipts in the transferee plant, it should be provided that for the purpose of determining the pool status of the shipping plant the transfers of fluid milk products, other than cream from one city plant to another regulated city plant be considered a disposition of Class I milk in the marketing area, up to the quantity of Class I milk disposed of in the marketing area from such other plant.

(9) The proposal to revise the present order provisions which provide that milk moved by buyer-handlers to other plants be classified as Class I should not be adopted. Buyer-handlers get no milk direct from producers but purchase all of their requirements for fluid products from other handlers. Accordingly they are in a position to maintain a day to day balance between their requirements and procurement. The present order provisions do not limit purchases for Class II use in the buyer-handlers' plant but merely restrict the transfer of milk to a third plant for other than Class I use. Class II milk is defined and priced for the purpose of removing necessary excesses from the market. It appears that buyer-handlers do not need to purchase Class II milk in excess of their own use. To encourage a buyer-handler to buy long and permit free transfer to nonpool plants for Class II use could adversely affect producers by resulting in a lower classification for such milk than might otherwise be available through other outlets.

(10) Provision should be made whereby Lowell-Lawrence pool handlers' payments for milk would be reduced by any amount which they are required to pay into the Boston pool on Class I milk distributed directly to consumers in the Boston marketing area. The proximity of the Lowell-Lawrence marketing area to the Boston marketing area makes it probable that an overlapping of sales between handlers in the two marketing areas will occur. Boston handlers can presently distribute Class I milk in the Lowell-Lawrence market without any payment to the Lowell-Lawrence pool. Provisions of the Boston order result in Class I sales by Lowell-Lawrence in the Boston marketing area being credited at the Class II price even though the Lowell-Lawrence order requires payment to producers at the Class I price. Because of the manner in which such sales are handled under the Boston order Lowell-Lawrence handlers are for practical purposes precluded under present provisions from distributing milk in the Boston marketing area.

(11) The proposal to exclude from each current pool computation milk of any nonpool handler who is not in compliance with the reporting and payment provisions for any prior period should be adopted. The order presently has such a provision with reference to pool handlers in noncompliance. However, the nonpool handler in violation because of nonreporting or nonpayment of assessments due continues to be carried in the current pool computation. Under such arrangement it is possible that such indebtedness to the pool could reach the point of threatening its solvency. Exclusion of the milk of such nonpool handlers from the current pool computation assures the solvency of the settlement fund and at the same time does not relieve such nonpool handler of any of his obligations or responsibilities under the order.

(12) The other proposals considered at the hearing involve nonsubstantive

changes which would clarify the language of the present provisions. There was no opposition and it is accordingly concluded that they should be adopted.

General findings. (a) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in the said tentative marketing agreement upon which the hearings have been held; and

(c) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to section 2 and section 8 (e) of the act are not reasonable in view of the price of feed, available supplies of feed, and other economic conditions which effect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, are such as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Ruling on proposed finding and conclusions. Briefs were filed on behalf of producers, certain proprietory handlers operating in the market and the Director of Milk Control of the Massachusetts Department of Agriculture. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the brief are inconsistent with findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreement and order. The following order amending the order, as amended, is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as hereby proposed to be further amended.

1. Amend § 934.1 (b) by adding to the list of place names "Haverhill, Groveland, Merrimac, and West Newberry".

2. Delete paragraph (d) of § 934.12.

3. Renumber paragraphs (e), (f), and (g) of § 934.12 as paragraphs (d), (e), and (f), respectively.

4. Amend § 934.21 by adding a sentence as follows: "In determining whether a city plant has disposed of the required 10 percent of its receipts as Class I milk in the marketing area, the total quantity of fluid milk products, other than cream, moved from that plant to another city plant which is a regulated plant shall be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from the other plant."

5. In § 934.22 (b) delete the opening language, "Any country plant which is a pool plant continuously from the effective date of this subpart through February 1951 and any country plant which thereafter", and substitute therefor the following: "Any country plant which".

6. Amend § 934.40 (c) (2) by deleting the present language and substituting therefor the following:

(2) Compute the simple average of monthly equivalent farm wage rates for each of the States named below by converting the rates reported by the United States Department of Agriculture to monthly equivalents as follows: Rate per month with board, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and rate per day without board or room, 26. Next compute a weighted monthly wage rate by combining the average wage rates for the respective States with the weights: Maine, 10;, Massachusetts, 6; New Hampshire, 7; and Vermont, 77. Divide the weighted average monthly wage rate by 0.6394 and multiply by 0.4.

7. Delete § 934.41 and substitute therefor the following:

§ 934.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined for each month pursuant to this section.

(a) Divide by 33 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month, multiply by 0.98, and multiply the result by 3.7. If the cream price described above is not reported as indicated, an equivalent determined as follows shall be used in lieu of such cream price:

(1) Compute the simple average of the difference between the cream price reported for the latest three months and the average price for Grade A (92-score) butter at wholesale in the Chicago market as reported for the same months by the United States Department of Agriculture, times 1.22, and times 33. Then add to this amount the average of the butter prices described above multiplied by 33 and 1.22 for the current pricing month.

(b) Multiply by 7.85 the simple average of the prices per pound of roller process and spray process nonfat dry milk solids for human consumption, in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is delivered.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month.

Month:	Amount (cents)
January and February	67
March and April	79
May and June	85
July	79
August and September	73
October, November, and December	67

(d) The amount set forth in the table in paragraph (c) of this section shall be reduced by any plus amount determined as follows:

(1) Compute the simple average of the prices reported by the United States Department of Agriculture for milk for manufacturing purposes f. o. b. plants, United States, for the 12 months ending with the preceding month.

(2) Adjust the Class II prices under the Boston order for milk received at plants in the 201–210 mile zone for the preceding 12 months to the average butterfat tests for which the prices described in subparagraph (1) of this paragraph are reported by applying the butterfat differential pursuant to the Boston order and compute a simple average of such adjusted prices.

(3) Determine the amount, computed to the nearest one-half cent, by which the average determined pursuant to subparagraph (1) of this paragraph exceeds the average computed pursuant to subparagraph (2) of this paragraph: *Provided*, That this provision shall not be applicable for the first time until the plus amount determined hereby for the previous month exceeds 5 cents.

8. Amend § 934.50 by adding a new paragraph (g) as follows:

(g) Subtract any amount which the handler is required to pay on such milk pursuant to § 904.66 (b) of the Boston order.

9. Amend § 934.51 (a) by deleting the present language and substituting in lieu thereof the following:

(a) Combine into one total the respective net values of milk, computed pursuant to § 934.50, and payments required pursuant to §§ 934.65 and 934.66 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 934.61 (b), 934.65, and 934.66 for milk received during each month since the effective date of the most recent amendment to this subpart.

10. Amend § 934.52 (c) by deleting the period and adding in lieu thereof the following: "because of failure to make reports or payments pursuant to this subpart."

11. Amend § 934.63 by deleting the factor "33.43" and substituting therefor the factor "33.00".

12. Add to § 934.63 the following: "If the cream price described above is not reported as indicated an equivalent determined as follows shall be used in lieu of such cream price:

Compute the simple average of the difference between the cream price reported for the latest three months and the average price for Grade A (92-score) butter at wholesale in the Chicago market as reported for the same months by the United States Department of Agriculture, times 1.22, and times 33. Then add to this amount the average of the butter prices described above, for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, multiplied by 33 and 1.22."

Issued at Washington, D. C., this 13th day of July 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 5–8324; Filed, July 19, 1951; 8:50 a. m.]

[7 CFR Parts 943, 945]

[Docket No. AO–231]

HANDLING OF MILK IN THE NORTH TEXAS AND WICHITA FALLS, TEX., MARKETING AREAS

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND PROPOSED ORDERS

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Dallas, Texas, on January 31–February 20, 1951, pursuant to notice thereof which was issued on December 30, 1950 (15 F. R. 9522).

Upon the basis of the evidence introduced at the hearing and the record thereof the Assistant Administrator, Production and Marketing Administration, on May 11, 1951, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions thereto which was published in the FEDERAL REGISTER on May 16, 1951 (16 F. R. 4568).

The material issues of record related to

1. Whether the handling of milk produced for the marketing area(s) is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk or its products;

2. Whether marketing conditions justify the issuance of milk marketing agreement(s) or order(s);

3. The extent of the marketing area(s);

4. The proper scope of regulation;

5. The classification and allocation of milk;

6. The determination and level of class prices;

7. Payments to producers; and

8. Administrative provisions.

Findings and conclusions. The following findings and conclusions on the material issues decided herein are hereby made on the basis of the record of the hearing. In view of the findings and conclusions with respect to the extent of the marketing area and the evidence in the record, findings and conclusions with respect to other issues are included herein concerning a separate marketing agreement and order for the Wichita Falls, Texas, marketing area.

Upon the evidence adduced at the hearing and on the record thereof it is found and concluded that:

1. *Character of commerce.* The handling of milk in the North Texas marketing area is in the current of interstate commerce and directly burdens, obstructs or affects interstate commerce in the handling of milk and its products.

Substantial quantities of milk produced in other states are imported regularly each fall and winter to supply the needs of handlers in the North Texas marketing area, since local production has not for several years been sufficient at this season of the year. Shipments from Wisconsin and Missouri to Dallas and Fort Worth handlers totaled almost 5 million pounds of whole milk during 1949 and approximately 3.5 million pounds in 1950. Additional quantities of milk were received by handlers in other cities of the marketing area. In addition substantial quantities of condensed skim milk and cream are transported to the area from points outside of Texas and used in reconstitution of buttermilk and the manufacture of ice cream.

During the spring and summer flush production season milk produced for the North Texas marketing area which is surplus to the needs for fluid distribution is used in the manufacture of ice cream, butter, cheese, condensed milk and non-fat dry milk solids. The products made from this surplus milk are sold in competition with similar products manufactured in other states. Cream, condensed skim milk and non-fat dry milk solids imported from other states are also used in the production of ice cream.

Twenty-three producers whose farms are located in the State of Oklahoma supply milk to a handler whose plant is located in Paris, Texas, which is a part of the North Texas marketing area. This handler distributes fluid milk in competition with other handlers in the North Texas marketing area and also distributes fluid milk in the State of Oklahoma. In addition, this handler operates a manufacturing plant to which seasonal surpluses of milk produced for fluid distribution is transferred from his own operation and those of numerous other North Texas handlers. Ice cream mix made in part from such surplus milk is distributed in Oklahoma, Arkansas, and Louisiana, as well as Texas.

The handling of milk produced for the Wichita Falls, Texas, marketing area is also in the current of interstate commerce and directly burdens, obstructs or affects interstate commerce in the handling of milk and its products.

Milk produced in other states is imported regularly during the short production season to supplement local supplies. For reasons indicated elsewhere such imports in 1950 were less than usual, amounting to approximately 156,000 pounds. Seasonal surpluses of inspected milk are used in the manufacture of dairy products particularly as ingredients of ice cream. Ice cream made from such surplus milk is sold regularly in Oklahoma. In addition milk surplus to local needs is marketed in bulk to other Texas markets in competition with supplementary supplies from northern states.

2. *Need for an order.* Marketing conditions in the North Texas marketing area justify the issuance of a marketing agreement and order.

During and since World War II the North Texas marketing area, of which the cities of Dallas and Fort Worth represent the largest centers of urban population, has experienced a marked growth in population. As a consequence the demand for milk for fluid consumption has also increased materially. While the production of milk for fluid consumption has also increased rapidly, there is not yet sufficient locally approved milk to supply the needs of the market for fluid consumption in fall and winter months when production is seasonally low. In an effort to increase supplies of locally inspected milk Dallas and Fort Worth handlers have since 1947 expanded the area from which they buy milk. In this period they have likewise expanded their sales areas. In this period of expansion of production and sales no organized plan for the marketing of the milk supply and no satisfactory plan for establishing the prices which milk producers receive for their milk have been developed.

Milk, because of its perishability, must be delivered daily to the market as it is produced. Farmers cannot hold milk on their farms to await favorable price conditions. Because of the breeding characteristics of cows, difference in the availability of fresh feeds and changes in the weather there is a marked seasonal variation in milk production in the supply areas for the North Texas and Wichita Falls, Texas, marketing areas. Sales of milk in fluid form on the other hand are subject to much less seasonable variation than milk production. Thus even though the milk supply were inadequate to supply the market needs at some seasons of the year there would be a surplus of milk at other seasons. Such surpluses must find their way into manufactured dairy products which do not return as high a price to producers as milk disposed of in fluid form. Production of milk for fluid use in conformity with rigid sanitary requirements prevailing in the North Texas marketing area and especially to maintain a satisfactory level of supply in the fall and winter months requires substantial investment and heavy operating costs.

Orderly marketing of the milk produced for fluid consumption in a metropolitan market supplied by numerous producers requires regular and dependable methods for determining prices of milk for various uses, equality of prices for each handler according to the use made of the milk, and means whereby the price reductions resulting from any surpluses may be borne equitably among producers. There is no plan operating in the North Texas market whereby prices of milk produced for fluid consumption are established in accordance with these objectives. Practically all

handlers in the market operate on some form of "base and surplus" plan. Under each of the plans the individual handler determines the prices of butterfat differentials to be paid for "base" and "surplus" milk and the means of determining what milk shall be paid for as "base milk" and as "surplus milk." Milk producers do not participate in the price making process.

The base plans of different handlers differ from each other in several material respects. Moreover, several handlers have varied the application of their own plans from year to year and even within a single year with little or no advance notice to producers. Under all of these plans the average deliveries of a producer during some of the short production months affects at some seasons of the year the quantity of milk for which he is paid "base price." The months used by different handlers for establishing bases have varied. Some handlers have failed to notify producers in advance what months were to be the "base-setting" period or have eliminated a part of a previously announced period. The most significant differences in the buying plans of handlers have, however, been in the application of their base plans to the quantity of each producer's milk that should be paid for at the "base" or higher price and the quantity to be paid for at a lower or "surplus" price. For some handlers this has been determined solely by the base established by each producer; each producer has been paid a "base" price for all deliveries which do not exceed his established base, and a "surplus" price for all deliveries in excess of this base. For other handlers the ratio of sales to the established bases of producers has been used to increase or decrease the quantity of "base milk" for which each producer was paid. These handlers do not all use sales of the same products in determining this ratio. Some include sales of all Grade A fluid products, while others include only sales of fluid milk, and at least one handler includes less than his total sales of fluid milk because he considers that he has additional costs for certain sales.

In spite of the fact that it has been necessary for practically all handlers, particularly those located in Dallas, to import substantial quantities of milk during the base forming months, producers have frequently been paid base prices for less milk than their established bases during the succeeding spring and summer months. The extent to which this results from failure to include all sales of Grade A products as base milk, from inclusion of bases for producers who did not establish bases with the handler during the base forming months, or variations in sales by the individual handler, cannot be determined from the evidence in the record. The record does indicate, however, that the expanding character of the market has generally resulted in higher total sales by all handlers during the succeeding spring and summer months than during the base forming months. In any event, producers have no means of determining the utilization of milk by the handlers they supply, and must accept payment on whatever basis the handlers used. Payments at substantially reduced "surplus" prices by handlers for milk which producers suspect was needed for such handlers' fluid sales is one of the great sources of producer dissatisfaction in the market.

There have also been variations in the prices different handlers have paid for base milk and for surplus milk. Except that price changes are not made simultaneously by all handlers the prices that handlers of each city of the marketing area pay for base milk tend to be rather uniform, but the prices Dallas handlers pay often differ from those paid by Fort Worth handlers. Differences in base prices were particularly pronounced after February 1950. For six of the twelve months ending in February 1951 the base price paid by Fort Worth handlers exceeded that paid by Dallas handlers by amounts ranging from 25 to 45 cents per hundredweight; for five of these months the Dallas base price exceeded that of Fort Worth by amounts of 5 or 10 cents per hundredweight, and in only one month do the base prices paid by handlers of the two cities appear to have been the same. Somewhat similar comparisons may be made for prices paid by handlers in other portions of the marketing area. These handlers generally follow more closely the prices paid by Dallas handlers than those paid by Fort Worth handlers. Different butterfat differentials are also used by different handlers in paying producers.

These buying practices of handlers result in a situation where producers with identical production delivering to different handlers with identical volumes of receipts and sales receive substantial differences in their returns. The costs of milk for the same use to individual handlers have likewise differed substantially.

These buying practices are factors of inherent instability in the marketing of milk in the area. The expanding nature of the demand for milk and the lack of an adequate year-round supply of locally inspected milk have generally prevented the lack of an organized plan for equalizing costs to handlers and returns to producers from demoralizing the market. In early 1950, however, chaotic conditions occurred in the pricing of producer milk. With some prospects of an adequate year-round supply of milk following a winter season in which deficits of supply were less severe than formerly, individual Dallas handlers engaged in aggressive price competition in the resale market. Handlers changed producer prices and conditions of their base plans frequently and without advance notice to producers. One handler mailed three letters to his producers within a period of four days notifying them of changes in buying plans and prices. As a result of this "price war" Dallas producers received a reduction of $1.00 per hundredweight for their base milk. Since the net reduction in consumer prices was 2 cents per quart or approximately 93 cents per hundredweight, it is evident that price cuts at resale were largely passed back to producers in reduced returns. Fort Worth handlers did not reduce their producer prices so severely and they were at a competitive disadvantage, relative to Dallas handlers at the numerous places where both sold milk.

The conditions that occurred in the spring of 1950 are indicative of conditions that are likely to occur under present buying practices whenever an adequate supply of locally produced milk is available for the market. These conditions thus militate against achieving a continually adequate supply of milk since the disparities in costs to handlers and returns to producers inherent in the system widen as the level of the milk supply approaches the needs of the market. The pressures on individual handlers and producers associated with these disparities may be expected to result in conditions which will reduce the level of returns to some producers drastically and to all producers generally and the production of a sufficient supply of inspected milk will be hindered.

Despite the elements of instability in the market, handlers have resisted the efforts of a cooperative association representing more than 1,750 of the approximately 2,500 producers of the market to negotiate uniform buying plans for the market. The handlers have failed or refused to negotiate with the association concerning the prices and marketing conditions which should apply to milk received from members of the association and they have not permitted the association to check the weights and tests of milk delivered by its members. In some cases producers have been threatened with loss of a market for their milk if they joined the association and some association members actually have been "cut off" by handlers without explanation. Handlers have offered producers individual contracts which conflict with association membership, and in some cases have conducted systematic campaigns urging these contracts on their producers. These contracts generally continue the buying plans of the handlers, and are written to expire in the surplus season when the producer would have difficulty in finding another handler who would buy his milk. One handler who apparently did not oppose the objectives of the association testified that he is now buying milk from about half of the members of the board of directors of the association because of the difficulties these producers encountered with other handlers. This fact strongly suggests that association members and officials have been subject to coercion and intimidation by handlers.

There is considerable and well justified dissatisfaction among producers with the butterfat tests on which they are paid for their milk. While the State of Texas does some checking of the tests upon which dairy farmers in the state receive payment, it appears that only about 3500 individual tests are made annually in the entire state. The protection thus afforded cannot substitute for the regular checks which association producers desire and are willing to pay for through their association membership. Similar systematic checks by an impartial market administrator should be afforded producers who do not belong to a cooperative association.

There is need for market-wide information concerning production and sales in order that producers may plan their production and marketing programs intelligently and upon which price-making determinations may be made. Neither producers nor handlers were able to present at the hearing data which showed both production and sales for the entire market over any period of time.

The adoption of a classified price plan based on the audited utilization of handlers and market-wide pooling of returns among producers will provide respectively equal costs to handlers for milk used for like purposes and a fair division among all producers of the returns from Class I sales in the market. The inherent instability in the present buying plans operated by individual handlers will be reduced.

The issuance of a marketing agreement and order for the North Texas marketing area is needed to establish and maintain orderly marketing in the area and provide an adequate supply of milk for the area.

In view of the conclusion contained herein with reference to the extent of the North Texas marketing area and the separate and extensive evidence concerning marketing conditions in the area including Wichita Falls, Texas, which was proposed for inclusion in the North Texas marketing area, consideration has been given to the need for separate regulation for the Wichita Falls marketing area. It is concluded that marketing conditions in the Wichita Falls, Texas, marketing area justify the issuance of a marketing agreement or order.

The history and marketing relationships of the North Texas market are similar to the history and marketing relationships in the Wichita Falls market. Buying practices of handlers have been on "base" plans which provide differing returns to producers similarly situated. With fewer handlers these differences have not been quite so marked. The trend of events has however been more rapid. Milk production increased nearly 69 percent from 1947 to 1950. Deficits were still in prospect, however, when producers were establishing bases in the fall of 1949. Thereafter the situation changed from deficit to surplus very quickly. An Army Air Force Base, Sheppard Field, lies adjacent to Wichita Falls, and the volume of milk involved in the contract for supplying this base is substantial in relation to the quantity of milk produced for the Wichita Falls market. A Dallas handler was the successful bidder for the contract to supply this base beginning January 1, 1950. As a result producers were paid surplus prices for some of their milk during their base forming periods, followed shortly by reductions in base prices to producers, which were, however, not so drastic as those that occurred in Dallas. Following this event a cooperative association of producers was formed with a membership representing a substantial majority of the approximately 175 producers of the market. The cooperative's attempt to negotiate with handlers was principally directed toward handling surplus milk so as to realize the most advantageous market and insure that no milk paid for at surplus prices was needed for fluid use. When no satisfactory agreement on these matters was reached in early May 1950 the association called a "milk strike" and its members withdrew all of their milk. At this period of flush production handlers were able to supply their needs from other sources, and milk deliveries were resumed on a verbal agreement that association producers would be restored to the same status as before the incident. This, however, did not materialize; handlers reserved for producers who continued deliveries during the "strike" period bases equal to their deliveries during this period of flush production and as a result the association producers bore the entire burden of surplus milk until September 1950. Since September 1950 this discrimination in payments to producers has ceased but the association has been unable to obtain any definite assurance that cooperative members were to receive bases on an equal footing with nonmember producers. To some extent these negotiations have been complicated by the acquisition by the association of a receiving station which it now operates for some of its members and from which milk is currently sold to one handler.

Negotiations were continuing concerning these problems at the date of the hearing. The fact remains that no uniform buying plan for the market has evolved therefrom and it is unlikely that one will result from any continuation of the negotiations. The adoption of a uniform classified price plan and a market-wide pool will provide a fair division among all producers of the fluid sales of the market. The issuance of a marketing agreement and order for the Wichita Falls, Texas, marketing area is needed to establish and maintain orderly marketing in the area.

3. *Extent of the marketing areas.* The North Texas marketing area should be defined to include all territory within the counties of Cooke, Collin, Dallas, Delta, Denton, Ellis, Fannin, Grayson, Hopkins, Hunt, Johnson, Kaufman, Lamar, Parker, Rockwall and Tarrant, all in the State of Texas. All municipal corporations, Federal military reservations, facilities and installations and State institutions located in these counties should be included.

The major fluid milk markets in the North Texas marketing area are the cities of Dallas and Fort Worth. Dallas and Fort Worth handlers sell milk over a wide area beyond the limits of these cities. In recent years, they have expanded their sales areas to include most of the smaller cities and towns within a considerable distance of Dallas and Fort Worth. The advent of the paper milk carton has accelerated this distribution of milk.

As Dallas and Fort Worth handlers have reached further from Dallas and Fort Worth for milk supplies, they have extended their distribution routes to cover smaller cities and towns in the expanded production area. As a consequence they compete actively for both milk supplies and milk sales with each other and with handlers in smaller cities and towns over much of the production area. Some handlers located in the smaller cities also distribute milk in other cities in competition with Dallas and Fort Worth handlers. A handler in Paris, Lamar County, Texas, in which a Fort Worth handler also sells milk, competes with Dallas and Fort Worth handlers for milk sales in Grayson, Fannin, Hunt, Hopkins, Delta and Red River Counties. This handler also had operated routes in Dallas for several months in 1949 and 1950. A handler at Sherman in Grayson County who bought milk from approximately 100 producers in several counties and competed with Dallas and Fort Worth handlers for sales in the same area, has recently sold his business to a Fort Worth handler. At the time of the hearing these producers were in the process of transfer to this handler's Fort Worth plant. Similarly a Dallas handler was at the time of the hearing incorporating with his Dallas business the operations of a handler of Bonham in Fannin County.

The fact that much of Texas, particularly to the west and south of Dallas and Fort Worth, is an area with more pronounced deficits in milk production than North Texas has resulted in some North Texas handlers establishing substantial distribution of milk at considerable distances beyond the limits of the production area. Milk bottled by one Dallas handler is sold regularly in Wichita Falls, 135 miles northwest of Dallas, Lubbock, 340 miles west of Dallas, El Paso, 640 miles southwest of Dallas, and in Harlingen and Corpus Christi, each more than 500 miles south of Dallas. No other handler extends his distributions to such extreme distances in so many directions, but other handlers distribute in Waco, Temple and other Texas points.

Eight proposals to define the marketing area were included in the notice of hearing. The North Texas Producers Association proposed that the marketing area be confined to the corporate limits of the cities of Dallas in Dallas County, Fort Worth in Tarrant County, Paris in Lamar County, Dublin in Erath County, Terrell in Kaufman County, Denison and Sherman in Grayson County, Gainesville in Cooke County, Tyler in Smith County, Decatur in Wise County, Denton in Denton County, McKinney in Collin County, Cleburne in Johnson County, Longview in Gregg County, and Waxahachie and one precinct in Ellis County, all in Texas. Several handlers proposed that the marketing area be defined by county boundaries. These proposals as a group included all the counties in which the cities proposed by the association are located plus some additional counties. The Paris handler proposed the addition of three counties in Texas and four in Oklahoma. One handler proposed that in addition to twenty-seven counties in North Texas the marketing area include thirteen cities in what is generally referred to as West Texas. The Wichita Falls Area Milk Producers Association proposed that the city of Wichita Falls be included. Handlers of Wichita Falls proposed that if Wichita Falls were included in the marketing area 18 counties also be included. In all forty counties in

Texas, four counties in Oklahoma, and twenty-nine cities and towns in Texas were proposed for inclusion in the marketing area.

It appears that practically all milk sold for fluid consumption in the North Texas area is sold as Grade A milk. To be labeled "Grade A", milk must be produced and handled under the supervision of local health officers in accordance with standards established by the Texas State Department of Health. The standards that have been so established are those of the 1939 Edition of the U. S. Public Health Service Milk Ordinance. These standards are also contained in the milk ordinances of the principal cities of the area. While there may be minor differences in the degree of effectiveness of enforcement of these uniform standards by the various health authorities of the area, the movement of milk from one health jurisdiction to another indicates that the quality of milk is generally uniform throughout the various portions of the area. While no route distribution from Dallas plants is made in Fort Worth, or vice-versa, Fort Worth approved milk is frequently used as an emergency supply by a Dallas plant.

In view of the uniformity of health regulations throughout the area the marketing area should so far as possible be contiguous and be defined by county boundaries. While this will result in the inclusion of much rural area, it does not appear that any considerable administrative difficulties will thereby be incurred. It is proposed that only handlers who distribute Grade A milk in the marketing area shall be regulated. Such handlers are readily identifiable under the health regulations, and it does not appear that there will be any substantial number of them who will confine their activities to the more rural portions of the area without selling milk in such North Texas cities as are appropriate for inclusion in the marketing area.

The sixteen counties to be defined as the marketing area include within their boundaries ten of the fourteen cities proposed by the proponents of the order. Decatur and Dublin, two of the cities not included in the area as defined, have less population than the other cities proposed; the distribution of Dallas and Fort Worth milk in these cities or the counties in which they are located does not appear very substantial, so that it is concluded that no substantial purpose would be served by including them in the marketing area. Tyler and Longview, the other cities thus proposed which are not located in the named counties, are of larger size and one Dallas handler estimates that more than 30 percent of all sales are by Dallas handlers. Local handlers in these cities, on the other hand, indicate that only 11 of 63 routes in the Tyler-Longview section are operated by Dallas handlers. Tyler and Longview are somewhat further removed from Dallas and Fort Worth than the other cities included. Handlers located in these cities compete not only with North Texas handlers for their milk supply but also with those of Houston and Shreveport, Louisiana, which are metropolitan markets. These handlers do not compete extensively with Dallas and Fort Worth handlers in other portions of the marketing area. Inclusion of the cities of Tyler and Longview in a contiguous marketing area defined by county boundaries would require naming some six or eight additional counties in the defined area. In view of the factors stated above, it is concluded that their significance is not sufficient to warrant their inclusion at this time.

The proposal that thirteen West Texas cities at distances varying from 120 to 430 miles from Dallas be included in the marketing area was made by a Dallas handler whose milk is distributed in these cities by a vendor. In support of the proposal it was shown that the volume of such distribution is sufficient to employ more than 80 people and to require an investment of $400,000. The vendor estimated that of the total sales of milk in each of these cities his sales represented percentages varying by cities from 15 percent to 75 percent. These percentages were contested by a handler with plants located in some of these West Texas cities. It was contended that an order which would price the milk received by the Dallas handler must also price the milk in competition with which it is sold in these West Texas cities. The distribution of North Texas milk in this area was represented as a disposition of milk which would otherwise be priced as surplus milk to North Texas producers. A cooperative association representing a substantial number of the producers supplying plants located in these cities opposed their inclusion in the North Texas marketing area on the basis that production conditions differed materially in that area and indicated that it had proposed a separate order with a marketing area that would include several of these cities and some others.

It is obviously impracticable to define a marketing area so that a handler may sell milk anywhere without competition from milk not priced under the order defining such marketing area. The West Texas cities here proposed for inclusion in the North Texas marketing area are in an area in which local production of milk is inadequate and prices for locally produced milk have historically been higher than in the North Texas area. As a result of the demand for more milk than was locally available a substantial distribution of North Texas milk has been built up in the past three and one-half years, much of it at resale prices higher than those of local handlers in these cities. While a West Texas handler purchases some milk at a receiving station at Springtown in Parker County in the North Texas area, and there is some further overlap of the production areas in Erath County, it does not appear that the competition for supply is extensive. There is serious question as to whether inclusion of the cities proposed would price as producer milk a substantial quantity of milk from the Brownwood area which is moved to Abilene. The inclusion of the cities proposed might result in including in the marketwide pool milk of producers far removed from North Texas should some other handler from a distant point market milk under a system comparable to that now used by the Dallas handler. The record indicates the need for higher prices which would apply to the milk received at plants in West Texas and that these prices should not be uniform for all such plants, but fails to provide enough evidence upon which to base such location differentials. For these reasons it is concluded that the proposal to include West Texas cities in the North Texas marketing area should not be adopted.

The proposals that Wichita Falls and counties in that general vicinity be included in the North Texas marketing area should not be adopted. With one notable exception, there is little competition for sales between Wichita Falls handlers and handlers of the defined North Texas marketing area. There is a minor overlap of the production areas of Wichita Falls and North Texas in Wise County, but little evidence of shifting of producers from one market to another. The competition for sales is with respect to the Sheppard Air Force Base at Wichita Falls. This is a large outlet for Grade A milk for which a Dallas handler currently holds the contract. While this volume of sales is of considerable importance in the Wichita Falls area, these sales of Dallas milk under a contract periodically open for competitive bids are not considered adequate reason for inclusion of Wichita Falls in the marketing area. As indicated elsewhere, a separate order for the Wichita Falls area is considered appropriate on the records of this hearing.

The Wichita Falls marketing area should be defined to include all territory within the County of Wichita, State of Texas. While Wichita Falls handlers market milk in a number of smaller towns in other counties, it does not appear that such distribution in any one locality is a substantial portion of the total business. Neither does it appear that any of the smaller handlers occasionally located in such towns has a wide area of distribution within which he competes with Wichita Falls handlers. There is no evidence that the producers supplying these handlers are so located that there is much competition for supplies of milk between these handlers and those of Wichita Falls. The record fails to indicate conclusively that the health requirements of such towns are equivalent to the Grade A regulations which apply in Wichita Falls and Wichita County. For these reasons the proposal of handlers that additional counties be included is denied.

4. *Scope of regulation.* The minimum class prices of the orders should apply only to milk which is produced under the inspection of the appropriate health authorities of the marketing areas and which is regularly received at a milk plant approved by such authorities for the receiving or processing of Grade A milk or milk products for distribution on routes in the marketing areas.

As indicated in the findings concerning the extent of the marketing areas, milk sold for fluid consumption in the marketing areas is almost exclusively Grade A milk. Specifications and requirements promulgated under the Texas Milk Grading and Labeling Law, together with municipal ordinances, prescribe the conditions under which such milk may be produced and distributed. The minimum class prices and the uniform prices computed under the marketwide pools should apply only to milk which is received directly from farmers at a locally approved Grade A plant.

In order to designate clearly what milk is to be subject to the pricing provisions of the orders, which processors and distributors are to be subject to regulation and which dairy farmers will participate in the market pools, it is necessary to include in each order definitions of "approved plant," "handler," "producer," and "other source milk."

"Approved plant" should be defined as a milk plant approved by any health authority having jurisdiction in the marketing area for distribution of Grade A milk and milk products, from which milk, skim milk, buttermilk, flavored milk, flavored milk drinks or cream are disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores). The definition should also include a receiving station which, with the approval and under the direct supervision of the appropriate health authorities, receives milk from producers and commingles such milk for movement to the plants previously described. The approved plant definition should not include plants not under the routine inspection of the health authorities of the marketing area to which the order applies, but which may furnish milk to handlers during periods of emergency or shortage. Inclusion of such plants would be beyond the intended scope of the orders, and would involve pricing milk not primarily produced for the North Texas market or the Wichita Falls market.

"Handler" to whom the regulatory provisions of the order are applicable, should be defined as the operator of an "approved plant" in his capacity as such, or a cooperative association with respect to producer milk which is diverted to an unapproved plant for the account of the association. During periods of high production proprietary handlers may not always accept milk from all regular producers, or arrange for the diversion of such milk, even though the production of all producers may be needed to supply the market at other seasons. The provision that a cooperative association may be a handler, even though it does not operate a plant, will enable such a cooperative association to retain in the market-pool milk of its members which it may have to divert for temporary periods to unapproved plants.

"Producer" should be defined as any person, other than a producer-handler, who produces milk which is received at an approved plant or which is diverted from an approved plant to an unapproved plant for the account of a handler or cooperative association. In case ungraded milk is regularly received at the premises of an approved plant provision should be made to restrict the producer definition to those dairy farmers delivering to such plant who have Grade A permits or ratings issued by the appropriate health authority. Likewise provision should be made that upon proper notice from the appropriate health authority farmers will lose their status as producers during periods in which they are degraded. In order to eliminate possible conflict between the order and other orders that may regulate the handling of milk in nearby areas it is provided that the term "producer" shall not include a person with respect to milk produced by him which is received by a handler who does a greater percentage of his Class I business under another Federal marketing order.

The orders do not propose to pool the Class I sales of producer-handlers, who distribute milk of their own production and buy no milk from producers. Any milk they sell to handlers who purchase milk from producers is normally surplus to their own operations. To pool such milk would result in a preferential market for producer-handlers as compared with regular producers. Producer-handlers should therefore not be defined as producers whose milk is pooled. Their exclusion from the producer definition will result in any milk produced from a producer-handler being treated as other source milk.

"Other source milk" should be defined to include all skim milk and butterfat received at an approved plant from a source other than producers, but not including that first received from producers at another approved plant. Other source milk is not normally available for the market either because it does not meet Grade "A" quality requirements or because it is produced primarily for other markets under the supervision of the health authorities of such markets. It is not priced under the terms of the order, but is allocated to the lowest use in a handler's plant in order to prevent its displacing from Class I milk of producers which constitutes the regular supply of the market.

5. *Classification of milk.* Two classes of milk should be established in each order. Class I milk should include skim milk or butterfat disposed of (except as livestock feed and by transfer or diversion as milk, skim milk, or cream to other milk plants) in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog and bulk ice cream and frozen dairy product mixes) of cream and milk or skim milk used to produce concentrated milk or milk drinks disposed of for fluid consumption, and all other skim milk and butterfat not specifically accounted for as Class II milk. Class II milk should include all skim milk and butterfat used to produce any product other than those specified in Class I milk, disposed of for livestock feed, in shrinkage of producer milk not in excess of 2 percent of receipts, in shrinkage of other source milk, and in inventory variations in Class I products.

The products included in Class I milk are those usually associated with the distribution of fluid milk, and with minor exceptions noted hereafter are required to be made from Grade A milk. The additional expense necessary to produce milk for these purposes warrants their inclusion as Class I milk. Handlers proposed that only fluid milk be included in Class I and that a separate class be provided for the other products here specifically included; they failed, however, to propose any basis for pricing this class of milk. These items are all disposed of in the respective marketing areas in fluid form through the same retail and wholesale channels as fluid milk. Their physical characteristics, purposes, values and uses are similar to those of fluid milk. The milk used for these products is subject to the same transportation costs in movement from farm to market. The separate accounting for skim milk and butterfat herein proposed results in handlers being charged for only the exact volume of skim milk or butterfat actually disposed of in any particular use. While it was indicated that in Dallas flavored milk drinks containing less than 3.25 percent butterfat are not required to be made from Grade A milk, testimony of the health officer indicates that under his requirements with respect to the materials that may be handled in Grade A bottling plants only Grade A ingredients are used.

Provision is made for the inclusion in Class I milk of fresh concentrated milk for fluid consumption, a new product which has appeared in several milk markets in recent months. While this product had not appeared in the North Texas or Wichita Falls markets at the time of the hearing it is desirable that provision be made at this time for its classification should it appear. This product is promoted as a direct and acceptable substitute for fresh whole milk, indistinguishable from regular fluid milk when water is added.

A proposal that aerated cream products be included in Class I milk should not be adopted. Such products are not now required by health authorities to be from Grade A milk. Their distribution is not necessarily limited to the handlers of Grade A fluid milk. A further proposal that products which may hereafter be required by health authorities to be made from Grade A milk is not adopted because it is unlikely that the separate health authorities involved will all institute such requirements simultaneously.

The products included in Class II milk are not required to be from Grade A milk. Such products, although they may contain Grade A milk, must be disposed of in the same competitive field as products made from non-Grade A milk. It is considered necessary to classify certain products as Class II milk in order to permit the free movement of any excess milk into manufacturing channels without burdensome competitive disadvantage to handlers when producer receipts are in excess of the market needs for Grade A milk for fluid uses. Unaccounted for shrinkage of producer milk in excess of a reasonable allowance for shrinkage (plant loss) should be Class I milk in order to require full accounting by handlers for the use of their receipts.

No limit need be placed on shrinkage of other source milk as Class II milk, since such milk is deducted from the lowest use class under the allocation provisions. It is, however, not feasible to

segregate shrinkage of producer milk from shrinkage of other source milk in the same plant. Accordingly, in such case, the shrinkage of skim milk and butterfat, respectively, allocated to producer milk and to other source milk should be computed pro rata to the volumes of skim milk and butterfat, respectively, received from such sources.

The allocation provisions should provide that other source milk, which is unpriced, be allocated to the lowest use in the handler's plant. This is done to prevent other source milk from displacing from Class I the milk of producers which constitutes the regular supply of the market. While there may be a few occasions in which variations in producer receipts or Class I sales within the monthly accounting period for which such allocation is provided do not permit full use of the producer receipts for the available Class I sales, these are not so frequent or so substantial as to require a more frequent accounting for purposes of allocation.

In establishing the classification of milk the responsibility should be placed upon the handler who first receives milk from producers to account for all skim milk and butterfat received at his approved plant and to prove to the market administrator that such skim milk and butterfat should be classified as other than Class I. The handler who first receives milk from producers is responsible for reporting the proper utilization of such milk and making full payment for it. He must, therefore, maintain records to furnish adequate proof of utilization to the market administrator.

Provision should be made in each order to cover the classification of skim milk and butterfat transferred from an approved plant to another approved plant or to an unapproved plant. In the case of transfers between approved plants whose receipts are priced by the same order, classification should be on the basis of written agreement between the affected handlers to the extent of utilization in the agreed use in the transferee plant. This provision affords suitable flexibility in the pricing, classification, and accounting for milk transferred. It does not affect producer returns because all of the milk is accounted for in the same pool computation in any event. In order to assure adequate protection of producers in the classification of their milk it should be provided that in case either source milk is received in either or both plants the classification of milk in each plant shall be made in such a manner as will return the higher class utilization to producer milk.

Transfers to a producer-handler should be classified as Class I milk. Producer-handlers ordinarily carry on only fluid operations and any milk which they purchase from a handler would normally be for fluid uses. Accordingly, it is unnecessary to provide for the classification of such a transfer in a lower use class.

An unapproved plant may be either a strictly manufacturing plant in which milk is used only for Class II products or a plant engaging in fluid distribution in other markets. Further some unapproved plants have dual operations. The provisions for classification of skim milk and butterfat transferred to such plants should result in Class II classification for that milk which is transferred to plants where only Class II operations are carried on but should result in Class I classification for that milk which the receiving plant needs for Class I disposition.

Transfers from an approved plant to an unapproved plant not more than 200 miles distant should be classified on the basis of a written agreement as to utilization, provided that if skim milk or butterfat so transferred was actually required for Class I use at the unapproved plant (after allocating to Class I the milk received directly from dairy farmers who constitute its regular source of supply for Class I needs) such milk should be classified as Class I milk at the approved plant. This provision will facilitate the movement into manufacturing outlets of skim milk and butterfat in excess of the Class I needs of the North Texas market and at the same time protect producers in the classification of their milk.

Transfers in the form of milk or skim milk from an approved plant to an unapproved plant more than 200 miles distant should be Class I milk. Milk and skim milk ordinarily do not move long distances for manufacturing purposes. There are ample manufacturing facilities within 200 miles of each approved plant to dispose of any prospective surplus of producer milk. Accordingly, it is not necessary to provide classification as other than Class I milk for such transfers. To do so would be administratively impracticable in view of the distances at which the market administrator would have to verify any claimed utilization as Class II milk.

Cream is often moved long distances for manufacture into ice cream. Most localities into which cream is shipped from North Texas or Wichita Falls plants require a Grade A certificate if it is to be used for fluid purposes. It is concluded that cream transferred more than 200 miles should be Class I if it moves under certificate as Grade A, and should be classified as Class II otherwise. While this provides the lower classification on the basis of the absence rather than the presence of positive evidence, it is believed that under the conditions prevailing in this area producers will be assured of proper payment for their milk and handlers will be able to dispose of surplus cream at prices commensurate with the cost of the skim milk and butterfat ingredients.

6. *Class prices.* Class I milk prices in these areas should be determined by a formula made up of three major components: (1) A basic formula price representative of manufacturing milk values, (2) differentials over the basic formula price, and (3) an adjustment of the price to reflect changes in the rates of receipts of milk from producers to sales of Class I milk—in other words, a supply-demand adjustment.

The production and marketing of inspected milk for fluid purposes are influenced by many of the same economic factors as are the production and marketing of milk for manufacturing purposes. The market for most manufactured products is nation-wide, and changes in the prices of such products reflect some of the changes in general economic conditions affecting the supply and demand for all milk. Manufacturing milk plants serve as alternative outlets for milk which farmers produce. For these reasons prices of fluid milk are frequently determined by formulas based on prices of butter and non-fat dry milk and on prices paid by condenseries.

While the historical relationship to manufacturing milk prices in the North Texas and Wichita Falls markets has not been quite so close as in some other areas where the production of manufacturing milk is a more important farming enterprise, prices of milk for fluid use have generally followed a pattern related to the prices of manufactured products and the prices paid for manufacturing milk.

The basic formula price to be used in establishing the current month price for Class I milk of 4.0 percent butterfat test should be the highest of the following for the preceding month: the prices paid to farmers at 18 mid-west condenseries for milk of 3.5 percent butterfat test adjusted to a 4.0 percent basis; a formula price based on the market prices of butter and non-fat dry milk solids; or the average price paid to farmers for milk of 4.0 percent butterfat test by specified local manufacturing plants. The use of these alternative components in the basic formula price will reflect the value of manufacturing milk. The use of the highest price resulting from the three alternatives is appropriate because the fluid milk supplies for these markets must be obtained at any time in competition with the most favorably priced manufacturing outlet.

Handlers opposed the use of the paying prices of the 18 condenseries in the basic formula price. However, substantial quantities of emergency milk priced under the order for the Chicago marketing area are imported by North Texas handlers. Such emergency supplies are commingled with producer milk and sold in bottled form in competition with producer milk. The marketing order for the Chicago market prices such milk by use of a basic formula using this condensery pay-price. The Chicago order also provides an alternative butter-nonfat dry milk solids basic formula price equivalent to that here proposed. The basic formula price will reflect factors which influence the prices North Texas handlers pay for such emergency supplies.

The use of prices paid by local manufacturing plants was not supported by producers or handlers as a part of the Class I basic formula price. It was proposed by handlers as a basis for a Class II price. The conclusions with reference to pricing Class II milk are that such paying prices can only be used as an alternative pricing basis to one of the other component factors of the basic formula price. The use of the local manufacturing milk price in the basic formula will reflect local conditions of milk pricing when such conditions should be determinates of the Class I price, i. e., when local plants are paying prices for milk higher than the prices resulting from the other two alternatives.

The use of the preceding month's manufacturing values in determining the Class I price for the current month permits handlers to know the Class I price at the time of purchase.

To the basic formula price should be added a differential to reflect the cost of meeting quality requirements in the production of market milk and to furnish the necessary incentive to get a regular and adequate supply of such milk produced. Producers of Grade A milk are required to make substantial investments to meet the inspection requirements of health authorities. Similar investments are not required of producers of manufacturing milk. Fluid milk is a perishable product which must reach the consumer within a short time after it is produced. Manufactured dairy products, on the other hand, may be stored for considerable periods before reaching the consumer. Producers of fluid milk must therefore furnish a regular daily supply to the market. Texas is an area in which milk production is especially costly and substantial price incentive is necessary to induce sufficient market milk productions to supply the needs of the market.

The amount of this differential should be $2.00. Producers advocated a differential of $2.25 while handlers made no specific proposal concerning the level of the differential to be used in determining Class I prices. The differential proposed by producers would have resulted in a Class I price for the period from March 1949 through February 1950 approximately the same as the base prices then prevailing in the markets and would have paralleled fairly closely the course of the prevailing base prices from July through December 1950, without the reductions associated with the chaotic conditions that prevailed in the months of March through June 1950.

Through the years of 1947 through 1950 there has been a continued increase in the production of milk for these markets. While milk sales have also increased, and the North Texas market in particular is not yet adequately supplied, the rate of increase in production appears to have exceeded that of sales during 1949 and much of 1950 so that the deficits in fall and winter months are less severe than those of 1947 and 1948. For the year 1949, when the most rapid increase in production took place, the prevailing base prices of the markets exceeded the basic formula price by an average of $2.48 as compared with the differential decided upon herein of $2.00. In 1950 this difference averaged $1.94.

While continued increases in the volumes of milk sales may be expected under the economic conditions prevailing in these markets, the rate of increase in production need not be as rapid as that of 1949 to provide an adequate supply within a reasonable time. Under an order which pays producers the Class I price for all milk disposed of in Grade A products, the price incentive required to assure an adequate supply of milk need not be quite so pronounced as under the present system of base prices. In view of the supply-demand adjustment of Class I prices provided herein, a differential of $2.00 should be included in the order. As of February 1950 the resulting Class I price would have been $6.19, 34 cents more than the $5.85 price then prevailing. Such an increase at that time was fully justified on the basis of the economic factors affecting the production of milk.

The minimum delivered cost of supplementary milk imported from the Chicago milkshed during the short production months has been about $3.00 per hundredweight more than the basic formula price. The level of prices resulting from the formula provided herein will be about $1.00 per hundredweight less than the cost of milk imported from the Chicago market.

Handlers proposed that the differential should be reduced during the months of seasonally high production, suggesting that the amount of reduction should not exceed 23 cents per hundredweight. There is some normal seasonal variation in the basic formula price. The base-rating plans incorporated in the orders are designed to influence the seasonal pattern of deliveries in the market. It is concluded that no seasonal reduction in the level of the differentials should be included in these orders at this time. Provision should be made, however, to prevent contra-seasonal movements of Class I prices except as they result from the operation of the supply demand adjustment included herein.

The prices resulting from the basic formula price and differential herein provided should be subject to adjustment for variation in the ratio of supplies of milk from approved producers to the sales of Class I milk. If a market is less than normally supplied, the differentials above the basic formula price should be increased in order to induce a greater supply of milk. Conversely, if the market is more than normally supplied, the differential should be reduced. Such adjustment should not be made, however, until the order in each market has been in effect for a length of time sufficient for the pricing mechanism of the order to have had opportunity to affect the responses of producers to the needs of the market. In these markets the record indicates that a minimum milk supply for the market of approximately 108 to 110 percent of Class I sales in any month is necessary in any one month to compensate for unequal distribution among handlers and daily and weekly variations in receipts and sales.

The object of a supply-demand price adjustment in these markets is to bring about an automatic price increase when the supply of producer milk in relation to Class I utilization is such that a shortage in the months of seasonally low production is indicated, and a price decrease when the supply may be expected to be above that needed to supply Class I needs in the low production months.

The rates of change in the volumes of both production of milk and Class I sales have been rapid in these markets. Any supply-demand ratio used should reflect conditions as currently as possible. Otherwise increased prices in spring months of high production may result from shortages in the previous fall months, and vice versa. The latest month for which data of receipts and sales are available for adjusting the Class I price to be announced on the 5th day of the month to which it applies is the second month preceding that month. It does not appear desirable to predicate adjustments on the experience of a single month; the experience of the latest two months for which data are available furnishes a more reliable indication without too much delay.

The use of a supply-demand ratio of two months requires consideration of the normal seasonal variations in production and sales that may be expected to occur. For months of seasonally high production the ratio of supplies to sales which indicates an adjustment in Class I prices should be higher than for those months in which production is normally less. The data available with reference to seasonal variations in production in the North Texas and Wichita Falls markets indicate some changes from year to year, with less seasonal variations in production in 1949 and 1950 than in 1947 and 1948. For purposes of the adjustment ratio it appears reasonable to expect seasonal variations in production slightly wider than the average of those shown for 1949 and 1950 in average production per producer but considerably narrower than those shown for the 1947–50 average monthly receipts adjusted for trend. Normally deliveries per day per producer appear to be about 25 percent greater in May and June, the months of highest production, than they are in November and December, the months of lowest production. There appears to be no significant seasonal variation in sales. Accordingly for purposes of this adjustment a supply equal to 125 percent of Class I sales in May and June is considered equivalent to a supply equal to 100 percent of sales in November and December. Similar ratios for each other two-month period are computed on the same basis.

In order to allow for the effect of year to year variations in the seasonal pattern of production, the supply-demand adjustment should not operate to modify the Class I price unless the relationship of supply to sales gives clear evidence that the quantity of milk deliveries will depart by a considerable amount from what is considered as an adequate but not excessive supply. It is therefore concluded that a supply of less than 100 percent of Class I sales in the short production months should result in an increase in price and that a supply of more than 115 percent of Class I sales in such months should result in a decrease in price. For other months these minimum and maximum percentages should reflect the seasonality of production to be expected in such months.

The rate of this adjustment should be 2.5 cents for each full percentage point that the supply-demand ratio actually prevailing for the second and third preceding months is either less than the minimum ratio established for such months (equivalent to 100 percent of Class I sales in the short production months) or is more than the maximum ratio established for such months (equivalent to 115 percent of Class I sales in the short production months). This

rate of adjustment corresponds to slightly more than one percent of the differential included in the Class I price and should be adequate to compensate promptly for any maladjustment in supply that may occur.

The price for Class II milk in each market should be the higher of the butter-nonfat dry milk solids formula price or the average of paying prices of the four Texas manufacturing plants for the current month.

Producers originally proposed the use of the paying prices of four Texas manufacturing plants as the means of determining Class II prices. At the hearing, however, they advocated the use of a Class II price based only on the mid-west condenseries and the butter-powder price. Handlers proposed the use of the paying prices of local manufacturing plants only, and suggested a number of such plants without furnishing data concerning the volumes of milk handled and the paying prices that have prevailed.

The local production of milk for manufacturing use does not supply the needs of the areas for the products manufactured there. It is necessary to import throughout the year substantial quantities of cream, condensed skim milk and nonfat dry milk solids for use in the manufacture of ice cream. A number of handlers have ice cream manufacturing facilities and buy imported ingredients to a considerable extent. Surplus Grade A milk is also used in the manufacture of ice cream but only at a price level commensurate with the prices of alternative ingredients in the form of nonfat dry milk solids, condensed skim milk, and unapproved cream. The prices of these products will therefore determine the prices for approved milk used to make ice cream. The costs of imported cream and milk solids are much more closely related to the prices of butter and nonfat dry milk solids than to the paying prices of mid-west condenseries. These costs include transportation costs from Oklahoma, Kansas, Missouri, Wisconsin, or Minnesota. The butter-powder formula price included in the orders has every month since September 1950 been almost identical with the price charged under the Chicago order for 4.0 percent milk used in the manufacture of butter and nonfat dry milk solids. Such a price should allow handlers to dispose of surplus milk in competition with both locally produced and imported supplies.

The only data concerning local manufacturing plants relate to those operated by handlers or their affiliates and to a cheese plant operated by a cooperative association for which annual patronage dividends are paid farmers in addition to the paying prices quoted for each month. While the use of the paying prices of plants operated by handlers or their affiliates as a sole determinant of producer prices would not be appropriate, the use of such prices as an alternative to a formula price based on national market values of butter and powder will prevent the price for Class II milk from being less than that paid for ungraded milk in the locality. The four plants selected appear the most representative that could be selected.

The class prices computed under the terms of the order would be those for milk containing 4.0 percent butterfat. The class prices for each handler should be adjusted by a butterfat differential to reflect the average test of producer milk classified in each class. Such differential for Class II milk shall be computed on the basis of the price of Grade A (92-score) bulk creamery butter at Chicago for the delivery period plus 15 percent. This differential represents a value somewhat less than the generally accepted value of butterfat for butter. With regard to Class I milk such differential should be computed on the same price for butter, plus 25 percent, reflecting the higher value of butterfat for fluid use. These differentials are both low in comparison with those in many other markets. This is in recognition of the fact that cream sales are low in the markets and that the average test of producer milk is high. As a consequence the market deficits are more concerned with total volume of receipts than with butterfat. The use of these moderate butterfat differentials will serve to allocate a higher proportion of the total price of each class to the skim milk which is in shorter supply.

The parity price of all milk sold at wholesale in the United States, which is the applicable parity price under present legislation, was $4.76 per hundredweight as of March 15, 1951. Such price does not reflect what the record shows to be the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply and demand for milk or its products in the marketing areas; nor would it insure a sufficient quantity of pure and wholesome milk for the marketing areas, or be in the public interest.

No adjustments are provided in the pricing provisions of the North Texas order with respect to the location of approved plants at which milk is received from producers. No such adjustments were proposed by producers or handlers of the North Texas marketing area. The record indicates that no such adjustments are now in effect. With respect to the Wichita Falls marketing area it was indicated that an adjustment in price to producers was customarily made with respect to milk received at a cooling plant at Windthorst, approximately 24 miles from Wichita Falls. This cooling plant is owned and operated by a cooperative association which receives uncooled milk twice daily from its members, cools such milk, and delivers it to Wichita Falls handlers. The order provides no adjustment in minimum class prices with respect to the milk received at this cooling plant, but does permit the cooperative association which is the handler to deduct not to exceed 25 cents per hundredweight from the uniform prices of the order for milk received at this plant. Many producers would not be able to supply the market without the cooling facilities provided by this plant.

7. *Payments to producers.* The "market-wide" type of pool with base-rating plan should be established in these orders for the purpose of distributing among producers returns from the sale of their milk. Under this plan all producers receive the same uniform price for their milk (or when bases are applicable and uniform price for base milk and a uniform price for milk in excess of base) irrespective of the utilization made by such milk by individual handlers.

The alternative to the market-wide pool is the individual-handler pool. Under this latter system producers delivering to each handler receive a uniform price based on each handler's utilization of milk. Because different handlers utilize different proportions of their milk as Class I and Class II, the uniform prices of individual handlers would vary one from the other. The order has been written to permit a cooperative association to become a handler when necessary to market the surplus milk of its members. Under these circumstances an individual-handler pool would result in an unequal sharing of the market among producers and would not be conducive to orderly marketing. It is concluded, therefore, that market-wide pools are necessary to distribute the returns from the sale of milk equally among producers and to create orderly marketing of producer milk.

In the computation of the value of producer milk, provision should be made for the inclusion of the value of milk classified in excess of reported receipts from producers, other handlers, and other sources. This provision is necessary to account for differences between the reported and actual weights and tests of milk received from producers.

The butterfat differential to be used in making payments to producers should be fixed at one-tenth of the price of Grade A (92-score) butter on the Chicago market multiplied by 1.2. This differential is the same as that established under many other marketing orders. The producer butterfat differential merely affects the proration of returns among producers, and it in no way affects handlers' costs for milk.

The distribution among producers of the returns from the sales of milk should be made through the medium of a base-rating plan. Improvement in the seasonal pattern of production has resulted from the base features of present buying plans in these markets. The proposals for base-rating plans are supported by both producers and handlers in each market. Under the plans as hereinafter provided new bases would be established each year on the basis of total deliveries made by each producer during the short production months of October through January. The bases so established would be used in making payments to producers during the months of greatest production, i. e., April through June.

Producers proposed that the bases so established should be used in making payments to producers during the months of February through September. It does not appear necessary that bases be used for so many months for effective results from the plan. Restricting payments on the base to the months definitely associated with flush production will provide greater flexibility, and will provide individual producers better opportunity to make adjustments in their production plans. It also permits new producers to enter the market to meet

prospective needs without unduly affecting the returns of producers with established bases.

A uniform price for base milk during these months would be computed which would reflect the value of milk for the market as a whole after the prior assignment of deliveries of milk in excess of base to the lowest available use class. The price of base milk would thus be enhanced above the average for the market and the uniform price for excess milk would be below the average. The lower price applicable to milk in excess of base deliveries tends to limit the deliveries of such milk during the months of surplus production. Conversely, the value of a large base gives impetus to the delivery of milk in the season of short production. The influences of these two forces tends to cause a more even seasonal pattern of milk deliveries than if payments were made during all months of the year on a straight uniform price basis.

It is necessary to provide certain rules in connection with the establishment and transfer of bases to provide reasonable administrative workability of the plan. In order to accomplish this purpose and preserve the effectiveness of the plan no provisions should be made for the transfer of partial bases. However, transfer of the entire base of an individual producer to members of his family in case of death, retirement, or entry into military service is permitted. Provision is also made for transfer of the entire base to one of the joint holders in the case of the termination of joint landlord-tenant relationships. These rules should assure the workability of the plan and at the same time place no undue hardship upon any producer since the established bases are effective in determining producer payments in only three of the twelve months of each year.

Although uniform prices are computed once a month, provision should be made to pay producers on a semi-monthly basis. The majority of producers on these markets have customarily been paid twice a month and it is concluded that this practice should be continued. The advance payment to be made on or before the last day of the delivery period and covering receipts of producer milk during the first 15 days of the delivery period should be at not less than the Class II price for the preceding delivery period. Payment at this rate will largely eliminate the possibility of handlers making overpayments to producers who may leave the market before the end of the delivery period. Final payment for milk received during each delivery period should be made on or before the 16th day after the end of the delivery period.

In the case of a qualified cooperative association, which so requests, the handler should make the advance and final payments sufficiently in advance of the date for payment to other producers to enable the cooperative association to pay its members at that date. The dates which have been provided for these various payments are so spaced that ample time is provided the handlers and the market administrator for the filing of reports, the computation of the various prices and the writing and mailing of checks.

8. Certain other provisions should be adopted to enable proper and efficient administration of the orders.

(a) *Administrative assessment.* Each handler should be required to pay to the market administrator, as his pro rata share of the cost of administration of the order, 4 cents per hundredweight, or such lesser sum as the Secretary may from time to time prescribe, on all receipts at his pool plant within the delivery period of (1) milk from producers (including such handler's own production) and (2) other source milk which is classified as Class I.

The market administrator in each market must have sufficient funds to enable him to administer properly the terms of the order and the act provides that the administration of the order be financed through assessment against handlers. In view of the anticipated volumes of milk on which the rate would apply it is concluded that a maximum rate of 4 cents per hundredweight is necessary at this time to guarantee sufficient administrative funds. In the event at a later date a lesser amount proves to be sufficient for proper administration, provision is made to enable the Secretary to reduce the assessment accordingly.

(b) *Deduction for marketing services.* Provision should be made for the dissemination of market information to producers and for the verification of weights and for the sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. This provision, including the assessing of producers in payment thereof, is specifically authorized by the act. Five cents per hundredweight or such lesser rate as the Secretary may determine should be deducted by handlers from the payment to producers and turned over to the market administrator to finance such services. This rate was proposed by producer groups on the basis of experience with check sampling, weighing, and testing programs in other marketing areas. In the event any qualified cooperative association is determined to be performing such services for any producer, handlers should pay to the cooperative association such deductions as are authorized by such producer in lieu of the payment to the market administrator.

(c) *Other administrative provisions.* The other provisions of the order are of a general administrative nature, are incidental to the other provisions of the orders, and are necessary for the proper and efficient administration of the respective orders. They provide for the selection of the market administrator, define his powers and duties, prescribe the information to be reported by handlers each month and the length of time that records must be retained. A plan for liquidation of each order in the event of its suspension or termination should also be provided.

Producer-handlers should be exempt from the regulatory provisions of the order except that they should be required to file reports as requested by the market administrator. Since a producer-handler may change his status from time to time it is necessary that the market administrator have authority to require such reports as will enable him to verify the current status of a producer-handler and to supplement other market information. In order that cooperative associations may be in position to allocate milk more equitably among handlers in times of shortage and thus insure each handler a more equitable supply of milk, the market administrator should furnish such an association each month a report of the utilization of its milk by each handler who received milk from its members. Since this report would include only milk received from the association and would not reveal the handler's total operations, confidential information would not be disclosed.

An approved plant which is subject to the regulatory provisions of another milk marketing agreement or order issued pursuant to the act and which the Secretary determines disposes of a greater volume of its Class I milk in such other marketing area than in this marketing area should be partially exempt from the provisions of these orders. It would be impractical to attempt to regulate a handler under two separate orders with respect to the same milk. Accordingly, it should be provided in each order that if an approved plant disposes of a greater volume of its Class I milk in a marketing area, regulated by another Federal milk marketing order, than is disposed of in the marketing area here defined such plant shall be exempt from the pricing, payment, administrative assessment, and marketing service provisions of whichever of these orders is involved. Such a handler, however, should make reports with respect to receipts and utilization as the market administrator may require, to insure equity between handlers, such a handler should not be permitted to purchase milk for sale as Class I milk in either area at less than the price paid by regulated handlers of the area in which the milk is sold. Therefore, a handler exempt under these provisions is required to make such payments as will equalize his cost with other handlers.

Each order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

General findings. (a) The proposed marketing agreements and the orders and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and

other economic conditions which affect market supply of and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed orders will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings. Within the period reserved, exceptions to certain of the findings, conclusions and actions recommended by the Assistant Administrator were filed on behalf of interested parties. In arriving at the findings, conclusions and regulatory provisions of this decision each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions and actions decided upon herein are at variance with any of the exceptions pertaining thereto such exceptions are denied for the reasons set forth in the findings and conclusions relating to the issue to which the exception refers.

Rulings contained in the recommended decision upon proposed findings and conclusions submitted and upon motions filed by interested persons are confirmed except as modified by the findings, conclusions and rulings set forth herein. To the extent that findings and conclusions proposed by interested persons and not ruled upon in the recommended decision are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

Motions to reopen the hearing to permit the introduction of evidence upon the findings of the recommended decision and the terms of the order recommended therein with respect to pricing formulas, the supply and demand adjustment of Class I prices, and the extent of the marketing area are denied on the basis that (1) full opportunity was provided at the hearing for all interested parties to be heard on all issues and to present facts pertinent to the decision of these issues, and (2) these findings and provisions are based upon substantial evidence in the record. Further, with respect to the supply-demand adjustment of Class I prices, this provision is by its own terms inoperative for a considerable period of time after the effective date of any order, so that further consideration may if necessary be given through amendment proceedings when further data are available as a result of the operation of the order itself.

The procedure followed in this proceeding, including the hearing, the filing of briefs, and the issuance of a recommended decision with opportunity for the filing of written exceptions thereto leaves no useful purpose to be served by reply briefs or oral argument on the recommended order and exceptions thereto. Full opportunity has been provided for interested parties to present their views and arguments. Accordingly, motions to file reply briefs and to have oral arguments are denied.

Marketing agreements and orders. Annexed hereto and made a part hereof are four documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the North Texas Marketing Area," "Order Regulating the Handling of Milk in the North Texas Marketing Area," "Marketing Agreement Regulating the Handling of Milk in the Wichita Falls, Texas, Marketing Area" and "Order Regulating the Handling of Milk in the Wichita Falls, Texas, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreements, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreements are identical with those contained in the respective attached orders, which will be published with this decision.

This decision filed at Washington, D. C., this 17th day of July 1951.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

Order[1] Regulating the Handling of Milk in the North Texas, Marketing Area

Sec.
943.0 Findings and determinations.

DEFINITIONS

943.1 Act.
943.2 Secretary.
943.3 Department.
943.4 Person.
943.5 Cooperative association.
943.6 North Texas marketing area.
943.7 Approved plant.
943.8 Unapproved plant.
943.9 Handler.
943.10 Producer.
943.11 Producer milk.
943.12 Other source milk.
943.13 Producer-handler.
943.14 Base milk.
943.15 Excess milk.

MARKET ADMINISTRATOR

943.20 Designation.
943.21 Powers.
943.22 Duties.

REPORTS, RECORDS AND FACILITIES

943.30 Reports of receipts and utilization.
943.31 Payroll reports.
943.32 Other reports.
943.33 Records and facilities.
943.34 Retention of records.

CLASSIFICATION

943.40 Skim milk and butterfat to be classified.
943.41 Classes of utilization.
943.42 Shrinkage.
943.43 Responsibility of handlers and reclassification of milk.
943.44 Transfers.
943.45 Computation of the skim milk and butterfat in each class.
943.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

943.50 Basic formula price to be used in determining Class I prices.
943.51 Class prices.
943.52 Butterfat differentials to handlers.

APPLICATION OF PROVISIONS

943.60 Producer-handlers.
943.61 Handlers subject to other orders.

DETERMINATION OF UNIFORM PRICES

943.70 Computation of value of milk.
943.71 Computation of aggregate value used to determine uniform price(s).
943.72 Computation of uniform price.
943.73 Computation of uniform prices for base milk and excess milk.

DETERMINATION OF BASE

943.80 Computation of daily average base for each producer.
943.81 Base rules.

PAYMENTS

943.90 Time and method of payment.
943.91 Producer-butterfat differential.
943.92 Producer-settlement fund.
943.93 Payments to the producer-settlement fund.
943.94 Payments out of the producer-settlement fund.
943.95 Adjustment of accounts.
943.96 Marketing services.
943.97 Expense of administration.
943.98 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

943.100 Effective time.
943.101 Suspension or termination.
943.102 Actions after suspension or termination.
943.103 Liquidation.

MISCELLANEOUS PROVISIONS

943.110 Agents.
943.111 Separability of provisions.

AUTHORITY: §§ 943.0 to 943.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 943.0 *Findings and determinations.*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedures, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the North Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the marketing agreement upon which a hearing has been held;

(4) All milk and milk products, handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts within the month of: (i) Other source milk which is classified as Class I milk, and (ii) milk from producers including such handler's own production.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the North Texas marketing area shall be in conformity to and in compliance with the terms and conditions of this order as set forth below:

DEFINITIONS

§ 943.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 943.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States as is authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 943.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified in this subpart.

§ 943.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 943.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 943.6 *North Texas marketing area.* "North Texas marketing area," hereinafter called the marketing area, means all territory, including all municipal corporations, Federal military reservations, facilities and installations and State institutions, within the counties of Cooke, Collin, Dallas, Delta, Denton, Ellis, Fannin, Grayson, Hopkins, Hunt, Johnson, Kaufman, Lamar, Parker, Rockwall, and Tarrant, all in the State of Texas.

§ 943.7 *Approved plant.* "Approved plant" means:

(a) A milk plant approved by any health authority having jurisdiction in the marketing area from which milk, skim milk, buttermilk, flavored milk, flavored milk drinks, or cream labeled Grade "A" is disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores); or,

(b) A milk plant approved by and under the routine inspection of the appropriate health authority of any municipal corporation in the marketing area which serves as a receiving station for a plant described in paragraph (a) of this section by receiving, weighing and commingling producer milk.

§ 943.8 *Unapproved plant.* "Unapproved plant" means any milk plant which is not an approved plant.

§ 943.9 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of an approved plant; or

(b) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 943.10 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is received directly from the farm at an approved plant: *Provided*, That if ungraded milk is regularly received at the premises of such approved plant with the approval of the applicable health authority having jurisdiction, only those persons whose milk is received at such approved plant who are producing milk under a dairy farm permit or rating issued by such health authority for the production of milk to be disposed of for consumption as Grade A milk shall be producers: *And provided further*, That if the applicable health authority shall notify the operator of an approved plant and the market administrator in writing that a person whose milk has been received at such approved plant is no longer qualified to have his milk received at such plant such person shall not be a producer on the basis of receipt of milk at such plant from the effective date of such notice until the effective date of a written notice from such health authority to the market administrator that such person is again qualified to have his milk received at such plant. "Producer" shall include any such person whose milk is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include a person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this subpart pursuant to § 943.61.

§ 943.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is received by a handler either directly from producers or from other handlers.

§ 943.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 943.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

§ 943.14 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of April through June which is not in excess of each producer's daily average base computed pursuant to § 943.80 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 943.15 *Excess milk.* "Excess milk" means milk received by a handler during any of the months of April through June which is in excess of base milk received from each producer during such month, and it shall include all milk received from producers for whom no daily average base can be computed pursuant to § 943.80.

MARKET ADMINISTRATOR

§ 943.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary

§ 943.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 943.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) Employ and fix the compensation of such persons as may be necessary to

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 943.97 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 943.96) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 943.30 to 943.32, inclusive;

(2) Maintained adequate records and facilities pursuant to § 943.33; or

(3) Made payments pursuant to §§ 943.90 to 943.95, inclusive.

(i) On or before the 12th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk, pursuant to § 943.51 (a) and the Class I butterfat differential pursuant to § 943.52 (a), both for the current month; and the minimum price for Class II milk pursuant to § 943.51 (b) and the Class II butterfat differential pursuant to § 943.52 (b), both for the preceding month; and,

(2) On or before the 12th day of each month, the uniform prices computed pursuant to § 943.72 or § 943.73, as applicable, and the butterfat differential computed pursuant to § 943.91, both applicable to milk delivered during the preceding month; and

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

(l) Furnish to a cooperative association for its members the data furnished pursuant to § 943.31 (a).

REPORTS, RECORDS AND FACILITIES

§ 943.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers and, for the months of April through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 943.31 *Payroll reports.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month, which shall show:

(a) The total pounds and the average butterfat test of milk received from each producer and cooperative association, the number of days, if less than the entire month, for which milk was received from such producer, and, for the months of April through June, such producer's deliveries of base milk and excess milk;

(b) The amount of payment to each producer and cooperative association; and,

(c) The nature and amount of any deductions or charges involved in such payments.

§ 943.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted for his account directly from producers' farms to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 943.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and,

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 943.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 943.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to § 943.30 shall be classified by the market administrator pursuant to the provisions of §§ 943.41 to 943.46, inclusive.

§ 943.41 *Classes of utilization.* Subject to the conditions set forth in §§ 943.43 and 943.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog and bulk ice cream and frozen dairy product mixes) of cream and milk or skim milk, (2) used to produce concentrated (including frozen) milk, flavored milk, or flavored milk drinks disposed of for fluid consumption neither sterilized nor in hermetically sealed cans, and (3) all other skim milk and butterfat not specifically accounted for as Class II milk;

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In shrinkage up to 2 percent of receipts from producers;

(4) In inventory variations of milk, skim milk, cream, or any product specified in paragraph (a) of this section.

§ 943.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in receipts from producers and of other source milk.

§ 943.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 943.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk or cream, to the approved plant of another handler (except a producer-handler), unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred: *Provided*, That if either or both handlers have received other source milk the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk, if transferred or diverted to a producer-handler in the form of milk, skim milk, or cream.

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk from an approved plant to an unapproved plant more than 200 miles distant by the shortest highway distance as determined by the market administrator.

(d) As Class I milk, if transferred in the form of cream under Grade A certification from an approved plant to an unapproved plant located more than 200 miles distant and as Class II milk if so transferred without Grade A certification.

(e) As Class I milk if transferred or diverted in the form of milk, skim milk or cream from an approved plant to an unapproved plant located not more than 200 miles distant by shortest highway distance as determined by the market administrator, unless:

(1) The handler claims classification as Class II milk on the basis of a utilization mutually indicated in writing to the market administrator by both the operator of the unapproved plant and the handler on or before the 7th day after the end of the month within which such transfer occurred; and

(2) The operator of the unapproved plant maintains books and records showing the recipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification: *Provided*, That if the Class I utilization of skim milk and butterfat in such plant exceeds receipts at such plant of skim milk and butterfat, respectively, in milk direct from dairy farmers who the market administrator determines constitutes the regular source of supply for fluid usage of such unapproved plant in markets supplied by it, an amount of skim milk and butterfat equal to such excess shall be classified as Class I milk.

§ 943.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 943.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 943.45, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 943.41 (b) (3).

(2) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers according to its classifiation as determined pursuant to § 943.44 (a);

(4) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 943.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a), (b), and (c) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 4.0:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Oxfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.96.

(c) The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location

Carnation Co., Sulphur Springs, Tex.
The Borden Co., Mount Pleasant, Tex.
Lamar Creamery, Paris, Tex.
Fairmont Foods Co., Wichita Falls, Tex.

§ 943.51 *Class prices.* Subject to the provisions of § 943.52, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The basic formula price for the preceding month plus $2.00, subject to the following:

(1) For each month after September 1952, such price shall be increased 2.5 cents for each full percentage point that the total milk received from producers by all handlers during the second and third preceding months is a smaller percentage of the total Class I milk disposed of by all handlers (exclusive of producer-handlers and handlers partially exempt from this subpart pursuant to § 943.61),

during such 2-month period than the minimum percentage listed herein opposite such 2-month period, and such price shall be decreased 2.5 cents for each full percentage point that such percentage during such 2-month period is a greater percentage than the maximum percentage listed herein opposite such 2-month period:

2-month period	Percentages		Month to which adjustment applies
	Minimum	Maximum	
July and August	110	127	October.
August and September	110	127	November.
September and October	105	120	December.
October and November	110	115	January.
November and December	100	115	February.
December and January	100	115	March.
January and February	100	115	April.
February and March	105	120	May.
March and April	115	132	June.
April and May	120	140	July.
May and June	125	150	August.
June and July	120	140	September.

(2) Except for adjustments pursuant to subparagraph (1) of this paragraph, such price for each of the months of October, November and December shall not be less than that for the preceding month, and such price for each of the months of April, May and June shall not be more than that for the preceding month.

(b) *Class II milk.* The higher of the prices computed pursuant to § 943.50 (b) or (c) for the current month.

§ 943.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 943.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to § 943.51, for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the appropriate month by the applicable factor listed below and dividing the result by 10:

(a) *Class I milk.* Multiply such price for the preceding month by 1.25;

(b) *Class II milk.* Multiply such price for the current month by 1.15.

APPLICATION OF PROVISIONS

§ 943.60 *Producer-handlers.* Sections 943.40 through 943.46, 943.50 through 943.52, 943.70 through 943.73, 943.80 through 943.81, and 943.90 through 943.97 shall not apply to a producer-handler.

§ 943.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to the total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject for skim milk and butterfat which would be classified in Class I milk under this subpart is less than the price provided by this order, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this subpart and its value as determined pursuant to the other order to which he is subject. Such payments shall be made on or before the 13th day of the following month.

DETERMINATION OF UNIFORM PRICE

§ 943.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices and adding together the resulting amounts: *Provided,* That if the handler had overage of either skim milk or butterfat, there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 943.46 by the applicable class prices.

§ 943.71 *Computation of aggregate value used to determine uniform price(s).* For each month the market administrator shall compute as follows an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from the producers:

(a) Combine into one total the values computed pursuant to § 943.70 for all handlers who made the reports prescribed in § 943.30 and who made the payments pursuant to §§ 943.90 and 943.93 for the preceding month.

(b) Add not less than one-half of the cash balance on hand in the producer-settlement fund, less the total amount of the contingent obligations to handlers pursuant to § 943.94.

(c) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent or add if such average butterfat content is less than 4.0 percent an amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 943.91 and multiplying the resulting figure by the total hundredweight of such milk:

§ 943.72 *Computation of uniform price.* For each of the months of July through March, the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received from producers at an approved plant as follows:

(a) Divide the aggregate value computed pursuant to § 943.71 by the total hundredweight of milk included in such computation; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 943.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through June the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, received from producers at an approved plant as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in the computations pursuant to § 943.71 by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) Subtract the value of excess milk obtained in paragraph (a) of this section from the aggregate value computed pursuant to § 943.71 and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations;

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

DETERMINATION OF BASE

§ 943.80 *Computation of daily average base for each producer.* For the months of April through June of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 943.81:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of October through January immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

§ 943.81 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred only by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(i) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(ii) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

PAYMENTS

§ 943.90 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to §§ 943.72 and 943.73, adjusted by the butterfat differential computed pursuant to § 943.91, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided,* That if by such date such handler has not received full payment for such month pursuant to § 943.94, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section for milk received during the first 15 days of such month, at not less than the Class II price of the preceding month.

(c) On or before the 13th and 23rd days of each month, in lieu of payments pursuant to paragraphs (a) and (b) of this section respectively, to a cooperative association which so requests, with respect to producers for whose milk such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers. Such payment shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 943.31.

§ 943.91 *Producer-butterfat differential.* In making payments pursuant to § 943.90, there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average as computed by the market administrator of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 943.92 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 943.61 (b), 943.93 and 943.95, and out of which he shall make all payments to handlers pursuant to §§ 943.94 and 943.95.

§ 943.93 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 943.70 is greater than the amount required to be paid producers by such handler pursuant to § 943.90.

§ 943.94 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 943.70 is less than the amount required to be paid producers by such handler pursuant to § 943.90: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market adminstrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 943.95 *Adjustment of accounts.* Whenever verification by the market administrator of any handler's reports, books, records, accounts or payments discloses errors resulting in money due:

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 943.96 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 943.90, shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services, accompanied by a statement showing the quantity of milk for which such deduction was computed for each such producer.

§ 943.97 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers including such handler's own production.

§ 943.98 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraph (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and,

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section,

a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8 (c) (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 943.100 *Effective time.* The provisions of this subpart or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 943.101.

§ 943.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 943.102 *Actions after suspension or termination.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 943.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such litigation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 943.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 943.111 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart to other persons or circumstances, shall not be affected thereby.

Order[1] Regulating the Handling of Milk in the Wichita Falls, Texas, Marketing Area

Sec.

945.0 Findings and determinations.

DEFINITIONS

945.1 Act.
945.2 Secretary.
945.3 Department.
945.4 Person.
945.5 Cooperative association.
945.6 Wichita Falls, Texas, marketing area.
945.7 Approved plant.
945.8 Unapproved plant.
945.9 Handler.
945.10 Producer.
945.11 Producer milk.
945.12 Other source milk.
945.13 Producer-handler.
945.14 Base milk.
945.15 Excess milk.

MARKET ADMINISTRATOR

945.20 Designation.
945.21 Powers.
945.22 Duties.

REPORTS, RECORDS AND FACILITIES

945.30 Reports of receipts and utilization.
945.31 Payroll reports.
945.32 Other reports.
945.33 Records and facilities.
945.34 Retention of records.

CLASSIFICATION

945.40 Skim milk and butterfat to be classified.
945.41 Classes of utilization.
945.42 Shrinkage.
945.43 Responsibility of handlers and reclassification of milk.
945.44 Transfers.
945.45 Computation of the skim milk and butterfat in each class.
945.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

945.50 Basic formula price to be used in determining Class I prices.
945.51 Class prices.
945.52 Butterfat differentials to handlers.

APPLICATION OF PROVISIONS

945.60 Producer-handlers.
945.61 Handlers subject to other orders.

DETERMINATION OF UNIFORM PRICES

945.70 Computation of value of milk.
945.71 Computation of aggregate value used to determine uniform price(s).
945.72 Computation of uniform price.
945.73 Computation of uniform prices for base milk and excess milk.

DETERMINATION OF BASE

945.80 Computation of daily average base for each producer.
945.81 Base rules.

PAYMENTS

945.90 Time and method of payment.
945.91 Producer butterfat differential.
945.92 Location adjustment to producers.
945.93 Producer-settlement fund.
945.94 Payments to the producer-settlement fund.
945.95 Payments out of the producer-settlement fund.
945.96 Adjustment of accounts.
945.97 Marketing services.
945.98 Expense of administration.
945.99 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

945.100 Effective time.
945.101 Suspension or termination.
945.102 Actions after suspension or termination.
945.103 Liquidation.

MISCELLANEOUS PROVISIONS

945.110 Agents.
945.111 Separability of provisions.

AUTHORITY: §§ 945.0 to 945.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 945.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Wichita Falls, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined herein, are in the current of interstate commerce, or directly burden, obstruct or affect interstate commerce in milk or its products; and

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts within the month of: (i) Other source milk which is classified as Class I milk, and (ii) milk from producers including such handler's own production.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Wichita Falls, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of this order as set forth below:

DEFINITIONS

§ 945.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 945.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States as is authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 945.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified in this part.

§ 945.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 945.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and,

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 945.6 *Wichita Falls, Texas, marketing area.* "Wichita Falls, Texas, marketing area," hereinafter called the marketing area, means all territory, including all municipal corporations, Federal military reservations, facilities and installations, and State institutions, within Wichita County, Texas.

§ 945.7 *Approved plant.* "Approved plant" means:

(a) A milk plant approved by any health authority having jurisdiction in the marketing area from which milk, skim milk, buttermilk, flavored milk, flavored milk drinks, or cream labeled Grade "A" is disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores); or,

(b) A milk plant approved by and under the routine inspection of the appropriate health authority of any municipal corporation in the marketing area which serves as a receiving station for a plant specified in paragraph (a) of this section by receiving, weighing and commingling producer milk.

§ 945.8 *Unapproved plant.* "Unapproved plant" means any milk plant which is not an approved plant.

§ 945.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant; or

(b) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 945.10 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is received at an approved plant: *Provided*, That if ungraded milk is regularly received at the premises of such approved plant with the approval of the applicable health authority having jurisdiction, only those persons whose milk is received at such approved plant who are producing milk under a dairy farm permit or rating issued by such health authority for the production of milk to be disposed of for consumption as Grade A milk shall be producers: *And provided further*, That if the applicable health authority shall notify the operator of an approved plant and the market administrator in writing that a person whose milk has been received at such approved plant is no longer qualified to have his milk received at such plant, such person shall not be a producer on the basis of receipts of milk at such plant from the effective date of a written notice from such health authority to the market administrator that such person is again qualified to have his milk received at such plant. "Producer" shall include any such person whose milk is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include a person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this subpart pursuant to § 945.61.

§ 945.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is received by a handler either directly from producers or from other handlers.

§ 945.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 945.13 *Producer - handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

§ 945.14 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of April through June which is not in excess of each producer's daily average base computed pursuant to § 945.80 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 945.15 *Excess milk.* "Excess milk" means producer milk received by a handler during any of the months of April through June which is in excess of base milk received from each producer during such month, and shall include all milk received from producers for whom no daily average base can be computed pursuant to § 945.80.

MARKET ADMINISTRATOR

§ 945.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 945.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 945.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 945.98 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 945.97) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 945.30 to 945.32, inclusive;

(2) Maintained adequate records and facilities pursuant to § 945.33; or

(3) Make payments pursuant to §§ 945.90 to 945.96, inclusive;

(i) On or before the 12th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk, pursuant to § 945.51 (a) and the Class I butterfat differential pursuant to § 945.52 (a), both for the current month; and the minimum price for Class II milk pursuant to § 945.51 (b) and the Class II butterfat differential pursuant to § 945.52 (b), both for the preceding month; and,

(2) On or before the 12th day of each month, the uniform prices computed pursuant to § 945.72 or § 945.73, as applicable, and the butterfat differential computed pursuant to § 945.91, both applicable to milk delivered during the preceding month;

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information; and

(l) Furnish to a cooperative association for its members the data furnished pursuant to § 945.31 (a).

REPORTS, RECORDS AND FACILITIES

§ 945.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers and, for the months of April through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area; and,

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 945.31 *Payroll reports.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month, which shall show:

(a) The total pounds and the average butterfat test of milk received from each producer and cooperative association, the number of days, if less than the entire month, for which milk was received from such producer, and, for the months of April through June, such producer's deliveries of base milk and excess milk;

(b) The amount of payment to each producer and cooperative association; and,

(c) The nature and amount of any deductions or charges involved in such payments.

§ 945.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted for his account directly from producers' farms to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 945.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and,

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 945.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 945.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to § 945.30 shall be classified by the market administrator pursuant to the provisions of §§ 945.41 to 945.46, inclusive.

§ 945.41 *Classes of utilization.* Subject to the conditions set forth in §§ 945.43 and 945.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog and bulk ice cream and frozen dairy product mixes) of cream and milk or skim milk, (2) used to produce concentrated (including frozen) milk, flavored milk, or flavored milk drinks disposed of for fluid consumption neither sterilized nor in hermetically sealed cans, and (3) all other skim milk and butterfat not specifically accounted for as Class II milk;

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In shrinkage up to 2 percent of receipts from producers;

(4) In inventory variations of milk, skim milk, cream, or any product specified in paragraph (a) of this section.

§ 945.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in receipts from producers and of other source milk.

§ 945.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 945.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk or cream, to the approved plant of another handler (except a producer-handler), unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred: *Provided*, That if either or both handlers have received other source milk the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk, if transferred or diverted to a producer-handler in the form of milk, skim milk, or cream.

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk from an approved plant to an unapproved plant more than 200 miles distant by the shortest highway distance as determined by the market administrator.

(d) As Class I milk, if transferred in the form of cream under Grade A certification from an approved plant to an unapproved plant more than 200 miles distant and as Class II milk if so transferred without Grade A certification.

(e) As Class I milk if transferred or diverted in the form of milk, skim milk or cream from an approved plant to an unapproved plant not more than 200 miles distant by shortest highway distance as determined by the market administrator, unless:

(1) The handler claims classification as Class II milk on the basis of a utilization mutually indicated in writing to the market administrator by both the operator of the unapproved plant and the handler on or before the 7th day after the end of the month within which such transfer occurred; and

(2) The operator of the unapproved plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification: *Provided*, That if the Class I utilization of skim milk and butterfat in such plant exceeds receipts at such plant of skim milk and butterfat, respectively, in milk direct from dairy farmers who the market administrator determines constitutes the regular source of supply for fluid usage of such unapproved plant in markets supplied by it, an amount of skim milk and butterfat equal to such excess shall be classified as Class I milk.

§ 945.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 945.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 945.45, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 945.41 (b) (3).

(2) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers according to its classification as determined pursuant to § 945.44 (a);

(4) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 945.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a), (b) and (c) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 4.0:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.96.

(c) The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or the Department:

Present Operator and Location

Carnation Co., Sulphur Springs, Tex.
The Borden Co., Mount Pleasant, Tex.
Lamar Creamery, Paris, Tex.
Fairmont Foods Co., Wichita Falls, Tex.

§ 945.51 *Class prices.* Subject to the provisions of § 945.52, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The basic formula price for the preceding month plus $2.00, subject to the following:

(1) For each month after September 1952, such price shall be increased 2.5 cents for each full percentage point that the total milk received from producers by all handlers during the second and third preceding months is a smaller percentage of the total Class I milk disposed of by all handlers (exclusive of producer-handlers and handlers partially exempt from this subpart pursuant to § 945.61) during such 2-month period than the minimum percentage listed in this subparagraph opposite such 2-month period, and such price shall be decreased 2.5 cents for each full percentage point that such percentage during such 2-month period is a greater percentage than the maximum percentage listed in this subparagraph opposite such 2-month period:

2-month period	Percentages		Month to which adjustment applies
	Minimum	Maximum	
July and August	110	127	October.
August and September	110	127	November.
September and October	105	120	December.
October and November	100	115	January.
November and December	100	115	February.
December and January	100	115	March.
January and February	100	115	April.
February and March	105	120	May.
March and April	115	132	June.
April and May	120	140	July.
May and June	125	150	August.
June and July	120	140	September.

(2) Except for adjustments pursuant to subparagraph (1) of this paragraph, such price for each of the months of October, November and December shall not be less than that for the preceding month, and such price for each of the months of April, May, and June shall not be more than that for the preceding month.

(b) *Class II milk.* The higher of the prices computed pursuant to § 945.50 (b) or (c) for the current month.

§ 945.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 945.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to § 945.51, for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the appropriate month by the applicable factor listed below and dividing the result by 10:

(a) *Class I milk.* Multiply such price for the preceding month by 1.25;

(b) *Class II milk.* Multiply such price for the current month by 1.15.

APPLICATION OF PROVISIONS

§ 945.60 *Producer-handlers.* Sections 945.40 through 945.46, 945.50 through 945.52, 945.70 through 945.73, 945.80, 945.81, and 945.90 through 945.98, shall not apply to a producer-handler.

§ 945.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to the total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required by pay under the other Federal order to which he is subject for skim milk and butterfat which would be classified in Class I milk under this subpart is less than the price provided by this subpart, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this order and its value as determined pursuant to the other order to which he is subject. Such payments shall be made on or before the 12th day of the following month.

DETERMINATION OF UNIFORM PRICE

§ 945.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices and adding together the resulting amounts: *Provided*, That if the handler had overage of either skim milk or butterfat, there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 945.46 by the applicable class prices.

§ 945.71 *Computation of aggregate value used to determine uniform price(s).* For each month the market administrator shall compute as follows an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from producers:

(a) Combine into one total the values computed pursuant to § 945.70 for all handlers who made the reports prescribed in § 945.30 and who made the payments pursuant to §§ 945.90 and 945.93 for the preceding month.

(b) Add not less than one-half of the cash balance on hand in the producer-settlement fund, less the total amount of the contingent obligations to handlers pursuant to § 945.94.

(c) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent or add if such average butterfat content is less than 4.0 percent an amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 945.91 and multiplying the resulting figure by the total hundredweight of such milk.

§ 945.72 *Computation of uniform price.* For each of the months of July through March, the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received from producers at an approved plant as follows: (a) Divide the aggregate value computed pursuant to § 945.71 by the total hundredweight of milk included in such computation; and (b) Subtract not less than 4 cents nor more than 5 cents.

§ 945.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through June the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, received from producers at an approved plant as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in the computations pursuant to § 945.71 by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) Subtract the value of excess milk obtained in paragraph (a) of this section from the aggregate value computed pursuant to § 945.71 and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations;

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

DETERMINATION OF BASE

§ 945.80 *Computation of daily average base for each producer.* For the months of April through June of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 945.81:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of October through January immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

§ 945.81 *Base rules.* (a) A base shall apply to deliveries milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred only by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

PAYMENTS

§ 945.90 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to §§ 945.72 and 945.73, adjusted by the butterfat differential computed pursuant to §945.91, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided*, That if by such date such handler has not received full payment for such month pursuant to § 945.94, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section for milk received during the first 15 days of such month, at not less than the Class II price for the preceding month.

(c) On or before the 13th and 23rd days of each month, in lieu of payments pursuant to paragraphs (a) and (b) of this section respectively, to a cooperative association which so requests, with respect to producers for whose milk such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers. Such payment shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 945.31.

§ 945.91 *Producer-butterfat differential.* In making payments pursuant to § 945.90, there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average as computed by the market administrator of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 945.92 *Location adjustment to producers.* In making payments pursuant to § 945.90 (a) to producers whose milk is received at the cooling plant located at Windthorst, Texas, currently operated by the Wichita Falls Area Milk Producers Association, Inc., the handler may deduct not to exceed 25 cents per hundredweight of milk. Such deductions shall not affect the computation of amounts to be paid by the handler or the market administrator pursuant to §§ 945.94 and 945.95.

§ 945.93 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 945.61 (b), 945.94 and 945.96, and out of which he shall make all payments to handlers pursuant to §§ 945.95 and 945.96.

§ 945.94 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 945.70 is greater than the amount required to be paid producers by such handler pursuant to § 945.90.

§ 945.95 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 945.70 is less than the amount required to be paid producers by such handler pursuant to § 945.90: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 945.96 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due:

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or,

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which error occurred.

§ 945.97 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 945.90, shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services, accompanied by a statement showing the quantity of milk for which such deduction was computed for each such producer.

§ 945.98 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers including such handler's own production.

§ 945.99 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and,

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records, required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 945.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 945.101.

§ 945.101 *Suspension or termination.* The secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 945.102 *Actions after suspension or termination.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 945.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such litigation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 945.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 945.111 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart, to other persons or circumstances, shall not be affected thereby.

Order of the Secretary Directing That Referendum Be Conducted Among Producers Supplying Milk to North Texas Marketing Area; Determination of Representative Period; and Designation of Agent to Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the North Texas marketing area) who, during the month of April 1951, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of such order, which is filed simultaneously herewith.

The month of April 1951 is hereby determined to be the representative period for the conduct of such referendum.

Hobart E. Crone is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for conducting of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this referendum is issued.

Order of the Secretary Directing That Referendum Be Conducted Among Producers Supplying Milk to Wichita Falls, Texas, Marketing Area; Determination of Representative Period; and Designation of Agent To Conduct Such Referendum

Pursuant to section 8c (19 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Wichita Falls, Texas, marketing area) who, during the month of April 1951, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of such order, which is filed simultaneously herewith.

The month of April 1951 is hereby determined to be the representative period for the conduct of such referendum.

Hobart E. Crone is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for conducting of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this referendum order is issued.

[7 CFR Part 958]

IRISH POTATOES GROWN IN COLORADO

NOTICE OF PROPOSED BUDGET AND RATE OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the budget and rate of assessment hereinafter set forth, which were recommended by the administrative committee for Area No. 1, established pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, issued under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 958.208 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the administrative committee for Area No. 1, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending May 31, 1952, will amount to $1,350.00.

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be one-half of one cent ($0.005) per hundredweight, of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958).

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 16th day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[7 CFR Part 996]

[Docket No. AO-203-A2]

MILK IN THE SPRINGFIELD, MASSACHUSETTS MARKETING AREA

RECOMMENDED DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED, REGULATING THE HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Springfield, Massachusetts on April 9, 1951, upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Springfield, Massachusetts, marketing area. Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in

the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The material issues entered on the record of the hearing were whether:

(1) The definition for outside milk should be revised.

(2) The language of the order should be revised to provide for the same treatment of Lowell-Lawrence pool milk as is accorded Worcester pool milk received at a Springfield regulated plant.

(3) The provisions dealing with pool plant qualifications should be revised.

(4) The assignment provisions should be revised to provide for the assignment of out-of-area Class I sales made from a handlers' country plant to receipts of producer milk at such plant, to change the assignment sequence with reference to receipts of skim milk and to provide an assignment for milk not otherwise covered.

(5) Any changes made in the basis of determining the Class II price and the butterfat differential under the Boston order should be incorporated in the Springfield order.

(6) Required payments on outside milk should be eliminated under certain circumstances.

(7) A method for computing a composite wage index for use in the Class I formula should be provided.

(8) The operator of a milk plant should be made the responsible handler with respect to payment, reporting, and other obligations imposed by the order for all milk and milk products received at such plant.

(9) Producer milk under the Boston, Lowell-Lawrence, or Worcester orders diverted to a Springfield pool plant should be excluded as producer milk under the Springfield order.

(10) The definition of buyer-handler should be amended to require the disposition of more than 10 percent of such a handler's total receipts of fluid milk products other than cream as Class I milk in the marketing area.

(11) The requirement that milk moved by buyer-handlers to other plants be classified as Class I should be revised.

(12) There should be excluded from the current pool computation milk of any nonpool handler in noncompliance with reference to the payment or reporting provision.

(13) Credits should be granted a handler for payments made to the Boston pool in the computation of such handler's pool obligation.

(14) Certain other nonsubstantive changes should be made to delete obsolete language and to make the language of the Springfield order consistent with that of other market orders.

Findings and conclusions. From the evidence introduced at the hearing and the record thereof with respect to the afore-mentioned issues it is hereby found and concluded that:

(1) The proposal to include as outside milk all receipts from New York order pool plants which are classified as other than I-A or I-B under the New York order should be adopted. Under the present provisions of the order receipts from New York order pool plants are specifically excluded from the outside milk definition and it is therefore possible for Springfield handlers to utilize New York Class I-C or Class III milk without being subject to the equalization payment on milk. The order presently prevents the replacement of local producer milk by New York Class I-C or Class III milk in the plant of a Springfield pool handler since it is specifically provided that such receipts shall be assigned to Class II. However, milk moving from a New York order pool plant to the nonpool plant of a Springfield producer-handler, or a buyer-handler, located outside of the marketing area would be Class I-C under the New York order and would not be subject to the equalization payment to the Springfield pool. Likewise a similar movement of concentrated milk, buttermilk, milk drinks and any other item classified as Class III under the New York order can be utilized by a producer-handler or buyer-handler without payment to the Springfield pool. In order to maintain a Class I price on all milk disposed of in Springfield, New York milk classified as other than I-A or I-B under the New York order should be considered outside milk.

The outside milk definition should further be revised to except receipts from producer-handlers and buyer-handlers under the Boston, Lowell-Lawrence and Worcester orders. Such receipts, except the own farm production of producer-handlers are now considered outside milk. Under the assignment provision receipts of outside milk are assigned after receipts from New York, Boston, and Worcester pool handlers, receipts from other Springfield handlers and direct producer receipts. Accordingly buyer-handlers and producer-handlers from other New England Federal markets are at a disadvantage, as compared to pool handlers in such markets, in furnishing milk to Springfield handlers. Since the Boston, Lowell-Lawrence and Worcester orders provide that a buyer-handler or producer-handler pay the outside milk assessment on all receipts of outside milk in excess of his Class II disposition there is no possibility of such an individual in one of these markets obtaining milk for Class I disposition in the Springfield market at a lower cost than pool handlers. Under these circumstances receipts from such handlers should be accorded the same treatment as receipts from pool handlers operating in the same market.

(2) The present order provisions should be revised to provide the same treatment for milk moved from Lowell-Lawrence pool plants as is accorded milk moved from Worcester pool plants to a Springfield regulated plant. At the time the Springfield order became effective the Lowell-Lawrence market was operating under an individual handler pool. With a market-wide pool in Lowell-Lawrence the incentive to transfer excess milk from Lowell-Lawrence to Springfield has been reduced. The Lowell-Lawrence order provides that receipts of fluid milk products, other than cream, from regulated plants under the Springfield and Worcester orders be assigned to Class I unless Class II is agreed upon in writing to the market administrator and an equivalent disposition in Class II actually occurred at the receiving plant. The same type of reciprocal arrangement should be provided in order so that the treatment of milk under the three secondary markets is consistent.

(3) The provisions dealing with qualifications for pool plants should be amended to specifically exclude from pool plant status during the months of March through September any of a handler's plants which were nonpool receiving plants during any of the preceding months of October through February. Under the present order provisions it is possible that a handler's city plant located outside of the marketing area could be a nonpool plant during the months of October through February and then because of increased Class I disposition from such plant within the marketing area during the months of March through September qualify as a pool plant during such months. At the same time dairy farmers delivering to such plant would not qualify as producers since they would have delivered to a nonpool plant during the October-February period. Under such circumstances the handler would be under substantial obligation to the pool since he would be charged the use value of all of the milk in his plant and credited with payment for such milk at the Class II price. Such a situation could raise complications in the administration of the order and result in serious financial loss to the handler involved. As an unregulated plant the pool obligation would be limited to payment of the difference between the Class I and Class II price on only that volume of milk disposed of as Class I milk direct to consumers within the marketing area. The adoption of the proposed language protects unregulated dealers from unreasonable obligation to the pool while at the same time assuring producers reasonable protection from sales of unregulated milk and provides uniform treatment of such milk under both the Springfield and Lowell-Lawrence orders.

The proposal to amend the country pool plant qualification provisions to lower the percentage of total milk receipts required to be disposed of in the marketing area should be adopted. The order presently provides that a country plant dispose of 50 percent of its total receipts of fluid milk products, other than cream, as Class I milk directly to consumers in the marketing area, or as milk to city plants under the Springfield or Worcester orders at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk. It was proposed that the shipping requirement be lowered from 50 percent to 30 percent. At the present time the Brattleboro, Vermont plant of H. P. Hood & Sons is the only country plant associated with the Springfield market and little, if any, milk is disposed of in the Worcester market. Therefore, the opportunity to use shipments to Worcester to meet the qualifying percentage has little significance and should be deleted. Proponents contend that it is becoming increasingly difficult to maintain pool status for this plant under the present 50 percent shipping requirement. They further contend that

in order to retain pool plant status for this plant in recent months they have been forced to release a number of direct shippers at their city plant. A country receiving plant which functions as a reserve plant for the market, should not be forced to ship milk to the city when such milk is not actually needed there to meet market requirements. On the other hand, a plant with only casual association with the market should not be accorded continuing pooling privileges. The record evidence tends to support proponents in their position that the Springfield market has first call on the milk at the Brattleboro plant and that such milk moves to the city whenever it is needed. Lowering the shipping requirement from 50 percent to 30 percent will simplify the qualification of the Brattleboro plant and at the same time protect the pool from new plants interested in the advantage of pooling without taking on the responsibility of supplying the local market. If, at any time, it becomes evident that the Brattleboro plant is not fulfilling its responsibility to the Springfield market by making its entire supply of milk available as needed, consideration should be given to more stringent pool plant qualifications.

(4) The present assignment provisions of the order should be amended to provide for the assignment of out of area Class I sales made from a handler's country plant to receipts of producer milk at such plant and the sequence of assignment should be revised in other respects. Under the present order provisions a handler's Class I sales are assigned to producer receipts at his city plant ahead of the assignment of receipts at his country plant. It is possible under this procedure that a handler operating both a country and a city plant may have a portion of his milk disposed of from his country plant as out of area Class I sales charged to him at the country plant price and the balance of such sales charged at the city plant price. This situation would arise only when the volume of milk at the city plant exceeds the Class I demand for such milk. At such time the balance of the city plant supply, in excess of Class I requirements, plus the volume of producer receipts held at the country plant ordinarily would be utilized as Class II unless an out of area Class I market is found for such milk. The assignment of such sales from the country plant to receipts at such plant maintains the relationship between milk prices at the two plants as established by the order since the difference in price is based on the cost of movement to Springfield.

The present allocation provisions should be revised to provide for the assignment of receipts of skim milk from all regulated plants after receipts of producer milk and outside milk at a handler's plant. Under the present assignment procedure receipts of skim milk from the regulated city plants of other handlers take precedence over producer receipts, receipts of outside milk, and receipts of milk from the country pool plants of other handlers. This assignment sequence creates confusion between handlers in the pricing of skim milk and necessitates numerous price adjustments, since skim milk is a Class II product and is usually transferred for Class II use. Changing this sequence in no way affects the total value of the pool but merely transfers the Class I accounting in the pool from one city plant handler to another.

It is possible that a handler may have milk in his plant from sources other than those specifically referred to in the present assignment provisions. This might take the form of unidentified milk, reconstituted milk, or milk in inventory. The inclusion of a catch-all assignment provision should be adopted to assure the assignment of all milk and milk products in the handler's plant.

The assignment of fluid milk products, other than cream, received from a Worcester pool plant should be allowed on an agreement basis between the Worcester and Springfield handlers without regard to outside milk receipts. The present provisions provide that assignment by agreement to Class II be limited to that remaining Class II utilization in the Springfield handler's plant after deduction of its receipts of outside milk. Permitting the assignment as Class II, up to the total volume of Class II use in the Springfield plant, will allow the two handlers involved to determine by agreement which producers will get credit for the Class I sales and will not affect the over-all costs of the milk involved. Since producers supplying both markets are located in the same general supply area, the producers are in position to shift from one market to the other if handlers were to agree upon a utilization which would maintain one market price to producers substantially higher than the other.

(5) The proposal to make such changes in the Class II pricing provisions as are necessary to maintain the present relationship to the Boston Class II price should be adopted. The present basis of Class II pricing was established so that the Springfield Class II price would move with the price of milk for similar use in the Boston market. For the same reasons that the present relationship was established, it is essential that any changes made in the Boston Class II pricing be reflected in the Springfield Class II pricing. Similarly, the method of determining the butterfat differential in the Springfield market has been the same as that used in other Federal orders effective in the New England region. Accordingly, in the computation of the butterfat differential the weight of a can of 40 percent cream should be considered 33 pounds, rather than the 33.48 pounds presently used. Certain producer interests proposed that in the computation of the butterfat differential the 1.5 cents transportation allowance be deleted. They contend that the factor represents a freight adjustment and since in the Springfield market the bulk of the milk is received at the city plants, no allowance is justified. However, there is also a substantial portion of the total producer milk received at country plants. There appear to be certain advantages to maintaining one butterfat differential for all locations but whether it should be determined with or without the 1.5-cent factor is not clear from this record. The evidence, in the record, on this point is not conclusive. Accordingly, no further change can be considered on the basis of this record.

(6) No change should be made in the present order provisions with reference to the equalization payments required on outside milk. Proponents proposed that the order be amended to provide that the outside milk payment be invalidated during any period in which an emergency is declared under the Boston order. In this connection it does not necessarily follow that an emergency will exist in the secondary markets at any time that there is an emergency in the Boston market. If a provision of the nature proposed were desirable, it should take the form of an independent determination with specific reference to the Springfield market.

(7) The order should provide for the computation of a composite wage rate index which would be similar to the farm-wage rate index which has been utilized in the calculation of the Class I formula price since the adoption of that formula April 1, 1948. The United States Department of Agriculture is no longer collecting information from which the monthly composite wage rates were computed and that series has been discontinued. Therefore, it is necessary to compute an equivalent composite farm wage rate. Farm wage rates are recorded quarterly by the United States Department of Agriculture as rates per month with board and room, per month with house, per week with board and room, per week without room or board, and per day without board or room. These rates should be expressed as a simple average monthly composite rate by converting the weekly rates to a monthly equivalent by multiplying by 4.33 weeks and by converting the daily rate to a monthly basis by using 26 working days per month. The simple average monthly composite farm wage rates for each of the four states used in the Class I formula should be combined according to the rate expressed in the order. In order to express the rate as an index on the same basis as that used in converting the previously published monthly composite farm wage rate to an index number for computation of the formula price, it is necessary to divide the milkshed average composite wage rate figure by 0.6394. This factor is determined from the average relationship of the milkshed average wage rate figure derived from the currently published data to this series which was previously published and used in the computation of the formula price.

(8) The proposal to amend the order to provide that the operator of a milk plant be the responsible handler with respect to payment, reporting, and other obligations under the order for all milk and milk products received at such plant should be adopted. The operator of a plant is the only person who can reasonably be held responsible for the weighing and testing of producers' milk. He has control of the receiving function and logically should be responsible for maintaining proper records of such receipts and for proving the utilization thereof. Since payments to producers are made on the basis of weights and tests of the receiving plant, as verified by the market administrator, the operator of such plant should be held responsible for paying producers and for other obligations imposed by the order upon a handler. Milk temporarily diverted from the pool plant of a handler for the account of such handler should be considered as having been received at the pool plant since producers of such milk would ordinarily be regular suppliers of the market and as such should be assured the market blend price for their milk. However, in accounting for such milk the records of the handler actually receiving the milk would be relied upon to prove receipts and tests even though the handler who diverted such milk to a nonpool plant would be responsible for making such records available.

It was proposed that bulk milk of dairy farmers which is received at a pool plant for processing and for which an equivalent volume of milk is returned to the dairy farmer be considered exempt milk. There was no objection to the exemption of such milk from the market pool. The number of persons and the quantity of milk involved in this type of transaction is small and apparently does not adversely affect the stability of the market. It is concluded, therefore, that such milk of a dairy farmer which is delivered to a pool handler for processing and for which an equivalent volume of bottled milk is returned should be considered exempt milk and not included in the pool. In cases where the volume of milk received from a dairy farmer is in excess of the volume of bottled milk returned, such excess milk disposed of to the pool handler should be considered as producer milk.

Under the present order provisions a handler under certain conditions is permitted to process and bottle milk for another handler without regarding such milk as outside milk or involving the other handler in the market pool because of the processing transaction. This principle should be continued as it applies to handlers or dealers who operate plant facilities and actually receive at such plant the milk which is transferred to the plant of a handler for processing and bottling and for which an equivalent volume of milk is actually returned. The verification of the receipts and disposition necessary to substantiate the exempt status of such milk involve the same type of audit of handlers' records as in the case of producer milk, and it is therefore concluded that such milk should be subject to the administration assessment and bear its proportionate share of administrative costs.

(9) The proposal to amend the producer definition to provide that a dairy farmer who is a producer under the Boston, Lowell-Lawrence, or Worcester orders shall not be a producer under the Springfield order with regard to any of his Boston, Lowell-Lawrence, or Worcester pool milk diverted to a Springfield pool plant should be adopted. Under the present order provisions such diversions could result in a dairy farmer being considered a producer both at the plant from which his milk is diverted and at the Springfield pool plant. Such a situation could involve unreasonable financial costs to the handler if he were required to pool the milk under both pools. The adoption of the proposal will facilitate the disposition of surplus milk by enabling more efficient handling in movements between markets and at the same time provide Springfield producers the same protection they enjoy under the present order provisions.

(10) The proposal to amend the definition of a buyer-handler to require the disposition of more than 10 percent of the total receipts of fluid milk products, other than cream, as Class I milk in the marketing area should be adopted. Handlers who have only a casual association with the market, that is do less than 10 percent of their Class I business in the marketing area, should not acquire buyer-handler status. A buyer-handler, as a regulated handler, must have sufficient pool milk to cover all of his Class I sales, both within and without the marketing area, or pay the outside milk payment on whatever Class I utilization is in excess of his supply of pool milk. An unregulated handler, on the other hand, need have pool milk to cover, or pay the outside milk payment on, only that volume of Class I milk disposed of within the marketing area.

Under this provision all sales by a pool handler to an individual doing less than 10 percent of his Class I business in the area will be Class I up to the extent of such use by such unregulated handler.

The order presently provides that any city plant meeting the basic qualifications for pooling shall be a pool plant in only those months in which at least 10 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk in the marketing area. Since different treatment is prescribed for pool and nonpool handlers, it is essential that a handler be in a position to determine readily his status as a pool handler. In this connection the final classification of milk transferred between handlers is dependent on the actual utilization and source of all receipts in the transferee plant. Accordingly, in order to simplify the determination of a handler's pool status it should be provided that for such purpose the transfers of fluid milk products, other than cream, to a regulated city plant be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from such other plant.

(11) The proposal to revise the present order provisions which provide that milk moved by buyer-handlers to other plants be classified as Class I should not be adopted. Buyer-handlers get no milk direct from producers but purchase all of their requirements for fluid products from other handlers. Accordingly, they are in a position to maintain a day-to-day balance between their requirements and procurement. The present order provisions do not limit purchases for Class II use in the buyer-handler's plant but merely restrict the transfer of milk to a third plant for other than Class I use. Class II milk is defined and priced for the purpose of removing necessary excesses from the market. It appears that buyer-handlers do not need to purchase Class II milk in excess of their own use. To encourage a buyer-handler to buy long and permit free transfer to nonpool plants for Class II use could adversely affect producers by resulting in a lower classification for such milk than might otherwise be available through other outlets.

(12) The proposal to exclude from each current pool computation milk of any nonpool handler who is not in compliance with the reporting and payment provisions for any prior month should be adopted. The order presently has such a provision with reference to a pool handler in noncompliance. However, under the present order provision a nonpool handler in violation, because of nonreporting or nonpayment of assessments due, continues to be carried in the current pool computations. Under such arrangement it is possible that such indebtedness to the pool could actually reach the point of threatening the solvency of the pool. Exclusion of the milk of such nonpool handlers from the current pool computation assures the solvency of the settlement fund and at the same time does not relieve such nonpool handler of any of his obligations or responsibilities under the order.

(13) The proposal to amend the provisions dealing with the the computation of the value of milk utilized by a handler to credit any amount that such handler is required to pay to the Boston pool for milk disposed of in the Boston marketing area should not be adopted. This proposal was made on the premise that the Boston marketing area would be expanded to include specified military installations. Springfield handlers do not make direct distribution of milk in the present Boston marketing area. Therefore, there is nothing to be gained by the adoption of this proposal.

(14) The other proposals considered at the hearing involve nonsubstantive changes which would merely delete obsolete language or clarify the language of the present provisions. There was no opposition testimony and it is accordingly concluded that they should be adopted.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the proposed marketing agreement upon which a hearing has been held; and

(c) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to section 2 and section 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply

and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested parties. Every point covered in the briefs was carefully considered, along with the evidence in the record in making the findings and reaching the conclusions hereinafter set forth. To the extent that such proposed findings and conclusions are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and order. The following proposed amended order is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed amendments to the marketing agreement are not included because the regulatory provisions thereof would be the same as those contained in the proposed amendments to the order:

DEFINITIONS

§ 996.1 *General definitions.* (a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.)

(b) "Springfield, Massachusetts, marketing area", also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns: Agawam, Chicopee, Easthampton, East Longmeadow, Holyoke, Longmeadow, Ludlow, Northampton, South Hadley, Springfield, Westfield, West Springfield, Wilbraham.

(c) "Order", used with the name of a marketing area other than the Springfield, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 996.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 996.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant.

The term shall not apply to a dairy farmer who is a producer under the Boston, Lowell-Lawrence, or Worcester orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who operates a pool plant, or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area, during the month.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from other dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling of processing plant from which more than 10 percent of his total receipts of fluid milk products, other than cream, are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who operates a plant at which he engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 996.3 *Definitions of plants.* (a) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "Receiving plant" means any plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(c) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 996.20, 996.21, and 996.22, for being considered a pool plant in that month.

(d) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

(e) "City plant" means any plant which is located within 10 miles of the marketing area.

(f) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

§ 996.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, and reconstituted milk.

(b) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing or is separated from it by centrifugal force, in all forms including sweet, sour, frozen, and aerated cream, and milk and cream mixtures.

(c) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(d) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk and concentrated milk, either individually or collectively.

(e) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(f) "Outside milk" means:

(1) All milk received from dairy farmers for other markets.

(2) All fluid milk products other than cream received at a regulated plant from an unregulated plant up to the total quantity of nonpool milk received at the unregulated plant, except exempt milk, receipts from New York order pool plants which are assigned to Class I pursuant to § 996.27, and receipts from Boston Lowell-Lawrence, and Worcester regulated plants.

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Worcester order without its intermediate movement to another plant.

(g) "Concentrated milk" means any unsterilized liquid milk product, other than those products commonly known as evaporated milk and sweetened condensed milk, which is obtained by the evaporation of water from milk, and milk to which any other milk product may be added in the process of manufacture. For purposes of this subpart the weight of the fluid milk products used to produce the concentrated milk shall be used rather than the actual weight of the concentrated milk.

(h) "Exempt milk" means bulk milk which is received at a plant for processing and bottling from another plant or from the dairy farmer who produced it, and for which an equivalent quantity of packaged milk is returned during the same month. This definition shall not include milk transferred between two pool plants.

MARKET ADMINISTRATOR

§ 996.10 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 996.11 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 996.12 *Duties.* The market administrator, in addition to the duties described in other sections of this subpart, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 996.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(c) Keep such books and records as will clearly reflect the transactions provided for in this subpart and surrender the same to his successor, or to such other person as the Secretary may designate;

(d) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this subpart;

(e) Promptly verify the information contained in the reports submitted by handlers; and

(f) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION OF MILK AND MILK PRODUCTS

§ 996.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 996.16, 996.17 and 996.18, the classes of utilization shall be as follows:

(a) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as or in milk; and other than as or in concentrated milk for fluid consumption, flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 996.16 *Interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 996.25 and 996.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant, except a plant subject to the New York, Boston, Lowell-Lawrence, or Worcester orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the New York, Boston, Lowell-Lawrence, or Worcester orders, they shall be classified in the same class to which the receipt is assigned under such order, except that if moved to a plant subject to the New York order they shall be classified as Class I milk if classified in Classes I–A, I–B, or I–C under the New York order, and shall be classified as Class II milk if classified in any class other than I–A, I–B, or I–C under the New York order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the New York, Boston, Lowell-Lawrence or Worcester orders, they shall be classified as Class I milk if retransferred to either of these types of regulated or unregulated plants.

§ 996.17 *Interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 996.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any nonpool milk or milk products received by a handler, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 996.20 *Basic requirements for pool plant status.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in §§ 996.21 and 996.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to chapter 94, sections 16C and 16G of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler, nor as a pool plant, pursuant to the provisions of the Boston, Lowell-Lawrence, New York, or Worcester orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler.

§ 996.21 *City pool plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers. In determining whether a city plant has disposed of the required 10 percent of its receipts as Class I milk in the marketing area, the total quantity of fluid milk products, other than cream, moved from that plant to another city

plant which is a regulated plant shall be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from the other plant.

§ 996.22 *Country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 20 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 996.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 996.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 996.27.

(c) Receipts of fluid milk products, other than cream and skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to Springfield.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to Springfield.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to Springfield.

(j) Receipts of skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 996.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 996.25 shall be assigned to Class II milk.

§ 996.27 *Receipts from plants subject to the New York, Boston, Lowell-Lawrence of Worcester orders.* (a) Receipts of fluid milk products, from plants subject to the Boston order shall be assigned to the class in which they are classified under such order.

(b) Receipts of fluid milk products, other than cream, from plants subject to the New York order and which are classified in Classes I–A or I–B under such order shall be assigned to Class I.

(c) Receipts of fluid milk products, other than cream, from regulated plants under the Lowell-Lawrence or Worcester orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products other than cream at the receiving plant.

REPORTS OF HANDLERS

§ 996.30 *Monthly reports of pool handlers.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler assigned to classes pursuant to §§ 996.25 through 996.27.

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 996.15 through § 996.18.

§ 996.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 996.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 996.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 996.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 996.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this subpart or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this subpart;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 996.36 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

MINIMUM CLASS PRICES

§ 996.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday, the latest reported figures available on the next succeeding workday shall be used.

(a) Divide by .98 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the year 1926 as the base period.

(b) Divide by 3 the sum of the three latest monthly indexes of department store sales in the Boston Federal Reserve District adjusted for seasonal variations, as reported by the Federal Reserve System, with the years 1935–39 as the base period and divide the result so obtained by 1.26.

(c) Compute an index of grain-labor costs in the Boston milkshed in the following manner:

(1) Compute the simple average of the four latest weekly average retail prices per ton of dairy ration in the Boston milkshed, as reported by the United States Department of Agriculture, divide by 0.5044, and multiply by 0.6.

(2) Compute the simple average of monthly equivalent farm wage rates for each of the states named below by converting the rates reported by the United States Department of Agriculture to monthly equivalents as follows: rate per month with board, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and per day without board or room, 26. Next compute a weighted monthly wage rate by combining the average wage rates for the respective states with the weights: Maine, 10; Massachusetts, 6; New Hampshire, 7; and Vermont, 77. Divide the weighted average monthly wage rate by .6394 and multiply by 0.4.

(3) Add the results determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Divide by 3 the sum of the final results computed pursuant to the preceding paragraphs of this section. Express the result as a whole number by dropping fractions of less than one-half or by raising fractions of one-half or more to the next whole number. The result shall be known as the formula index.

(e) Subject to the succeeding paragraphs of this section the Class I price per hundredweight at city plants shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Formula index	Class I price per hundredweight		
	Jan.-Feb.-Mar.-July-Aug.-Sept.	Apr.-May-June	Oct.-Nov.-Dec.
50–56	$2.21	$1.77	$2.65
57–63	2.43	1.99	2.87
64–70	2.65	2.21	3.09
71–77	2.87	2.43	3.31
78–84	3.09	2.65	3.53
85–90	3.31	2.87	3.75
91–97	3.53	3.09	3.97
98–104	3.75	3.31	4.19
105–111	3.97	3.53	4.41
112–118	4.19	3.75	4.63
119–125	4.41	3.97	4.85
126–132	4.63	4.19	5.07
133–139	4.85	4.41	5.29
140–146	5.07	4.63	5.51
147–152	5.29	4.85	5.73
153–159	5.51	5.07	5.95
160–166	5.73	5.29	6.17
167–173	5.95	5.51	6.39
174–180	6.17	5.73	6.61
181–187	6.39	5.95	6.83
188–194	6.61	6.17	7.05

If the formula index is more than 194 the price shall be increased at the same rate as would result from further extension of this table at the rate of extension in the six highest index brackets.

(f) The Class I price shall be 44 cents more than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, less than 33 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents above the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent increase as will result in a Class I price equal to the Class I price for the same month of the preceding year plus 88 cents.

(g) The Class I price shall be 44 cents less than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, more than 41 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents below the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent reduction as will result in a Class I price equal to the Class I price for the same month of the preceding year minus 88 cents.

(h) Notwithstanding provisions of the preceding paragraphs of this section, the Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(i) The Class I price determined under the preceding paragraphs of this section shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201–210 miles, inclusive, as published in the New England Joint Tariff No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

§ 996.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined for each month pursuant to this section.

(a) Divide by 33 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month, multiply by .98, and multiply the result by 3.7. If the cream price described above is not reported as indicated an equivalent determined as follows shall be used in lieu of such cream price: Compute the simple average of the difference between the cream price reported for the latest three months and the average price for Grade A (92-score) butter at wholesale in the Chicago market as reported for the same months by the United States Department of Agriculture, times 1.22, and times 33. Then add to this amount the average of the butter prices described above multiplied by 33 and 1.22 for the current pricing month.

(b) Multiply by 7.85 the simple average of the prices per pound of roller process and spray process nonfat dry milk solids for human consumption; in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is delivered.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month.

Month:	*Amount (cents)*
January and February	67
March and April	79
May and June	85
July	79
August and September	73
October, November, and December	67

(d) The amount set forth in the table in paragraph (c) of this section shall be reduced by any plus amount determined as follows:

(1) Compute the simple average of the prices reported by the United States Department of Agriculture for milk for manufacturing purposes, f. o. b. plants, United States, for the 12 months ending with the preceding month.

(2) Adjust the Class II prices under the Boston order for milk received at plants in the 201–210-mile zone for the preceding 12 months to the average butterfat tests for which the prices described in subparagraph (1) of this paragraph are reported by applying the butterfat differential pursuant to the Boston order

and compute a simple average of such adjusted prices.

(3) Determine the amount, computed to the nearest ½ cent, by which the average determined pursuant to (1) exceeds the average computed pursuant to subparagraph (2) of this paragraph: *Provided*, That this provision shall not be applicable for the first time until the plus amount determined hereby for the previous month exceeds 5 cents.

§ 996.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 996.40 and 996.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Springfield, Massachusetts, over highways on which the highway departments of the governing States permit milk tank trucks to move or on the railway mileage distance to Springfield from the nearest railway shipping point for such plant, whichever is shorter. The applicable zone differentials shall be those set forth in the following table, as adjusted pursuant to § 996.43.

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

A Zone (miles)	B Class I price differentials (cents per cwt.)	C Class II price differentials (cents per cwt.)
Less than 40½	(1)	(1)
41–50	−41.5	−2.0
51–60	−42.5	−3.0
61–70	−43.0	−3.0
71–80	−44.5	−3.0
81–90	−45.0	−3.0
91–100	−45.5	−3.0
101–110	−45.5	−4.5
111–120	−47.0	−4.5
121–130	−47.0	−4.5
131–140	−48.0	−4.5
141–150	−50.5	−4.5
151–160	−52.0	−6.0
161–170	−52.0	−6.0
171–180	−54.5	−6.0
181–190	−54.5	−6.0
191–200	−56.0	−6.0
201–210	−56.0	−7.0
211–220	−60.0	−7.0
221–230	−60.5	−7.0
231–240	−61.5	−7.0
241–250	−61.5	−8.0
251–260	−62.5	−8.0
261–270	−63.0	−8.0
271–280	−63.5	−8.0
281–290	−64.5	−8.0
291 and over	−65.5	−8.0

(1) No differential.

§ 996.43 *Automatic changes in zone price differentials.* In case the rail tariff for the transportation of milk in 40-quart cans in carlots of 200 or more cans or for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 6 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in § 996.42 shall be correspondingly increased or decreased in the manner and to the extent provided in this section. Such adjustments shall be effective beginning with the first complete month in which the changes in rail tariffs apply. If such rail tariff on milk is changed, the differentials set forth in Column B of the table shall be adjusted to the extent of any such change. If such rail tariff on cream is changed, the differentials set forth in Column C of the table shall be adjusted to the extent of any such change divided by 9.05. Adjustments shall be made to the nearest one-half cent per hundredweight.

§ 996.44 *Use of equivalent prices in formulas.* If for any reason a price, index, or wage rate specified by this order for use in computing class prices and for other purposes is not reported or published in the manner described by this order, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 996.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

MINIMUM BLENDED PRICES TO PRODUCERS

§ 996.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute the net value of milk which is sold, distributed, or used by each pool handler, in the following manner:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 996.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 996.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 996.40, 996.41 and 996.42.

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 996.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 996.25 (f), (i), and (k) by the price applicable pursuant to §§ 996.41 and 996.42.

§ 996.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk, computed pursuant to § 996.50 and payments required pursuant to §§ 996.65 and 996.66, for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 996.61 (b) and 996.65 and 996.66, for milk received during each month since the effective date of the most recent amendment to this subpart;

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 996.61, 996.62, 996.65, 996.66 and 996.67;

(c) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 996.64;

(d) Divide by the total quantity of producer milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 996.61 and 996.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants shall be known as the basic blended price.

§ 996.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the country plant price differentials pursuant to § 996.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this subpart.

PAYMENTS FOR MILK

§ 996.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this section shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 996.61 (a).

§ 996.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 996.50 as follows:

(a) On or before the 25th day after the end of each month to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 996.63 and 996.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 996.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 996.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 996.62 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to §§ 996.61 (b), 996.65 or 996.66 the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 996.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 996.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows:

Divide by 33 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10.

If the cream price described above is not reported as indicated an equivalent determined as follows shall be used in lieu of such cream price:

Compute the simple average of the difference between the cream price reported for the latest three months and the average price for Grade A (92-score) butter at wholesale in the Chicago market as reported for the same months by the United States Department of Agriculture, times 1.22 and times 33. Then add to this amount the average of the butter prices described above, for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, multiplied by 33 and 1.22.

§ 996.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 996.61 (a) shall be subject to the Class I price differentials pursuant to § 996.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located in any of the following cities or towns, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 996.40 and 996.42 which is effective at the plant to which such milk is delivered in which event there shall be added an amount which will give as a result such price: Massachusetts: Becket, Florida, Hinsdale, Otis, Peru, Sandisfield, Savoy, Washington, and Windsor. New Hampshire: Chesterfield, and Westmoreland. Vermont: Brattleboro, Dover, Dummarston, Marlboro, Newfane, Putney, and Wilmington.

(b) With respect to milk delivered by a producer whose farm is located in Franklin, Hampshire, Hampden, or Worcester Counties in Massachusetts or in any of the following cities or towns, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 996.40 and 996.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price: Connecticut: Ellington, Enfield, Granby, Somers, and Suffield. New Hampshire: Hinsdale and Winchester. Vermont: Guilford, Halifax, Readsboro, Vernon, and Whitingham.

§ 996.65 *Payments on outside milk.* Within 23 days after the end of each month handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 996.40, 996.41, and 996.42 effective for the location or freight mileage zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 996.40, 996.41, and 996.42, effective for the location or freight mileage zone of the handler's plant.

§ 996.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Lowell-Lawrence, or Worcester order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the price pursuant to §§ 996.40 and 996.42 effective for the location or freight mileage zone of the plant from which the Class I milk was received by the butterfat differential calculated pursuant to § 996.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 996.67 *Adjustment of overdue accounts.* Any balance due pursuant to §§ 996.61, 996.62, 996.65, and 996.66 to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 11th day of such month.

§ 996.68 *Statements to producers.* In making the payments to producers prescribed by § 996.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 996.61 (a).

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 996.70 and 996.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 996.70 *Marketing service deduction; nonmembers of a Producers' Cooperative Association.* In making payments to producers pursuant to § 996.61 (a) each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 996.71, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall on or before the 25th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 996.71 *Marketing service deductions with respect to members of a Producers' Cooperative Association.* In the case of producers who are members of an association of producers which is actually performing the services set forth in

§ 996.70, each handler shall, in lieu of the deductions specified in § 996.70, make such deductions from payments made pursuant to § 996.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deduction to such associations.

ADMINISTRATION EXPENSE

§ 996.72 *Expense of administration.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this order, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, receipts of exempt milk, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

OBLIGATIONS

§ 996.73 *Termination of obligations.* The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatitves all books or records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraph (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 996.80 *Effective time.* The provisions of this subpart, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 996.81.

§ 996.81 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This subpart shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 996.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 996.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 996.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

Issued at Washington, D. C., this 13th day of July 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 51-8323; Filed, July 19, 1951; 8:50 a. m.]

[7 CFR Part 999]

[Docket No. AO-204-A2]

HANDLING OF MILK IN WORCESTER, MASS., MARKETING AREA

RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Worcester, Massachusetts, on April 10, 1951, upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Worcester, Massachusetts, marketing area. Interested parties may file written exceptions to the recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The material issues entered on the record of the hearing were whether:

(1) The marketing area should be extended or reduced.

(2) The definition for outside milk should be revised.

(3) The language of the order should be revised to provide for the same treatment of Lowell-Lawrence pool milk as is accorded Springfield pool milk received at a Worcester regulated plant.

(4) The provisions dealing with pool plant qualifications should be revised.

(5) The assignment provisions should be revised to provide for the assignment of out-of-area Class I sales made from a handlers' country plant to receipts of producer milk at such plant, to change the assignment sequence with reference to receipts on skim milk and to provide an assignment for milk not otherwise covered.

(6) Any changes made in the basis of determining the Class II price and the butterfat differential under the Boston order should be incorporated in the Worcester order.

(7) Required payments on outside milk should be eliminated under certain circumstances.

(8) A method for computing a composite wage index for use in the Class I formula should be provided.

(9) The operator of a milk plant should be made the responsible handler with respect to payment, reporting, and other obligations imposed by the order for all milk and milk products received at such plant.

(10) Producer milk under the Boston, Lowell-Lawrence, or Springfield orders diverted to a Worcester pool plant should be excluded as producer milk under the Worcester order.

(11) The definition of buyer-handler should be amended to require the disposition of more than 10 percent of such a handlers total receipts of fluid milk products other than cream as Class I milk in the marketing area.

(12) The requirement that milk moved by buyer-handlers to other plants be classified as Class I should be revised.

(13) There should be excluded from the current pool computation milk of any nonpool handler in noncompliance with reference to the payment or reporting provisions.

(14) Credits should be granted a handler for payments made to the Boston pool in the computation of such handlers' pool obligation.

(15) Certain other nonsubstantive changes should be made to delete obsolete language and to make the language of the Worcester order consistent with that of other market orders.

Findings and conclusions. From the evidence introduced at the hearing and the record thereof with respect to the aforementioned issues it is hereby found and concluded that:

1. The present limits of the marketing area should be revised to exclude the town of Northbridge, Massachusetts. The area as presently defined includes fourteen Massachusetts cities and towns which, except for the town of Northbridge, form a compact, concentrated distribution area served primarily by handlers who do the main portion of their business in the city of Worcester.

The town of Northbridge is primarily served by local producer-handlers doing the bulk of their business in a very small area. Historically there has been a very close association between local distributors and producers in the towns of Northbridge and Uxbridge which is not a part of the marketing area. Prior to the adoption of the Worcester order these local distributors customarily solved their supply and demand problems among themselves. The inclusion of Northbridge in the marketing area has served to disrupt these local relationships of long standing. Northbridge producer-distributors are no longer in a position to call on their neighbors in Uxbridge for supplemental supplies as needed unless they make the equalization payment as required on all outside milk disposed of as Class I. Accordingly, Uxbridge producer-dealers have lost their customary outlet for excess milk.

The present limits of the marketing area were established on the basis of information presented on the record of the promulgation hearing which information purported to show that Worcester handlers did a substantial business in the town of Northbridge. It now appears that certain Worcester handlers do have routes extending into Northbridge, but their distribution in the town represents only a very small portion of their total fluid distribution and only a minor part of the total fluid distribution of all handlers in Northbridge. Exclusion of the town as a part of the marketing area will not change the status of a single Worcester pool handler and accordingly will have little, if any, effect on producers delivering to such handlers.

The record fails to support the extension of the marketing area to include the towns of Marlboro and Northboro, Massachusetts.

2. The proposal to include as outside milk all receipts from New York order pool plants which are classified as other than I–A or I–B under the New York order should be adopted. Under the present provisions of the order receipts from New York order pool plants are specifically excluded from the outside milk definition and it is therefore possible for Worcester handlers to utilize New York Class I–C or Class III milk without being subject to the equalization payment on milk. The order presently prevents the replacement of local producer milk by New York Class I–C or Class III milk in the plant of a Worcester pool handler since it is specifically provided that such receipts shall be assigned to Class II. However, milk moving from a New York order pool plant to the nonpool plant of a Worcester producer-handler or a buyer-handler, located outside of the marketing area would be Class I–C under the New York order and would not be subject to the equalization payment to the Worcester pool. In order to maintain a Class I price on all milk disposed of in Worcester, New York milk classified as other than I–A or I–B under the New York order should be considered outside milk.

The outside milk definition should further be revised to except receipts from producer-handlers and buyer-handlers under the Boston, Lowell-Lawrence and Springfield orders. Such receipts, except the own farm production of producer-handlers, are now considered outside milk. Under the assignment provision receipts of outside milk are assigned after receipts from New York, Boston, and Worcester pool handlers, receipts from other Worcester handlers and direct producer receipts. Accordingly, buyer-handlers and producer-handlers from other New England Federal markets are at a disadvantage, as compared to pool handlers in such markets, in furnishing milk to Springfield handlers.

3. The present order provisions should be revised to provide the same treatment for milk moved from Lowell-Lawrence pool plants as is accorded milk moved from Springfield pool plants to a Worcester regulated plant. With a market-wide pool in Lowell-Lawrence the incentive to transfer excess milk from Lowell-Lawrence to Worcester has been reduced.

The Lowell-Lawrence order provides that receipts of fluid milk products, other than cream, from regulated plants under the Springfield and Worcester orders be assigned to Class I unless Class II is agreed upon in writing to the market administrator and an equivalent disposition in Class II actually occurred at the receiving plant. The same type of reciprocal arrangement should be provided in the Worcester order so that the treatment of milk under the three secondary markets is consistent.

4. The provisions dealing with qualifications for pool plants should be amended to specifically exclude from pool plant status during the months of March through September any of a handler's plants which were nonpool receiving plants during any of the preceding months of October through February. Under the present order provisions it is possible that a handler's city plant located outside of the marketing area could be a nonpool plant during the months of October through February and then because of increased Class I disposition from such plant within the marketing area during the months of March through September qualify as a pool plant during such months. At the same time dairy farmers delivering to such plant would not qualify as producers since they would have delivered to a nonpool plant during the October–February period. Under such circumstances the handler would be under substantial obligation to the pool since he would be charged the use value of all of the milk in his plant and credited with payment for such milk at the Class II price. Such a situation could raise complications in the administration of the order and result in serious financial loss to the handler involved. As an unregulated plant the pool obligation would be limited to payment of the difference between the Class I and Class II price on only that volume of milk disposed of as Class I milk direct to consumers within the marketing area. The adoption of the proposed language protects unregulated dealers from unreasonable obligation to the pool while at the same time assuring producers reasonable protection from sales of unregulated milk and provides uniform treatment of such milk under both the Springfield and Lowell-Lawrence orders.

The proposal to amend the country pool plant qualification provisions to lower the percentage of total milk receipts required to be disposed of in the marketing area should not be adopted. The order presently provides that a country plant dispose of 50 percent of its total receipts of fluid milk products, other than cream, as Class I milk directly to consumers in the marketing area, or as milk to city plants under the Springfield or Worcester orders at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk. It was proposed that the shipping requirement be lowered from 50 percent to 30 percent. At the present time there is no country plant which relies on shipments to both Springfield and Worcester to qualify as a Worcester pool plant. Therefore, the opportunity to use shipments to Spring-

field to meet the qualifying percentage has little significance and should be deleted. There is no evidence that plants now acting or needed as reserve plants for the Worcester market cannot qualify under the present shipping requirement.

(5) The present assignment provisions of the order should be amended to provide for the assignment of out of area Class I sales made from a handler's country plant to receipts of producer milk at such plant and the sequence of assignment should be revised in other respects. Under the present order provisions a handler's Class I sales are assigned to producer receipts at his city plant ahead of the assignment of receipts at his country plant. It is possible under this procedure that a handler operating both a country and a city plant may have a portion of his milk disposed of from his country plant as out of area Class I sales charged to him at the country plant price and the balance of such sales charged at the city plant price. This situation would arise only when the volume of milk at the city plant exceeds the Class I demand for such milk. At such time the balance of the city plant supply, in excess of Class I requirements, plus the volume of producer receipts held at the country plant ordinarily would be utilized as Class II unless an out of area Class I market is found for such milk. The assignment of such sales from the country plant to receipts at such plant maintains the relationship between milk prices at the two plants as established by the order since the difference in price is based on the cost of movement to Worcester.

The present allocation provisions should be revised to provide for the assignment to Class I utilization of receipts of skim milk from all regulated plants after receipts of producer milk and outside milk at a handler's plant. Under the present assignment procedure receipts of skim milk from the regulated city plants of other handlers take precedence over producer receipts, receipts of outside milk, and receipts of milk from the country pool plants of other handlers. This assignment sequence creates confusion between handlers in the pricing of skim milk and necessitates numerous price adjustments, since skim milk is a Class II product and is usually transferred for Class II use. Changing this sequence in no way affects the total value of the pool but merely transfers the Class I accounting in the pool from one city plant handler to another.

It is possible that a handler may have milk in his plant from sources other than those specifically referred to in the present assignment provisions. This might take the form of unidentified milk, reconstituted milk, or milk in inventory. The inclusion of a catch-all assignment provision should be adopted to assure the assignment of all milk and milk products in the handler's plant.

The assignment of fluid milk products, other than cream, received from a Springfield pool plant should be allowed on an agreement basis between the Worcester and Springfield handlers without regard to outside milk receipts. The present provisions provide that assignment by agreement to Class II be limited to that remaining Class II utilization in the Worcester handler's plant after deduction of its receipts of outside milk. Permitting the assignment as Class II, up to the total volume of Class II use in the Worcester plant, will allow the two handlers involved to determine by agreement which producers will get credit for the Class I sales and will not affect the over-all costs of the milk involved. Since producers supplying both markets are located in the same general supply area, the producers are in position to shift from one market to the other if handlers were to agree upon a utilization which would maintain one market price to producers substantially higher than the other.

(6) The proposal to make such changes in the Class II pricing provisions as are necessary to maintain the present relationship to the Boston Class II price should be adopted. The present basis of Class II pricing was established so that the Worcester Class II price would move with the price of milk for similar use in the Boston market. For the same reasons that the present relationship was established, it is essential that any changes made in the Boston Class II pricing be reflected in the Worcester Class II pricing. Similarly, the method of determining the butterfat differential in the Worcester market has been the same as that used in other Federal orders effective in the New England region. Accordingly, in the computation of the butterfat differential the weight of a can of 40 percent cream should be considered 33 pounds, rather than the 33.48 pounds presently used.

Certain producer interests proposed that in the computation of the butterfat differential the 1.5 cents factor be deleted. They contend that the factor represents a freight adjustment and since in the Worcester market the bulk of the milk is received at the city plants, no allowance is justified. The evidence in the record on this point is not conclusive. Accordingly, no further change can be considered on the basis of this record.

(7) No change should be made in the present order provisions with reference to the equalization payments required on outside milk. Proponents asked that the order be amended to provide that the outside milk payment be invalidated during any period in which an emergency is declared under the Boston order. In this connection it does not necessarily follow that an emergency will exist in the secondary markets at any time that there is an emergency in the Boston market. If a provision of the nature proposed were desirable, it should take the form of an independent determination with specific reference to the Worcester market.

(8) The order should provide for the computation of a composite wage rate index which would be similar to the farm-wage rate index which has been utilized in the calculation of the Class I formula price since the adoption of that formula April 1, 1948. The United States Department of Agriculture is no longer collecting information from which the monthly composite wage rates were computed and that series has been discontinued. Therefore, it is necessary to compute an equivalent composite farm wage rate. Farm wage rates are recorded quarterly by the United States Department of Agriculture as rates per month with board and room, per month with house, per week with board and room, per week without room or board, and per day without board or room. These rates should be expressed as a simple average monthly composite rate by converting the weekly rates to a monthly equivalent by multiplying by 4.33 weeks and by converting the daily rate to a monthly basis by using 26 working days per month. The simple average monthly composite farm wage rates for each of the four states used in the Class I formula should be combined according to the rate expressed in the order. In order to express the rate as an index on the same basis as that used in converting the previously published monthly composite farm wage rate to an index number for computation of the formula price, it is necessary to divide the milkshed average composite wage rate figure by 0.6394. This factor is determined from the average relationship of the milkshed average wage rate figure derived from the currently published data to this series which was previously published and used in the computation of the formula price.

(9) The proposal to amend the order to provide that the operator of a milk plant be the responsible handler with respect to payment, reporting, and other obligations under the order for all milk and milk products received at such plant should be adopted. The operator of a plant is the only person who can reasonably be held responsible for the weighing and testing of producers' milk. He has control of the receiving function and logically should be responsible for maintaining proper records of such receipts and for proving the utilization thereof. Since payments to producers are made on the basis of weights and tests of the receiving plant, as verified by the market administrator, the operator of such plant should be held responsible for paying producers and for other obligations imposed by the order upon a handler. Milk temporarily diverted from the pool plant of a handler for the account of such handler should be considered as having been received at the pool plant since producers of such milk would ordinarily be regular suppliers of the market and as such should be assured the market blend price for their milk. However, in accounting for such milk the records of the handler actually receiving the milk would be relied upon to prove receipts and tests even though the handler who diverted such milk to a nonpool plant would be responsible for making such records available.

It was proposed that bulk milk of dairy farmers which is received at a pool plant for processing and for which an equivalent volume of milk is returned to the dairy farmer be considered exempt milk. There was no objection to the exemption of such milk from the market pool. The number of persons and the quantity of milk involved in this type of transaction is small and apparently does not adversely affect the stability of the market. It is concluded, therefore, that such milk of a dairy farmer which is delivered to a pool handler for processing and for which an equivalent volume of bottled milk is returned should be considered exempt milk and not included in the pool. In cases where the volume of milk received from a dairy farmer is in excess of the volume of bottled milk returned, such excess milk disposed of to the pool handler should be considered as producer milk.

Under the present order provisions a handler under certain conditions is permitted to process and bottle milk for another handler without regarding such milk as outside milk or involving the other handler in the market pool because of the processing transaction. This principle should be continued as it applies to handlers or dealers who operate plant facilities and actually receive at such plant the milk which is transferred to the plant of a handler for processing and bottling and for which an equivalent volume of milk is actually returned.

The verification of the receipts and disposition necessary to substantiate the exempt status of such milk involve the same type of audit of handlers' records as in the case of producer milk, and it is therefore concluded that such milk should be subject to the administration assessment and bear its proportionate share of administrative costs.

(10) The proposal to amend the producer definition to provide that a dairy farmer who is a producer under the Boston, Lowell-Lawrence, or Springfield orders shall not be a producer under the Worcester order with regard to any of his Boston, Lowell-Lawrence, or Springfield pool milk diverted to a Worcester pool plant should be adopted. Under the present order provisions such diversions could result in a dairy farmer being considered a producer both at the plant from which his milk is diverted and at the Worcester pool plant. Such a situation could involve unreasonable financial costs to the handler if he were required to pool the milk under both pools. The adoption of the proposal will facilitate the disposition of surplus milk by enabling more efficient handling in movements between markets and at the same time provide Worcester producers the same protection they enjoy under the present order provisions.

(11) The proposal to amend the definition of a buyer-handler to require the disposition of more than 10 percent of the total receipts of fluid milk products, other than cream, as Class I milk in the marketing area should be adopted. Handlers who have only a casual association with the market, that is do less than 10 percent of their Class I business in the marketing area, should not acquire buyer-handler status. A buyer-handler, as a regulated handler, must have sufficient pool milk to cover all of his Class I sales, both within and without the marketing area, or pay the outside milk payment on whatever Class I utilization is in excess of his supply of pool milk. An unregulated handler, on the other hand, need have pool milk to cover, or pay the outside milk payment on, only that volume of Class I milk disposed of within the marketing area.

Under this provision all sales by a pool handler to an individual doing less than 10 percent of his Class I business in the area will be Class I up to the extent of such use by such unregulated handler.

The order presently provides that any city plant meeting the basic qualifications for pooling shall be a pool plant in only those months in which at least 10 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk in the marketing area. Since different treatment is prescribed for pool and nonpool handlers, it is essential that a handler be in a position to determine readily his status as a pool handler. In this connection the final classification of milk transferred between handlers is dependent on the actual utilization and source of all receipts in the transferee plant. Accordingly, in order to simplify the determination of a handler's pool status it should be provided that for such purpose the transfers of fluid milk products, other than cream, to a regulated city plant be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from such other plant.

12. The proposal to revise the present order provisions which provide that milk moved by buyer-handlers to other plants be classified as Class I should not be adopted. Buyer-handlers get no milk direct from producers but purchase all of their requirements for fluid products from other handlers. Accordingly, they are in a position to maintain a day-to-day balance between their requirements and procurement. The present order provisions do not limit purchases for Class II use in the buyer-handler's plant but merely require that any transfer of milk to a third plant be Class I. Class II milk is defined and priced for the purpose of removing necessary excesses from the market. It appears that buyer-handlers do not need to purchase Class II milk in excess of their own use. To encourage a buyer-handler to buy long and permit free transfer to nonpool plants for Class II use could adversely affect producers by resulting in a lower classification for such milk than might otherwise be available through other outlets.

13. The proposal to exclude from each current pool computation milk of any nonpool handler who is not in compliance with the reporting and payment provisions for any prior month should be adopted. The order presently has such a provision with reference to a pool handler in noncompliance. However, under the present order provision a nonpool handler in violation, because of nonreporting or nonpayment of assessments due, continues to be carried in the current pool computations. Under such arrangement it is possible that such indebtedness to the pool could actually reach the point of threatening the solvency of the pool. Exclusion of the milk of such nonpool handlers from the current pool computation assures the solvency of the settlement fund and at the same time does not relieve such nonpool handler of any of his obligations or responsibilities under the order.

14. The proposal to amend the provisions dealing with the computation of the value of milk utilized by a handler to credit any amount that such handler is required to pay to the Boston pool for milk disposed of in the Boston marketing arm should not be adopted. This proposal was made on the premise that the Boston marketing area would be expanded to include specified military installations. Since the proposed expansion of the Boston marketing area has not been recommended this proposal should not be considered further.

15. The other proposals considered at the hearing involves nonsubstantive changes which would merely delete obsolete language or clarify the language of the present provisions. There was no opposition testimony and it is accordingly concluded that they should be adopted.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the proposed marketing agreement upon which a hearing has been held; and

(c) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to section 2 and section 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested parties. Every point covered in the briefs was carefully considered, along with the evidence in the record in making the findings and reaching the conclusions hereinafter set forth. To the extent that such proposed findings and conclusions are inconsistent with the findings and conclusions contained herein the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and order. The following proposed amended order is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed amendments to the marketing agreement are not included because the regulatory provisions thereof would be the same as those contained in the proposed amendments to the order.

DEFINITIONS

§ 999.1 *General definitions.* (a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(b) "Worcester, Massachusetts, marketing area", also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns: Auburn, Boylston, Clinton, Grafton, Holden, Leicester, Millbury, Paxton, Rutland, Shrewsbury, Spencer, West Boylston, Worcester.

(c) "Order", used with the name of a marketing area other than the Worcester, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 999.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 999.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant.

The term shall not apply to a dairy farmer who is a producer under the Boston, Lowell-Lawrence, or Springfield orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who operates a pool plant, or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area during the month.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from other dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products, other than cream, are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who operates a plant at which he engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 999.3 *Definitions of plants* (a) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "Receiving plant" means any plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(c) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 999.20, 999.21, and 999.22 for being considered a pool plant in that month.

(d) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

(e) "City plant" means any plant which is located within 10 miles of the marketing area.

(f) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

§ 999.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, and reconstituted milk.

(b) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing or is separated from it by centrifugal force, in all forms including sweet, sour, frozen, and aerated cream, and milk and cream mixtures.

(c) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(d) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(e) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(f) "Outside milk" means:

(1) All milk received from dairy farmers for other markets.

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant up to the total quantity of nonpool milk received at the unregulated plant, except exempt milk, receipts from New York order pool plants which are assigned to Class I pursuant to § 999.27, and receipts from Boston, Lowell-Lawrence, and Springfield regulated plants.

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a Boston or Springfield pool plant without its intermediate movement to another plant.

(g) "Concentrated milk" means any unsterilized liquid milk product, other than those products commonly known as evaporated milk and sweetened condensed milk, which is obtained by the evaporation of water from milk, and milk to which any other milk product may be added in the process of manufacture. For purposes of this subpart the weight of the fluid milk products used to produce the concentrated milk shall be used rather than the actual weight of the concentrated milk.

(h) "Exempt milk" means bulk milk which is received at a plant for processing and bottling directly from another plant, or from the dairy farmer who produced it, and for which an equivalent quantity of packaged milk is returned during the same month. This definition shall not include milk transferred between two pool plants.

MARKET ADMINISTRATOR

§ 999.10 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 999.11 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 999.12 *Duties.* The market administrator, in addition to the duties described in other sections of this subpart, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 999.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(c) Keep such books and records as will clearly reflect the transactions provided for in this order and surrender the same to his successor, or to such other person as the Secretary may designate;

(d) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this order;

(e) Promptly verify the information contained in the reports submitted by handlers; and

(f) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION OF MILK AND MILK PRODUCTS

§ 999.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 999.16, 999.17, and 999.18, the classes of utilization shall be as follows:

(a) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as or in milk; and other than as or in concentrated milk for fluid consumption, flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 999.16 *Interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 999.25 and 999.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant, except a plant subject to the New York, Boston, Lowell-Lawrence, or Springfield orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the New York, Boston, Lowell-Lawrence, or Springfield orders, they shall be classified in the same class to which the receipt is assigned under such order, except that if moved to a plant subject to the New York order they shall be classsified as Class I milk if classified in Classes I–A, I–B, or I–C under the New York order, and shall be classified as Class II milk if classified in any class other than I–A, I–B, or I–C under the New York order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the New York, Boston, Lowell-Lawrence, or Springfield orders, they shall be classified as Class I milk if retransferred to either of these types of regulated or unregulated plants.

§ 999.17 *Interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 999.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any nonpool milk or milk products received by a handler, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 999.20 *Basic requirements for pool plant status.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in §§ 999.21 or 999.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, Sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, Section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler nor as a pool plant pursuant to the provisions of the Boston, Lowell-Lawrence, New York or Springfield orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler.

§ 999.21 *City pool plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers. In determining whether a city plant has disposed of the required 10 percent of its receipts as Class I milk in the marketing area, the total quantity of fluid milk products, other than cream, moved from that plant to another city plant which is a regulated plant shall be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from the other plant.

§ 999.22 *Country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 50 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 999.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 999.50, his receipts of milk and milk

products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 999.27.

(c) Receipts of fluid milk products, other than cream and skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to Worcester.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section, in the order of the nearness of the plants to Worcester.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to Worcester.

(j) Receipts of skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 999.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 999.25 shall be assigned to Class II milk.

§ 999.27 *Receipts from plants subject to the New York, Boston, Lowell-Lawrence, or Springfield orders.* (a) Receipts of fluid milk products from plants subject to the Boston order shall be assigned to the class in which they are classified under such order.

(b) Receipts of fluid milk products, other than cream, from plants subject to the New York order and which are classified in Classes I–A or I–B under such order shall be assigned to Class I.

(c) Receipts of fluid milk products, other than cream, from regulated plants under the Lowell-Lawrence or Springfield orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products, other than cream, at the receiving plant.

REPORTS OF HANDLERS

§ 999.30 *Monthly reports of pool handlers.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler assigned to classes pursuant to §§ 999.25 through 999.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 999.15 through 999.18.

§ 999.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 999.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 999.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 999.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 999.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this subpart or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this subpart;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 999.36 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under Section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

MINIMUM CLASS PRICES

§ 999.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday, the latest reported figures available on the next succeeding workday shall be used.

(a) Divide by .98 the monthly wholesale price index for all commodities as reported by the Buerau of Labor Statistics, United States Department of Labor, with the year 1926 as the base period.

(b) Divide by 3 the sum of the three latest monthly indexes of department store sales in the Boston Federal Reserve District adjusted for seasonal variations, as reported by the Federal Reserve System, with the years 1935–39 as the base period and divide the result so obtained by 1.26.

(c) Compute an index of grain-labor costs in the Boston milkshed in the following manner:

(1) Compute the simple average of the four latest weekly average retail prices per ton of dairy ration in the Boston milkshed, as reported by the United States Department of Agriculture, divide by 0.5044, and multiply by 0.6.

(2) Compute the simple average of monthly equivalent farm wage rates for each of the States named below by converting the rates reported by the United States Department of Agriculture to monthly equivalents as follows: rate per month with board, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and rate per day without board or room, 26. Next compute a weighted monthly wage rate by combining the average wage rates for the respective States with the weights: Maine, 10; Massachusetts, 6; New Hampshire, 7; and Vermont, 77. Divide the weighted average monthly wage rate by .6394 and multiply by 0.4.

(3) Add the results determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Divide by 3 the sum of the final results computed pursuant to the preceding paragraphs of this section. Express the result as a whole number by dropping fractions of less than one-half or by raising fractions of one-half or more to the next whole number. The result shall be known as the formula index.

(e) Subject to the succeeding paragraphs of this section the Class I price per hundredweight at city plants shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Formula index	Class I price per hundredweight		
	Jan.-Feb.-Mar.-July-Aug.-Sept.	Apr.-May-June	Oct.-Nov.-Dec.
55–56	$2.21	$1.77	$2.65
57–63	2.43	1.99	2.87
64–70	2.65	2.21	3.09
71–77	2.87	2.43	3.31
78–84	3.09	2.65	3.53
85–90	3.31	2.87	3.75
91–97	3.53	3.09	3.97
98–104	3.75	3.31	4.19
105–111	3.97	3.53	4.41
112–118	4.19	3.75	4.63
119–125	4.41	3.97	4.85
126–132	4.63	4.19	5.07
133–139	4.85	4.41	5.29
140–146	5.07	4.63	5.51
147–153	5.29	4.85	5.73
154–159	5.51	5.07	5.95
160–166	5.73	5.29	6.17
167–173	5.95	5.51	6.39
174–180	6.17	5.73	6.61
181–187	6.39	5.95	6.83
188–194	6.61	6.17	7.05

If the formula index is more than 194 the price shall be increased at the same rate as would result from further extension of this table at the rate of extension in the six highest index brackets.

(f) The Class I price shall be 44 cents more than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, less than 33 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents above the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent increase as will result in a Class I price equal to the Class I price for the same month of the preceding year plus 88 cents.

(g) The Class I price shall be 44 cents less than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, more than 41 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents below the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent reduction as will result in a Class I price equal to the Class I price for the same month of the preceding year minus 88 cents.

(h) Notwithstanding provisions of the preceding paragraphs of this section, the Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(i) The Class I price determined under the preceding paragraphs of this section shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201–210 miles, inclusive, as published in the New England Joint Tariff M No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

§ 999.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined for each month pursuant to this section:

(a) Divide by 33 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month, multiply by 0.98, and multiply the result by 3.7. If the cream price described above is not reported as indicated, an equivalent determined as follows shall be used in lieu of such cream price:

Compute the simple average of the difference between the cream price reported for the latest three months and the average price for Grade A (92-score) butter at wholesale in the Chicago market as reported for the same months by the United States Department of Agriculture, times 1.22, and times 33. Then add to this amount the average of the butter prices described above multiplied by 33 and 1.22 for the current pricing month.

(b) Multiply by 7.85 the simple average of the prices per pound of roller process and spray process nonfat dry milk solids for human consumption, in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is delivered.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month.

Month:	*Amount (cents)*
January and February	67
March and April	79
May and June	85
July	79
August and September	73
October, November, and December	67

(d) The amount set forth in the table in paragraph (c) of this section shall be reduced by any plus amount determined as follows:

(1) Compute the simple average of the prices reported by the United States Department of Agriculture for milk for manufacting purposes, f. o. b. plants, United States, for the 12 months ending with the preceding month.

(2) Adjust the Class II prices under the Boston order for milk received at plants in the 201–210-mile zone for the preceding 12 months to the average butterfat tests for which the prices described in subparagraph (1) of this paragraph are reported by applying the butterfat differential pursuant to the Boston order and compute a simple average of such adjusted prices.

(3) Determine the amount, computed to the nearest one-half cent, by which the average determined pursuant to subparagraph (1) of this paragraph exceeds the average computed pursuant to subparagraph (2) of this paragraph: *Provided*, That this provision shall not be applicable for the first time until the plus amount determined hereby for the previous month exceeds 5 cents.

§ 999.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 999.40 and 999.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Worcester, Massachusetts, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Worcester from the nearest railway shipping point for such plant, whichever is shorter. The applicable zone differentials shall be those set forth in the following table, as adjusted pursuant to § 999.43.

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

A Zone (miles)	B Class I price differentials (cents per cwt.)	C Class II price differentials (cents per cwt.)
Less than 401	(1)	(1)
41-50	−41.5	−2.0
51-60	−42.5	−3.0
61-70	−43.0	−3.0
71-80	−43.0	−3.0
81-90	−45.5	−3.0
91-100	−45.5	−4.5
101-110	−45.5	−4.5
111-120	−47.0	−4.5
121-130	−48.0	−4.5
131-140	−50.5	−4.5
141-150	−52.0	−6.0
151-160	−52.0	−6.0
161-170	−54.5	−6.0
171-180	−54.5	−6.0
181-190	−56.0	−6.0
191-200	−56.0	−7.0
201-210	−60.0	−7.0
211-220	−60.5	−7.0
221-230	−61.5	−7.0
231-240	−61.5	−7.0
241-250	−62.5	−8.0
251-260	−63.0	−8.0
261-270	−63.5	−8.0
271-280	−64.5	−8.0
281-290	−65.5	−8.0
291 and over		

[1] No differential.

§ 999.43 *Automatic changes in zone price differentials.* In case the rail tariff for the transportation of milk in 40-quart cans in carlots of 200 or more cans or for the transportation of cream in 40-quart cans in carlots of 100-199 cans, as published in New England Joint Tariff M No. 6 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in § 999.42 shall be correspondingly increased or decreased in the manner and to the extent provided in this section. Such adjustments shall be effective beginning with the first complete month in which the changes in rail tariffs apply. If such rail tariff on milk is changed, the differentials set forth in Column B of the table shall be adjusted to the extent of any such change. If such rail tariff on cream is changed, the differentials set forth in Column C of the table shall be adjusted to the extent of any such change divided by 9.05. Adjustments shall be made to the nearest one-half cent per hundredweight.

§ 999.44 *Use of equivalent prices in formulas.* If for any reason a price, index, or wage rate specified by this subpart for use in computing class prices and for other purposes is not reported or published in the manner described by this subpart, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 999.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding workday.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

MINIMUM BLENDED PRICES TO PRODUCERS

§ 999.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute the net value of milk which is sold, distributed, or used by each pool handler, in the following manner:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 999.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 999.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 999.40, 999.41, and 999.42.

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 999.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 999.25 (f), (i), and (k) by the price applicable pursuant to §§ 999.41 and 999.42.

§ 999.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk, computed pursuant to § 999.50 and payments required pursuant to §§ 999.65 and 999.66 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to § 999.61 (b) and §§ 999.65 and 999.66 for milk received during each month since the effective date of the most recent amendment to this subpart.

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 999.61, 999.62, 999.65, 999.66, and 999.67.

(c) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 999.64;

(d) Divide by the total quantity of producer milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in § 999.61 and 999.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants, shall be known as the basic blended price.

§ 999.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the country plant price differentials pursuant to § 999.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this subpart.

PAYMENTS FOR MILK

§ 999.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this section shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 999.61 (a).

§ 999.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 999.50 as follows:

(a) On or before the 25th day after the end of each month to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 999.63 and 999.64 for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 999.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 999.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 999.62 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to §§ 999.61 (b), 999.65, or 999.66, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 999.61 (a), the handler shall make up such payment to the producer not later than the time of

making final payment for the month in which such error is disclosed.

§ 999.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10. If the cream price described above is not reported as indicated, an equivalent determined as follows shall be used in lieu of such cream price:

Compute the simple average of the difference between the cream price reported for the latest three months and the average price for Grade A (92-score) butter at wholesale in the Chicago market as reported for the same months by the United States Department of Agriculture, times 1.22, and times 33. Then add to this amount the average of the butter prices described above, for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, multiplied by 33 and 1.22.

§ 999.64 *Location differentials.* The payments to be made to producers by handlers pursuant to paragraph (a) of § 999.61 shall be subject to the Class I price differentials applicable pursuant to § 999.42 and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located in Franklin, Hampshire, Hampden, Worcester, Middlesex, or Norfolk Counties in Massachusetts, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 999.40 and 999.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

§ 999.65 *Payments on outside milk.* Within 23 days after the end of each month handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 999.40, 999.41, and 999.42 effective for the location or freight mileage zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 999.40, 999.41, and 999.42 effective for the location or freight mileage zone of the handler's plant.

§ 999.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Lowell-Lawrence, or Springfield order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the price pursuant to §§ 999.40 and 999.42 effective for the location or freight mileage zone of the plant from which the Class I milk was received by the butterfat differential calculated pursuant to § 999.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 999.67 *Adjustment of overdue accounts.* Any balance due pursuant to §§ 999.61, 999.62, 999.65, and 999.66 to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective on the 11th day of such month.

§ 999.68 *Statements to producers.* In making the payments to producers prescribed by § 999.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 999.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 999.70 and 999.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 999.70 *Marketing service deduction; nonmembers of an association of producers.* In making payments to producers pursuant to § 999.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 999.71, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall on or before the 25th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 999.71 *Marketing service deductions with respect to members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 999.70, each handler shall, in lieu of the deductions specified in § 999.70, make such deductions from payments made pursuant to § 999.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deduction to such associations.

ADMINISTRATION EXPENSE

§ 999.72 *Expense of administration.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this subpart, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, receipts of exempt milk, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

OBLIGATIONS

§ 999.73 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable.

Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but

need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books or records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraph (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 999.80 *Effective time.* The provisions of this subpart, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 999.81.

§ 999.81 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This subpart shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 999.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 999.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 999.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

Issued at Washington, D. C., this 13th day of July 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 51-8322; Filed, July 19, 1951; 8:50 a. m.]

FEDERAL SECURITY AGENCY

Food and Drug Administration

[21 CFR Parts 29, 30]

FRUIT PRESERVES, FRUIT JELLIES, AND FRUIT BUTTER; DEFINITIONS AND STANDARDS OF IDENTITY

NOTICE OF PROPOSED RULE MAKING

In the matter of amending the definitions and standards of identity for fruit preserves, fruit jellies, and fruit butters:

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371) and upon the basis of substantial evidence received at the public hearing held pursuant to the notice published in the FEDERAL REGISTER on November 28, 1950 (15 F. R. 8121), and upon consideration of proposed findings of fact filed by interested parties, which are adopted in part and rejected in part as is apparent from the detailed findings made below, the following order be made:

Findings of fact.[1] 1. In 1940, regulations establishing definitions and standards of identity were promulgated for three categories of fruit spreads (5 F. R. 3554). These are preserves, jams (21 CFR 29.0), fruit jelly (21 CFR 29.5), and fruit butter (21 CFR 30.0). In that part of each of these definitions and standards of identity applicable to the saccharine ingredients it is provided that corn sirup may be used in combination with other designated saccharine ingredients, provided the weight of the solids of the corn sirup is not less than one-tenth of the weight of the solids of the combination of saccharine ingredients. For preserves or jams and for fruit jellies it is further provided that the weight of the solids of the corn sirup is not more than one-half the weight of the solids of the combination. The definition and standard of identity for fruit butter, in addition to providing for the use of corn sirup in combination with other saccharine ingredients, provides that corn sirup may be used as the sole saccharine ingredient. Each of the definitions and standards of identity requires that whenever corn sirup is used it shall be named on the label, and if corn sirup is used in combination with other saccharine ingredients they also shall be named on the label. (Ex. 3)

2. Prior to the promulgation in 1940 of the definitions and standards of identity described in finding 1 there was a considerable trade in spreads made with a relatively low proportion of fruit ingredient and a high proportion of corn sirup. These spreads were often called "compound" or "imitation," and were generally regarded as cheap, low-quality products. Sellers and buyers of preserves, jellies, and fruit butters came to associate the presence of corn sirup with such products, giving rise to the belief, now shown to be erroneous, that the presence of corn sirup in any proportion was evidence of inferiority. So preserves, jellies, and fruit butters containing small amounts of corn sirup and labeled as required by the definitions and standards of identity for these foods were confused with products containing enough corn sirup to change their properties substantially. (R. 25-28, 34-35, 37-38, 43, 58-59, 61-63, 66, 68-69, 72, 76, 80-81, 89, 108, 121-122, 127, 145-147, 149-154)

3. Experience of preserve, jelly, and fruit butter manufacturers since the adoption of definitions and standards of identity for these foods has shown that where the proportion of corn sirup (based on its solids content) is not greater than 25 percent by weight of the total saccharine ingredients the sweetness of the preserve, jelly, or fruit butter is not significantly affected, although experienced tasters may detect a slight difference when a somewhat lower proportion of corn sirup is present. (R. 30-36, 41, 60-61, 70-71, 73, 77-79, 90-91, 94, 105-106, 110, 122-126, 134, 147-148, 169-192; Ex. 9)

[1] The citations following each finding of fact refer to the pages of the transcript of the testimony and the exhibits received in evidence at the hearing.

4. From the facts stated in findings 1, 2, and 3 it is reasonable to conclude that the requirements dealing with corn sirup in the definitions and standards of identity for fruit preserves, jams, fruit jellies, and fruit butters should be changed to make corn sirup an optional ingredient in such foods when the proportion of corn sirup (based on its solids content) does not exceed 25 percent of the weight of the combined saccharine ingredients and that no label declaration of corn sirup in such amounts is necessary. (R. 38, 71, 73, 85, 99)

5. The definitions and standards of identity for preserves, jams, fruit jellies, and fruit butters do not define the term "corn sirup." The evidence in this record shows that the corn sirup used in the experimental and commercial production of fruit spreads in compliance with the standards was the clarified, concentrated aqueous solution obtained by incomplete hydrolysis of cornstarch and the solids of the corn sirup contained not less than 40 percent by weight of reducing sugars calculated as anhydrous dextrose. A more general term for sirup made by partial hydrolysis of edible starch is "glucose sirup." Glucose sirup which, except for the source of the edible starch used, conforms to the foregoing definition of corn sirup is suitable for use in fruit spreads. Corn sirup which has been dried, and which is sometimes called corn sirup solids, is likewise suitable for use in fruit spreads. Each of the definitions and standards of identity should recognize the use of glucose sirup and corn sirup solids, subject to the same conditions and requirements prescribed for the use of corn sirup. (R. 17, 19, 47, 54-55, 65)

6. The definition and standard of identity for preserves or jams provides that in certain combinations of saccharine ingredients "corn sugar or dextrose" may be used. There are corresponding provisions in the definitions and standards of identity for fruit jellies and fruit butter. Dextrose is made from starch; corn sugar is made from cornstarch. Thus the term "dextrose" encompasses corn sugar. In the fruit-spread trade, terminology has so changed that the designation "dextrose" is now used for the product which formerly was sometimes called "corn sugar." It is reasonable to simplify each of the definitions and standards of identity by deleting the words "corn sugar," wherever used, and with this change there will be no further need for the definitions and standards to include special definitions for corn sugar. (R. 15, 21, 40; Ex. 4-7)

Conclusions. Upon consideration of the whole record and the foregoing findings of fact, it is concluded that it will promote honesty and fair dealing in the interest of consumers to amend the regulations establishing definitions and standards of indentity for preserves, jams, fruit jelly, and fruit butter so that as amended they will be as follows:

PART 29—FRUIT PRESERVES AND JELLIES; DEFINITIONS AND STANDARDS OF IDENTITY

§ 29.0 *Preserves, jams; identity; label statement of optional ingredients.* (a) The preserves or jams for which definitions and standards of identity are prescribed by this section are the viscous or semisolid foods each of which is made from a mixture composed of not less than 45 parts by weight (see paragraph (c) of this section) of one of the fruit ingredients specified in paragraph (b) of this section to each 55 parts by weight (see paragraph (e) (1) of this section) of one of the optional saccharine ingredients specified in paragraph (d) of this section. Such mixture may also contain one or more of the following optional ingredients:

(1) Spice.

(2) A vinegar, lemon juice, lime juice, citric acid, lactic acid, malic acid, tartaric acid, or any combinaton of two or more of these, in a quantity which reasonably compensates for deficiency, if any, of the natural acidity of the fruit ingredient.

(3) Pectin, in a quantity which reasonably compensates for deficiency, if any, of the natural pectin content of the fruit ingredient.

(4) Sodium citrate, sodium potassium tartrate, or any combination of these, in a quantity the proportion of which is not more than 3 ounces avoirdupois to each 100 pounds of the saccharine ingredient used.

(5) Sodium benzoate or benzoic acid or any combination of these, in a quantity reasonably necessary as a preservative.

Such mixture, with or without added water, is concentrated by heat to such point that the soluble-solids content of the finished preserve is not less than 68 percent if the fruit ingredient is specified in Group I of paragraph (b) of this section, and not less than 65 percent if the fruit ingredient is specified in Group II of paragraph (b) of this section. The soluble-solids content is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, page 322, under "Soluble Solids in Fresh and Canned Fruits, Jams, Marmalades, and Preserves—First Action," except that no correction is made for water-insoluble solids.

(b) The fruit ingredients referred to in paragraph (a) of this section are the following mature, properly prepared fruits which are fresh, frozen and/or canned:

GROUP I

Blackberry (other than dewberry).
Black raspberry.
Blueberry.
Boysenberry.
Cherry.
Crabapple.
Dewberry (other than boysenberry, loganberry, and youngberry).
Elderberry.
Grape.
Grapefruit.
Huckleberry.
Loganberry.
Orange.
Pineapple.
Raspberry, red raspberry.
Rhubarb.
Strawberry.
Tangerine.
Tomato.
Yellow tomato.
Youngberry.

Any combination of two, three, four, or five of such fruits in which the weight of each is not less than one-fifth of the weight of the combination; except that the weight of pineapple may be not less than one-tenth of the weight of the combination.

GROUP II

Apricot.
Cranberry.
Damson, damson plum.
Fig.
Gooseberry.
Greengage, greengage plum.
Guava.
Nectarine.
Peach.
Pear.
Plum (other than greengage plum and damson plum).
Quince.
Red currant, currant (other than black currant).

Any combination of two, three, four, or five of such fruits, or one or more of such fruits with one or more of the individual fruits specified in Group I, in which the weight of each is not less than one-fifth of the weight of the combination; except that the weight of pineapple may be not less than one-tenth of the weight of the combination.

Any combination of apple and one, two, three, or four of the individual fruits specified in this group or Group I in which the weight of each is not less than one-fifth, and the weight of apple is not more than one-half, of the weight of the combination; except that the weight of pineapple may be not less than one-tenth of the weight of the combination.

In any combination of two, three, four, or five fruits, each such fruit is an optional ingredient. For the purposes of this section, the word "fruit" includes the vegetables specified in this paragraph.

(c) Any requirement of this section with respect to the weight of any fruit, combination of fruits, or fruit ingredient means:

(1) The weight of fruit exclusive of the weight of any sugar, water, or other substance added for any processing or packing or canning, or otherwise added to such fruit:

(2) In the case of fruit prepared by the removal, in whole or in part, of pits, seeds, skins, cores, or other parts, the weight of such fruit, exclusive of the weight of all such substances removed therefrom; and

(3) In the cases of apricots, cherries, grapes, nectarines, peaches, and all varieties of plums, whether or not pits and seeds are removed therefrom, the weight of such fruit, exclusive of the weight of such pits and seeds.

(d) The optional saccharine ingredients referred to in paragraph (a) of this section are:

(1) Sugar.

(2) Invert sugar sirup.

(3) Any combination composed of optional saccharine ingredients (1) and (2).

(4) Any combination composed of dextrose and optional saccharine ingredient (1), (2), or (3).

(5) Any combination of corn sirup, glucose sirup, corn sirup solids, or any two or more of the foregoing with optional saccharine ingredient (1), (2), (3), or (4) in which the weight of the solids of corn sirup or glucose sirup or

both does not exceed one-fourth of the total weight of the solids of the combined saccharine ingredients.

(6) Honey.

(7) Any combination composed of honey and optional saccharine ingredient (1), (2), or (3), in which the weight of the solids of each component except honey is not less than one-tenth of the weight of the solids of such combination and the weight of honey solids is not less than two-fifths of the weight of the solids of such combination.

(e) For the purposes of this section:

(1) The weight of any optional saccharine ingredient means the weight of the solids of such ingredient.

(2) The term "sugar" means refined sugar (sucrose).

(3) The term "invert sugar sirup" means a sirup made by inverting or partly inverting sugar or partly refined sugar; its ash content is not more than 0.3 percent of its solids content, but if it is made from partly refined sugar, color and flavor other than sweetness are removed.

(4) The term "corn sirup" means a clarified, concentrated aqueous solution of the products obtained by incomplete hydrolysis of cornstarch. The solids of corn sirup contain not less than 40 percent by weight of reducing sugars calculated as anhydrous dextrose. The term "corn sirup solids" means dried corn sirup. The term "glucose sirup" means a sirup which conforms to the definition in this subparagraph for corn sirup, except that it is made from any edible starch.

(5) The term "dextrose" means refined anhydrous or hydrated dextrose made from any starch.

(f) The name of each preserve or jam for which a definition and standard of identity is prescribed by this section is as follows:

(1) If the fruit ingredient is a single fruit, the name is "Preserve" or "Jam," preceded or followed by the name or synonym whereby such fruit is designated in paragraph (b) of this section.

(2) If the fruit ingredient is a combination of two, three, four, or five fruits, the name is "Preserve" or "Jam," preceded or followed by the words "Mixed Fruit" or by the names or synonyms whereby such fruits are designated in paragraph (b) of this section, in the order of predominance, if any, of the weights of such fruits in the combination.

(g) (1) When optional ingredient (a) (1) is used, the label shall bear the word "spiced" or the statement "spice added" or "with added spice"; but in lieu of the word "spice" in such statements the common name of the spice may be used.

(2) When optional ingredient (a) (5) is used, the label shall bear the words "sodium benzoate" or "benzoic acid," or "sodium benzoate and benzoic acid," as the case may be, followed by the words "added as preservative."

(3) When optional saccharine ingredient (d) (7) is present, the label shall bear the names of the components of the combination whereby such components are designated in paragraph (d) of this section, in the order of predominance, if any, of the weights of such components in the combination. Such names shall be preceded by the words "prepared with."

(4) When optional saccharine ingredient (d) (6) is used, the label shall bear the statement "prepared with honey."

(5) When the fruit ingredient is a combination of two, three, four, or five fruits and the preserve is designated on its label by the name "Preserve" or "Jam," preceded or followed by the words "Mixed Fruit," the label shall bear the names or synonyms whereby such fruits are designated in paragraph (b) of this section, in the order of predominance, if any, of the weights of such fruits in the combination.

(h) Wherever the name specified in paragraph (f) of this section appears on the label of the preserve so conspicuously as to be easily seen under customary conditions of purchase, the words and statements herein specified, showing the optional ingredients used, shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the fruit used in preparing such preserve may so intervene.

§ 29.5 *Fruit jelly; identity; label statement of optional ingredients.* (a) The jellies for which definitions and standards of identity are prescribed by this section are the jelled foods each of which is made from a mixture composed of not less than 45 parts by weight (as determined by the method prescribed in paragraph (b) of this section) of one or any combination of two, three, four, or five of the fruit juice ingredients specified in paragraph (c) of this section to each 55 parts by weight (see paragraph (a) (1) of this section) of one of the optional saccharine ingredients specified in paragraph (d) of this section. Such mixture may also contain one or more of the following optional ingredients:

(1) Spice.

(2) A vinegar, lemon juice, lime juice, citric acid, lactic acid, malic acid, tartaric acid, or any combination of two or more of these, in a quantity which reasonably compensates for deficiency, if any, of the natural acidity of the fruit juice ingredient.

(3) Pectin, in a quantity which reasonably compensates for deficiency, if any, of the natural pectin content of the fruit juice ingredient.

(4) Sodium citrate, sodium potassium tartrate, or any combination of these, in a quantity the proportion of which is not more than 3 ounces avoirdupois to each 100 pounds of the saccharine ingredient used.

(5) Sodium benzoate or benzoic acid, or any combination of these, in a quantity reasonably necessary as a preservative.

(6) Mint flavoring and harmless artificial green coloring, in case the fruit juice ingredient or combination of fruit juice ingredients is extracted from apple, crabapple, pineapple, or two or all of such fruits.

Such mixture is concentrated by heat to such point that the soluble-solids content of the finished jelly is not less than 65 percent, as determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, page 495, under "Solids by Means of Refractometer—Official."

(b) Any requirement of this section with respect to the weight of any fruit juice ingredient, whether concentrated, unconcentrated, or diluted, means the weight determined by the following method: Determine the percent of soluble solids in such fruit juice ingredient by the method for soluble solids referred to in paragraph (a) of this section; multiply the percent so found by the weight of such fruit juice ingredient; divide the result by 100; subtract from the quotient the weight of any added sugar or other added solids; and multiply the remainder by the factor for such fruit juice ingredient prescribed in paragraph (c) of this section. The result is the weight of the fruit juice ingredient.

(c) Each of the fruit juice ingredients referred to in paragraph (a) of this section is the filtered or strained liquid extracted with or without the application of heat and with or without the addition of water, from one of the following mature, properly prepared fruits which are fresh, frozen and/or canned:

Name of fruit:	*Factor referred to in paragraph (b) of this section*
Apple	7.5
Apricot	7.0
Blackberry (other than dewberry)	10.0
Black raspberry	9.0
Cherry	7.0
Crabapple	6.5
Cranberry	9.5
Damson, damson plum	7.0
Dewberry (other than boysenberry, loganberry, and youngberry)	10.0
Fig	5.5
Gooseberry	12.0
Grape	7.0
Grapefruit	11.0
Greengage, greengage plum	7.0
Guava	13.0
Loganberry	9.5
Orange	8.0
Peach	8.5
Pineapple	7.0
Plum (other than damson, greengage, and prune)	7.0
Pomegranate	5.5
Quince	7.5
Raspberry, red raspberry	9.5
Red currant, currant (other than black currant)	9.5
Strawberry	12.5
Youngberry	10.0

In any combination of two, three, four, or five of such fruit juice ingredients the weight of each is not less than one-fifth of the weight of the combination. Each such fruit juice ingredient in any such combination is an optional ingredient.

(d) The optional saccharine ingredients referred to in paragraph (a) of this section are:

(1) Sugar.

(2) Invert sugar sirup.

(3) Any combination composed of optional saccharine ingredients (1) and (2).

(4) Any combination composed of dextrose and optional saccharine ingredient (1), (2), or (3).

(5) Any combination of corn sirup, glucose sirup, corn sirup solids, or any two or more of the foregoing with optional saccharine ingredient (1), (2),

(3), or (4) in which the weight of the solids of corn sirup or glucose sirup or both does not exceed one-fourth of the total weight of the solids of the combined saccharine ingredients.

(6) Honey.

(7) Any combination composed of honey and optional saccharine ingredient (1), (2), or (3), in which the weight of the solids of each component except honey is not less than one-tenth of the weight of the solids of such combination and the weight of honey solids is not less than two-fifths of the weight of the solids of such combination.

(e) For the purposes of this section:

(1) The weight of any optional saccharine ingredient means the weight of the solids of such ingredient.

(2) The term "sugar" means refined sugar (sucrose).

(3) The term "invert sugar sirup" means a sirup made by inverting or partly inverting sugar or partly refined sugar; its ash content is not more than 0.3 percent of its solids content, but if it is made from partly refined sugar, color and flavor other than sweetness are removed.

(4) The term "corn sirup" means a clarified, concentrated aqueous solution of the products obtained by the incomplete hydrolysis of cornstarch. The solids of corn sirup contain not less than 40 percent by weight of reducing sugars calculated as anhydrous dextrose. The term "corn sirup solids" means dried corn sirup. The term "glucose sirup" means a sirup which conforms to the definition in this subparagraph for corn sirup, except that it is made from any edible starch.

(5) The term "dextrose" means refined anhydrous or hydrated dextrose made from any starch.

(f) The name of each jelly for which a definition and standard of identity is prescribed by this section is as follows:

(1) In case the jelly is made with a single fruit juice ingredient, the name is "Jelly," preceded or followed by the name or synonym whereby the fruit from which such fruit juice ingredient was extracted is designated in paragraph (c) of this section.

(2) In case the jelly is made with a combination of two, three, four, or five fruit juice ingredients, the name is "Jelly," preceded or followed by the words "Mixed Fruit" or by the names or synonyms whereby the fruits from which the fruit juice ingredients were extracted are designated in paragraph (c) of this section, in the order of predominance, if any, of the weights of such fruit juice ingredients in the combination.

(g) (1) When optional ingredient (a) (1) is used, the label shall bear the word "spiced" or the statement "spice added" or "with added spice"; but in lieu of the word "spice" in such statements the common name of the spice may be used.

(2) When optional ingredient (a) (5) is used, the label shall bear the words "sodium benzoate" or "benzoic acid," or "sodium benzoate and benzoic acid," as the case may be, followed by the words "added as preservative."

(3) When optional ingredient (a) (6) is used, the label shall bear the statement "flavoring and artificial coloring added" or "with added flavoring and artificial coloring." The word "flavoring" in such statement may be preceded by the word "mint."

(4) When optional saccharine ingredient (d) (7) is used, the label shall bear the names of the components of the combination whereby such components are designated in paragraph (d) of this section, in the order of predominance, if any, of the weight of such components in the combination. Such names shall be preceded by the words "prepared with."

(5) When optional saccharine ingredient (d) (6) is used, the label shall bear the statement "prepared with honey."

(6) When a combination of two, three, four, or five fruit juice ingredients is used, and the jelly is designated on its label by the word "Jelly," preceded or followed by the words "Mixed Fruit," the label shall bear the names or synonyms whereby such fruits are designated in paragraph (c) of this section, in the order of the predominance, if any, of the weights of such fruit juice ingredients in the combination.

(h) Wherever the name specified in paragraph (f) of this section appears on the label of the jelly so conspicuously as to be easily seen under customary conditions of purchase, the words and statements herein specified, showing the optional ingredients used, shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the fruit used in preparing such jelly may so intervene.

PART 30—FRUIT BUTTERS; DEFINITIONS AND STANDARDS OF IDENTITY

§ 30.0 *Fruit butter; identity; label statement of optional ingredients.* (a) The fruit butters for which definitions and standards of identity are prescribed by this section are the smooth, semisolid foods each of which is made from a mixture composed of not less than five parts by weight (as determined by the method prescribed in paragraph (b) (1) of this section) of one or any combination of two, three, four, or five of the optional fruit ingredients specified in paragraph (c) of this section to each two parts by weight (see paragraph (e) (1) of this section) of one of the optional saccharine ingredients specified in paragraph (d) of this section, except that the use of such saccharine ingredient is not required when optional ingredient (5) is used. Such mixture may be seasoned with one or more of the following optional ingredients:

(1) Spice.

(2) Flavoring (other than artificial flavoring).

(3) Salt.

(4) A vinegar, lemon juice, lime juice, citric acid, lactic acid, malic acid, tartaric acid, or any combination of two or more of these.

Such mixture may also contain the optional ingredient:

(5) Fruit juice or diluted fruit juice or concentrated fruit juice; in a quantity not less than one-half the weight of the optional fruit ingredient.

Such mixture is concentrated by heat to such point that the soluble-solids content of the finished fruit butter is not less than 43 percent, as determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, page 322, under "Soluble Solids in Fresh and Canned Fruits, Jams, Marmalades, and Preserves—First Action," except that no correction is made for water-insoluble solids.

(b) (1) Any requirement of this section with respect to the weight of any optional fruit ingredient, whether concentrated, unconcentrated, or diluted, means the weight determined by the following method:

Determine the percent of soluble solids in the optional fruit ingredient by the method prescribed for determining soluble solids in paragraph (a) of this section; multiply the percent so found by the weight of such ingredient; divide the result by 100; subtract from the quotient the weight of any added sugar or any other added solids; and multiply the remainder by the factor for such ingredient prescribed in paragraph (c) of this section. The result is the weight of the optional fruit ingredient.

(2) For the purposes of this section, the weight of fruit juice or diluted fruit juice or concentrated fruit juice (optional ingredient (a) (5)) from a fruit specified in paragraph (c) of this section is the weight of such juice, as determined by the method prescribed in paragraph (b) (1) of this section, except that the percent of soluble solids is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, page 495, under "Solids by Means of Refractometer—Official"; the weight of diluted or concentrated juice from any other fruit is the original weight of the juice before it was diluted or concentrated.

(c) Each of the optional fruit ingredients referred to in paragraph (a) of this section is prepared by cooking one of the following fresh, frozen, canned, and/or dried (evaporated) mature fruits, with or without added water, and screening out skins, seeds, pits, and cores:

Name of fruit:	*Factor referred to in paragraph (b) (1) of this section*
Apple	7.5
Apricot	7.0
Grape	7.0
Peach	8.5
Pear	6.5
Plum (other than prune)	7.0
Prune	7.0
Quince	7.5

In any combination of two, three, four, or five fruit ingredients, the weight of each is not less than one-fifth of the weight of the combination.

(d) The optional saccharine ingredients referred to in paragraph (a) of this section are:

(1) Sugar.

(2) Invert sugar sirup.

(3) Brown sugar.
(4) Invert brown sugar sirup.
(5) Honey.
(6) Any combination of two or more of optional saccharine ingredients (1), (2), (3), and (4).
(7) Any combination of dextrose and optional saccharine ingredient (1), (2), (3), (4), or (6).
(8) Any combination of corn sirup, glucose sirup, corn sirup solids, or any two or more of the foregoing with optional saccharine ingredient (1), (2), (3), (4), (6), or (7) in which the weight of the solids of corn sirup or glucose sirup or both does not exceed one-fourth of the total weight of the solids of the combined saccharine ingredients.
(9) Any combination of honey and optional saccharine ingredient (1), (2), (3), (4), (6), or (7), in which the weight of the solids of each component except honey is not less than one-tenth of the weight of the solids of such combination, and the weight of honey solids is not less than two-fifths of the weight of the solids of such combination.

(e) For the purposes of this section:
(1) The weight of any optional saccharine ingredient means the weight of the solids of such ingredient.
(2) The term "sugar" means refined sugar (sucrose).
(3) The term "invert sugar sirup" means a sirup made by inverting or partly inverting sugar or partly refined sugar; its ash content is not more than 0.3 percent of its solids content, but if it is made from partly refined sugar, color and flavor other than sweetness are removed.
(4) The term "invert brown sugar sirup" means a sirup made by inverting or partly inverting brown sugar.
(5) The term "corn sirup" means a clarified, concentrated aqueous solution of the products obtained by the incomplete hydrolysis of cornstarch. The solids of corn sirup contain not less than 40 percent by weight of reducing sugars calculated as anhydrous dextrose. The term "corn sirup solids" means dried corn sirup. The term "glucose sirup" means a sirup which conforms to the definition in this subparagraph for corn sirup, except that it is made from any edible starch.
(6) The term "dextrose" means refined anhydrous or hydrated dextrose made from any starch.

(f) The name of each fruit butter for which a definition and standard of identity is prescribed by this section is as follows:
(1) In case the fruit butter is made from a single fruit ingredient, the name is "Butter," preceded by the name whereby such fruit is designated in paragraph (c) of this section.
(2) In case the fruit butter is made from a combination of two, three, four, or five fruit ingredients, the name is "Butter," preceded by the words "Mixed Fruit" or by the names whereby such fruits are designated in paragraph (c) of this section, in the order of predominance, if any, of the weight of such fruit ingredients in the combination.
(g) (1) When optional ingredient (a) (1) of this section is used, the label shall bear the word "spiced" or the statement "spice added" or "with added spice"; but in lieu of the word "spice" in such statements the common name of the spice may be used.
(2) When optional ingredient (a) (2) of this section is used, the label shall bear the statement "flavoring added" or "with added flavoring." The word "flavoring" in such statements may be preceded by the common name of the kind of flavoring used.
(3) When optional ingredient (a) (5) of this section is used, the label shall bear the words "prepared with _____ juice," the blank to be filled in with the name of the fruit from which the juice is obtained; but if apple juice is used, the word "cider" may be used in lieu of "apple juice."
(4) When optional saccharine ingredient (d) (5) of this section is used, the label shall bear the statement "prepared with honey."
(5) When optional saccharine ingredient (d) (9) is used, the label shall bear the names of the components of the combination whereby such components are designated in paragraph (d) of this section, in the order of predominance, if any, of the weights of such components in the combination. Such name shall be preceded by the words "prepared with."
(6) When the optional fruit ingredient is prepared in whole or in part from dried fruit, the label shall bear the words "prepared from" or "prepared in part from," as the case may be, followed by the word "evaporated" or "dried," followed by the name whereby such fruit is designated in paragraph (c) of this section. When two or more such optional fruit ingredients are used, such names, each preceded by the word "evaporated" or "dried," shall appear in the order of predominance, if any, of the weight of such ingredients in the combination.
(7) When a combination of two, three, four, or five optional fruit ingredients is used, and the fruit butter is designated on its label by the name "Mixed Fruit Butter," the label shall bear the names whereby the fruits from which such ingredients are prepared are designated in paragraph (c) of this section, in the order of predominance, if any, of the weights of such ingredients in the combination.
(8) The label statements required by subparagraphs (1) and (2) of this paragraph may be combined, as for example, "cinnamon oil and cloves added." The label statements required by two or more of subparagraphs (3), (4), (5), (6), and (7) of this paragraph may be combined, as for example, "prepared with cider, apples, dried prunes, and honey."

(h) Wherever the name specified in paragraph (f) of this section appears on the label of the fruit butter so conspicuously as to be easily seen under customary conditions of purchase, the words and statements specified in this section, showing the optional ingredients used, shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the fruit used in preparing such fruit butter may so intervene.

Any interested person whose appearance was filed at the hearing may, within thirty days from the date of publication of this tentative order in the FEDERAL REGISTER, file with the Hearing Clerk, Federal Security Agency, Room 5440, Federal Security Building, Fourth Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in this tentative order and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which such exceptions are based. Such exceptions may be accompanied by a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs shall be submitted in quintuplicate.

Dated: July 13, 1951.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

NOTICES

FEDERAL TRADE COMMISSION

[Docket No. 5757]

HAIR EXPERTS, INC., ET AL.

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

In the matter of Hair Experts, Inc., a corporation, and Robert W. Farrell, Harold E. Candler, and Abram Jacobson, individually and as officers of said corporation.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That James A. Purcell, a trial examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence in this proceeding begin on Thursday, July 26, 1951, at ten-thirty o'clock in the forenoon of that day (e. s. t.), in Courtroom 859, Post Office Building, Detroit, Michigan.

Issued: July 11, 1951.

By the Commission.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 128]

SLUMBERLAND PRODUCTS CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Slumberland Products Co., 144 Moody Street, Waltham 54, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of mattresses and box springs manufactured by Slumberland Products Co., 144 Moody Street, Waltham 54, Massachusetts, having the brand name(s) "Ambassador", "Excellency", "Deluxe Excellency" shall be the proposed retail ceiling prices listed by Slumberland Products Co., in its application dated April 4, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Slumberland Products Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for article of cost listed in column 1
$_____ per _____{unit, dozen, etc.}	Terms {net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8345; Filed, July 17, 1951; 2:56 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 129]

SIMPSON IMPORTS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Simpson Imports, Inc., 9 East Thirty-fifth Street, New York 16, New York (hereafter called wholesaler), has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that

the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of men's trousers and walking shorts sold at wholesale by Simpson Imports, Inc., 9 East Thirty-fifth Street, New York 16, N. Y., having the brand name(s) "DAKS" shall be the proposed retail ceiling prices listed by Simpson Imports, Inc., in its application dated May 17, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the wholesaler after the effective date of this special order.

3. On and after August 16, 1951, Simpson Imports, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the wholesaler's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the wholesaler shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the wholesaler had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The wholesaler shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1

$_____ per_____{unit, dozen, etc.} Terms {net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the wholesaler with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the wholesaler shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the wholesaler had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the wholesaler shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 130]

MAGNAVOX CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, The Magnavox Company, Fort Wayne 4, Indiana, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of television sets and radio-phonographs manufactured by The Magnavox Company, Fort Wayne 4, Indiana, having the brand name(s) "Magnavox" shall be the proposed retail ceiling prices listed by The Magnavox Company in its application dated April 21, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, The Magnavox Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to his special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1

$_____ per_____{unit, dozen, etc.} Terms {net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Prive Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 131]

REEFER-GALLER, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Reefer-Galler, Incorporated, 225 Fifth Avenue, New York, New York (hereafter called manufacturer and/or wholesaler) has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant, has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of moth preventatives manufactured and/or sold at wholesale by Reefer-Galler, Incorporated, 225 Fifth Avenue, New York, New York, having the brand name(s) "No-Moth", "Para-Pure", "Sla" shall be the proposed retail ceiling prices listed by Reefer-Galler, Incorporated, in its application dated April 11, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise price-

able under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer and/or wholesaler after the effective date of this special order.

3. On and after August 16, 1951, Reefer-Galler, Incorporated must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer and/or wholesaler shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer and/or wholesaler had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer and/or wholesaler shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer and/or wholesaler with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer and/or wholesaler shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer and/or wholesaler had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer and/or wholesaler shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8348; Filed, July 17, 1951; 2:57 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 132]

REED & BARTON CORP.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Reed & Barton Corporation, 144 West Britannia Street, Taunton, Mass., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of plated hollow ware, flatware chests, and sterling and plated flatware manufactured by Reed & Barton Corporation, 144 West Britannia Street, Taunton, Mass., having the brand name(s) "Reed & Barton" shall be the proposed retail ceiling prices listed by Reed & Barton Corporation in its application dated May 4, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. (and supplemented and amended in the manufacturer's applications dated May 10, 1951, and June 8, 1951). A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Reed & Barton Corporation must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form

stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.}	Terms {net, Percent EOM, etc.} $.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8349; Filed, July 17, 1951; 2:57 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 133]

SHWAYDER BROS., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Shwayder Bros., Inc., 1050 South Broadway, Denver 9, Colorado, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of luggage manufactured by Shwayder Bros., Inc., 1050 South Broadway, Denver 9, Colorado, having the brand name(s) "Samsonite Luggage" shall be the proposed retail ceiling prices listed by Shwayder Bros., Inc., in its application dated April 11, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Shwayder Bros., Inc. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to

the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit. dozen etc.} Terms {net. percent EOM. etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8350; Filed, July 17, 1951; 2:57 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 134]

DIAMOND FULL FASHIONED HOSIERY CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Diamond Full Fashioned Hosiery Company, Inc., 350 Fifth Avenue, New York 16, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of ladies' nylon hosiery manufactured by Diamond Full Fashioned Hosiery Company, Inc., 350 Fifth Avenue, New York 16, New York, having the brand name(s) "Fruit of the Loom" shall be the proposed retail ceiling prices listed by Diamond Full Fashioned Hosiery Company, Inc., in its application dated April 4, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Diamond Full Fashioned Hosiery Company, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marketing, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit. dozen etc.} Terms {net. Percent EOM. etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8351; Filed, July 17, 1951; 2:58 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 135]

MIRIAM GATES, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Miriam Gates, Incorporated, 64 South Division Street, Buffalo, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of bust pads, surgical pads, and bras manufactured by Miriam Gates, Incorporated, 64 South Division Street, Buffalo, New York, having the brand name(s) "Complements" shall be the proposed retail ceiling prices listed by Miriam Gates, Incorporated, in its application dated April 11, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Miriam Gates, Incorporated, must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit. dozen. etc.} Terms {net. Percent EOM. etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amend-

ment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 136]

GOLD SEAL IMPORTERS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Gold Seal Importers, Inc., 30 East Thirty-third Street, New York 16, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of ladies' handbags manufactured by Gold Seal Importers, Inc., 30 East Thirty-third Street, New York 16, New York, having the brand name(s) "Bags by Josef" shall be the proposed retail ceiling prices listed by Gold Seal Importers, Inc., in its application dated May 9, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Gold Seal Importers, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. after 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1

$_____ per_____{unit, dozen, etc.} Terms {net, Percent EOM, etc.}

$ _____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8353; Filed, July 17, 1951; 2:58 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 137]

B. V. D. CO., INC.

CEILING PRICES AT RETAIL

Statement of consideration. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, B. V. D. Company, Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order allows for establishment of a cost bracket to the retailer, which bracket applies to a specific retail price. The costs of the articles purchased by the retailer should, on the average, fall evenly between the polar ends of each cost bracket and will thus maintain the general historical markup pattern. The establishment of such cost brackets permits minor changes in costs without influencing the general level of retail prices of the articles in question.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of men's underwear, sport shirts, pajamas, swim trunks, and swim wear distributed by the B. V. D. Company, Inc., 350 Fifth Avenue, New York 1, New York, having the brand name "B. V. D." and described in applicant's application dated March 20, 1951. Sales may, of course, be made at less than these ceiling prices. The applicant's prices listed below carry the following terms: Underwear 2/10 EOM or net 60 days, at the retailer's option; sport shirts and pajamas 3/10 EOM or 2/10 60 days, at the retailer's option; swim trunks and swim wear 3/10 EOM, f. o. b., Baltimore, Maryland.

Applicant's selling price (per dozen)	*Ceiling price at retail (per unit)*
$5.25– $5.50	$0.75
5.51– 5.99	.80
6.00– 6.50	.85
6.51– 7.00	.95
7.01– 7.75	1.00
7.76– 8.25	1.15
8.26– 9.00	1.25
9.01– 9.50	1.35
9.51– 10.00	1.45
10.01– 11.00	1.50
11.01– 12.00	1.65
12.01– 13.00	1.75
13.01– 13.99	1.85
14.00– 15.00	1.95
15.01– 15.49	2.00
15.50– 16.00	2.15
16.01– 16.50	2.25
16.51– 17.00	2.35
17.01– 17.50	2.45
17.51– 18.50	2.50
18.51– 19.50	2.65
19.51– 20.00	2.75
20.01– 20.99	2.85
21.00– 22.00	2.95
22.01– 22.75	3.15
22.76– 24.50	3.25
24.51– 25.50	3.50
25.51– 26.00	3.65

56.01– 57.50	7.95
57.51– 59.00	8.25
59.01– 62.00	8.50
62.01– 63.99	8.75
64.00– 66.00	8.95
66.01– 68.50	9.50
68.51– 70.50	9.75
70.51– 72.00	9.95
77.50– 79.50	10.95
84.00– 86.00	11.95
92.00– 93.00	12.95
96.00– 97.00	13.50
106.00–108.00	14.95

2. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation falling within the same bracket of selling prices to the retailer, the same brand or company name and first sold by the applicant after the effective date of this special order.

3. On and after August 16, 1951, B. V. D. Company, Inc., must mark each article listed in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraph 1 or this special order or changes the retail ceiling price of a listed article, B. V. D. Company, Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marketing, tagging and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the applicant shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the applicant had delivered any article covered in paragraph 1 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of any subsequent amendment to the special order, the applicant shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the applicant shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it re-

gardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8354; Filed, July 17, 1951; 2:58 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 138]

KING LEATHERS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, King Leathers, Inc., Rice Avenue, Indiana, Pennsylvania, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of billfolds, key cases, wallets, pocket secretaries, card cases manufactured by King Leathers, Inc., Rice Avenue, Indiana, Pennsylvania, having the brand name(s) "King" shall be the proposed retail ceiling prices listed by King Leathers, Inc., in its application dated April 30, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, King Leathers, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.}	Terms {net, percent, EOM, etc.} $.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 139]

WARREN LEATHER GOODS CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Warren Leather Goods Company, 86 Austin Street, Worcester 2, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of men's and women's luggage, picnic kits and vacuum bottle cases manufactured by Warren Leather Goods Company, 86 Austin Street, Worcester 2, Massachusetts, having the brand name(s) "Warren" shall be the proposed retail ceiling prices listed by Warren Leather Goods Company in its application dated April 13, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Warren Leather Goods Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

Column 1 Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 140]

BENJAMIN & JOHNES, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Benjamin & Johnes, Inc., 42 Warren Street, Newark 2, New Jersey, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceil-

ing prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of foundation garments manufactured by Benjamin & Johnes, Inc., 42 Warren Street, Newark 2, New Jersey, having the brand name(s) "Bien Jolie" shall be the proposed retail ceiling prices listed by Benjamin & Johnes, Inc. in its application dated May 4, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Benjamin & Johnes, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $ --------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 141]

IROQUOIS CHINA CO.

CEILING PRICES AT RETAIL

Statement of Considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, The Iroquois China Company, 2320 Milton Avenue, Syracuse 9, New York has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling prices established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to Section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of vitrified china dinnerware manufactured by The Iroquois China Company, 2320 Milton Avenue, Syracuse 9, New York, having the brand name "Russel Wright China by Iroquois", shall be the proposed retail ceiling prices listed by The Iroquois China Company in its application dated June 19, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, The Iroquois China Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by the special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months' period following the effective date of this special order and within 45 days of the expiration of each successive 6 months' period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months' period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8358; Filed, July 17, 1951; 2:59 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 143]

VASSAR CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Vassar Company has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this Special Order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of girdles and pantie girdles manufactured by Vassar Company, 2545 Diversey Avenue, Chicago 47, Illinois, having the brand name "Vassarette," and described in the manufacturer's application dated April 17, 1951. Sales may, of course, be made at less than these ceiling prices. The manufacturer's prices listed below carry terms of 2/10 EOM, net 60.

GIRDLES AND PANTIE GIRDLES

Manufacturer's selling price (per dozen)	*Ceiling price at retail (per unit)*
$25.50	$3.95
38.04	5.95
42.00	7.50
46.20	7.95
65.40	10.95
90.00	15.00

2. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Vassar Company must mark each article listed in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraph 1 of this special order or changes the retail ceiling price of a listed article, Vassar Company must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8360; Filed, July 17, 1951; 3:00 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 142]

HAMILTON MANUFACTURING CORP.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Hamilton Manufacturing Corporation, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

It has been the applicant's custom in the past to maintain two selling zones. Zone 1 is that area of the United States consisting of the District of Columbia and all States not included in Zone 2. Zone 2 consists of the States of Arizona, California, Colorado, Florida, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington, and Wyoming.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of household stools, chairs, utility tables, and carts manufactured by Hamilton Manufacturing Corporation, 1501 Cottage Avenue, Columbus, Indiana, having the brand name "Cosco" and described in the applicant's application dated March 7, 1951. The applicant's prices to all classes of retailers carry terms of 2/10 net 30.

ZONE 1

[That area of the United States consisting of the District of Columbia and all States not included in Zone 2]

2. On and after August 16, 1951, Hamilton Manufacturing Corporation must mark each article listed in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraph 1 of this special order or changes the retail ceiling price of a listed article, Hamilton Manufacturing Corporation must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

3. Within 15 days after the effective date of this special order, the applicant shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the applicant had delivered any article covered in paragraph 1 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the applicant shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, he had delivered any article the sale of which is affected in any manner by the amendment.

Each person selling to retailers the articles covered by this order must send a copy of this order or any subsequent amendments thereto to each of his purchasers on or before the date of the first delivery of any article covered by this special order or any subsequent amendment thereto. The applicant must provide an adequate supply of copies of this order or any subsequent amendments thereto to all of his purchasers selling to retailers to whom he had sold articles covered by this order or any subsequent amendments thereto within sixty days prior to the effective date of the special order or any subsequent amendments thereto.

In all cases, the special order or any subsequent amendments thereto must have annexed thereto a notice listing the articles covered by this special order and any subsequent amendments thereto describing each article by style, model, lot number or other description and listing the corresponding retail ceiling price fixed by this special order or any subsequent amendments thereto for each such article. The notice shall be in substantially the form set forth in paragraph 1 above.

4. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the applicant shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

5. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

6. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

7. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8359; Filed, July 17, 1951; 3:00 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 144]

TOWLE MANUFACTURING CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Towle Manufacturing Company, 260 Merrimac Street, Newburyport, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of sterling silver and flatware manufactured by Towle Manufacturing Company, 260 Merrimac Street, Newburyport, Massachusetts, having the brand name(s) "Towle Sterling" shall be the proposed retail ceiling prices listed by Towle Manufacturing Company, in its application dated April 20, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C., (and supplemented and amended in the manufacturer's application dated June 1, 1951). A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Towle Manufacturing Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to

the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit. dozen. etc.} Terms {net. percent EOM. etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 145]

JOSIAH WEDGWOOD & SONS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Josiah Wedgwood & Sons., 24 East Fifty-fourth Street, New York 22, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of china and glassware manufactured by Josiah Wedgwood & Sons, Inc., 24 East Fifty-fourth Street, New York 22, New York, having the brand name(s) "Wedgwood" and "Whitefriars" shall be the proposed retail ceiling prices listed by Josiah Wedgwood & Sons, Inc., in its application dated April 27, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Josiah Wedgwood & Sons, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit. dozen. etc.} Terms {net. percent EOM. etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 147]

EDITH LANCES CORP.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Edith Lances Corp., 31 East Thirty-first Street, New York, New York, has applied to the Office of Price Stabilization for maximum re ale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's brassieres manufactured by Edith Lances Corp., 31 East Thirty-first Street, New York, N. Y., having the brand name(s) "Edith Lances" shall be the proposed retail ceiling prices listed by Edith Lances Corp., in its application dated May 8, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Edith Lances Corp. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit. dozen. etc.} Terms {net. percent EOM. etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the

sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8396; Filed, July 17, 1951; 4:52 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 148]

THE DUBLIFE COLLAR CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, The Dublife Collar Co., 200 Worth Street, New York 13, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of replaceable collars, cuffs, neckbands, pockets, collar stays and waistband pads manufactured by The Dublife Collar Co., 200 Worth Street, New York 13, New York, having the brand name(s) "Dublife" and "Klings" shall be the proposed retail ceiling prices listed by The Dublife Collar Co. in its application dated May 15, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, The Dublife Collar Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 149]

MOELLER MANUFACTURING CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Moeller Manufacturing Co., Inc., 2401 Durand Avenue, Racine, Wisconsin; has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of a vacuum bottle stopper manufactured by Moeller Manufacturing Co., Inc., 2401 Durand Avenue, Racine, Wisconsin, having the brand name(s) "Snap-Tite" shall be the proposed retail ceiling prices listed by Moeller Manufacturing Co., Inc., in its application dated May 10, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Moeller Manufacturing Co., Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 150]

LESLIE FAY FASHIONS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Leslie Fay Fashions, Inc., 1400 Broadway, New York 18, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evi-

dence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of misses' dresses manufactured by Leslie Fay Fashions, Inc., 1400 Broadway, New York 18, New York, having the brand name(s) "Leslie Fay" shall be the proposed retail ceiling prices listed by Leslie Fay Fashions, Inc., in its application dated May 7, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Leslie Fay Fashions, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$----- per-----	unit. / dozen. / etc. Terms net. / percent EOM. / etc. $-------

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 151]

AMERICAN GIRL SHOE CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, American Girl Shoe Co., 120 Kingston Street, Boston, Massachusetts (hereafter called wholesaler), has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's and misses' shoes sold at wholesale by American Girl Shoe Co., 120 Kingston Street, Boston, Massachusetts, having the brand name(s) "American Girl Shoe" shall be the proposed retail ceiling prices listed by American Girl Shoe Co. in its application dated March 16, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. (and supplemented and amended in the wholesaler's application dated May 8, 1951). A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the wholesaler after the effective date of this special order.

3. On and after August 16, 1951, American Girl Shoe Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the wholesaler's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the wholesaler shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the wholesaler had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The wholesaler shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$----- per-----	unit. / dozen. / etc. Terms net. / percent EOM. / etc. $-------

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the wholesaler with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the wholesaler shall send a copy of the amendment to each purchaser to whom within 2 months immediately prior to the effective date of such amendment, the wholesaler had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months' period following the effective date of this special order and within 45 days of the expiration of each successive 6 months' period, the wholesaler shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months' period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8400; Filed, July 17, 1951; 4:54 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 146]

JOSEPH A. KAPLAN & SONS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Joseph A. Kaplan & Sons, Inc., 350 Fifth Avenue, New York 1, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of shower curtains and matching window drapes manufactured by Joseph A. Kaplan & Sons, Inc., 350 Fifth Avenue, New York 1, N. Y., having the brand name(s) "Koroseal" shall be the proposed retail ceiling prices listed by Joseph A. Kaplan & Sons, Inc., in its application dated May 9, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than Sep-

tember 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling price.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Joseph A. Kaplan & Sons, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 152]

LENOX, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Lenox, Incorporated, Trenton 5, New Jersey, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of dinnerware, service plates, hand painted china, and figurines manufactured by Lenox, Incorporated, Trenton 5, New Jersey having the brand name(s) "Lenox" shall be the proposed retail ceiling prices listed by Lenox, Incorporated in its application dated April 19, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Lenox, Incorporated, must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 153]

ROSENBLUMS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Rosenblums, Inc., 746 South Los Angeles Street, Los Angeles, California, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to Section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's suits, toppers, skirts, and jackets manufactured by Rosenblums, Inc., 746 South Los Angeles Street, Los Angeles, California, having the brand name(s) "Rosenblum" shall be the proposed retail ceiling prices listed by Rosenblums, Inc., in its application dated May 8, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Rosenblums, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation

which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 154]

KAY DUNHILL, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Kay Dunhill, Inc., Long Branch, New Jersey, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's and misses' dresses manufactured by Kay Dunhill, Inc., Long Branch, New Jersey, having the brand name(s) "Kay Dunhill" shall be the proposed retail ceiling prices listed by Kay Dunhill, Inc., in its application dated April 19, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Kay Dunhill, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 155]

THE SALISBURY CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, The Salisbury Company, 104 Second Avenue SE., Minneapolis 14, Minn., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of mattresses and box springs manufactured by The Salisbury Company, 104 Second Avenue, SE., Minneapolis 14, Minn., having the brand name(s) "Salisbury" shall be the proposed retail ceiling prices listed by The Salisbury Company in its application dated April 17, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, The Salisbury Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise

subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[F. R. Doc. 51-8405; Filed, July 17, 1951; 4:55 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 156]

THE GOTTFRIED CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, The Gottfried Company, 1778 East Thirtieth Street, Cleveland, Ohio, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's and misses' dresses manufactured by The Gottfried Company, 1778 East Thirtieth Street, Cleveland, Ohio, having the brand name(s) "Mynette", "Marie Dressler", and "Maurene" shall be the proposed retail ceiling prices listed by The Gottfried Company in its application dated May 7, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, The Gottfried Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

Column 1	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$----- per-----{unit, dozen, etc.	Terms{net, percent EOM, etc. $----

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 157]

CASTLETON CHINA, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Castleton China, Inc., 212 Fifth Avenue, New York 10, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to Section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of dinnerware manufactured by Castleton China, Inc., 212 Fifth Avenue, New York 10, New York, having the brand name(s) "Castleton China" shall be the proposed retail ceiling prices listed by Castleton China, Inc., in its application dated April 12, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the FEDERAL REGISTER as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Castleton China, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $ --------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$----- per-----{unit, dozen, etc.	Terms{net, percent EOM, etc. $----

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 158]

DULANE, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Dulane, Inc., 8550 West Grant Avenue, River Grove, Illinois, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of automatic electric deep fryers, manufactured by Dulane Inc., 8550 West Grand Avenue, River Grove, Illinois, having the brand name(s) "Fryryte," shall be the proposed retail ceiling prices listed by Dulane, Inc., in its application dated April 27, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Dulane, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$----- per----- {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $-----

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 159]

KENDALL MILLS DIVISION OF THE KENDALL CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Kendall Mills Division of The Kendall Company, Walpole, Massachusetts, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of diapers, nursery pads, nursery fluffs, nursery bibs, nursery cotton (packages) and nursery masks manufactured by Kendall Mills Division of The Kendall Company, Walpole, Massachusetts, having the brand name(s) "Curity" shall be the proposed retail ceiling prices listed by Kendall Mills Division of The Kendall Company in its application dated March 8, 1951, and filed with the Office of Price Stabilization, Washington

25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to his special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Kendall Mills Division of The Kendall Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within 2 months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$----- per----- {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $-----

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 160]

SCOTT RADIO LABORATORIES, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Scott Radio Laboratories, Inc., 4541 Ravenswood Avenue, Chicago 40, Illinois, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of television receivers manufactured by Scott Radio Laboratories, Inc., 4541 Ravenwood Avenue, Chicago 40, Illinois, having the brand name(s) "Scott", shall be the proposed retail ceiling prices listed by Scott Radio Laboratories, Inc., in its application dated April 24, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Scott Radio Laboratories, Inc., must mark each article for which a ceiling price

has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within 2 months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1

$_____ per_____{unit. / dozen. / etc.} Terms {net. / percent EOM. / etc.}
$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 161]

JACQUES KREISLER MANUFACTURING CORP.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Jacques Kreisler Manufacturing Corporation, 9015 Bergenline Avenue, North Bergen, New Jersey, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's and men's leather and metal watch bands, jewelry and pocket knives manufactured by Jacques Kreisler Manufacturing Corporation, 9015 Bergenline Avenue, North Bergen, New Jersey, having the brand name(s) "Jacques Kreisler" and "Kreisler" shall be the proposed retail ceiling prices listed by Jacques Kreisler Manufacturing Corporation in its application dated April 25, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 15, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 16, 1951, Jacques Kreisler Manufacturing Corporation must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 15, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 15, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the

applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1

$_____ per_____{unit. / dozen. / etc.} Terms {net. / percent EOM. / etc.}
$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 17, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 17, 1951.

Whereas the Council of the Allied High Commission for Germany has enacted Law No. 35 dated 17th August 1950, providing for the dissolution and the winding-up of the corporate entity of I. G. Farbenindustrie A. G. and the dispersal of its assets in Western Germany, and has appointed the Tripartite I. G. Farben Control Group as the agency to carry out the terms of the Law, all creditors who assert claims not yet satisfied against any of the above companies and whose claims originated prior to 5 July 1945 are hereby required to file their claims with the

Tripartite I. G. Farben Control Group
Secretariat
Registration Office for Creditors' Claims
28 Mainzor Landstrasse,
Frankfurt am Main,
Germany

as follows:

(a) Creditors, having their residence, legal seat or their management, within Western Germany and the Western Sectors of Berlin within three months after the date of this Final Appeal; outside of Western Germany and the Western Sectors of Berlin within six months after the date of this Final Appeal.

(b) The claims should be filed in three copies, separately for each debtor company, and should contain the following statements:

(I) Full name and address of the creditor,

(II) The creditor's present domicile and nationality and his domicile and nationality at the time when his claim came into existence,

(III) Name of the debtor company,

(IV) Amount of the claim as of 5th July 1945,

(V) Brief description of the claim and its origin,

(VI) Reference to records evidencing the claim, and to correspondence, if any, referring to such claim.

Creditors required to file claims according to this Final Appeal are those claimants described in Article 5, Para 4, of the AHC Law N . 35 with the following exceptions:

(a) Shareholders;

(b) Creditors, who have already filed their claims in accordance with the Appeal to creditors dated 1st August 1950, issued by the Tripartite I. G. Farben Control Office;

(c) Creditors, who have claims in respect of unpaid wages, salaries or pensions and who are receiving payments in respect of such current claims from the debtor companies.

Claims not filed within the periods prescribed might be disregarded by the Tripartite I. G. Farben Control Group.

The appeal does not apply to creditors of the companies listed in Part II of the Schedule to the AHC Law No. 35 since the Tripartite I. G. Farben Control Group is not presently dealing wtih claims against the assets of these companies.

Frankfurt on the Main, 1 February 1951.
Tripartite I. G. Farben Control Group,
Secretariat.

Publication of this notice is not intended to and does not in any way add to or detract from the presently existing legal force and effect of the matter quoted above.

For the Secretary of State.

GEOFFREY W. LEWIS,
Deputy Director,
Bureau of German Affairs.

DEPARTMENT OF AGRICULTURE

Forest Service

CARSON NATIONAL FOREST

REMOVAL OF TRESPASSING HORSES

Whereas a number of horses are trespassing and grazing on the Jicarilla Ranger District of the Carson National Forest, in Rio Arriba County, State of New Mexico; and

Whereas these horses are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897 (30 Stat. 35; 16 U. S. C. 551), and the Act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), the following order is issued for the occupancy, use, protection, and administration of land in the Jicarilla Ranger District of the Carson National Forest:

Temporary closure from livestock grazing. (a) The Jicarilla Ranger District in the Carson National Forest is hereby closed for the period November 1, 1951 to May 10, 1952, to the grazing of horses, excepting those that are lawfully grazing on or crossing land in such District pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations, or that are used as riding, pack, or draft animals by persons traveling over such land, which is located in Townships 27, 28, 29, 30, 31, and 32 North, Range 4 West, and parts of Townships 29, 30, 31, and 32, Range 5 West, Rio Arriba County, New Mexico.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Carson National Forest is located.

Done at Washington, D. C., this 16th day of July 1951. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 51-8320; Filed, July 19, 1951; 8:49 a. m.]

Production and Marketing Administration

SAN ANTONIO HORSE AND MULE MARKET

DEPOSTING OF STOCKYARD

It has been ascertained that the San Antonio Horse and Mule Market, San Antonio, Texas, originally posted on October 11, 1937, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it is no longer being conducted or operated as a public livestock market. Therefore, notice is given to the owner of such stockyard and to the public that such stockyard is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not depositing promptly a stockyard which is no longer being conducted or operated as a public livestock market and is, therefore, no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 17th day of July 1951.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

[F. R. Doc. 51-8414; Filed, July 19, 1951; 9:03 a. m.]

FEDERAL POWER COMMISSION

[Docket Nos. G-962, G-1070, G-1248, G-1290, G-1741]

TENNESSEE GAS TRANSMISSION CO.

ORDER REJECTING FPC GAS TARIFF AND SUSPENDING PROPOSED FPC GAS TARIFF

JULY 12, 1951.

On June 14, 1951, Tennessee Gas Transmission Company (TGT) filed with the Commission FPC Gas Tariff Original Volume No. 1, Rate Schedules G-4, G-5, and S-5, to take effect as of July 15, 1951.[1]

At the same time, TGT filed with the Commission FPC Gas Tariff, First Revised Volume No. 1, superseding Rate Schedules CD-1, CD-2, CD-3, CD-4, and CD-5; Rate Schedules G-1, G-2, G-3, G-4, G-5, and G-6; Rate Schedules R-1, R-2, R-3, and R-4; Rate Schedules S-1 and S-5; Rate Schedules T-1 and T-4. Said First Revised Volume No. 1 included the following rate schedules not previously on file: Rate Schedules E-1, E-2, E-3, E-4, and E-5. Additionally, the rate schedules for firm service provide for an assessment of a penalty for unauthorized over-run, and changes in the form of Service Agreement, and changes in the General Terms and Conditions. Said FPC Gas Tariff, First Revised Volume No. 1, is proposed to take effect as of July 16, 1951.

On December 7, 1948, May 3, 1949, and July 26, 1949, the Commission entered orders issuing certificates of public convenience and necessity at Docket Nos. F-962 and G-1070 authorizing TGT to construct and operate certain natural-gas pipeline facilities, on condition that TGT file satisfactory schedules of rates and charges for the transportation and sale of natural gas therein proposed. Pursuant to such condition TGT tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, proposed rate schedules CD-4, CD-5, T-1, and T-4, and certain service agreements under said Rate Schedules CD-4 and CD-5. By order of September 15, 1950, the Commission, for reasons therein stated, postponed determination of the issue whether said rate filings satisfied the conditions of the orders issuing the certificates hereinbefore mentioned, and permitted Rate Schedules CD-4, CD-5, T-1, and T-4 to take effect on an interim basis, for a period commencing August 1, 1950, and extending to, but not including, December 1, 1951, subject to the conditions therein stated. By the same order, the Commission rejected the proposed service agreements.

By order of February 13, 1951, pursuant to the condition in the orders issuing certificates at Docket Nos. G-962 and G-1070, all as above referred to, the Commission allowed Rate Schedule R-4 to become effective on an interim basis contemporary with the interim period of Rate Schedules CD-4, CD-5, T-1, and T-4, and subject to the same conditions.

On November 4, 1950, the Commission by Opinion No. 202 and order therein, issued to TGT, at Docket Nos. G-1248 and G-1290, certificates of public convenience and necessity on the following terms and conditions, among others:

(1) Tennessee shall submit at least three months prior to the commencement of its operations in the Northern and New York zones, authorized herein, rate schedules and service agreements in a form satisfactory to the Commission for the transportation and sale of natural gas, which shall provide rates for firm service which will produce charges not in excess of those which would result from a demand charge of $3.00 per Mcf per month and a commodity charge of 20.7 cents per Mcf in the New York rate zone and rates for firm service in the Northern zone which will produce charges not in excess of those which would result from a demand charge of $2.40 per Mcf per month and a commodity charge of 15.2 cents per Mcf. Such rate schedules shall include a rate for the sale of seller's option gas to New York State Natural which will provide a reduction equivalent to the reduction herein required in the rate for firm gas in the New York zone. Such rate schedules shall include a transportation rate for service in the Northern zone which will provide a 2-cent reduction in the presently effective interim rate for that service.

TGT's proposed FPC Gas Tariff, Original Volume No. 1, containing Rate Schedules G-4, G-5, and S-5, as filed on June 14, 1951, provides for Rate Schedule G-4 a demand charge of $2.40 per Mcf per month and a commodity charge of 17.2 cents per Mcf; a demand charge of $3.40 per Mcf per month and a commodity charge of 21.2 cents per Mcf for Rate Schedule G-5; and 26.72 cents per Mcf for Rate Schedule S-5. These rates and charges do not conform to the rates and charges set forth in the condition attached to the issuance of the certificates at Docket Nos. G-1248 and G-1290, referred to above.

According to information furnished by TGT, the rates and charges proposed in TGT's FPC Gas Tariff, First Revised Volume No. 1, as filed June 14, 1951, would increase TGT's revenues for the 12 months ending July 31, 1951 from $66,957,864 to $80,889,219; and for the 12 months ending July 31, 1952, the proposed increased rates and charges would increase revenues from $83,264,058 to $99,613,895. The above figures do not take into account the rates and charges fixed by the Commission in its order of November 4, 1950 at Docket Nos. G-1248 and G-1290, so that the increase would be larger if such lower rates and charges were used.

The Commission finds:

(1) TGT's FPC Gas Tariff, Original Volume No. 1, Rate Schedules G-4, G-5, and S-5 proposed to be made effective as of July 15, 1951, do not meet the requirements of the conditions in the orders of the Commission of December 7, 1948, May 3, 1949, and July 26, 1949 at Docket Nos. G-962 and G-1070, and of November 4, 1950 at Docket Nos. G-1248 and G-1290; and such rate schedules should be rejected.

(2) TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules CD-4, CD-5, G-4, G-5, R-4, S-5, T-3, and T-4, proposed to be made effective as of July 16, 1951, do not meet the requirements of the conditions in the orders of the Commission referred to in paragraph (1) above, and such rate schedules should be rejected.

(3) TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules CD-1, CD-2, CD-3, G-1, G-2, G-3, R-1, R-2, R-3, and S-3, including the provisions for assessment of a penalty for unauthorized over-run and changes in the form of Service Agreement and changes in the General Terms and Conditions proposed to be made effective as of July 16, 1951, superseding FPC Gas Tariff, Original Volume No. 1, Rate Schedules CD-1, CD-2, CD-3, G-1, G-2, G-3, G-6, R-1, R-2, R-3, and S-1, may be unjust, unreasonable, unduly discriminatory or preferential, and may place an undue burden upon ultimate consumers of natural gas, so that the Commission should enter upon a hearing, pursuant to section 4 of the Natural Gas Act, concerning the lawfulness of the rates, charges, and classifications, including rules, regulations, and contracts relating thereto, of the rate schedules referred to in this paragraph, and said rate schedules should be suspended pending hearing and decision thereon.

(4) TGT's FPC Gas Tariff, First Revise Volume No. 1, Rate Schedules E-1, E-2, E-3, E-4 and E-5 should be allowed to become effective as of July 16, 1951, as an initial rate filing. No authorization has been granted in any certificate proceeding authorizing such emergency service, unless TGT offers such emergency service pursuant to § 157.14 of the Commission's rules of practice and procedure. Such rates, charges, and classifications may be unjust, unreasonable, unduly discriminatory or preferential, and may place an undue burden on ultimate consumers of natural gas, so that the Commission on its own motion should enter upon a hearing pursuant to the authority contained in section 5 of the Natural Gas Act, concerning the lawfulness of the

[1] On June 26, 1951, TGT filed Original Sheet No. 50, correcting an error in Rate Schedule S-5; and on July 6, 1951, Original Sheet Nos. 13 and 16, First Revised Sheets Nos. 10 and 19, Second Revised Sheets Nos. 4 and 7, modifying the availability of TGT's present Rate Schedules G-1, G-2, G-3, and G-6, and proposed Rate Schedules G-4 and G-5.

rates, charges, and classifications of the rate schedules, including rules, regulations or contracts relating thereto, referred to in this paragraph.

The Commission orders:

(A) TGT's FPC Gas Tariff, Original Volume No. 1, Rate Schedules G–4, G–5 and S–5, submitted for filing on June 14, 1951, and Original Sheet No. 50 filed on June 26, 1951, and Original Sheets Nos. 13 and 16, filed on July 6, 1951, and proposed to become effective on July 15, 1951, be and the same are hereby rejected, and they shall have no force and effect as schedules of rates and charges filed under section 4 of the Natural Gas Act, until further order of the Commission.

(B) TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules CD–4, CD–5, G–4, G–5, R–4, S–5, T–3, and T–4, submitted for filing on June 14, 1951, and proposed to become effective on July 16, 1951, be and the same are hereby rejected, and they shall have no force and effect as schedules of rates and charges filed under section 4 of the Natural Gas Act, until further order of the Commission.

(C) TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules CD–1, CD–2, CD–3, G–1, G–2, G–3, R–1, R–2, R–3, and S–3, including the provisions for assessment of a penalty for unauthorized over-run and changes in the form of Service Agreement and changes in the General Terms and Conditions, submitted for filing on June 14, 1951, and proposed to become effective on July 16, 1951, be and the same are hereby suspended, pursuant to section 4 of the Natural Gas Act, and pending a hearing and decision thereon, their use is deferred until December 16, 1951, and until such further time as such rate schedules may be made effective in the manner prescribed by the Natural Gas Act.

(D) TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules E–1, E–2, E–3, E–4 and E–5 be accepted for filing effective as of July 16, 1951.

(E) TGT's FPC Gas Tariff, Original Volume No. 1, First Revised Sheets Nos. 10 and 19, and Second Revised Sheets Nos. 4 and 7, be accepted for filing, effective as of July 15, 1951.

(F) The acceptance for filing of TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules E–1, E–2, E–3, E–4 and E–5, First Revised Sheets Nos. 10 and 19 and Second Revised Sheets Nos. 4 and 7, shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act; nor shall it be construed as constituting approval by this Commission of any service, rate, charge, classification, or any rule, regulation, contract, or practice affecting such service or rate provided for in the above-described rate schedules, nor shall this order be deemed as recognition of any claimed contractual right or obligation affecting or relating to such service or rate.

(G) The Commission enter upon a hearing, pursuant to section 5 of the Natural Gas Act, to determine whether TGT's FPC Gas Tariff, First Revised Volume No. 1, Rate Schedules E–1, E–2, E–3, E–4, and E–5, submitted for filing on June 14, 1951, and proposed to become effective on July 16, 1951, is unjust, unreasonable, unduly discriminatory, or preferential, and if after hearing, the Commission shall find such rate schedules, including any rate, charge, classification, rule, regulation, practice, or contract relating thereto is unjust, unreasonable, unduly discriminatory or preferential, it will determine and fix by order or orders the just, reasonable, nondiscriminatory, and non-preferential rates, charges, classifications, rules, regulations, practices, and contracts to be filed and thereafter observed and enforced.

(H) Nothing herein shall be construed as limiting the right of the Commission with respect to the extension, cancelation, or other action concerning any rate schedule of TGT now on file with the Commission on an interim base, nor as limiting the right of the Commission to permit any new rate schedule to become effective on an interim basis.

(I) Pursuant to the authority contained in sections 4, 5, and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the issues and matters set forth in paragraph (C) and (G) hereof.

(J) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: July 13, 1951.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

MIXED CARLOADS MERCHANDISE FROM CHARLOTTE, N. C., AND GREENVILLE, S. C., TO ILLINOIS AND MISSOURI

APPLICATION FOR RELIEF

JULY 17, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to Agent C. A. Spaninger's tariff ICC No. 1073, pursuant to fourth section order No. 16101.

Commodities involved: Merchandise in mixed carloads.

From: Charlotte, N. C., and Greenville, S. C.

To: Chicago and East St. Louis, Ill., and St. Louis, Mo.

Grounds for relief: Circuitous routes. Operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[Vesting Order 18182]

HELENE LEUTZ

In re: Cash and securities owned by Helene Leutz. File No. F-28-12966.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Helene Leutz whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

(a) The sum of $1,042.20 held by the Clerk of the District Court of Morton County, North Dakota, pursuant to an order of the District Court of Morton County, North Dakota, Sixth Judicial District, in the matter of the dissolution of the Security Company of Hebron, Hebron, North Dakota, together with any accruals thereto;

(b) The sum of $5,175.00 held by The Security Bank of Hebron, Hebron, North Dakota, in an account designated as "Dividend Account Security Company of Hebron representing dividends declared on 45 shares of stock of the Security Company of Hebron, Hebron, North Dakota, evidenced by Certificate No. 17 together with any accruals thereto;

(c) The sum of $3,791.59 held by the Security Bank of Hebron, Hebron, North Dakota, in an account designated as "Security Agency" representing dividends paid by the Security Company Agency, Hebron, North Dakota, for the account of the Estate of Ferdinand Leutz;

(d) Seventy-eight and one-half (78½) shares of stock of Hebron Investment Company, Hebron, North Dakota, evidenced by Stock Certificate No. 14 issued in the name of Ferdinand Leutz Estate, together with all declared and unpaid dividends;

(e) The sum of $1,099.00 held by The Security Bank of Hebron, Hebron, North Dakota, in an account designated "Dividend Account—Hebron Investment Company" representing dividends declared on 78½ shares of stock of Hebron Investment Company, Hebron, North Dakota, evidenced by Certificate No. 14 issued in the name of the Ferdinand Leutz Estate, together with any accruals thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

META ALBERS

In re: Estate of Meta Albers, deceased. D-28-12975-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That John Albers, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Bertha Schwartz, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Henry Albers, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

4. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1, 2 and 3 hereof in and to the estate of Meta Albers, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

5. That such property is in the process of administration by John Albers, 155-03 14th Avenue, Beechurst, Queens County, New York, as administrator, acting under the judicial supervision of the Surrogate's Court of Queens County, New York;

and it is hereby determined:

6. That to the extent that the person identified in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Meta Albers, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 18186]

YOSHIHIRO AND KUMETARO TAMORI

In re: Rights of Yoshihiro Tamori and Kumetaro Tamori under Contract of Insurance. File No. F-39-4532-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Yoshihiro Tamori and Kumetaro Tamori whose last known address is Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 7,775,216 issued by New York Life Insurance Company to Yoshihiro Tamori together with the right to demand, receive and collect the same is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, Yoshihiro Tamori or Kumetaro Tamori, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 18194]

LAMBDA, S. A.

In re: Securities owned by and debt owing to Lambda, S. A. F-28-31433.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Veronika Satzger, whose last known address is 8 Buergermeister Haffner Strasse, Kaufbeuren, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the personal representatives, heirs, next of kin, legatees and distributees of Josefa Satzger, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That Lambda, S. A., Luxembourg, a corporation, partnership, association or other business organization, whose principal place of business is located in Luxembourg, and all of the stock of which is, or on or since the effective date of Executive Order 8389, as amended, has been owned by the aforesaid Veronika Satzger and the personal representatives, heirs, next of kin, legatees and distributees of Josefa Satzger, deceased, is a national of a designated enemy country (Germany);

4. That the property described as follows:

a. Fifty (50) shares of common stock of International Nickel Company of Canada, Ltd., Copper Bluff, Ontario, Canada, being a part of those shares evidenced by a certificate numbered NB 478047 for 64 shares, presently in the custody of Hallgarten & Co., 44 Wall Street, New York, New York, in an account for Banque Commerciale, S. A., Luxembourg, together with all declared and unpaid dividends thereon,

b. Forty-five (45) shares of common stock of Kennecott Copper Corporation, 120 Broadway, New York 5, New York, being a part of those shares evidenced by a certificate numbered 0675868 for 54 shares, presently in the custody of Hallgarten & Co., 44 Wall Street, New York, New York, in an account for Banque Commerciale, S. A., Luxembourg, together with all declared and unpaid dividends thereon,

c. Twenty-nine (29) shares of common stock of Socony-Vacuum Oil Co., Inc., 26 Broadway, New York 4, New York, evidenced by a certificate numbered NYC 717387 presently in the custody of Hallgarten & Co., 44 Wall Street, New York, New York, in an account for Banque Commerciale S. A., Luxembourg, together with all declared and unpaid dividends thereon,

d. Sixty-one hundredths (60/100ths) of a share of common stock Socony Vacuum Oil Co., Inc., 26 Broadway, New York 4, New York, evidenced by a scrip certificate numbered SA 29197, presently in the custody of Hallgarten & Co., 44 Wall Street, New York, New York, in an account for Banque Commerciale, S. A., Luxembourg, together with all declared and unpaid dividends thereon, and

e. That certain debt or other obligation of Hallgarten & Co., 44 Wall Street, New York, representing funds allocable to Lambda, S. A. on deposit in a blocked account for Banque Commerciale, S. A., Luxembourg, maintained with the aforesaid Hallgarten & Co., and constituting income from and accumulations on the aforesaid securities, together with any and all accruals to the aforesaid debt or other obligations and all rights to demand, enforce and collect the same.

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Lambda, S. A., Luxembourg, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

5. That Lambda, S. A., Luxembourg, is controlled by, or acting for or on behalf of a designated enemy country (Germany) or persons within such country and is a national of a designated enemy country (Germany);

6. That to the extent that the persons named in subparagraphs 1 and 3 hereof and that the personal representatives, heirs, next of kin, legatees and distributees of Josefa Satzger, deceased, referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 51-8380; Filed, July 19, 1951; 9:00 a. m.]

ANTOINE AND ANDRE FAURE

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., and Property

Antoine Faure, Firminy, France, Claim No. 31749; Andre Faure, Firminy, France, Claim No. 31750; property described in Vesting Order No. 667 (8 F. R. 4295, April 17, 1943) relating to United States Letters Patent No. 1,944,972, an undivided one-half thereof to each claimant. Property described in Vesting Order No. 1028 (8 F. R. 4205, April 2, 1943) relating to Patent Application Serial No. 319,098 (now Patent No. 2,330,819) and Patent Application Serial No. 462,078 (now Patent No. 2,413,701), an undivided one-half thereof to each claimant.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

Washington, Saturday, July 21, 1951

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 8—PROMOTION, DEMOTION, AND REASSIGNMENT AND MOVEMENT OF EMPLOYEES BETWEEN AGENCIES WITH REEMPLOYMENT RIGHTS

MISCELLANEOUS AMENDMENTS

EDITORIAL NOTE: The original document designated F. R. Doc. 51-7942, appearing at page 6661 of the issue for Tuesday, July 10, 1951, has been changed as follows:

In § 8.109 (b), grade "GS-5" has been changed to "GS-6" so that paragraph (b) now reads:

(b) No person shall be appointed or promoted to a position in any grade from GS-6 to GS-11, inclusive (or equivalent) which is more than two grades, or to a position in grade GS-12, or higher (or equivalent) which is more than one grade above the lowest grade held by him in the Federal civil service within the preceding six months under indefinite or permanent appointment.

The applicable rate on a lot of wheat in Broadwater, Glacier, Jefferson, Lewis and Clark, Madison, and Silver Bow Counties shall be determined as follows:

1. Subtract all applicable discounts from the rate based on Minneapolis and from the rate based on Portland shown above.

2. If the lot of wheat contains 10 percent or more protein, add the applicable Minneapolis protein premium, if any, shown in the schedule of protein premiums to the rate based on Minneapolis; then add the applicable Portland protein premium from the same schedule to the rate based on Portland.

3. The applicable rate on the lot of wheat will be the highest as determined above.

[1951 C. C. C. Grain Price Support Bulletin 1, Amdt. 1]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—GENERAL PROVISIONS 1951 CROP PRICE SUPPORT PROGRAMS FOR GRAINS AND RELATED COMMODITIES

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration, published in 16 F. R. 1967, and containing the general requirements with respect to price support operations for grains and related commodities produced in 1951, are amended as follows:

1. Section 601.651 *Administration*, is amended to expressly prohibit deviation from any of the bulletin provisions by representatives of CCC in the field offices in the administration of price support programs, so that the section reads as follows:

§ 601.651 *Administration.* The program will be administered by PMA, under the general direction and supervision of the President, CCC, and in the field, will be carried out by PMA State and PMA County Committees (hereinafter called State and county committees) and PMA commodity offices. Producers interested in participating in the program should contact their county committee through which the price support documents will be distributed. All documents will be completed and approved by the county committee which will retain copies of all such documents. The State committee may authorize the county committees to designate certain employees of the county committee to approve documents in behalf of the county committee. The names of the employees delegated to approve documents in behalf of the county committee shall be submitted to the State committee. State and county committees and PMA commodity offices do not have authority to modify or waive any of the provisions of this bulletin or any amendments or supplements hereto.

2. Section 601.665 *Loss or damage to the commodity*, is amended to emphasize the fact that CCC will not assume losses occurring prior to the disbursement of the loan funds and to provide that where payment is made by sight draft or check, the date of the draft or check shall constitute a disbursement of funds, so that the section reads as follows:

§ 601.665 *Loss or damage to the commodity.* The producer is responsible for any loss in quantity or quality of the commodity placed under farm-storage or identity-preserved warehouse-storage loan, except that, subject to the provisions of § 601.664, physical loss or damage occurring after disbursement of the loan funds to the producer without fault, negligence, or conversion on the part of the producer or any other person having control of the storage structure, resulting solely from an external cause other than insect infestation or vermin, will be assumed by CCC to the extent of the settlement rate, provided the producer has given the county committee immediate notice of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan. No physical loss or damage occurring prior to disbursement of the loan funds to the producer will be assumed by CCC. Where disbursement of funds is made by sight draft or check the date of the draft or check shall constitute the date of disbursement of the funds. This section shall apply to winter cover crop and hay and pasture seeds, except that the producer's responsibility for quality is qualified by the conditions set forth in the respective supplements for these commodities. None of this section shall apply to dry edible beans; the provisions for this commodity are covered in the supplement.

3. Under § 601.668 *Liquidation of loans and delivery under purchase agreements*, paragraph (a) *Loans*, is amended to provide the methods of settlement for deliveries under identity-preserved warehouse-storage loans where the commodities are stored at the point of production and where the commodities are not stored at the point of production, so that the paragraph reads as follows:

§ 601.668 *Liquidation of loans and delivery under purchase agreements*—(a) *Loans.* In the case of farm-storage loans and identity-preserved warehouse loans, the producer is required to pay off his loan on or before maturity or to deliver the commodity in accordance with instruction of the county committee. The producer may, however, pay off his loan and redeem his commodity at any time prior to the delivery of the commodity to CCC or removal of the commodity by CCC. In the event the farm is sold or there is a change of tenancy, the commodity under a farm-storage loan may be delivered before the maturity date of the loan, upon prior approval by the county committee, or may be delivered before the maturity date of the loan for other reasons upon prior approval of the President of CCC. Settlement will be made at the applicable support rate, subject to the provisions of the mortgage supplement and the applicable commodity supplement to this subpart, according to grade and/or quality. In the case of commodities stored in bulk, settlement will be made for the total quantity delivered, provided it was stored in the bin(s) in which the commodity under loan was stored. In the case of commodities stored in bags, settlement will be made for the total quantity delivered in all the bags delivered provided they were included in the lot placed under loan. The support rates for each commodity will be set forth in the applicable commodity supplement to this subpart.

If the settlement value of the commodity delivered under a farm-storage loan, or an identity-preserved warehouse-storage loan, exceeds the amount due on the loan (excluding interest) by more than $3.00, such amount will be paid to the producer on the basis of the settlement documents. To avoid administrative costs of making small payments, if the amount found due the producer in such settlement is $3.00 or less, such amount will be paid only upon his request. Deliveries of commodities to CCC under farm-storage loans, or under identity-preserved warehouse-storage loans where such commodities are stored in the county where the commodity was produced or in counties adjacent to the county where the commodity was produced, will be handled by the PMA county committee who initially approved the loan. Any payments due producers will be made by sight draft drawn on CCC by the PMA State office.

If the settlement value of the commodity is less than the amount due on the loan (excluding interest), the amount of the deficiency, plus interest, shall be paid to CCC or may be set off against any payment which would otherwise be due to the producer under any agricultural programs administered by the Secretary of Agriculture or any other payments which are due or may become due to the producer from CCC or any other agency of the United States. To avoid administrative costs of handling small accounts a deficiency of $3.00 or less including interest, may be disregarded unless demand therefor is made by CCC upon the producer.

In the case of warehouse-storage loans, if the producer does not repay his loan by maturity, CCC shall have the right to process and to sell or pool the commodity in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 601.669. Any payment due a producer at the time of settlement on a warehouse-storage loan, except for identity-preserved warehouse-storage loans where the commodities are supervised and handled by the PMA county committee, will be made by the appropriate PMA commodity office.

Payments due producers at the time of settlement on identity-preserved warehouse-storage loans where the commodities are not supervised and handled by the PMA county committee, will also be made by the appropriate PMA commodity office.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS [1]

SUBPART A—REGULATIONS GOVERNING INSPECTION AND CERTIFICATION

On June 30, 1951, a notice of proposed rule making was published in the FEDERAL REGISTER (16 F. R. 6392) regarding the adoption of proposed regulations in lieu of existing Regulations and Requirements for Plants Operating under Continuous Inspection on a Contract Basis (7 CFR Part 52 §§ 52.1 through 52.57 and §§ 52.81 through 52.88). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following revised Regulations governing the inspection and certification of Processed Fruits and Vegetables, Processed Products thereof and Certain other Processed Food Products are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and Public Law 70, 82d Congress, approved July 1, 1951.

The Department finds that it is unnecessary and contrary to the public interest to give a 30-day notice of the effective date of the regulations for reasons that: (1) The industry has been properly apprised of the revisions through rule making; (2) no additional preparation on the part of the industry is required; and (3) because of increased costs of the services rendered, any delay in effective time would result in an increased deficit in proportion to the time of delay; therefore, the regulations herewith published shall be effective at 12:01 a. m., e. d. s. t., July 23, 1951.

Sec.
52.1 Administration of regulations.

DEFINITIONS

52.2 Meaning of words.
52.3 Terms defined.

INSPECTION SERVICE

52.4 Where inspection service is offered.
52.5 Who may obtain inspection service.
52.6 How to make application.
52.7 Information required in connection with application.
52.8 Filing of application.
52.9 Record of filing time.
52.10 When application may be rejected.
52.11 When application may be withdrawn.
52.12 Disposition of inspected sample.
52.13 Basis of inspection.
52.14 Order of inspection service.
52.15 Postponing inspection service.
52.16 Financial interest of inspector.
52.17 Forms of certificates.
52.18 Issuance of certificates.
52.19 Issuance of corrected certificates.
52.20 Issuance of an inspection report in lieu of an inspection certificate.
52.21 Disposition of inspection certificates.
52.22 Report of inspection results prior to issuance of formal report.

APPEAL INSPECTION

52.23 When appeal inspection may be requested.
52.24 Where to file for an appeal inspection and information required.
52.25 When an application for an appeal inspection may be withdrawn.
52.26 When appeal inspection may be refused.
52.27 Who shall perform appeal inspection.
52.28 Appeal inspection certificate.

LICENSING OF SAMPLERS AND INSPECTORS

52.29 Who may become licensed sampler.
52.30 Application to become a licensed sampler.
52.31 Inspectors.
52.32 Suspension or revocation of license of licensed sampler or licensed inspector.
52.33 Surrender of license.

SAMPLING

52.34 How samples are drawn by inspectors or licensed samplers.
52.35 Accessibility for sampling.
52.36 How officially drawn samples are to be identified.
52.37 How samples are to be shipped.
52.38 Sampling rates for officially drawn samples.
52.39 Issuance of certificate of sampling.
52.40 Identification of lots sampled.

FEES AND CHARGES

52.41 Payment of fees and charges.
52.42 Schedule of fees.
52.43 Fees to be charged and collected for sampling when performed by a licensed sampler.
52.44 Inspection fees when charges for sampling have been collected by a licensed sampler.
52.45 Inspection fees when charges for sampling have not been collected by a licensed sampler.
52.46 Fee for appeal inspection.
52.47 Charges for micro, chemical and certain other special analyses.
52.48 When charges are to be based on hourly rate not otherwise provided for in this part.
52.49 Fees for score sheets.
52.50 Fees for additional copies of inspection certificates.
52.51 Travel and other expenses.
52.52 Charges for inspection service on a contract basis.

MISCELLANEOUS

52.53 Fraud or misrepresentation.
52.54 Political activity.
52.55 Interfering with an inspector or licensed sampler.
52.56 Compliance with other laws.
52.57 Identification.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASIS

52.81 Plant survey.
52.82 Premises.
52.83 Buildings and structures.
52.84 Facilities.
52.85 Equipment.
52.86 Operations and operating procedures.

[1] Among such other processed food products are the following: Honey; molasses, except for stock feed; nuts and nut products, except oil; sugar (cane, beet, and maple); sirups (blended), sirups, except from grain; marine food products, except oil.

Sec.
52.87 Personnel; health.
52.88 Effective time supersedure.

AUTHORITY: §§ 52.1 to 52.88 issued under sec. 205, 60 Stat. 1090, Pub. Law 70, 82d Cong.

§ 52.1 *Administration of regulations.* The Administrator, Production and Marketing Administration, United States Department of Agriculture, is charged with the Administration of the regulations in this part except that he may delegate any or all of such functions to any officer or employee of the Production and Marketing Administration of the Department, in his discretion.

DEFINITIONS

§ 52.2 *Meaning of words.* Words in the regulations in this part in the singular form shall be deemed to import the plural and vice versa, as the case may demand.

§ 52.3 *Terms defined.* For the purpose of the regulations in this part, unless the context otherwise requires, the following terms shall have the following meanings:

(a) "Act" means the following provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1037; 7 U. S. C. 1621 et seq.) and of the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759; 81st Cong., approved September 6, 1950, as continued in effect by Public Law 70; 82d Congress, approved July 1, 1951), or any future act of Congress conferring similar authority:

AGRICULTURAL MARKETING ACT OF 1946

• • • To inspect, certify, and identify the class, quality, quantity, and condition of agricultural products when shipped or received in interstate commerce, under such rules and regulations as the Secretary of Agriculture may prescribe, including assessment and collection of such fees as will be reasonable and as nearly as may be to cover the cost of the service rendered, to the end that agricultural products may be marketed to the best advantage, that trading may be facilitated, and that consumers may be able to obtain the quality product which they desire, except that no person shall be required to use the service authorized by this subsection. • • •

DEPARTMENT OF AGRICULTURE APPROPRIATION ACT, 1951

Market inspection of farm products. For the investigation and certification, in one or more jurisdictions, to shippers and other interested parties of the class, quality, and condition of any agricultural commodity or food product, whether raw, dried, canned, or otherwise processed, and any product containing an agricultural commodity or derivative thereof when offered for interstate shipment or when received at such important central markets as the Secretary may from time to time designate, or at points which may be conveniently reached therefrom under such rules and regulations as he may prescribe, including payment of such fees as will be reasonable and as nearly as may be to cover the cost for the services rendered. • • •

Marketing farm products. For acquiring and diffusing among the people of the United States useful information relative to the needed supplies, standardization, classification, grading, preparation for market, handling, transportation, storage, and marketing of farm and food products, including the demonstration and promotion of the use of uniform standards of classification of American farm and food products throughout the world • • •

(b) "Administrator" means the Administrator of the Production and Marketing Administration of the Department.

(c) "Applicant" means any interested party who requests inspection service under the regulations in this part.

(d) "Case" means the number of containers (cased or uncased) which, by the particular industry are ordinarily packed in a shipping container.

(e) "Certificate of loading" means a statement, either written or printed, issued pursuant to the regulations in this part, relative to checkloading of a processed product subsequent to inspection thereof.

(f) "Certificate of sampling" means a statement, either written or printed, issued pursuant to the regulations in this part, identifying officially drawn samples and may include a description of condition of containers and the condition under which the processed product is stored.

(g) "Class" means a grade or rank of quality.

(h) "Condition" means the degree of soundness of the product which may affect its merchantability and includes, but is not limited to those factors which are subject to change as a result of age, improper preparation and processing, improper packaging, improper storage or improper handling.

(i) "Department" means the United States Department of Agriculture.

(j) "Inspection certificate" means a statement, either written or printed, issued pursuant to the regulations in this part, setting forth in addition to appropriate descriptive information relative to a processed product, and the container thereof, the quality and condition, or any part thereof, of the product and may include a description of the conditions under which the product is stored.

(k) "Inspection service" means:

(1) The sampling pursuant to the regulations in this part;

(2) The determination pursuant to the regulations in this part of:

(i) Essential characteristics such as style, type, size, sirup density or identity of any processed product which differentiates between major groups of the same kind;

(ii) The class, quality and condition of any processed product, including the condition of the container thereof by the examination of appropriate samples;

(3) The issuance of any certificate of sampling, inspection certificates, or certificates of loading of a processed product, or any report relative to any of the foregoing; or

(4) Performance by an inspector of any related services such as assigning an inspector in a processing plant to observe the preparation of the product from its raw state through each step in the entire process, or observe conditions under which the product is being prepared, processed, and packed, or observe plant sanitation as a prerequisite to the inspection of the processed product, either on a continuous or periodic basis, or checkload the inspected processed product in connection with the marketing of the processed product.

(l) "Inspector" means any employee of the Department authorized by the Secretary or any other person licensed by the Secretary to investigate, sample, inspect, and certify in accordance with the regulations in this part to any interested party the class, quality and condition of processed products covered in this part and to perform related duties in connection with the inspection service.

(m) "Interested party" means any person who has a financial interest in the commodity involved.

(n) "Licensed sampler" means any person who is authorized by the Secretary to draw samples of processed products for inspection service, to inspect for condition of containers in a lot, and may, when authorized by the Administrator, perform related services under the act and the regulations in this part.

(o) "Lot" for the purpose of the regulations in this part means any number of containers of the same size and type containing a processed product of the same type or style offered for inspection by an interested party, except containers bearing an identification mark different from other containers and containing a lower grade quality than the containers bearing the other marks, may be considered as a separate lot.

(p) "Officially drawn sample" means any sample that has been selected from a particular lot by an inspector, licensed sampler, or by any other person authorized by the Administrator pursuant to the regulations in this part.

(q) "Person" means any individual, partnership, association, business trust, corporation, any organized group of persons (whether incorporated or not), the United States (including, but not limited to, any corporate agencies thereof), any State, county, or municipal government, any common carrier, and any authorized agent of any of the foregoing.

(r) "Plant" means the premises, buildings, structures, and equipment (including, but not being limited to, machines, utensils, and fixtures) employed or used with respect to the manufacture or production of processed products.

(s) "Processed product" means any fruit, vegetable, or other food product covered under these regulations which has been preserved by any recognized commercial process, including, but not limited to, canning, freezing, dehydrating, drying, the addition of chemical substances, or by fermentation.

(t) "Quality" means the inherent properties of any processed product which determine the relative degree of excellence of such product, and includes the effects of preparation and processing, and may or may not include the effects of packing media, or added ingredients.

(u) "Sample" means a single container, a single portion of a container, any number of containers, or a composite mixture of a single type, style or size of

a single commodity, packed in a single size of container, or other unit, as may be designated by the Administrator, to be used for inspection.

(v) "Shipping container" means an individual container designed for shipping a number of packages or cans ordinarily packed in a container for shipping or designed for packing unpackaged processed products for shipping.

(w) "Sampling" means the act of selecting samples of processed products for the purpose of inspection under the regulations in this part.

(x) "Secretary" means the Secretary of the Department or any other officer or employee of the Department authorized to exercise the powers and to perform the duties of the Secretary in respect to the matters covered by the regulations in this part.

(y) "Unofficially drawn sample" means any sample that has been selected by any person other than an inspector or licensed sampler, or by any other person not authorized by the Administrator pursuant to the regulations in this part.

INSPECTION SERVICE

§ 52.4 *Where inspection service is offered.* Inspection service may be furnished wherever any inspector or licensed sampler is available and the facilities and conditions are satisfactory for the conduct of such service.

§ 52.5 *Who may obtain inspection service.* An application for inspection service may be made by any interested party, including, but not limited, to, the United States and any instrumentality or agency thereof, any State, county, municipality, or common carrier, and any authorized agent in behalf of the foregoing.

§ 52.6 *How to make application.* An application for inspection service may be made to the office of inspection or to any inspector, at or nearest the place where the service is desired; and an up-to-date list of the Standardization and Inspection Field Offices of the Department may be obtained upon request to the Administrator. Satisfactory proof that the applicant is an interested party, and satisfactory proof of the authority of any person applying for inspection service, shall be furnished.

§ 52.7 *Information required in connection with application.* Application for inspection service shall be made in the English language and may be made orally (in person or by telephone), in writing, or by telegraph. If an application for inspection service is made orally, such application shall be confirmed promptly in writing. In connection with each application for inspection service, there shall be furnished such information as may be necessary to perform an inspection on the processed product for which application for inspection is made, including but not limited to, the name of the product, name and address of the packer or plant where such product was packed, the location of the product, its lot or car number, codes or other identification marks, the number of containers, the type and size of the containers, the interest of the applicant in the product, whether the lot has been inspected previously to the application by any Federal agency and the purpose for which inspection is desired.

§ 52.8 *Filing of application.* An application for inspection service shall be regarded as filed only when made in accordance with the regulations in this part.

§ 52.9 *Record of filing time.* A record showing the date and hour when each application for inspection or for an appeal inspection is received shall be maintained.

§ 52.10 *When application may be rejected.* An application for inspection service may be rejected by the Administrator (a) for non-compliance by the applicant with the regulations in this part, (b) for non-payment for previous inspection services rendered, (c) when the product is not properly identifiable by code or other marks, or (d) when it appears that to perform the inspection service would not be to the best interests of the Government. Such applicant shall be promptly notified of the reason for such rejection.

§ 52.11 *When application may be withdrawn.* An application for inspection service may be withdrawn by the applicant at any time before the inspection is performed: *Provided*, That, the applicant shall pay at the hourly rate prescribed in § 52.48 for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph or other expenses which have been incurred by the inspection service in connection with such application.

§ 52.12 *Disposition of inspected sample.* Any sample of a processed product that has been used for inspection may be returned to the applicant, at his request and expense; otherwise it shall be destroyed, or disposed of to a charitable institution.

§ 52.13 *Basis of inspection.* Inspection service shall be performed on the basis of the appropriate U. S. Standards for grades of processed products, Federal, Quartermaster Corps, Military or Veterans Administration specifications, written buyer and seller contract specifications or any written specification supplied by an applicant which is approved by the Administrator.

§ 52.14 *Order of inspection service.* Inspection service shall be performed, insofar as practicable, in the order in which applications therefor are made except that precedence may be given to any such applications which are made by the United States (including, but not being limited to, any instrumentality or agency thereof) and to any application for an appeal inspection.

§ 52.15 *Postponing inspection service.* If the inspector determines that it is not possible to accurately ascertain the quality or condition of a processed product immediately after processing because the product has not reached equilibrium in color, sirup density, or drained weight, or for any other substantial reason, he may postpone inspection service for such period as may be necessary.

§ 52.16 *Financial interest of inspector.* No inspector shall inspect any processed product in which he is directly or indirectly financially interested.

§ 52.17 *Forms of certificates.* Inspection certificates, certificates of sampling or loading, and other memoranda concerning inspection service shall be issued on forms approved by the Administrator.

§ 52.18 *Issuance of certificates.* (a) An inspection certificate may be issued only by an inspector: *Provided*, That, another employee of the inspection service may sign any such certificate covering any processed product inspected by an inspector when given power of attorney by such inspector and authorized by the Administrator, to affix the inspector's signature to an inspection certificate which has been prepared in accordance with the facts set forth in the notes, made by the inspector, in connection with the inspection.

(b) A certificate of loading shall be issued and signed by the inspector or licensed sampler authorized to check the loading of a specific lot of processed products: *Provided*, That, another employee of the inspection service may sign such certificate of loading covering any processed product checkloaded by an inspector or licensed sampler when given power of attorney by such inspector or licensed sampler and authorized by the Administrator to affix the inspector's or licensed sampler's signature to a certificate of loading which has been prepared in accordance with the facts set forth in the notes made by the inspector or licensed sampler in connection with the checkloading of a specific lot of processed products.

§ 52.19 *Issuance of corrected certificates.* A corrected inspection certificate may be issued by the inspector who issued the original certificate after distribution of a certificate if errors, such as incorrect dates, code marks, grade statements, lot or car numbers, container sizes, net or drained weights, quantities, or errors in any other pertinent information require the issuance of a corrected certificate. Whenever a corrected certificate is issued, such certificate shall supersede the inspection certificate which was issued in error and the superseded certificate shall become null and void after the issuance of the corrected certificate.

§ 52.20 *Issuance of an inspection report in lieu of an inspection certificate.* A letter report in lieu of an inspection certificate may be issued by an inspector when such action appears to be more suitable than an inspection certificate: *Provided*, That, the issuance of such report is approved by the Administrator.

§ 52.21 *Disposition of inspection certificates.* The original of any inspection certificate, issued under the regulations in this part, and not to exceed four copies thereof, if requested prior to issuance, shall be delivered or mailed promptly to the applicant, or person designated by the applicant. All other copies shall be

filed in such manner as the Administrator may designate. Additional copies of any such certificates may be supplied to any interested party as provided in § 52.50.

§ 52.22 *Report of inspection results prior to issuance of formal report.* Upon request of any interested party, the results of an inspection may be telegraphed or telephoned to him, or to any other person designated by him, at his expense.

APPEAL INSPECTION

§ 52.23 *When appeal inspection may be requested.* An application for an appeal inspection may be made by any interested party who is dissatisfied with the results of an inspection as stated in an inspection certificate, if the lot of processed products can be positively identified by the inspection service as the lot from which officially drawn samples were previously inspected. Such application shall be made within thirty (30) days following the day on which the previous inspection was performed, except upon approval by the Administrator the time within which an application for appeal inspection may be made may be extended.

§ 52.24 *Where to file for an appeal inspection and information required.* (a) Application for an appeal inspection may be filed with:

(1) The inspector who issued the inspection certificate on which the appeal covering the processed product is requested; or

(2) The inspector in charge of the office of inspection at or nearest the place where the processed product is located.

(b) The application for appeal inspection shall state the location of the lot of processed products and the reasons for the appeal; and date and serial number of the certificate covering inspection of the processed product on which the appeal is requested, and such application may be accompanied by a copy of the previous inspection certificate and any other information that may facilitate inspection. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation shall be made promptly.

§ 52.25 *When an application for an appeal inspection may be withdrawn.* An application for appeal inspection may be withdrawn by the applicant at any time before the appeal inspection is performed: *Provided*, That, the applicant shall pay at the hourly rate prescribed in § 52.48 of this part, for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph, or other expenses which have been incurred by the inspection service in connection with such application.

§ 52.26 *When appeal inspection may be refused.* An application for an appeal inspection may be refused if:

(a) The reasons for the appeal inspection are frivolous or not substantial;

(b) The quality or condition of the processed product has undergone a material change since the inspection covering the processed product on which the appeal inspection is requested;

(c) The lot in question is not, or cannot be made accessible for the selection of officially drawn samples;

(d) The lot relative to which appeal inspection is requested cannot be positively identified by the inspector as the lot from which officially drawn samples were previously inspected; or

(e) There is noncompliance with the regulations in this part. Such applicant shall be notified promptly of the reason for such refusal.

§ 52.27 *Who shall perform appeal inspection.* An appeal inspection shall be performed by an inspector or inspectors (other than the one from whose inspection the appeal is requested) authorized for this purpose by the Administrator and, whenever practical, such appeal inspection shall be conducted jointly by two such inspectors: *Provided*, That, the inspector who made the inspection on which the appeal is requested may be authorized to draw the samples when another inspector or licensed sampler is not available in the area where the product is located.

§ 52.28 *Appeal inspection certificate.* After an appeal inspection has been completed, an appeal inspection certificate shall be issued showing the results of such appeal inspection; and such certificate shall supersede the inspection certificate previously issued for the processed product involved. Each appeal inspection certificate shall clearly identify the number and date of the inspection certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appeal inspection certificate and shall no longer represent the quality or condition of the processed product described therein. The inspector or inspectors issuing an appeal inspection certificate shall forward notice of such issuance to such persons as he considers necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the inspector or inspectors issuing the appeal inspection certificate. The provisions in the regulations in this part concerning forms of certificates, issuance of certificates, and disposition of certificates shall apply to appeal inspection certificates, except that copies of such appeal inspection certificates shall be furnished all interested parties who received copies of the superseded certificate.

LICENSING OF SAMPLERS AND INSPECTORS

§ 52.29 *Who may become licensed sampler.* Any person possessing qualifications as determined by an examination for competency, given by the Administrator, may be licensed as a licensed sampler to draw samples for the purpose of inspection under the regulations in this part. Such a license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. Licensed samplers shall have no authority to inspect processed products under the regulations in this part except as to condition of the containers in a lot. A licensed sampler shall perform his duties pursuant to the regulations in this part as directed by the Administrator.

§ 52.30 *Application to become a licensed sampler.* Application to become a licensed sampler shall be made to the Administrator on forms furnished for that purpose. Each such application shall be executed and signed by the applicant in his own handwriting, and the information contained therein shall be verified by him under oath or affirmation administered by a notary public, and the application shall contain or be accompanied by:

(a) Satisfactory evidence that he has passed his twenty-first birthday;

(b) A statement showing his present and previous occupations, together with names of all employers for whom he has worked with periods of service during the last ten years previous to the date of his application;

(c) A statement that, in his capacity as a licensed sampler, he will not draw samples from any lot of processed products with respect to which he or his employer is an interested party;

(d) A statement by the applicant that he agrees to comply with all terms and conditions of the regulations in this part relating to duties of licensed samplers; and

(e) Such other information as may be required by the aforesaid Administrator.

§ 52.31 *Inspectors.* Inspections will ordinarily be performed by employees under the Administrator who are employed as Federal Government employees for that purpose. However, any person employed under any joint Federal-State inspection service arrangement may be licensed, if otherwise qualified, by the Secretary to make inspections in accordance with this part on such processed products as may be specified in his license. Such license shall be issued only in a case where the Administrator is satisfied that the particular person is qualified to perform adequately the inspection service for which such person is to be licensed. Each such license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. An inspector shall perform his duties pursuant to the regulations in this part as directed by the Administrator.

§ 52.32 *Suspension or revocation of license of licensed sampler or licensed inspector.* Pending final action by the Secretary, the Administrator may, whenever he deems such action necessary, suspend the license of any licensed sampler, or licensed inspector, issued pursuant to the regulations in this part, by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefor. Within seven days after the receipt of the aforesaid notice and statement of reasons by such licensee, he may file an appeal, in writing, with the Secretary supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid seven days period and consideration of such argument and evidence, the Secretary shall take such action as he deems appropriate with respect to such suspension or revocation.

§ 52.33 *Surrender of license.* Upon termination of his services as a licensed sampler or licensed inspector, or suspension or revocation of his license, such licensee shall surrender his license immediately to the office of inspection serving the area in which he is located. These same provisions shall apply in a case of an expired license.

SAMPLING

§ 52.34 *How samples are drawn by inspectors or licensed samplers.* An inspector or a licensed sampler shall select samples, upon request, from designated lots of processed products which are so placed as to permit thorough and proper sampling in accordance with the regulations in this part. Such person shall, unless otherwise directed by the Administrator, select samples of such products at random, and from various locations in each lot in such manner and number, not inconsistent with the regulations in this part, as to secure representative samples of the lot. Samples drawn for inspection shall be furnished by the applicant at no cost to the Department.

§ 52.35 *Accessibility for sampling.* Each applicant shall cause the processed products for which inspection is requested to be made accessible for proper sampling. Failure to make any lot accessible for proper sampling shall be sufficient cause for postponing inspection service until such time as such lot is made accessible for proper sampling.

§ 52.36 *How officially drawn samples are to be identified.* Officially drawn samples shall be marked by the inspector or licensed sampler so such samples can be properly identified for inspection.

§ 52.37 *How samples are to be shipped.* Unless otherwise directed by the Administrator, samples which are to be shipped to any office of inspection shall be forwarded to the office of inspection serving the area in which the processed products from which the samples were drawn is located. Such samples shall be shipped in a manner to avoid, if possible, any material change in the quality or condition of the sample of the processed product. All transportation charges in connection with such shipments of samples shall be at the expense of the applicant and wherever practicable, such charges shall be prepaid by him.

§ 52.38 *Sampling rates for officially drawn samples.* Unless otherwise directed by the Administrator, each inspector and each licensed sampler shall select from each lot not less than the number of samples indicated in the following applicable tables except as may be required otherwise by the provisions in § 52.34.

TABLE I—CANNED FRUITS AND VEGETABLES AND CANNED FRUIT AND VEGETABLE PRODUCTS, INCLUDING TOMATO PRODUCTS, AND SUCH PRODUCTS AS PEANUT BUTTER, PICKLES, RELISHES, MARMALADES, HONEY, MAPLE SIRUP, FRUIT PULPS AND JAMS, EXCEPT SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES AND FRUIT JELLIES AND VINEGAR

Size and type of container	Rate of sampling[1]		
	From lots containing 1 to 2,000 cases	From lots containing 2,001 to 5,000	From lots exceeding 5,000 cases
Any type of container of less volume than a No. 300 size can (300 x 407).	1 container for each 4,000 containers or fraction thereof.	1 container for each 4,800 containers or fraction thereof.	1 container for each 6,000 containers or fraction thereof.
Any type of container of a volume equal to that of a No. 300 size can (300 x 407) or greater but not exceeding that of a No. 3 cylinder size can (404 x 700).	1 container for each 2,000 containers or fraction thereof.	1 container for each 2,400 containers or fraction thereof.	1 container for each 3,000 containers or fraction thereof.
Any type of container of a volume exceeding that of a No. 3 cylinder size can (404 x 700) but not exceeding that of a No. 12 size can (603 x 812).	1 container for each 1,000 containers or fraction thereof.	1 container for each 1,200 containers or fraction thereof.	1 container for each 1,500 containers or fraction thereof.
	From lots containing 200 containers or less	From lots containing 201 to 500 containers	From lots exceeding 500 containers
Any type of container of a volume exceeding that of a No. 12 size can (603 x 812) but not containing more than 60 pounds of the product.	1 approximate 8-ounce sample from each 4 percent of the containers.	1 approximate 8-ounce sample from each of 3 percent of the containers.	1 approximate 8-ounce sample from each 2 percent of the containers.
	From lots containing 100 containers or less	From lots containing 101 to 200 containers	From lots exceeding 200 containers
Any type of container containing more than 60 pounds of the product.	1 approximate 32-ounce sample from each 10 percent of the containers.	1 approximate 32-ounce sample from each 7 percent of the containers.	1 approximate 32-ounce sample from each 5 percent of the containers.

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE II—CANNED AND FROZEN, SINGLE-STRENGTH CITRUS JUICES AND GRAPE JUICES; AND FRUIT JELLIES AND VINEGAR

Size and type of container	Rate of sampling[1]		
	From lots containing 1 to 2,000 cases	From lots containing 2,001 to 5,000	From lots exceeding 5,000 cases
Any type of container of a total volume of 11 fluid ounces or less.	1 container for each 4,800 containers or fraction thereof.	1 container for each 6,000 containers or fraction thereof.	1 container for each 8,000 containers or fraction thereof.
Any type of container of a total volume of more than 11 fluid ounces but not more than 52 fluid ounces.	1 container for each 2,400 containers or fraction thereof.	1 container for each 3,000 containers or fraction thereof.	1 container for each 4,000 containers or fraction thereof.
Any type of container of a total volume of more than 52 fluid ounces.	1 container for each 1,200 containers or fraction thereof.	1 container for each 1,500 containers or fraction thereof.	1 container for each 2,000 containers or fraction thereof.

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE III—FROZEN FRUITS AND VEGETABLES AND FROZEN FRUIT AND VEGETABLE PRODUCTS, EXCEPT FROZEN SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES

Size and type of container	Rate of sampling[1]
Any type of container of 1 pound or less net weight.	1 container for each 2,400 containers or fraction thereof.
Any type of container over 1 pound but less than 4 pounds, net weight.	1 container for each 1,600 containers or fraction thereof.
Any type of container of 4 pounds or more, but less than 10 pounds, net weight.	1 container for each 1,200 containers or fraction thereof.
Frozen vegetables only: Any type of container of 10 pounds or more, net weight.	One 2-pound sample (approximate weight) for each 3,000 pounds of the first 18,000 pounds, plus 1 additional 2-pound sample for each additional 5,000 pounds, or fraction thereof in excess of 18,000 pounds.
Frozen fruits and berries only: Any type of container of 10 pounds or more net weight.	One 3-pound sample (approximate weight) for each 3,000 pounds of the first 18,000 pounds, plus 1 additional 3-pound sample for each additional 5,000 pounds or fraction thereof, in excess of 18,000 pounds. When determined by the inspector that 3-pound subsamples do not reflect the quality of the product in the container 1 or more entire containers may be substituted for any 1 or more subsamples.

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE IV—FROZEN AND CANNED CONCENTRATED CITRUS JUICES AND GRAPE JUICES

Size and type of container	Rate of sampling [1]		
	From lots containing 1 to 2,000 cases	From lots containing 2,001 to 5,000 cases	From lots exceeding 5,000 cases
Any type of container of a total volume of 11 fluid ounces or less.	1 container for each 6,000 containers or fraction thereof.	1 container for each 8,000 containers or fraction thereof.	1 container for each 12,000 containers or fraction thereof.
Any type of container of a total volume of more than 11 fluid ounces but not more than 32 fluid ounces.	1 container for each 3,000 containers or fraction thereof.	1 container for each 4,000 containers or fraction thereof.	1 container for each 6,000 containers or fraction thereof.
Any type of container of a volume of more than 32 fluid ounces.	1 container for each 1,500 containers or fraction thereof.	1 container for each 2,000 containers or fraction thereof.	1 container for each 3,000 containers or fraction thereof.

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE V—DRIED FRUIT

Number of pounds in lot	Shipping container sizes		
	Less than 20 pounds net weight	20 pounds to and including 50 pounds net weight	Exceeding 50 pounds but not exceeding 50 pounds net weight
	Rate of sampling [1]		
	Approximately 8 ounce samples	Approximately 16 ounce samples	Approximately 16 ounce samples
500 pounds or less	(2)	(2)	(2)
501 to 2,000 pounds	8	4	4
2,001 to 3,000 pounds	9	5	4
4,001 to 6,000 pounds	10	6	5
		Approximately 8 ounce samples	
6,001 to 8,000 pounds	11	7	5
8,001 to 10,000 pounds	12	8	6
10,001 to 12,000 pounds	14	9	6
12,001 to 14,000 pounds	15	10	7
Over 14,000 pounds	Each additional 1,500 pounds or fraction thereof, 1 approximately 8 ounce sample.	Each additional 2,000 pounds or fraction thereof, 1 approximately 8 ounce sample.	Each additional 3,000 pounds or fraction thereof, 1 approximately 16 ounce sample.

[1] In no case, shall the total of all the samples drawn yield less than 25 ounces of dates; 100 figs or 200 fig slices; or 56 ounces of other dried fruit. The size of the sample from an individual container may be increased to establish the quality of the fruit in the container.

[2] When lot consists of 500 pounds or less, draw 4 approximately equal samples, except that when the lot consists of less than 4 shipping containers, a sample shall be drawn from each shipping container.

TABLE VI—DEHYDRATED FRUITS AND VEGETABLES

Size and type of container	Rate of sampling [1]
Any type of container of 5 pounds or less net weight	1 container for each 2,400 containers or fraction thereof.
Any type of container in excess of 5 pounds, net weight	One 20 ounce (approximate weight) sample for each 4,000 pounds or fraction thereof.

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE VII—PROCESSED PRODUCTS NOT SPECIFICALLY LISTED IN ANY TABLE CONTAINED IN THIS SECTION

Size and type of container	Rate of sampling [1]
Any type of container irrespective of its size or volume capacity.	At a rate that will represent the lot as may be determined by the inspector.

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than two 2 samples be drawn from any 1 lot.

§ 52.39 *Issuance of certificate of sampling.* Each inspector and each licensed sampler shall prepare and sign a certificate of sampling to cover the samples drawn by the respective person, except that an inspector who inspects the samples which he has drawn need not prepare a certificate of sampling. One copy of each certificate of sampling prepared shall be retained by the inspector or licensed sampler (as the case may be) and the original and all other copies thereof shall be disposed of in accordance with the instructions of the Administrator.

§ 52.40 *Identification of lots sampled.* Each lot from which officially drawn samples are selected shall be marked in such manner as may be prescribed by the Administrator, if such lots do not otherwise possess suitable identification.

FEES AND CHARGES

§ 52.41 *Payment of fees and charges.* Fees and charges for any inspection service shall be paid by the interested party making the application for such service, in accordance with the applicable provisions of the regulations in this part, and, if so required by the person in charge of the office of inspection serving the area where the services are to be performed, and advance of funds prior to rendering inspection service in an amount suitable to the Administrator, or a surety bond suitable to the Administrator, may be required as a guarantee of payment for the services rendered. All fees and charges for any inspection service performed pursuant to the regulations in this part shall be paid by check, draft, or money order payable to the Treasurer of the United States and remitted to the office of inspection serving the area in which the services are performed, within ten (10) days from the date of billing, unless otherwise specified in a contract between the applicant and the Administrator, in which latter event the contract provisions shall apply.

§ 52.42 *Schedule of fees.* (a) Unless otherwise provided for in a written agreement between the applicant and the Administrator, the fees to be charged and collected for any inspection service performed under the regulations in this part at the request of the United States, or any agency or instrumentality thereof, shall be at the rate of $3.60 per hour.

(b) Unless otherwise provided in the regulations in this part, the fees to be charged and collected for any inspection service performed under the regulations in this part shall be based on the applicable rates specified in this section as follows: [1]

(1) *Canned fruits and vegetables and canned fruit and vegetable products and other canned processed products, such as peanut butter, pickles, relishes, jams, jellies, marmalades, honey, maple sirup and concentrates.*

OFFICIALLY DRAWN SAMPLES

Each lot when packed 6 or more cans per case but not exceeding 48 cans per case except canned pineapple and canned pineapple juice inspected in Puerto Rico: [1]

Minimum fee for 600 cases or less	$6.00
For each additional 200 cases, or fraction thereof, in excess of 600 cases	1.60

Each lot of canned pineapple and canned pineapple juice inspected in Puerto Rico:

The fee for each case of 24 containers or less	$0.015
The fee for each case of more than 24 containers	.020
Minimum fee for any lot	6.00

[1] Inspection of large quantities, except canned pineapple and canned pineapple juice inspected in Puerto Rico: When application is made for inspection of 20,000 cases or more of a single commodity of canned fruits and vegetables and canned fruit and vegetable products in containers of any type of a volume capacity not exceeding that of a No. 12 size (603 x 812) the fee shall be at the rate of $1.40 for each 200 cases or fraction thereof: *Provided*, That, the commodity is available for inspection at any one place at any one time.

[1] The fees specified herein are exclusive of charges for such micro, chemical and certain other special analyses, other than salt, acid, catalase, peroxidase, soluble solids (by refrac.) or total solids (by refrac.), which may be requested by the applicant or required by the inspector to determine the quality or condition of the processed product.

UNOFFICIALLY DRAWN SAMPLES

Minimum fee	$3.60
For more than 4 containers of any type of a volume not in excess of that of a No. 3 size can (404 x 414), per container	.75
For more than 2 containers of any type of a volume exceeding that of a No. 3 size can (404 x 414), but not exceeding that of a No. 12 size can (603 x 812), per container	1.50

(2) *Frozen fruits and vegetables and frozen fruit and vegetable products.*

OFFICIALLY DRAWN SAMPLES

Each lot other than when inspected in Puerto Rico:

Minimum fee for 10,000 pounds or less	$6.00
For each additional 5,000 pounds, or fraction thereof, in excess of 10,000 pounds	2.00
Each lot inspected in Puerto Rico:	
Minimum fee for 10,000 pounds or less	7.20
For each additional 5,000 pounds, or fraction thereof, in excess of 10,000 pounds	2.40

UNOFFICIALLY DRAWN SAMPLES

Minimum fee	$3.60
For more than 2 samples of any type or weight, per sample	1.50

(3) *Dried fruits other than figs and dates.*

OFFICIALLY DRAWN SAMPLES

Each lot:

Minimum fee for 12,000 pounds or less	$6.00
For each additional 2,000 pounds, or fraction thereof, in excess of 12,000 pounds	.50

UNOFFICIALLY DRAWN SAMPLES

Each sample	$3.60

(4) *Dried figs and dates.*

OFFICIALLY DRAWN SAMPLES

Each lot:

Minimum fee for 8,000 pounds or less	$6.00
For each additional 2,000 pounds, or fraction thereof, in excess of 8,000 pounds	1.50

UNOFFICIALLY DRAWN SAMPLES

Each sample	$3.60

(5) *Other processed products.* The fee to be charged and collected for the inspection of any processed product not included in subparagraphs (1), (2), (3) and (4) of this paragraph shall be at the rate of $3.60 per hour for the time consumed by the inspector in making the inspection, including the time consumed in sampling by the inspector or licensed sampler: *Provided, however,* That fees for sampling time will not be assessed by the office of inspection when such fees have been assessed and collected directly from the applicant by a licensed sampler.

§ 52.43 *Fees to be charged and collected for sampling when performed by a licensed sampler.* Such sampling fees as are specifically prescribed by the Administrator in connection with the licensing of the particular sampler (which fees are to be prescribed in the light of the sampling work to be performed by such sampler and other pertinent factors) may be assessed and collected by such licensed sampler directly from the applicant: *Provided*, That, if such licensed sampler is an employee of a State, the appropriate authority of that State may make the collection, or they may be assessed and collected by the office of inspection serving the area where the services are performed.

§ 52.44 *Inspection fees when charges for sampling have been collected by a licensed sampler.* For each lot of processed products from which samples have been drawn by a licensed sampler and with respect to which the sampling fee has been collected by the licensed sampler, the fee to be charged for the inspection shall be 75 percent of the fee provided in this part applicable to the respective processed product: *Provided*, That, if the fee charged for the inspection service is based on the hourly rate of charge, the fee shall be at the rate of $3.60 per hour prescribed in this part.

§ 52.45 *Inspection fees when charges for sampling have not been collected by a licensed sampler.* For each lot of processed products from which samples have been drawn by a licensed sampler, and with respect to which the sampling fee has not been collected by the licensed sampler, the fee to be charged for the inspection shall be 75 percent of the fee as prescribed in this part, plus a reasonable charge to cover the cost of sampling as may be determined by the Administrator: *Provided*, That, if the fee charged is based on the hourly rate, the fee shall be at the rate of $3.60 per hour prescribed in this part, plus a reasonable charge to cover the cost of sampling, as determined by the Administrator.

§ 52.46 *Fee for appeal inspection.* The fee to be charged for an appeal inspection shall be at the rates prescribed in this part for other inspection services: *Provided*, That, if the result of any appeal inspection made for any applicant, other than the United States or any agency or instrumentality thereof, discloses that a material error was made in the inspection on which the appeal is made, no inspection fee shall be assessed.

§ 52.47 *Charges for micro, chemical and certain other special analyses.* (a) The following charges shall be made for micro, chemical and certain other special analyses which may be requested by the applicant or required by the inspector to determine the quality or condition of the processed product: [1]

Type of analysis	For first analysis	For each additional analysis
Micro, chemical, and certain other special analyses		
Mold count	$1.20	$1.20
Worm larvae and insect fragment count	3.00	3.00
Fly egg and maggot count	3.00	3.00
Alcohol insoluble solids	3.00	2.00
Alcohol	2.00	2.00
Ascorbic acid (vitamin C)	6.00	2.00
Ash	2.00	2.00
Ash, salt free	4.00	4.00
Ash, acid insoluble	4.00	4.00
Ash, water insoluble	4.00	4.00
Crude fiber	10.00	5.00
Ether extract (crude fat)	$5.00	$5.00
Fiber, green and wax bean	3.00	2.00
Iodine number	8.00	8.00
Moisture (air oven method)	2.00	2.00
Moisture (vacuum oven method)	2.00	2.00
Nitrogen	3.00	2.00
Non-volatile ether extract	6.00	6.00
Oil of lemon and orange extract (precipitation method)	3.00	3.00
Oil of lemon extract with oil base (distillation method)	4.00	4.00
Phosphorus pentoxide (P_2O_5)	8.00	8.00
Phosphorus pentoxide (P_2O_5) and aluminum trioxide (Al_2O_3)	15.00	15.00
Recoverable oil	2.00	2.00
Reducing sugars	6.00	6.00
Starch or carbohydrates (direct hydrolysis)	12.00	10.00
Carbohydrates (by difference)	12.00	10.00
Sulphur dioxide (direct titration)	3.00	1.00
Total solids (by drying)	3.00	2.00
Vanillin and coumarin	10.00	10.00
Volatile and non-volatile ether extract	8.00	8.00
Water extract	4.00	4.00
Water insoluble, kerosene resolne examination for adulteration, and particle count	8.50	6.00

[1] When any of these analyses are made at the request of an appplicant and are not in connection with an inspection to determine the quality or condition of the product, the listed fees shall be increased by 20%.

(b) The following charges shall be made for analyses which are requested by an applicant and are not in connection with an inspection to determine the quality or condition of the product: [1]

Type of analysis	For first analysis	For each additional analysis
Catalase	$2.40	$1.20
Peroxidase	2.40	1.20
Titrations: citric, lactic, acetic, or fatty acids, sodium chloride	1.20	1.20
Soluble solids (by refrac.)	2.40	1.20
Total solids (by refrac.)	2.40	1.20

§ 52.48 *When charges are to be based on hourly rate not otherwise provided for in this part.* When inspection is for condition only or when inspection services or related services are rendered and formal certificates are not issued or when the services rendered are such that charges based upon the foregoing sections would be inadequate or inequitable, charges may be based on the time consumed by the inspector in performance of such inspection service at the rate of $3.60 per hour.

§ 52.49 *Fees for score sheets.* If the applicant for inspection service requests score sheets showing in detail the inspection of each container or sample inspected and listed thereon, such score sheets may be furnished by the inspector in charge of the office of inspection serving the area where the inspection was performed; and such applicant shall be charged at the rate of $1.00 for each twelve samples, or fraction thereof, inspected and listed on such score sheets.

§ 52.50. *Fees for additional copies of inspection certificates.* Additional copies of any inspection certificate other than those provided for in § 52.21, may be supplied to any interested party upon pay-

[1] When these analyses are made in connection with an inspection to determine the quality or condition of the product no fee shall be charged for the analyses.

ment of a fee of $1.50 for each set of five (5) or fewer copies.

§ 52.51 *Travel and other expenses.* Charges may be made to cover cost of travel and other expenses incurred by the inspection service in connection with the performance of any inspection service, including travel and other expenses incurred in connection with any appeal inspection.

§ 52.52 *Charges for inspection service on a contract basis.* Irrespective of fees and charges prescribed in foregoing sections, the Administrator may enter into contracts with applicants to perform continuous inspection services or other inspection services pursuant to the regulations in this part and other requirements as prescribed by the Administrator in such contract, and the charges for such inspection service provided in such contracts shall be on such basis as will reimburse the Production and Marketing Administration of the Department for the full cost of rendering such inspection service including an appropriate overhead charge to cover as nearly as practicable administrative overhead expenses as may be determined by the Administrator.

MISCELLANEOUS

§ 52.53 *Fraud or misrepresentation.* Any wilful misrepresentation or any deceptive or fraudulent practice found to be made or committed by any person in connection with:

(a) The making or filing of an application for any inspection service;

(b) The submission of samples for inspection;

(c) The use of any inspection report or any inspection certificate, or appeal inspection certificate issued under the regulations in this part;

(d) The use of the words "Packed under continuous inspection of the U. S. Department of Agriculture," any legend signifying that the product has been officially inspected, any statement of grade or words of similar import in the labeling or advertising of any processed product;

(e) The use of a facsimile form which simulates in whole or in part any official U. S. certificate for the purpose of purporting to evidence the U. S. grade of any processed product; or

(f) Any wilful violation of the regulations in this part or supplementary rules or instructions issued by the Administrator, may be deemed sufficient cause for debarring such person from any or all benefits of the act.

§ 52.54 *Political activity.* All inspectors and licensed samplers are forbidden, during the period of their respective appointments or licenses, to take an active part in political management or in political campaigns. Political activities in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, are prohibited. This applies to all appointees or licensees, including, but not limited to, temporary and cooperative employees and employees on leave of absence with or without pay. Wilful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 52.55 *Interfering with an inspector or licensed sampler.* Any further benefits of the act may be denied any applicant or other interested party who either personally or through an agent or representative interferes with or obstructs, by intimidation, threats, assault, or in any other manner, an inspector or licensed sampler in the performance of his duties.

§ 52.56 *Compliance with other laws.* None of the requirements in the regulations in this part shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to the operation of food processing establishments and to processed food products.

§ 52.57 *Identification.* Each inspector and licensed sampler shall have in his possession at all times and present upon request, while on duty, the means of identification furnished by the Department to such person.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASIS [1]

§ 52.81 *Plant survey.* (a) Prior to the inauguration of continuous inspection service on a contract basis, the Administrator will make, or cause to be made, a survey and inspection of the plant where such service is to be performed to determine whether the plant and methods of operation are suitable and adequate for the performance of such services in accordance with:

(1) The regulations in this part, including, but not limited to, the requirements contained in §§ 52.81 through 52.87; and

(2) The terms and provisions of the contract pursuant to which the service is to be performed.

§ 52.82 *Premises.* The premises of the plant shall be free from conditions objectionable to food processing operations; and such conditions include, but are not limited to, the following:

(a) Strong offensive odors;

(b) Litter, waste, and refuse (e. g., garbage, viner refuse, and damaged containers) within the immediate vicinity of the plant buildings or structures;

(c) Excessively dusty roads, yards, or parking lots; and

(d) Poorly drained areas.

§ 52.83 *Buildings and structures.* The plant buildings and structures shall be properly constructed and maintained in a sanitary condition, including, but not being limited to, the following requirements:

(a) There shall be sufficient light (1) consistent with the use to which the particular portion of the building is devoted and (2) to permit efficient cleaning. Belts and tables on which picking, sorting, or trimming operations are carried on shall be provided with sufficient nonglaring light to insure adequacy of the respective operation.

(b) If practicable, there shall be sufficient ventilation in each room and compartment thereof to prevent excessive condensation of moisture and to insure sanitary and suitable processing and operating conditions. If such ventilation does not prevent excessive condensation, the Administrator may require that suitable facilities be provided to prevent the condensate from coming in contact with equipment used in processing operations and with any ingredient used in the manufacture or production of a processed product.

(c) There shall be an efficient waste disposal and plumbing system. All drains and gutters shall be properly installed with approved traps and vents, and shall be maintained in good repair and in proper working order.

(d) There shall be ample supply of both hot and cold water; and the water shall be of safe and sanitary quality with adequate facilities for its (1) distribution throughout the plant, and (2) protection against contamination and pollution.

(e) Roofs shall be weather-tight. The walls, ceilings, partitions, posts, doors, and other parts of all buildings and structures shall be of such materials, construction, and finish as to permit their efficient and thorough cleaning. The floors shall be constructed of tile, cement, or other equally impervious material, shall have good surface drainage, and shall be free from openings or rough surfaces which would interfere with maintaining the floors in a clean condition.

(f) Each room and each compartment in which any processed products are handled, processed, or stored (1) shall be so designed and constructed as to insure processing and operating conditions of a clean and orderly character; (2) shall be free from objectionable odors and vapors; and (3) shall be maintained in a clean and sanitary condition.

(g) Every practical precaution shall be taken to exclude dogs, cats, and vermin (including, but not being limited to, rodents and insects) from the rooms in which processed products are being prepared or handled and from any rooms in which ingredients (including, but not being limited to, salt, sugar, spices, flour, syrup, and raw fruits and vegetables) are handled or stored. Screens, or other devices, adequate to prevent the passage of insects shall, where practical, be provided for all outside doors and openings. The use of poisonous cleansing agents, insecticides, bactericides, or rodent poisons shall not be permitted except under such precautions and restrictions as will prevent any possibility of their contamination of the processed product.

§ 52.84 *Facilities.* Each plant shall be equipped with adequate sanitary facilities and accommodations, including, but not being limited to, the following:

(a) There shall be a sufficient number of adequately lighted toilet rooms, ample in size, and conveniently located. Such rooms shall not open directly into rooms or compartments in which processed products are being manufactured or produced, or handled. Toilet rooms shall be adequately screened and equipped with self-closing doors and shall have independent outside ventilation.

(b) Lavatory accommodations (including, but not being limited to, running water, single service towels, and soap) shall be placed at such locations in or near toilet rooms and in the manufacturing or processing rooms or compartments as may be necessary to assure the cleanliness of each person handling ingredients used in the manufacture or production of processed products.

(c) Containers intended for use as containers for processed products shall not be used for any other purpose.

(d) No product or material which creates an objectionable condition shall be processed, handled, or stored in any room, compartment, or place where any processed product is manufactured, processed, or handled.

(e) Suitable facilities for cleaning (e. g., brooms, brushes, mops, clean cloths, hose, nozzles, soaps, detergent, sprayers, and steam pressure hose and guns) shall be provided at convenient locations throughout the plant.

§ 52.85 *Equipment.* All equipment used for receiving, washing, segregating, picking, processing, packaging, or storing any processed products or any ingredients used in the manufacture or production thereof, shall be of such design, material, and construction as will:

(a) Enable the examination, segregation, preparation, packaging and other processing operations applicable to processed products, in an efficient, clean, and sanitary manner, and

(b) Permit easy access to all parts to insure thorough cleaning and effective bactericidal treatment. Insofar as is practicable, all such equipment shall be made of corrosion-resistant material that will not adversely affect the processed product by chemical action or physical contact. Such equipment shall be kept in good repair and sanitary condition.

§ 52.86 *Operations and operating procedures.* (a) All operations in the receiving, transporting, holding, segregating, preparing, processing, packaging and storing of processed products and ingredients, used as aforesaid, shall be strictly in accord with clean and sanitary methods and shall be conducted as rapidly as practicable and at temperatures that will not tend to cause (1) any material increase in bacterial or other micro-organic content, or (2) any deterioration or contamination of such processed products or ingredients thereof. Mechanical adjustments or practices which may cause contamination of foods by oil, dust, paint, scale, fumes, grinding materials, decomposed food, filth, chemicals, or other foreign materials shall not be conducted during any manufacturing or processing operation.

(b) All processed products and ingredients thereof shall be subjected to continuous inspection throughout each manufacturing or processing operation. All processed products which are not manufactured or prepared in accordance with the requirements contained in §§ 52.81 through 52.87 or are not fit for human food shall be removed and segregated prior to any further processing operation.

(c) All ingredients used in the manufacture or processing of any processed product shall be clean and fit for human food.

(d) The methods and procedures employed in the receiving, segregating, handling, transporting, and processing of ingredients in the plant shall be adequate to result in a satisfactory processed product. Such methods and procedures include, but are not limited to, the following requirement:

(1) Containers, utensils, pans, and buckets used for the storage or transporting of partially processed food ingredients shall not be nested unless rewashed before each use;

(2) Containers which are used for holding partially processed food ingredients shall not be stacked in such manner as to permit contamination of the partially processed food ingredients;

(3) Packages or containers for processed products shall be clean when being filled with such products; and all reasonable precautions shall be taken to avoid soiling or contaminating the surface of any package or container liner which is, or will be, in direct contact with such products. If, to assure a satisfactory finished product, changes in methods and procedures are required by the Administrator, such changes shall be effectuated as soon as practicable.

§ 52.87 *Personnel; health.* In addition to such other requirements as may be prescribed by the Administrator with respect to persons in any room or compartment where exposed ingredients are prepared, processed, or otherwise handled, the following shall be complied with:

(a) No person affected with any communicable disease (including, but not being limited to, tuberculosis) in a transmissible stage shall be permitted;

(b) Infections or cuts shall be covered with rubber gloves or other suitable covering;

(c) Clean, suitable clothing shall be worn;

(d) Hands shall be washed immediately prior to starting work and each resumption of work after each absence from the work station;

(e) Spitting, and the use of tobacco are prohibited; and

(f) All necessary precautions shall be taken to prevent the contamination of processed products and ingredients thereof with any foreign substance (including, but not being limited to, perspiration, hair, cosmetics, and medicaments).

§ 52.88 *Effective time and supersedure.* The revised regulations governing Inspection and Certification (which are the third issue) contained in this part will become effective at 12:01 a. m., e. d. s. t., July 23, 1951, and will thereupon supersede the regulations, issued on September 8, 1948 (14 F. R. 5300; as amended, 16 F. R. 7306 and 14 F. R. 3375).

(60 Stat. 1087; 7 U. S. C. 1621 et seq.; Pub. Law 70, 82d Cong., approved July 1, 1951)

Issued at Washington, D. C., this 18th day of July 1951.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 51-8472; Filed, July 20, 1951; 8:55 a. m.]

[1] Compliance with the above requirements does not excuse failure to comply with all applicable sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction over such plants and operations.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 22]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.419 *Plum Order 22*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 24, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 10, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 10, 1951; after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 24, 1951; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance

with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 24, 1951, and ending at 12:01 a. m., P. s. t., November 1, 1951, no shipper shall ship any package or container of Giant plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) Such plums are of a size not smaller than a size that will pack a 5 x 5 standard pack in a standard basket. The aforesaid 5 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided,* That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 18th day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-8477; Filed, July 20, 1951; 8:57 a. m.]

[Plum Order 23]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.420 *Plum Order 23*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 24, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 10, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 10, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 24, 1951; and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 24, 1951, and ending at 12:01 a. m., P. s. t., November 1, 1951, no shipper shall ship from any shipping point during any day any package or container of Late Duarte plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed thirty-three and one-third (33⅓) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided,* That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 18th day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Plum Order 24]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.421 *Plum Order 24*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than July 24, 1951. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 10, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 10, 1951, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 24, 1951, this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 24, 1951, and ending at 12:01 a. m., P. s. t., November 1, 1951, no shipper shall ship any package or container of Grand Duke plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) Such plums are of a size not smaller than a size that will pack a 5 x 5 standard pack in a standard basket. The aforesaid 5 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this regulation, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter, and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided,* That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 18th day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Lemon Reg. 392]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.499 *Lemon Regulation 392*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 *et seq.*), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be han-

dled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on July 18, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 22, 1951, and ending at 12:01 a. m., P. s. t., July 29, 1951, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 600 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 391 (16 F. R. 6795), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 19th day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-8526; Filed, July 20, 1951; 9:16 a. m.]

[Orange Regulation 381]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.527 *Orange Regulation 381*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on July 18, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) Subject to the size requirements in Orange Regulation 372, as amended (7 CFR 966.518; 16 F. R. 4678, 5652), the quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning 12:01 a. m., p. s. t., July 22, 1951, and ending at 12:01 a. m., p. s. t., July 29, 1951, is hereby fixed as follows:

(i) *Valencia Oranges.* (*a*) Prorate District No. 1: Unlimited movement;

(*b*) Prorate District No. 2: 1,100 carloads;

(*c*) Prorate District No. 3: Unlimited movement;

(*d*) Prorate District No. 4: Unlimited movement.

(ii) *Oranges other than Valencia Oranges.* (*a*) Prorate District No. 1: No movement;

(*b*) Prorate District No. 2: Unlimited movement;

(*c*) Prorate District No. 3: No movement;

(*d*) Prorate District No. 4: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used herein, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," "Prorate District No. 3," and "Prorate District No. 4" shall each have the same meaning as given to the respective terms in § 966.107, as amended (15 F. R. 8712), of the current rules and regulations (7 CFR 966.103 et seq.), as amended (15 F. R. 8712).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 20th day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter D—Nationality Regulations

PART 379—CERTIFICATES OF CITIZENSHIP UNDER SECTION 339 OF THE NATIONALITY ACT OF 1940, AS AMENDED

EXAMINING OFFICER'S REPORT

JUNE 18, 1951.

Paragraph (a) of § 379.7 *Record; recommendation; review; issuance of certificate,* is amended to read as follows:

§ 379.7 *Record; recommendation; review; issuance of certificate.* (a) Upon completion of the examination, the examining officer shall prepare a report of his findings on Form N-635 as to each of the essential facts to be established in the proceedings, together with his recommendation and any comment he deems necessary. If any issue of law or fact is raised by the evidence, the examining officer shall summarize the evidence and prepare a report thereon to accompany Form N-635. If the original documents were returned to the applicant at the conclusion of the examination, the examiner shall place a notation on Form N-635 showing that the copies were compared with such original documents and were found satisfactory and that the original documents were returned to the applicant. If denial of the application is recommended, a statement shall be made of the supporting grounds and reason therefor. If the recommendation to grant the application is based principally on documentary evidence, that fact shall be stated; if not, a brief statement of the facts and circumstances in evidence considered sufficient to justify action recommended shall be made. The recommendation of the examining officer shall then be forwarded to the district director.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs. Amdt. 43-7]

PART 43—GENERAL OPERATION RULES

FLIGHT AREA LIMITATIONS FOR STUDENT PILOTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 17th day of July, 1951.

In promulgating on May 3, 1951, Amendment 43-6 relating to requirements for private pilot ratings, it was the Board's intention that a student pilot be permitted, if otherwise qualified, to fly an aircraft outside a local flying area after obtaining a total of 15 hours of flight time, or after an approved air agency deems him competent. As published, Amendment 43-6 requires 15 solo flight hours, instead of a total of 15 hours of flight time, and, therefore, contains an unnecessary restriction which was not intended. For this reason this amendment sets forth the proper standard which permits a student, if otherwise qualified, after obtaining a total of 15 hours of flight time, including his solo flight time, to fly outside his local flying area.

For the reasons stated above, further notice and public procedure hereon are unnecessary; and since this regulation imposes no burden on anyone, the Board finds that good cause exists for making this amendment effective without the usual 30 days' notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 43 (14 CFR Part 43, as amended) effective August 1, 1951:

By amending § 43.54 to read as follows:

§ 43.54 *Flight area limitations.* A student pilot shall not pilot an aircraft outside a local flying area designated by his flight instructor until:

(a) He has had a total of 15 hours of flight time, or, if enrolled in and receiving flying instruction from an approved air agency, he is deemed competent by such agency, and

(b) He has received at least 3 hours of dual cross-country instruction from a flight instructor, and his student pilot certificate has been appropriately endorsed by such instructor.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 51]

PART 600—DESIGNATION OF CIVIL AIRWAYS

CIVIL AIRWAY ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.12 *Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.)* is amended after "Syracuse, N. Y., radio range station;" by deleting "Utica, N. Y., radio range station;"

2. Section 600.107 *Amber civil airway No. 7 (Key West, Fla., to U. S.-Canadian Border)* is amended after "Augusta, Me., radio range station;" to read: "Millinocket, Me., radio range station; Presque Isle, Me., radio range station via a direct line between the Presque Isle, Maine, radio range station and the Mont Joli, Quebec, Canada, radio range station to the U. S.-Canadian Border."

3. Section 600.108 *Amber civil airway No. 8 (Los Angeles, Calif., to The Dalles, Oreg.)* is amended after "Santa Barbara, Calif., VHF radio range station;" by changing the portion which reads: "the intersection of the northwest course of the Santa Barbara, Calif., VHF radio range and the southeast course of the Paso Robles, Calif., VHF radio range;" to read: "the intersection of a fine bearing 302° True from the Santa Barbara, Calif., VHF radio range station and the southeast course of the Paso Robles, VHF radio range;"

4. Section 600.222 *Red civil airway No. 22* is amended by changing caption to read: *"Red civil airway No. 22 (Mount Clemens, Mich., to Albany, N. Y.)."* and by adding the following portion to present civil airway: "From the Syracuse, N. Y., radio range station via the Utica, N. Y., radio range station to the intersection of the southeast course of the Utica, N. Y., radio range and the west course of the Albany, N. Y., radio range."

5. Section 600.226 is amended to read:

§ 600.226 *Red civil airway No. 26 (Syracuse, N. Y., to Allentown, Pa.).* From the Syracuse, N. Y., radio range station via the intersection of the south course of the Syracuse, N. Y., radio range and the north course of the Wilkes-Barre, Pa., radio range; Wilkes-Barre, Pa., radio range station to the intersection of the southeast course of the Wilkes-Barre, Pa., radio range and the west course of the Allentown, Pa., radio range.

6. Section 600.229 *Red civil airway No. 29 (Rochester, N. Y., to Baltimore, Md.)* is amended by changing the portion which reads: "From the intersection of the southeast course of the Elmira, N. Y., radio range and the north course of the Williamsport, Pa., radio range via the Williamsport, Pa., radio range station." to read: "From the intersection of the southwest course of the Elmira, N. Y., radio range and the north course of the Williamsport, Pa., radio range via the Williamsport, Pa., radio range station;"

7. Section 600.234 *Red civil airway No. 34 (Charleston, W. Va., to Elizabeth City, N. C.)* is amended by changing the first sentence to read: "From the Charleston, W. Va., radio range station via the Pulaski, Va., radio range station to the Greensboro, N. C., radio range station."

8. Section 600.237 *Red civil airway No. 37 (Dallas, Tex., to Gordonsville, Va.)* is amended by changing the last portion to read: "From the intersection of the northeast course of the Huntington, W. Va., radio range and the west course of the Charleston, W. Va., VHF radio range to the Charleston, W. Va., VHF radio range station. From the Charleston, W. Va., radio range station via the Roanoke, Va., radio range station; Lynchburg, Va., radio range station; to the Gordonsville, Va., radio range station."

9. Section 600.255 is amended to read:

§ 600.255 *Red civil airway No. 55 (Burlington, Iowa to Columbus, Ohio).* From the Burlington, Iowa, radio range station via the Peoria, Ill., radio range station; the intersection of the east course of the Peoria, Ill., radio range and the southwest course of the Joliet, Ill., radio range to the Chicago Heights, Ill., omnirange station. From the intersection of the Naperville, Ill., omnirange 69° True en route radial and the South Bend, Ind., omnirange 287° True en route radial to the South Bend, Ind., omnirange station. From the South Bend, Ind., radio range station via the Goshen, Ind., radio range station; the Findlay, Ohio, non-directional radio beacon to the Columbus, Ohio, radio range station.

10. Section 600.262 is amended by changing the caption to read: *"Red civil airway No. 62 (Detroit, Mich., to Altoona, Pa.)* and by deleting the first sentence which reads: "From the Lansing, Mich., radio range station to the intersection of the southeast course of the Lansing, Mich., radio range and the west course of the Detroit, Mich., radio range."

11. Section 600.281 is amended to read:

§ 600.281 *Red civil airway No. 81 (Lansing, Mich., to Elkins, W. Va.).* From the Lansing, Mich., radio range station via the intersection of the southeast course of the Lansing, Mich., radio range and the west course of the Detroit, Mich., radio range to the Toledo, Ohio, omnirange station. From the Columbus, Ohio, radio range station via the Parkersburg, W. Va., VHF radio range station to the intersection of the southeast course of the Parkersburg, W. Va., VHF radio range and the west course of the Elkins, W. Va., radio range.

12. Section 600.300 is amended to read:

§ 600.300 *Red civil airway No. 100 (Chicago, Ill., to Toledo, Ohio).* From the Chicago Heights, Ill., omnirange station via the Fort Wayne, Ind., omnirange station to the Toledo, Ohio, omnirange station.

13. Section 600.304 is amended to read:

§ 600.304 *Red civil airway No. 104 (Erie, Pa., to Elmira, N. Y.).* From the Erie, Pa., radio range station via the Bradford, Pa., non-directional radio beacon to the Elmira, N. Y., omnirange station.

14. Section 600.641 *Blue civil airway No. 41 (New York, N. Y., to United States-Canadian Border)* is amended by deleting the last portion which reads: "excluding that portion lying more than 3 miles southeast of the northeast course of the Bangor, Maine, radio range between the radio range station and a point 25 miles northeast of the Bangor, Maine, radio range station."

15. Section 600.650 is amended to read:

§ 600.650 *Blue civil airway No. 50 (Augusta, Maine, to the U. S.-Canadian Border).* From the Augusta, Maine, radio range station to the Bangor, Maine, radio range station. From the intersection of the southeast course of the Bangor, Maine, radio range and the southwest course of the Pennfield Ridge, New Brunswick, Canada, radio range to the intersection of the southwest course of the Pennfield Ridge, New Brunswick, Canada, radio range and the U. S.-Canadian Border.

16. Section 600.684 is added to read:

§ 600.684 *Blue civil airway No. 84 (Bangor, Maine to Millinocket, Maine).* From the Bangor, Maine, radio range station to the Millinocket, Maine, radio range station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 31, 1951.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 51-8445; Filed, July 20, 1951; 8:54 a. m.]

[Amdt. 55]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

MISCELLANEOUS AMENDMENTS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 601 is amended as follows:

1. Section 601.13. *Green civil airway No. 3 control areas (San Francisco, Calif., to New York, N. Y.)* is amended by deleting the following portion from the present control areas: "From the Chicago Heights, Ill., omnirange station to the intersection of the Chicago Heights omnirange 333° True en route radial and the Chicago-Midway ILS localizer course;"

2. Section 601.105 *Amber civil airway No. 5 control areas (Grand Isle, La., to Milwaukee, Wis.)* is amended by correcting the Chicago Heights to Milwaukee omnirange direct en route radial from 342° to 340° True.

3. Section 601.212 *Red civil airway No. 12 control areas (Kansas City, Mo., to Williamsport, Pa.)* is amended by deleting the portion which reads as follows: "and from the Naperville, Ill., omnirange station to the South Bend, Ind., omnirange station via the intersection of the Naperville omnirange 69° True and the South Bend Omnirange 287° True en route radials."

4. Section 601.214 *Red civil airway No. 14 control areas (Lone Rock, Wis., to Huntington, W. Va.)* is amended by deleting the portion which reads: "From the Chicago Heights, Ill., omnirange station via the direct en route and 15° northeast and southwest altitude change radials;" and by substituting the following in lieu thereof: "From the intersection of the Chicago Heights omnirange 333° True en route radial and the Chicago-Midway ILS localizer course to the Chicago Heights omnirange station via the Chicago Heights omnirange 333° True en route radial; from the Chicago Heights, Ill., omnirange station to the Lafayette, Ind., omnirange station via the direct en route and 15° northeast and southwest altitude change radials;"

5. Section 601.222 is amended by changing caption to read: *"Red civil airway No. 22 control areas (Mount Clemens, Mich., to Albany, N. Y.)."*

6. Section 601.223 *Red civil airway No. 23 control areas (U. S.-Canadian Border to New York, N. Y.)* is amended by changing the first portion to read: "All of Red Civil airway No. 23 within the United States including all that area within 5 miles either side of the en route radials from the Buffalo, N. Y., omnirange station."

7. Section 601.227 *Red civil airway No. 27 control areas (Atlanta, Ga., to Detroit, Mich.)* is amended by deleting the last portion of present control areas which reads: "and from the Toledo, Ohio, omnirange station via the Toledo-Lansing direct en route radial to its point of intersection with the west course of the Detroit, Mich., radio range, including, all that area bounded on the southwest by the Toledo-Lansing direct en route radial, on the north by the Detroit-Litchfield direct en route radial and on the southeast by the Detroit-Fort Wayne direct en route radial."

8. Section 601.228 is amended to read:

§ 601.228 *Red civil airway No. 28 control areas (Rockford, Ill., to Detroit, Mich.).* All of Red civil airway No. 28 including all that area within 5 miles either side of the en route and altitude change radials and the area between the altitude change and en route radials from the Janesville, Wis., omnirange station to the intersection of the Janesville omnirange 112° True en route radial and the Chicago Heights omnirange 340° True en route radial, including all that area bounded on the south by Red civil airway No. 28, on the northwest by Red civil airway No. 57 and on the northeast by the Janesville omnirange 112° True en route radial. From the Naperville omnirange station to the intersection of the Naperville omnirange 69° True and the South Bend, Ind., omnirange 287° True en route radials via the Naperville omnirange 69° True en route radial. From the Lansing, Mich., omnirange station to the Detroit, Mich., omnirange station via the direct en route and 15° north altitude change radials.

9. Section 601.229 *Red civil airway No. 29 control areas (Rochester, N. Y., to Baltimore, Md.)* is amended by deleting the portion which reads: "including all that area bounded on the east by Red civil airway No. 29, on the southwest by the Elmira-Williamsport direct en-route radial and on the northeast by the Elmira-Wilkes Barre direct en route radial."

10. Section 601.231 *Red civil airway No. 31 control areas (Denver, Colo., to Minneapolis, Minn.)* is amended by changing the first sentence, in part, to read: "All of Red civil airway No. 31 including all that area within 5 miles either side of the en route and altitude change radials and the area between the altitude change and en route radials from the Cheyenne, Wyo., omnirange station."

11. Section 601.235 *Red civil airway No. 35 control areas (Pueblo, Colo., to St. Joseph, Mo.)* is amended by changing the last portion starting from "Hutchinson, Kansas., omnirange station to Wichita, Kansas, omnirange station" etc., to read: "from the Hutchinson, Kans., omnirange station to the Wichita, Kansas, omnirange station via the direct en route radials including all that area bounded on the north by Red civil airway No. 35, on the east by Blue civil airway No. 5 and on the south by the Hutchinson-Wichita direct en route radials; from the Hutchinson, Kans., omnirange station to the Emporia, Kans., omnirange station via the direct en route and 15° north altitude change radials."

12. Section 601.255 *Red civil airway No. 55 control areas (Burlington, Iowa, to Columbus, Ohio)* is amended before the portion which reads: "From the South Bend, Ind., omnirange station to the Millersburg, Ind., omnirange . . ." by adding the following portion to read: "From the intersection of the Naperville omnirange 69° True en route radial and the South Bend omnirange 287° True en route radial to the South Bend, Ind., omnirange station via the South Bend omnirange 287° True en route radial;"

13. Section 601.262 is amended to read:

§ 601.262 *Red civil airway No. 62 control areas (Detroit, Mich., to Altoona,*

Pa.). All of Red civil airway No. 62 including all that area within 5 miles either side of the en route radials from the Cleveland, Ohio, omnirange station to the Bergholz, Ohio, non-directional radio beacon via the Cleveland omnirange direct en route radial.

14. Section 601.281 is amended to read:

§ 601.281 *Red civil airway No. 81 control areas (Lansing, Mich., to Elkins, W. Va.).* All of Red civil airway No. 81 including all that area within 5 miles either side of the en route radials from the Lansing, Mich., omnirange station to the Toledo, Ohio, omnirange station via the direct en route radials.

15. Section 601.300 is amended to read:

§ 601.300 *Red civil airway No. 100 control areas (Chicago, Ill., to Toledo, Ohio).* All of Red civil airway No. 100 including all that area within 5 miles either side of the en route and altitude change radials and the area between the altitude change and en route radials from the Chicago Heights, Ill., omnirange station to the Fort Wayne, Ind., omnirange station via the direct en route and 15° south altitude change radials; from the Fort Wayne, Ind., omnirange station to the Toledo, Ohio, omnirange station via the direct en route radials.

16. Section 601.304 is amended to read:

§ 601.304 *Red civil airway No. 104 control areas (Erie, Pa., to Elmira, N. Y.).* All of Red civil airway No. 104.

17. Section 601.603 *Blue civil airway No. 3 control areas (Tallahassee, Fla., to Sault Ste. Marie, Mich.)* is amended by deleting the words "from the Tallahassee, Fla., radio range station to a point 25 miles north of the Pellston, Mich., non-directional radio beacon."

18. Section 601.644 *Blue civil airway No. 44 control areas (Advance, Mo., to U. S.-Canadian Border)* is amended by deleting the last portion which reads: "and from the Fort Wayne, Ind., omnirange station to the Toledo, Ohio, omnirange station via the direct en route radials."

19. Section 601.650 is amended to read:

§ 601.650 *Blue civil airway No. 50 control areas (Augusta, Maine to U. S.-Canadian Border).* All of Blue civil airway No. 50.

20. Section 601.684 is added to read:

§ 601.684 *Blue civil airway No. 84 control areas (Bangor, Maine to Millinocket, Maine).* All of Blue civil airway No. 84.

21. Section 601.1069 is amended to read:

§ 601.1069 *Control area extension (Santa Barbara, Calif.).* From the Santa Barbara, Calif., radio range station extending 5 miles either side of the north, west, and south courses of the Santa Barbara radio range to points 25 miles north, west and south of the radio range station, and from the Santa Barbara, Calif., VHF radio range station extending 5 miles either side of a line bearing 122° True from the Santa Barbara VHF radio range station to a point 38 miles southeast.

22. Section 601.1080 is amended to read:

§ 601.1080 *Control area extension (Louisville, Ky.).* All that area within a 15 mile radius of the Louisville omnirange station excluding danger areas, and all that area within 5 miles either side of the 122° True radial of the Louisville omnirange extending from the omnirange station to a point 25 miles southeast, the area within 5 miles either side of the 154° True radial of the omnirange extending from the omnirange station to a point 25 miles southeast, and the area within 5 miles either side of the Louisville ILS localizer course extending from the localizer to a point 13.2 miles southwest.

23. Section 601.1088 *Control area extension (Alexandria, Minn.)* is amended by adding the following to the present control area extension: "and all that area within 5 miles either side of the 50° True radial of the omnirange extending from the omnirange station to a point 25 miles northeast."

24. Section 601.1092 *Control area extension (Dickinson, N. Dak.)* is amended by adding the following to the present control area extension: "and all that area within 5 miles either side of the 15° True radial of the omnirange extending from the omnirange station to a point 25 miles northeast."

25. Section 601.1095 is amended to read:

§ 601.1095 *Control area extension (Fort Wayne, Ind.).* All that area within a 15 mile radius of the Fort Wayne omnirange station including that area within 5 miles either side of the 318° True radial of the omnirange extending from the omnirange station to a point 25 miles northwest and that area within 5 miles either side of the Fort Wayne ILS localized course extending from the localizer to a point 20 miles southeast of the outer marker.

26. Section 601.1100 *Control area extension (Lone Rock, Wis.)* is amended by adding the following to the present control area extension: "including the area within 5 miles either side of the 24° True radial of the omnirange extending from the omnirange station to a point 25 miles northeast."

27. Section 601.1154 *Control area extension (Bismarck, N. Dak.)* is amended by adding the following to the present control area extension: "and all that area within 5 miles either side of the 114° True radial of the omnirange station extending from the omnirange station to a point 25 miles southeast."

28. Section 601.1161 is amended to read:

§ 601.1161 *Control area extension (Chicago, Ill.).* All that area within a 30 mile radius of the Chicago-Midway Airport excluding the portion overlapping danger areas; all that area within a 15 mile radius of the Chicago Heights omnirange station; all that area east of the Chicago Midway Airport bounded on the northwest by Red civil airway No. 28, on the east by Blue civil airway No. 6 and on the south by Red civil airway No. 12, and all that area southeast of Chicago Midway Airport bounded on the north by Red civil airway No. 12, on the east by Blue civil airway No. 6, on the south by Green civil airway No. 3 and on the west by Red civil airway No. 14.

29. Section 601.1246 *Control area extension (Evansville, Ind.)* is amended by adding the following to the present control area extension: "and all that area within 5 miles either side of the 37° True radial of the omnirange station to a point 25 miles northeast."

30. Section 601.1250 is amended to read:

§ 601.1250 *Control area extension (Jamestown, N. Dak.).* All that area within a 15 mile radius of the Jamestown omnirange station including the area within 5 miles either side of the 191° True radial of the omnirange extending from the omnirange station to a point 25 miles south.

31. Section 601.1251 is amended to read:

§ 601.1251 *Control area extension (Mansfield, Ohio).* All that area within a 15 mile radius of the Mansfield omnirange station including the area within 5 miles either side of the 130° True radial of the omnirange extending from the omnirange station to a point 25 miles southeast.

32. Section 601.1261 is amended to read:

§ 601.1261 *Control area extension (Lansing, Mich.).* All that area within a 15 mile radius of the Lansing omnirange station including the area within 5 miles either side of the 232° True radial of the omnirange extending from the omnirange station to a point 25 miles southwest.

33. Section 601.1263 is amended to read:

§ 601.1263 *Control area extension (Rochester, Minn.).* All that area within a 15 mile radius of the Rochester omnirange station including the area within 5 miles either side of the 222° True radial of the omnirange extending from the omnirange station to a point 25 miles southwest.

34. Section 601.1274 is added to read:

§ 601.1274 *Control area extension (Niagara Falls, N. Y.).* All that area within 5 miles either side of a direct line extending from the Niagara Falls ILS outer marker to the Dunkirk, N. Y., nondirectional radio beacon, excluding the portion which lies outside the continental United States.

35. Section 601.1984 *5 mile control zones* is amended by revoking the following airport:

Langley Field, Va.: Langley Field

36. Section 601.2118 *Pembina, N. Dak., control zone* is revoked.

37. Section 601.2118 is added to read:

§ 601.2118 *Langley AFB, Va., control zone.* Within a 5-mile radius of Langley AFB and within a 5-mile radius of Patrick Henry Airport, excluding the portion which overlaps danger areas.

38. Section 601.2228 is amended to read:

§ 601.2228 *Fairbanks, Alaska, control zone.* Within a 15-mile radius of Fairbanks International Airport.

39. Section 601.2235 *Willmar, Minn., control zone* is revoked.

40. Section 601.2235 is added to read:

§ 601.2235 *Truth or Consequences, N. Mex., control zone.* Within a 5-mile radius of the Truth or Consequences Municipal Airport extending 2 miles either side of the 13° True radial of the Hot Springs, N. Mex., omnirange extending from the omnirange station to a point 10 miles north.

41. Section 601.2288 is added to read:

§ 601.2288 *Longview, Tex., control zone.* Within a 5-mile radius of Gregg County Airport extending 2 miles either side of a track bearing 188° True from the Longview non-directional radio beacon to a point 10 miles south.

42. Section 601.2289 is added to read:

§ 601.2289 *Houghton, Mich., control zone.* Within a 5-mile radius of the Houghton County Airport extending 2 miles either side of the north course of the Houghton radio range to a point 10 miles north of the radio range station.

43. Section 601.2290 is added to read:

§ 601.2290 *Grand Marais, Mich., control zone.* Within a 5-mile radius of Grand Marais Airport extending 2 miles either side of the west course of the Grand Marais radio range to a point 10 miles west of the radio range station.

44 Section 601.2291 is added to read:

§ 601.2291 *Sault Ste. Marie, Mich., control zone.* Within a 5-mile radius of Kinross Airport, Sault Ste. Marie, Mich., extending 2 miles either side of the ILS localizer course to a point 10 miles northwest of the ILS outer marker compass locator.

45. Section 601.4012 *Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.)* is amended by deleting the following compulsory reporting point:

"Utica, N. Y., radio range station;"

46. Section 601.4107 *Amber civil airway No. 7 (Key West, Fla., to U. S.-Canadian Border)* is amended by deleting the following compulsory reporting point:

"Bangor, Maine, radio range station;"

47. Section 601.4222 is amended to read:

§ 601.4222 *Red civil airway No. 22 (Mount Clemens, Mich., to Albany, N. Y.).* The intersection of the northeast course of the Buffalo, N. Y., radio range and the northwest course of the Rochester, N. Y., radio range; Utica, N. Y., radio range station.

48. Section 601.4223 *Red civil airway No. 23 (U. S.-Canadian Border to New York, N. Y.)* is amended by adding the following compulsory reporting points at beginning of designation: "The Houghton, Mich., radio range station; Sault Ste. Marie, Mich., radio range station;"

49. Section 601.4262 is amended by changing caption to read:

§ 601.4262 *Red civil airway No. 62 (Detroit, Mich., to Altoona, Pa.).* * * *

50. Section 601.4281 is amended by changing caption to read:

§ 601.4281 *Red civil airway No. 81 (Lansing, Mich., to Elkins, W. Va.).* * * *

51. Section 601.4300 is amended by changing caption to read:

§ 601.4300 *Red civil airway No. 100 (Chicago, Ill., to Toledo, Ohio).* * * *

52. Section 601.4308 is added to read:

§ 601.4308 *Red civil airway No. 108 (Watertown, S. Dak., to Redwood Falls, Minn.).* No reporting point designation.

53. Section 601.4304 is amended by changing caption to read:

§ 601.4304 *Red civil airway No. 104 (Erie, Pa., to Elmira, N. Y.).* * * *

54. Section 601.4603 is amended to read:

§ 601.4603 *Blue civil airway No. 3 (Tallahassee, Fla., to Sault Ste. Marie, Mich.).* Traverse City, Mich., radio range station; Pellston, Mich., non-directional radio beacon.

55. Section 601.4650 is amended to read:

§ 601.4650 *Blue civil airway No. 50 (Augusta, Maine, to U. S.-Canadian Border).* Bangor, Maine, radio range station.

56. Section 601.4662 is amended to read:

§ 601.4662 *Blue civil airway No. 62 (Ypsilanti, Mich., to Traverse City, Mich.).* The Saginaw, Mich., non-directional radio beacon.

57. Section 601.4684 is added to read:

§ 601.4684 *Blue civil airway No. 84 (Bangor, Maine, to Millinocket, Maine).* No reporting point designation.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. July 31, 1951.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5725]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CONTINENTAL RADIO TUBE CO. ET AL.

Subpart—*Concealing or obliterating law required and informative marking:* § 3.517 *Government or war surplus;* § 3.520 *Quality, grade or qualities.* Subpart—*Misbranding or mislabeling:* § 3.1195 *Connections and arrangements with others;* § 3.1265 *Old, secondhand, reclaimed or reconstructed product as new;* § 3.1285 *Producer status of dealer or seller;* § 3.1295 *Quality or grade;* § 3.1335 *Success, use or standing.* Subpart—*Passing off:* § 3.2105 *Passing off.* In connection with the sale and distribution of radio tubes in commerce, (1) removing the manufacturers' or other identifying numbers or symbols on radio tubes purchased by them, substituting in lieu thereof other numbers or symbols, and delivering same to customers in commerce as products to which such substitute identification marks would not truthfully or properly apply, as understood in the trade and by the consuming public; (2) buffing away the service numbers or symbols on war surplus radio tubes purchased by them, substituting therefor commercial numbers or symbols, and delivering same to customers in commerce, thereby representing, directly or inferentially, that such war surplus tubes are current commercial stock of recent manufacture; (3) representing that respondents have been licensed by Radio Corporation of America to make or distribute tubes, or for any other purpose; or, (4) representing, by statement or by implication, that respondents are master builders of radio tubes or that they manufacture any tubes whatsoever; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Continental Radio Tube Company, et al., Docket 5725, April 19, 1951]

In the Matter of Continental Radio Tube Company a Corporation, and P. D. Jackson, Jacob L. Gaber, Erwin F. Rempert, and Martin Gaber, Individually and as Officers of Continental Radio Tube Company.

This proceeding was heard by Clyde M. Hadley, trial examiner, upon the complaint of the Commission, respondents' answer, and a stipulation whereby it was stipulated and agreed that a statement of facts signed and executed by counsel for respondents and by Randolph W. Branch, for the Commission, might be taken as the facts in the proceeding and in lieu of testimony in support of and in opposition to the charges stated in the complaint, and might serve as the basis for findings as to the facts and conclusion based thereon and order disposing of the proceeding (counsel having duly waived presentation of proposed findings and conclusions or oral argument), but subject to the express provision that upon appeal to or review by the Commission it might be set aside by it and the matter remanded for further proceedings under the complaint.

Thereafter the proceeding regularly came on for final consideration by said trial examiner upon the complaint, answer and stipulation, and said trial examiner, having approved said stipulation and considered the record, and found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts, conclusion drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provsion of said Rule XXII, became the decision of the Commission April 19, 1951.

It is ordered, That the respondents Continental Company, a corporation, trading under its own or by any other name, and P. D. Jackson, Jacob L. Gaber, Erwin F. Rempert, and Martin Gaber, either individually or as officers thereof, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the sale and distribution of radio tubes in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from the following acts and practices.

1. Removing the manufacturers' or other identifying numbers or symbols on radio tubes purchased by them, substituting in lieu thereof other numbers or symbols, and delivering same to customers in commerce as products to which such substitute identification marks would not truthfully or properly apply, as understood in the trade and by the consuming public.

2. Buffing away the service numbers or symbols on war surplus radio tubes purchased by them, substituting therefor commercial numbers or symbols, and delivering same to customers in commerce, thereby representing, directly or inferentially, that such war surplus tubes are current commercial stock of recent manufacture.

3. Representing that respondents have been licensed by Radio Corporation of America to make or distribute tubes, or for any other purpose.

4. Representing, by statement or by implication, that respondents are master builders of radio tubes or that they manufacture any tubes whatsoever.

By "Decision of the Commission and order to file report of compliance", Docket 5725, April 19, 1951, which announced and decreed fruition of said initial decision, report of compliance with said order to cease and desist was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

Issued: April 19, 1951.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

GENERAL PROVISIONS

Rescind §§ 536.1 to 536.10, inclusive, and substitute the following in lieu thereof:

Sec.

536.1 Definition.
536.2 Application.
536.3 Authority to settle claims.
536.4 Action by claimant.
536.5 Duties of claims officer.
536.6 Claims not provided under any law.
536.7 Transfers and assignments of claims.
536.8 Disclosures of information.

AUTHORITY: §§ 536.1 to 536.8 issued under R. S. 161; 5 U. S. C. 22.

SOURCE: §§ 536.1 to 536.8, inclusive, contained in SR 35-20-1, 31 May 1951.

§ 536.1 *Definitions.* The word "claims" as used in §§ 536.1–536.8 refers to those demands for payment in money submitted in writing by individuals, partnerships, associations, or corporations, including countries, States, Territories, and other political subdivisions of such countries, but excluding the Federal Government of the United States and its instrumentalities, other than such demands for payment as arise under ordinary obligations incurred by the Department of the Army or the Army in the procurement of services or supplies. As to claims in favor of the United States, see §§ 537.3–537.5 of this chapter.

§ 536.2 *Application.* So far as consistent with the specific regulations, the procedures set forth in §§ 536.1–536.8 will apply to claims under §§ 536.12–536.23, 536.26, 536.27, and 536.29. As to marine casualties, see § 536.44.

§ 536.3 *Authority to settle claims.* Authority to settle claims has by statute been granted to the Department of the Army and the Army, as shown in the following chart, which may be used as a guide in determining which section of this part have application to any claim.

CLAIMS CHART

Sections	Statute	Title	Coverage	Amount	Method of settlement	Personal injury	Personal property	Real property	Subrogation	Time limit	Remarks
536.12–536.23 [AR 25-25]	Sec. 1, act July 3, 1943 (57 Stat. 372), as amended by act May 29, 1945 (59 Stat. 225); act June 28, 1946 (60 Stat. 332); act July 26, 1947 (61 Stat. 501; 31 U. S. C. 223b).	Military Claims Act.	Damage to or loss or destruction of property, or personal injury or death, caused by military personnel or civilian employees, while acting within the scope of their employment or otherwise incident to noncombat activities of the Department of the Army or of the Army, settlement of which under these provisions is not precluded by the Federal Tort Claims Act, infra.	$1,000 maximum. Claims in excess of $1,000 may be reported to Congress.	Approved by designee of Secretary of the Army, with appeal to the Secretary of the Army. If in excess of $1,000: Approval by Secretary of the Army, who submits to Bureau of the Budget for report to Congress.	Yes, to extent of reasonable medical, hospital, and burial expenses.	Yes...	Yes...	Entire amount allowed to subrogor but no payment to subrogee.	1 year, except that if claim arises in time of war or when war intervenes within 1 year, and good cause for delay is shown 1 year after peace is established.	Applicable if not within AR 25-70 (§536.29) AR 25-90 (§536.26), or AR 25-100 (§536.27).

CLAIMS CHART—Continued

Sections	Statute	Title	Coverage	Amount	Method of settlement	Personal injury	Personal property	Real property	Subrogation	Time limit	Remarks
536.29 [AR 25-70]	Federal Tort Claims Act as codified by the act of June 25, 1948 (62 Stat. 982, as amended; 28 U. S. C. Supp., 2671-2680).	Federal Tort Claims Act.	Damage to or loss of property or personal injury or death, where the total amount of the claim does not exceed $1,000, caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant for such damage, loss, injury, or death, in accordance with the law of the place where the act or omission occurred. ("Employee of the Government" includes members of the military forces.)	$1,000 maximum. Claims in excess of $1,000 may be sued upon in United States district courts.	Approval by Secretary of the Army or his designee, subject to appeal to Secretary of the Army.	Yes, including all elements of compensatory damage allowed in jurisdiction where act or or omission causing injury occurred.	Yes...	Yes...	Entire or partial amount allowed and paid to subrogor and/or subrogee jointly or severally in accordance with their respective interests.	2 years	Applicable to claims predicated on negligence arising only in the United States, its Territories, and possessions.
536.25 [AR 25-80]	Act of May 5, 1950 (64 Stat. 107; 50 U. S. C. 551-736).	Uniform Code of Military Justice Article 139.	Damage to or loss or destruction of property by members of the Armed Forces caused by riotous, violent, or disorderly conduct, or acts of depredation, willful misconduct, or such reckless disregard of property rights as to carry implications of guilty intent.	No limit	Approval by offender's commanding officer. Payment by local disbursing officer out of deductions from offender's pay.	No	Yes...	Yes...	Uninsured portion allowed to subrogor but no payment to subrogee.	60 days	Not used when claim is payable under AR 25-25 (§§ 536.12-536.23), AR 25-70 (§ 536.29), AR 25-90 (§ 536.26), or AR 25-100 (§§ 536.27).
536.26 [AR 25-90]	Act of Jan. 2, 1942 (55 Stat. 880), as amended by act Apr. 22, 1943 (57 Stat. 66); act July 31, 1945 (59 Stat. 511); act July 25, 1947 (61 Stat. 449, 454; 31 U. S. C. 224d).	Foreign Claims Act.	Damage to or loss or destruction of property, or personal injury or death caused by United States Armed Forces or individual members and civilian employees thereof in foreign countries.	$5,000 maximum. Claims in excess of $5,000 may be reported to Congress.	Approval by a Foreign Claims Commission; if in excess of $2,500 must also be approved by theater, base, or comparable commander or by The Judge Advocate General. Payment by local disbursing officer on certification by such commission. Claims in excess of $5,000 approved by Secretary of the Army may be reported to Congress.	Yes	Yes...	Yes...	Entire amount allowed to subrogor but no payment to subrogee.	1 year	Applicable to exclusion of all other regulations when claimant is an inhabitant of the foreign country in which claim arose, unless claim arose incident to service of such inhabitant in employ of the United States.
536.27 [AR 25-100]	Act of May 29, 1945 (59 Stat. 225; 31 U. S. C. 222e).	Military Personnel Claims Act.	Damage to or loss, destruction, capture, or abandonment of personal property of military personnel or civilian employees occurring incident to their service.	No limit	Approval by designee of Secretary of the Army.	No	Yes...	No...	Uninsured portion allowed to subrogor but no payment to subrogee.	1 year except that if claim arises in time of war, or if war intervenes within 2 years, 1 year after peace is established, provided good cause is shown for delay in filing claim.	Where applicable, these regulations are used to the exclusion of all other regulations.

§ 536.4 *Action by claimant.*—(a) *Claimant*—(1) *Claims for property damage, loss, or destruction.* Claims for damage to or loss or destruction of property may be presented by the owner of the property or his duly authorized agent or legal representative. The word "owner," as so used, includes bailees, lessees, mortgagors, and conditional vendees, but does not include mortgagees, conditional vendors, and others, having title for purposes of security only. (As to claims of subrogees, see the applicable specific regulations.) The claim, if filed by an agent or legal representative, should be filed in the name of the owner, signed by such agent or legal representative, show the title or capacity of the person signing and be accompanied by evidence of the appointment of such person as agent, executor, administrator, guardian, or other fiduciary. The claim, if filed by a corporation, should show the title or capacity of the officer signing and be accompanied by evidence of his authority to act.

(2) *Claims for personal injury or death.* Claims for personal injury or death may be presented by the injured person or his duly authorized agent or legal representative. Claims for medical, hospital, and burial expenses not presented by the injured person or his duly authorized agent or legal representative, may, if it appears that no legal representative has been appointed, be presented by any person who, by reason of family relationship, has in fact incurred the expenses for which claim is made.

(b) *Form of claim.* Claims should be submitted by presenting in triplicate a dated statement in writing stating the claimant's address (military personnel should state military and home address) and setting forth the definite amount of the claim, so far as possible, the detailed facts and circumstances surrounding the accident or incident, indicating the date and place, the property and persons involved, the nature and extent of the damage, loss, destruction, or injury, and the agency which was the cause or occasion thereof, whether or not a suit has been filed in a United States District Court on the subject matter of the claim and, if so, the outcome or status of such suit. Department of the Army forms or standard forms promulgated by the Bureau of the Budget will be used whenever practicable.

(c) *Evidence to be submitted by claimant*—(1) *General.* The amount claimed for damage to or loss or destruction of property, or for personal injury or death, should be substantiated by competent evidence.

(2) *Property damage.* In support of claims for damage to personal property which has been or can be economically repaired, the claimant should submit in triplicate an itemized signed statement or estimate of the cost of repairs, if not economically reparable, or if the property is lost or destroyed, the value thereof, both before and after the accident, should be stated. In support of claims for damage to land, trees, buildings, fences, and other improvements and similar property, the claimant should submit an itemized signed statement or estimate of the cost of repairs; if not economically reparable, the value both before and after the accident, of the land damaged, or of the improvement of other property, if it can be readily and fairly valued apart from the land, should be stated. In support of claims for damage to crops, the statement should show the number of acres or other unit measure, of the crops damaged, the normal yield per unit, the gross amount which would have been realized from such normal yield, and an estimate of the further costs of cultivation, harvesting, and marketing; if the crop is one which need not be planted each year, the diminution in value of the land beyond the damage to the current year's crop should also be stated. All such statements or estimates should, if possible, be by disinterested competent witnesses, preferably reputable dealers in the type of property damaged. Such statements and estimates should be certified as just and correct; if payment has been made, itemized receipts evidencing payment should be included. In the case of claims for damage to or loss or destruction of registered or insured mail, the claimant should in addition submit, where possible, the registration or insurance receipt, or an attested copy thereof, showing the amount of fee and postage paid.

(3) *Personal injury.* In support of claims for personal injury or death, the claimant should submit in triplicate, a written report by attending physician, showing the nature and extent of injury, the nature and extent of treatment, and degree of permanent disability, if any, the prognosis, and the period of hospitalization or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred, and, if claim is made for loss of time or loss of earnings, a written report in triplicate by claimant's employer showing claimant's age, occupation, wage or salary, time lost from work, whether or not a full time employee, and actual period of employment by dates. If claimant is self-employed, his claims for loss of earnings must be supported by competent evidence as to the amount of earnings actually lost.

(d) *Signatures.* The claim and all other papers requiring the signature of the claimant should be signed by the claimant personally or by a duly authorized agent and should show the given name, middle initial, if any, and surname. The signature of such claimant or agent must be in ink and should be identical on all papers. When a claim is signed by a married woman, it should be signed in her given name, e. g., "Mary A. Doe" instead of "Mrs. John Doe." The middle initial or name, if any, should be the initial or name normally used by the claimant.

(e) *Place of filing.* The claim should be submitted to the commanding officer of the unit involved if known, otherwise to the commanding officer of any installation or other military establishment, if practicable the one within which or nearest to which the accident or incident occurred. If in a foreign country where no military forces are stationed, the claim may be submitted to an attaché of the United States Armed Forces.

§ 536.5 *Duties of claims officer.*—(a) *Procedure.* In proceeding with the investigation and making his report, the claims officer will:

(1) Consider all information and evidence obtained as the result of any previous inquiry or investigation of any aspect of the accident or incident.

(2) Conduct further independent investigation of the matter in a fair and impartial manner.

(3) Secure and consider testimony of all competent witnesses on pertinent facts.

(4) Submit in triplicate all pertinent testimony and evidence (or the substance thereof where appropriate) taken or considered.

(5) Make certain that repair bills or estimates are certified by the persons rendering them, as just and correct. If the bills have been paid, the payees should so certify.

(6) Claims against the United States will not be solicited. In the event inquiry is made as to the procedure whereby a claim may be filed, the person making the inquiry will be informed of the provisions of § 536.4, furnished appropriate forms, and advised as to where they may be filed. Furnishing the claimant forms bearing on the reverse a substantial copy of such provisions will constitute compliance with such requirement. The claims officer will state whether or not potential claimants have requested or received claim forms.

(b) *Consolidation of claims in a single report.* When several claims are presented as the result of a single accident or incident, they should normally be incorporated in a single report. Any claims presented subsequently may be processed with reference to the report already submitted.

(c) *Ascertainment of amount of damage*—(1) *Property damage, loss, or destruction.* (i) Property is economically reparable if the cost of repairs does not exceed the actual value of the property immediately prior to the accident or incident less the value of the damaged property immediately after the accident or incident.

(ii) If the property has been or can be economically repaired, the measure of damage is the net cost or estimated cost, as defined in subdivision (iv) of this subparagraph, of repairs necessary to restore the property to substantially the condition in which the property was immediately prior to the accident or incident.

(iii) If the property cannot be economically repaired, the measure of damage is the value of the property immediately prior to the accident or incident less the value thereof immediately after the accident or incident.

(iv) To determine the net cost, or estimated cost of repairs under subdivision (ii) of this subparagraph, there should be deducted from the gross cost (actual or estimated) the value of any salvaged parts or materials and the amount of any appreciation in value thereby effected, and there should be added to such gross cost the amount of any depreciation resulting, provided such deductions or additions are sufficiently substantial in amount to warrant consideration.

(v) All such statements and estimates should, if possible, be by one or more disinterested competent witnesses, preferably reputable dealers in the type of property damaged, lost, or destroyed.

(vi) Loss of use of damaged business, agricultural, or residential property which is economically reparable may, if claimed, be included as an additional item of damage to the extent of the reasonable expense actually incurred for appropriate substitute property but only for such period as is reasonably necessary for repairs and provided that idle substitute property of the claimant was not employed. When substitute property is not obtainable from others, other competent evidence such as rental value, if not speculative or remote, may be considered. When substitute property is reasonably available but is not obtained and used by the claimant, loss of use is not normally payable.

(vii) The measure of damage, in cases of total loss or destruction of registered or insured mail, is the value thereof immediately prior to the accident or incident plus, if claimed, the amount of any registration or insurance fee or other special fees, and the amount of postage prepaid. In cases of damage only, or partial loss or destruction, the measure of damage is the value thereof immediately prior to the accident or incident less any salvage except that, if economically reparable, the measure of damage is the estimated or actual cost of repairs; no fees or prepaid postage are payable if actual delivery of the parcel or letter is made to the correct addressee.

(viii) The measure of damage in cases cognizable under the Federal Tort Claims Act is determined by the law of the place where the act or omission, out of which such damage arises, occurred.

(2) *Personal injury or death.* (i) The measure of damage is as provided in the specific regulations which the claim is payable.

(ii) All statements and estimates of medical, hospital, and burial expenses should be substantiated by the originals or copies of any bills rendered.

(3) *Excluded items.* Interest, cost of preparation of claims and securing supporting evidence, inconvenience, and similar items may not be included as elements of damage.

(4) *Recoveries from joint tort-feasors.* If the claimant has elected to proceed against a third party as a joint tort-feasor, any amount so collected in respect of items of damage which otherwise may properly be included in the claim against the Government will be reported.

(d) *Advice to claimant.* The claims officer will not advise the claimant as to the action taken on his claim. All inquiries with respect to the approval or disapproval of a claim will be acknowledged and the inquiry will be forwarded to the office having delegated authority to adjudicate the claim. In no case will the claims officer advise the claimant that his claim has been or will be approved or disapproved.

§ 536.6 *Claims not provided for under any law.* All claims the settlement of which is not provided for by any specific law or appropriation will be referred to a claims officer for investigation and report in a manner similar to that prescribed in § 536.5, with such modification thereof as the features of the particular case may warrant. Such claims, with related files and recommendations will be forwarded promptly in triplicate, retaining only a card record thereof, by or through the commanding general of the army or comparable command, or the command claims service, to The Judge Advocate General, Washington 25, D. C., for appropriate administrative action.

§ 536.7 *Transfers and assignments of claims.* All transfers and assignments made of any claim upon the United States, or of any part or share thereof, or interest therein, whether absolute or conditional, and all powers of attorney, orders, or other authorities for receiving any payment of any such claim, or of any part of share thereof, are (see R. S. 3477, as amended; 31 U. S. C. 203) absolutely null and void, unless made after the issuing of a warrant for the payment thereof. The provisions of the statute, as amended, do not apply to assignments of claims by operation of law, as when a receiver or trustee in bankruptcy is appointed for an individual, firm, or corporation, or an administrator for the estate of a deceased person, or when an insurance company becomes subrogated to the claimants rights; nor do they apply in any case in which the moneys due from the United States or from any agency or department thereof, under a contract providing for payments aggregating $1,000 or more, are assigned to a bank, trust company, or other financing institution, including any Federal lending agency, under the conditions set forth in the act of October 9, 1940. See §§ 535.5–535.9 of this chapter.

§ 536.8 *Disclosure of information.* Except as required in the discharge of his proper official duties, no person in the military service or employed by the Department of the Army or the Army, will furnish any information which can be used as the basis of a claim against the United States. Without prior approval of the Office of The Judge Advocate General, claimants or their authorized representatives will not be permitted to examine any part of the evidence of record except that submitted by such claimants.

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
Acting The Adjutant General.

Subchapter F—Personnel

PART 582—DISCHARGE OR SEPARATION FROM THE SERVICE

DISCHARGE FOR THE CONVENIENCE OF THE GOVERNMENT

Section 582.3 is rescinded and the following substituted therefor:

§ 582.3 *Discharge for the convenience of the Government.*—(a) *General.* The discharge or release from active duty of enlisted personnel for the convenience of the Government is the prerogative of the Secretary of the Army and will be effected only by his authority. Such authority may be given either in an individual case or by an order applicable to all cases specified in an order.

(b) *Categories for which authorized.* The Secretary of the Army has delegated to commanders the authority to order enlisted personnel discharged or released from active duty for the convenience of the Government for the following reasons:

(1) To dispose of cases involving an individual's claim that prior to induction he was denied a procedural right as provided by the Selective Service Act of 1948 and was, therefore, erroneously inducted. All requests for discharge under this provision will be forwarded to the officer exercising discharge authority and by him to the State director of the selective service system of the State of the applicant's registration for his recommendation. The officer exercising discharge authority will discharge the individual or retain him in the service in accordance with the recommendation made by the State director of the selective service system.

(2) To permit separation of individuals with a physical or mental defect or disability who elect discharge for the convenience of the Government provided it has been established clearly by proper medical authority that the defect or disability:

(i) Existed prior to entrance on present period of active service, or

(ii) Was incurred not in line of duty during a prior period of active service, and

(iii) Was not aggravated during prior or present period of active service.

(3) To dispose of cases involving aliens residing in the United States illegally who did not conceal their true citizenship status at time of enlistment or induction. Such individuals will be reported to the nearest office of the Immigration and Naturalization Service and will be discharged for the convenience of the Government. The form of discharge certificate furnished will be that to which the service rendered by the individual after enlistment or induction will entitle him. The specific reason for discharge will be shown on the certificate of discharge as "Alien without legal residence in the United States." It is not the intent of this section to preclude the discharge of these individuals under the provisions of AR 615–368 (Army regulations pertaining to discharge for unfitness) or AR 615–369 (Army regulations

pertaining to discharge for inaptitude or unsuitability), if appropriate.

(4) To provide appropriate action in cases involving the discovery of concealment by an individual that he has been adjudged a youthful offender under section 1639-30, Supplement to the General Code of Ohio, 1936, June 1938, or by a juvenile court of any other State having a similar law and is considered as not having been convicted by a civil court. If such individual was otherwise eligible for enlistment or induction under current directives, he normally will be retained in the service.

(i) Upon discovery that an individual had been adjudged a youthful offender under the conditions outlined above, prior to enlistment or induction, and the juvenile record of the individual indicates frequent difficulty with law-enforcement agencies and his retention in the service is not desired, the individual will be discharged for the convenience of the Government. The form of discharge certificate furnished will be that to which the service rendered by the individual after enlistment or induction will entitled him. The specific reason for discharge will be shown on the certificate of discharge as "Adjudged a youthful offender." If civil custody exists, that is parole, probation, conditional release, or suspended sentence, notification of the pending discharge will be reported to the proper civil authorities.

(ii) Upon discovery that an individual had been adjudged a youthful offender, under the conditions outlined above, prior to enlistment or induction, and his retention in the service is desired, the proper civil authority will be contacted with a view to ascertain whether any form of civil custody exists, such as parole, probation, conditional release, or suspended sentence. Where it develops that civil custody still exists, the proper civil authority will be requested to terminate or suspend custody for the duration of the period of service of the individual. If civil custody is then so terminated or suspended the individual will be retained in the service. In cases in which the civil authorities refuse to terminate or suspend custody, the individual will be discharged. If separated, the individual will be discharged for the convenience of the Government as outlined in subdivision (i) of this subparagraph.

(c) *National health, safety, or interest.* Based on their importance to national health, safety, or interest enlisted personnel may be discharged for the convenience of the Government when specifically authorized by the Department of the Army. The discharge or release from active duty of an individual for this reason will be authorized only when recommended by a governmental agency authorized to make such a recommendation and determination. Requests for discharge under this provision will be forwarded direct to The Adjutant General, Department of the Army, Washington 25, D. C., ATTN: AGPO-X, by the commanders having discharge authority.

[AR 615-365, June 14, 1951] (R. S. 161; 5 U. S. C. 22)

[SEAL] WM. E. BERGIN,
Major General, USA,
Acting The Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Correction to Amendment 4 to Supplementary Regulation 1]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

SR 1—SPECIAL PRICING METHODS FOR CERTAIN CHAIN STORES AND MAIL ORDER ESTABLISHMENTS

Due to a clerical error in Amendment 4 to Supplementary Regulation 1 to Ceiling Price Regulation 7, certain incorrect dates appeared in section 2 (b) (3), effective June 30, 1951. Accordingly, section 2 (b) (3) of Supplementary Regulation 1 to Ceiling Price Regulation 7 is corrected to read as follows:

(3) Between April 1, 1951 and June 23, 1951 (where the list date is June 23, 1951);

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[F. R. Doc. 51-8492; Filed, July 19, 1951; 4:00 p. m.]

[Ceiling Price Regulation 17, Amendment 3]

CPR 17—GASOLINES, NAPHTHAS, FUEL OILS AND LIQUEFIED PETROLEUM GASES

RESIDUAL FUEL OILS AND BLENDS THEREOF WITH DISTILLATE FUEL OILS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 733), this amendment to Ceiling Price Regulation 17 (16 F. R. 8033), is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 2 to CPR 17 established specific prices for residual fuel oils at certain East Coast points. This action had the purpose and effect of increasing ceiling prices for these products as set forth in the Statement of Considerations accompanying Amendment No. 2. It was the expressed intent of the Director of Price Stabilization that such authorized increases apply to all methods of delivery and at all distribution levels.

It has since been brought to the attention of the Director of Price Stabilization that there is some ambiguity in Amendment 2 with respect to the applicability of the regulation to cargo sales. Also, some question has been raised regarding the clarity of expression with respect to the manner in which the authorized increases are to be applied by the various distributors involved. This amendment is designed to remove these ambiguities. Specific increases are herein established for cargo sales. In addition, section 21 (a) (3) has been rewritten to clarify the manner in which authorized increases may be added to ceiling prices established under Amendment 2 of CPR 17.

It has been brought to the attention of the Director of Price Stabilization that sales of residual fuel oil are presently being made at Morehead City, North Carolina, rather than Wilmington, North Carolina. Such being the case, Wilmington has been deleted and Morehead City has been added.

Discussion with sellers affected by this Amendment has developed that the prices for residual fuel oils to all classes of purchasers at certain inland points are customarily based upon the prices at the Atlantic Coast ports designated in this Amendment even though the product does not originate from such ports. This amendment, therefore, increases the ceiling prices of sellers at such inland points who customarily based their residual fuel oil selling prices on the designated East Coast points, regardless of the point from which the residual oils originate.

It has also been developed that the supply of residual fuel oils at other inland points originates from varying sources, including the designated East Coast ports. However, prices at such inland points are not based upon such East Coast points. Accordingly, provision is made in such cases to allow sellers to increase their ceiling prices, but such increases are restricted to that specific volume originating from designated East Coast points. This conforms to the customary pricing practices in the industry.

This amendment also permits sellers in Puerto Rico and the Virgin Islands to add to their f. o. b. or delivered ceiling prices 17½ cents per barrel on deliveries of residual fuel oil or blends thereof. This increase is necessary because of increased tanker transportation costs and a recent increase in the import duty of 10½ cents per barrel on sales in this area. Since, historically, residual fuel oil sellers in this area have passed on the import duty, it has been deemed appropriate that this increase should be permitted as an addition to their ceiling prices. The reasons for the increase allowed because of tanker transportation costs have been set forth in the Statement of Considerations accompanying Amendment 2 to CPR 17.

AMENDATORY PROVISIONS

Ceiling Price Regulation 17 is amended in the following respects:

1. Section 21 (a) of Ceiling Price Regulation 17 is amended to read as follows:

SEC. 21. *Residual fuel oils and blends thereof with distillate fuel oils.*—(a) *Specific prices.*—(1) *No. 6 Commercial Standard Specifications Fuel Oil.* The ceiling prices for sales of No. 6 Commercial Standard Specifications Fuel Oil in

bulk lots delivered into ships' bunkers (ex lighterage) and delivered into barge and tank car or transport trucks, f. o. b. refineries and tanker terminals shall be as follows at the enumerated points below:

Atlantic coast ports	Dollars per 42-gallon barrel	
	Ships' bunkers (ex lighterage) or barge	Tank car or transport truck
Searsport, Maine	2.51	2.54
Portland, Maine	2.51	2.54
Portsmouth, New Hampshire	2.51	2.54
Everett, Massachusetts	2.51	2.51
Boston Harbor Area	2.51	2.51
Fall River, Massachusetts	2.47	2.47
Tiverton, Rhode Island	2.47	2.47
Providence Harbor Area	2.47	2.47
New London, Connecticut	2.47	2.47
New Haven, Connecticut	2.47	2.47
Bridgeport, Connecticut	2.47	2.47
New York Harbor Area	2.45	2.45
Philadelphia Harbor Area	2.45	2.48
Baltimore, Maryland	2.45	2.48
Norfolk, Virginia	2.40	2.43
Morehead City, North Carolina	2.34	2.37
Charleston, South Carolina	2.31	2.34
Savannah, Georgia	2.31	2.34
Jacksonville, Florida	2.28	2.31
Miami, Florida	2.22	2.25
Tampa, Florida	2.16	2.19
Port St. Joe, Florida	2.16	2.19
Panama City, Florida	2.16	2.19

(2) *Other residual fuel oil products.* Any seller who during the base period maintained a customary differential between No. 6 Commercial Standard Specifications Fuel Oil and other residual fuel oil products, such as low sulphur (maximum 1 per cent) No. 6 fuel oil, residual gas enrichment oils, residual No. 4 and 5 fuel oils and special No. 4 residual fuel oils may add such base period differentials to the ceiling prices determined under subparagraph (1) of this paragraph.

(3) *Preservation of discounts, differentials, and allowances.* The ceiling prices determined under subparagraphs (1) and (2) of this paragraph shall reflect customary discounts, differentials and allowances in effect in the base period to all classes of purchasers.

2. Section 27 is amended to read as follows:

SEC. 27. *Increases permitted for designated areas.*—(a) *Export sales and sales in the territories of the United States.* Any export regulation which may hereafter be issued shall be applicable to export sales and sales for export of commodities covered by this regulation. Sellers of commodities covered by this regulation who during the base period treated purchasers in the territories of the United States as purchasers of a separate class from purchasers located in the continental United States may continue to apply on their sales to these purchasers their customary differentials. Such customary differentials may include charges for special packing if it was the sellers' practice to include such charges on their sales to purchasers in the territories during the base period.

(b) *Puerto Rico and the Virgin Islands.* On deliveries of residual fuel oil or blends thereof in Puerto Rico and the Virgin Islands, a seller may add to his f. o. b. or delivered ceiling price 7¢ per barrel plus any duty actually paid by him in excess of 10½¢ per barrel, unless the seller has already added increased duty charges pursuant to paragraph (a) of this section.

(c) *Delivered cargo ceiling prices for residual fuel oil and blends thereof with distillate fuel oils at Atlantic Coast ports*—(1) *No. 6 Commercial Standard Specifications Fuel Oil.* The delivered cargo ceiling prices of all sellers for sales of No. 6 Commercial Standard Specifications Fuel Oil applicable to all classes of purchasers in effect prior to June 4, 1951, shall be increased by the amounts per barrel indicated at the points enumerated in the table below:

Atlantic coast ports	Dollars per 42-gallon barrel
	Increases in delivered cargo prices
Searsport, Maine	$0.31
Portland, Maine	.31
Portsmouth, New Hampshire	.31
Everett, Massachusetts	.31
Boston Harbor Area	.31
Fall River, Massachusetts	.295
Tiverton, Rhode Island	.295
Providence Harbor Area	.295
New London, Connecticut	.295
New Haven, Connecticut	.32
Bridgeport, Connecticut	.32
New York Harbor Area	.30
Philadelphia Harbor Area	.30
Baltimore, Maryland	.30
Norfolk, Virginia	.25
Morehead City, North Carolina	.22
Charleston, South Carolina	.21
Savannah, Georgia	.21
Jacksonville, Florida	.19
Miami, Florida	.17
Tampa, Florida	.17
Port St. Joe, Florida	.17
Panama City, Florida	.17

(2) *Other residual fuel oil products.* Any seller who during the base period maintained a customary differential between No. 6 Commercial Standard Specifications Fuel Oil and other residual fuel oil products, such as low sulphur (maximum 1 per cent) No. 6 fuel oil, residual gas enrichment oils, residual No. 4 and 5 fuel oils and special No. 4 residual fuel oils may add such base period differentials to the ceiling prices determined under subparagraph (c) (1) of this section.

(3) *Increases for other transactions and at other points.* An f. o. b. or delivered ceiling price, in effect prior to June 4, 1951, of any seller of residual fuel oil or blends thereof, whose ceiling price is not established in section 21 (a) (1) and (2), shall be increased to each class of purchaser by the amount of the increase specified in the table in paragraph (c) (1) of this section in the following cases:

(i) On sales at any point where the purchaser is of a class which was customarily, and is presently, supplied from the points designated in the table in paragraph (c) (1) of this section.

(ii) On sales at any point where the seller's price of residual fuel oil, or blends thereof, was customarily based upon the price at a point set forth in the table in paragraph (c) (1) of this section, in which case the increase can be added irrespective of where the product originates.

(4) *Preservation of discounts, differentials, and allowances.* The ceiling prices determined under this section shall reflect customary discounts, differentials and allowances in effect in the base period to all classes of purchasers.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective July 24, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[F. R. Doc. 51-8493; Filed, July 19, 1951; 4:00 p. m.]

[Ceiling Price Regulation 22, Amendment 17]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

EXCLUSION OF HARD FACING PRODUCTS CONTAINING TUNGSTEN AND PURE TUNGSTEN AND THORIATED TUNGSTEN PRODUCTS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Some of the commodities named in this amendment were included in the coverage of Ceiling Price Regulation 30. Others were covered by Ceiling Price Regulation 22, while the remainder were under the General Ceiling Price Regulation. However, all of these commodities constitute a portion of the category of products for which an adjustment in ceiling prices is provided by Supplementary Regulation 42 to the General Ceiling Price Regulation, issued simultaneously herewith. Like other tungsten-bearing metal products covered by that supplementary regulation, none of them have been processed or fabricated beyond the stages of casting, rolling, drawing, grinding, swaging, cutting, bending, crushing, or powdering, and the cost of tungsten in raw materials is one of the most important cost elements in their manufacture. For these reasons their ceiling prices should be permitted the same adjustment.

To accomplish this result and to avoid the confusion and price distortions which would otherwise occur, Amendment 5 to CPR 30, issued simultaneously herewith excludes these products from the coverage of that regulation. For the same reasons, this amendment makes clear that all of these products are excluded from Ceiling Price Regulation 22.

AMENDATORY PROVISIONS

Appendix A of Ceiling Price Regulation 22 is amended in the following respects:

1. Paragraph (r) is amended to read as follows:

(r) Primary metals, metallic alloys, metallic oxides, and metallic by-products, specifically including metal products containing tungsten as defined in Supplementary Regulation 42 to the General Ceiling Price Regulation.

2. Paragraph (t) is amended to read as follows:

(t) All metal powders, specifically including powders containing tungsten as defined in Supplementary Regulation 42 to the General Ceiling Price Regulation.

3. Paragraph (w) is amended to read as follows:

(w) All cast, rolled, drawn, or extruded metals and alloys which have not been further fabricated, except cast iron soil pipe and fittings, cast iron water and gas pipe and fittings, and valve and pipe fittings, but specifically including metal products containing tungsten as defined in Supplementary Regulation 42 to the General Ceiling Price Regulation.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective on July 19, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[F. R. Doc. 51-8494; Filed, July 19, 1951; 4:00 p. m.]

[Ceiling Price Regulation 30, Amendment 5]

CPR 30—MACHINERY AND RELATED MANUFACTURED GOODS

EXCLUSION OF HARD FACING PRODUCTS CONTAINING TUNGSTEN AND PURE TUNGSTEN AND THORIATED TUNGSTEN PRODUCTS

Pursuant to the Defense Prohibition Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment to Ceiling Price Regulation 30 is hereby issued.

STATEMENT OF CONSIDERATIONS

The commodities named in this amendment were included in the coverage of Ceiling Price Regulation 30 because of their close relationship to major products covered by that regulation. However, they constitute a portion of the category of products for which an adjustment in ceiling prices is provided by Supplementary Regulation 42 to the General Ceiling Price Regulation, issued simultaneously herewith. Like other tungsten-bearing metal products covered by that supplementary regulation, none of them have been processed or fabricated beyond the stages of casting, rolling, drawing, grinding, swaging, cutting, bending, crushing or powdering, and the cost of tungsten in raw materials is one of the most important cost elements in their manufacture. For these reasons their ceiling prices should be permitted the same adjustment.

To accomplish this result and to avoid the confusion and price distortions which would otherwise occur, this amendment excludes these commodities from Ceiling Price Regulation 30 by making appropriate changes in Appendix A thereof.

AMENDATORY PROVISIONS

Appendix A of Ceiling Price Regulation 30 is amended in the following respects:

1. The item beginning "Metals and alloys * * *" is amended to read as follows:

Metals and alloys, special, electrical (except steel with less than 6 percent alloy content, in any fabricated form and pure tungsten or thoriated tungsten containing not less than 98 percent tungsten, rolled, drawn, ground or swaged, but not further fabricated other than by cutting or bending) used for electrical, magnetic, or glass-sealing purposes, including special contact alloys and special coated iron wire.

2. The item "Welding apparatus and supplies, electrical, including electrodes" is amended to read as follows:

Welding apparatus and supplies, electrical, including electrodes (except hard facing welding electrodes and other hard facing materials containing tungsten).

3. The item beginning "Welding and cutting apparatus * * *" is amended to read as follows:

Welding and cutting apparatus and supplies, gas, including generators, welding rods and welding wire (except hard facing welding rods, welding wire, and other hard facing materials containing tungsten).

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective July 19, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[F. R. Doc. 51-8495; Filed, July 19, 1951; 4:00 p. m.]

[Ceiling Price Regulation 51]

CPR-51 FOOD PRODUCTS SOLD IN PUERTO RICO

NOTICE OF SUSPENSION

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Congress), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Notice of Suspension of Ceiling Price Regulation 51 is hereby issued.

Notice of suspension. The operation of CPR-51 is hereby suspended indefinitely.

This notice of suspension is effective as of July 5, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[F. R. Doc. 51-8496; Filed, July 19, 1951; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 39]

GCPR, SR 39—RATE ADJUSTMENTS FOR CERTAIN CONTRACT MOTOR CARRIERS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 39 to the General Ceiling Price Regulation (16 F. R. 808) is hereby issued.

STATEMENT OF CONSIDERATIONS

Since the issuance on January 26, 1951, of the General Ceiling Price Regulation, which regulation froze the rates of all motor carriers, other than common carriers, at the highest rate charged for the same service during the base period, December 19, 1950, to January 25, 1951, it has become apparent that numerous motor carriers affected by that regulation are in need of relief in the form of increased rate adjustments occasioned by increased operating costs sustained since the early part of 1950. Many carriers are now operating under contracts entered into several years ago, and by reason of the provisions of the General Ceiling Price Regulation, are unable to adjust their contracts to reflect the increases in wages or costs of materials and equipment sustained during the latter part of 1950 and since that time.

This Supplementary Regulation affords a means for permitting necessary rate adjustments to motor carriers based upon a showing that the adjustment is necessary to permit the continuance of an essential service for which there is no adequate substitute available at a price equal to or less than the maximum price requested. In order to be eligible for adjustment, a carrier must show either substantial financial hardship in his over-all operations or that he is seeking the adjustment of the rates for a limited operation and that this operation does not yield him a return of the direct labor and materials costs.

This Supplementary Regulation applies to all motor carriers, other than common carriers, including motor carriers engaged in the transportation of milk in bulk in tank vehicles, but not including (1) motor carriers engaged in the performance of pick-up and delivery or local transfer service, or (2) motor carriers engaged in the transportation of liquid commodities, other than milk, in bulk in tank vehicles. Authority is delegated to Regional Directors of the Office of Price Stabilization to adjust rates upon individual application in cases where the carrier's operations are confined to a single state. Interstate operations are to be handled by the national office.

In the formulation of this supplementary regulation there has been consultation with the formal Industry Advisory Committee for Contract Carriers and other industry representatives, including trade association representatives, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. Applicability of supplementary regulation.
2. Adjustment of ceiling rates.
3. Disposition of Applications.

AUTHORITY: Sections 1 to 3 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Applicability of supplementary regulation.* (a) This Supplementary Regulation provides a method for individual adjustment of the ceiling rates of motor carriers affected hereby. It applies to all motor carriers except the following:

(1) Common carriers;

(2) Motor carriers engaged in the performance of "pick-up and delivery" or "local transfer service"; and

(3) Motor carriers engaged in the transportation of liquid commodities, other than milk, in bulk in tank vehicles.

(b) The provisions of this regulation are applicable to the 48 States of the United States and the District of Columbia.

(c) Except as modified herein, the provisions of the General Ceiling Price Regulation shall remain applicable to the carriers covered by this regulation.

SEC. 2. *Eligibility for adjustment.* A motor carrier affected by this Supplementary Regulation, or a user of a service supplied by such a carrier may apply for an adjustment of any ceiling rates upon a showing:

(a) That the adjustment is necessary to permit the continuance of an essential service for which there is no adequate substitute available at a rate equivalent to or lower than the ceiling rate requested; and

(b) Either of the following:

(1) That the carrier will suffer substantial financial hardship in his over-all operations unless the adjustment is granted; or

(2) That the ceiling rates for a particular segment of the carrier's total operation which is the subject of the application do not permit the service to be performed at rates which will yield a return equivalent to the direct labor and material costs.

SEC. 3. *Extent of adjustment.* The Director of Price Stabilization will grant an increase in ceiling rates sufficient to bring the applicant up to a rate at which equivalent substitute carrier services are available but not higher than

(a) A rate which will result in a higher current ratio of net operating revenue to total revenue than that ratio enjoyed by the applicant or the prevailing ratio enjoyed by other carriers of the same type as the applicant during a representative period prior to June 24, 1950; or

(b) In the case of an applicant who seeks an adjustment for a segment of his total operation, a rate sufficient to yield a return of direct labor and material costs.

SEC. 4. *Where and how to apply for adjustment.* Applications for individual relief under this Supplementary Regulation shall be made by properly executing OPS Public Form No. 59 and by attaching thereto appropriate shipper certificates on OPS Public Form No. 59. Copies of these forms may be obtained from the Office of Price Stabilization, Washington 25, D. C., or any regional or district office thereof. All such applications shall be filed in duplicate, and shall be sent to the Transportation, Public Utilities and Fuels Division, Office of Price Stabilization, Washington 25, D. C., if interstate operations are involved, or to the appropriate District Office of OPS if the operations involved are conducted entirely within one state. Applications, if mailed, must be sent by registered mail, return receipt requested. The date on the return receipt will indicate the effective date of filing. If the application is delivered in person, receipt as to date of filing should be obtained from the OPS office receiving the application.

SEC. 5. *Disposition of applications.*—(a) *OPS officials authorized to act.* Applications for adjustment will be handled to conclusion by the appropriate Regional Director of the Office of Price Stabilization in those cases which involve operations entirely within a single state; and the respective Regional Directors are hereby delegated authority to so act. Applications involving interstate operations will be handled to conclusion by the Director of Price Stabilization or by any official in the national office of the Office of Price Stabilization to whom the Director of Price Stabilization may delegate such authority.

(b) *Action by OPS.* Upon consideration of the application, the Director of Price Stabilization or any official of the Office of Price Stabilization having authority to act, will issue an order granting or denying, in whole or in part, the requested adjustment in rate, or may request such additional information as may be deemed necessary. If no action is taken within 30 days after the filing of the application or within 30 days after additional information has been supplied, the application shall be deemed to be approved. However, all approvals, whether made by affirmative action or by operation of the 30-day provision, are subject to revocation or modification by the Director of Price Stabilization at any time.

(c) *Effectiveness of adjustments.* Any increased rate requested under this Supplementary Regulation may be charged on open billing pending consideration of the application. Collection of any amount in excess of ceiling rates under the General Ceiling Price Regulation may not be made until an order has been issued (and then only to the extent permitted thereby) or until written notice of approval by the Office of Price Stabilization has been received, or until the 30-day waiting period has expired. After such time period, a carrier may collect the full adjusted amount retroactive to the date on which the application was filed or to the date on which he entered into any adjustable pricing contract under section 2 (a) of Supplementary Regulation 15 to the General Ceiling Price Regulation, as amended by Amendment 3.

(d) *Group adjustments.* In any case where a number of contract carriers are all engaged in the transportation of fruit, meat, vegetables, or milk, in a local area, the appropriate Regional Director of the Office of Price Stabilization may, upon express delegation of authority from the Director of Price Stabilization so to act, establish a group adjustment affecting all such carriers, provided individual applications on OPS Public Forms No. 59 are filed by a representative number of the carriers commonly engaged in handling that particular traffic, or by a user of such service.

Effective date. This Supplementary Regulation 39 to the General Ceiling Price Regulation shall become effective July 30, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[F. R. Doc. 51-8497; Filed, July 19, 1951; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 40]

GCPR, SR 40—ADJUSTMENT OF CEILING RATES FOR PICK-UP AND LOCAL TRANSFER SERVICE

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 40 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

There are a great number of motor carriers who afford rail carriers, freight forwarders, express companies, line-haul motor carriers, water carriers and air carriers, service identified as "pick-up and delivery" or "local transfer" service. The "pick-up and delivery" service involves the local transportation of property between a terminal of a "line-haul carrier", on the one hand, and the premises of the consignee or consignor, on the other. The "local transfer" service consists of the local transportation of property moving through under "line-haul carriers' " published rates from one terminal of a "line-haul carrier" to another terminal of the same carrier or to that of another connecting "line-haul carrier". These services are provided under individual contracts extending over a period of a year or more and the charges for the services are adjusted from time to time as conditions may require.

By reason of increased costs in labor and materials during the past year, the "pick-up and delivery" and "local transfer" carriers are demanding increases in their charges for service as their contracts expire or as the parties are required to renegotiate the rate provisions contained in the continuing contracts. Many of the contracts which expired or were renegotiated prior to and during the base period, December 19, 1950, to January 25, 1951, were renewed at increased rates, or the rates under the continuing contracts were adjusted upward, by reason of the increased costs mentioned. By reason, however, of the provisions of the General Ceiling Price Regulation, those contracts which have expired or have come up for renegotiation since January 25, 1951, or those which will expire or be renegotiated in the future, cannot be adjusted to reflect increases in operating costs.

A majority of the "pick-up and delivery" and "local transfer" carriers are operators of small fleets of trucks. Many operate only one or two vehicles and their operations are performed at very low margins of profit. In many cases these small operators cannot continue to absorb the increases in costs and, as the contracts have expired or are renegotiated, the "line-haul carrier" is informed that the rates must be increased or the service will be discontinued. In many instances, the only carrier available to provide the "pick-up and delivery" or "local transfer" service is the carrier with whom the "line-haul carrier" currently has a contract.

In most instances where more than one "pick-up and delivery" or "local transfer" carrier is operating in a territory, the "line-haul carrier" has found it impossible to obtain service at rates lower than those requested by the carrier now providing the service. Consequently, the "line-haul carrier" is faced with a suspension or abandonment of service which would deprive the public of a necessary service and would result in higher costs to the shipping public.

Numerous "line-haul carriers" recognize the problem confronting the "pick-up and delivery" and "local transfer" carriers and are willing to grant the rate increases requested but, by reason of the General Ceiling Price Regulation, are prevented from paying rates in excess of those paid during the base period. Many of these "line-haul carriers," recognizing the necessity of maintaining the "pick-up and delivery" and "local transfer" service which has been provided for a number of years, have indicated a willingness to absorb any increased cost which might result from increasing the charges to be paid to the "pick-up and delivery" and "local transfer" carriers.

The stabilization program would not be unduly affected by the "line-haul carrier" absorbing increases in the rates paid "pick-up and delivery" and "local transfer" carriers and, in fact, the cost to the shipping public can be better stabilized by insuring that the "pick-up and delivery" and "local transfer" carriers presently affording service for the "line-haul carriers" are enabled to continue such service.

This Supplementary Regulation provides a means whereby "pick-up and delivery" and "local transfer" carriers or "line-haul carriers", finding themselves in the situation explained above, may make application to the Office of Price Stabilization for an adjustment in the rates and charges for "pick-up and delivery" or "local transfer" service. This regulation is applicable only to "pick-up and delivery" and "local transfer" service and will provide for adjustments in prices for such service only where the "line-haul carrier" is willing to absorb the increases proposed without requesting an increase in its rates or charges on account thereof. This regulation is restricted in its application so that no "pick-up and delivery" or "local transfer" carrier can be authorized an adjustment in its rates which would result in a higher ratio of net income to operating revenue than that realized during the pre-Korean period of 1950 by the applicant or the industry generally and no adjustment in rates or charges can be authorized without complete information being furnished the Office of Price Stabilization justifying the proposed increase.

In the judgment of the Director of the Office of Price Stabilization, the provisions of this Supplementary Regulation are generally fair and equitable and will have no material effect on the cost of living or on the general level of prices.

REGULATORY PROVISIONS

Sec.
1. Purpose.
2. Applicability.
3. Adjustments; when to be made; maximum allowed.
4. Applications; form; place to file; who may file.
5. Approval or denial of applications for adjustment; effectiveness; applicability to successors.
6. Definitions.

AUTHORITY: Sections 1 to 6 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Purpose.* This supplementary regulation provides for the adjustment, under certain circumstances, of ceiling prices established by the General Ceiling Price Regulation for motor carriers, other than common carriers, engaged in performing "pick-up and delivery" or "local transfer" service.

SEC. 2. *Applicability.* (a) This regulation applies only to ceiling rates of motor carriers, other than common carriers, performing "pick-up and delivery" or "local transfer" services for "line-haul carriers", in the 48 States of the United States and the District of Columbia.

(b) Except as provided in this regulation, the carriers covered by this regulation shall remain subject to the provisions of the General Ceiling Price Regulation issued January 26, 1951 (16 F. R. 808).

SEC. 3. *Adjustment*—(a) *When adjustment may be made.* An adjustment in the ceiling rates established under the General Ceiling Price Regulation for the performance of "pick-up and delivery" and "local transfer" service may be approved by the Office of Price Stabilization in any case where, upon application filed in accordance with the provisions of section 4 of this regulation, it is shown that:

(1) The adjustment is necessary to effectuate the provisions of the Defense Production Act of 1950; and

(2) The actual cost of supplies and labor used in performing the service exceeds those costs during the "pre-Korean period" by an amount so large as to threaten the continued performance of the services; and

(3) The "line-haul carrier" cannot procure satisfactory performance of the service from the "applicant" or from any other motor carrier at rates lower than the requested rate; and

(4) The discontinuance of the service will result in higher transportation costs to shippers and consignees; and

(5) The "line-haul carrier" expressly agrees to pay and absorb the requested higher rate for "pick-up and delivery" or "local transfer" service, and states that it will not increase its own charges on that accouunt. (This statement is made without prejudice to the "line-haul carriers' " right to present for consideration by any regulatory authority, the increased cost resulting from the new "pick-up and delivery" or "local transfer" rates, together with any cost increases in any other future applications for a general rate increase based on revenue needs.); and

(6) The requested increased rate does not exceed the limit prescribed in subparagraph (b) immediately following.

(b) *Maximum adjustment allowed.* The Office of Price Stabilization may approve an increase in rates under this section up to a rate which will not result in a higher ratio of net operating revenue to total revenue than the applicant enjoyed in the "pre-Korean period" or the generally prevailing ratio enjoyed by pick-up and delivery and local transfer carriers in the locality during the "pre-Korean period".

SEC. 4. *Applications*—(a) *Form.* Applications for adjustments under this section shall be filed on OPS Public Form No. 60, or as subsequently revised, and shall contain all the information and statements called for in the form. Copies of these forms may be obtained from the Office of Price Stabilization, Washington 25, D. C., or from any OPS regional or district office.

(b) *Where to file.* Applications shall be filed, in duplicate, directly with the Transportation, Public Utilities and Fuels Division, Office of Price Stabilization, Washington 25, D. C., by registered mail, return receipt requested. The date on the return receipt will be the official date of filing. If the application is filed in person, it must be filed with the docket clerk of the above-named Division and a receipt therefor obtained.

(c) *Who may file.* Applications under this section may be filed by the "pick-up and delivery", "local transfer" or "line-haul carrier".

SEC. 5. *Approval or denial of applications, effectiveness of adjustments, and applicability to successors.* (a) Upon consideration of the application, the Director of Price Stabilization or any official of the Office of Price Stabilization having authority to act, will issue an order granting or denying, in whole or in part, the requested adjustment in rate, or may request such additional information as may be deemed necessary. If no action is taken within 30 days after the filing of the application or within 30 days after additional information has been supplied, the application shall be deemed to be approved. However, all approvals, whether made by affirmative action or by operation of the 30-day provision, are subject to revocation or modification by the Director of Price Stabilization at any time.

(b) *Effectiveness of adjustments.* Any increased rate requested under this Supplementary Regulation may be charged on open billing pending consideration of the application. Collection of any amount in excess of ceiling rates under the General Ceiling Price Regulation may not be made until an order has been issued (and then only to the extent permitted thereby) or until written notice of approval by the Transportation, Public Utilities and Fuels Division of the Office of Price Stabilization has been received, or until the 30-day waiting period has expired. After such time period, a carrier may collect the full adjusted amount retroactive to the date on which the application was filed or to the date on which he entered into any adjustable pricing contract under section 2 (a) of Supplementary Regulation 15 to the General Ceiling Price Regulation, as amended by Amendment 3.

(c) *Applicability to successors.* The ceiling rate or rates for a given "pick-up and delivery" or "local transfer" service adjusted pursuant to this Supplementary Regulation shall continue to apply as the lawful ceiling rate for the same service performed by any transferee, subcontractor, or other carrier who may succeed to and operate that service. This rule applies regardless of whether there is a formal purchase of business and assets, etc., or whether the successor is merely a replacement supplying the service which has been abandoned or discontinued, for any reason, by the preceding "pick-up and delivery" or "local transfer" carrier.

SEC. 6. *Definitions.* (a) "Pick-up and delivery" means the local transportation of property between a terminal of a "line-haul carrier," on the one hand, and the premises of the consignee or consignor, on the other.

(b) "Local transfer" service means the local transportation of property which is moving through under "line-haul carriers' " published rates from one terminal of a "line-haul carrier" to another terminal of the same carrier or to that of another connecting "line-haul carrier".

(c) "Line-haul carrier" means any carrier, including rail carriers, motor carriers, water carriers, air carriers, freight forwarders and express companies, which performs a non-local transportation service between any two terminal points over its lines or routes.

(d) "Applicant" means the "pick-up and delivery", "local transfer" or "line-haul carrier" performing the services involved in the application.

(e) If the application is filed prior to August 1, 1951, (1) "current period" means the months of April, May and June 1951, and (2) "pre-Korean period" means the same three months of 1950 corresponding to that utilized by the applicant in specifying the "current period" in the application. If the application is filed after August 1, 1951, the "current period" means the six month period immediately preceding the filing of the application. The "pre-Korean period", in this instance, means the same calendar months in the year preceding June 30, 1950, as used in the current period.

Effective date. This Supplementary Regulation 40 to the General Ceiling Price Regulation is effective July 30, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

[General Ceiling Price Regulation, Supplemental Regulation 42]

GCPR, SR 42—HIGH SPEED TOOL STEELS AND OTHER METAL PRODUCTS CONTAINING TUNGSTEN

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 733), this Supplementary Regulation 42 to the General Ceiling Price Regulation is issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation increases by varying amounts the ceiling prices established by the General Ceiling Price Regulation for manufacturers of high speed tool steels and specialty steels containing tungsten; hard facing products containing tungsten; and pure tungsten and thoriated tungsten products.

The products covered by this regulation are basic industrial materials used in the manufacture of many articles essential in the civilian economy and the defense program. High speed tool steels containing tungsten and hard facing products have varied and widespread applications in the production of machine tools, drilling equipment, and tools and dies used in the cutting, forming, and shaping of metals while specialty steels containing tungsten are used principally in making magnet steel, aircraft engines, and military equipment. Pure tungsten and thoriated tungsten products are essential in the manufacture of a wide range of electrical and electronic equipment and devices. In view of the industrial and military importance of these products, their maximum production must be encouraged to the fullest extent possible consistent with the objectives of Title IV of the Defense Production Act of 1950.

The cost of tungsten concentrates, ferrotungsten, tungsten powder and other tungsten products used as raw materials is one of the most important cost elements in the manufacture of the products covered by this regulation. Data reflecting the operations of a representative cross-section of manufacturers during the period immediately preceding the outbreak of hostilities in Korea indicate that the cost of tungsten-bearing raw materials accounts for anywhere from 15 percent to 60 percent of their selling price. It appears, therefore, that if any substantial increase in the cost of such raw materials is not reflected in the prices, it is likely that manufacturers will be subject to a serious squeeze which might jeopardize production essential to our national defense.

The cost of tungsten-bearing raw materials used by the manufacturers of the products covered by this regulation has risen sharply since price ceilings were first imposed. The following table, compiled from information submitted by representative manufacturers, indicates the prices which were paid during the base period December 19, 1950 to January 25, 1951, inclusive, for the principal raw materials used in their operations:

Material	Use	Price paid
Tungsten concentrates	To manufacture high speed tool and specialty steels.	$28.50 to $65 per short ton unit.
Ferrotungsten	To manufacture high speed tool and specialty steels.	$3.25 to $3.75 per pound of tungsten contained.
Carbon-reduced tungsten powder	To manufacture hard facing products	$4.15 per pound.
Hydrogen-reduced tungsten powder.	To manufacture pure tungsten or thoriated tungsten products.	$4.12 to $5.95 per pound.

Ceiling Price Regulation 19—Tungsten Concentrates, effective April 6, 1951, established a ceiling price of $65.00 per short ton unit for tungsten concentrates while Ceiling Price Regulation 33—Ferrotungsten, Tungsten Metal Powder, and Other Tungsten Products, effective May 7, 1951, established ceiling prices of $5.00 per pound of contained tungsten for ferrotungsten, $6.00 per pound for carbon-reduced tungsten metal powder, and $7.75 per pound for hydrogen-reduced tungsten metal powder. Thus the prices paid for their principal raw materials by manufacturers of the products covered by this regulation have increased anywhere from 45 to 120 percent since the issuance of the General Ceiling Price Regulation. In view of these circumstances and the importance of raw materials costs in relation to the total cost of producing these products, it is necessary, in order to avoid any interruption in output, to increase the ceiling prices for such products to reflect at least in some measure the increases in costs which have been sustained.

The adjustments in ceiling prices made by this regulation will allow manufacturers to recover most, if not all, of the increase in tungsten bearing raw material costs sustained since the base period of the General Ceiling Price Regulation. Although precise information by which to measure the effect of this action upon all manufacturers is not available, it appears that the relief granted will enable them to obtain margins over costs of tungsten-bearing raw materials approximating those which they received during the base period and will be sufficient, for the time being, to permit continued output at the high levels required by our defense program. The action taken in this regulation is an interim measure and the Office of Price

Stabilization will undertake, in the near future, a study of the operations of the manufacturers of the products covered by this regulation to determine whether any change in the ceiling prices herein established should be made under the policies and objectives of the Defense Production Act of 1950.

Some of the products covered by this regulation heretofore have been included in Ceiling Price Regulation 22—Manufacturers' General Ceiling Price Regulation, and Ceiling Price Regulation 30—Machinery and Related Manufactured Goods, but these regulations have been amended so that these products are now all covered by this Supplementary Regulation to the General Ceiling Price Regulation.

Although most of the output of the products covered by this regulation are sold by the manufacturers directly to consumers, certain quantities are handled by resellers. Since such resellers generally have margins too small to permit absorption of any of the increase in manufacturers' ceiling prices granted by this regulation, appropriate provisions are set forth therein to permit resellers to adjust their ceiling prices by the dollars-and-cents amount of the increase granted by this regulation in the ceiling prices of the manufacturers from whom they obtain their supplies.

In the judgment of the Director of Price Stabilization, the provisions of this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to relevant factors of general applicability.

In formulating this supplementary regulation, the Director consulted with industry representatives and has given consideration to their recommendations.

The provisions of this supplementary regulation and their effect upon business practices, cost practices, or means or aids to distribution in the industry have been considered. It is believed that no changes in such practices or methods have been effected. To the extent, however, that the provisions of this regulation may operate to compel changes in such practices or methods, such provisions are necessary to prevent circumvention or evasion of the regulation and to effectuate the policies of the act.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Adjustments in manufacturers' ceiling prices.
3. Adjustments in resellers' ceiling prices.
4. Manufacturers' notice to resellers.
5. Definitions.
6. Miscellaneous.

AUTHORITY: Sections 1 to 6 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* (a) This supplementary regulation increases the ceiling prices established by the General Ceiling Price Regulation for sellers of the following products:

(1) High speed tool steels and specialty steels containing tungsten.

(2) Hard facing products containing tungsten.

(3) Pure tungsten and thoriated tungsten products.

(b) If you are a manufacturer of any such products, you must give resellers notice of the increase in your ceiling prices as required by section 4 of this regulation.

SEC. 2. *Adjustments in manufacturers' ceiling prices.* If you are a manufacturer of any of the products covered by this supplementary regulation, your ceiling price for any such product is the ceiling price determined in accordance with the provisions of the General Ceiling Price Regulation plus the applicable amount set forth in this section.

(a) For high speed tool steels and specialty steels containing tungsten, $0.015 for each 1 percent of tungsten content for each pound of product.

(b) For hard facing products containing tungsten, $0.0205 for each 1 percent of tungsten content for each pound of product.

(c) For pure tungsten and thoriated tungsten products, an amount determined in the manner set forth below. The prices you use in making these calculations must not exceed the ceiling prices applicable under any ceiling price regulation issued by the Office of Price Stabilization.

(1) Subtract the weighted average unit cost of the tungsten-bearing material used by you in manufacturing your product during the base period December 19, 1950, to January 25, 1951, inclusive, from the current unit cost (not including transportation costs) of the same kind of material as shown on the invoice for the first delivery of such material to you after May 7, 1951;

(2) Divide the resulting figure by the weighted average unit cost of the material used during the base period;

(3) Multiply the weighted average unit cost of the material used during the base period by the quantity of such material used during the base period to produce a unit of your product; and

(4) Multiply the percentage figure obtained from the calculation described in subparagraph (2) of this paragraph by the value obtained from the calculation in subparagraph (3) of this paragraph.

Example: Assume that during the base period December 19, 1950, to January 25, 1951, inclusive, your weighted average unit cost of hydrogen-reduced tungsten metal powder used in manufacturing 30 mil black drawn tungsten wire, ±3% weight tolerance, was $3.50 per pound and that your current unit cost of the same powder is $6.25 per pound. $6.25 minus $3.50 equals $2.75. $2.75 divided by $3.50 equals 78.57%. Assume also that during the base period you used 3.20 pounds of hydrogen-reduced tungsten metal powder to manufacture one kilogram of rod. $3.50 (your base period weighted average unit cost) multiplied by 3.20 equals $11.20. Then 78.57% times $11.20 equals $8.80. If your ceiling price under the General Ceiling Price Regulation for the 30 mil wire was $13 per Kilogram, your new ceiling price is $21.80 per Kilogram ($13 plus $8.80).

SEC. 3. *Adjustments in resellers' ceiling prices.* (a) If you are a reseller of any of the products covered by this regulation, your ceiling price for any such product is the ceiling price determined in accordance with the provisions of the General Ceiling Price Regulation plus the amount of the increase, determined in accordance with section 2 of this regulation, in the ceiling price of the manufacturer from whom you purchase such product.

(b) You may charge the ceiling price established in paragraph (a) of this section for any products received by you after the manufacturer has put into effect an increase in price pursuant to section 2 of this regulation.

SEC. 4. *Manufacturers' notice to resellers.* If you are a manufacturer of any of the products covered by this regulation, you must notify in writing any person who purchases such product from you for resale of the exact amount of the increase in your ceiling price authorized by this regulation. Such notice must be given in connection with your first delivery of any such product to such reseller after the effective date of this regulation and for which you have put into effect an increase in price pursuant to section 2 of this regulation.

SEC. 5. *Definitions.* When used in this supplementary regulation, the term:

(a) "High speed tool steels and specialty steels containing tungsten" includes any cast, rolled, or drawn steel which has not been further fabricated and which contains tungsten and other alloys. It also includes such steel in billet form or shapes produced from ingot by hammering or pressing.

(b) "Hard Facing products" includes any cast, crushed, powdered, rolled or drawn tungsten carbides or cobalt or nickel base alloys containing tungsten, which are not further fabricated and which are spread over the surface of base metal by melting. It also includes crushed particles of such materials contained in steel tubes.

(c) "Pure tungsten and thoriated tungsten products" includes any rolled, drawn, ground, or swaged product containing not less than 98 percent tungsten and which has not been fabricated other than by cutting or bending.

(d) "Weighted average unit cost" means the cost per unit of material determined by dividing the total amount paid to your supplier or suppliers for material used by you during the period from December 19, 1950, to January 25, 1951, inclusive, by the total amount of material so used. Transportation costs paid by you may not be included in making this calculation.

SEC. 6. *Miscellaneous.* Any person who sells any product covered by this supplementary regulation shall be subject to all provisions of the General Ceiling Price Regulation which are not inconsistent with the provisions of this regulation, including, but not limited to the enforcement and penalty provisions thereof, and the requirement of keeping on file for inspection a statement of his ceiling prices.

Effective date. This Supplementary Regulation 42 to the General Ceiling Price Regulation shall become effective on July 19, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 19, 1951.

Chapter XIV—General Services Administration

MANGANESE REGULATION; PURCHASE PROGRAM FOR DOMESTIC MANGANESE ORE AT DEMING, N. MEX.

Sec
1. Basis and purpose.
2. Definitions.
3. Participation in the Program.
4. Deliveries.
5. Duration of the Program.
6. Price schedule for ore.

AUTHORITY: Sections 1 to 6 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 303, Pub. Law 774, 81st Cong., sec. 303, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *Basis and purpose.* This regulation interprets and implements the authority of the Administrator of General Services to purchase manganese ore of domestic origin at Deming, New Mexico, for the fiscal years 1952–56, as authorized by the Defense Production Administration on June 20, 1951, and outlines the attendant responsibilities and functions of the Administrator of General Services in purchasing such manganese ore for the Government. In accordance with the Program set forth herein, the Administrator will buy domestically produced manganese ore containing not less than 15 percent manganese, in accordance with the specifications contained in this regulation.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Administrator" means the Administrator of General Services.

(b) "Program" means the purchase of manganese ore as set forth in this regulation.

(c) "Depot" means the purchase depot of the Government at Deming, New Mexico.

(d) "Manganese ore" means crude ore containing not less than 15 percent manganese, mined in the United States, its Territories and possessions.

(e) "Long ton unit of manganese" means 22.4 pounds of manganese contained in a long dry ton of manganese ore.

SEC. 3. *Participation in the Program.* Any person may participate in the Program by notice given to the General Services Administration Regional Office, Building 1–C, Denver Federal Center, Denver, Colorado, in the form of a letter, postcard or telegram postmarked or dated by the telegraph office not later than September 15, 1951. Such notice shall state that the writer desires to participate in the Program and will deliver manganese ore to the depot. Such notice must be signed and a return address given. Any person participating in the Program will promptly be sent a certificate authorizing him to deliver manganese ore meeting minimum specifications.

SEC. 4. *Deliveries.* Manganese ore to be purchased by the Government under the Program is to be delivered f. o. b. depot. Delivery of less than five (5) long tons of ore at one time will not be accepted. Participants in the Program must give the Government reasonable notice with respect to deliveries of ore. Each delivery will be sampled and assayed by the Government at the depot and payment on an estimated recovery basis will be made in accordance with the analysis of such sample and as provided in section 6 below. Deliveries not conforming to the minimum specifications will be rejected, and expenses in connection therewith will be borne by the seller.

SEC. 5. *Duration of the Program.* This Program shall terminate and be of no further force or effect when six million (6,000,000) contained long ton units of manganese have been delivered to the depot and accepted by the Government under this Program, or at the close of business June 30, 1956, whichever first occurs.

SEC. 6. *Price schedule for ores.* The following prices per long dry ton will be paid for manganese ore delivered f. o. b. depot. Where the fractional manganese content is 0.5 percent or below, payment will be made as though no fractional content were involved. Where such fractional content is 0.51 percent or above, payment will be made at the next higher figure.

Percent Mn in ore:	*To be paid for 1 long dry ton*	Percent Mn in ore:	*To be paid for 1 long dry ton*
15	$6.10	29	$32.15
16	7.60	30	34.60
17	9.15	31	37.45
18	10.65	32	40.30
19	12.20	33	43.15
20	13.70	34	46.00
21	15.40	35	48.85
22	17.10	36	53.00
23	18.85	37	57.10
24	20.55	38	61.25
25	22.25	39	65.35
26	24.70	40 fines	69.50
27	27.20	40 ore	76.00
28	29.65		

For lots received at a rate of more than 200 tons during any 30-day period the final payment shall be adjusted either up or down according to the laboratory-determined recoverability of specific lots of ore from individual shippers. The payment will be based on a rate of $2 per long ton unit of manganese contained in a beneficiated product acceptable to industry, and subject to the specifications, premiums, and penalties set forth below.

SPECIFICATIONS

	Percent
Manganese	48.0
Iron	6.0
Silica plus Alumina	11.0
Phosphorus	.12

PREMIUMS

Manganese content above 48.0 percent (dry basis); ½ cent for each 1.0 percent.

Iron content below 6.0 percent (dry basis); ½ cent for each 1.0 percent.

PENALTIES

Manganese content below 48.0 percent (dry basis); 1 cent for each 1.0 percent, down to and including 44.0 percent. Below 44.0 percent; 4 cents, plus 1½ cents for each 1.0 percent down to 40.0 percent minimum. Iron content above 6.0 percent (dry basis); 1 cent for each 1.0 percent, up to and including 8.0 percent. Above 8.0 percent; 2 cents plus ¾ cent for each 1.0 percent up to 16 percent maximum. Silicia plus alumina content above 11.0 percent (dry basis); 1 cent for each 1.0 percent up to 15 percent maximum. Phosphorus content above 0.12 percent (dry basis); ½ cent for each 0.01 percent up to 0.3 percent maximum.

The Government will reject any lot which, on the basis of the laboratory testing, cannot be beneficiated to a product the chemical analysis of which falls within the following limits in all respects. The Government reserves the right to dispense with laboratory testing of shipments aggregating less than 200 tons over a 30-day period.

	By weight (dry basis) (percent)
Manganese (Mn)	40.0 min.
Iron (Fe)	16.0 max.
Silica plus alumina (SiO_2 plus Al_2O_3).	15.0 max.
Phosphorus (P)	0.30 max.
Copper plus lead plus zinc (Cu plus Pb plus Zn).	[1] 1.00 max.

[1] Of which not more than 0.25 percent may be copper.

Dated: July 19, 1951.

JESS LARSON,
Administrator.

[F. R. Doc. 51–8529; Filed, July 20, 1951; 8:46 a. m.]

MANGANESE REGULATION: PURCHASE PROGRAM FOR DOMESTIC MANGANESE ORE AT BUTTE AND PHILIPSBURG, MONT.

Sec.
1. Basis and purpose.
2. Definitions.
3. Participation in the Program.
4. Deliveries.
5. Duration of the Program.
6. Price schedule for ore.

AUTHORITY: Sections 1 to 6 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 303, Pub. Law 774, 81st Cong., sec. 303, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *Basis and purpose.* This regulation interprets and implements the authority of the Administrator of General Services to purchase manganese ore of domestic origin at Butte, Montana, and at Philipsburg, Montana, for the fiscal years 1952–56, as authorized by the Defense Production Administration on June 27, 1951, and outlines the attendant responsibilities and functions of the Administrator of General Services in purchasing such manganese ore for the Government. In accordance with the Program set forth herein, the Adminis-

trator will buy domestically produced manganese ore. Such ore shall contain not less than 15 percent manganese in the case of manganese ore delivered at Philipsburg, or 12 percent in the case of manganese ore delivered at Butte, in accordance with the specifications contained in this regulation.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Administrator" means the Administrator of General Services.

(b) "Program" means the purchase of manganese ore as set forth in this regulation.

(c) "Depot" means the purchase depots of the Government at Butte, Montana and at Philipsburg, Montana.

(d) "Manganese ore" means crude ore from production of ore containing not less than 90 percent of the manganese as carbonate, mined in the United States, its Territories and possessions.

(e) "Long ton unit of manganese" means 22.4 pounds of manganese contained in a long dry ton of manganese ore.

SEC. 3. *Participation in the Program.* Subject to the last sentence of this section, any person may participate in the Program by notice given to the General Services Administration Regional Office, United States Courthouse, Seattle 4, Washington, in the form of a letter, postcard or telegram postmarked or dated by the telegraph office not later than September 15, 1951. Such notice shall state that the writer desires to participate in the Program and will deliver manganese ore to either or both of the depots, giving the estimated monthly rate of delivery. Such notice must be signed and a return address given. Any person participating in the Program will promptly be sent a certificate authorizing him to deliver manganese ore meeting minimum specifications. Since the purpose of the program is to obtain from marginal or submarginal sources manganese ore which would not otherwise be produced, the Government reserves the right to exclude presently established production of manganese ore from participation in the program.

SEC. 4. *Deliveries.* Manganese ore to be purchased by the Government under this Program is to be delivered f. o. b. depot. Delivery of less than five (5) long tons of ore at one time will not be accepted. Participants in the Program must give the Government reasonable notice with respect to deliveries of ore. Each delivery will be sampled by the Government at the depot and payment will be made in accordance with the analysis of such sample, as provided in section 6 below. Deliveries not conforming to the minimum specifications will be rejected, and expenses in connection therewith will be borne by the seller.

SEC. 5. *Duration of the Program.* This Program shall terminate and be of no further force or effect when six million (6,000,000) contained long ton units of manganese have been delivered to the depots and accepted by the Government under this Program, or at the close of business June 30, 1956, whichever first occurs.

SEC. 6. *Price schedule for ore.* Payment for manganese ore delivered f. o. b. depot shall be made on the basis of the following table:

Percent of manganese in ore	To be paid for 1 long dry ton delivered f. o. b. depot, Philipsburg	To be paid for 1 long dry ton delivered f. o. b. depot, Butte
12		$6.05
13		7.50
14		9.46
15	$6.43	11.43
16	8.72	13.43
17	10.75	16.27
18	12.79	19.01
19	15.04	21.46
20	17.22	23.62
21	19.04	25.21
22	20.89	26.80
23	22.73	28.41
24	24.62	30.07
25	26.53	31.74
26	28.39	33.54
27	29.90	35.35
28	31.50	37.11
29	33.21	38.76
30	34.81	40.42

The following premiums and penalties will be paid:

(a) For each 1 percent of iron as oxide in excess of 3 percent, a penalty of ½ of 1 percent manganese shall be imposed.

(b) For each 1 percent of calcium oxide plus magnesium oxide in excess of 9 percent, a penalty of 1 percent manganese shall be imposed.

(c) A credit of 0.25 percent manganese shall be allowed for each 1 percent of calcium oxide plus magnesium oxide below 7 percent, provided, this credit does not apply to Butte ore containing more than 15 percent manganese. In addition, payment for any gold, silver, lead, or zinc contained in the manganese ore shall be made on the basis of the following tables:

GOLD

No pay if 0.03 ounce or less (per short dry ton).

0.031 ounce to 0.05 ounce—pay for 20 percent at $30 per ounce.

0.051 ounce to 0.10 ounce—pay for 30 percent at $30 per ounce.

0.101 ounce to 0.15 ounce—pay for 40 percent at $30 per ounce.

0.151 ounce to 0.20 ounce—pay for 50 percent at $30 per ounce.

0.201 ounce to 0.25 ounce—pay for 60 percent at $30 per ounce.

SILVER

No pay if 2.0 ounces or less (per short dry ton).

2.1 ounces to 5.0 ounces—pay for 30 percent at market price.

5.1 ounces to 7.5 ounces—pay for 45 percent at market price.

7.6 ounces to 10.0 ounces—pay for 60 percent at market price.

Over 10.1 ounces—pay for 60 percent at market price.

LEAD

No pay if 1.0 percent or less (per short dry ton).

1.1 percent to 2.0 percent—pay for 40 percent at market less 2 cents.

2.1 percent to 3.0 percent—pay for 45 percent at market less 2 cents.

3.1 percent to 4.0 percent—pay for 50 percent at market less 2 cents.

4.1 percent to 5.0 percent—pay for 55 percent at market less 2 cents.

5.1 percent and over—pay for 60 percent at market less 2 cents.

NOTE: Payments shall be made only for lead occurring as sulfide. Oxide lead content shall be deducted from total lead content to determine sulfide lead content. Should oxide lead content exceed one-third of total lead content, no lead payment shall be made.

ZINC

No pay if 1 percent or less (per short dry ton).

1.1 percent to 2.0 percent—pay for 30 percent at ½ market price.

2.1 percent to 3.0 percent—pay for 35 percent at ½ market price.

3.1 percent to 4.0 percent—pay for 40 percent at ½ market price.

4.1 percent to 5.0 percent—pay 45 percent at ½ market price.

5.1 percent and over—pay for 50 percent at ½ market price.

NOTE: Oxide zinc content shall be deducted from total zinc content to determine sulfide zinc content. Should oxide zinc content be 10 percent or more of total, no zinc payment shall be made.

Dated: July 19, 1951.

JESS LARSON,
Administrator.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent. Reg., Amdt. 388]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 383]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

MICHIGAN

Amendment 388 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 383 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said regulations are amended in the following respect:

In Schedule A, all of Item 149 which relates to Washtenaw County, Michigan, is deleted.

This decontrols (1) the City of Ann Arbor in Washtenaw County, Michigan, a portion of the Detroit, Michigan, Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and (2) the Township of Ann Arbor in said Washtenaw County, a portion of said Defense-Rental Area, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C App. Sup. 1894)

This amendment shall become effective July 21, 1951.

Issued this 18th day of July 1951.

TIGHE E. WOODS,
Housing Expediter.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1793]

PART 233—FLATHEAD IRRIGATION PROJECT, MONTANA

MISCELLANEOUS AMENDMENTS

Sections 233.9, 233.14, 233.16 and 233.28 are amended to read as follows:

§ 233.9 *Amendatory farm-unit plats.* When the plats describing the amended farm units are approved by the project engineer, he will forward two copies of the amendatory plat together with the assignment and accompanying showings to the land office, where the amendatory plat will be treated as an official amendment of the farm-unit plat, and one copy will be forwarded by the manager to the Regional Administrator, together with the assignment and accompanying showings. A copy of the amendatory plat will also be forwarded promptly by the project engineer to the Area Director, Bureau of Indian Affairs, Billings, Montana, for formal approval.

§ 233.14 *Notation of mortgage interest; effect of notation.* Every such notice of mortgage interest, filed as provided in the preceding section, must be forthwith noted upon the records of the project engineer, and of the land office, and be promptly reported to the Area Director, Bureau of Indian Affairs, and to the Regional Administrator, where like notation will be made. Relinquishment of a homestead entry, or part thereof, within the project, upon which final proof has been submitted, where the records show the land to have been mortgaged, will not be accepted or noted, unless the mortgagee joins therein; nor will an assignment of such entry, or part thereof, under the act of July 17, 1914 (38 Stat. 510; 43 U. S. C. 593), extending to the Flathead project the provisions of the act of June 23, 1910 (36 Stat. 592; 43 U. S. C. 441), be recognized or permitted unless the assignment specifically refers to such mortgage and is made and accepted subject thereto.

§ 233.16 *Payment of appraised price and reclamation of land necessary.* All homestead entrymen within the Flathead project must, in addition to paying the appraised value of the land and water-right charges, reclaim at least one-half of the total irrigable area in their entries for agricultural purposes. Failure to make any two payments of the appraised price when due or to reclaim the land as above indicated, or any failure to comply with the requirements of the homestead law and the acts authorizing the construction of the Flathead project as to residence, cultivation, improvement, and payments, will render the entry subject to cancellation, and the money paid subject to forfeiture, whether water-right application has been made or not. Failure to make any two payments of the installments of water-right charges when due will render such entries subject to cancellation; and upon receipt of a statement from the Area Director, Bureau of Indian Affairs, that two of such payments remain due and unpaid, after proper service of notice upon the entryman and upon the mortgagee, if any such there be of record, the date and manner of service being stated, the entry will, without further notice, be canceled by the Regional Administrator.

§ 233.28 *When lien in patent will be released.* The Area Director, Bureau of Indian Affairs, will, upon the full payment of all building and betterment charges by any water user, issue certificate of the full payment of such charges releasing the lien therefor reserved in the patent under the act of August 9, 1912.

(Sec. 15, 35 Stat. 450)

OSCAR L. CHAPMAN,
Secretary of the Interior.

JULY 16, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Parts 903 and 921]

[Docket No. AO 10-A15]

ST. LOUIS AND SPRINGFIELD, MO., MILK MARKETING AREAS

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO THE TENTATIVE MARKETING AGREEMENT AND TO THE ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Chase Hotel, St. Louis, Missouri, beginning at 10:00 a. m., c. d. s. t., August 8, 1951, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area (7 CFR Part 903 et seq.). These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area were proposed, as enumerated below. Proposal No. 1 relative to the enlargement of the marketing area raises the issue as to whether the provisions of the present order would tend to effectuate the declared policy of the act if applied to the marketing area as proposed to be extended, and if not, what modifications of the classification, pricing (including all differentials) and payment provisions of the order, as amended, are appropriate to effectuate the declared policy of the act.

In view of the evidence submitted and arguments presented at a recent hearing (June 7-8, 1951) at Springfield, Missouri, on proposed amendments to the order regulating the handling of milk in the Springfield, Missouri, marketing area (7 CFR Part 921) to the effect that the class prices under the Springfield order should be directly related to the class prices under the St. Louis order evidence will also be received at this hearing relative to such issue.

By Sanitary Milk Producers:

1. Amend § 903.1 (e) to read as follows:

(e) "St. Louis, Missouri marketing area", hereinafter called the "marketing area", means the territory within the corporate limits of the City of St. Louis and the territory within St. Louis County, Missouri; and the territory within Scott Military Reservation, East St. Louis, Centreville, Canteen, and Stites Townships, and the City of Belleville in St. Clair County, Illinois.

2. Delete § 903.1 (g) and substitute therefor the following:

(g) "Producer" means any person, irrespective of whether such person is also a handler, who produces milk, under a dairy farm permit or rating issued by the appropriate health authority in the marketing area for the production of Grade A or Grade B raw milk, which is:

(1) Received at a city plant;

(2) Received at a qualifying country plant; or

(3) Diverted from a city plant or qualifying country plant to any other milk distributing or milk manufactur-

ing plant for the account of a handler. As used herein, such "dairy farm permit or rating" means one issued by any of the health authorities duly authorized to administer regulations governing the quality of milk disposed of in the marketing area.

3. Delete § 903.1 (h) and substitute therefor the following:

(h) "City Plant" means a plant at which milk is received from producers, from a qualifying country plant, or a non-qualifying country plant; and which plant processes and packages Class I milk, any portion of which is disposed of in the marketing area to wholesale or retail outlets, including plant stores.

4. Delete § 903.1 (i) and substitute therefor the following:

(i) "Qualifying Country Plant" means a plant at which milk is received from farmers who produce milk under a dairy farm permit or rating issued by the appropriate health authority in the marketing area for the production of Grade A or Grade B raw milk, and which plant furnishes milk, skim milk, or cream to a city plant in an amount representing 50 percent or more of the volume of milk received at such plant from such farmers during any delivery periods: *Provided*, That if such plant is a qualifying country plant for four or more of the delivery periods of July through December of any year, upon application by the plant in writing to the Market Administrator before December 31 of such year, such plant shall be allowed to retain status as a qualifying country plant for the delivery periods of January through June next following.

5. Delete § 903.1 (j) and substitute therefor the following:

(j) "Handler" means a person who operates a city plant, a qualifying country plant, or a non-qualifying country plant.

6. Delete § 903.1 (n) and substitute therefor the following:

(n) "Other Source milk" means all skim milk and butterfat transferred in any form by a producer-handler to a handler, and all skim milk and butterfat received in any form from a source other than a producer, a city plant, or a qualifying country plant, except that it shall not include any Class II non-fluid milk product which is received and disposed of in the same form.

7. Add as § 903.1 (o) the following:

(o) "Non-qualifying country plant" means a plant at which milk is received from farmers and which furnishes milk, skim milk, or cream to a city plant but which is not a qualifying country plant: *Provided*, That such definition shall not be applicable to plants subject to another federal milk marketing order issued for another milk marketing area under the act.

8. Add as § 903.1 (p) the following:

(p) "Cooperative Association" means any cooperative marketing association of producers which the Secretary determines to be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act", and to have full authority in the sale of milk of its members, and to be engaged in making collective sales or marketing milk or its products for its members.

9. Delete § 903.2 (c) (10) and substitute therefor the following:

(10) Publicly announce on or before the 6th day of each delivery period

(i) The minimum price for Class I milk pursuant to § 903.5 (b) (1), and the Class I butterfat differential pursuant to § 903.5 (d) (1), both for the current delivery period; and the minimum price for Class II milk pursuant to § 903.5 (b) (2) and the Class II butterfat differential pursuant to § 903.5 (d) (2), both for the previous delivery period; and

(ii) On or before the 10th day after the end of such delivery period, the uniform price for each handler pursuant to § 903.7 (b) and the producer butterfat differential pursuant to § 903.8 and any adjustments pursuant to § 903.7 (b) (3) and (4).

10. Delete § 903.3 (a) (1) and substitute therefor the following:

(1) The quantities of skim milk and butterfat contained in all receipts at each of his city plants, qualifying country plants, and non-qualifying country plants within such delivery period of

(i) Milk from producers (including his own farm production);

(ii) Milk, skim milk, cream, and milk products from other city plants and regulated country plants, and

(iii) Other source milk.

11. Delete § 903.4 and substitute therefor the following:

§ 903.4 *Classification of milk.*—(a) *Basis of classification.* All skim milk and butterfat received by a handler at his qualifying country plant(s) and city plant(s) in (1) Milk from producer (including milk of his own production) (2) Milk, skim milk, cream, and other products from other qualifying country plants or city plants, and (3) Other source milk, shall be classified by the Market Administrator in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in paragraphs (c), (d), (e), and (f) of this section, the classes of utilization shall be as follows:

(1) Class I milk shall be skim milk (including reconstituted skim milk and butterfat):

(i) Disposed of in fluid form as milk, skim milk, buttermilk, milk drinks (whether plain or flavored), cream (fresh, frozen, and sour, including aerated products);

(ii) Disposed of as concentrated (including frozen) milk, flavored milk, or flavored milk drinks, not sterilized;

(iii) Any milk product except cottage cheese, ice cream, and ice cream mix which is required by the appropriate health authorities in the marketing area to be made from Grade A or Grade B raw milk; and

(iv) Not specifically accounted for as Class II milk.

(2) Class II milk shall be skim milk and butterfat accounted for:

(i) As having been used or disposed of in any product other than those specified in Class I milk;

(ii) In actual plant shrinkage of skim milk and butterfat in milk received from producers, but not in excess of 2 percent of such receipts of skim milk and butterfat respectively; and

(iii) As actual plant shrinkage of skim milk and butterfat in other source milk: *Provided*, That if milk from producers and other source milk are both received during the same delivery period in a qualifying country plant or a city plant, the shrinkage of skim milk and butterfat, respectively, allocated to producer milk and to other source milk shall be computed pro rata according to the proportions of the volume of skim milk and butterfat, respectively, received from such source to their total.

(c) *Responsibility of handlers and reclassification of milk.* (1) All skim milk and butterfat shall be classified as Class I milk unless the handler who first receives such skim milk or butterfat proves to the Market Administrator that such skim milk or butterfat should be classified in another class.

(2) Any skim milk or butterfat classified in one class shall be reclassified if used, or reused, by such handler or by another handler (except a producer-handler) in another class.

(d) *Transfers.* (1) Skim milk or butterfat disposed of in the form of milk, skim milk, or cream by transfer or diversion from a city plant of a handler to any other city plant or qualifying country plant of another handler (except a producer-handler) shall be classified as Class I milk unless utilization in another class is mutually indicated in writing to the Market Administrator by both handlers on or before the 7th day after the end of the delivery period within which such transaction occurred, in which case such skim milk or butterfat shall be classified according to such mutual agreement: *Provided*, That skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in such class in the plant of the transferee handler after the subtraction of other source milk pursuant to paragraph (f) of this section, and any excess of such skim milk or butterfat, respectively, shall be assigned to Class I milk.

(2) Skim milk or butterfat disposed of in the form of milk, skim milk, or cream by transfer or transfer of title from a qualifying country plant of a handler to another qualifying country plant or a city plant of another handler (except a producer-handler) shall be classified as Class I milk unless utilization in another class is mutually indicated in writing to the Market Adminstrator by both handlers on or before the 7th day after the end of the delivery period within which such transaction occurred; in which case such skim milk or butterfat shall be classified according to such mutual agreement: *Provided*, That the amount of skim milk or butterfat classified as Class I milk pursuant to this subparagraph shall be limited to the amount computed pursuant to paragraph (f) (1) (vii) of this section.

(3) Skim milk or butterfat disposed of in the form of milk, skim milk, or cream by transfer or diversion from a qualifying country plant or a city plant of a handler to a city plant of a producer-handler shall be classified as Class I milk.

(4) Skim milk or butterfat disposed of in the form of milk, skim milk, or cream by transfer or diversion from a qualifying country plant or city plant of a handler to any plant other than a city plant, a qualifying country plant, or non-qualifying country plant of a handler, or a non-handler shall be classified as Class I milk unless

(i) The transferee plant is located within 110 airline miles from the City Hall in St. Louis, Missouri, or in the counties of Phelps, Dent, Pulaski, Texas, Howell, Laclede, Wright, Dallas, Webster, Polk, Greene, Christian, Lawrence, Miller, Morgan, Petis, Barry, or Cedar in the State of Missouri, and the handler claims another class on the basis of utilization mutually indicated in writing to the Market Administrator by both the handler and the operator of the transferee plant on or before the 7th day after the end of the delivery period within which such transaction occurred;

(ii) The operator of the transferee plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the Market Administrator for the purpose of verification; and

(iii) Not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant in the use indicated in such statment in which case such skim milk and butterfat shall be classified according to such mutual agreement: *Provided*, That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use, the remaining pounds shall be classified as Class I milk.

(5) Skim milk or butterfat disposed of in the form of milk, skim milk, or cream from a plant of a handler to retail establishments which dispose of milk, skim milk, or cream for both fluid and other uses shall be Class I milk: *Provided*, That skim milk and butterfat contained in milk, skim milk, or cream so disposed of in bulk to retail establishments which under the applicable health regulations are permitted to receive milk, skim milk, or cream other than of Grade A quality for non-fluid purposes shall be classified as Class II milk if used or disposed of by such establishment in other than fluid form provided that the Market Administrator is allowed to verify such use or disposition.

(e) *Computation of skim milk and butterfat in each class.* For each delivery period the Market Administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat respectively in Class I milk and Class II milk for such handler.

(f) *Allocation of skim milk and butterfat classified.* The pounds of skim milk and butterfat remaining in each class after making the following computations for each handler for each delivery period shall be the pounds of skim milk and butterfat in such class allocated to producer milk received by such handler during such delivery period.

(1) Skim milk shall be allocated as follows:

(i) Subtract from the total pounds of skim milk in Class II milk the plant shrinkage of skim milk in milk received from producers computed pursuant to paragraph (b) (2) (ii) of this section;

(ii) Subtract from the pounds of skim milk remaining in each class in series beginning with Class II milk the pounds of skim milk in other source milk;

(iii) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from city plants of other handlers and assigned to such class: *Provided*, That if the pounds of skim milk to be subtracted from Class II milk are greater than the pounds of skim milk remaining in such class the balance shall be subtracted from the pounds of skim milk remaining in Class I milk;

(iv) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from a qualifying country plant of another handler and assigned to such class: *Provided*, That the pounds of skim milk to be subtracted from Class I milk shall not exceed its pro-rata share of the volume of skim milk allocated to Class I milk and Class II milk after the subtraction of receipts of other source milk and receipts from city plants of other handlers;

(v) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subdivision (i) of this sub-paragraph, or if the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with the lowest priced class.

(2) Allocate the pounds of butterfat in each class to producer milk in the same manner prescribed for skim milk in subparagraph (1) of this paragraph.

(g) *Determination of producer milk in each class.* Add the pounds of skim milk and the pounds of butterfat allocated to milk received from producers in each class, respectively, as computed pursuant to subparagraphs (1) and (2) of paragraph (f) of this section and determine the percentage of butterfat in each class.

12. Delete § 903.5 (b) (1) and substitute therefor the following:

(1) *Class I milk.* The price for Class I milk shall be the basic formula price for the preceding delivery period plus the following amounts: $1.55 for the delivery periods of July through December; $1.25 for the delivery periods of January through March; and $0.90 for the delivery periods of April through June; *Provided*, That if during the twelve months prior to the month immediately preceding each of the following delivery period groups the total volume of milk received from producers by all city plants and qualifying country plants was more or less than 125 percent of the total Class I milk disposed of by all city plants and qualifying country plants during such twelve-month period the following adjustments shall be made to the price for Class I milk for the respective group of delivery periods:

Delivery period group	For each percentage point that receipts from producers as a percent of Class I milk are—	
	Below 125 percent (add) cents	Above 125 percent (subtract) cents
January through March	1	2
April through June	0	2
July through December	2	2

13. Add as § 903.6 (b) and (c) the following:

(b) *Handlers subject to other Federal orders.* In the case of any handler whom the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing order issued pursuant to the act the provisions of this order shall not apply except as follows:

(1) The handler shall, with respect to his total receipts and utilization of skim milk and butterfat, make reports to the Market Administrator at such time and in such manner as the Market Administrator may require, and allow verification of such reports in accordance with the provisions of § 903.3.

(2) If the price which such handler is required to pay under the other order to which he is subject for skim milk and butterfat which would be classified as Class I milk under this order is less than the price provided by this order, such handler shall pay to the Market Administrator for deposit into the producer premium fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this order and its value as determined pursuant to the other order to which he is subject.

(c) *Sales in the marketing area from non-qualified country plants.* In the case of any handler who disposes of Class I milk in the marketing area from a non-qualifying country plant not subject to another milk marketing order issued pursuant to the act, the pricing and pooling provisions of this order shall not apply except for the purpose of equalizing costs among the handlers, and for that purpose the handler receiving such milk shall with respect to such receipts pay to the Market Administrator for deposit into the producer premium fund an amount representing the difference between the value of such milk disposed of in the marketing area at the Class I price adjusted by the Class I butterfat differential less the value com-

puted at the Class II price adjusted by the Class II butterfat differential.

14. Delete the period at the end § 903.7 (a), insert a semicolon and add the following: *"And provided further,* That in the case of a handler having Class I sales within the marketing area in excess of all his receipts of approved milk there shall be added an amount computed by multiplying the pounds of such excess Class I sales by the difference between the Class I price and Class II price of such milk."

15. Delete § 903.7 (b) (4) and add the following:

(4) Add a sum equal to the payments, if any, received from the Market Administrator pursuant to § 903.8 (g);

(5) Divide the resulting amount by the total hundredweight of milk received from producers by such handler. The result computed to the nearest full cent shall be known as the uniform price for such handler for milk of 3.5 percent butterfat content f. o. b. St. Louis, Missouri, marketing area.

16. Add to the end of § 903.8 the following:

(f) *Producer premium fund.* The Market Administrator shall establish and maintain a separate fund known as the "producer premium fund" into which he shall deposit payments made by handlers pursuant to § 903.6 (b) and (c) and out of which he shall make payments pursuant to paragraph (g) of this section.

(g) *Payments out of producer premium fund.* At such time as the payments made into the producer premium fund equal an amount of money representing one cent per hundredweight of milk delivered by producers for any delivery period, the Market Administrator shall disburse such sums to the producers by payment to the handlers at the per hundredweight rate as determined by the Market Administrator. Money remaining in such fund in excess of payments on an even cent per hundredweight basis shall be accumulated until the next such payment is made on an even cent per hundredweight basis.

17. Delete § 903.10 (b) and substitute therefor the following:

(b) *Deductions with respect to members of a cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers, and on or before the 15th day after the end of such delivery period, shall pay such deduction to the cooperative association rendering such services.

18. Delete § 903.12.

19. Make such other changes as are necessary to make all of the provisions conform to the amendments proposed.

By the Square Deal Milk Producers Association of Illinois and the Cooperative Milk Producers of Missouri:

20. Amend § 903.5 (b) (1) so as to increase the premium 25 cents per hundredweight over that now provided in the order for Class I milk for the delivery periods July through December, and January through March, so that said subparagraph shall read as follows:

(1) *Class I milk.* The price for class I milk shall be the basic formula price, plus the following amounts per hundredweight: $1.60 for the delivery periods of July through December; $1.35 for the delivery periods of January through March; 90 cents for the delivery periods of April through June.

By various handlers represented by Karl P. Spencer:

21. Amend § 903.4 (d) (4) (i) by adding the county of "Newton" to the counties listed therein.

22. Amend § 903.4 by striking out all of paragraphs (f) and (g) and substituting a new paragraph (f) to provide for subtracting the pounds of skim milk, cream and other milk products received from the city plant of another handler and assigned to such class and the prorating of approved skim milk and butterfat received from producer-handlers, handlers under another Federal order or from any other source upon the basis of deducting from each class in the proportion that the quantity of skim milk and butterfat used in each class by the receiving handler bears to the total quantity of skim milk and butterfat received by him.

23. Amend § 903.5 (a) (1) by striking the first subparagraph thereof and substituting in lieu thereof the following:

(1) Determine the arithmetic average of the basic, or field, prices paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the immediately preceding delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

24. Amend § 903.5 (b) (1) by striking the following portion thereof: "(1) *Class I milk.* The price for Class I milk shall be the basic formula price plus the following amounts per hundredweight: $1.35 for the delivery periods of July through December; $1.10 for the delivery periods of January through March; and 90 cents for the delivery periods of April through June," and substituting in lieu thereof the following: (1) *Class I milk.* The price for Class I Milk shall be the basic formula price plus the following amounts per hundredweight: $1.35 for the delivery periods of August through November; $1.10 for the delivery periods of December, January, February, March and July; and 90 cents for the delivery periods of April, May and June,".

25. Open § 903.5 (b) (2) for consideration and the receipt of evidence pertaining to the price for Class II milk.

By the St. Louis Dairy Company:

26. Amend the pricing provisions of the order to the effect that the basic formula price used in determining the Class I price for the current delivery period shall be based on the prices obtaining during the delivery period immediately preceding for the items represented by subparagraphs (1) and (2) of § 903.5 (a).

27. Amend the order to provide that the "uniform" price determined under the order shall be on a "market-wide" pool basis rather than on an "individual handler" pool basis; i. e., provided that the "uniform" price shall be a "market wide" uniform price determined by employing the market wide classification ratio rather than providing for "individual handler" uniform prices determined by the classification ratios of the individual handlers.

28. Renumber the sections, paragraphs, subparagraphs, and subdivisions of the order in accordance with revised Federal Register procedure.

29. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order, as amended, now in effect, may be procured from the Market Administrator, 4030 Chouteau Avenue, St. Louis 10, Missouri, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: July 18, 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

[7 CFR Part 949]

[Docket No. AO-232]

HANDLING OF MILK IN SAN ANTONIO, TEXAS, MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Non-jury Court Room, Federal Building, San Antonio, Texas, beginning at 10:00 a. m., c. s. t., August 14, 1951.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the San Antonio, Texas, marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in the said marketing area. The proposals set forth below have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any modification thereof.

Marketing agreement and order proposed by the Producers Association of San Antonio, Inc.:

DEFINITIONS

§ 949.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended, by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq).

§ 949.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 949.3 *San Antonio, Texas, marketing area.* "San Antonio, Texas, marketing area" hereinafter called the "marketing area" means the county of Bexar, and all Military Establishments and or Federal Reservations located within said County, all in the State of Texas.

§ 949.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 949.5 *Producer.* "Producer" means a person who in conformity with the applicable health regulations for milk for consumption as milk in the marketing area produces milk which is received at a city or country plant.

§ 949.6 *Handler.* "Handler" means a person in his capacity as an operator of a city or country plant.

§ 949.7 *City plant.* "City plant" means a plant where milk is processed and packaged and from which milk is distributed as Class I milk in the marketing area.

§ 949.8 *Country plant.* "Country plant" means a plant at which milk is received from producers and from which milk or cream is received at a city plant.

§ 949.9 *Delivery period.* "Delivery period" means the current marketing period from the first to, and including the last day of each month.

§ 949.10 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines (a) to have its entire activities under the control of its members, and (b) to have and to be exercising full authority in the sale of milk of its members.

§ 949.11 *Producer milk.* "Producer milk" means any skim milk or butterfat contained in milk produced by a producer.

§ 949.12 *Other source milk.* "Other source milk" means any skim milk or butterfat other than that contained in producer milk but included in milk received by a handler from a producer-handler.

§ 949.13 *Producer-handler.* "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers or from other producer-handlers in bulk: *Provided,* That (a) the maintenance, care, and management of the dairy animals and other resources necessary to produce the milk are the personal enterprise of and at the personal risk of such person in his capacity as a producer, and (b) the processing, packaging, and distribution of milk are the personal enterprise of and at the personal risk of such person in his capacity as a handler.

§ 949.14 *Base milk.* "Base milk" means that skim milk and butterfat contained in milk received by a handler during each delivery period from a producer which is not in excess of such producer's base.

§ 949.15 *Excess milk.* "Excess milk" means that skim milk and butterfat contained in milk received by a handler during each delivery period from a producer which is in excess of such producer's base.

MARKET ADMINISTRATOR

§ 949.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 949.21 *Powers.* The market administrator shall have the following powers with respect to this subpart.

(a) To administer the terms and provisions of this subpart;

(b) To report to the Secretary complaints of violations of the provisions of this subpart;

(c) To make rules and regulations to effectuate the terms and provisions of this subpart; and

(d) To recommend amendments to the Secretary.

§ 949.22 *Duties.* The market administrator shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Pay out of the funds provided by § 949.85 the cost of his bond, his own compensation, and all other expenses except those incurred under § 949.86;

(c) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and surrender the same to his successor or to such other person as the Secretary may designate;

(d) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not:

(1) Made reports pursuant to § 949.30, or

(2) Made payments pursuant to § 949.80;

(e) Promptly verify the information contained in the report submitted by handlers;

(f) Furnish to a cooperative association for its members the data furnished pursuant to § 949.30 (a);

(g) In order to insure the payments by handlers required under § 949.80, require each handler subject to the order to post a bond in an amount not exceeding twice the estimated amount of the payments to be made to producers for any delivery period and require such sureties on said bond as will satisfy the market administrator;

(h) From time to time, as conditions in the market warrant, publicly announce:

(1) The name of each handler whose receipts of skim milk or butterfat in milk received from producers are more than 105 percent of his utilization of skim milk or butterfat, respectively, in Class I milk,

(2) The name of each handler whose receipts of skim milk or butterfat in milk received from producers are less than 95 percent of his utilization of skim milk or butterfat, respectively, in Class I milk, and

(3) The percent that the total receipts of skim milk and butterfat in milk received from producers are of the Class I requirements of skim milk and butterfat, respectively, by all handlers in Class I milk.

REPORTS OF HANDLERS

§ 949.30 *Periodic reports.* On or before the 5th day after the end of each delivery period, each handler, except a producer-handler shall report to the market administrator in the detail and on forms prescribed by the market administrator, with respect to all milk, skim milk, cream, and other milk products which were, during the delivery period, purchased or received from (a) producers, (b) other handlers, and (c) other sources; the receipts at each plant; the butterfat content; and the utilization thereof.

§ 949.31 *Reports of payments to producers.* On or before the 20th day after the end of each delivery period, each handler who received milk from producers shall submit to the market administrator his producer payroll for the delivery period, which shall show for each producer:

(a) His total deliveries of milk, including for each of the delivery periods of February through September his total deliveries of base milk and excess milk,

(b) The average butterfat content of such milk, and,

(c) The net amount of such handler's payments to such producer with the prices, deductions and charges involved.

§ 949.32 *Report of utilization of skim milk and butterfat.* From time to time as conditions in the market warrant each handler shall report in the manner and on forms prescribed by the market administrator with respect to such handler's receipts and utilization of skim milk and butterfat.

§ 949.33 *Reports of producer-handlers.* Producer-handlers shall report to the market administrator at such time and in such manner as the market administrator may request.

§ 949.34 *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records and the records of any other handler or person upon whose utilization the classification of milk depends. Each

handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to:

(a) Verify the receipts and utilization of all skim milk and butterfat and in the case of errors or omissions, ascertain the correct figures;

(b) Weigh, sample, and test for butterfat content milk and milk products; and

(c) Verify payments to producers.

§ 949.35 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8 (c) (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 949.40 *Basis of classification.* All skim milk and butterfat contained in milk, skim milk, cream, and other milk products required to be reported shall be classified by the market administrator in the classes set forth in § 949.41.

§ 949.41 *Classes of utilization.* Subject to the conditions set forth in §§ 949.42 and 949.43, the classes of utilization of milk shall be as set forth in this section:

(a) Class I shall be all skim milk and butterfat the utilization of which is not established as Class II;

(b) Class II shall be all skim milk and butterfat:

(1) Disposed of other than in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, sweet or sour cream (for consumption as cream, including any mixture of cream and milk or skim milk, in fluid form irrespective of the butterfat content) and cream used to cream cottage cheese;

(2) Accounted for as plant shrinkage, but not in excess of 2 percent, respectively, of the total receipts of skim milk and butterfat from producers; and

(3) Skim milk accounted for as having been dumped.

§ 949.42 *Responsibility of handlers and reclassification of milk.* (a) In establishing the classification of skim milk and butterfat as required in §§ 949.41 and 949.43, the burden rests upon the first handler who receives such skim milk or butterfat to prove to the market administrator that such skim milk or butterfat should not be classified as Class I milk.

(b) Any skim milk or butterfat classified in one class shall be reclassified if such skim milk or butterfat is later used or disposed of (whether in original or other form) in another class, in accordance with such latter use or disposition.

§ 949.43 *Transfers.* (a) Subject to the conditions set forth in § 949.42 and paragraph (b) of this section, skim milk and butterfat, when transferred in the form of milk, skim milk, or cream from a handler who purchases or receives milk from producers shall be classified:

(1) As Class I, if transferred to the plant of a handler who is not a producer-handler unless utilization in another class is mutually agreed upon and reported by both handlers on or before the 5th day after the end of the delivery period within which such transfer was made: *Provided,* That in no event shall the amount of skim milk or butterfat so reported be greater than the amount used in such class by the transferee handler;

(2) As Class I, if transferred to a plant of a producer-handler; and

(3) As Class I, if transferred to a plant, other than that of a handler; *Provided,* That if the buyer maintains books and records, showing the utilization of all skim milk and butterfat received at his plant, which are made available to the market administrator for the purpose of verification, such skim milk and butterfat shall be classified during such delivery periods as follows:

(i) Determine the classification of all skim milk and butterfat at the transferee plant, and

(ii) Allocate the skim milk and butterfat, respectively, received at the transferee plant from the transferring handler to the highest-priced classification remaining after subtracting, in series beginning with the highest-price classification, the receipts of skim milk and butterfat, respectively, at the transferee plant from dairy farms.

(b) No provision relative to transfers provided for in paragraph (a) (1) of this section shall operate to deter the prior subtraction of skim milk or butterfat from other sources pursuant to § 949.46. Any quantity reported for assignment to a particular class but not eligible therefor because of § 949.45 shall be assigned by the market administrator as Class I skim milk or Class I butterfat pending verification and appropriate allocation.

§ 949.44 *Computation of the skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and for other obvious errors the periodic report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 949.45 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 949.44, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided,* That if the receipts of skim milk in other source milk are greater than the pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(2) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers according to its classification as determined pursuant to § 949.43;

(3) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content in Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 949.50 *Formula index.* The market administrator shall compute for each delivery period a formula index to be used in the determination of the Class I price for such delivery period. The latest reported figures available to the market administrator on the 28th day of the month shall be used in making the following computations for the next succeeding delivery period:

(a) Divide by 0.8058 the monthly wholesale price index, with the year 1926 as the base period, for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor.

(b) Divide by 3 the sum of the latest monthly indexes of department store sales in the Eleventh Federal Reserve District adjusted for seasonal variation, with the years 1935–39 as the base period, as reported by the Federal Reserve Bank of Dallas, Texas.

(c) Add together the amounts determined pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Divide by 0.017825 the average prices paid per hundredweight by Texas farmers for all mixed dairy feed, as reported by the United States Department of Agriculture and multiply by 0.70.

(2) Divide by 0.012675 the daily farm wage rates without board or room for the latest available month for Texas as reported by the United States Department of Agriculture and multiply by 0.30.

(d) Divide by 3 the sum of the amounts determined pursuant to paragraphs (a), (b), and (c) of this section. The result rounded to the nearest whole number shall be the formula index for such delivery period.

§ 949.51 *Class prices.* Subject to the appropriate butterfat differential provided in § 949.52 the following are the minimum prices per hundredweight to handlers for Class I milk and for Class II milk.

(a) *Class I milk.* The price for Class I milk shall be the formula index multiplied by 2.15: *Provided,* That whenever the receipts of milk from producers by all handlers during any period of twelve consecutive months are less than 105 percent of Class I requirements of all handlers for the same period of twelve consecutive months, the price for Class I milk for the next following delivery period shall be increased by 40 cents and whenever such receipts are more than 115 percent of such Class I requirements the price for Class I milk for the next delivery period shall be decreased by 40 cents: *And provided further,* That notwithstanding the provisions of the previous proviso the price for Class I milk during any of the delivery periods of April, May, and June of each year shall not be higher than the price for Class I milk during the immediately preceding delivery period and the price for Class I milk during any of the delivery periods of October, November and December of each year shall not be lower than the price for Class I milk during the immediately preceding delivery period.

(b) *Class II milk.* The price for Class II milk shall be that resulting from the following computations:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the delivery period next preceding that in which the milk is received in the case of Class I milk and during the delivery period in which the milk is received in the case of Class II milk, by the applicable factor listed below, divide the result by 10 and round to the nearest one-tenth cent:

(a) Class I milk: 1.25; and
(b) Class II milk: 1.15.

APPLICATION OF PROVISIONS

§ 949.60 *Application of provisions—*(a) *Exceptions.* Sections 949.50 through 949.52, 949.70 through 949.73, 949.80 through 949.86 and 949.90 through 949.94 shall not apply to any handler: (1) whose sole source of supply is from other handlers (except producer-handlers) or (2) who is a producer-handler pursuant to § 949.13.

(b) *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(1) The handler shall, with respect to the total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(2) If the price which such handler is required to pay under the other Federal order to which he is subject for skim milk and butterfat which would be classified as Class I milk under this order is less than the price provided by this

Secretary determines that the market price is below the applicable maximum uniform price, the market adminstrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

(2) Whenever the Secretary finds and announces that the Class I and Class II prices computed for any delivery period pursuant to paragraphs (a) and (b) of this section are not in the public interest, the Class I and Class II prices for such delivery period shall be the same as the Class I and Class II prices for the previous delivery period.

§ 949.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk received from producers by any handler and allocated to either class pursuant to § 949.45 is more or less than 4.0 percent, there shall be added to the respective class price computed pursuant to § 949.51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent, a butterfat differential computed as follows: multiply the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture, during the delivery period next preceding that in which the milk is received in the case of Class I milk and during the delivery period in which the milk is received in the case of Class II milk, by the applicable factor listed below, divide the result by 10 and round to the nearest one-tenth cent:

(a) Class I milk: 1.25; and
(b) Class II milk: 1.15.

APPLICATION OF PROVISIONS

§ 949.60 *Application of provisions—*(a) *Exceptions.* Sections 949.50 through 949.52, 949.70 through 949.73, 949.80 through 949.86 and 949.90 through 949.94 shall not apply to any handler: (1) whose sole source of supply is from other handlers (except producer-handlers) or (2) who is a producer-handler pursuant to § 949.13.

(b) *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(1) The handler shall, with respect to the total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(2) If the price which such handler is required to pay under the other Federal order to which he is subject for skim milk and butterfat which would be classified as Class I milk under this order is less than the price provided by this order, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this subpart and its value as determined pursuant to the other order to which he is subject.

DETERMINATION OF UNIFORM PRICES

§ 949.70 *Computation of value of milk.* The value of milk received from producers during each delivery period by each handler shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class price, adding together the resulting amounts and adding the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price.

§ 949.71 *Computation of uniform price for all milk.* (a) For each of the delivery periods of October, November, December and January the market administrator shall compute the uniform price for all milk received from producers during such delivery period as follows:

(1) Combine into one total the amounts computed pursuant to § 949.70 for all handlers who made the reports prescribed in § 949.30 and who made the payments required pursuant to § 949.80 for the preceding delivery period;

(2) Add an amount representing not less than one-half of the unobligated cash balance in the producer-settlement fund;

(3) Subtract if the average butterfat content of all milk included in these computations is greater than 4.0 percent or add if such average butterfat content is less than 4.0 percent an amount computed by multiplying the amount by which such average butterfat content varies from 4.0 percent by the butterfat differential computed pursuant to § 949.81 and multiply the resulting amount by the hundredweight of such milk;

(4) Divide by the total hundredweight of milk included in these computations; and

(5) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price per hundredweight for all milk of 4.0 percent butterfat content received from producers during such delivery period.

§ 949.72 *Computation of uniform price for excess milk.* (a) For each of the delivery periods of February, March, April, May, June, July, August and September the market administrator shall compute the uniform price for excess milk received from producers during such delivery period as follows:

(1) Allocate excess milk first to Class II and then to Class I until all such milk has been allocated;

(2) Multiply the pounds of excess milk allocated to each class by such class price for milk containing 4.0 percent butterfat and add together the resulting amounts; and

(3) Divide the amount obtained in subparagraph (2) of this paragraph by the hundredweight of excess milk and adjust to the nearest cent. The resulting figure shall be the uniform price per hundredweight for excess milk of 4.0 percent butterfat content received from producers during such delivery period.

§ 949.73 *Computation of uniform price for base milk.* (a) For each of the delivery periods of February, March, April, May, June, July, August and September the market administrator shall compute the uniform price for base milk received from producers during such delivery period as follows:

(1) Combine into one total the amounts computed pursuant to § 949.70 for all handlers who made the reports prescribed in § 949.30 and who made the payments required pursuant to § 949.80 for the preceding delivery period;

(2) Add an amount representing not less than one-half of the unobligated cash balance in the producer-settlement fund;

(3) Subtract if the average butterfat content of all milk included in these computations is greater than 4.0 percent or add if such average butterfat content is less than 4.0 percent an amount computed by multiplying the amount by which such average butterfat content varies from 4.0 percent by the butterfat differential computed pursuant to § 949.81 and multiply the resulting amount by the hundredweight of such milk;

(4) Multiply the pounds of excess milk received from producers during the delivery period by the uniform price for excess milk of 4.0 percent butterfat content for such delivery period;

(5) Subtract from the amount obtained in subparagraph (3) of this paragraph the amount obtained in subparagraph (4) of this paragraph;

(6) Divide by the hundredweight of base milk received from producers during the delivery period; and

(7) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price per hundredweight for base milk of 4.0 percent butterfat content received from producers during such delivery period.

PAYMENT FOR MILK

§ 949.80 *Time and method of payment.* (a) On or before the last day of each delivery period, each handler shall make payment to each producer for milk received from such producer by such handler during the first 15 days of the delivery period at not less than the price per hundredweight for Class II milk for the preceding delivery period.

(b) On or before the 15th day after the end of each of the delivery periods of February through September each handler shall make payment to each producer for base milk received from such producer by such handler during such delivery period at not less than the uniform price per hundredweight for base milk subject to the butterfat differential pursuant to § 949.81 and less payment made pursuant to paragraph (a) of this section.

(c) On or before the 15th day after the end of each of the delivery periods of February through September, each handler shall make payment, after deducting the amount of payment made pursuant to paragraph (a) of this section, to each producer for excess milk received from such producer by such handler during such delivery period at not less than the uniform price per hundredweight for excess milk, subject to the butterfat differential.

(d) On or before the 15th day after the end of each of the delivery periods of October through January each handler shall make payment after deducting the amount of payment made pursuant to paragraph (a) of this section to each producer for all milk received from such producer by such handler during the delivery period at not less than the uniform price per hundredweight, subject to the butterfat differential.

(e) In making the payments to producers pursuant to paragraphs (b), (c) and (d) of this section each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, together with a description of the respective deductions;

(6) The net amount of payment to such producer; and

(7) The percentage of such producer's base milk used in Class I and in Class II.

§ 949.81 *Butterfat differential.* If any handler has received from any producer milk having an average butterfat content other than 4.0 percent, such handler, in making payments pursuant to § 949.80, shall add to the uniform price of all milk, base milk, or excess milk, as the case may be, for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or shall deduct from the uniform price of all milk, base milk, or excess milk, as the case may be, for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: multiply by 1.2 the simple average computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the delivery period, divide the result by 10 and round to the nearest one-tenth of a cent.

§ 949.82 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 949.70 is greater than the amount required to be paid producers by such handler pursuant to § 949.80.

§ 949.83 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 949.70 is less than the amount required to be paid producers by such handler pursuant to § 949.80: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who has not received the balance of such payment from the market administrator shall be considered in violation of § 949.80 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund. The handler shall complete such payments to producers not later than the date for making such payments next following after the receipt of the balance from the market administrator.

§ 949.84 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due:

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 949.85 *Payment of administration expense.* Within 23 days after the end of each delivery period, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this subpart. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, and shall apply to all of the handler's receipts of milk from producers and receipts of other source milk during the month.

§ 949.86 *Marketing services*—(a) *Marketing service deduction.* Each handler, in making payments to producers (other than himself) shall make a deduction of six cents per hundredweight of milk or such lesser deduction as the Secretary from time to time may prescribe, except as set forth in paragraph (b) of this section. Such deductions shall be paid by the handler to the market administrator on or before the 15th day after the end of the delivery period during which the milk was received. Such moneys shall be expended by the market administrator for verification of weights and tests of milk received from such producers and in providing market information to such producers.

(b) *Marketing service deduction with respect to producers who are members of or are marketing through a cooperative association.* In the case of each producer who is a member of, or who has given written authorization for the rendering of marketing services and the taking of a deduction therefor to a cooperative association, which the Secretary has determined is performing the services described in paragraph (a) of this section, such handler, in lieu of the deduction specified under paragraph (a) of this section, shall deduct from the payments to such producer the amount per hundredweight specified by such association which is not in excess of the rate authorized by such producer and shall pay such deduction to the cooperative association entitled to receive it on or before the 15th day after the end of the delivery period during which such milk was received.

BASE RATING

§ 949.90 *Determination of base.* For each of the delivery periods of February through September of each year, the base of each producer shall be a quantity of milk calculated, by the handler who receives milk from such producer, in the following manner, subject to verification by the market administrator: Multiply the daily base of such producer with such handler by the number of days during which such producer's milk was delivered to such handler during the delivery period.

§ 949.91 *Base forming period.* For the delivery periods of February through September of each year, the base forming period shall be the immediately preceding four months period of October through January.

§ 949.92 *Determination of daily base.* For the delivery periods of February through September of each year, the daily base of each producer shall be an amount calculated by the handler(s) to whom such producer delivered milk during the base period, subject to verification by the market administrator as follows: Divide the total pounds of milk received from each producer during the base forming period by the number of days in the base forming period: *Provided*, That the base of each producer shall be proportionately adjusted so that the total of all bases shall equal the Class I sales of such handler or handlers during the base forming period: *And provided further*, That if a new producer who has not established a base, sells or delivers milk to a handler during a base operating period, he shall be paid the uniform price for "excess milk" as defined in this order, for all milk so delivered.

§ 949.93 *Base rules.* (a) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle when such share basis is terminated.

(b) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of such landlord and tenant may be combined and may be divided when such relationship is terminated.

(c) Base may be transferred only under the following conditions:

(1) In case of the death of a producer, his base may be transferred to a surviving member or members of his immediate family who carry on the dairy operations, and

(2) In case of retirement of a producer, his base may be transferred to a member or members of his immediate family who carry on the dairy operation.

§ 949.94 *Announcement of established bases.* On or before the 20th day after the end of the base forming period, each handler shall notify each producer from whom he received milk during the base forming period of his established base and post publicly the base of such producers.

MISCELLANEOUS PROVISIONS

§ 949.111 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the applications of such provision and the remaining provisions of this subpart to other persons or circumstances, shall not be affected thereby.

Modifications proposed by the Milk Handlers of San Antonio, Texas:

1a. Delete § 949.7 and substitute therefor the following:

§ 949.7 *City plant.* "City plant" means a plant where milk or milk products are processed and packaged and from which milk or milk products are distributed directly or indirectly under Class I classification in the marketing area.

b. Or, in lieu of §§ 949.6, 949.7 and 949.8, "'handlers' means a person who handles, processes or packages milk at a plant from which milk or milk products are disposed of directly or indirectly under Class I classification in the marketing area."

2. Add § 949.16 *Emergency milk.*

§ 949.16 *Emergency milk.* "Emergency milk" means milk received from outside sources, i. e. other than producer milk, during a period of time when the market administrator determines that the handler is otherwise unable to obtain his Class I requirements.

3. Delete § 949.22 (g).

4. Under § 949.45, and other appropriate sections of the proposed order consideration should be given to the deduction of emergency milk pro rata from each classification.

5. Amend § 949.50 as follows: Consideration should be given at the hearing to a Class I formula which shall: Provide for a "basic formula price" for Class I milk which shall be the higher of (a) the average paying prices of 18 Wisconsin and Michigan condenseries, or (b) the market value of milk for butter and nonfat dry milk solids, as such prices are reported by the United States Department of Agriculture for the Chicago area, with a plus differential.

6. Delete § 949.93 (c) (1) and (2) and substitute therefor the following:

(1) In the event of the death, retirement or entry into military service of a producer his established base may be transferred to a member or members of his immediate family;

(2) In the event a base is jointly held and such joint holding is terminated, the established base may be transferred to one of the joint holders or to another person; and

(3) In the event a bona fide sale by a producer, including a sale under power or a sale under judicial order, his established base may be transferred with the herd only when the following conditions have been complied with, to-wit: (i) The producer has made monthly reports to the market administrator during the base forming period, as to the number of cows in his herd; and (ii) that no less than ninety percent of the herd is sold and transferred.

7. Amend the last sentence in § 949.85 to read as follows: "The payment shall be at the rate of 2 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe and shall apply to all of the handler's receipts of producer milk and all receipts of other source milk which is utilized as Class I milk, which is procured from a source other than one subject to Federal Administrative assessment."

8. Amend § 949.86 (b) by adding the following: "*Provided*, That each producer who has authorized a cooperative association to render marketing services for him shall give to the handler receiving milk from him an authorization in writing, directing the handler to make the marketing service deduction and to pay the same to the cooperative association rendering the marketing services."

Modifications proposed by Tennessee Dairies, Inc.:

9. Add to § 949.60 (b) the following subparagraph:

(3) Notwithstanding the provisions of other sections, paragraphs and subparagraphs in this subpart, if the price which any handler pays for skim milk and butterfat (which would be classified as Class I milk under this order) is less than the price provided by this subpart, such handler shall pay to the

market administrator for deposit into the producer-settlement fund, with respect to all skim milk and butterfat disposed of as Class I milk an amount equal to the difference between the value of such skim milk or butterfat (determined according to the purchase price of such skim milk or butterfat at the point of purchase regardless of from whom it is purchased) and its value as determined pursuant to the formula for determining the price for Class I milk under this subpart.

Proposals of the Dairy Branch:

10. Add the following:

§ 949.87 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The delivery period during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8a (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION.

§ 949.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 949.101.

§ 949.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 949.102 *Continuing obligations.* If upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 949.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 949.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

Copies of this notice of hearing may be procured from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: July 18, 1951.

POST OFFICE DEPARTMENT

TRANSFER OF FUNCTIONS AND DELEGATION OF AUTHORITY WITHIN BUREAU OF FACILITIES

The following instructions have been promulgated by the Assistant Postmaster General, Bureau of Facilities, pursuant to authority delegated to him by the Postmaster General (15 F. R. 4693).

In addition to functions being presently performed by the various Divisions in the Bureau of Facilities, the following were transferred to the Divisions indicated, effective July 1, 1951:

DIVISION OF BUILDINGS MANAGEMENT

1. Light, fuel, power, water, and electric bulbs for leased and rented quarters. (From Division of Post Office Quarters.)

2. Toilet paper, ice, miscellaneous cleaning supplies, flags, electric fans, electric drinking fountains, and light bulbs. (From Division of Equipment and Supplies.)

3. Electric power for pneumatic tubes; heat, light, power, and water; removal of ashes; coal, fuel oil, ice; washing towels; cleaning of leased and rented garages. (From Division of Vehicle Service.)

DIVISION OF POST OFFICE QUARTERS

1. Leases, rental agreements, and rental of pneumatic tubes. (From Division of Vehicle Service.)

DIVISION OF EQUIPMENT AND SUPPLIES

1. Special furniture (safes, distributing cases, office furniture, etc.). (From Division of Buildings Management.)

2. Purchase of vehicle parts and supplies; purchase of garage equipment. (From Division of Vehicle Service.)

DIVISION OF TRAFFIC

1 Moving safes; hauling freight, crating for shipment, freight on equipment; freight on coal; drayage on coal; miscellaneous supplies (shipments). (From Division of Buildings Management.)

DIVISION OF BUDGET AND ADMINISTRATIVE SERVICES

1. Budget, accounting, etc.; travel allotments. (From all Divisions.)

2. Correspondence and accounting for sale of maps. (From Division of Cartography.)

Beginning immediately, correspondence concerning each function mentioned above should be addressed to the Division to which it has been transferred. Correspondence concerning functions not specifically mentioned above should be addressed as heretofore.

J. M. DONALDSON,
Postmaster General.

No 141——7

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION ORDER

JUNE 22, 1951.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427 dated August 16, 1950, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described land in the Los Angeles, California, land district, embracing approximately 525 acres.

CALIFORNIA SMALL TRACT CLASSIFICATION NO. 279

For lease and sale for homesites only:
T. 1 S., R. 7 E., S. B. M.
Sec. 8, W½, SE¼, W½W½W½NE¼, E½ SW¼NW¼NE¼, S½SE¼NE¼.

The land is situated in San Bernardino County, California, about four miles southeast of the town of Joshua Tree. They can be reached over U. S. Highway 70–99 and thence by paved road to Joshua Tree and over an unpaved dirt road that passes into the Joshua Tree National Monument. The nearest town that affords all of the usual community services is Twentynine Palms, California, approximately 15 miles distant.

The area is desert in character and is one that is considered ideal for health and recreational purposes.

2. As to applications regularly filed prior to 9:00 a. m., June 4, 1951, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the Small Tract Act until 10:00 a m., August 24, 1951. At that time such land shall, subject to valid existing rights, become subject to application as follows:

(a) Ninety-day preference period for qualified veterans of World War II from 10:00 a. m., August 24, 1951, to close of business on November 22, 1951.

(b) Advance period for veterans' simultaneous filings from 9:00 a. m., June 4, 1951, to 10:00 a. m., August 24, 1951.

4. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally, commencing at 10:00 a. m., November 23, 1951.

(a) Advance period for simultaneous nonpreference filings from 9:00 a. m., June 4, 1951, to 10:00 a. m., November 23, 1951.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 (a) will be treated as simultaneously filed.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All of the land will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 6.

8. Where only one five-acre tract in a ten-acre subdivision is embraced in a preference right application, an application for the remaining five-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $20.00 per acre, application for which may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease issuance.

10. Tracts will be subject to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the state, county or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

L. T. HOFFMAN,
Regional Administrator.

DEPARTMENT OF COMMERCE

Federal Maritime Board

MEMBER LINES OF THE FAR EAST CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED WITH BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to

section 15 of the Shipping Act, 1916, as amended.

Agreement No. 17-25, between the member lines of the Far East Conference and the carriers comprising the Kokusai Line joint service, provides for the admission of said joint service carriers to membership in the Far East Conference as a single party with one vote pursuant to the provisions of joint service agreement 7816.

Agreement No. 7792-1, between Flota Mercante Grancolombiana, S. A., Grace Line, Inc., United Fruit Company, et al., modifies agreement 7792 which provides that Flota Mercante shall be entitled to carry a minimum of 35 percent of the coffee moving on vessels of the parties in the trade from Barranquilla, Cartagena and Buenaventura, Colombia, to New York, New Orleans and Houston, and sets forth the basis on which Flota Mercante will be compensated by the other companies should its carryings fall below the specified minimum. Agreement 7792 presently provides that provisional liquidation shall be made every three months and the respective compensatory payments shall be made within the following 30 days. Proposed agreement 7792-1 provides for provisional liquidations every six months and the respective compensatory payments will be made in so far as practicable within the following thirty days.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: July 18, 1951.

[SEAL] A. J. WILLIAMS,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214), and Part 522 of the regulations issued thereunder (29 CFR, Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear, Rainwear and Other Odd Outerwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.169 to 522.166, as amended September 25, 1950; 15 F. R. 5701; 6326).

Brunswick Manufacturing Co., Inc., Goodyear Park, Brunswick, Ga., effective 7-5-51 to 1-4-52; 25 learners for expansion purposes only (boys single pants, washable service garments, overalls, overall jackets and coveralls from any material).

General Garment Co., Winchester, Ill., effective 7-9-51 to 7-8-52; for normal labor turnover, 10 percent of the productive factory workers, or ten learners, whichever is greater (ladies' outer wearing apparel).

Grandeur Fashions, Inc., 204 Oliver Street, Swoyerville, Pa., effective 7-5-51 to 7-4-52; for normal labor turnover, five learners or 10 percent of the productive factory workers, whichever is greater (women's blouses and dresses).

Joseph Greenberg, North Poplar Street, Elizabethtown, Pa., effective 7-9-51 to 7-8-52; for normal labor turnover, 10 percent of the productive factory workers or 10 learners, whichever is greater (infants wear).

Leslie-Ann, Inc., Sixth and Colliery Avenue, Tower City, Pa., effective 7-9-51 to 7-8-52; for normal labor turnover, not to exceed 10 percent of the productive factory workers (ladies' dresses).

R. Lowenbaum Manufacturing Co., 24 North Spanish Street, Cape Girardeau, Mo., effective 7-5-51 to 1-4-52; 15 learners for expansion purposes only (junior dresses).

Princess Peggy, Inc., Vandalia Division, Vandalia, Ill., effective 7-6-51 to 1-5-52; 20 learners for expansion purposes only (women's cotton dresses).

Slimaker Dress Corp., Inc., Holton, Kansas, effective 7-9-51 to 1-8-52; 60 learners for expansion purposes (women's half-size dresses).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised January 25, 1950; 15 F. R. 283).

Berkshire Knitting Mills, Andrews, N. C., effective 7-3-51 to 3-2-52; 45 additional learners for expansion purposes (supplemental certificate).

Texas Knitting Mills, Inc., U. S. Route 180, Mineral Wells, Texas, effective 7-9-51 to 3-8-52; 10 learners for expansion purposes (supplemental certificate).

Texas Knitting Mills, Inc., U. S. Route 180, Mineral Wells, Texas, effective 7-9-51 to 7-8-52; 5 learners.

Trumpet Hosiery Co., Inc., Trumbauersville, Pa., effective 7-10-51 to 7-9-52; 5 learners.

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended October 26, 1950, 15 F. R. 6388).

Newton Glove Manufacturing Co., P. O. Drawer 271, Newton, N. C., effective 7-25-51 to 7-24-52; 10 percent of the total number of productive factory workers.

Scotsmoor Co., Inc., North Market Street, Johnstown, N. Y., effective 7-19-51 to 7-18-52; 10 percent of the total number of productive factory workers.

Knitted Wear Industry Learner Regulations (29 CFR 522.69 to 522.79, as amended January 25, 1950; 15 F. R. 398).

Ainsbrooke Co., Inc., Olney, Ill., effective 7-3-51 to 1-2-52; five additional learners for expansion purposes (supplemental certificate).

Ainsbrooke Co., Inc., Olney, Ill., effective 7-3-51 to 7-2-52; five learners.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Soboroff Sons Co., 1500 North Ogden Avenue, Chicago 10, Ill., effective 7-8-51 to 7-7-52; 10 percent of the total number of productive factory workers; machine operators (except cutting), pressers, handsewers; 240 hours each; 65 cents per hour (men's and boys' cloth hats and caps).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiring dates, the number of learners, and learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Senorita Hosiery Mills, Inc., Gurabe, P. R., effective 7-1-51 to 6-30-52; 19 learners, 6 knitters, 2 loopers, 5 seamers, first 320 hours at 25 cents per hour, second 320 hours at 30 cents per hour, third 320 hours at 35 cents per hour; 4 examiners, first 80 hours at 25 cents per hour, second 80 hours at 30 cents per hour, third 80 hours at 35 cents per hour; 2 toppers, first 160 hours at 25 cents per hour, second 160 hours at 30 cents per hour, third 160 hours at 35 cents per hour (full fashioned hosiery).

Cayey Manufacturing Co., Inc., Cayey, P. R., effective 7-4-51 to 10-3-51; 55 learners; machine stitching, 240 hours at 28 cents per hour, 240 hours at 40 cents per hour (machine sewn fabric gloves).

Puerto Rican Brassiere Co., Santurce, P. R., effective 7-3-51 to 1-2-52; 100 learners; sewing machine operators, 200 hours at 25 cents per hour (brassieres).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 11th day of July 1951.

MILTON BROOKE,
Authorized Representative of the Administrator.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 162]

THE MATHES COMPANY, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, The Mathes Company, Inc., 1501-29 East Broadway, Fort Worth, Texas, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of coolers manufactured by The Mathes Company, Inc., 1501-29 E. Broadway, Fort Worth, Texas, having the brand name(s) "Mathes Cooler" shall be the proposed retail ceiling prices listed by The Mathes Company, Inc., 1501-29 East Broadway, Fort Worth, Texas, in its application dated May 8, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, The Mathes Company, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the pretticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per _____ {unit, dozen, etc.}	Terms {net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 13, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 163]

PRINCE GARDNER CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Prince Gardner Co., 2025 South Vandeventer, St. Louis 10, Missouri, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director

indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special Provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of men's and women's billfolds, secretaries, key containers, cigarette cases and women's French purses manufactured by Prince Gardner Co., 2025 South Vandeventer, St. Louis 10, Missouri, having the brand name(s) "Prince Gardner" and "Princess Gardner" shall be the proposed retail ceiling prices listed by Prince Gardner Co., in its application dated March 23, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Prince Gardner Co., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 164]

J. W. LANDENBERGER & CO.

CEILING PRICE AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, J. W. Landenberger & Company, Castor and Kensington Avenues, Philadelphia 24, Pennsylvania, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of foot socks manufactured by J. W. Landenberger & Company, Castor and Kensington Avenues, Philadelphia 24, Pennsylvania, having the brand name(s) "Footlets" shall be the proposed retail ceiling prices listed by J. W. Landenberger & Company, in its application dated May 15, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, J. W. Landenberger & Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 165]

BISSELL CARPET SWEEPER CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Bissell Carpet Sweeper Co., 210 Erie St. NW., Grand Rapids 2, Mich., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendment of this special order.

The special order also requires applicant to file with the Distribution Price Branch regulator reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of carpet sweepers manufactured by Bissell Carpet Sweeper Co., 210 Erie St., N.W., Grand Rapids 2, Mich. having the brand name(s) "Bissell" and "Bissell's" shall be the proposed retail ceiling prices listed by Bissell Carpet Sweeper Co., in its application dated April 13, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than Sep-

tember 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Bissell Carpet Sweeper Co., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____{unit, dozen, etc.}	Terms{net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order established the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8452; Filed, July 18, 1951; 4:34 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 166]

TAILORED JUNIOR DRESS CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Tailored Junior Dress Company, Inc., 1400 Broadway, New York 18, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of junior dresses manufactured by Tailored Junior Dress Company, Inc., 1400 Broadway, New York 18, New York, having the brand name(s) "Tailored Junior" shall be the proposed retail ceiling prices listed by Tailored Junior Dress Company, Inc., in its application dated May 7, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation having the same selling price and terms of sale to the retailer, same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Tailored Junior Dress Company, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____{unit, dozen, etc.}	Terms{net, percent EOM, etc.} $_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8453; Filed, July 18, 1951; 4:34 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 167]

MARIONESS & CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Marioness & Co. Inc., 35 West Thirty-fifth Street, New York 1, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special Provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of the following leather handbag accessories for women: purse kits, cigarette cases, compacts, eyeglass cases, check book covers, key cases, pocket purses, comb and nail file cases and rosary cases manufactured by Marioness & Co., Inc., 35 West Thirty-fifth Street, New York 1, New York, having the brand name(s) "Marioness" shall be the proposed retail ceiling prices listed by Marioness & Co., Inc., in its application dated April 13, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Marioness & Co., Inc. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After

60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc. Terms {net, percent EOM, etc.	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 168]

KING BEDDING CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, King Bedding Co., 2119 West Toronto Street, Philadelphia, Pennsylvania, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to Section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of mattresses and box springs manufactured by King Bedding Co., 2119 West Toronto Street, Philadelphia 32, Pennsylvania, having the brand name(s) "Restonic Custom Triple Cushion", "Restonic Super Triple Cushion" shall be the proposed retail ceiling prices listed by King Bedding Co. in its application dated April 9, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, King Bedding Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc. Terms {net, percent EOM, etc.	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 169]

FULPER POTTERY CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Fulper Pottery Co., New York Avenue, Trenton, New Jersey, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested by Fulper Pottery Co. in its application dated April 16, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Fulper Pottery Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attached to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc. Terms {net, percent EOM, etc.	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the

manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 170]

A. H. ROGERS & CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, A. H. Rogers & Co., 500 Fifth Avenue, New York 18, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued:

1. The ceiling prices for sales at retail of lingerie and robes manufactured by A. H. Rogers & Co., 500 Fifth Avenue, New York 18, New York, having the brand name(s) "Rogers" shall be the proposed retail ceiling prices listed by A. H. Rogers & Co. in its application dated April 24, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, A. H. Rogers & Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 171]

AMERICAN MANUFACTURING CORP., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, American Manufacturing Corporation, Inc., 1052 Constance Street, New Orleans 12, Louisiana, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports settings forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of ladies' and children's lingerie manufactured by American Manufacturing Corporation, Inc., 1052 Constance Street, New Orleans 12, Louisiana, having the brand name(s) "Sans Souci" and "Skinfit" shall be the proposed retail ceiling prices listed by American Manufacturing Corporation, Inc., in its application dated April 18, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, American Manufacturing Corporation, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and withing 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 172]

SALT LAKE MATTRESS & MANUFACTURING CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Salt Lake Mattress & Manufacturing Co., P. O. Box 783, Salt Lake City 10, Utah, has applied to the Office of Price Stabilization for maximum resale prices

for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of mattresses and box springs manufactured by Salt Lake Mattress & Manufacturing Co., P. O. Box 783, Salt Lake City 10, Utah, having the brand name(s) "Serta" shall be the proposed retail ceiling prices listed by Salt Lake Mattress & Manufacturing Co. in its application dated March 17, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Salt Lake Mattress & Manufacturing Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 80 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8459; Filed, July 18, 1951; 4:36 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 173]

OSHKOSH TRUNKS & LUGGAGE

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Oshkosh Trunks & Luggage, Oshkosh, Wisconsin has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of trunks and luggage manufactured by Oshkosh Trunks & Luggage, Oshkosh, Wisconsin, having the brand name(s) "Oshkosh" shall be the proposed retail ceiling prices listed by Oshkosh Trunks & Luggage in its application dated May 16, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Oshkosh Trunks & Luggage must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$_____ per_____ {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 174]

KNOMARK MANUFACTURING CO., INC.

CEILING PRICE AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Knomark Manufacturing Co., Inc., 330 Wythe Avenue, Brooklyn 11, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of shoe dressings and shoe polishes manufactured by Knomark Manufacturing Co., Inc., 330 Wythe Avenue, Brooklyn 11, New York, having the brand name(s) "Esquire" and "Lady Esquire" shall be the proposed retail ceiling prices listed by Knomark Manufacturing Co., Inc., 330 Wythe Avenue, Brooklyn, New York, in its application dated May 24, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the

Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Knomark Manufacturing Co., Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 175]

EPSTEIN GARMENT CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Epstein Garment Company, Inc., 1375 Broadway, New York, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submtted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also required applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of teen-age and junior dresses manufactured by Epstein Garment Company, Inc., 1375 Broadway, New York, New York, having the brand name(s) "Teena Paige" shall be the proposed retail ceiling prices listed by Epstein Garment Company, Inc., in its application dated April 4, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. (and supplemented and amended in the manufacturer's application dated May 11, 1951). A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Epstein Garment Company, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
$..... per..... {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$.....

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 176]

FLINTRIDGE CHINA CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Flintridge China Company, 350-380 South Raymond Avenue, Pasadena 1, California, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of dinnerware manufactured by Flintridge China Company, 350-380 South Raymond Avenue, Pasadena 1, California, having the brand name(s) "Flintridge China" shall be the proposed retail ceiling prices listed by Flintridge China Company in its application dated April 15, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Flintridge China Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this spe-

cial order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1

$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}
$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8463; Filed, July 18, 1951; 4:36 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 177]

STEINWAY & SONS

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Steinway & Sons, 109 West Fifty-seventh Street, New York 19, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of pianos manufactured by Steinway & Sons, 109 West Fifty-seventh Street, New York 19, New York, having the brand name(s) "Steinway" shall be the proposed retail ceiling prices listed by Steinway & Sons in its application dated April 24, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Steinway & Sons must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto, (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailers' ceilings for articles of cost listed in column 1

$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}
$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 178]

MABS, INC.

CEILING PRICES AT RETAIL

Statement of Considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Mabs, Inc., Mabs Building, Los Angeles 15, California, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's lastex swimsuits, panty girdles, and girdles; children's latex swimsuits and underpanties manufactured by Mabs, Inc., Mabs Building, Los Angeles 15, California, having the brand name(s) "Mabs of Hollywood" shall be the proposed retail ceiling prices listed by Mabs, Inc., in its application dated March 16, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Mabs, Inc. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $_____

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailers' ceilings for articles of cost listed in column 1

$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}
$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months

immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[Ceiling Price Regulation 7, Section 43, Special Order 179]

BLOCH HELLER CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Bloch Heller Company, 27 North Fourth Street, Minneapolis 1, Minnesota, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of men's sportswear manufactured by Bloch Heller Company, 27 North Fourth Street, Minneapolis, Minnesota, having the brand name(s) "Game and Lake" shall be the proposed retail ceiling prices listed by Bloch Heller Company in its application dated April 19, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Bloch Heller Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8466; Filed, July 18, 1951; 4:37 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 180]

SIL-O-ETTE UNDERWEAR CO.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Sil-O-Ette Underwear Co., 144-08 Ninety-first Avenue, Jamaica 2, New York, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of underwear, and panty girdles manufactured by Sil-O-Ette Underwear Co., 144-08 Ninety-first Avenue, Jamaica 2, New York, having the brand name(s) "Sil-O-Ette" shall be the proposed retail ceiling prices listed by Sil-O-Ette Underwear Co. in its application dated May 9, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Sil-O-Ette Underwear Co. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$_____ per_____{unit, dozen, etc.} Terms{net, percent EOM, etc.}	$_____

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8467; Filed, July 18, 1951; 4:37 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 181]

PROPPER-MCCALLUM HOSIERY CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order Propper-McCallum Hosiery Co., Inc. 200 Madison Avenue, New York, N. Y., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required un-

der this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of women's hosiery manufactured by Propper-McCallum Hosiery Co., Inc., 200 Madison Avenue, New York, New York, having the brand name(s) "McCallum" and "Proper" shall be the proposed retail ceiling prices listed by Propper-McCallum Hosiery Co., Inc. in its application dated May 8, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Propper-McCallum Hosiery Company, Inc., must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$----- per----- {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$-------

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8468; Filed, July 18, 1951; 4:37 p. m.]

[Ceiling Price Regulation 7, Section 43, Special Order 182]

KABO, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Kabo, Inc., 729 Milwaukee Avenue, Chicago 22, Illinois, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of brassieres, bandeaux, garter belts, girdles, corsets, foundations and abdominal belts manufactured by Kabo, Inc., 729 Milwaukee Avenue, Chicago 22, Illinois, having the brand name(s) "Kabo" shall be the proposed retail ceiling prices listed by Kabo, Inc., in its application dated March 16, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than September 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after August 17, 1951, Kabo, Inc. must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after September 17, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to September 17, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon isssuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date of this special order, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The manufacturer shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$----- per----- {unit, dozen, etc.} Terms {net, percent EOM, etc.}	$-------

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the manufacturer with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective July 18, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 18, 1951.

[F. R. Doc. 51-8469; Filed, July 18, 1951; 4:38 p. m.]

[Delegation of Authority 6, Amendment 1 to Supplement 1]

DIRECTORS OF THE DIVISIONS OF THE OFFICE OF PRICE STABILIZATION

REDELEGATION OF AUTHORITY TO ESTABLISH CEILING PRICES AFTER DISAPPROVAL OF PROPOSED PRICES OR PENDING THE OBTAINING OF FURTHER INFORMATION

By virtue of the authority vested in me as Assistant Director for Price Operations, Office of Price Stabilization, by Office of Price Stabilization Delegation of Authority No. 6, Amendment 1, this amendment to Delegation of Authority 6, Supplement 1 (16 F. R. 3672) is hereby issued.

Amendatory provisions. Delegation of Authority 6, Supplement 1 (16 F. R. 3672) is amended in the following respects:

1. Item 3 is redesignated as item 4.

2. A new item 3 is added to read as follows:

3. Authority is hereby delegated to the Directors of the Divisions of the Office of Price Operations, Office of Price Stabilization, to establish a ceiling price in accordance with any ceiling price regulation which provides for the establishment of a ceiling price by the Director of Price Stabilization either where the ceiling price proposed by the seller under the regulation has been disapproved in whole or in part, or where more information is required.

This amendment shall take effect on July 20, 1951.

EDWARD F. PHELPS,
Assistant Director for Price Operations.

JULY 19, 1951.

[F. R. Doc. 51-8490; Filed, July 19, 1951; 12:34 p. m.]

[Delegation of Authority 13, Supplement 1]

TERRITORIAL DIRECTORS

REDELEGATION OF AUTHORITY TO ACT ON APPLICATIONS PERTAINING TO CERTAIN FOOD AND RESTAURANT COMMODITIES

By virtue of the authority vested in me as Director of Region 14 of the Office of Price Stabilization by Office of Price Stabilization Delegation of Authority No. 13 (16 F. R. 6806), this delegation of authority is hereby issued.

1. *Authority to act under section 13 of CPR-11, as amended.* Authority is hereby delegated to the Directors of the Territorial Offices of the Office of Price Stabilization to act on all applications for price action and adjustment under

the provisions of section 13 of CPR-11, as amended.

This delegation of authority shall take effect on July 20, 1951.

J. HERBERT MEIGHAN,
Director, Region 14.

CIVIL AERONAUTICS BOARD

[Docket No. 2564]

CHICAGO AND SOUTHERN AIR LINES, INC.

NOTICE OF HEARING

In the matter of the compensation for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, of Chicago and Southern Air Lines, Inc., for its Latin American operations.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 406 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on July 31, 1951, at 10:00 a. m., e. d. s. t., in Room E-210, Temporary Building No. 5, Constitution Avenue between Sixteenth and Seventeenth Streets NW., Washington, D. C., before Examiner Richard A. Walsh.

Dated at Washington, D. C., July 17, 1951.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 51-8432; Filed, July 20, 1951; 8:51 a. m.]

[Docket No. 4341]

NORTHWEST AIRLINES, INC.; CARGO CASE

NOTICE OF HEARING

In the matter of the application of Northwest Airlines, Inc., under sections 401 and 416 of the Civil Aeronautics Act of 1938, as amended, for an exemption and for amendment of its certificate of public convenience and necessity for route No. 3.

Notice is hereby given that the above-entitled proceeding is assigned for hearing before Examiner Walter W. Bryan, on August 6, 1951, at 10:00 a. m., e. d. s. t., in Conference Room "C", Departmental Auditorium, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C.

Without limiting the scope of the issues involved in this proceeding, particular attention will be directed to the question as to whether or not the public convenience and necessity require the amendment as proposed by applicant in its certificate for route No. 3 for all-cargo flights between the points indicated in applicant's application as amended.

Notice is further given that any person other than persons of record desiring to be heard in this proceeding must file with the Board on or before August 6, 1951, a statement setting forth the issues of fact or law to be controverted.

For further details of the matters involved in this proceeding interested persons are referred to the documents on file with the Board in the official docket of the proceeding.

Dated at Washington, D. C., July 17, 1951.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 9878, 9998]

PULASKI BROADCASTING CO. (WKSR), AND RICHLAND RADIO

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of John R. Crowder and James Porter Clark, d/b as Pulaski Broadcasting Company (WKSR), Pulaski, Tennessee, Docket No. 9878, File No. BP-7922; and Richland Radio, an unincorporated association, Pulaski, Tennessee, Docket No. 9998, File No. BP-7966; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 5th day of July 1951;

The Commission having under consideration the above-entitled applications of John R. Crowder and James Porter Clark, d/b as Pulaski Broadcasting Company to change facilities of Station WKSR from 730 kc, 250 w, daytime only, to 1420 kc, 1 kw, unlimited time, using a directional antenna at night and Richland Radio requesting a construction permit to build a new standard broadcast station to operate on 1,420 kc, with 1 kw power, unlimited time, using a directional antenna at night;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on August 14, 1951, at Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial and other qualifications of Richland Radio and the technical, financial and other qualification of the applicant partnership and its partners to operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operations of the proposed stations would involve objectionable interference with any existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operations of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installations and operations of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary

[F. R. Doc. 51-8446; Filed, July 20, 1951; 8:54 a. m.]

[Docket Nos. 9599, 10000]

WATERTOWN RADIO, INC. AND WILLIAM C. FORREST

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Watertown Radio, Incorporated, Baraboo, Wisconsin, Docket No. 9999, File No. BP-7990; William C. Forrest, Reedsburg, Wisconsin, Docket No. 10000, File No. BP-8121; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 5th day of July, 1951;

The Commission having under consideration the above-entitled applications requesting simultaneous co-channel operation in cities with a physical separation of approximately 14 miles, the Watertown Radio, Incorporated application requesting a construction permit for a new standard broadcast station on the frequency 1400 kilocycles, 250 watts power, unlimited time at Baraboo, Wisconsin and the William C. Forrest application requesting a construction permit for a new standard broadcast station on the frequency of 1400 kilocycles, 250 watts power, unlimited time at Reedsburg, Wisconsin:

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on August 16, 1951, at Washington, D. C. upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicant, its officers, directors and stockholders and of the individual applicant to operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with Stations WSAU, Wausau, Wisconsin, WDUZ, Green Bay, Wisconsin, WRJN, Racine, Wisconsin or any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the overlap, if any, that will exist between the service areas of the William C. Forrest proposed station and Station WIBU, Poynette, Wisconsin, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Journal Company, licensee of Station WSAU, Wausau, Wisconsin is made a party to this proceeding regarding the subject applications.

It is further ordered, That the Green Bay Broadcasting Company, licensee of Station WDUZ, Green Bay, Wisconsin and the Racine Broadcasting Corporation, licensee of Station WRJN, Racine, Wisconsin are made parties to this proceeding only with regard to Watertown Radio, Incorporated proposal.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-1345, G-1523, G-1629]

EL PASO NATURAL GAS CO. AND NEVADA NATURAL GAS PIPE LINE CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of El Paso Natural Gas Company, Docket Nos. G-1345 and G-1629; and Nevada Natural Gas Pipe Line Co., Docket No. G-1523.

On March 22, 1950, El Paso Natural Gas Company (El Paso) filed in Docket No. G-1345 an application which was amended on September 14, 1950, for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act authorizing the construction and operation of certain facilities, the sale and transfer, and the acquisition and operation of certain other facilities relating to the transportation and sale of natural gas in the Phoenix, Arizona area. Due notice of the filing of the application and of the amendment thereto, has been given, including publication in the FEDERAL REGISTER on April 4, 1950 and October 24, 1950, respectively (15 F. R. 1902 and 7130). A temporary certificate was issued on October 27, 1950 to El Paso in the said Docket No. G-1345 to permit increased deliveries of natural gas to the Phoenix area subject to the conditions that the proposed additional deliveries should not be made when such gas was required by other resale customers of El Paso and that such issuance of the temporary certificate was without prejudice to final action by the Commission on said application as amended.

On March 6, 1951, El Paso filed in Docket No. G-1629 an application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act authorizing the construction and operation of certain facilities for the tarnsportation and sale of 100,000,000 cubic feet of natural gas per day, in the States of Texas, New Mexico and Arizona. Due notice of the filing of the application has been given, including publication in the FEDERAL REGISTER on March 24, 1951 (16 F. R. 2666).

On November 1, 1950, Nevada Natural Gas Pipe Line Co. (Nevada) filed in Docket No. G-1523 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain facilities for the transportation of natural gas from the pipeline facilities of El Paso at Topock, Arizona, to the Cities of Needles, California, and Boulder City and Las Vegas, Nevada, and the sale of such gas to distributing companies in said cities. Due notice of the filing of the application has been given, including publication in the FEDERAL REGISTER on November 14, 1950 (15 F. R. 7731). On April 13, 1951, Nevada and Las Vegas Gas Company, a distributing company, filed a joint petition to intervene in the above Docket No. G-1629 for the purpose of requiring the delivery and sale of natural gas by El Paso to Nevada at Topock, Arizona, and on May 22, 1951, by order the joint petitioners were permitted to become interveners in said Docket No. G-1629. Thereafter on June 18, 1951, Nevada filed a petition to consolidate the proceedings in Docket Nos. G-1523 and G-1629 for hearing and final determination and limited its application to the transportation of natural gas to the areas of Las Vegas and Boulder City, Nevada. On June 27, 1951, El Paso filed an answer in opposition to the petition of Nevada to consolidate and stated that the request to consolidate should be made in Docket No. G-1630, being another application filed by El Paso.

The Commission finds: Good cause exists to consolidate the proceedings on the above applications for the purposes of hearing and disposition.

The Commission orders:

(A) The aforesaid proceedings in Docket Nos. G-1345, G-1523 and G-1629 be and the same hereby are consolidated for purposes of hearing and disposition.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, a hearing be held on August 13, 1951, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented in Docket Nos. G-1345, G-1523 and G-1629.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: July 17, 1951.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51-8421; Filed, July 20, 1951; 8:47 a. m.]

[Docket No. G-1664]

SOUTHWEST GAS CORPORATION, LTD.

NOTICE OF FINDINGS AND ORDER

JULY 18, 1951.

Notice is hereby given that, on July 17, 1951, the Federal Power Commission issued its findings and order entered July 17, 1951, issuing a certificate of service in the above-entitled matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51-8439; Filed, July 20, 1951; 8:51 a. m.]

[Docket Nos. G-1473, G-1649, G-1693, G-1727, G-1737]

TEXAS EASTERN TRANSMISSION CORP. ET AL.

ORDER FIXING DATE OF HEARING AND CONSOLIDATING PROCEEDINGS

In the matters of Texas Eastern Transmission Corporation, Docket No. G-1693; Alabama-Tennessee Natural Gas Company, Docket No. G-1473; Tennessee Gas Company, Docket No. G-1649; Shippensburg Gas Company, Docket No. G-1727; Consumers Gas Company, Docket No. G-1737.

On July 9, 1951, Consumers Gas Company, an Illinois corporation with offices at 701 Old National Bank Building, Evansville, Indiana, filed an application pursuant to section 7 (c) of the Natural Gas Act authorizing the construction and operation of a meter and regulator station at a point near Carmi, Illinois, and applied for an order pursuant to section 7 (a) of the Natural Gas Act requiring Texas Eastern Transmission Corporation to deliver up to 3,200 Mcf

of natural gas per day commencing in 1951. By its application in Docket No. G-1693 Texas Eastern proposes to make such sales to Consumers commencing in 1952.

On June 27, 1951, the Commission issued an order consolidating Docket Nos. G-1693, G-1473, and G-1649 for purpose of hearing and fixed July 24, 1951, as the date when such hearing should commence. On July 3, 1951, an order was issued consolidating Docket No. G-1727 with the foregoing dockets for purpose of hearing. Orderly procedure requires that Docket No. G-1737 be consolidated therewith for purpose of hearing and that the hearing commence at the time heretofore fixed for the hearing on the other consolidated dockets.

The Commission finds:

(1) Orderly procedure requires that the proceedings in Docket Nos. G-1693, G-1473, G-1649, G-1727 and G-1737 be consolidated for purpose of hearing and be heard at the time previously set for the hearing of the first four of the foregoing dockets.

(2) Good cause exists and it is reasonable to set the application in Docket No. G-1737 for hearing without the normal 15 days' notice.

The Commission orders:

(A) The proceedings in Docket Nos. G-1693, G-1473, G-1649, G-1727 and G-1737 be and they are hereby consolidated for purpose of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held commencing on July 24, 1951, at 10:00 a. m. e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such applications.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: July 17, 1951.

By the Commission.

[Docket No. G-1734]

SOUTHERN UNION GAS CO.

NOTICE OF APPLICATION

JULY 17, 1951.

Take notice that Southern Union Gas Company, a Delaware Corporation having its principal place of business at Dallas, Texas, filed on July 3, 1951, an application for a certificate of public convenience and necessity authorizing installation and operation of a 300 hp. semiportable compressor, including foundation, controls, and other related facilities, to be located in the Ute Dome Gas field, San Juan County, New Mexico, near the Southern terminus of applicant's 6-inch natural gas transmission pipe line extending to Durango, Colorado.

The proposed facilities will be used for the compression of natural gas from the Ute Dome wells for delivery to applicant's distribution system in Durango and environs through applicant's 6-inch main line. Installation of the proposed compressor and appurtenant facilities will permit applicant to withdraw additional gas during peak periods, to maintain sufficiently high line pressures, and to increase the volume of gas ultimately recoverable from the Ute Dome Gas field. The compressor will have an initial capacity of approximately 5,500 Mcf per day, with a 150 p. s. i. g. suction pressure. No new communities will be served.

The cost of the proposed facilities is estimated at $51,000.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of August 1951. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-2355]

ALLIED PRODUCTS CORP.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 17th day of July A. D. 1951.

Allied Products Corporation, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw from registration and listing on Midwest Stock Exchange its Common Stock, $5.00 Par Value. The application for withdrawal alleges the following:

(1) During the period from January 1, 1946 to July 1, 1951, transactions were effected on Midwest Stock Exchange in 1,050 shares of the above security.

(2) The most recent transaction in the above security that has occurred on Midwest Stock Exchange took place on February 10, 1947, at which time 50 shares of the above security were sold on Midwest Stock Exchange.

(3) Activity on Midwest Stock Exchange in the above security has decreased to such a point that continuation of registration and listing of this security on this exchange is no longer necessary.

(4) The above security is and will continue to be, registered and listed on the New York Curb Exchange.

Upon receipt of a request, prior to August 13, 1951, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DERBY GAS & ELECTRIC CORP.

ORDER AUTHORIZING ISSUANCE AND SALE OF DEBENTURES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 16th day of July A. D. 1951.

Derby Gas & Electric Corporation ("Derby"), a registered holding company, and its subsidiary public utility companies having filed a joint application and declaration and amendments thereto pursuant to sections 6 (a), 7, 9, 10 and 12 (b) and (d) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-44, U-45, and U-50 promulgated thereunder, with respect to the following transactions:

Derby, a Delaware corporation, has three operating subsidiaries, The Derby Gas and Electric Company, a Connecticut corporation ("Derby Subsidiary"), The Wallingford Gas Light Company, a Connecticut corporation, ("Wallingford"), and The Danbury and Bethel Gas and Electric Light Company, a Connecticut corporation ("Danbury"). Derby proposes to issue and sell $900,000 aggregate principal amount of debentures and such number of shares of its common stock as may be necessary to raise the amount of approximately $275,000, the number of shares sold, however, in no event to equal such number as will cause the aggregate offering price to the public to exceed $300,000.

The debentures will be issued under an indenture supplemental to the Derby indenture to Manufacturers Trust Company, Trustee, dated as of July 1, 1947, and will be sold to The Equitable Life Assurance Society of the United States at the principal amount thereof plus accrued interest from July 1, 1951, to date of payment. The new debentures will bear interest at the rate of 3½ percent per annum and will mature July 1, 1957. The supplemental indenture will provide for sinking fund payments of $9,000 per annum. The supplemental indenture also provides for the payment of the entire $900,000 proceeds into a special fund from which Derby may draw, upon the basis of property additions since January 1, 1951.

It is proposed that approximately 12,500 shares of common stock of Derby which are the subject of the joint application and declaration herein will be offered for sale to the public through an underwriter or underwriters pursuant to a negotiated transaction. The identity of the underwriter or underwriters as well as the number of shares to be sold, the price at which the shares are to be sold and the underwriting spread will be supplied by amendment.

All of the proceeds of the proposed sale of debentures and common stock of Derby will be applied toward the 1951 construction program of the Derby system, including the repayment of money which has already been borrowed from Manufacturers Trust Company and utilized for this purpose. Total construction expenditures are estimated to be $1,742,450, of which amount $282,100 is to be expended in connection with the conversion of consumers' appliances to the use of natural gas.

The funds for the 1951 construction program, other than the aforesaid $282,100 to be spent for conversion of consumers' appliances to the use of natural gas, will be donated by Derby to its subsidiaries as capital contributions. The $282,100 to be spent for conversion of consumers' appliances as aforesaid will be loaned by Derby to its subsidiary companies, as disclosed by amendment filed herein, in the form of non-interest bearing demand notes, certain of which aggregating $122,100 principal amount will be pledged under Derby's debenture indenture. It is anticipated that the indebtedness will be liquidated by monthly payments made to Derby in amounts equal to the amounts at which the cost of the conversion of consumers' appliances is amortized over a period of years, as approved by the Public Utilities Commission of Connecticut.

The said joint application and declaration having been filed on June 8, 1951, and the last amendment thereto having been filed on July 2, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint application and declaration within the period of time specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application and declaration, as amended, relating to the issuance and sale of the debentures, the capital contributions to Derby's subsidiaries and the issuance of notes by such subsidiaries, that the requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application and declaration, as amended, be granted and permitted to become effective without the imposition of terms and conditions, other than those specified below:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application and declaration, as amended, relating to the issuance and sale of the debentures, the capital contributions to Derby's subsidiaries and the issuance of notes by such subsidiaries, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule 24 and to the following additional terms and conditions:

(1) That jurisdiction be and hereby is reserved in all respects concerning Derby's proposed issuance and sale of common stock;

(2) That Derby's subsidiaries shall have obtained proper authorization for the proposed issuance of demand notes from the Public Utilities Commission of the State of Connecticut and shall have filed a copy of the order or orders in this proceeding;

(3) That jurisdiction be reserved with respect to the payment of fees and expenses in connection with the proposed transactions.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2661]

MYSTIC POWER CO.

NOTICE OF PROPOSED BANK BORROWINGS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 16th day of July, A. D. 1951.

Notice is hereby given that The Mystic Power Company ("the Company"), a subsidiary of New England Electric System ("NEES"), a registered holding company, has filed a declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and has designated sections 6 (a) and 7 of the Act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 26, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 26, 1951, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

The Company proposes to borrow not to exceed in the aggregate $275,000 from time to time prior to September 30, 1951, and to issue unsecured promissory notes in evidence thereof. The proposed borrowings will be made in the indicated amounts from the following banks:

Industrial Trust Co., Westerly, Branch, Westerly, R. I.	$150,000
Washington Trust Co., Westerly, R. I.	100,000
The Phenix National Bank of Providence, Providence, R. I.	25,000

The proposed notes will mature not later than six months after the respective dates thereof and will bear interest at the then prime rate of interest, which is presently 2½ percent. If the prime interest rate should exceed 2¾ percent at the time of said borrowings, the Company will file an amendment to its declaration setting forth the name of the bank or banks, and the terms of the note or notes, including the interest rate, at least five days prior to the execution and delivery thereof, and asks that such amendment become effective without further order of the Commission at the end of the five day period unless the Commission shall have notified the Company to the contrary within said period.

The Company presently has outstanding $50,000 principal amount of unsecured short-term notes, and upon issuance of the proposed notes, aggregating $275,000 principal amount, its total indebtedness for borrowings will be $325,000. The proceeds to be derived from the proposed borrowings are to be used to pay for construction work and to reimburse the treasury because of prior construction requirements.

The declaration states that the Company expects that the proposed note indebtedness will be financed permanently through the issuance of common stock to NEES in the latter part of 1951 and has been advised that NEES expects to have the necessary funds to invest in such common stock from the proceeds of the sale of its system gas properties located in Massachusetts.

The declaration further states that there are no fees, commissions or other remuneration involved in connection with the proposed transactions except that incidental services will be performed by New England Power Service Company, an affiliated service company, at the actual cost thereof. Such cost is estimated not to exceed $500.

It is represented that no regulatory authority, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order herein become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2667]

GENERAL PUBLIC UTILITIES CORP. AND NEW JERSEY POWER & LIGHT CO.

NOTICE OF PROPOSED ISSUANCE, SALE AND ACQUISITION OF COMMON STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 17th day of July A. D. 1951.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("the act") by General Public Utilities Corporation ("GPU"), a registered holding company, and its wholly owned subsidiary, New Jersey Power & Light Company ("NJP&L"), an electric utility company. Applicants have designated sections 6 (b) and 10 of the act and Rule U-23 promulgated thereunder as applicable to the proposed transaction.

All interested parties are referred to said declaration on file in the offices of this Commission for a statement of the transaction thereln proposed, which is summarized as follows:

NJP&L proposes to issue and sell to GPU, from time to time commencing on or about July 25, 1951, and concluding on or before June 1, 1952, and GPU proposes to purchase from NJP&L, an aggregate of 16,000 additional shares of the Common Stock (without nominal or par value) of NJP&L for a purchase price of $93.75 per share, or an aggregate of $1,500,000. The proceeds from the sale of the additional shares will be used by NJP&L to partially reimburse its treasury for the cost of additions to and improvements in its electric utility plant made between December 1, 1949, and May 31, 1951.

The applicants state that the issuance and sale of such additional shares are solely for the purpose of financing the business of NJP&L, being designed to supply the common stock component of its capital requirements in connection with its construction program; and that NJP&L expects subsequently to file with the Commission an application with respect to the issuance and sale of senior securities in the aggregate principal amount or par value of approximately $2,500,000.

A petition has been filed by NJP&L requesting approval of the issuance and sale of said stock by the Board of Public Utility Commissioners of the State of New Jersey, the regulatory commission of the State in which NJP&L is organized and doing business.

NJP&L estimates that its expenses in the transaction will be $4,500, including $1,500 for counsel fees. No special legal expenses of GPU are involved.

Notice is further given that any interested person may, not later than July 27, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request, and the issues, if any, of law or fact proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application-declaration, as filed or as amended, may be granted and allowed to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 and U-100 thereof.

By the Commission.

LEO STACHEL

In re: Debt owing to Leo Stachel. F-66-33.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Leo Stachel, whose last known address is Homburg, 79 Kaiserstrasse, Germany, is a resident of Germany and a national of a designated country (Germany);

2. That the property described as follows: That certain debt or other obligation of The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in the amount of $20,873.25, arising out of a portion of an account maintained with the aforesaid Chase National Bank in the name of "Nic Bickel, deceased", together with any and all accruals thereto, and any and all rights to demand, enforce and collect the aforesaid debt or other obligation,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Leo Stachel, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

[Vesting Order 18198]

BERTHE A. NEUMANN

In re: Securities owned by and debt owing to Berthe A. Neumann. F-28-31522.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Berthe A. Neumann, whose last known address is c/o Kollman, 76 Eisenacherstrasse, Berlin-Schoneberg, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Fifty (50) shares of no par value common stock of Keystone Steel & Wire Company, Peoria, Illinois, evidenced by a certificate or certificates presently in the custody of Winthrop Mitchell & Company (in liquidation), 61 Broadway, New York 6, New York, for the account of Miss Berthe A. Neumann, together with all declared and unpaid dividends thereon,

b. One hundred (100) shares of (OLD) no par value common stock of Philadelphia & Reading Coal & Iron Corporation, Philadelphia, Pennsylvania, evidenced by a certificate or certificates presently in the custody of Winthrop Mitchell & Co. (in liquidation), 61 Broadway, Room 3014, New York 6, New York, in the account of Miss Berthe A. Neumann, together with all declared and unpaid dividends thereon,

c. Twenty-five (25) shares of stock of Tri-Continental Corporation, 65 Broadway, New York, New York, evidenced by a certificate or certificates presently in the custody of Winthrop Mitchell (in liquidation), 61 Broadway, Room 3014, New York 6, New York, in the account of Miss Berthe A. Neumann, together with all declared and unpaid dividends thereon, and

d. That certain debt or other obligation of Winthrop Mitchell & Company (in liquidation), 61 Broadway, Room 3014, New York 6, New York, arising out of funds held for the account of Miss Berthe A. Neumann, together with any and all accruals of the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

[Vesting Order 18195]

JOSEPHINE KRAFT LEITZ ET AL.

In re: Securities owned by Josephine Kraft Leitz and others.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the individuals whose names are set forth as owners in Exhibits A and B attached hereto and by reference made a part hereof, each of whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the enterprises whose names are set forth in Exhibits A and B hereof and by reference made a part hereof are corporations, partnerships, associations or other business organizations organized under the laws of Germany, and which have or, since the effective date of Executive Order 8389, as amended, have had their principal places of business in Germany, and are nationals of a designated enemy country (Germany);

3. That the personal representatives, heirs, next of kin, legatees and distributees of Wilhelm Berg, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

4. That Josephine Kraft Leitz, whose last known address is Oberammergau, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

5. That Wilhelm and Frieda Schuetting, whose last known address is Scharzenfeld Bayer, Germany, are residents of Germany, and nationals of a designated enemy country (Germany);

6. That Volksbank Staufen e. G. m. b. H., whose last known address is Staufen, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Staufen, Germany, and is a national of a designated enemy country (Germany);

7. That Heinz Moser, whose last known address is Ruesselsheim, Germany, is a resident of Germany, and a national of a designated enemy country (Germany);

8. That the personal representatives, heirs, next of kin, legatees and distributees of Sophie Gottschalk (nee Ballin), deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

9. That Volksbank, Bretten e. G. m. b. H., whose last known address is Bretten-Baden, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or since the effective date of Executive Order 8389, as amended, has had its principal place of business in Bretten-Baden, Germany, and is a national of a designated enemy country (Germany);

10. That the property described as follows:

a. Three (3) certificates of deposit for Rock Island, Arkansas and Louisiana Railroad Company first mortgage 4½ percent gold bonds due March 1, 1934, of $500.00 face value each numbered ND 263, ND 264, and ND 265, owned by Josephine Kraft Leitz, which certificates are presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

b. One (1) certificate of deposit numbered 205, for Terminals Office Building 6 percent real estate first mortgage serial gold bond numbered M 229, owned by Joseph and Mathilda Mittenberger, which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

c. One (1) Trustee's Certificate issued by the Liberty Title and Trust Company, numbered 01911 for one-fifth (1/5th) of one share of $20.00 par value stock of The Metals Coating Company of America, owned by Wilhelm and Frieda Schuetting, which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

d. One (1) Trustee's Certificate issued by the Liberty Title and Trust Company, numbered 02894, for one-fifth (1/5th) of one share of $20.00 par value stock of The Metals Coating Company of America, owned by Volksbank Staufen e. G. m. b. H., which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

e. One (1) common stock scrip certificate numbered CS 264, for thirty-three one hundredths (33/100ths) of one share of The Studebaker Corporation owned by Heinz Moser, which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

f. Two (2) Western New York and Pennsylvania Railroad Company Scrip Certificates numbered 4429 and 4430, each evidencing an indebtedness of $15.00, owned by the personal representatives, heirs, next of kin, legatees and distributees of Sophie Gottschalk (nee Ballin), deceased, which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

g. One (1) German Certificate, Fractional Warrant No. 0545, Lit. B, issued by the Mitteldeutsche Creditbank on August 16, 1895, owned by Commerzbank A. G., which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

h. Eight (8) Second Mortgage Income Scrip Certificates of the Western New York and Pennsylvania Railroad Company, numbered 3162, 3603, 4286, 4469, 4526, 4593, 4738 and 4664, owned by

Volksbank, Bretten e. G. m. b. H., which certificates are presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

i. Two (2) Western New York and Pennsylvania Railroad Company Scrip Certificates numbered 4143 and 4144, owned by Volksbank, Bretten e. G. m. b. H., which certificates are presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

j. Three hundred (300) preferred rights of the Spokane & Island Empire Railroad Company, evidenced by certificates numbered F 1262, F 1263 and F 1264, issued in the name of Franklin Trust Company as Depositary for Alien Property Custodian Trust No. 475, owned by Hochschildsche Immobiliengemeinschaft, which certificates are presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto, and

k. One (1) scrip certificate numbered DS 5650, of $56.25 face value in respect to 10-year convertible 6 percent Studebaker Corporation debentures, due January 1, 1945, owned by Heinz Moser, which certificate is presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

11. That to the extent that the persons referred to in subparagraphs 1, 2, 3 and 8 hereof and the persons named in subparagraphs 4, 5, 6, 7 and 9 hereof are not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1951.

For the Attorney General.

FEDERAL REGISTER

VOLUME 16 NUMBER 142

Washington, Tuesday, July 24, 1951

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

U. S. STANDARDS FOR ALMONDS IN SHELL

On June 8, 1951, a notice of rule making was published in the FEDERAL REGISTER (F. R. Doc. 51-6654; 16 F. R. 5447) regarding proposed United States Standards for Almonds in the Shell. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Standards for Almonds in the Shell are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et. seq.) and Public Law 70, 82d Congress, approved July 1, 1951.

§ 51.456 *Standards for almonds in the shell*—(a) *Grades*—(1) *U. S. No. 1.* U. S. No. 1 consists of almonds in the shell which are of similar varietal characteristics, clean, fairly bright, fairly uniform in color, which are free from loose hulls, pieces of shells, chaff and foreign material and free from damage caused by discoloration, adhering hulls, broken shells, or other means. The kernels shall be well dried, free from decay, rancidity, insect injury, and free from damage caused by mold, gum, shriveling, brown spot, or other means.

(i) Unless otherwise specified, the minimum thickness of the almond shall be not less than 28/64 of an inch.

(ii) In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted;

(a) *For external defects.* Ten percent, by count (except that loose hulls, chaff, pieces of shells and foreign material shall be determined by weight), for almonds which fail to meet the requirements of the grade, other than for variety and size: *Provided*, That, not more than 2 percent, by weight, shall be allowed for loose hulls, chaff, pieces of shells and foreign material, including not more than one-half of this amount, or 1 percent, that will pass through a screen with 24 64 inch round openings:

(b) *For dissimilar varieties.* Five percent, by count, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(c) *For size.* Five percent, by count, for almonds which fail to meet the size requirements; and,

(d) *For internal defects.* Ten percent, by count, for almonds which fail to meet the grade requirements: *Provided*, That, not more than one-half of this amount, or 5 percent, shall be allowed for kernels affected by decay, rancidity, insect injury and damage by mold.

(2) *U. S. No. 1 Mixed.* U. S. No. 1 Mixed consists of almonds in the shell which meet the requirements of U. S. No. 1 grade, except that the varieties are mixed, but may include not more than 1 percent of bitter almonds mixed with sweet almonds.

(3) *U. S. No. 2.* U. S. No. 2 consists of almonds in the shell which meet the requirements of U. S. No. 1 grade, except that an additional tolerance of 20 percent shall be allowed for discoloration.

(4) *U. S. No. 2 Mixed.* U. S. No. 2 Mixed consists of almonds in the shell which meet the requirements of the U. S. No. 2 grade, except that the varieties are mixed, but may include not more than 1 percent of bitter almonds mixed with sweet almonds.

(b) *Unclassified.* Unclassified consists of almonds which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Application of tolerances and determination of the grades.* The tolerances for the foregoing grades are to be applied to the entire lot, and a composite sample shall be taken for determining the grade. However, any container or group of containers in which the almonds are found to be materially inferior to those in the majority of the containers shall be considered a separate lot.

(1) In determining the grade of a lot of almonds, the percentage of loose hulls, pieces of shells, chaff and foreign material is first determined on the basis of weight. Then a stated number of nuts is counted out (depending upon the size of the lot) from the composite sample. These almonds are next examined for size, dissimilar varieties and external defects. The same nuts are then cracked and examined for internal defects.

(d) *Definitions.* (1) "Similar varietal characteristics" means that the almonds are similar in shape and are reasonably uniform in degree of hardness of the shells. For example, hard-shelled varieties shall not be mixed with semi-soft-shelled, soft-shelled and paper-shelled varieties; and semi-soft-shelled varieties shall not be mixed with soft-shelled and paper-shelled varieties; and soft-shelled varieties shall not be mixed with paper-shelled varieties. Likewise, bitter almonds shall not be mixed with sweet almonds.

(2) "Clean" means that the individual almond is practically free from dirt and other foreign matter.

(3) "Fairly bright" means that the almonds show good characteristic color.

(4) "Fairly uniform color" means that the shells do not show excessive variation in color.

(5) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the almonds. Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Discoloration which is distinctly gray to black, when affecting more than one-eighth of the surface of the shell in the aggregate, but normal color variations, such as reddish or brown between varieties, and within some varieties, are not to be considered as discoloration;

(ii) Adhering hulls, when covering more than 5 percent of the shell surface in the aggregate;

(iii) Broken shells, when a portion of the shell is missing or fractured to the extent that moderate pressure will cause the kernel to become dislodged;

(iv) Mold, when affecting the kernel, except when white or grayish in color and easily rubbed off with the fingers;

(v) Gum, when a film of shiny, resinous appearing substance covers more than one-eighth of the surface of the kernel;

(vi) Shriveling, when the kernel is excessively thin for its size, or when materially withered, shrunken, leathery, tough or partially developed: *Provided*, That, partially developed kernels are not considered damaged if more than three-fourths of the pellicle is filled with meat; and,

(vii) Brown spot on the kernel, either single or multiple, when the affected area is more than the equivalent of a circle one-eighth inch in diameter.

(6) "Well dried" means that the kernel is firm and brittle and not pliable or leathery.

(7) "Decay" means that the kernel is putrid or decomposed.

(8) "Rancidity" means that the kernel is noticeably rancid to the taste.

(9) "Insect injury" means that the insect, web, or frass is present or there is visible evidence of insect injury.

(10) "Thickness" means the greatest distance between the two flat surfaces of the shell. The minimum thickness shall be determined by passing the almonds through slotted openings with sufficient length to permit the almonds to go through lengthwise.

(e) *Effective time.* The United States Standards for Almonds in the Shell contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090, Pub. Law 70, 82d Cong.; 7 U. S. C. 1624)

Done at Washington, D. C. this 18th day of July 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

PART 51—FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

UNITED STATES STANDARDS FOR SHELLED ALMONDS

On June 8, 1951, a notice of rule making was published in the FEDERAL REGISTER (F. R. Doc. 51–6658; 16 F. R. 5448) regarding proposed United States Standards for Shelled Almonds. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Standards for Shelled Almonds are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and Public Law 70, 82d Congress, approved July 1, 1951.

§ 51.457 *Standards for shelled almonds*—(a) *Grades*—(1) *U. S. Fancy.* U. S. Fancy consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from injury caused by chipped and scratched kernels, and free from damage caused by mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size).

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) For dissimilar varieties. 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) For doubles. 3 percent;

(*c*) For kernels injured by chipping or scratching. 5 percent;

(*d*) For foreign material. Two-tenths of 1 percent (0.20%);

(*e*) For particles and dust. One-tenth of 1 percent (0.10%); and,

(*f*) For other defects. 2 percent, including not more than one-fourth of this amount, or one-half of 1 percent (0.50%), for serious damage.

(2) *U. S. Extra No. 1.* U. S. Extra No. 1 consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size).

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) *For doubles.* 5 percent;

(*c*) *For kernels damaged by chipping or scratching.* 5 percent;

(d) *For foreign material.* Two-tenths of 1 percent (0.20%);

(e) *For particles and dust.* One-tenth of 1 percent (0.10%); and,

(f) *For other defects.* 4 percent, including not more than one-fourth of this amount, or 1 percent, for serious damage.

(3) *U. S. No. 1.* U. S. No. 1 consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size.)

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(a) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(b) *For doubles.* 15 percent;

(c) *For kernels damaged by chipping or scratching.* 10 percent;

(d) *For foreign material.* Two-tenths of 1 percent (0.20%);

(e) *For particles and dust.* One-tenth of 1 percent (0.10%); and,

(f) *For other defects.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for serious damage.

(4) *U. S. Select Sheller Run.* U. S. Select Sheller Run consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size.)

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(a) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(b) *For doubles.* 15 percent;

(c) *For kernels damaged by chipping and scratching.* 15 percent;

(d) *For foreign material.* Two-tenths of 1 percent (0.20%);

(e) *For particles and dust.* One-tenth of 1 percent (0.10%);

(f) *For split and broken kernels.* 5 percent: *Provided*, That, not more than two-fifths of this amount, or 2 percent shall be allowed for pieces which will pass through a round opening $^{20}/_{64}$ inch in diameter; and,

(g) *For other defects.* 3 percent, including not more than one-third of this amount, or 1 percent, for serious damage.

(5) *U. S. Standard Sheller Run.* U. S. Standard Sheller Run consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size.)

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(a) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(b) *For doubles.* 25 percent;

(c) *For kernels damaged by chipping and scratching.* 20 percent;

(d) *For foreign material.* Two-tenths of 1 percent (0.20%);

(e) *For particles and dust.* One-tenth of 1 percent (0.10%);

(f) *For split and broken kernels.* 15 percent: *Provided*, That, not more than one-third of this amount, or 5 percent, shall be allowed for pieces which will pass through a round opening $^{20}/_{64}$ inch in diameter; and,

(g) *For other defects.* 3 percent, including not more than one-third of this amount, or 1 percent, for serious damage.

(6) *U. S. No. 1 Whole and Broken.* U. S. No. 1 Whole and Broken consists of shelled almonds which are of similar varietal characteristics, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, particles and dust, and which are free from damage caused by mold, gum, shriveling, brown spot, or other means.

(i) In this grade not less than 30 percent, by weight, of the kernels shall be whole. Doubles shall not be considered as whole kernels in determining the percentage of whole kernels.

(ii) Unless otherwise specified, the minimum diameter shall be not less than $^{20}/_{64}$ of an inch. (See other size requirements and tolerances for size).

(iii) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(a) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(b) *For doubles.* 35 percent;

(c) *For foreign material.* Three-tenths of 1 percent (0.30%);

(d) *For particles and dust.* One-tenth of 1 percent (0.10%);

(e) *For undersize.* 5 percent; and,

(f) *For other defects.* 5 percent, including not more than three-fifths of this amount, or 3 percent, for serious damage.

(7) *U. S. No. 1 Pieces.* U. S. No. 1 Pieces consists of shelled almonds which are not bitter, which are clean, well dried, which are free from decay, rancidity, insect injury, foreign material, particles and dust, and which are free from damage caused by mold, gum, shriveling, brown spot, or other means.

(i) Unless otherwise specified, the minimum diameter shall be not less than $^{8}/_{64}$ of an inch. (See other size requirements and tolerances for size).

(ii) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(a) *For bitter almonds mixed with sweet almonds.* 1 percent;

(b) *For foreign material.* Three-tenths of 1 percent (0.30%);

(c) *For particles and dust.* 1 percent; and,

(d) *For other defects.* 5 percent, including not more than three-fifths of this amount, or 3 percent, for serious damage.

(b) *Mixed varieties.* Any lot of shelled almonds consisting of a mixture of two or more dissimilar varieties which meet the other requirements of any of the grades of U. S. No. 1, U. S. Select Sheller Run, U. S. Standard Sheller Run, U. S. No. 1 Whole and Broken may be designated as: "U. S. No. 1 Mixed;" "U. S. Select Sheller Run Mixed;" "U. S. Standard Sheller Run Mixed;" or "U. S. No. 1 Whole and Broken Mixed," respectively; but no lot of any of these grades may include more than 1 percent of bitter almonds mixed with sweet almonds.

(c) *Unclassified.* Unclassified consists of shelled almonds which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Size requirements.* The size may be specified in terms of range in count of whole almond kernels per ounce or in terms of minimum, or minimum and maximum diameter. When a range in count is specified, the whole kernels shall be fairly uniform in size, and the average count per ounce shall be within the range specified. Doubles and broken kernels shall not be used in determining counts. Permissible count ranges per ounce are shown below but a narrower or wider range may be specified: *Provided*, That, the kernels are fairly uniform in size.

Count range per ounce	*Count range per ounce*
16 to 18, inclusive	26 to 28, inclusive
18 to 20, inclusive	27 to 30, inclusive
20 to 22, inclusive	30 to 34, inclusive
22 to 24, inclusive	36 to 40, inclusive
24 to 25, inclusive	40 to 50, inclusive
24 to 26, inclusive	50 and smaller

(e) *Tolerances for size.* When a range is specified as, for example, "18/20," no tolerance for counts above or below the range shall be allowed.

(1) When the minimum, or minimum and maximum diameters are specified, a total tolerance of not more than 10 percent, by weight, may fail to meet the specified size requirements: *Provided*, That, not more than one-half of this amount, or 5 percent, may be below the minimum size specified.

(f) *Application of tolerances.* The tolerances for the grades are to be applied to the entire lot, and a composite sample shall be taken for determining the grade. However, any container or group of containers in which the almonds are found to be materially inferior to those in the majority of the containers shall be considered a separate lot.

(g) *Definitions.* (1) "Similar varietal characteristics" means that the kernels are similar in shape and appearance. For example, long types shall not be mixed with short types, or broad types mixed with narrow types, and bitter almonds shall not be mixed with sweet almonds. Color of the kernels shall not be considered, since there is often a marked difference in color of kernels of the same variety.

(2) "Whole" means that there is less than one-eighth of the kernel chipped off or missing, and that the general contour of the kernel is not materially affected by the missing part.

(3) "Clean" means that the kernel is practically free from dirt and other foreign substance.

(4) "Well dried" means that the kernel is firm and brittle, and not pliable or leathery.

(5) "Decay" means that the kernel is putrid or decomposed.

(6) "Rancidity" means that the kernel is noticeably rancid to the taste.

(7) "Insect injury" means that the insect, web, or frass is present or there is visible evidence of insect injury.

(8) "Foreign material" means pieces of shell, hulls or other foreign matter which will not pass through a round opening $^{8}/_{64}$ of an inch in diameter.

(9) "Doubles" means kernels that developed in shells containing two kernels. One side of a double kernel is flat or concave.

(10) "Split or broken kernels" means seven-eighths or less of complete whole kernels but which will not pass through a round opening $^{20}/_{64}$ of an inch in diameter.

(11) "Particles and dust" means fragments of almond kernels or other material which will pass through a round opening $^{8}/_{64}$ of an inch in diameter.

(12) "Injury" means any defect which more than slightly affects the appearance of the individual almond, or the general appearance of the lot. The following shall be considered as injury:

(i) Chipped and scratched kernels, when the general appearance of the lot is more than slightly affected, or when the affected area on an individual kernel aggregates more than the equivalent of a circle one-eighth inch in diameter.

(13) "Damage" means any defect which materially affects the appearance of the individual kernel, or the general appearance of the lot, or the edible or shipping quality of the almonds. Any one of the following defects or combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(i) Chipped and scratched kernels, when the general appearance of the lot is materially affected, or when the affected area on an individual kernel aggregates more than the equivalent of a circle one-quarter inch in diameter;

(ii) Mold, when affecting the kernel, except when white or grayish in color and easily rubbed off with the fingers;

(iii) Gum, when a film of shiny, resinous appearing substance covers more than one-eighth of the surface of the kernel;

(iv) Shriveling, when the kernel is excessively thin for its size, or when materially withered, shrunken, leathery, tough or partially developed, provided that partially developed kernels are not considered damaged if more than three-fourths of the pellicle is filled with meat; and,

(v) Brown spot on the kernel, either single or multiple, when the affected area aggregates more than the equivalent of a circle one-eighth inch in diameter.

(14) "Serious damage" means any defect which makes a kernel or piece of kernel unsuitable for human consumption, and includes decay, rancidity, insect injury and damage by mold.

(15) "Diameter" means the greatest dimension of the kernel, or piece of kernel at right angles to the longitudinal axis. Diameter shall be determined by passing the kernel, or piece of kernel through a round opening.

(16) "Fairly uniform in size" means that, in a representative sample, the weight of 10 percent, by count, of the largest whole kernels shall not exceed 1.70 times the weight of 10 percent, by count, of the smallest whole kernels.

(h) *Effective time.* The United States Standards for Shelled Almonds contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090, Pub. Law 70, 82d Cong.; 7 U. S. C. 1624)

Done at Washington, D. C., this 18th day of July 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[910.315 Amdt. 1]

PART 910—FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA AND SEGUACHE COUNTIES IN COLORADO

REGULATION BY GRADES AND SIZES

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 10, as amended (7 CFR Part 910), regulating the handling of fresh peas and cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, and Seguache in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the amended size limitations, as hereinafter provided, with respect to shipments of cauliflower, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when it must become effective in order to effectuate the declared policy of the act is insufficient; the amendment relaxes the terms of the present size limitation until August 16, 1951; a reasonable time is permitted under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as soon as possible because the shipment of cauliflower has already begun; and this amendment should be applicable to all shipments of such cauliflower in order to effectuate the declared policy of the act and thereby tend to maximize the benefits derivable therefrom; and compliance with the provisions of this amendment will not require any preparation therefor by handlers which cannot be completed by the effective date hereof.

(b) *Order, as amended.* Section 910.315 (b) (1) (iv) of the regulation issued on July 13, 1951 (16 F. R. 6857) is amended to read as follows:

(iv) Any cauliflower which, when well trimmed, will not pack fairly tight in a crate at least 11 but not more than 12 heads; *Provided*, That during the period from 12:01 a. m., m. s. t. July 25 to 12:01 a. m., m. s. t. August 16, 1951, cauliflower may be handled which, when well trimmed, will pack fairly tight in a crate at least 11 but not more than 14 heads; *And further provided*, That if such cauliflower is without jacket leaves, not less than 24 nor more than 32 heads may pack such crate fairly tight.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 23rd day of July 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-8603; Filed, July 23, 1951; 11:59 a. m.]

PART 920—IRISH POTATOES GROWN IN MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW HAMPSHIRE AND VERMONT

LIMITATION OF SHIPMENTS

§ 920.302 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Order No. 20 (7 CFR Part 920) regulating the handling of Irish Potatoes grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the New England Potato Committee,

established under said order, and other available information, it is hereby found that such limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of 1951 crop Irish potatoes grown in the production area have begun, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by limiting shipments of potatoes on and after the effective date hereinafter provided in the manner set forth, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by such effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, (v) the time intervening between the date when adequate information became available to the New England Potato Committee to make its recommendation and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and (vi) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period from July 30, 1951, to May 31, 1952, both dates inclusive, no handler shall ship potatoes grown in the Counties of Berkshire, Franklin, Hampden, and Hampshire in Massachusetts, and Hartford and Tolland in Connecticut, which do not meet the requirements of U. S. Commercial or better grade, and which are of sizes smaller than 2 inches minimum diameter, as such grades and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein, except that, in addition to the aforesaid potatoes, handlers may ship as such any U. S. No. 1, Size B potatoes grown in the aforesaid counties, as such grades and sizes are defined in the aforesaid U. S. Standards for Potatoes, including the tolerances set forth therein.

(2) (i) During the period from July 30, 1951, to October 31, 1951, both dates inclusive, handlers may ship potatoes grown in the aforesaid counties which comply with the aforesaid grade and size regulations and which have been inspected and certified, as a lot, in the field where dug or in storage: *Provided*, That the quantity of potatoes in such lot shall not exceed 1,000 hundredweight, and shall be shipped within 48 hours of the time of completion as specified on the inspection certificate therefor; and (ii) during the period from November 1, 1951, to May 31, 1952, both dates inclusive, handlers may ship potatoes grown in the aforesaid counties which comply with the aforesaid grade and size regulations and which have been inspected and certified, as a lot, in storage: *Provided*, That the quantity of potatoes in such lot shall not exceed 1,000 hundredweight, and shall be shipped within 6 days of the date specified on the inspection certificate therefor.

(3) The aforesaid grade and size regulations shall not be applicable to shipments of potatoes for (i) seed, (ii) export, (iii) distribution by the Federal government, (iv) livestock feed, and (v) manufacture or conversion into potato chips or potato salad: *Provided*, That each handler, prior to making shipments for the aforesaid purposes, except shipments for distribution by the Federal government, shall file an application with the committee pursuant to § 920.104 (*Safeguards for special purpose shipments*, 16 F. R. 2699), shall have each of such shipments inspected (except livestock feed and seed potatoes), and shall pay assessments on such shipments.

(4) During each day of the period of regulation, each handler may ship not more than 30 hundredweight of potatoes grown in the aforesaid counties without prior inspection and certification: *Provided*, That each shipment of potatoes exempt from inspection pursuant to this subparagraph shall meet the grade and size regulations set forth in subparagraph (1) of this paragraph and shall pay the rate of assessment established by the Secretary.

(5) The terms used in this section shall have the same meaning as when used in Order No. 20 (7 CFR Part 920).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 20th day of July 1951, to become effective July 30, 1951.

S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUES OF FARMS AND INVESTMENT LIMITS; MISSISSIPPI

For the purposes of title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units and investment limits for the counties identified below are determined to be as herein set forth. The average values and investment limits heretofore established for said counties, which appear in the tabulations of average values and investment limits under § 311.30, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values and investment limits set forth below for said counties.

MISSISSIPPI

County	Average value	Investment limit
Benton	$10,000	$[illegible]
Carroll	11,000	11,000
Choctaw	10,000	10,000
Clarke	10,000	10,000
Covington	10,000	10,000
Grenada	10,000	10,000
Itawamba	10,000	10,000
Jackson	10,000	10,000
Lafayette	10,000	10,000
Lamar	10,000	10,000
Lauderdale	10,000	10,000
Leake	10,000	10,000
Prentiss	10,000	10,000
Quitman	15,000	15,000
Tallahatchie	12,500	12,500
Tate	12,500	12,500
Tishomingo	10,000	10,000
Union	12,000	12,000
Warren	12,500	12,500
Wayne	10,000	10,000
Webster	10,000	10,000

(Sec. 41 (i), 60 Stat. 1066; 7 U. S. C. 1015 (i). Interprets or applies secs. 3 (a), 44 (b), 60 Stat. 1074, 1069; 7 U. S. C. 1003 (a), 1018 (b))

Issued this 18th day of July 1951.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[Supplement 1 to 1951 CCC Peanut Bulletin, 721 (Peanuts 51)-1]

PART 646—PEANUTS

SUBPART—1951 CROP PEANUT PRICE SUPPORT PROGRAM

Correction

In Federal Register Document 51-8184, published on page 6857 of the issue for Wednesday, July 18, 1951, the following changes should be made:

1. The headnote for § 646.341 should read: "*Support prices and producer loan rates.*"

2. The last sentence of paragraph (c) should read: "For other Valencia type peanuts the support price will be the same as the support price for Spanish peanuts of the same grade and in the same area."

3. In paragraph (d) (3) "this Exhibit A" should read "this section".

4. Notes (b) and (c) should read:

(b) Peanuts containing more than 15 percent foreign material, or more than 7 percent damaged kernels, or more than 9 percent moisture in the Southeastern and Southwestern Areas (10 percent in the Virginia-Carolina Area) are not eligible for price support or for delivery to a designated agency as excess oil peanuts, except as provided in note (c) below.

(c) Peanuts containing more than 7 percent damage, but which are otherwise eligible for price support, or for delivery to a designated agency as excess oil peanuts will be purchased by CCC at prices for excess oil peanuts.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 389]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 384]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

ILLINOIS, MICHIGAN, AND OHIO

Amendment 389 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 384 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said regulations are amended in the following respects:

1. Schedule A, Item 83, is amended to describe the counties in the Defense-Rental Area as follows:

Cook County, except the Cities of Blue Island, Calumet City, Chicago Heights, Des Plaines, Park Ridge, and that portion of the City of Elgin located therein, and the Villages of Arlington Heights, Brookfield, Burnham, Flossmoor, Glenview, Kenilworth, La Grange, Lansing, Mt. Prospect, Oak Forest, Palatine, Riverdale, River Forest, South Holland, Westchester, Wilmette, Winnetka, and those portions of the Villages of Barrington and Steger located therein; Du Page County, except the City of West Chicago, and the Village of Glen Ellyn; Kane County, except that portion of the City of Elgin located therein; and Lake County, except the City of Lake Forest, the Village of Deerfield, and that portion of the Village of Barrington located therein.

This decontrols the Village of Deerfield in Lake County, Illinois, and the Villages of Burnham, Glenview and South Holland in Cook County, Illinois, portions of the Chicago, Illinois, Defense-Rental Area.

2. Schedule A, Item 91, is amended to describe the counties in the Defense-Rental Area as follows:

Champaign County, except the Cities of Champaign and Urbana; and Vermilion County.

This decontrols the City of Champaign in Champaign County, Illinois, a portion of the Champaign-Vermillon, Illinois, Defense-Rental Area.

3. Schedule A, Item 149, is amended to describe the counties in the Defense-Rental Area as follows:

Oakland County, except (i) the Townships of Addison, Avon, Bloomfield, Brandon, Commerce, Groveland, Highland, Holly, Independence, Milford, Novi, Oakland, Orion, Oxford, Pontiac, Rose, Springfield, Troy, Waterford and West Bloomfield, (ii) the Villages of Clarkston, Holly, Lake Orion, Leonard, Milford, Ortonville, Oxford, Rochester and that portion of Northville located in Oakland County, and (iii) the Cities of Berkley, Birmingham, Bloomfield Hills, Farmington, Ferndale, Hazel Park, Pleasant Ridge, Pontiac, Royal Oak, South Lyon and Sylvan Lake; Wayne County, except (i) the Cities of Grosse Pointe, Grosse Pointe Farms, Grosse Pointe Park, Grosse Pointe Woods, Lincoln Park and Plymouth, (ii) the Villages of Grosse Pointe Shores, Trenton and Wayne, (iii) that portion of the Village of Northville located in Wayne County, and (iv) the Township of Canton; and Macomb County, except the City of Mount Clemens, the Village of Fraser, and the Townships of Armada, Bruce, Lenox, Macomb, Ray, Richmond, Shelby, Sterling and Washington.

This decontrols the Village of Fraser in Macomb County, Michigan, a portion of the Detroit, Michigan, Defense-Rental Area.

4. Schedule A, Item 359, is amended to describe the counties in the Defense-Rental Area as follows:

Brook County; Hancock County; Marshall County; except the Magisterial Districts of Cameron, Liberty, Meade, Sand Hill and Webster; and Ohio County.

Belmont County; Columbiana County, except the Village of Leetonia; and Jefferson County.

This decontrols the Village of Leetonia in Columbiana County, Ohio, a portion of the Wheeling-Steubenville, West Virginia, Defense-Rental Area.

All decontrols effected by this amendment are based on resolutions submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall become effective July 24, 1951.

Issued this 19th day of July 1951.

TIGHE E. WOODS,
Housing Expediter.

[F. R. Doc. 51-8519; Filed, July 23, 1951; 8:49 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5847]

PART 192—FERMENTED MALT LIQUORS

SAMPLES OF FERMENTED MALT LIQUOR

1. Regulations 18, approved May 20, 1940 (26 CFR Part 192), as amended, are further amended by adding §§ 192.273 through 192.280, as follows:

Sec.
192.273 General.
192.274 Application.
192.275 Approval of application.
192.276 Labeling.
192.277 Records.
192.278 Residues of samples.
192.279 Analysis on brewery premises.
192.280 Tax payment.

AUTHORITY: §§ 192.273 to 192.280 issued under 53 Stat. 375; 26 U. S. C. 3176.

SAMPLES OF FERMENTED MALT LIQUOR

§ 192.273 *General.* Samples of fermented malt liquor may be removed, without payment of tax, as provided in §§ 192.274 to 192.278, by brewers, either from the brewery or from the bottling house to a laboratory for analytical purposes (including organoleptic examination) to determine the character or quality of the product.

§ 192.274 *Application.* Whenever a brewer desires to remove samples of fermented malt liquor without payment of tax, for analytical purposes, he shall file application, in triplicate, with the district supervisor. The application shall be serially numbered, beginning with number "1" and running consecutively thereafter. The application shall set forth specifically the size, kind and number of samples to be removed, the period during which the samples shall be removed, and the name and address of the laboratory to which the samples will be removed for analysis. Where it is desired to remove samples regularly the application may be made for that purpose. The number and size of the samples must be restricted to the minimum necessary for the purpose. A statement of the necessity for the analysis of samples and for the number and size of such samples shall be incorporated in the application. The brewer shall also incorporate in the application a statement that the samples covered thereby will not be used for purposes other than laboratory analysis.

§ 192.275 *Approval of application.* The district supervisor must satisfy himself as to the need for the number and size of samples desired and the legitimacy of the purpose for which they are to be used before approving the application. The district supervisor, upon approval or disapproval of the application, shall return one copy to the brewer, forward one copy to the Commissioner, and retain the original in his office. Any approved application may be terminated if the Commissioner or the district supervisor determines that such action is warranted: *Provided*, That, except in cases involving willfulness or where the public interest requires otherwise, the brewer shall be notified in writing of the facts or conduct warranting such action and be accorded an opportunity to demonstrate or achieve compliance with all lawful requirements.

§ 192.276 *Labeling.* Each bottle or other immediate container of fermented malt liquor to be removed, without payment of tax, for analytical purposes shall be labeled to show the nature and quantity of the contents, the name and address of the laboratory to which it will be removed, and the name and address of the brewer. The label shall bear the statement, "Sample for laboratory analysis only—not for sale or beverage use."

§ 192.277 *Records.* A separate record shall be maintained showing by date, the quantity of fermented malt liquor removed pursuant to an approved application and the serial number of such application. Proper credit entry for the total quantity so removed during the month must be made in the summary on Form 103.

§ 192.278 *Residues of samples.* Residues or remnants of samples remaining after laboratory analysis which are not to be retained as laboratory specimens or for comparative purposes must be destroyed or returned to the brewery premises. The samples or the residues thereof may not, in any event, be sold, or disposed of otherwise.

§ 192.279 *Analysis on brewery premises.* Applications need not be filed

where samples are to be taken for analysis in the brewer's laboratory located on the brewery premises.

§ 192.280 *Tax payment.* Any samples of fermented malt liquor removed or used otherwise than as authorized in §§ 192.273 to 192.279 shall be subject to tax payment in accordance with this part.

2. The purposes of the amendment are to authorize brewers to remove samples of fermented malt liquor, without payment of tax, either from the brewery or bottling house, for analytical purposes (including organoleptic examination), and to prescribe the procedure governing such removals.

3. This Treasury decision will be effective upon the date of publication in the FEDERAL REGISTER.

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: July 19, 1951.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 51-8520; Filed, July 23, 1951; 8:49 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 683—WHOLESALING, WAREHOUSING, AND OTHER DISTRIBUTION INDUSTRIES IN PUERTO RICO

MINIMUM WAGE ORDER

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C., Supp. 1001) notice was published in the FEDERAL REGISTER on June 29, 1951 (16 F. R. 6316) of my decision to approve the minimum wage recommendation of Special Industry Committee No. 9 for Puerto Rico for the Wholesaling, Warehousing, and other Distribution Industries in Puerto Rico, and the wage order which I proposed to issue to carry such recommendation into effect was published therewith. Interested parties were given an opportunity to submit exceptions within 15 days of the date of publication of the notice.

No exceptions were received within the 15 day period.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201), the said decision is hereby affirmed and made final, and the said wage order is hereby issued, to become effective August 27, 1951.

Sec.
683.1 Approval of recommendation of industry committee.
683.2 Wage rate.
683.3 Notices of order.
683.4 Definition of the wholesaling, warehousing, and other distribution industries in Puerto Rico.

AUTHORITY: §§ 683.1 to 683.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. Sup. 208. Interprets or applies sec. 5, 63 Stat. 911; 29 U. S. C. Sup. 205.

§ 683.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 683.2 *Wage rate.* Wages at a rate of not less than 65 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the wholesaling, warehousing, and other distribution industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 683.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the wholesaling, warehousing, and other distribution industries in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 683.4 *Definition of wholesaling, warehousing and other distribution industries in Puerto Rico.* The wholesaling, warehousing, and other distribution industries in Puerto Rico to which this part shall apply, is hereby defined as follows: The wholesaling, warehousing, and other distribution of commodities including, but without limitation, the wholesaling, warehousing, and other distribution activities of jobbers, importers and exporters, manufacturers' sales branches and offices engaged in distributing products manufactured outside of Puerto Rico, industrial distributors, mail order and retail selling establishments, brokers and agents, and public warehouses: *Provided, however,* That the definition shall not include the activities of employees who are engaged in wholesaling, warehousing, or other distribution of products manufactured by their employer in Puerto Rico, or any activities covered by a wage order which has been issued for any other industry in Puerto Rico.

Signed at Washington, D. C., this 18th day of July 1951.

WM R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 51-8481; Filed, July 23, 1951; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Supplementary Regulation 11]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 11 ALTERNATIVE PRICING METHODS FOR COATED FABRICS

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Congress), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this supplementary regulation to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

The Statement of Considerations of Ceiling Price Regulation 22 envisaged supplementary regulations "which utilize provisions geared to particular industry problems, practices, and situations". The provisions of this supplementary regulation are directly related to the particular problems of the coated fabrics industry.

The coated fabrics industry really consists of these three parts, and the term "coated fabrics" as used in this supplementary regulation includes all three:

1. The manufacturer buys the textile and coats it. This operation results in what is commonly known as a coated fabric, but to avoid confusion, may be referred to here as a "supported coating."

2. The manufacturer coats a textile which he does not own, which operation is known as "job coating."

3. The manufacturer produces a sheeting out of plastic or rubber without a supporting textile, which operation results in a product known as "unsupported sheeting." In recent years this has become of greater and greater importance.

Many manufacturers perform all three of these operations in a single plant and may not keep separate accounting records. This may mean that the materials and labor cost adjustment figures calculated according to Ceiling Price Regulation 22 will not always yield accurate or consistent results.

The labor costs are a relatively small part of the sales dollar of supported coatings, but they are a much more substantial portion of the sales dollar of job coating and unsupported sheeting. Since Ceiling Price Regulation 22 uses an average labor cost ratio calculated on the basis of sales in fiscal year 1950, and since the relative proportions of the various types of business may now be different, the labor cost adjustment ratio may be either too high or too low to reflect current conditions.

The first alternative pricing method provided by this supplementary regulation, therefore, attempts to put all transactions on a common level for labor costs by removing fabric costs from the calculation. The labor cost ratio is calculated on the basis of total sales less total fabric costs, if any, in fiscal year 1950. The resulting labor cost adjustment ratio is applied to the base period price less the cost of the fabric. This is the part of the sales dollar that directly reflects labor costs. This will result on the average in a higher labor cost adjustment ratio being applied to lower prices. This alternative method will probably be used most by those whose share of coated fabrics, job coating, and unsupported sheeting has changed substantially since fiscal year 1950, and may be used by job coaters to adjust their ceiling prices in line with the adjusted coating ceiling prices of manufacturers of supported coating.

The sales price of supported coating is based to a large degree upon materials costs which are composed of two almost independent variables. A high price textile may have a thin, inexpensive coating on it, or vice versa, or any combination in between. Moreover, textiles may be as high as seventy-five per cent of the total materials cost. Unsupported sheeting and job coating, on the other hand, involve no textile cost for the manufacturer.

The purpose of the second alternative method of this supplementary regulation is, therefore, to establish a separate method of calculating the materials cost increase for textiles so as to put the coating material cost adjustment for all three parts of the industry on a comparable basis. Material costs other than textiles are definitely related to selling prices minus textile costs. By handling textiles separately, it is possible for a manufacturer to use Method 1 (not if synthetic rubber is substituted), 3 or 4 rather than go through all the individual calculations of Method 2 for his thousands of constructions. This supplementary regulation will also make it possible for a manufacturer of supported coatings, job coatings and unsupported sheeting to use Method 3 of Ceiling Price Regulation 22, by combining all coatings of one type, regardless of any textile base, into one product line, and thereby eliminate much extra calculation.

Section 18 of Ceiling Price Regulation 22 provides a series of methods to determine the cost of materials at the end of the base period and on December 31, 1950. Textiles are generally bought on contracts for a quarter or more in advance. Some manufacturers may have to apply to the Office of Price Stabilization under Section 18 (i) for an appropriate cost increase. Other manufacturers may find that textile costs determined under other methods set forth in Section 18 are inappropriate. A more uniform and fair basis for all manufacturers is the third modification of Ceiling Price Regulation 22 introduced by this supplementary regulation, to allow manufacturers to use in both periods the offering price for the textile from the manufacturer's customary source of supply. Many of these prices are published; others are readily available from the suppliers and can easily be checked by OPS and buyers.

The industry has customary differentials for colors, widths, weights, special effects and surfaces. This regulation allows manufacturers to continue to add those same charges which they had in the base period, unless they chose to file new ceilings including these extras or especially for these differentials.

Since all the methods established by this regulation are substantially in line with those of Ceiling Price Regulation 22, the resulting ceiling prices will be in line with those established by Ceiling Price Regulation 22. The modifications of pricing method created by this supplementary regulation have been discussed at length with the Industry Advisory Committee and other members of the industry and in general have been recommended by them.

In the judgment of the Director of Price Stabilization, the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

AUTHORITY: Sections 1 to 9 issued under sec. 704, Pub. Law 774, 81st Congress, as amended. Interpret or Apply Title IV, Pub. Law 774, 81st Congress, as amended, E. O. 10161, Sept. 9, 1950, F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* (a) This supplementary regulation allows manufacturers of coated fabrics as defined herein to compute their materials and labor cost adjustments in accordance with methods alternative to CPR 22; in addition, such manufacturers are given a substitute method to section 18 of CPR 22 for computing the net cost of the fabric used. Manufacturers subject to this supplementary regulation who have filed Form 8 on a subject commodity may, nevertheless, resubmit another Form 8 computed pursuant to this supplementary regulation, provided such re-filing is made on or before July 31, 1951. All provisions of CPR 22 not inconsistent with this supplementary regulation, however, will continue to apply.

(b) If you are a manufacturer of coated fabrics, your ceiling price to your largest buying class of purchaser for sale of a coated fabric which you sold or offered for sale at any time between July 1, 1949 and June 24, 1950, is

(1) Your price calculated in accordance with section 3 of CPR 22, except that you may use either section 18 of CPR 22 or section 7 of this supplementary regulation to determine your textile cost, or

(2) Your base period "coating price" plus the "coating" labor cost adjustment calculated under section 2 of this supplementary regulation, plus the "coating" material cost adjustment (exclusive of textiles) calculated under section 3 of this supplementary regulation, plus the cost as of Dec. 31, 1950 of the textile, if any, to be used in the coated fabric being priced, calculated under section 18 of CPR 22 or section 7 of this supplementary regulation.

SEC. 2. *Alternative labor cost adjustment method.* If you calculate your coated fabric ceiling price pursuant to section 1 (b) (2) of this supplementary regulation, you may calculate your labor cost adjustment factor in the following manner:

(a) First, find your "total net sales" and "factory payroll" in accordance with section 8 (a) or 9 (a) of CPR 22.

(b) Then subtract from your total net sales the "net cost" of your textiles, as defined in section 47 of CPR 22, used by you during the applicable annual period under section 8, or under section 9.

(c) Divide your factory payroll by the result reached in (b). The result is your "coating" labor cost ratio.

(d) Then find your wage increase factor precisely as is done in sections 8 (c) and 8 (d) of CPR 22.

(e) Then multiply your "coating" labor cost ratio derived under (c), by your wage increase factor, as found under (d). The result is your "coating" labor cost adjustment factor.

(f) Multiply your "coating" labor cost adjustment factor found in (e), by each base period "coating price". The resulting product is the "coating" labor cost adjustment for that coating.

SEC. 3. *Description of the alternative "coating" material cost adjustment methods.* Under this supplementary regulation, you separate your coating materials cost from your textile costs. The method of doing this will vary, depending upon your method of figuring your materials cost increase under CPR 22. If you select Method 3 (section 15 of CPR 22), you use section 4 of this supplementary regulation. If you select Method 1 (section 13 of CPR 22), you use section 5 of this supplementary regulation. If you select Method 4 (section 16 of CPR 22), you use section 6 of this supplementary regulation.

SEC. 4. *Modification of Method 3 of CPR 22.* Using Method 3 of CPR 22 (Best Selling Commodity in a Product Line Method), in figuring your materials cost adjustment, you take the following steps:

(a) First find the base period price for the best selling coated fabric in the product line of which the coated fabric being priced is a part.

(b) Subtract from the price in (a) above the base period cost of the textile, if any, used in that coated fabric. Section 7 of this supplementary regulation tells you how to arrive at your base period cost.

(c) Then determine your "materials cost adjustment" for all the materials, exclusive of the textile, entering into the best selling coated fabric, by the method set out in section 14 of CPR 22. The resulting product is the "coating" materials cost adjustment.

(d) Then determine your materials cost adjustment factor by dividing your "coating" materials cost adjustment for your best selling coated fabric found in (c) above by the base period coating price found in (b) above.

(e) Then multiply your "coating" materials cost adjustment factor found in (d) above by the base period coating price of each item in the product line to yield your "coating" materials cost adjustment for each coating.

SEC. 5. *Modification of Method 1 of CPR 22.* Using Method 1 of CPR 22 (Aggregate Method) in figuring your materials cost adjustment, you take the following steps:

(a) First find your total net sales of all coated fabrics in your entire plant or business as set forth in section 13 (a) of CPR 22.

(b) Subtract from the sales the "net cost" of the textiles, if any, used to pro-

duce the coated fabrics sold during the annual or fiscal period selected. This will give you your "coating" sales.

(c) Determine your manufacturing materials cost increases for the materials other than textiles in accordance with section 13 (b) and section 13 (c) of CPR 22.

(d) Divide the cost increases found under (c) above by the total net sales found in (b) above. The resulting quotient is your "coating" materials cost adjustment factor.

(e) Multiply your "coating" materials cost adjustment factor by the base period coating price (as defined in section 9). The resulting figure is your coating materials cost adjustment.

SEC. 6. *Modification of Method 4 of CPR 22.* Using Method 4 of CPR 22 (Composite Bill of Materials Method) in figuring your materials cost adjustment, you take the following steps:

(a) Find your total net sales of the coated fabrics in the product line or category as set forth in section 16 (a) of CPR 22.

(b) Subtract from the sales of the coated fabrics found in (a) above the "net cost" of textiles, if any, used during the accounting period selected to produce the coated fabrics sold during this period. This gives you your "coating" sales.

(c) Determine your manufacturing materials cost increases for all materials other than textiles used in producing coated fabrics in the product line or category selected in accordance with section 16 (b) and section 16 (c) of CPR 22.

(d) Divide the cost increases for the product line or category found in (c) above by the "coating" sales found in (b) above. The resulting quotient is your "coating" materials cost adjustment factor.

(e) Multiply your "coating" materials cost adjustment factor by the base period coating price of each coated fabric being priced in the product line or category selected. The resulting figure is your "coating" materials cost adjustment.

SEC. 7. *Modification of section 18 of CPR 22 for determination of textile cost.* (a) You may elect to calculate your textile cost pursuant to section 18 of CPR 22, or in the manner described below, but if you use the following method for determining your textile cost as of December 31, 1950, you must also use the following method for determining your textile cost as of the "earlier prescribed date" which is your base period.

(b) Your cost of the textile used in any coated fabric is the highest price at which it was offered to a manufacturing purchaser of your class by any of your normal suppliers of such textile on each of the prescribed dates for delivery during the calendar quarter following the prescribed dates. If none of your normal suppliers offered that textile for such future delivery on the date prescribed, you use the last price at which any such supplier offered it to your class of purchaser within 30 days prior to each of the prescribed dates.

If none of your normal suppliers made such an offer, you may use an offer by a supplier of such textiles who normally sold such textiles to coated fabric manufacturers in quantities and on terms similar to those of your normal suppliers.

SEC. 8. *Extras and differentials.* If, during the base period, you had a price differential or charged an extra price for certain colors, widths, weights, special effects or surfaces, you may add your base period dollar and cent extra or differential to the ceiling prices calculated under section 1 (b) of this supplementary regulation. You may not, however, add such extras or differentials to your ceiling price of a coated fabric if your base period price of the coated fabric includes such extra or differential.

SEC. 9. *Definitions.* All definitions in CPR 22 apply to this supplementary regulation unless otherwise noted below.

"Coating price" is your price of a coated fabric less the cost of the textile you supply, if any.

"Product line" or "category" may be determined without regard to the various textiles, if any, used.

"Coated fabric" means any knitted or woven fabric coated with a continuous film (for example, rubber, synthetic rubber, pyroxylin, cellulose ester, cellulose ether, synthetic resin, oxidizable oil or combinations thereof) otherwise referred to as supported coating. For the purpose of this supplementary regulation, the term "coated fabric" also includes artificial leather made from nonwoven fibrous products, oilcloth, bookcloth, and window shade cloth, as well as unsupported sheeting, job coating and combined fabrics.

"Unsupported sheeting" means a pliable continuous film of rubber, synthetic rubber, synthetic resin, or combinations thereof, having a gauge thickness of not less than 10 mils.

"Job coating" means the application of one or more coatings of a continuous film to a textile backing which is owned by one other than the coater.

"Combined fabric" means two or more fabrics joined together with an adhesive.

"Manufacturer" includes converter.

"Converter" means any person who sells a coated or combined fabric on which a job coater or job combiner has performed the coating or combining on his account.

Effective date. If under General Overriding Regulation 13 the provisions of Ceiling Price Regulation 22 were effective as to you on June 30, 1951, then this Supplementary Regulation becomes effective as to you immediately. If the provisions of Ceiling Price Regulation 22 were not effective as to you on June 30, 1951, this Supplementary Regulation becomes effective when and if Ceiling Price Regulation 22 becomes effective as to you.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 20, 1951.

[F. R. Doc. 51-8562; Filed, July 20, 1951; 5:13 p. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 13]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 13—IDENTICAL CEILING PRICES FOR MATTRESSES AND MATCHING BOX SPRINGS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong., as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 13 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Historically, manufacturers of bedding have sold matching box springs and mattresses at identical prices. This has been the consistent trade practice for many years. Where the price of the mattress or box spring has changed, the price of the matching article has been altered to conform.

This historic relationship between the price of a mattress and its matching box spring has been disturbed by the pricing formula contained in Ceiling Price Regulation 22. That regulation establishes ceiling prices based on pre-Korean levels adjusted for increase in manufacturing costs since then. Since the outbreak of hostilities in Korea, the price of cotton linters, a major material used in the manufacture of mattresses, has advanced far more than has the cost of the manufacturing materials used in box springs. Consequently, the upward adjustment over pre-Korean prices permitted for mattresses is substantially greater than that allowed for box springs. The result is that the ceiling price of a mattress under CPR 22 is substantially higher than the ceiling price of the matching box spring.

This supplementary regulation authorizes the adjustment of the ceiling prices established under CPR 22 so as to restore the customary relationship between the price of the mattress and of its matching box spring. This is accomplished by permitting the manufacturer who wishes to maintain such normal relationship to raise the ceiling price on a box spring provided he makes a proportionate reduction in the ceiling price of the matching mattress. OPS Public Form No. 45 which must be filed by each manufacturer choosing to equalize his mattress and box spring prices provides a formula method of calculating the price which allows the manufacturer no greater dollar sales realization than would be obtained were he to use the CPR 22 prices as calculated. This result is attained by weighting the CPR 22 prices of the mattress and box spring by the units of each sold or produced during the manufacturer's last fiscal or calendar year. There appears to be no reason for assuming that the ratio of mattresses to matching box springs sold in the future will be materially different than the ratio that prevailed previously.

Should it develop that the normal relationship between sales of box springs and mattresses is not being maintained and that the sale or production of box springs is rising in relationship to that of mattresses, the adjustment permitted by this regulation will be altered accordingly. Reconsideration will also be had should it develop that because of the higher profit on box springs than mattresses, pressure is being brought on buyers to buy more box springs than they normally would.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. What ceiling prices may be adjusted under this supplementary regulation.
3. How you establish identical ceiling price for a mattress and matching box spring.
4. Required report.
5. Record keeping requirements.
6. Ceiling prices for new commodities.
7. Discontinuance of matching commodity.

AUTHORITY: Sections 1 to 7 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation permits you to adjust your CPR 22 ceiling prices so that you may continue to sell a mattress and its matching box spring at identical prices, if that has been your established and customary practice. All provisions of CPR 22 remain in effect except to the extent that they are inconsistent with the provisions of this supplementary regulation.

SEC. 2. *What ceiling prices may be adjusted under this supplementary regulation.* You may adjust under this supplementary regulation the ceiling prices determined under CPR 22, as amended, or under Supplementary Regulation 2, for innerspring, rubber, felt or hair mattresses and for box springs. You may not adjust your ceiling prices on crib mattresses, Hollywood bed outfits or mattresses normally sold or used with flat or folding cots. This supplementary regulation has no application to ceiling prices established under the General Ceiling Price Regulation. You may adjust your ceiling prices under this regulation only if it has been your established and customary practice to sell a mattress and matching box spring at the same price.

SEC. 3. *How you establish identical ceiling prices for a mattress and matching box spring.* (a) This supplementary regulation provides two methods for adjusting ceiling prices previously determined under CPR 22. The first method may be used in adjusting ceiling prices determined under section 3, 30, 32 or 33 of CPR 22. The second method may be used only for adjusting the ceiling prices of matching commodities where the ceiling price of each is determined under either section 3 or 30. If you elect to use the second method, it must be used in every case of pricing under this supplementary regulation where the ceiling price for each commodity is determined under either section 3 or 30 of CPR 22. If your records show the unit sales of mattresses and matching box springs during your most recent fiscal or calendar year, you must use such unit sales figures in determining the ratio of mattresses to matching box springs sold by you during such period. If you have not maintained such sales records, you may use your production records to establish your ratio.

(b) Under the first method you find a ratio which you apply to your CPR 22 ceiling price for each style or number of mattress and matching box spring. To calculate the adjustment under this method, you do the following:

(1) First, find the total number of mattresses for which you manufactured a matching box spring to sell at an identical price and the total number of such matching box springs sold (or produced where sales figures are lacking) by you during your most recent fiscal or calendar year. Exclude crib mattresses, Hollywood bed outfits or mattresses normally sold or used with flat or folding cots. Divide the number of mattresses by the number of box springs. The resulting figure is the ratio of mattresses to box springs. It should be determined to the nearest one decimal place, e. g., 4.2 mattresses to 1.0 box spring.

(2) Multiply your CPR 22 ceiling price for a mattress, which you wish to continue selling at an identical price with its matching box spring, by this ratio.

(3) Add to the result the CPR 22 ceiling price for the matching box spring.

(4) Divide this number by the sum of the two parts of the ratio determined under subparagraph 1. This will give you your ceiling price for the mattress and for the box spring.

Example: You wish to establish identical ceiling prices for a mattress and box spring whose CPR 22 ceiling prices are respectively $25 and $20. You sold during your most recent calendar year 210,000 mattresses and 50,000 box springs, the box springs being sold at prices identical with those of the mattresses they matched. 210,000 divided by 50,000 carried to the nearest one decimal place is 4.2. The ratio of sales of mattresses to box springs is 4.2 to 1.0. $25, the CPR 22 ceiling price on the mattress, multiplied by 4.2 is $105. $105 plus $20, the CPR 22 ceiling price on the box spring, is $125. $125 divided by 5.2 (4.2 plus 1.0) is $24.04. $24.04 is your new ceiling price for the mattress and the new ceiling price for the matching box spring.

(c) Under the second method, which may be used only if the ceiling price for each commodity is determined under either section 3 or 30 of CPR 22, you find a separate ratio for each particular style or number of mattress and matching box spring which may be used solely to establish an identical ceiling price for that style or number. To calculate your adjustment under the second method, you do the following:

(1) First, find the total number of mattresses and the total number of box springs of the particular style or number, whose ceiling prices you wish to adjust, which you either sold (or produced where sales figures are lacking) during your most recent fiscal or calendar year. Divide the number of mattresses by the number of box springs. The resulting figure, which should be determined to the nearest one decimal place, is the ratio of mattresses to box springs of this particular style or number.

(2) Multiply your CPR 22 ceiling price for the particular style or number of mattress by this ratio.

(3) Add to the result the CPR 22 ceiling price for the matching box spring.

(4) Divide this number by the sum of the two parts of the ratio determined under subparagraph 1. This will give you your ceiling price for the mattress and for the box spring of this particular style or number.

Example: You wish to establish identical ceiling prices for the "ABC" mattress and the "ABC" box spring whose CPR 22 ceiling prices are respectively $30 and $25. You sold during your most recent fiscal year 38,000 "ABC" mattresses and 10,000 "ABC" box springs. 38,000 divided by 10,000 is 3.8. The ratio of sales of mattresses to box springs is 3.8 to 1.0. $30 multiplied by 3.8 is $114. $114 plus $25 is $139. $139 divided by 4.8 (3.8 plus 1.0) is $28.96. $28.96 is your new ceiling price for the "ABC" mattress and the new ceiling price for the "ABC" box spring.

(d) *Rounding ceiling prices.* You may round your ceiling prices determined under this supplementary regulation so that they will be expressed in the nearest cents or fraction of cent you normally employ. If you elect to do so, you must similarly round the ceiling prices for all your commodities, whose ceiling prices are established by this supplementary regulation, which are normally priced by you upon the same basis, to reflect decreases as well as increases. In no event may the increase be greater than 1 percent of your ceiling price prior to rounding. For example, if you normally quote to the nearest 5 cents and your ceiling price for commodity "A" is $25.73, you may round that ceiling price to $25.75. However, if your ceiling price for commodity "B" is $20.62 you must round its ceiling price to $20.60. You may not round your CPR 22 ceiling price for a mattress or matching box spring until after you have made the adjustment permitted by this supplementary regulation.

(e) *Retention of GCPR ceiling price where the change in price is less than one percent.* If your ceiling price for a mattress and for its matching box spring as determined under this supplementary regulation differs by less than one percent from that under the General Ceiling Price Regulation, you may continue to use your GCPR ceiling price. However, you may do this only if you continue to use your GCPR prices for all commodities where ceiling prices determined under this supplementary regulation differ by less than one percent from the GCPR ceiling prices, regardless of whether decreases or increases result. For example, your GCPR ceiling price for an innerspring mattress is $20.00 and your ceiling price under this supplementary regulation is $19.90. Your GCPR ceiling price for a hair mattress is $30.00 and your ceiling price for such commodity under this supplementary regulation is $30.15. You may continue to use $20.00 as your ceiling price for your innerspring mattress, but if you do so, you must continue to use $30.00 as your ceiling price for the hair mattress.

SEC. 4. *Required report.* Before selling any mattress or box spring for which

you have determined a ceiling price under this supplementary regulation, you must file with the Consumer Durable Goods Division of the Office of Price Stabilization, Washington 25, D. C., a report on OPS Public Form No. 45. Copies of OPS Public Form No. 45 may be obtained from any regional or district office of the Office of Price Stabilization. The report on OPS Public Form No. 45 should be attached to your OPS Public Form No. 8 where the two forms cover the same commodities. If you have already filed OPS Public Form No. 8, so indicate on your report on OPS Public Form No. 45 and give the date of mailing of OPS Public Form No. 8. Fifteen days after mailing your report on OPS Public Form No. 45 you may sell the mattress and box spring covered by your report unless and until notified by the Director of Price Stabilization that your proposed ceiling prices have been disapproved. In the event that more information is needed, the Director of Price Stabilization may require that you do not sell the commodities until fifteen days after mailing the additional information.

SEC. 5. *Record keeping requirements.* (a) You shall prepare and preserve for the life of the Defense Production Act of 1950 and for two years thereafter all records necessary to determine whether you have properly calculated your ceiling prices under this supplementary regulation, including, but not limited to, records showing the number of units of innerspring, rubber, felt or hair mattresses and box springs sold (or produced where sales figures are lacking) by you during your last fiscal or calendar year.

(b) You shall preserve for a period of two years all records showing the prices at which sales of commodities subject to CPR 22 and this supplementary regulation have been made.

SEC. 6. *Ceiling prices for new commodities.* You may not use the ceiling prices determined under this regulation as your ceiling prices on the comparison commodity in pricing a new mattress or box spring under section 32 of CPR 22. For this purpose you must use the ceiling price determined under CPR 22. After you have determined a ceiling price for a new mattress or box spring under section 32, you may adjust such ceiling price in accordance with this supplementary regulation.

SEC. 7. *Discontinuance of matching commodity.* If, after calculating a ceiling price under this supplementary regulation for a matching mattress or box spring, you discontinue selling the mattress, you may not continue to use for the box spring the ceiling price previously calculated under this supplementary regulation. Your ceiling price for the box spring will be your ceiling price originally determined under CPR 22. If you discontinue selling the box spring, you may use the ceiling price determined under this supplementary regulation for the mattress or you may use the ceiling price for such commodity originally determined under CPR 22.

Effective date. This supplementary regulation to Ceiling Price Regulation 22 shall become effective July 25, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 20, 1951.

[F. R. Doc. 51-8563; Filed, July 20, 1951; 5:13 p. m.]

[General Ceiling Price Regulation, Amendment 1 to Supplementary Regulation 7]

GCPR, SR 7—PROCESSORS OF MANUFACTURED FEEDS

DRY DOG FOOD AS A MANUFACTURED FEED

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 7 (16 F. R. 1819) is hereby issued.

Statement of considerations. This amendment is intended to accomplish four things: (1) By including dry dog food in the definition of manufactured feeds in Supplementary Regulation 7, it provides for the adjustment of ceiling prices of dry dog food at the manufacturers' level in accordance with the provisions of the Supplementary Regulation; (2) it specifies that at the wholesale and retail levels, the ceiling prices of dry dog food are to be established by the provisions of CPR 14, 15 and 16; (3) it excludes canned and frozen foods prepared for household pets from the operation of Supplementary Regulation 7; and (4) it amends the filing provisions of Supplementary Regulation 7 by extending the time for the filing of information required by that Supplementary Regulation insofar as dry dog food is concerned.

Dry dog food is often manufactured by feed manufacturers, contains many of the same ingredients and is processed by the same methods as other manufactured feeds. The adjustment of ceiling prices of this product, at least at the manufacturer level, should, therefore, logically be established in accordance with Supplementary Regulation 7. However, prior to this amendment dry dog food, together with other foods prepared especially for household pets, was exempt from Supplementary Regulation 7. Accordingly, this amendment redefines manufactured feed, as used in Supplementary Regulation 7, to include dry dog food.

Dry dog food, when once sold by a manufacturer, passes, to a substantial extent, through the same wholesale and retail distributive channels as many grocery items. Ceiling prices for dry dog food, together with certain other foods for household pets, have, because of this distributive pattern, been established by Ceiling Price Regulation 14 (which deals with certain foods sold at wholesale) and Ceiling Price Regulations 15 and 16 (which respectively deal with certain foods sold at retail by Group 3 and 4 retail stores, and Group 1 and Group 2 retail stores).

This amendment makes it clear that, while processors' prices for dry dog food will be determined under Supplementary Regulation 7, wholesale and retail prices for dry dog food will continue to be determined in accordance with Ceiling Price Regulations 14, 15 and 16. Wholesalers and retailers covered by these regulations customarily handle dry dog food but do not generally sell the other "manufactured feeds" covered by Supplementary Regulation 7. It is logical, therefore, for them to refer to the series of regulations covering most of the products they sell, in ascertaining their prices for a particular item, rather than to refer to a regulation dealing with products (manufactured feeds) with which, save for dry dog food, they ordinarily have no concern.

Canned and frozen foods prepared especially for household pets are not generally processed by feed manufacturers, are ordinarily processed by different methods than manufactured feeds, and are not, technically speaking, regarded as manufactured feeds by persons in the trade. Therefore, this amendment has not redefined a manufactured feed to include such products, and ceiling prices for such products are not to be determined in accordance with Supplementary Regulation 7.

AMENDATORY PROVISIONS

Supplementary Regulation 7 to the General Ceiling Price Regulation is amended in the following respects:

1. Section 2 is amended to read as follows:

SEC. 2. *Ceiling prices of wholesalers and retailers.*—(a) *Ceiling prices for manufactured feeds, other than dry dog food.* If you are a seller of manufactured feeds, other than a manufacturer, and your supplier increases his ceiling price for a manufactured feed, other than dry dog food, in accordance with the provisions of this regulation, you may increase your ceiling price by the same amount in dollars and cents as the increase in ceiling price of your supplier.

(b) *Ceiling prices for dry dog food.* If you are a seller, other than a manufacturer, as defined in this section, your ceiling price for dry dog food shall not be determined in accordance with this supplementary regulation, but shall be determined in accordance with Ceiling Price Regulation 14 (dealing with ceiling prices for certain foods sold at wholesale), Ceiling Price Regulation 15 or Ceiling Price Regulation 16 (dealing with prices of certain foods sold at retail), whichever one is applicable to you.

2. Section 3 (a) is amended by adding the following after the phrase "by giving the following information": "*Provided, however,* That the date for furnishing the Director of Price Stabilization with such information with respect to dry dog food shall be extended to within 30 days after July 25, 1951."

3. The first paragraph of section 4 (2) is amended to read as follows:

(2) *Manufactured feed.* "Manufactured feed" is a mixture or blend of more than one ingredient for the purpose of feeding to animals or poultry, either in the same form or in combinations with other ingredients (including scratch-chick or growing grains consisting entirely of recleaned grains, seeds, grit and shell containing no more than 10 percent of grain flour or screenings that will pass through a No. 20 standard tinned mill wire, and all dry type dog foods containing less than 15 percent moisture), except that the following commodities shall not be considered manufactured feeds under this supplementary regulation:

4. Section 4 (2) (iii) is amended to read as follows:

(iii) Canned and frozen foods prepared especially for household pets.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective on July 25, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 20, 1951.

[F. R. Doc. 51-8553; Filed, July 20, 1951; 4:04 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 43]

GCPR, SR 43—BOTTLED SOFT DRINKS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency Order No. 2 (16 F. R. 738), this supplementary regulation to the General Ceiling Price Regulation (16 F. R. 808) is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying supplementary regulation to the General Ceiling Price Regulation allows manufacturers and wholesalers of soft drinks put up in 6 to 12 ounce bottles to increase their prices to retailers up to a prescribed maximum. Retailers whose costs are actually increased under this regulation beyond a specified point as well as retailers who are already being charged equally high prices by their suppliers are allowed to advance their prices for sales of single bottles. Many retailers customarily charge less per bottle when a consumer buys more than one bottle. Any retailers who have had such a custom and are permitted to advance their single bottle prices under this regulation must maintain their customary differentials for multiple unit sales. The regulation also allows increased soft drink bottle deposit charges not to exceed replacement costs for bottles of all sizes and provides a method for taking account of State and local excise and sales taxes which were not separately stated and collected during the base period established under the General Ceiling Price Regulation.

For many years prior to 1946, the prices of soft drinks in 6 to 12 ounce bottle were relatively uniform at both wholesale and retail levels. The standard price pattern as it stood in 1946 was 80 cents per case of 24 bottles at wholesale and five cents per bottle or six bottles for 25 cents at retail. Since that time there has been a trend toward higher wholesale and retail prices. Available data indicate that more than 50 percent of current production and sales is at more than 80 cents, with 96 cents a case the predominant figure in sales at a price over 80 cents. That trend was, of course, halted by the issuances of the General Ceiling Price Regulation.

This higher price trend was the result of the pressure of rising labor, material and equipment costs, but it did not move at the same rate as the rising costs. While the volume of production and consumption of soft drinks has increased tremendously—over 100 percent in sales value since 1939—the increase has not been distributed generally throughout the industry. A few of the franchised groups of manufacturers have accounted for the major part of the increase, with the sales volume for most others more nearly stationary. Where volume has increased, indirect costs of production have declined. As a consequence, the manufacturers who benefitted most from this upsurge of sales volume were better able to resist the pressure of rising direct costs, to retain the traditional five cents a bottle price, and strengthen their competitive position. Independent manufacturers were in large part faced with the choice of raising their prices and risking the loss of their competitive position or of keeping their prices as near as possible to the traditional levels and risking financial loss. Some chose the latter alternative, while others began to move in the direction of raising prices.

The Senate Select Committee on Small Business surveyed the economic status of the soft drink industry in 1950 and reported a situation of distress for a large portion of the industry. See Report No. 2, dated January 15, 1951. The Committee estimated that two-thirds of the 6,500 manufacturers of soft drinks were losing money or barely managing to break even. While this distress has, no doubt, been relieved to some extent by the previously mentioned adjustment of prices, available data indicate that extensive and serious hardship still prevails. As already noted, the growing correction of cost-price relationships was interrupted by the issuance of the General Ceiling Price Regulation which added legal obstacles to the economic ones already in existence. The Director therefore considers it necessary in order to relieve that hardship to provide an opportunity for continued movement toward the reflection in selling prices of highly increased costs and for the development of a generally equitable price structure for this industry. The extent, however, to which ceiling prices are permitted to advance is strictly limited in the light of the purposes of the economic stabilization program.

It has been customary for the retailer to price single unit sales of soft drinks in 6 to 12 ounce sizes at 50 percent above his invoice cost. Thus the 80 cents wholesale price has been accompanied by a five cent retail price for a single unit sale. The minimum increase in retail price for single unit sales is, of course, one cent. Wholesalers and manufacturers have recognized this retail price structure by tending to increase their case prices to the retailer by 16 cents or multiples thereof. As a result the retailer has been able to increase his price and maintain the same markup. Following this pattern, wherever the wholesale price has gone to 96 cents a case retailers have almost uniformly raised their single unit price to six cents. The accompanying regulation takes this historical price relationship as its guide. Accordingly, in allowing a price increase which would take care of the cost problem which has been described, the amount of increase permitted is 16 cents up to 96 cents a case, the most convenient next interval in the industry's price structure. The wholesale price limit of 96 cents per case is, on the basis of available data, considered not excessive in relation to increased costs of production and to the general level of prices.

Manufacturers and wholesalers may, of course, choose to increase their prices less than the full amount allowed for in some cases. They may find it competitively impossible to take any more than the minimum increase necessary to prevent losses. In such cases, the retailer, whose markup on soft drinks is much higher than that for most other standard grocery products, will be required to absorb the increase. This is, however, balanced by the fact that the retailer whose current ceiling price is five cents a bottle and whose cost is over 88 cents or whose cost is raised as much as eight cents but less than 16 cents a case under this regulation, is permitted to abandon differentials for multiple unit sales.

Reference has been made to the provisions of the regulation regarding deposit charges for soft drink bottles. As a result of orders of the National Production Authority curtailing use of other materials for container purposes, there has been an increased demand for glass containers. That demand has become so great that glass manufacturers have established a system of allocation for their customers.

Conservation of glass has become an obvious necessity in forwarding the defense effort. A considerable amount of glass is constantly wasted because purchasers of soft drinks in bottles of all sizes fail to return the empty bottle despite deposit charges. Increased deposit charges within the limits of replacement costs will encourage the return of empty bottles and thereby make them available for reuse. This regulation permits such increased deposit charges on bottles of all sizes, but not beyond replacement costs, which are, of course, fixed as a result of the General Ceiling Price Regulation.

In some instances special taxes attach to soft drinks or their sale. Where such taxes have been included in ceiling prices, the regulation permits them to be

deducted for purposes of determining whether sellers are entitled to new ceilings under this regulation. In addition, it requires a reduction in ceiling prices whenever such taxes are decreased or terminated.

FINDINGS OF THE DIRECTOR

In the judgment of the Director of Price Stabilization, the ceiling prices established by this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in the furtherance of the objectives of the Defense Production Act of 1950; to parity prices and the other minimum requirements of the law including prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to relevant factors of general applicability. The provisions of this regulation have been discussed with the Industry Advisory Committee which has expressed its general concurrence with them.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Where this regulation applies.
3. Definition.
4. Pricing for sales to retailers.
5. Pricing by retailers.
6. Notice of ceiling price increases.
7. Bottle deposit charges.
8. Continued applicability of General Ceiling Price Regulation.
9. How to take account of taxes.

AUTHORITY: Sections 1 to 9 issued under sec. 704, Pub. Law 774, 81st Cong.

SECTION 1. *What this regulation does.* This supplementary regulation permits wholesale sellers of soft drinks whose ceiling prices are below 95 cents for a case of 24 bottles to increase their prices 16 cents up to 96 cents a case. It also allows manufacturers of soft drinks in bottles of all sizes to charge bottle deposits not to exceed replacement costs, and wholesalers and retailers to pass such charges along. Finally, it permits retailers, whose actual costs after the effective date of this regulation are 96 cents a case or more, or are increased by at least 16 cents a case, to increase their single bottle price to six cents, subject to maintaining their customary differentials for multiple unit sales.

SEC. 2. *Where this regulation applies.* This regulation applies to the United States, its Territories and possessions and the District of Columbia.

SEC. 3. *Definition.* (a) For purposes of this regulation, other than section 7, "soft drinks" means non-alcoholic beverages in bottles of 6 to 12 ounces, whether flavored or unflavored, carbonated or uncarbonated. The term does not include, however, bottled water which is neither flavored nor carbonated, milk drinks, or drinks consisting of fruit juices or vegetable juices where at least 85 percent by weight of the drink is fruit juice or vegetable juice or a mixture of both.

(b) For purposes of section 7 of this regulation, "soft drink" means soft drink as defined in paragraph (a) of this section, except that soft drinks in bottles of all sizes are included.

SEC. 4. *Pricing for sales to retailers.* If you sell a soft drink to retailers and have, pursuant to sections 3, 4, 5, 6, or 7 of the General Ceiling Price Regulation, a ceiling price to retailers of 95 cents or less for a case of 24 bottles, you may increase that price by adding to it 16 cents so long as your new ceiling price is not higher than 96 cents a case.

Thus for example: If your ceiling price is 75 cents a case, you may increase your ceiling price to 91 cents. But, if your ceiling price is 84 cents, you may increase it only to 96 cents.

SEC. 5. *Pricing by retailers.* (a) If you sell soft drinks at retail and your supplier, after the effective date of this regulation, charges you at the rate of 96 cents or more for a case of 24 bottles of any soft drink, or increases his price to you by 16 cents for a case of that size, and your ceiling price is less than 6 cents you may increase your ceiling price to 6 cents for a bottle of that drink.

(b) If your ceiling price prior to the issuance of this regulation is five cents for a bottle of a particular soft drink and (1) your supplier now increases his price to you by at least eight cents but less than 16 cents for a case, or (2) your supplier's price to you now is at least 88 cents for a case, you may, despite the provisions of section 9 of the General Ceiling Price Regulation, discontinue any practice you may now have of selling the soft drink involved at a special price to those who purchase more than one bottle at a time.

SEC. 6. *Notice of ceiling price increases.* Any ceiling price you establish under section 4 of this supplementary regulation will not become effective until after you have sent a notice to the Director of Price Stabilization, Washington 25, D. C., by registered mail, setting forth the proposed ceiling price and data showing that that price is authorized under the provisions of this regulation.

SEC. 7. *Bottle deposit charges.* (a) If you are a manufacturer of soft drinks in bottles of any size, you may increase your deposit charges to an amount equal to, but not more than, your average current replacement cost for the type of bottle involved. You may, however, round off to the nearest higher cent a fraction of one-half cent or more in any deposit charge increased under this section.

(b) If you are a seller of soft drinks and your supplier has, pursuant to paragraph (a) of this section, increased his bottle deposit charge to you, you may increase your deposit charge to your purchasers in the same dollars and cents amount as your supplier has increased his charge to you.

SEC. 8. *Continued applicability of General Ceiling Price Regulation.* All provisions of the General Ceiling Price Regulation, except as modified by this supplementary regulation, continue to apply to you even though you may be one of the sellers who are authorized under this regulation to increase their ceiling prices. The only sections of the General Ceiling Price Regulation which are in any sense modified by this regulation are sections 3, 4, 5, 6, and 7.

SEC. 9. *How to take account of taxes.* If your ceiling price otherwise established under the General Ceiling Price Regulation includes any State or local excise, sales or other tax which attaches to soft drinks or to their individual sale, you may for purposes of determining whether you are entitled to one of the ceiling prices authorized under section 4 or 5 of this supplementary regulation, ignore the amount of the tax. You may, however, then re-add the amount of the tax to your new ceiling price if you are entitled to one. Whenever such a tax is decreased, you must from the effective date of the decrease, reduce your ceiling price by the amount of the decrease. The provisions of this section are in addition to those contained in section 20 of the General Ceiling Price Regulation.

Effective date. This regulation shall become effective July 28, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 23, 1951.

[General Overriding Regulation 13 Amendment 1]

[General Overriding Regulation 13, Amendment 1]

GOR 13—CONTINUATION OF CEILING PRICES IN EFFECT ON JUNE 30, 1951, FOR COMMODITIES OR SERVICES COVERED BY SPECIFIED MANUFACTURERS' REGULATIONS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to General Overriding Regulation 13 is hereby issued.

STATEMENT OF CONSIDERATIONS

Since the issuance on June 30, 1951 of General Overriding Regulation 13, a study of the problems raised has indicated a need to expand the provisions of section 2 (b) to express in more detail the intention of section 2 (a) as set forth in the Statement of Considerations to General Overriding Regulation 13. Section 2 (b), as now amended, makes it clear that a regulation listed in section 1, such as CPR 22, was not put into effect on or before June 30, 1951, unless a seller had on or before that date complied with all of the requirements of the regulation and had also taken affirmative action to put it into effect on or before that date.

In a number of instances a manufacturer took all of the steps available and possible in order to make a listed regulation, such as CPR 22, effective as to him on or before June 30, 1951, including the issuance of a price list setting forth his price increases under such regulation, but for business convenience did not wish to charge his higher prices until after June 30. The interpretation of GOR 13 up to now has been that under these circumstances the listed regulation was not in effect on June 30 since the price announcement applied only to transactions after June 30. However, it has been brought to the attention of OPS that in some cases the manufacturers involved intended to make the regulation effective at once and merely exercised their right to sell at below ceiling prices for a short time rather than change prices before the end of the month. To now invalidate the manufacturer's price list or announcement and make him revert to his previous ceilings would be a burdensome requirement which might have an unstabilizing effect on prices and is not required by the stabilization program. Accordingly, under this amendment, if such a manufacturer had filed his proposed price increases and had otherwise complied with the regulation in sufficient time so that he could have put those price increases into effect prior to July 1, 1951, and in addition he had, prior to July 1, 1951, issued an announcement of his new prices, he may consider CPR 22, or a related regulation, in effect as to him as of June 30, 1951, if that was actually his intention. The statement in his price list that the new prices were to be effective after June 30, 1951 would not be considered as indicating a contrary intention. Of course, where a manufacturer, under these circumstances, intended to put CPR 22 or CPR 30 into effect on or before June 30, 1951, it was in effect as to all his commodities subject to the regulation, whether price increases or decreases were involved.

AMENDATORY PROVISIONS

Section 2 (b) of General Overriding Regulation 13 is amended to read as follows:

(b) A regulation listed in section 1 of this regulation was not effective on or before June 30, 1951 as to you, unless you on or before June 30, 1951 both complied with all of the requirements of that regulation and had taken some affirmative action indicating your intention to put it into effect as to you before July 1, 1951. However, if on or before June 30, 1951, you had issued a price list or announcement of your price increases under CPR 22, or another listed regulation, but specified that such new prices were to become effective only after June 30, 1951, you may nevertheless consider CPR 22, or such other regulation, as in effect as to you on June 30, 1951: *Provided*, That:

(1) On or before June 30, 1951, you had complied with all the provisions of that regulation.

(2) If your price list or announcement included proposed price increases under CPR 22 or CPR 30, your Public Forms No. 8 with respect to such proposed increases had been filed on or before June 14, 1951, so that you were permitted to use such higher ceiling prices on June 30, 1951.

If you come within the terms of subparagraph (1) and (2) of this paragraph, you may consider CPR 22, or another listed regulation, in effect as to you on June 30, 1951, and use your higher ceiling prices. However, if either CPR 22 or CPR 30 was in effect as to you on June 30, 1951, it was in effect for all your commodities subject to that regulation, whether price increases or price decreases are involved.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This Amendment 1 to the General Overriding Regulation 13 is effective as of June 30, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 23, 1951.

[F. R. Doc. 51-8587; Filed, July 23, 1951; 11:52 a. m.]

[General Overriding Regulation 13, Amendment 2]

GOR 13—CONTINUATION OF CEILING PRICES IN EFFECT ON JUNE 30, 1951, FOR COMMODITIES OR SERVICES COVERED BY SPECIFIED MANUFACTURERS' REGULATIONS

PERMISSION FOR APPAREL MANUFACTURERS TO PRICE UNDER CPR 45 IMMEDIATELY

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this Amendment 2 to General Overriding Regulation 13 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 13 permits a manufacturer subject to Ceiling Price Regulation 45 to price and sell articles covered by the latter regulation immediately. It makes inapplicable to such a manufacturer the provisions of sections 2 (a), 2 (b), 3 and 4 of GOR 13. If the manufacturer computes a CPR 45 ceiling price for an article which is lower than his GCPR ceiling price for that article, under section 2 (c) he may elect to continue to use his GCPR ceiling price until further notice.

Since the issuance of GOR 13, the impact of that regulation upon manufacturers of apparel has raised a special problem which has been given careful study by this Agency. CPR 45 was issued much later than other manufacturers' regulations affected by GOR 13. Manufacturers subject to CPR 18, Revision 1 and CPR 37 had to a large degree determined and placed in effect before June 30, 1951, their new ceiling prices under these regulations for yarns and fabrics. Many of these new ceiling prices were considerably higher than the pre-existing GCPR prices. On the other hand, most manufacturers subject to CPR 45 had not been able to complete calculations of their new ceiling prices or to put them in effect before this date. These manufacturers, therefore, were required to continue to use their GCPR prices for their articles although their manufacturing materials costs had risen considerably by virtue of their supplier's increased ceiling prices under CPR 37 and CPR 18, Revision 1. Apparel manufacturers using woolen yarns and fabrics in the manufacture of their articles have been particularly squeezed since CPR 18, Revision 1 permitted manufacturers of these commodities to pass through their greatly increased costs of wool up to March 15, 1951.

Upon the basis of studies made as to the effect of GOR 13 upon apparel manufacturers, the Director has concluded that it is necessary, in order to prevent widespread hardships and inequities, to permit all such manufacturers to price immediately under CPR 45. If the computation of his CPR 45 ceiling price for an article results in a price lower than his GCPR ceiling price, the manufacturer may continue, of course, in view of the Joint Resolution, to use his GCPR ceiling price until further notice.

AMENDATORY PROVISIONS

General Overriding Regulation 13 is amended by adding paragraph (c) to section 2 which reads as follows:

(c) Insofar as you are subject to the provisions of CPR 45, sections 2 (a) and (b), 3 and 4 of this General Overriding Regulation do not apply to you. You may establish and use ceiling prices for your articles in accordance with CPR 45 immediately. If you use your CPR 45 ceiling price for an article, you must establish your ceiling prices under CPR 45 for all other articles in the same category. If, however, your CPR 45 ceiling price for an article is below your GCPR ceiling price for that article, you may elect to use your GCPR ceiling price for that article until further notice.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment is effective July 23, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

JULY 23, 1951.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-47A, Direction 1]

M-47A—USE OF IRON AND STEEL, COPPER, AND ALUMINUM IN CERTAIN CONSUMER DURABLE GOODS AND RELATED PRODUCTS

DIR. 1—FILING OF CMP-4B APPLICATION FORMS COVERING MANUFACTURE DURING THE FOURTH QUARTER OF PRODUCTS SUBJECT TO NPA ORDER M-47A

This direction to NPA Order M-47A is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the necessity for immediate action and because the direction affects a large number of different trades and industries.

Sec.
1. Purpose.
2. Application for requirements as to products listed in NPA Order M-47A.

AUTHORITY: Sections 1 and 2 issued under sec. 704, Pub. Law 774, 81st Cong., Pub. Law 69, 82d Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., Pub. Law 69, 82d Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951; 16 F. R. 61.

SECTION 1. *Purpose.* The purpose of this direction is to advise persons subject to NPA Order M-47A of certain provisions of Instructions for Preparing Form CMP-4B, covering requirements of controlled materials to be used in production during the fourth quarter of 1951.

SEC. 2. *Application for requirements as to products listed in NPA Order M-47A.* The instructions relating to the filing of CMP-4B application forms for the fourth quarter require applications to be filed by July 31, 1951, for products previously marked with an asterisk in the "Official CMP Class B Products List." Most of the products included in Lists A and B of NPA Order M-47A were previously asterisked products. Regarding such products, the instructions state in pertinent part as follows:

A manufacturer of a product using controlled materials from which no CMP allotments were made for the third quarter 1951 (those previously marked with an asterisk in the "Official CMP Class B Product List"), may apply for material actually needed for his production schedule for fourth quarter 1951, but in no case shall his material requirements exceed the following:

(1) Materials needed to manufacture and/or assemble products needed to fill rated orders during the fourth quarter 1951, plus

(2) The quantity of materials permitted for consumption in the third quarter 1951 under the terms of NPA Order M-47A.

Application Forms CMP-4B, together with the instructions relating thereto, are available at all field offices of the Department of Commerce.

This direction shall be effective on July 20, 1951.

NATIONAL PRODUCTION AUTHORITY,
MANLY FLEISCHMANN,
Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), §§ 207.50, 207.158, 207.188 (a), 207.510, 207.640 (c) (3) (ii), and 207.900 (a) are hereby amended, and §§ 207.30 and 207.441 are hereby prescribed, as follows:

§ 207.30 *Block Island Sound southeast of Fishers Island, N. Y.; naval restricted area*—(a) *The area.* The waters of Block Island Sound southeast of Fishers Island, New York, described as follows: Beginning at latitude 41°15'42", longitude 71°56'26"; thence to latitude 41°15'48", longitude 71°54'50"; thence to latitude 41°15'10", longitude 71°54'10"; thence to latitude 41°15'15", longitude 71°56'53"; and thence to the point of beginning. A training dummy minefield has been established in this area, the corners of which are marked by orange and white horizontal striped can buoys. The mines are moored at depths in excess of 40 feet.

(b) *The regulations.* (1) In order to prevent fishing and other vessels from interfering with training operations in this area by the possible disturbance of the mines and to prevent damage to fishing gear, all vessels except naval vessels using the area for training purposes are prohibited from passing through or operating within the area.

(2) The regulations in this section shall be enforced by the Commander, Submarine Force, United States Atlantic Fleet, and such agencies as he may designate.

§ 207.50 *Hudson River Lock at Troy, N. Y.; navigation.* * * *

(b) *Signals.* Steamboats or tows desiring lockage in either direction shall give notice to the lock tenders, when not more than three-fourths mile from the lock, by one long blast of (10 seconds' duration), followed by one short blast (of three seconds' duration), or a whistle or horn. When the lock is ready for entrance a green light will be shown from the river wall. An amber light will indicate that the lock is being made ready for entrance. A red light will indicate that the approaching vessel must wait. Whenever local conditions make it advisable the visual signals will be supplemented by sound signals as follows:

(1) One long blast of a horn to indicate that the vessel must wait.

(2) One short blast of a horn to indicate that the lock is being made ready for entrance.

(3) Two short blasts of a horn to indicate permission to enter the lock.

(4) Four short and rapid blasts to attract attention, indicate caution, and signal danger.

* * * * *

(d) *Precedence.* Usually the boat arriving first at the lock will be the first locked through, but when many boats are to be passed precedence will be given to boats owned or operated by the United States Government. Passenger boats will have precedence over tows and like craft. If the traffic is crowded in both directions, up and down lockages will usually be made alternately, but the lock tender may permit two or more lockages to be made at one time in the same direction when this will not cause unreasonable delay. When two or more vessels or tows arrive at the lock from the same direction at the same time, the landward vessel on the lock side of the river shall have precedence, and the riverward vessel shall stop and give way to the landward vessel on the lock side. Arrival posts or markers may be established ashore above or below the lock. Vessels arriving at or opposite such posts or markers will be considered as having arrived at the lock within the meaning of this paragraph. No boat shall run ahead of another while in the lock. The boat that enters first shall leave first.

* * * * *

(o) *Penalties.* In addition to the penalties prescribed by law, boats which fail to comply with the regulations in this section will thereafter be refused lockage until assurances have ben received, satisfactory to the District Engineer, Corps of Engineers, New York, New York, that the regulations will be complied with.

(p) *Copies of regulations.* [Revoked.]

(q) *Effective date.* [Revoked.]

§ 207.158 *Chesapeake Bay entrance; naval restricted area*—(a) *The area.* Beginning at a point on the south shore of Chesapeake Bay at longitude 76°03'06", thence to latitude 37 01'24", longitude 76°02'06", thence to latitude 37°06'15", longitude 76°00'42"; thence 90° true to longitude 75°58'50"; thence to a point on the east shore of Chesapeake Bay at latitude 37°07'18"; thence southerly and northeasterly along the shore at Wise Point to longitude 75°57'30"; thence 180° true to latitude 37°05'36"; thence to latitude 37°04'00", longitude 75°50'00"; thence 180° true to latitude 36°48'00"; thence 270° true to longitude 75°55'00"; thence to latitude 36°53'00", longitude 75°56'00"; thence 270° true to the shore; and thence northwesterly and southwesterly along the shore at Cape Henry to the point of beginning.

(b) *The regulations.* (1) Anchoring, trawling, crabbing, fishing, and dragging in the area are prohibited, and no object attached to a vessel or otherwise shall be placed on or near the bottom.

(2) This section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 207.188 *Corpus Christi Bay and Laguna Madre; seaplane restricted area, Naval Air Station, Corpus Christi, Tex.*—(a) *The area.* The waters of Corpus Christi Bay and Laguna Madre within an area described as follows: Beginning at a point on the south shore of Corpus Christi Bay at the "North Gate" of the Naval Air Station (at approximate longitude 97°17'15"); thence to latitude 27°44'30", longitude 97°20'00"; thence due north to latitude 27°46'30"; thence to Spoil Bank Light; thence to latitude 27°43'04", longitude 97°13'12"; thence to latitude 27°40'44", longitude 97°14'12"; thence to a point on the east shore of Encinal Peninsula at latitude 27°40'00"; thence generally northerly along the shore to Flour Bluff Point; and thence westerly along the south shore of Corpus Christi Bay to the point of beginning.

* * * * *

§ 207.441 *St. Marys Falls Canal and Locks, Mich.; security*—(a) *Purpose and scope of special regulations.* The regulations in this section are prescribed as protective measures during the present emergency. They supplement the general regulations contained in § 207.440 the provisions of which shall remain in full force and effect except as modified by this section.

(b) *Restrictions on transit of vessels.* The following classes of vessels will not be permitted to transit the United States locks or enter any of the United States approach canals:

(1) All foreign vessels except those of Canadian registry.

(2) All passenger vessels, including those of United States registry.

(3) All pleasure craft.

(4) All small work craft other than United States Government craft and local harbor tugs regularly engaged in assisting vessels in transit.

(5) All oil tankers not having too great a draft or beam to transit the Canadian lock; those having too great a draft or beam to transit the Canadian lock may continue to use the United States locks.

(6) All vessels carrying explosives.

(c) *Personnel restrictions.* (1) Control of all persons embarking on and debarking from vessels while transiting the canal is vested in the Commanding General, Fifth Army, and his military representative at Sault Ste. Marie, Michigan, and the procedures set forth in this paragraph are established in connection therewith.

(2) Only the master or mate and two or three linesmen will be permitted to go ashore from transiting vessels and then only for normal operations and business incident to the transit. A maximum of four men will be permitted to go ashore from any one ship.

(3) Company officials or representatives, technicians employed directly or indirectly by the vessel owners, and vessel personnel, desiring to embark or debark in the canal, must direct written requests therefor to the designated military commander at Sault Ste. Marie sufficiently in advance so that written authority for the action, if approved, may be delivered to the person or persons affected prior to their arrival at the canal. Any such person embarking shall present his letter of authority to the Officer of the Day at the military gate at the canal. Any such person debarking shall present his letter of authority to the military escort meeting his vessel when in the lock chamber.

(4) All persons other than those enumerated in subparagraphs (2) and (3) of this paragraph, desiring to embark or debark in the canal, must direct written requests therefor to the Commanding General, Fifth Army, 1660 East Hyde Park Boulevard, Chicago 52, Illinois, Attention: Assistant Chief of Staff, G-2, sufficiently in advance so that written authority for the action, if approved, may be delivered to the person or persons affected prior to their arrival at the canal. Any such person embarking shall present his letter of authority to the Officer of the Day at the military gate at the canal. Any such person debarking shall present his letter of authority to the military escort meeting his vessel when in the lock chamber.

(5) Emergency needs to embark or debark which develop with insufficient time to follow the procedure outlined in this paragraph will be approved or disapproved by the designated military commander at Sault Ste. Marie according to the circumstances of the individual case, and requests therefor should be promptly directed to him.

(d) *Inspection of vessels.* (1) Immediately prior to arrival at the canal the master shall make or cause to be made by a licensed officer a special inspection of the ship. Such inspection shall include examination of openings to all closed compartments, the forepeak and afterpeak, blind hold, dunnage room, windlass room, and chain locker, and examination of bolt fastenings so as to detect signs of any tampering. Entry of such inspection shall be made in the ship's log.

(2) After making the inspection and prior to entering the canal a yellow flag three feet square showing a black ball in the center (International Signal Code "I") shall be displayed from the forward part of the ship to notify canal officials that the required inspection has been made. The privileges of passing through the canal will be granted only when this flag is flown.

(3) Ships complying with the regulations and displaying the flag may be permitted to enter the canal at the discretion of the United States Coast Guard. The Coast Guard has authority to board vessels at any time for the purpose of making investigations or examinations.

§ 207.510 *Connecting waters of the Great Lakes from Lake Huron to Lake Erie; use, administration, and navigation.* * * *

(c-1) *Temporary regulations governing use of Livingstone Channel and Amherstburg Channel by small craft.* (1) During the present emergency, the Livingstone Channel from its intersection with the Ballards Reef Channel approximately three-fourths mile above Stony Island to its intersection with the Amherstburg Channel approximately three miles below Bois Blanc Island shall be closed to all small craft of less than 100 gross tons, except those owned or operated by the United States or Canadian Government and tugs regularly engaged in commercial towing. Small craft either upbound or downbound shall use the Amherstburg Channel (east of Bois Blanc Island).

(2) Small craft desiring to cross the Livingstone Channel may, at the discretion of the District Engineer, be permitted to do so at the "Sugar Island Cut" opposite the head of Bois Blanc Island provided that a clear distance of not less than 1,000 feet is maintained between such craft and vessels moving in the Livingstone Channel in an authorized manner.

* * * * *

§ 207.640 *San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, California.* * * *

(c) *San Francisco Bay; seaplane restricted area, Naval Air Station, Alameda.* * * *

(3) *The regulations.* * * *

(ii) Surface watercraft * * * on the breakwater. Craft navigating this channel-way shall pass directly through and shall obey such verbal instructions regarding passage as may be given from the naval surface vessel patrolling the seadrome restricted area.

* * * * *

§ 207.900 *Restricted areas in vicinity of Maritime Administration Reserve Fleets.* (a) The regulations in this section shall govern the use and navigation of waters in the vicinity of the following National Defense Reserve Fleets of the Maritime Administration, Department of Commerce:

(1) Hudson River Reserve Fleet, Jones Point, New York.

(2) James River Reserve Fleet, Fort Eustis, Virginia.

(3) Wilmington Reserve Fleet, Brunswick River near Wilmington, North Carolina.

(4) Mobile Reserve Fleet, Tensaw River near Bay Minette, Alabama.

(5) Beaumont Reserve Fleet, Neches River near Beaumont, Texas.

(6) Suisun Bay Reserve Fleet near Benicia, California.

(7) Astoria Reserve Fleet, Cathlamet Bay near John Day Point, Oregon.

(8) Olympia Reserve Fleet, Budd Inlet at Olympia, Washington.

* * * * * *

[Regs., July 5, 1951, 800.2121-ENGWO] (40 Stat. 266; 33 U. S. C. 1)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
Acting The Adjutant General.

[F. R. Doc. 51-8500; Filed, July 23, 1951; 8:46 a. m.]

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 51-19]

MISCELLANEOUS AMENDMENTS TO CHAPTER

A notice regarding proposed changes in the regulations for the transportation of inflammable liquids and specifications for fibrous glass life preservers, pistol projected parachute red flare distress signals and signal pistols was published in the FEDERAL REGISTER dated February 27, 1951, 16 F. R. 1831, as Items III and IV on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on March 27, 1951, in Washington, D. C. All the comments submitted were considered and where practicable were incorporated into the regulations.

The purpose of the amendments to 46 CFR §§ 146.03-9, 146.04-5, 146.21-1 to 146.21-100, inclusive, and 146.25-100 is to revise the requirements for the transportation of inflammable liquids so that the Coast Guard requirements will be in agreement with the Interstate Commerce Commission's regulations and will contain new requirements covering new inflammable liquids which have become commercially important. The subpart entitled "Detailed Regulations Governing Inflammable Liquids" has been brought up to date and the text of former §§ 146.21-1, 146.21-2, 146.21-14, and 146.21-100 was revised. The regulations in this subpart have been renumbered in order to allow for future expansion of text if necessary. For convenience tables showing the old section numbers and the new section numbers assigned are printed below and the asterisks indicate which sections have been revised.

COMPARISON OF OLD SECTION NUMBERS WITH NEW SECTION NUMBERS

Old section Nos.	New section Nos.

146.21-70	146.21-15
146.21-75	146.21-16
•146.21-100	•146.21-100

The purpose for adding a new specification covering life preservers using fibrous glass as buoyant material as 46 CFR Subpart § 160.005 in Subchapter Q, Specifications, is to provide an alternate type of life preserver for use on inspected vessels. This specification sets forth the requirements to be followed in manufacturing life preservers using fibrous glass as buoyant material, as well as inspections and tests required, and the procedures for obtaining approval.

The purpose for the two specifications covering pistol projected parachute red flare distress signals and signal pistols is to separate present specification requirements into two specifications in order that manufacturing requirements may be more easily understood. The revision of the specifications does not change the requirements or add new requirements except that the cost of qualification tests for type or brand approval must now be borne by the manufacturer. The specification in 46 CFR Subpart § 160.024 now contains the requirements to be followed in the manufacturing of pistol projected parachute red flare distress signals. The specification in 46 CFR Subpart § 160.028 contains the requirements to be followed in the manufacturing of signal pistols. These specifications also contain the requirements covering the inspections and tests required and procedures for obtaining approval.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120 dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective 90 days after date of publication of this document in the FEDERAL REGISTER:

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

SUBPART — DEFINITIONS OF WORDS AND TERMS CONTAINED WITHIN THE REGULATIONS IN THIS SUBCHAPTER

1. Part 146 is amended by adding a new § 146.03-9 reading as follows:

§ 146.03-9 *Flammable or inflammable.* For the purpose of the regulations in this subchapter, the words "inflammable" and "flammable," are interchangeable or synonymous terms.

(R. S. 4405, as amended, 4472, as amended; 46 U. S. C. 375, 170. Interpret or apply Sec. 5, 55 Stat. 244, as amended; 50 U. S. C. App. 1275)

SUBPART—LIST OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ARTICLES SUBJECT TO THE REGULATIONS IN THIS SUBCHAPTER

2. Section 146.04-5 is amended to read as follows:

§ 146.04-5 *List of explosives and other dangerous articles and combustible liquids.*

Article	Classed as—	Label req.[1]
Acetaldehyde (*ethyl aldehyde*)	Inf. L	Red.
Acetic acid (*Aqueous solution*)	Comb. L	
Acetic acid, glacial	Comb. L	
Acetic anhydride	Comb. L	
Acetone	Inf. L	Red.
Acetone oils	Comb. L	
•Acetone oils	Inf. L	Red.
Acetyl chloride	Cor. L	White.
Acetylene	Inf. G	Red.
Acid carboys, empty (see: "Carboys, empty")	Haz	
Acids, liquid, N. O. S.	Cor. L	White.
Acid, picric. (See: "Picric acid.")		
Acid, sludge. (See: "Sludge acid.")		
Acrolein (*inhibited*)	Inf. L	Red.
Acrylonitrile	Inf. L	Red.
Aeroplane flares. (See: "Fireworks.")		
Air, compressed	Noninf. G	Green.
•Alcohol or alcohol, N. O. S.	Inf. L	Red.
Alcohol, allyl, liquid	Pois. B	Poison.
Alcohol, amyl (*normal primary, normal secondary, isoamyl*)	Comb. L	
•Alcohol, butyl	Comb. L	
•Alcohol, butyl	Inf. L	Red.
•Alcohol, denatured	Inf. L	Red.
Alcohol, ethyl	Inf. L	Red.
Alcohol, isobutyl	Comb. L	
•Alcohol, n. o. s.	Comb. L	
•Alcohol, propyl (see: "Alcohol, n. o. s.")	Comb. L	
•Alcohol, propyl	Inf. L	Red.
•Alcohol, tertiary	Inf. L	Red.
Alcohol, wood (methanol)	Inf. L	Red.
Alkaline corrosive battery fluid	Cor. L	White.
Alkaline corrosive battery fluid with storage battery. (See: "Electrolyte (acid) or alkaline corrosive battery fluid packed with storage batteries.")		
Alkaline corrosive liquids, n. o. s.	Cor. L	White.
Allyl alcohol. (See: "Alcohol, allyl, liquid.")		
Allyl bromide	Inf. L	Red.
•Aluminum liquid (or paint) (see: "•Paint, enamel, etc.")	Inf. L	Red.
Aluminum nitrate (see: "*Nitrates*")	Oxy. M	
Aluminum powder, uncoated	Haz	
Ammonia, anhydrous. (See: "Anhydrous ammonia.")		
Ammonium arsenate, solid	Pois. B	Poison.
Ammonium bichromate	Oxy. M	Yellow.
Ammonium nitrate (see: "*Nitrates*")	Oxy. M	
Ammonium perchlorate	Oxy. M	Yellow.
Ammonium permanganate	Oxy. M	Yellow.
Ammonium picrate. (See: "High explosives.")		
Ammonium picrate, wet (*When wet with not less than 10% of water and in a quantity not exceeding 16 ounces in one outside package*).	Inf. S	
Ammunition, chemical (containing class A poisons, liquids, or gases). (See: "*Chemical ammunition.*")		
Ammunition, chemical (containing class B poisons, liquids, or gases). (See: "*Chemical ammunition.*")		
Ammunition, chemical (containing class C poisons, liquids or solids). (See: "*Chemical ammunition.*")		
Ammunition, chemical, explosive. (See: "*Ammunition—Projectiles, grenades, bombs, mines, and torpedoes.*")		
Ammunition for cannon, nonexplosive	No restrictions	—
Ammunition for cannon with empty projectiles (see: "*Ammunition for cannon with nonexplosive projectile*").	Expl. B	
Ammunition for cannon with explosive gas, smoke, or incendiary projectiles.	Expl. A	
Ammunition for cannon with nonexplosive projectiles	Expl. B	
Ammunition for cannon with sand-loaded projectiles (see: "*Ammunition for cannon with nonexplosive projectile*").		
Ammunition for cannon with solid projectiles. (see: "*Ammunition for cannon with nonexplosive projectile*").	Expl. B	
Ammunition for cannon without projectiles (see: "*Ammunition for cannon with nonexplosive projectile*").	Expl. B	
Ammunition for small arms	Expl. C	
Ammunition for small arms with explosive bullets	Expl. A	
•Amyl acetate	Comb. L	
•Amyl acetate	Inf. L	Red.
Amyl chloride	Inf. L	Red.
Amyl nitrite	Inf. L	Red.
Anhydrous ammonia	Noninf. G	Green.
Aniline oil drums empty	Haz	
Aniline oil, liquid	Pois. B	Poison.
•Anti-freeze compounds, liquid	Comb. L	
•Anti-freeze compounds, liquid	Inf. L	Red.
•Anti-freeze preparations, proprietary, liquid	Inf. L	Red.

[1] Unless otherwise exempt by the provisions of the detailed regulations.

Article	Classed as—	Label req.[1]
Antimony pentachloride	Cor. L	White.
Argon	Noninf. G	Green.
Arsenate of lead. (See: "Lead arsenate.")		
Arsenic acid, liquid	Pois. B	Poison.
Arsenic acid, solid	Pois. B	Poison.
Arsenic bromide, solid	Pois. B	Poison.
Arsenic chloride (arsenous) liquid	Pois. B	Poison.
Arsenic iodide, solid	Pois. B	Poison.
Arsenic metal, solid	Pois. B	Poison.
Arsenic pentoxide, solid	Pois. B	Poison.
Arsenic, solid. (See: "Arsenic metal, solid.")		
Arsenic sulfide (powder), solid	Pois. B	Poison.
Arsenic trichloride, liquid (see: "Arsenic chloride (arsenous) liquid")	Pois. B	Poison.
Arsenic trioxide, solid	Pois. B	Poison.
Arsenic, white, solid	Pois. B	Poison.
Arsenical compounds or mixtures, N. O. S., liquid	Pois. B	Poison.
Arsenical compounds or mixtures, N. O. S., solid	Pois. B	Poison.
Arsenical dip, liquid (sheep dip)	Pois. B	Poison.
Arsenical dust. (See: "Insecticide, dry.")		
Arsenical flue dust. (See: "Insecticide, dry.")		
Arsenous and mercuric iodide solution, liquid	Pois. B	Poison.
Arsenous acid, solid	Pois. B	Poison.
•Asphalt, cut-back. (See: "Road asphalt or tar, liquid.")		
•Asphalt	Haz	
Automobiles, motorcycles, tractors, or other self-propelled vehicles, *new or used, when offered for transportation, without boxing or crating and containing no gasoline, or other motor fuel, within the fuel tanks.*	Haz	
Automobiles, motorcycles, tractors, or other self-propelled vehicles, *new or used, when offered for transportation without boxing or crating and containing gasoline, or other motor fuel, within the fuel tanks.*	Haz	
Automobiles, motorcycles, tractors, or other self-propelled vehicles, *new or used, within boxes or crates, when shipped as cargo, and containing no lubricating oil, gasoline, or other motor fuel within the motor or fuel tank.*	Haz	
Bags, nitrate of soda, empty and unwashed	Inf. S	Yellow.
Bags, nitrate of soda, empty and washed. (See: "Burlap bags, used and washed.")		
Barium binoxide (see: "Barium peroxide")	Oxy. M	Yellow.
Barium chlorate (see: "*Chlorates*")	Oxy. M	Yellow.
Barium chlorate, wet (see: "*Chlorates, wet*")	Oxy. M	Yellow.
Barium cyanide, solid	Pois. B	Poison.
Barium dioxide (see: "Barium peroxide")	Oxy. M	Yellow.
Barium nitrate (see: "*Nitrates*")	Oxy. M	
Barium perchlorate (see: "*Perchlorates*")	Oxy. M	Yellow.
Barium permanganates (see: "*Permanganates*")	Oxy. M	Yellow.
Barium peroxide	Oxy. M	Yellow.
Barrels, empty. (See: "Drums, empty.")		
Batteries, dry	No restrictions	
Batteries, electric, storage wet	Cor. L	White.
Batteries, electric, storage, wet, with containers of corrosive battery fluid. (See: "Electrolyte (acid) or alkaline corrosive battery fluid packed with storage batteries.")		
Battery charger with electrolyte (acid) or alkaline corrosive liquid. (See: "Electrolyte (acid) or alkaline corrosive battery fluid packed with battery charger or radio current supply device or parts thereof.")		
Battery fluid. (See: "Electrolyte (acid) battery fluid" or "Alkaline corrosive battery fluid.")

[1] Unless otherwise exempt by the provisions of the detailed regulations.

(R. S. 4405, as amended, 4472, as amended; 46 U. S. C. 375, 170. Interpret or apply sec. 5, 55 Stat. 244, as amended; 50 U. S. C. App. 1275.)

3. Sections 146.21–1 to 146.21–100, inclusive, are amended to read as follows:

SUBPART—DETAILED REGULATIONS GOVERNING INFLAMMABLE LIQUIDS

Sec.
146.21–1 Definition of inflammable liquid.
146.21–5 Inflammable liquid defined.
146.21–10 Export shipments of inflammable liquids.
146.21–15 Stowage on board vessels.
146.21–20 "On deck" stowage.
146.21–25 "Under deck" stowage.
146.21–30 Prohibited storage.
146.21–35 Boundary bulkheads.
146.21–40 Hatch closing means.
146.21–45 Ventilation.
146.21–50 Electrical equipment in holds.
146.21–55 Smoking prohibited, warning signs.
146.21–60 Potable spirits.
146.21–65 Limited quantity shipments.
146.21–70 Limited quantity shipments of paint products.
146.21–75 Limited quantity shipments of polishes.
146.21–100 Table D—Classification: Inflammable liquids.

AUTHORITY: §§ 146.21–1 to 146.21–100 issued under R. S. 4405, as amended, 4472, as amended; 46 U. S. C. 375, 170. Interpret or apply sec. 5, 55 Stat. 244, as amended; 50 U. S. C. App. 1275.

§ 146.21–1 *Definition of inflammable liquid.* An inflammable liquid (flammable liquid) is defined by the ICC regulations as set forth in § 146.21–5, and such definition is binding upon all shippers making shipments of inflammable liquids (flammable liquids) by common carrier vessels engaged in interstate or foreign commerce by water. This definition is accepted and adopted and forms part of the regulations in this subchapter applying to all shippers making shipments of inflammable liquids (flammable liquids) on any vessel and shall apply to the owners, charterers, agents, master, or other person in charge of a vessel and to other persons transporting, carrying, conveying, storing, stowing or using inflammable liquids (flammable liquids), on board any vessel subject to R. S. 4472, as amended; 46 U. S. C. 170, and the regulations in this subchapter.

§ 146.21–5 *Inflammable liquid defined.* An inflammable liquid (flammable liquid) is any liquid which gives off inflammable (flammable) vapors (as determined by flashpoint from Tagliabue's open-cup tester, as used for test of burning oils) at or below a temperature of 80° F.

§ 146.21–10 *Export shipments of inflammable liquids.* Certain inflammable liquids are permitted by these regulations to be exported under shipping names differing from shipping names as required in domestic transportation. Such substances together with these "synonym" shipping names are indicated in the tables in § 146.21–100 and the "synonym" shipping names that are permitted are shown thereon. Substances shipped under these "synonym" shipping names may be accepted on board vessels that are permitted to transport such substances in export; provided the shipment otherwise conforms to the provisions of the regulations in this part. Stowage on board vessels shall be in accordance with the stowages indicated in the tables for the particular character of vessel involved.

§ 146.21–15 *Stowage on board vessels.* All inflammable liquids permitted for transportation on board vessels shall, when taken on board a vessel, be stowed in accordance with the provisions applying to the particular character of vessel as shown in the tables, § 146.21–100, and with the detailed regulations of stowage shown herein.

§ 146.21–20 *"On deck" stowage.* (a) Inflammable liquids, stowage of which is permitted "On deck" by the provisions of the table § 146.21–100 shall be properly secured, when so stowed, in a manner satisfactory to the master or other person in charge of the vessel consistent with the following conditions:

(1) Such inflammable liquid shall be so stowed as to provide safe access to the crew's quarters and to all parts of the deck required to be used in the navigation and necessary working of the vessel.

(2) Such inflammable liquids shall not be stowed within a distance in a horizontal plane of 25 feet of an operating or embarkation point of a lifeboat when such point is at the same deck level as that upon which an inflammable liquid cargo is stowed, except on a vessel which by reason of its breadth, it is impossible to provide such horizontal distance; deck stowage is permitted when the cargo is confined to only one side of the center line of the vessel.

(3) Fire plugs, sounding pipes and access to same shall be maintained free and clear of inflammable liquid cargo stowed "On deck."

(b) On passenger-carrying vessels, when limited stowage of inflammable liquid is permitted "On deck", such liquids shall be stowed well away from any deck or spaces provided for use of passengers.

(c) At least one section of fire hose shall be connected with an adequate water supply and shall be in readiness for use adjacent to inflammable liquids when stowed "On deck". No cargo shall be stowed "On deck" unless two portable fire extinguishers of at least 2½ gallon foam type each or equivalent shall be located in a position easily accessible to such cargo.

§ 146.21-25 *"Under deck" stowage.* (a) Stowage of inflammable liquids "Under deck" shall be either in ventilated holds or in holds that are gastight.

(b) Inflammable liquids that are permitted by these regulations to be stowed in a cargo hold or a compartment on board a passenger vessel shall not be so stowed unless the compartment or hold authorized for such stowage is fitted with either an overhead water sprinkler system, inert gas or steam smothering system.

(c) Inflammable liquids permitted on passenger vessels may be stowed in a hold or compartment the overdeck of which forms a boundary of a passenger space, provided such overdeck is of an AI type of construction or in lieu thereof is fitted on its underside in way of the passenger area with three inches of incombustible insulation.

(d) Compartments or holds in which inflammable liquid cargo is to be stowed and which are fitted with electrical circuits having outlets within the compartment or hold shall have such circuits disconnected from all sources of power supply unless the fixtures within the hold are of a vapor proof type, and such circuits shall not be again connected for power until the compartment or hold has been freed of any accumulation of inflammable vapors.

(e) After the stowage of inflammable liquid cargo has commenced in a compartment or hold that is not fitted with vapor proof type of electrical outlets, no portable means of artificial lighting shall be used within such a compartment or hold unless such portable equipment is of the vapor proof type. Electrical connections for permitted portable lighting shall be made to outlets located outside of the compartment or hold and above the weather deck. Hand flashlights shall be of the non-sparking type.

§ 146.21-30 *Prohibited storage.* (a) Inflammable liquids in any quantity shall not be stowed in a magazine in which is stowed any explosive, nor in a compartment or hold in which a magazine containing explosives is located.

(b) Inflammable liquids in a quantity in excess of 1 ton shall not be stowed "On deck" in vessels carrying Class "A" Dangerous Explosives or Class "B" Less Dangerous Explosives, unless the engine and boiler room spaces intervene between holds containing explosives and the space over which these liquids are stowed.

(c) Inflammable liquids in quantities in excess of 1 ton shall not be stowed in the same compartment, or in a compartment adjacent, or over, or under one in which inflammable compressed gases (except liquefied petroleum gases), as shown in the tables appearing in the compressed gas section (§ 146.24-100) are stowed. Small cargo vessels, having only two holds adjacent to each other, may stow inflammable liquids and compressed gases in adjacent holds provided such are separated from each other by the maximum horizontal distance available.

(d) Inflammable liquids may be stowed in a compartment having a boundary bulkhead or deck which also forms a boundary to a boiler room, engine room or a coal bunker or galley provided no containers of such inflammable liquid are stowed within twenty (20) feet of such bulkhead or deck. When the amount of such inflammable liquid to be stowed in the hold exceeds the space available the twenty (20) feet separation need not be complied with provided one or more of the following protections are provided:

(1) The bulkhead or deck is insulated with at least three (3) inches of insulation throughout its entire area subject to heat.

(2) A temporary wooden bulkhead of at least two inches thickness is constructed in the hold at least three inches off the engine room and six inches off the boiler room bulkhead and covering the entire area of the bulkhead that is subject to heat. The space between the permanent bulkhead and the temporary wooden bulkhead shall be filled full with bulk asbestos or mineral wool.

(3) A temporary wooden bulkhead constructed of one inch T and G sheathing located three feet off the boiler room or engine room bulkhead and filled with sand to a height of six feet above the tank top.

(e) Cargo compartment located "Tween decks" and having a boundary bulkhead which also forms a boundary to a boiler room, engine room, coal bunker, galley or a boiler room uptake casing may be utilized for the stowage of inflammable liquids under the conditions as outlined in paragraph (d) except that the provision in subparagraph (3) requiring filling with sand to a height of 6 feet shall be modified to provide for only 3 feet of sand.

(f) Inflammable liquids in drums or in export wooden cases having inside containers in excess of one quart capacity shall not be stowed as beam fillers. Wooden barrels, wooden boxes, and fiberboard boxes with inside containers of inflammable liquids of less than one quart capacity shall not be stowed as beam fillers unless it is possible to stow and observe "This Side Up" markings.

§ 146.21-35 *Boundary bulkheads.* Holds, with bulkheads in which cargo openings to adjacent holds are fitted, shall not be used for the stowage of inflammable liquids unless such openings are provided with means to securely close off and make the hold gas tight or unless the adjacent hold is also used for the stowage of inflammable or combustible liquid cargo.

§ 146.21-40 *Hatch closing means.* All unit compartments or holds used for the stowage of inflammable liquids shall be provided with full and efficient hatch covers. Tarpaulins if fitted or required to be fitted shall be protected by dunnaging before overstowing with cargo. Such tarpaulins shall be in one piece and free of rents, tears, or holes.

§ 146.21-45 *Ventilation.* All cargo holds in which inflammable liquids are to be stowed and which are provided with means for ventilating shall, before any inflammable liquid cargo in a quantity in excess of 1 ton be stowed in such hold, have fire screens fitted at the weather end of the vent ducts. This fire screen shall consist of two layers of fine brass wire screen of at least a 20 x 20 mesh spaced not less than ½ inch or more than 1½ inches apart. This screen may be removable, and if so fitted, means for effectively securing the same in place when in service shall be provided. Mushroom type heads shall have similar fire screens so fitted as to completely and efficiently cover the open area. For holds that are gas tight and fitted with vent trunks such vent trunks may be efficiently blanked off at both termini in lieu of fitting flame screens. Stowage of inflammable liquids in a quantity in excess of 1 ton shall not be permitted in holds or compartments that are fitted with gooseneck type of vent trunk heads.

§ 146.21-50 *Electrical equipment in holds.* Inflammable liquids shall not be stowed in holds or compartments in which electrical apparatus of any type except vapor proof are fitted unless positive means for disconnecting all such electrical apparatus are provided and such control means are located outside the boundaries of said space. Electrical power lines passing through a hold that is to be used for the stowage of inflammable liquids shall have such run of cable protected by metal covering to prevent damage and possible short circuit. Such metal protection shall be substantial enough to prevent crushing by reason of cargo which might be stowed against same.

§ 146.21-55 *Smoking prohibited, warning signs.* (a) Smoking prohibited in the vicinity of inflammable liquid cargo stowed "On deck" and in holds in which such cargo is stowed or in the vicinity of ventilators from such holds.

(b) Signs carrying the legend

Inflammable Vapors
Keep Lights and Fire Away
No Smoking

shall be posted at each avenue of approach to inflammable liquid cargo when stowed "On deck" and in the vicinity of cargo hold ventilators when inflammable cargo is stowed in the hold. Such sign shall be painted on a white background using a bright red color for lettering. The letters shall not be less than 3 inches high.

§ 146.21-60 *Potable spirits.* Potable spirits packed in strong, tight barrels, drums, casks, wooden or fiberboard boxes may, when stowed in a compartment not subject to artificial heat, be transported on board any vessel without further restriction.

§ 146.21-65 *Limited quantity shipments.* (a) Inflammable liquids, except those enumerated in paragraph (c) of this section, in inside glass or earthenware containers having a capacity not over 1 pint or 16 ounces by weight each, or inside metal containers not over 1 quart capacity each, packed in strong outside containers, except as otherwise provided, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

(b) Such shipments may be accepted on board vessels subject to the regulations in this subpart, provided the bill of lading or other shipping paper correctly describes the article in accordance with the true name as shown in the commodity list. Stowage shall be "On deck under cover" or "Tween decks" in a compartment not subject to artificial heat.

(c) The following articles in any quantity are not exempt from any of the provisions of the regulations in this subpart:

(1) Acrolein.
(2) Carbon bisulfide (disulfide).
(3) Ethyl chloride.
(4) Ethyl trichlorosilane.
(5) Ethylene oxide.
(6) Inflammable liquids (flammable liquids) which are also corrosive liquids or oxidizing materials under those regulations.

§ 146.21-100 *Table D—Classification: Inflammable liquids.*

Descriptive name of article	Characteristic properties, contents, marking required	Label required	Cargo vessel	Passenger vessel	Ferry vessel, passenger or vehicle	R. R. car ferry, passenger or vehicle
Acetaldehyde (ethyl aldehyde).	*A clear, volatile liquid with a pungent, fruity odor. Will evaporate rapidly. Vapors when mixed with air are explosive over a very wide range. Should be kept away from heat. Flashpoint about 0° F. Boiling point 70° F. Miscible with water. Keep cool.*	Red	Stowage: "On deck protected." "On deck under cover." Outside containers: Steel barrels or drums (ICC-5, 5A, 5B, 5C, 5D) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C) STC, not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs, WIC (ICC-15A, 15B, 15C, 16A, 16A) not over 16 gal. cap. Wooden boxes, WIC (ICC-15A, 15B, 15C, 16A, 16A) not over 16 gal. cap. Fiberboard boxes, WIC (ICC-12B) not over 65 lb. gr. wt. Fiber or plywood drums, WIC (ICC-21A, 22A, 21B) not over 110 gal. cap. Cylinders as prescribed for any compressed gas except acetylene. Tanks cars (ICC-103, 103W, 104A-W, 104, 104W, 104A, 104A-W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, ARA IV-H, ARA IV, ARA IV-A).	Not permitted.	Not permitted.	Not permitted.

Descriptive name of article	Characteristic properties, cautions, markings required	Label required	Required conditions for transportation			
			Cargo vessel	Passenger vessel	Ferry vessel, passenger or vehicle	R. R. car ferry, passenger or vehicle
Acetone	*A clear, colorless, liquid having a pleasant odor somewhat similar to wood alcohol. Vapors are 2 times heavier than air and when mixed with air are explosive over a range of 2% to 13% in air. Sustained inhalation of vapors in unventilated compartments is dangerous. Flashpoint about 4° F. Boiling point 133° F. Miscible with water.*	Red.	Stowage: "On deck protected." "On deck under cover." "Tween decks readily accessible." Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C) STC, not over 55 gal. cap. (ICC-17E) STC, not over 5 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap. Wooden boxes, WIC (ICC-15A, 15B, 15C, 16A, 19A) not over 16 gal. cap. Fiberboard boxes, WIC (ICC-12B) not over 65 lb. gr. wt. Fiber or plywood drums, WIC (ICC-21A, 22A, 22B) not over 1 gal. cap. Cylinders as prescribed for any compressed gas except acetylene. Tank cars (ICC-103, 103W, 103AL-W, 104, 104W, 104A, 104A-W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, ARA-II, ARA-III, ARA-IV, ARA-IVA).	Not permitted.	Not permitted.	Not permitted.
Acetone oils (When possessing a flashpoint at or below 80° F.)	*Only residuum obtained as a by-product in the distillation of acetone. Flashpoint variable but usually low.*	Red.				
Acrylonitrile	*Flashpoint about 32° F. Boiling point 172° F.*	Red.				
Acrolein (*inhibited*)	*A clear greenish yellow inflammable liquid having a pungent disagreeable odor. It is irritating to the eyes and respiratory organs. It is also poisonous. Very soluble in water. Flashpoint about 12° F. Boiling point about 125° F. In event of leakage, flush with large quantities of water. Keep cool. Stow well away from living quarters and all sources of heat.*	Red.	Stowage: "On deck protected." "On deck under cover." Outside containers: Metal drums (ICC-5A) not over 55 gal. cap. Wooden boxes (ICC-15A, 15B, 15C, 16A, 19A) WIC, not over 5 gal. cap.	Not permitted.	Not permitted.	Not permitted.
Alcohol or alcohol, N. O. S. (When possessing a flashpoint at or below 80° F.)	*General: These alcohols are colorless, volatile liquids about 80% as heavy as water and possessing a characteristic odor. Their vapors are heavier than air, and will form explosive mixtures over varying ranges of percentages with air.*	Red.	Stowage: "On deck in open." "On deck under cover." "Tween decks readily accessible." "Under deck away from heat." Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C, 17E, 17H) STC not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A, 10B) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap. Fiberboard boxes, WIC (ICC-12B) not over 65 lb. gr. wt. Fiber or plywood drums, WIC (ICC-21A, 22A, 22B) not over 1 gal. cap. Cylinders as prescribed for any compressed gas except acetylene.	Stowage: "On deck in open." "On deck under cover." "Tween decks readily accessible." Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C, 17E, 17H) STC not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A, 10B) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap.	Ferry stowage (AA). Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C, 17E, 17H) STC not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A, 10B) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap. Fiberboard boxes, WIC: (ICC-12B) not over 65 lb. gr. wt. (ICC-12E) WIMC not over 110 lb. gr. wt. Fiber or plywood drums, WIC (ICC-21A, 22A, 22B) not over 1 gal. cap. Cylinders as prescribed for any compressed gas except acetylene.	Ferry stowage (BB). Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C, 17E, 17H) STC not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A, 10B) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap.
Alcohol, butyl		Red.				
Alcohol, denatured		Red.				
Alcohol, ethyl		Red.				
Alcohol, propyl		Red.				
Alcohol, tertiary		Red.				
Alcohol, wood (methanol)		Red.				
Butyl alcohol		Red.				
Cologne spirits (alcohol)		Red.				
Columbian spirits (*wood alcohol*)		Red.				
Extracts, liquid flavoring		Red.				
Isopropanol		Red.				
Methanol (*methyl alcohol*)		Red.				
Rum, denatured (When possessing a flashpoint at or below 80° F.)		Red.				

Descriptive name of article	Characteristic properties, cautions, markings required	Label required	Required conditions for transportation			
			Cargo vessel	Passenger vessel	Ferry vessel, passenger or vehicle	R. R. car ferry, passenger or vehicle
Allyl bromide	*Colorless heavy liquid having a pungent odor. Insoluble in water. Does not evaporate readily. Fumes somewhat irritating to eyes and tissue. Flashpoint below 80° F.*	Red.	Stowage: "On deck in open." "On deck under cover." "Tween decks readily accessible." "Under deck away from heat." Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C, 17E, 17H) STC not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A, 10B) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap. Wooden boxes, WIC (ICC-15A, 15B, 15C, 16A, 19A) not over 16 gal. cap. Fiberboard boxes, WIC: (ICC-12B) not over 65 lb. gr. wt. (ICC-12E) WIMC not over 110 lb. gr. wt. Fiber or plywood drums, WIC (ICC-21A, 22A, 22B) not over 1 gal. cap. Cylinders as prescribed for any compressed gas except acetylene. Tank cars (ICC-103, 103W, 103AL-W, 104, 104W, 104A, 104A-W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, ARA-II, ARA-III, ARA-IV, ARA-IVA). Authorized only for export shipments: Steel barrels or drums (ICC-17X) STC, not over 55 gal. cap. Wooden boxes, WIMC (ICC-15X) not over 10 gal. cap.	Stowage: "On deck in open." "On deck under cover." "Tween decks readily accessible." Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC-5M) not over 55 gal. cap. (ICC-17C, 17E, 17H) STC not over 55 gal. cap. Aluminum barrels or drums (ICC-42B, 42C) not over 110 gal. cap. Wooden barrels or kegs: (ICC-10A, 10B) not over 50 gal. cap. (ICC-11A, 11B) WIC not over 16 gal. cap. Fiberboard boxes, WIC (ICC-12B) not over 65 lb. gr. wt. Fiber or plywood drums, WIC (ICC-21A, 22A, 22B) not over 1 gal. cap. Cylinders as prescribed for any compressed gas except acetylene.	Ferry stowage (AA). Outside containers: Steel barrels or drums: (ICC-5, 5A, 5B, 5C, 5G) not over 110 gal. cap. Drugs, chemicals, medicines, or cosmetics, N. O. S. A unit substance or a compound classified as an inflammable liquid in accordance with the definition contained herein, when prepared, packed and offered to the trade as drugs, chemicals, medicines, or cosmetics. In quantity not exceeding 1 pint or 16 ounces by weight, in glass or earthenware containers, or 1 quart or 32 ounces by weight in inside metal containers. The following substances shall not be shipped under this designation: Acrolein. Carbon bisulfide (disulfide). Ethyl chloride. Ethyl trichlorosilane. Ethylene oxide. Inflammable liquids (flammable liquids) which are also corrosive liquids or oxidizing materials under these regulations. Lithium aluminum hydride (ethereal). Nickel carbonyl. Pentaborane. Spirits of nitroglycerin in excess of 1 percent by weight. Trichlorosilane. Zinc ethyl.	Observe instructions regarding "This side up" storage when packages are so marked. It is not required that the containers be ICC specification containers, although ICC specification containers are acceptable, but the officer in charge of loading the vessel shall satisfy himself that they are sufficient in all respects for the purpose intended. He shall refuse any containers showing damage, leakage or an inability to properly contain the substance.	No label required	Stowage: "On deck protected." "On deck under cover." "Tween decks readily accessible." Outside containers: Strong wooden barrels, WIC, not over 400 lb. gr. wt. Strong wooden boxes, WIC, not over 200 lb. gr. wt. Fiberboard boxes, WIC, not over 65 lb. gr. wt.	Stowage: "On deck protected." "On deck under cover." "Tween decks readily accessible." Outside containers: Strong woolen barrels, WIC, not over 400 lb. gr. wt. Strong wooden boxes, WIC, not over 200 lb. gr. wt. Fiberboard boxes, WIC, not over 65 lb. gr. wt.	Ferry stowage (AA).....	Ferry stowage (BB).
